FRANKLIN ELECTRIC CO., INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

1. CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

The accompanying condensed consolidated balance sheet as of January 3, 2009, which has been derived from audited financial statements, and the unaudited interim condensed consolidated financial statements as of April 4, 2009 and for the first quarter ended, April 4, 2009 and March 29, 2008, have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Certain information and note disclosures normally included in annual financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to those rules and regulations. In the opinion of management, all accounting entries and adjustments (including normal, recurring accruals) considered necessary for a fair presentation of the financial position and the results of operation for the interim period have been made. Operating results for the first quarter ended April 4, 2009 are not necessarily indicative of the results that may be expected for the fiscal year ending January 2, 2010. For further information, including a description of the Company's critical accounting policies, refer to the consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended January 3, 2009.

2. ACCOUNTING PRONOUNCEMENTS

In September 2006, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards ("SFAS") No. 157, Fair Value Measurements. This statement defines fair value in generally accepted accounting principles and expands disclosures about fair value measurements that are required or permitted under other accounting pronouncements. This statement was effective for financial statements issued for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years. The Company's adoption of this statement in first quarter 2008 had no impact on its consolidated financial position, results of operations and cash flows. The Company also adopted the deferral provisions of SFAS No. 157-2, which delayed the effective date of SFAS No. 157 for all nonrecurring fair value measurements of non-financial assets and liabilities until fiscal years beginning after November 15, 2008. The Company's adoption of this statement in first quarter 2009 had no impact on its consolidated financial position, results of operations and cash flows.

In December 2007, the FASB issued SFAS No. 141(R), Business Combinations—a replacement of FASB No. 141. SFAS No. 141(R) establishes principles and requirements for how the acquirer of a business recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, and any noncontrolling interest in the acquiree. The statement also provides guidance for recognizing and measuring the goodwill acquired in the business combination and determines what information to disclose to enable users of the financial statements to evaluate the nature and financial effects of the business combination. SFAS No. 141(R) is effective for financial statements issued for fiscal years beginning after December 15, 2008. The Company's adoption of this statement impacted the accounting for its first quarter acquisition of Vertical S.p.A (see Note 3 for a description of this acquisition). Preliminary asset valuation estimates were booked on the statement of financial position and direct costs of the business combination were expensed in the results of operations.

In December 2007, the FASB issued SFAS No. 160, Noncontrolling Interests in Consolidated Financial Statements—an amendment of Accounting Research Bulletin ("ARB") No. 51. SFAS No. 160: (a) amends ARB No. 51 to establish accounting and reporting standards for the noncontrolling interest in a subsidiary and the deconsolidation of a subsidiary; (b) changes the way the consolidated income statement is presented; (c) establishes a single method of accounting for changes in a parent's ownership interest in a subsidiary that do not result in deconsolidation; (d) requires that a parent recognize a gain or loss in net income when a subsidiary is deconsolidated; and (e) requires

expanded disclosures in the consolidated financial statements that clearly identify and distinguish between the interests of the parent’s owners and the interests of the noncontrolling owners of a subsidiary. SFAS No. 160 must be applied prospectively; however, the presentation and disclosure requirements must be applied retrospectively to provide comparability in the financial statements. Early adoption is prohibited. SFAS No. 160 is effective for fiscal years, and interim periods within those fiscal years, beginning on or after December 15, 2008.

The Company adopted SFAS No. 160 and has included the required changes in the presentation of its first quarter financial statements. The Company currently has two subsidiaries that are each 75 percent owned by the Company and 25 percent owned by minority shareholders (i.e., the noncontrolling interest). The change to the Statements of Income includes the separate presentation of net income attributable to the noncontrolling interest in its subsidiaries previously included in the “other income” line of the Statement of Income. The changes to the Balance Sheets include a separate presentation of noncontrolling interest previously included in “long term liabilities” and the addition of a mezzanine equity item “redeemable noncontrolling interest” for an acquisition related put option. The change to the Statements of Cash Flows includes net income before net income attributable to the noncontrolling interest in the presentation of cash flows from operating activities.

In March 2008, the FASB issued SFAS No. 161, Disclosures about Derivative Instruments and Hedging Activities. The statement amends SFAS No. 133 and requires enhanced disclosures about an entity’s derivative and hedging activities and thereby improves the transparency of financial reporting. The statement is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008, with early adoption encouraged. The Company’s adoption of this statement in first quarter 2009 had no impact on its consolidated financial position, results of operations and cash flows.

In April 2008, the FASB issued FASB Staff Position (“FSP”) SFAS 142-3, Determination of the Useful Life of Intangible Assets. This FSP amends the factors that should be considered in developing renewal or extension assumptions used to determine the useful life of a recognized intangible asset under SFAS No. 142, Goodwill and Other Intangible Assets. The intent of this FSP is to improve the consistency between the useful life of a recognized intangible asset under SFAS No. 142 and the period of expected cash flows used to measure the fair value of the asset under SFAS No. 141(R), Business Combinations, and other U.S. generally accepted accounting principles (GAAP). This FSP is effective for financial statements issued for fiscal years beginning after December 15, 2008, and interim periods within those fiscal years. Early adoption is prohibited. The Company’s adoption of this FSP in first quarter 2009 had no impact on its consolidated financial position, results of operations and cash flows.

3. ACQUISITIONS

In an agreement dated January 16, 2009, between the Company and Vertical S.p.A., the Company acquired 75 percent of the outstanding shares of Vertical for approximately €15.0 million, \$19.9 million at the then current exchange rate, subject to certain terms and conditions. The acquisition was funded solely with cash.

Vertical specializes in the design, development and manufacture of pressed and welded stainless steel pumps and pump components. The Company has a strong global water systems distribution network and will partner with Vertical to address the growing worldwide demand for stainless steel water pumps.

The preliminary goodwill of \$2.8 million consists primarily of the pump product synergies from joining the Company and Vertical. The Company will benefit from the added pump product line of stainless steel pumps and pump components. All of the goodwill was recorded as part of the Water Systems segment and is not expected to be deductible for tax purposes.

The purchase price assigned to each major identifiable asset and liability was as follows:

(In millions)

Assets:

Current assets	\$ 13.5
----------------	---------

Property, plant and equipment	6.7
Intangible assets	11.5
Goodwill	2.8
Total assets	\$ 34.5
Liabilities	(8.0)
Total identifiable net assets	\$ 26.5
Noncontrolling interest	(6.6)
Total purchase price	\$ 19.9

The fair value of the identifiable intangible assets, property, plant and equipment and noncontrolling interest are provisional amounts pending final valuations. Trade receivable carrying value approximates fair value as payment terms are within 60-90 days. The Company utilized management estimates and consultation with an independent third-party valuation firm to assist in the valuation.

Acquisition-related costs, included in selling, general and administrative expenses in the Company's statement of income, were \$0.2 million for the first quarter ended April 4, 2009.

4. FAIR VALUE MEASUREMENTS

SFAS No. 157, Fair Value Measurements, provides a framework for measuring fair value under generally accepted accounting principles. Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. SFAS No. 157 expands disclosures about instruments measured at fair value and establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Level 1 – Quoted prices for identical assets and liabilities in active markets;

Level 2 – Quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; and model-derived valuations in which all significant inputs and significant value drivers are observable in active markets; and

Level 3 – Valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

The Company designates the cash equivalents as Level 1, as they are Money Market accounts backed by Treasury Bills. As of April 4, 2009 and January 3, 2009, assets measured at fair value on a recurring basis were as follows:

(In millions)	April 4, 2009	Quoted prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Cash Equivalents	\$ 6.1	\$ 6.1	\$ -	\$ -

(In millions)	January 3, 2009	Quoted prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Cash Equivalents	\$ 21.1	\$ 21.1	\$ -	\$ -

5. INVESTMENTS – SECURITIES

As of April 4, 2009 and January 3, 2009, the Company held no significant current investments in equity securities. Income generated from investments held during first quarter 2008 was recorded as "Other income" in the statements of income. There was no such income in first quarter 2009. Cash paid for these securities and proceeds

from the sale of these securities were included in the “Cash flows from investing activities” section of the cash flows statements.

6. EQUITY INVESTMENTS

The Company holds a 35 percent equity interest in Pioneer Pump, Inc., which is accounted for using the equity method and included in “Other assets” on the face of the balance sheet. The carrying amount of the investment is adjusted for the Company’s proportionate share of earnings, losses and dividends. The carrying value of the investment was \$7.7 million as of April 4, 2009, and January 3, 2009, respectively. The Company’s proportionate share of Pioneer Pump, Inc. earnings, included in “Other income” in the Company’s statements of income, was zero and \$0.2 million, for the first quarters ended April 4, 2009 and March 29, 2008, respectively.

7. INTANGIBLE ASSETS AND GOODWILL

The carrying amounts of the Company's intangible assets are as follows:

(In millions)	April 4, 2009		January 3, 2009	
	Gross Carrying Amount	Accumulated Amortization	Gross Carrying Amount	Accumulated Amortization
Amortized intangibles:				
Patents	\$ 7.7	\$ (3.9)	\$ 6.7	\$ (3.8)
Supply agreements	7.2	(5.8)	7.2	(5.7)
Technology	7.0	(1.3)	7.0	(1.2)

Other	1.9	(1.8)	2.0	(1.9)
Total	\$ 88.3	\$ (19.2)	\$ 77.0	\$ (18.2)
Unamortized intangibles:				
Trade names	18.2	-	16.9	-
Total intangibles	\$ 106.5	\$ (19.2)	\$ 93.9	\$ (18.2)

Amortization expense related to intangible assets for the first quarters ended April 4, 2009 and March 29, 2008 was \$1.1 million and \$1.3 million, respectively.

Amortization expense is projected as follows:

(In millions)	2009	2010	2011	2012	2013
	\$ 5.0	\$ 5.0	\$ 4.8	\$ 4.6	\$ 4.2

The changes in the carrying amount of goodwill for the first quarter ended April 4, 2009, are as follows:

(In millions)	Water Systems	Fueling Systems	Consolidated
Balance as of January 3, 2009	\$ 96.5	\$ 51.6	\$ 148.1
Acquired	2.8	-	2.8
Adjustments to prior year acquisitions	(0.5)	0.8	0.3
Foreign currency translation	(0.5)	-	(0.5)
Balance as of April 4, 2009	\$ 98.3	\$ 52.4	\$ 150.7

The acquired goodwill in the Water Systems segment was related to the Company's acquisition of Vertical S.p.A., in the first quarter 2009.

8. EMPLOYEE BENEFIT PLANS

Defined Benefit Plans – As of April 4, 2009, the Company maintained three domestic pension plans and one German pension plan. The Company uses a December 31 measurement date for its plans.

The following table sets forth aggregated net periodic benefit cost for its pension plans and other post-retirement benefit plans for the first quarters ended April 4, 2009 and March 29, 2008:

(In millions)	Pension Benefits		Other Benefits	
	First Quarter Ended		First Quarter Ended	
	April 4, 2009	March 29,2008	April 4, 2009	March 29,2008
Service cost	\$ 0.8	\$ 1.0	\$ -	\$ -
Interest cost	2.4	2.2	0.2	0.2
Expected return on assets	(2.7)	(2.7)	-	-
Obligation/asset	-	-	-	0.1
Loss	0.1	-	-	-
Prior service cost	0.1	0.2	-	-
Settlement cost	-	0.2	0.1	-
Total net periodic benefit cost	\$ 0.7	\$ 0.9	\$ 0.3	\$ 0.3

Through April 4, 2009, the Company made contributions to the plans of \$1.0 million. The amount of contributions to be made to the plans during calendar year 2009 will be finalized by September 15, 2009 based upon the plans' year end valuation at December 31, 2008 and the desired funding level to be achieved as of December 31, 2009.

9. INCOME TAXES

The effective tax rate on income before income taxes in 2009 and 2008 varies from the United States statutory rate of 35 percent primarily due to the effects of state and foreign income taxes net of federal tax benefits.

10. ACCOUNTING FOR UNCERTAINTY IN INCOME TAXES

As of the beginning of fiscal year 2009, the Company had gross unrecognized tax benefits of \$6.8 million, excluding accrued interest and penalties. The unrecognized tax benefits were reduced by \$0.2 million for state income tax liabilities based on an evaluation during the first quarter of 2009. The Company had gross unrecognized tax benefits, excluding accrued tax and penalties, of \$6.6 million for the three months ended April 4, 2009. If recognized, the effective tax rate would be affected by the net unrecognized tax benefits of \$0.8 million, which is net of a federal benefit for state tax of \$0.3 million.

The Company recognizes interest and penalties related to unrecognized tax benefits as income tax expense. The Company's reserve for interest and penalties as of April 4, 2009 and as of January 3, 2009 was approximately \$0.4 million and \$0.4 million, respectively. Interest and penalties recorded during first quarter 2009 were not considered significant.

The Company is subject to periodic audits by domestic and foreign tax authorities. Currently, the Company is undergoing routine periodic audits in both domestic and foreign tax jurisdictions. It is reasonably possible that the amounts of unrecognized tax benefits could change in the next 12 months as a result of the audits.

For the majority of tax jurisdictions, the Company is no longer subject to U.S. federal, state and local, or non-U.S. income tax examinations by tax authorities for years before 2005.

11. DEBT

Debt consisted of the following at first quarters ended April 4, 2009 and January 3, 2009:

(In millions)	April 4, 2009	January 3, 2009
Prudential Agreement - 5.79 percent	\$ 150.0	\$ 150.0
Capital leases	3.0	1.2
Other debt	1.0	-
Agreement (i.e. revolving credit) - average rate for first quarter 2009 was 0.88 percent based on the London Interbank Offered Rates plus an interest spread	58.0	35.0
	212.0	186.2
Less current maturities	(59.0)	(0.7)
Long-term debt	\$ 153.0	\$ 185.5

The Company has certain overdraft facilities at its foreign subsidiaries, of which none were outstanding at April 4, 2009 and January 3, 2009.

The following debt payments are expected to be paid in accordance with the following schedule:

(In millions)

16. CONTINGENCIES AND COMMITMENTS

At April 4, 2009, the Company had \$1.4 million of commitments primarily for the purchase of machinery and equipment and building expansions.

The Company provides warranties on most of its products. The warranty terms vary but are generally two years from date of manufacture or one year from date of installation. In 2007, the Company began offering an extended warranty program to certain Water Systems customers which will provide warranty coverage up to five years from the date of manufacture. Provisions for estimated expenses related to product warranty are made at the time products are sold or when specific warranty issues are identified. These estimates are established using historical information about the nature, frequency, and average cost of warranty claims, and expected customer returns. The Company actively studies trends of warranty claims and takes action to improve product quality and minimize warranty claims. The Company believes that the warranty reserve is appropriate; however, actual claims incurred could differ from the original estimates, requiring adjustments to the reserve.

The changes in the carrying amount of the warranty accrual, as recorded in “Accrued liabilities” in the Company’s balance sheet for the three months ended April 4, 2009 are as follows:

(In millions)

Balance as of January 3, 2009	\$	9.3
Accruals related to product warranties		1.7
Reductions for payments made		(2.7)
Balance as of April 4, 2009	\$	8.3

17. SHARE-BASED COMPENSATION

Prior to March 9, 2009, the Company has authorized stock option grants to purchase common stock and common stock awards to employees and non-employee directors of the Company and its subsidiaries under two stock plans. The plans and the original number of authorized shares available for grant are as follows:

		Authorized Shares
Franklin Electric Co., Inc. Stock Option Plan	- Options	3,600,000
Franklin Electric Co., Inc. Stock Plan	- Options	1,150,000
Franklin Electric Co., Inc. Stock Plan	- Awards	150,000

During the first quarter ended April 4, 2009, all remaining authorized shares available for grant under the Franklin Electric Co., Inc. Stock Plan were awarded.

On April 24, 2009, the Amended and Restated Franklin Electric Co., Inc. Stock Plan (the "Stock Plan") was approved by the Company's shareholders. The Board of Directors of the Company had approved the Stock Plan on March 9, 2009. Under the Stock Plan, employees and non-employee directors may be granted stock options or awards. The Stock Plan was amended and restated to, among other things, increase the number of shares available for issuance under the Stock Plan from 1,300,000 to 2,200,000 shares. The number of authorized shares available for grant under the Stock Plan is as follows:

		Authorized Shares
Amended and Restated Franklin Electric Co., Inc. Stock Plan	- Options	1,600,000
Amended and Restated Franklin Electric Co., Inc. Stock Plan	- Awards	600,000

The Company currently issues new shares from its common stock balance to satisfy share option exercises and stock awards.

Stock Option Grants

The fair value of each option award for options granted or vesting after the adoption of FASB 123(R) is estimated on the date of grant using the Black-Scholes option valuation model with a single approach and amortized using a straight-line attribution method over the option's vesting period.

The assumptions used for the Black-Scholes model to determine the fair value of options granted during the first quarters ended April 4, 2009 and March 29, 2008 are as follows:

	April 4, 2009	March 29, 2008
Risk-free interest rate	0.70 - 3.55%	2.91 - 3.15%
Dividend yield	1.32 - 2.04%	1.11 - 1.12%
Weighted-average dividend yield	1.670%	1.119%
Volatility factor	0.3493 - 0.3795	0.3552 - 0.3714
Weighted-average volatility	0.3982	0.3691

As of April 4, 2009, there was \$1.0 million of total unrecognized compensation cost related to nonvested share-based compensation arrangements granted under the Plan. That cost is expected to be recognized over a weighted-average period of 1.58 years.

18. RESTRUCTURING

During the first quarter 2009, the Company continued the rationalization of manufacturing capacity between the manufacturing complex in Linares, Mexico and its other North American facilities. The current Water Systems segment realignment plan includes the phased move of approximately 500,000 man hours of manufacturing activity to Linares, approximately 80 percent of which is from Siloam Springs, Arkansas. The transfer is expected to be largely complete by June, 2009 and is anticipated to reduce manufacturing labor and overhead costs. Other restructuring expenses incurred in the first quarter of 2009 were related to integration expenses of a fourth quarter 2008 acquisition and other rationalization costs associated with global headcount reductions that were initiated in the first quarter 2009.

At the end of first quarter 2009, the cost of the rationalization and transfer continued to be estimated between \$6.0 million and \$8.0 million.

Costs incurred in the first quarter ended April 4, 2009, included in the Restructuring expense line of the income statement, are as follows:

(In millions)	First Quarter Ended April 4, 2009
Severance and other employee assistance costs	\$ 0.8
Equipment relocations	0.1
Total	\$ 0.9

As of the first quarter ended April 4, 2009 there was \$0.4 million in restructuring reserves primarily for severance. There were no restructuring reserves as of March 29, 2008.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

OVERVIEW

Sales for the first quarter of 2009 were down from the same quarter last year. The major factor causing the earnings decline during the quarter was the recession induced sales volume decline. Gross profit decreased in dollars by about 16 percent, but as a percentage of sales the decrease was only 40 basis points during the first quarter of 2009 versus the first quarter of 2008.

RESULTS OF OPERATIONS

Net Sales

	Q1 2009	Q1 2008	2009 v 2008
	Net Sales		
Water Systems	\$ 114.4	\$ 136.7	\$ (22.3)
Fueling Systems	\$ 35.4	\$ 39.3	\$ (3.9)
Other	\$ -	\$ -	\$ -
Consolidated	\$ 149.8	\$ 176.0	\$ (26.2)

Net sales for the first quarter of 2009 were \$149.8 million, a decrease of \$26.2 million or 15 percent compared to 2008 first quarter sales of \$176.0 million. A major factor causing the Company's earnings decline during the first quarter of 2009 was the sales volume reduction that was experienced as a result of the continuing recession. The ongoing slump in housing combined with the customer's desire to reduce inventories contributed to soft end market demand and fewer shipments for the Company's products in the first quarter. Additionally, first quarter 2009 sales were lower by \$13.3 million versus the first quarter 2008 due to foreign currency translations as a result of a stronger U.S. dollar. First quarter sales attributed to acquisitions were \$6.0 million.

Net Sales-Water Systems

Water Systems sales worldwide were \$114.4 million, down \$22.3 million or 16 percent for the first quarter of 2009 compared to the same period for 2008. Water Systems revenues represent about 75 percent of the Company's total sales. During the first quarter 2009, Water Systems revenues declined by 11 percent organically before the impact of foreign currency translations. Virtually the entire organic sales decline occurred as a result of weakness in the U.S. and Canada markets which represents about half of total Water Systems sales. Based on trade association data, management estimates that first quarter industry wide groundwater pump sales were down about 33 percent versus the prior year. While the Company's sales did not decline as much, sales nevertheless were impacted by the extraordinary drop in the overall market. Management believes the industry sales decline was caused by the ongoing slump in housing, with housing starts off by about 50 percent versus the first quarter 2008. In addition, downstream distributor and contractor customers reduced inventories during the quarter which negatively impacted shipments.

International water sales represent about half of the Water Systems revenues and were up about 3 percent in local currencies but were negatively impacted by \$12.8 million due to foreign currency translations. During the quarter, organic sales growth in Asia/Pacific, Latin America and Southern Africa offset a decline in Europe and the Middle East. Additionally, the Company completed the acquisition of 75 percent of Vertical S.p.A in Italy during the quarter as the Company continues to focus on building product capability while expanding international reach. Vertical's performance met Company expectations in the first quarter.

Net Sales-Fueling Systems

Fueling Systems sales worldwide were \$35.4 million, down \$3.9 million or 10 percent for the first quarter of 2009 compared to the same period for 2008. Fueling Systems represent about 25 percent of the Company's total revenues. Fueling Systems sales in the U.S. grew by about 2 percent, with sales growth in California offsetting an 8 percent decline in the balance of the country. Fueling Systems sales in international markets declined during the quarter because in the first quarter of 2008 there were heavy shipments of vapor control systems to the Beijing area as part of China's program to reduce air pollution prior to the Summer Olympics. The Company is encouraged that in March overall Fueling Systems sales were up 19 percent versus March 2008 as station owners in California continued their capital spending projects to comply with that state's vapor control mandate, and station owners outside of California also moved ahead with upgrade, replacement and expansion projects.

Management estimates that at the end of the first quarter 2009, approximately two thirds of the California filling stations requiring vapor recovery retrofit were completed and that the Company's market-share of these retrofits was approximately 90 percent. Of the roughly 4,100 stations remaining to complete the retrofit, the Company expects to win an approximately 60 to 70 percent share and that approximately 80 percent of the remaining station conversions will take place in the second and third quarters of 2009.

Cost of Sales

Cost of sales as a percent of net sales for the first quarter of 2009 and 2008 was 71.2 percent and 70.8 percent, respectively. Correspondingly, the gross profit margin decreased to 28.8 percent from 29.2 percent, a decline of only 40 basis points. Gross profit margins remained nearly unchanged in the quarter in spite of the significant sales volume reduction. The Company's gross profit was \$43.2 million, down by \$8.3 million from the \$51.5 million in 2008. Of the \$8.3 million decrease, about \$15 million was the result of reduced sales. Offsetting the decline in gross profit due to lower sales were the following: \$2.5 million as a result of better factory utilization, about \$2 million attributable to acquisitions, and sales price increases in excess of product cost increases.

Restructuring Expenses

Restructuring expenses for the first quarter of 2009 were approximately \$0.9 million and reduced diluted earnings per share by approximately \$0.02 per share. Restructuring expenses incurred in the first quarter related primarily to the announced manufacturing optimization plan which included charges for severance and equipment relocations. Other restructuring expenses incurred in the first quarter of 2009 were related to integration expenses of a fourth quarter 2008 acquisition and other rationalization costs associated with global headcount reductions that were initiated in the first quarter of 2009. The first quarter 2009 restructuring charges were primarily cash items. The Company expects to take between \$5 and \$6 million in additional restructuring charges in 2009 related to the Siloam Springs relocation and other severance costs related to reductions in our global work force. Approximately 2/3 of these remaining restructuring costs will be noncash.

Selling, General and Administrative ("SG&A")

Selling, general, and administrative (SG&A) expenses decreased by \$1.9 million in the first quarter of 2009 compared to first quarter last year. The acquisitions, primarily of Vertical (Italy), added approximately \$0.7 million to SG&A for the first quarter of 2009. SG&A expenses before the impact of acquisitions were lower by \$2.6 million which partially offset the impact of lower sales volumes.

Operating Income

Operating income was \$7.9 million in the first quarter of 2009, down \$7.2 million from \$15.1 million, a record for the first quarter 2008.

	Q1 2009	Q1 2008	2009 v 2008
	Operating income (loss)		
Water Systems	\$ 9.6	\$ 15.2	\$ (5.6)
Fueling Systems	\$ 7.0	\$ 9.0	\$ (2.0)
Other	\$ (8.7)	\$ (9.1)	\$ 0.4
Consolidated	\$ 7.9	\$ 15.1	\$ (7.2)

Operating Income-Water Systems

Operating margins for Water Systems in the first quarter of 2009 declined to 8.4 percent of sales versus 11.1 percent in the first quarter 2008. Operating margins for Water Systems were down in the first quarter primarily attributable to the year over year sales decline and restructuring expenses.

Operating Income-Fueling Systems

Operating margins in Fueling Systems were 19.8 percent of sales in the first quarter 2009 versus 22.9 percent of sales in the first quarter 2008, primarily attributable to lost leverage on the SG&A expenses from lower sales.

Operating Income-Other

Operating income other is composed primarily of unallocated general and administrative expenses. General and administrative expense decreases were consistent with management's fixed cost reduction initiatives started in the fourth quarter of 2008

Interest Expense

Interest expense for the first quarter of 2009 was \$2.4 million, a decrease of \$0.2 million, compared to 2008 first quarter interest expense of \$2.6 million.

Other Income or Expense

Included in other income for the first quarter of 2009 and 2008 was interest income of \$0.3 million and \$0.4 million, respectively, primarily derived from the investment of cash balances in short-term U.S. treasury and agency securities. Also included in other income for the first quarter of 2008 was income from equity investments of \$0.2 million.

Foreign Exchange

Foreign currency-based transactions produced a gain for the first quarter of 2009 of about \$0.1 million primarily due to euro rate changes relative to other currencies in Europe. Foreign currency-based transactions produced a loss for the same quarter of 2008 of \$0.3 million primarily due to euro rate changes relative to other currencies in Europe and the weakening U.S. dollar.

Income Taxes

The provision for income taxes in the first quarter of 2009 and 2008 was \$1.8 million and \$4.4 million, respectively. The effective tax rate for the first quarter of 2009 was 30.8 percent after the adjustment for one time credits and tax benefits during the quarter. The projected effective tax rate for the balance of 2009 is 34.3 percent. The effective tax rate differs from the United States statutory rate of 35 percent, generally due to foreign income exclusion and due to the effects of state and foreign income taxes, net of federal tax benefits.

Net Income

Net income for the first quarter of 2009 was \$4.1 million compared to 2008 first quarter net income of \$8.3 million. Net income attributable to Franklin Electric Co., Inc. for the first quarter of 2009 was \$3.8 million, or \$0.17 per diluted share, compared to 2008 first quarter net income attributable to Franklin Electric Co., Inc. of \$8.1 million or \$0.35 per diluted share.

CAPITAL RESOURCES AND LIQUIDITY

The Company's primary sources of liquidity are cash flows from operations and funds available under its committed, unsecured, revolving credit agreement maturing 2011 (the "Agreement") and its amended and restated uncommitted note purchase and private shelf agreement (the "Prudential Agreement"). The Company has no scheduled principal payments on the Prudential Agreement until 2015. As of April 4, 2009 the Company had \$62.0 million and \$25.0 million of borrowing capacity under the respective agreements. The uncertainty in the financial and credit markets has not impacted the liquidity of the Company and the Company expects that ongoing requirements for operations, capital expenditures, dividends, and debt service will be adequately funded from its existing credit agreements. The Agreement and the Prudential Agreement do not contain any material adverse change or similar provisions that would accelerate the maturity of amounts drawn under either agreement. The Agreement and Prudential Agreement contain various customary conditions and covenants, which limit, among other things, borrowings, interest coverage, loans or advances and investments. As of April 4, 2009, the Company was in compliance with all covenants and, based on current cash projections, has the intentions to pay off the outstanding Agreement balance within 2009.

Net cash out flows from operating activities were \$1.0 million in first quarter 2009 compared to \$25.3 million in first quarter 2008. Inventory was a \$3.7 million net source of cash in the period. The amount of contributions to be made to the funded employee benefit plans during calendar year 2009 will be finalized by September 15, 2009 based upon the Plans' year end valuation at December 31, 2008 and the desired funding level to be achieved as of December 31, 2009.

The Company continued its focus on liquidity in the quarter and used \$24.3 million less cash in operations than it did in the first quarter 2008.

Net cash used in investing activities was \$19.9 million in first quarter 2009 compared to \$42.7 million in first quarter 2008. The 2009 activities were primarily related to \$16.8 million, net of cash acquired, used to acquire Vertical S.p.A on January 16, 2009. The acquisition was funded solely with cash. During the first quarter 2008, the Company acquired Industrias Schneider for an aggregate purchase price of \$35.5 million, net of cash acquired.

- 20 -

Net cash provided by financing activities of \$19.9 million in first quarter 2009 was primarily related to proceeds from new debt incurred, net of repayments to date. Also included was the payment of \$2.9 million in dividends to its shareholders. Net cash provided by financing activities of \$34.5 million in first quarter 2008 was primarily related to proceeds from new debt incurred, net of repayments to date, the repurchase of approximately 235,000 shares of its common stock for \$7.8 million, and the payment of \$2.8 million in dividends to its shareholders.

FACTORS THAT MAY AFFECT FUTURE RESULTS

This quarterly report on Form 10-Q contains certain forward-looking information, such as statements about the Company's financial goals, acquisition strategies, financial expectations including anticipated revenue or expense levels, business prospects, market positioning, product development, manufacturing re-alignment, capital expenditures, tax benefits and expenses, and the effect of contingencies or changes in accounting policies. Forward-looking statements are typically identified by words or phrases such as "believe," "expect," "anticipate," "intend," "project," "estimate," "may increase," "may fluctuate," "plan," "goal," "target," "strategy," and similar expressions or conditional verbs such as "may," "will," "should," "would," and "could." While the Company believes that the assumptions underlying such forward-looking statements are reasonable based on present conditions, forward-looking statements made by the Company involve risks and uncertainties and are not guarantees of future performance. Actual results may differ materially from those forward-looking statements as a result of various factors, including general economic and currency conditions, various conditions specific to the Company's business and industry, new housing starts, weather conditions, market demand, competitive factors, changes in distribution channels, supply constraints, technology factors, litigation, government and regulatory actions, the Company's accounting policies, future trends, and other risks, all as described in the Company's Securities and Exchange Commission filings, included in Part 1, Item 1A of the Company's Annual Report on Form 10K for the fiscal year ended January 4, 2009, and in Exhibit 99.1 thereto. Any forward-looking statements included in this Form 10-Q are based upon information currently available. The Company does not assume any obligation to update any forward-looking information.

ITEM 4. CONTROLS AND PROCEDURES

As of the end of the period covered by this report (the "Evaluation Date"), the Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and the Company's Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures pursuant to Exchange Act Rules 13a-15 and 15d-15. Based upon that evaluation, the Company's Chief Executive Officer and the Company's Chief Financial Officer concluded that, as of the Evaluation Date, the Company's disclosure controls and procedures were effective in bringing to their attention, on a timely basis, material information relating to the Company to be included in the Company's periodic filings under the Exchange Act.

There have been no changes in the Company's internal control over financial reporting identified in connection with the evaluation required by Rules 13a-15 and 15d-15 under the Exchange Act during the first fiscal quarter that have materially affected, or are reasonably likely to materially affect the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

During the first half of 2008, the Company completed a retrofit program in which it replaced a third party supplied component part in the nozzle of the Enhanced Vapor Recovery Systems installed in California filling stations. In October 2008, the California Air Resources Board (“CARB”) provided a Notice of Violation (“NOV”) to the Company alleging that the circumstances leading to the retrofit program violated California statutes and regulations. Proceedings under the NOV are not expected to adversely affect the Company’s sale of Enhanced Vapor Recovery Systems in California. The Company intends to attempt to resolve this matter in discussions with CARB, as CARB invited it to do, and does not expect the resolution of this matter, and any related proceedings involving local agencies, to have a material effect on the Company’s financial position, results of operations, and cash flows.

ITEM 1A. RISK FACTORS

There were no material changes to the risk factors set forth in Part 1, Item 1A, in the Company’s annual report on Form 10-K for the fiscal year ended January 3, 2009. Additional risks and uncertainties, not presently known to the Company or currently deemed immaterial, could negatively impact the Company’s results of operations or financial condition in the future.
