You do not need to take any action. Any asset balances you have in, or contribution elections going to, the funds being removed will automatically map (or transfer) during the blackout period described below to the Plan's Qualified Default Investment Alternative, the State Street Target Retirement Fund Class K that most closely matches the year you attain age 65.

If, however, you do not wish for an automatic mapping of these assets, please keep in mind that you can change your investment elections on your own at any time. If you have assets in the funds being removed, you can transfer the balances of those funds to any available alternative fund by initiating a transfer prior to 4:00 p.m. ET on July 26th. In addition, you can make changes to your future contribution elections (if applicable) for the funds being removed. Please log on to your account at LincolnFinancial.com or visit LincolnFinancial.com/RetirementInfoCenter for more information on the available fund options. Of course, you could also wait until after the automatic mapping occurs if you wish to exchange funds or change where your future contributions (if applicable) are invested.

Blackout period: A blackout period will be in effect for all Plan participants from 4:00 p.m. ET on July 26 through 4:00 p.m. ET on July 28 while the fund changes are being made. During this period you will not be able to initiate investment election changes, transfers, loans, or distribution transactions. During this time period, your account will remain fully invested.

If you have any questions about these changes, or would like to change your investment and contribution elections under the Plan, contact the Lincoln Customer Contact Center at 800-234-3500 (Monday – Friday, 8:00 a.m. – 8:00 p.m. ET) or log on to your account at LincolnFinancial.com. For more information about the Plan, please review the applicable Summary Plan Description (SPD). You can view, print and download a copy of the SPD by logging on to your account at LincolnFinancial.com and clicking on More information about my plan on your retirement account home page.

The performance data quoted above represents past performance; past performance does not guarantee future results. Investment return and principal value will fluctuate so your account balance, when redeemed, may be worth more or less than your original cost. Current performance may be lower or higher than the performance data quoted. An investor should consider the investment objectives, risks, and charges and expenses of the investment option carefully before investing.
