BURLINGTON COAT FACTORY WAREHOUSE CORPORATION AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS NINE AND

THREE MONTHS ENDED MARCH 3, 2001 AND FEBRUARY 26, 2000

1. The condensed consolidated financial statements include the accounts of the Company and all its subsidiaries. All significant intercompany accounts and transactions have been eliminated. The accompanying financial statements are unaudited, but in the opinion of management reflect all adjustments (which are of a normal and recurring nature) necessary for a fair presentation of the results of operations for the interim periods. Because the Company's business is seasonal in nature, the operating results for the nine and three months ended March 3, 2001 and the corresponding period ended February 26, 2000 are not necessarily indicative of results for the fiscal year.
2. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted. It is suggested that these condensed consolidated financial statements be read in conjunction with the financial statements and notes thereto included in the Company's Annual Report on Form 10-K filed with the Securities and Exchange Commission on September 1, 2000.
3. Merchandise inventories as of March 3, 2001 and June 3, 2000 are valued at the lower of cost, on a First In First Out (FIFO) basis, or market, as determined by the retail inventory method.
4. The Company classifies its investments in debt securities into held-to-maturity, available-for-sale or trading categories in accordance with the provisions of Statement of Financial Accounting Standards ("SFAS") No. 115, *Accounting For Certain Investments in Debt and Equity Securities*. Debt securities are classified as held-to-maturity when the Company has the positive intent and ability to hold the securities to maturity. Held-to-maturity securities are stated at amortized cost. The Company's debt securities not classified as held-to-maturity are classified as available-for-sale and are carried at fair market value, with unrealized gains and losses, net of tax, reported as a separate component in stockholders' equity.
5. The Company records revenue at the time of sale and delivery of merchandise.
6. As of March 3, 2001, the Company had a deferred tax liability of \$2.8 million and a current deferred tax asset of \$9.2 million. As of June 3, 2000, the Company had a deferred tax liability of \$3.3 million and a current deferred tax asset of

\$8.8 million. Valuation allowances were not required. Deferred tax assets consisted primarily of certain operating costs, provisions for uncollectible receivables, and certain inventory related costs, not currently deductible for tax purposes and tax loss carryforwards. Deferred tax liabilities primarily reflected the excess of tax depreciation over book depreciation.

7. Other current liabilities primarily consisted of sales tax payable, accrued insurance costs, accrued operating expenses, payroll taxes payable and other miscellaneous items.

8. Long-term debt consists of:

	March 3, 2001 (unaudited) <u>(in thousands)</u>	June 3, 2000
Subordinated Notes, 10.6%, due in annual principal payments of \$7.4 million from June 2000 to June 2005 with interest due semi-annually	-	\$44,400
Industrial Revenue Bonds, 5.85%, due in semi-annual payments of various amounts from September 1, 2000 to September 1, 2010	\$8,065	8,525
Promissory note, due at various dates through 2000 (interest rate imputed at 10.6%),	<u>-</u>	<u>45</u>
Subtotal	8,065	52,970
Less Current Portion	<u>(505)</u>	<u>(44,865)</u>
Long-Term Debt	<u>\$7,560</u>	<u>\$ 8,105</u>

With respect to the Subordinated Notes, in addition to the \$7.4 million principal payment scheduled for June 27, 2000, the Company prepaid the remaining balance of \$37.0 million. The prepayment penalties associated with this prepayment amounted to approximately \$1.0 million. The Company recorded the prepayment penalties plus the write-off of approximately \$0.3 million of deferred debt charges, related to the debt, as an extraordinary loss.

9. On September 25, 2000, the Board of Directors of the Company declared a cash dividend in the amount of two cents (\$.02) per share. The cash dividend was paid on November 9, 2000 to stockholders of record on October 13, 2000 and amounted to \$0.9 million.

10. The Company presents comprehensive income as a component of stockholders' equity in accordance with SFAS No. 130, *Reporting Comprehensive Income*.

11. The Company has one reportable segment, operating within the United States. Sales by major product categories are as follows (in thousands)(unaudited):

Nine Months Ended		Three Months Ended	
March 3, <u>2001</u>	February 26, <u>2000</u>	March 3, <u>2001</u>	February 26, <u>2000</u>

Apparel	\$1,468,644	\$1,309,159	\$579,263	\$553,520
Home Products	<u>405,002</u>	<u>363,299</u>	<u>143,450</u>	<u>133,207</u>
	<u>\$1,873,646</u>	<u>\$1,672,458</u>	<u>\$722,713</u>	<u>\$686,727</u>

Apparel includes all clothing items for men, women and children and apparel accessories, such as jewelry, perfumes and watches. Home Products includes linens, home furnishings, gifts, baby furniture and baby furnishings.

12. Licensed department income, included in other income, amounted to \$6.6 million and \$2.2 million for the nine and three month period ended March 3, 2001, compared with \$6.9 million and \$2.8 million for the similar periods of a year ago (See Note 16a).

13. In March 1998, the AICPA issued Statement of Position ("SOP") 98-1, *Accounting For the Costs of Computer Software Developed For or Obtained for Internal-Use*. The SOP requires the capitalization of certain costs incurred in connection with developing or obtaining software for internal use. The Company capitalized \$1.9 million and \$0.7 million relating to these costs during the nine and three months ended March 3, 2001, respectively. For the similar comparative nine and three month periods of a year ago, the Company capitalized \$0.9 million and \$0.4 million, respectively.

14. The Company's net advertising costs consist primarily of newspaper and television costs. The production costs of net advertising are charged to expenses as incurred. Net advertising expenses for the nine and three month periods ended March 3, 2001 were \$46.6 million and \$12.6 million, respectively. For the nine and three month periods ended February 26, 2000, net advertising costs amounted to \$38.7 million and \$10.2 million, respectively.

15. Basic and diluted net income per share is based on the weighted average number of shares outstanding during each period. The amounts used in the calculation of basic and dilutive net income per share are as follows (unaudited):

	Nine Months Ended March 3, <u>2001</u>	Nine Months Ended February 26, <u>2000</u>	Three Months Ended March 3, <u>2001</u>	Three Months Ended February 26, <u>2000</u>
	(all amounts in thousands except per share data)			
Net Income	\$69,274	\$54,149	\$36,115	\$34,756
Weighted Average Shares Outstanding	44,327	46,117	44,299	45,586
Effect of Dilutive Stock Options	40	42	77	13
Weighted Average Shares Outstanding Assuming Dilution	44,367	46,159	44,376	44,599
Basic and Diluted Net Income Per Share	\$ 1.56	\$ 1.17	\$ 0.82	\$ 0.76

16. a. Effective for the year ended June 3, 2000, the Company changed its method of accounting for layaway sales in compliance with Staff Accounting Bulletin ("SAB") No. 101, *Revenue Recognition in Financial Statements*. Layaway sales for fiscal 2001 have been recognized upon delivery of merchandise to the customer. The amount of cash

received upon initiation of the layaway is recorded as a deposit liability within Other Current Liabilities. Layaway sales, prior to the accounting change, were recognized when the initial layaway deposit was received. The accounting change has only a slight impact on annual sales and earnings. However, due to the seasonal influences of the business, the accounting change results in a shift of sales and earnings among the Company's quarterly periods. The cumulative effect of the change for periods prior to fiscal 2000 is a net decrease in income of \$1.4 million or \$.03 per share. In addition, upon adoption of SAB No. 101, the Company changed its classification of leased department revenues and related expenses. Previously, the Company included these leased department revenues in Net Sales and their related costs in Cost of Sales. The Company presently records the net of leased department revenues and related costs to Other Income.

Page 9 of 55

b. In June 1998, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards No. 133, *Accounting for Derivative Instruments and Hedging Activities*. This statement, as amended by SFAS No. 137, *Accounting for Derivative Instruments and Hedging Activities - Deferral of the Effective Date of FASB Statement No. 133* and SFAS No. 138, *Accounting for Certain Derivative Instruments and Certain Hedging Activities, an Amendment of FASB Statement No. 133*, establishes accounting and reporting standards for derivative instruments, including certain derivative instruments embedded in other contracts (collectively referred to as derivatives), and for hedging activities. It requires that an entity recognize all derivatives as either assets or liabilities in the statement of financial position and measure those instruments at fair value. This statement is effective for all fiscal quarters of fiscal years beginning after June 15, 2000. The Company has not yet assessed what the impact of SFAS No. 133 will be on the Company's future earnings or financial position.

17. Certain reclassifications have been made to the prior years' financial statements to conform to the classifications used in the current year.

Page 10 of 55

BURLINGTON COAT FACTORY WAREHOUSE CORPORATION
AND SUBSIDIARIES

Item 2. Management's Discussion and Analysis of Results of Operations.

Results of Operations

Fiscal 2000 ended June 3, 2000 and consisted of 53 weeks. Because of this, each fiscal quarter of the current fiscal year begins and ends one week later than the corresponding quarter of the prior fiscal year. The Company's first quarter of fiscal 2001 began on June 4, 2000 and ended September 2, 2000. The Company's second fiscal quarter began September 3, 2000 and ended December 2, 2000. The Company's third fiscal quarter began December 3, 2000 and ended March 3, 2001. The first quarter of fiscal 2000 began May 30, 1999 and ended August 28, 1999. The second quarter of fiscal 2000 began August 29, 1999 and ended November 27, 1999. The third quarter of fiscal 2000 began November 28, 1999 and ended February 26, 2000.

The following table sets forth certain items in the condensed consolidated statements of operations as a percentage of net sales for the nine and three month periods ended March 3, 2001 and February 26, 2000 (unaudited).

Page 11 of 55

Percentage of Net Sales

	<u>Nine Months Ended</u>		<u>Three Months Ended</u>	
	<u>March 3,</u> <u>2000</u>	<u>February 26,</u> <u>2000</u>	<u>March 3,</u> <u>2001</u>	<u>February 26,</u> <u>2000</u>
Net sales	100.0%	100.0%	100.0%	100.0%

Net income before extraordinary loss from early extinguishment of debt and cumulative effect of accounting change	3.7	3.3	5.0	5.0
Extraordinary loss from early extinguishment of debt	-	-	-	-

Cumulative effect of accounting change	—	<u>(0.1)</u>	—	—
Net Income	3.7%	3.2%	5.0%	5.0%

Net sales increased \$201.2 million (12.0%) to \$1.87 billion for the nine month period ended March 3, 2001 compared with the nine month period ended February 26, 2000. Because the Company's prior fiscal year ended June 3, 2000 and was a 53 week fiscal year, the current fiscal year and each of its quarters begins and ends one week later than the corresponding period of the prior fiscal year. Sales for the comparative calendar weeks ended March 4, 2000 were \$1.68 billion. Comparative stores sales (i.e, same store sales for comparative calendar weeks) increased 3.6%. Fifteen new Burlington Coat Factory stores and five

Page 12 of 55

relocated stores opened during the current fiscal year contributed \$81.1 million to this year's net sales. Sales from stores opened in fiscal 2000 and operating in the current year, but not open during the comparative period last year contributed \$80.7 million to net sales for the nine months ended March 3, 2001. Four stores which were in operation a year ago, but which were closed prior to this year, contributed \$9.3 million to last year's sales. Stores closed during the current year contributed \$15.2 million to last year's sales during their non-comparative periods.

Net sales increased \$36.0 million (5.2%) to \$722.7 million, for the three month period ended March 3, 2001, compared with the similar period a year ago. Comparative store sales increased 3.4%. Total sales for the thirteen comparative weeks ended March 4, 2000 were \$655.9 million. Total sales for the comparative calendar weeks increased 10.2%. The Company believes this increase was the result of more seasonal weather during the current year's fiscal month of December compared with the similar period a year ago, which directly impacted the sale of outerwear. During the third fiscal quarter, comparative store sales of coats increased approximately 14%. The third quarter of the current fiscal year began on December 3, 2000 and ended on March 3, 2001. Without the shifting in weeks, the third quarter would have begun on November 26, 2000 and ended on February 24, 2001. Sales for the week of November 26 to December 2, 2000 were \$70.7 million and were included in this fiscal year's second quarter. Sales for the week of February 25 to March 3, 2001 were \$38.2 million and are included in sales for the third quarter. The result of this change in calendar weeks for this fiscal year's third quarter was a \$32.4 million reduction in sales this year during the quarter. Sales from stores operating during the current year's third quarter, but not open in the comparative period a year ago, amounted to \$55.6 million. Stores closed prior to this year's third quarter contributed \$12.8 million to last year's sales.

Other income (consisting of investment income, rental income from leased departments, and miscellaneous items) was \$21.0 million for the nine months ended March 3, 2001 and \$19.5 million for the nine months ended February 26, 2000. For the three month period ended March 3, 2001, other income amounted to \$9.6 million compared with \$8.5 million for the similar period of a year ago. For both the nine and three month periods, the increase in other income was primarily related to the sale of one of the Company's leases to a third party, which resulted in income of approximately \$0.8 million during the third quarter, and to other miscellaneous item increases.

Cost of sales increased by \$116.0 million (10.8%) for the nine month period ended March 3, 2001 compared with the similar period of a year ago. For the three months ended March 3, 2001, compared with the three months ended February 26, 2000, cost of sales increased from \$456.2 million to \$471.0 million. The dollar changes in cost of sales primarily reflect the change in sales for the comparative periods. As a percentage of sales, cost of sales decreased to 63.7% from 64.4% for the comparative nine month periods and decreased to 65.2% from 66.4% for the comparative three month periods. These percentage decreases are primarily the result of improvements in initial margins and decreases in markdowns taken as a percentage of sales during the comparative periods.

Selling and administrative expenses were \$551.3 million and \$191.0 million for the nine and three months ended March 3, 2001, respectively, compared with \$492.2 million and \$172.0 million for the comparative periods of a year ago. As a percentage of sales, selling and administrative expenses were 29.4% and 26.4% for the nine and three months ended March 3, 2001, respectively. For the comparative nine and three month periods ended February 26, 2000, selling and administrative expenses were 29.4% and 25.1% of sales, respectively. The dollar increase in selling and administrative expenses was primarily the result of the increased number of stores operating during the nine and three month periods of this fiscal year compared with the similar periods of a year ago. The increase in selling and administrative expenses as a percentage of sales during the third quarter was primarily the result of the decrease in sales related to the change in weeks in the comparative third quarters.

Interest expense decreased \$2.4 million for the nine months ended March 3, 2001 compared with the similar period of a year ago. For the three months ended March 3, 2001, interest expense decreased \$1.2 million compared with the three months ended February 26, 2000. The nine and three month decrease in interest expense is the result of a decrease in long term debt due to the normal recurring repayment of the Company's industrial development bonds and to the prepayment of the entire remaining balance of the Company's subordinated notes in June 2000. Interest amounting to approximately \$0.8 million, for the 9 months ending March 3, 2001, relating to the Company's borrowings under its lines of credit, offset, in part, the interest expense decrease realized by the reduction in long term debt.

The provision for income taxes increased to \$42.2 million for the nine months ended March 3, 2001 from \$33.2 million for the similar period of a year ago. For the three months ended March 3, 2001, the provision for income taxes increased to \$21.8 million from \$20.3 million for the comparative quarter of last fiscal year. The effective tax rate for both the nine and three months ended March 3, 2001 was 37.6% compared with 37.5% and 36.9% for the nine and three months ended February 26, 2000, respectively.

Net income before extraordinary loss from early extinguishment of debt and cumulative effect of accounting change amounted to \$70.1 million and \$36.1 million for the nine and three months ended March 3, 2001, respectively, compared with \$55.5 million and \$34.8 million for the similar periods of a year ago. Income per share before extraordinary loss and cumulative effect of accounting change for the current fiscal year's nine and three

month periods ended March 3, 2001, respectively, was \$1.58 and \$0.82 per share, compared with \$1.20 and \$0.76 per share for the comparative nine and three month periods of a year ago.

During the current year's first fiscal quarter, the Company prepaid the remaining balance of its long term subordinated notes. The prepayment penalty associated with this payment amounted to approximately \$1.0 million. This penalty, along with the write-off of unamortized deferred debt charges of approximately \$0.3 million, was recorded as an extraordinary loss. Net of income tax effect, the extraordinary loss amounted to \$0.8 million or \$0.02 per share.

The Company's business is seasonal, with its highest sales occurring in the months of September, October, November and December of each year. The Company's net income generally reflects the same seasonal pattern as its net sales. In the past, substantially all of the Company's profits have been derived from operations during the months of September, October, November and December.

Liquidity and Capital Resources

The Company estimates spending approximately \$91.0 million in capital expenditures during fiscal 2001 including \$1.0 million for the purchase of store land and buildings, \$70.0 million for store expenditures, \$5.0 million for the

purchase of leaseholds for store locations, \$6.0 million for upgrades and expansion of warehouse facilities, and \$9.0 million for computer and other equipment expenditures. For the first nine months of fiscal 2001, capital expenditures amounted to approximately \$79.7 million.

Working capital was \$301.7 million at March 3, 2001 compared with \$260.4 million at June 3, 2000.

The Company repurchased 269,100 shares of its stock costing approximately \$3.3 million during the first nine months of fiscal 2001. These purchases are reflected as treasury stock in the equity section of the balance sheet. As of March 3, 2001, the Company had authorization to purchase an additional \$3.7 million of its stock.

On September 25, 2000, the Board of Directors of the Company declared a cash dividend in the amount of two cents (\$.02) per share. The cash dividend was paid on November 9, 2000, to stockholders of record on October 13, 2000 and amounted to \$0.9 million.

Page 15 of 55

The Company's long term borrowings at March 3, 2001 consists of an industrial development bond of \$8.1 million issued by the New Jersey Economic Development Authority (the "Refunding Bonds"). The Refunding Bonds consist of serial and term bonds. The serial bonds aggregate \$1.7 million and mature in series annually on September 1 through the year 2003. The term bonds consist of two portions, \$1.4 million maturing on September 1, 2005 and \$5.0 million maturing on September 1, 2010.

The serial bonds bear interest ranging from 4.90% to 5.4% per annum, and the term bonds bear interest at the rates of 5.60% for the portion maturing on September 1, 2005 and 6.125% per annum for the portion maturing on September 1, 2010. The average interest rate and average maturity of the Refunding Bonds are 5.85% and 5.8 years, respectively.

During the current fiscal year's first quarter, the Company repaid the remaining balance of \$44.4 million of its long term subordinated notes, which had been issued by the Company to institutional investors in June 1990. The Notes were scheduled to mature on June 27, 2005 and were subject to mandatory payment of \$7.4 million on June 27 of each year. The prepayment penalty associated with the early payoff of the debt was approximately \$1.0 million.

During the third quarter, the Company increased its existing committed line of credit to \$100 million. Total lines of credit from all banks as of March 3, 2001 amounted to \$100 million in committed credit and \$25 million in uncommitted credit. Short term borrowings against these lines of credit bear interest at or below the lending bank's prime rate in effect from time to time.

During the third quarter, the Company had no borrowings under these lines of credit. Maximum borrowings amounted to \$70.1 million during the first quarter and \$67.5 million during the second quarter. The average borrowings under these credit lines during the first quarter period of borrowing was \$36.3 million, at an average interest rate of 7.0%. During the second quarter, the average borrowings under the lines of credit was \$27.5 million at an average interest rate of 7.0%. Borrowings under the Company's lines of credit were necessary during the current year's first six months primarily because of the prepayment of the Company's subordinated notes and the purchase of inventory during the period. There was no borrowing under the Company's lines of credit during the first nine months of fiscal 2000. The Company had letter of credit commitments outstanding against these lines of credit of \$9.8 million as of the end of the third quarter of fiscal 2001 and \$30.8 million at June 3, 2000.

The Company believes that its current capital expenditures and operating requirements can be satisfied from internally generated

Page 16 of 55

funds, from short term borrowings under its revolving credit and term loan agreement as well as uncommitted lines of credit. Furthermore, to the extent that the Company decides to purchase additional store locations, it may be necessary to finance such acquisitions with additional long term borrowings.

Safe Harbor Statement

Statements made in this report that are forward-looking (within the meaning of the Private Securities Litigation Reform Act of 1995) are not historical facts and involve a number of risks and uncertainties. Such statements include but are not limited to, proposed store openings and closings, proposed capital expenditures, projected financing requirements, proposed developmental projects, projected sales and earnings, and the Company's ability to maintain selling margins. Among the factors that could cause actual results to differ materially are the following: general economic conditions; consumer demand; consumer preferences; weather patterns; competitive factors, including pricing and promotional activities of major competitors; the availability of desirable store locations on suitable terms; the availability, selection and purchasing of attractive merchandise on favorable terms; import risks; the Company's ability to control costs and expenses; unforeseen computer related problems; any unforeseen material loss or casualty; the effect of inflation; and other factors that may be described in the Company's filings with the Securities and Exchange Commission. The Company does not undertake to publicly update or revise its forward-looking statements even if experience or future changes make it clear that any projected results expressed or implied will not be realized.

Item 3. Quantitative and Qualitative Market Risk Disclosures.

The Company does not utilize financial instruments for trading purposes and holds no derivative financial instruments, which could expose the Company to significant market risk. The Company's primary market risk exposure with regard to financial instruments is to changes in interest rates. Pursuant to the terms of certain revolving credit arrangements, changes in the lenders' prime rate, LIBOR or other stated interest rates could affect the rates at which the Company could borrow funds thereunder. At March 3, 2001, the Company had no borrowings under the lines of credit. The table below summarizes the fair value and contract terms of the Company's fixed rate debt and long-term investments, at March 3, 2001 (in thousands):

Expected Maturity Date of Long-Term Debt (Including Current Portion) and Long Term Investments at March 3, 2001 (unaudited)

	<u>Fixed Rate Debt</u>	<u>Average Interest Rate</u>	<u>Long-Term Investments</u>	<u>Average Interest Rate</u>
2002	\$ 505	5.1%	\$ 4,200	5.6%
2003	555	5.2%	-	-
2004	605	5.4%	-	-
Thereafter	<u>6,400</u>	6.0%	<u>2,000</u>	6.1%
Total	<u>\$8,065</u>		<u>\$6,200</u>	
Fair Value at March 3, 2001	<u>\$8,484</u>		<u>\$6,200</u>	

On March 8, 2001 the \$4.2 million in Long-Term Investments were redeemed by the issuing authority. The Company replaced these investments on March 14, 2001 with \$4.2 million of long term investments with a maturity date of September 14, 2006 and an interest rate of 6.15%.
