#### NOTE 1: BASIS OF PRESENTATION

The accompanying condensed consolidated financial statements include the balances of Nordstrom, Inc. and its subsidiaries. All intercompany transactions and balances are eliminated in consolidation. The interim condensed consolidated financial statements have been prepared on a basis consistent in all material respects with the accounting policies described and applied in our 2013 Annual Report on Form 10-K ("Annual Report"), and reflect all adjustments of a normal recurring nature that are, in management's opinion, necessary for the fair presentation of the results of operations, financial position and cash flows for the periods presented.

The condensed consolidated financial statements as of and for the periods ended August 2, 2014 and August 3, 2013 are unaudited. The condensed consolidated balance sheet as of February 1, 2014 has been derived from the audited consolidated financial statements included in our 2013 Annual Report. The interim condensed consolidated financial statements should be read together with the consolidated financial statements and related footnote disclosures contained in our 2013 Annual Report.

The preparation of our financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, and disclosure of contingent assets and liabilities. We base our estimates on historical experience and other assumptions that we believe to be reasonable under the circumstances. Actual results may differ from these estimates and assumptions.

Our business, like that of other retailers, is subject to seasonal fluctuations. Due to our Anniversary Sale in July, the holidays in December and the half-yearly sales that normally occur in our second and fourth quarters, our sales are typically higher in the second and fourth quarters of the fiscal year than in the first and third quarters. Results for any quarter are not necessarily indicative of the results that may be achieved for a full fiscal year.

## **Recent Accounting Pronouncements**

In April 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2014-08, Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity. This ASU raises the threshold for a disposal to qualify as discontinued operations and requires new disclosures for individually material disposal transactions that do not meet the definition of a discontinued operation. Under the new guidance, companies report discontinued operations when they have a disposal that represents a strategic shift that has or will have a major impact on operations or financial results. We are currently evaluating the impact, if any, the provisions of this ASU would have on our consolidated financial statements. If applicable, this ASU would be effective for us beginning in the first quarter of 2015.

In May 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers. The core principle of this ASU is that companies should recognize revenue when the transfer of promised goods or services to customers occurs in an amount that reflects what the company expects to receive. It requires additional disclosures to describe the nature, amount, timing, and uncertainty of revenue and cash flows from contracts with customers. This ASU is effective for us beginning with the first quarter of 2017. We are currently evaluating the impact the provisions of this ASU would have on our consolidated financial statements.

Under certain circumstances, we may make modifications to payment terms for a customer experiencing financial difficulties in an effort to help the customer avoid a charge-off or bankruptcy, and to maximize our recovery of the outstanding balance. These modifications, which meet the accounting definition of troubled debt restructurings ("TDRs"), include reduced or waived fees and finance charges, and/or reduced minimum payments. Receivables classified as TDRs are as follows:

## Credit Quality

The primary indicators of the credit quality of our credit card receivables are aging and delinquency, particularly the levels of account balances delinquent 30 days or more as these are the accounts most likely to be written off. The following table illustrates the aging and delinquency status of our credit card receivables:

	August 2, 2014			February 1, 2014			August 3, 2013		
	Balance	% of total		Balance	% of total		Balance	% of total

We also evaluate credit quality using FICO credit scores. The following table illustrates the distribution of our credit card receivables across FICO score ranges:

Credit Facilities					

As of August 2, 2014, we had total short-term borrowing capacity available for general corporate purposes of \$800, which is composed of our \$800 senior unsecured revolving credit facility ("revolver") that expires in March 2018. Under the terms of our revolver, we pay a variable rate of interest and a commitment fee based on our debt rating. The revolver is available for working capital, capital expenditures and general corporate purposes and backs our commercial paper program. During the six months ended August 2, 2014, we had no issuances under our commercial paper program and no borrowings under our revolver.

The revolver requires that we maintain an adjusted debt to earnings before interest, income taxes, depreciation, amortization and rent ("EBITDAR") leverage ratio of less than four times. As of August 2, 2014, we were in compliance with this covenant.

In November 2013, our wholly owned subsidiary in Puerto Rico entered into a \$52 unsecured borrowing facility to support our expansion into that market. The facility expires in November 2018 and borrowings on this facility incur interest based upon the one-month LIBOR plus 1.275% per annum. As of August 2, 2014, we had \$15 outstanding on this facility.

#### **NOTE 4: FAIR VALUE MEASUREMENTS**

We disclose our financial assets and liabilities that are measured at fair value in our Condensed Consolidated Balance Sheets by level within the fair value hierarchy as defined by applicable accounting standards:

Level 1: Quoted market prices in active markets for identical assets or liabilities

Level 2: Other observable market-based inputs or unobservable inputs that are corroborated by market data

Level 3: Unobservable inputs that cannot be corroborated by market data that reflect the reporting entity's own assumptions

We did not have any financial assets or liabilities that were measured at fair value on a recurring basis as of August 2, 2014, February 1, 2014 or August 3, 2013.

Financial instruments not measured at fair value on a recurring basis include cash and cash equivalents, accounts receivable and accounts payable and approximate fair value due to their short-term nature. We estimate the fair value of our long-term debt using quoted market prices of the same or similar issues, and as such this is considered a Level 2 fair value measurement. The following table summarizes the carrying value and fair value estimate of our long-term debt, including current maturities:

	August 2, 2014	February 1, 2014	August 3, 2013
Carrying value of long-term debt <sup>1</sup>	\$3,118	\$3,113	\$3,122
Fair value of long-term debt	3,551	3,511	3,471

<sup>&</sup>lt;sup>1</sup> The carrying value of long-term debt includes the remaining unamortized adjustment from our previous effective fair value hedge.

We also measure certain non-financial assets at fair value on a nonrecurring basis, primarily goodwill and long-lived tangible and intangible assets, in connection with periodic evaluations for potential impairment. We recorded no material impairment charges for these assets for the six months ended August 2, 2014 and August 3, 2013. We estimate the fair value of goodwill and long-lived tangible and intangible assets using primarily unobservable inputs, and as such these are considered Level 3 fair value measurements.

## NOTE 5: COMMITMENTS AND CONTINGENT LIABILITIES

As of August 2, 2014, we had approximately \$126 of fee interest in our Manhattan full-line store subject to lien. We have committed to make future installment payments based on the developer of the property meeting construction and development milestones. Our fee interest in the property is subject to lien until project completion or fulfillment of our existing installment payment commitment.

## NOTE 6: SHAREHOLDERS' EQUITY

In February 2013, our Board of Directors authorized a program to repurchase up to \$800 of our outstanding common stock, through March 1, 2015. During the six months ended August 2, 2014, we repurchased 4.9 shares of our common stock for an aggregate purchase price of \$311 and had \$359 in remaining share repurchase capacity as of August 2, 2014. The actual number and timing of future share repurchases, if any, will be subject to market and economic conditions and applicable Securities and Exchange Commission ("Commission") rules.

Subsequent to quarter-end, in August 2014, we declared a quarterly dividend of \$0.33 per share, payable in September 2014.
