Item 2.02 - Results of Operations and Financial Condition.

On January 28, 2013, Park National Corporation (“Park”) issued a news release (the “Financial Results News Release”) announcing financial results for the three months (fourth quarter) and fiscal year ended December 31, 2012. A copy of this Financial Results News Release is included as Exhibit 99.1 to this Current Report on Form 8-K and incorporated by reference herein.

Park's management uses certain non-U.S. GAAP (U.S. generally accepted accounting principles) financial measures to evaluate Park's performance. Specifically, management reviews return on average tangible common equity, return on average tangible assets, the ratio of tangible common equity to tangible assets and tangible common book value per common share. Management has included in the Financial Results News Release information relating to the return on average tangible common equity, return on average tangible assets, the ratio of tangible common equity to tangible assets and tangible common book value per common share for the three months and years ended December 31, 2012 and 2011. For purposes of calculating the return on average tangible common equity, a non-U.S. GAAP financial measure, net income available to common shareholders for each period is divided by average tangible common equity during the period. Average tangible common equity equals average stockholders' equity during the applicable period less (i) average goodwill and other intangible assets during the applicable period and (ii) average preferred stock during the applicable period. For the purpose of calculating the return on average tangible assets, a non-U.S. GAAP financial measure, net income available to common shareholders for each period is divided by average tangible assets during the period. Average tangible assets equals average assets during the applicable period less average goodwill and other intangible assets during the applicable period. For the purpose of calculating the ratio of tangible common equity to tangible assets, a non-U.S. GAAP financial measure, tangible common equity is divided by tangible assets. Tangible common equity equals stockholders' equity less preferred stock and goodwill and intangible assets. Tangible assets equals total assets less goodwill and intangible assets. For the purpose of calculating tangible common book value per common share, a non-U.S. GAAP financial measure, tangible common equity is divided by common shares outstanding at period end. Management believes that the disclosure of return on average tangible common equity, return on average tangible assets, the ratio of tangible common equity to tangible assets and tangible common book value per common share presents additional information to the reader of the consolidated financial statements, which, when read in conjunction with the consolidated financial statements prepared in accordance with U.S. GAAP, assists in analyzing Park's operating performance and ensures comparability of operating performance from period to period while eliminating certain non-operational effects of acquisitions and, in the case of return on average common equity and tangible common book value per common share, the impact of preferred stock. In the Financial Results News Release, Park has provided a reconciliation of average tangible common equity to average stockholders' equity, average tangible assets to average assets, tangible common equity to stockholders' equity and tangible assets to total assets solely for the purpose of complying with SEC Regulation G and not as an indication that return on average tangible common equity, return on average tangible assets, the ratio of tangible common equity to tangible assets and tangible common book value per common share are substitutes for return on average equity, return on average assets, the ratio of common equity to assets and common book value per common share, respectively, as determined by U.S. GAAP.

## Item 7.01 - Regulation FD Disclosure

The following is a discussion of the financial results for the three months (fourth quarter) and year ended December 31, 2012 and a comparison of these results to the guidance previously provided within the Annual Report to Shareholders for the fiscal year ended December 31, 2011 (the "2011 Annual Report").

The table below reflects the net income (loss) by segment for each quarter of 2012, the results for the fiscal year ended December 31, 2012, and the results for each of the prior two fiscal years ended December 31, 2011 and 2010. Park's current segments include The Park National Bank ("PNB"), Guardian Financial Services Company ("GFSC"), SE Property Holdings, LLC ("SEPH") and "All Other" which primarily consists of Park as the "Parent Company." In addition, Vision Bank was included as a segment for each of the fiscal years ended December 31, 2011 and 2010.

The results for "Park Parent Company" above exclude the results for SEPH, an entity which is winding down commensurate with the disposition of its problem assets. Management considers the results of the "Ohio-based operations" to reflect the business of Park and its subsidiaries going forward. The discussion below provides additional information regarding Park's segments.

## The Park National Bank (PNB)

The table below reflects the results for PNB for each quarter of 2012, the results for the fiscal year ended December 31, 2012, and results for each of the prior two fiscal years ended December 31, 2011 and 2010.

(In thousands)	Q1 2012	Q2 2012	Q3 2012	Q4 2012	2012	2011	2010

Management originally projected 2012 net income for PNB of approximately \$93 million within the 2011 Annual Report. Due primarily to the continued low interest rate environment, PNB's net income for the fiscal year ended December 31, 2012 was \$87.1 million.

Total other expense at PNB was \$156.5 million for the year ended December 31, 2012, an increase of \$10.3 million, or 7.0%, from the total other expense of \$146.2 million in 2011. The \$10.3 million increase was the result of increases of approximately (i) \$2.4 million in salaries and employee benefit expense, (ii) \$1.7 million in fees and expenses,

largely related to increases in

legal fees, (iii) \$1.5 million of additional expense in Q4 2012 related to a one-time off-balance sheet liability and (iv) \$4.7 million in miscellaneous increases within equipment costs, communications, marketing, data processing and state franchise taxes.

The table below provides certain balance sheet information and financial ratios for PNB as of December 31, 2012 and 2011.

(In thousands)	Dec. 31, 2012	Dec. 31, 2011	% change from 12/31/11

\* Excludes gains on the sale of investment securities for the fiscal year ended December 31, 2011.

The \$196.7 million (4.72%) increase in loans experienced at PNB in 2012 was primarily related to continued demand for 1-4 family mortgages, which has increased by \$123.5 million. Of the \$123.5 million increase in the mortgage loan portfolio, approximately \$91.1 million of the increase was associated with our decision to retain a portion of the 15-year, fixed-rate mortgages originated by PNB rather than selling these loans in the secondary market. The balance of the increase in loans of \$73.2 million was across all loan portfolio categories, with the most significant increase being in commercial loans (up \$47.4 million). As noted above, PNB's allowance for loan losses declined by \$2.3 million, or 4.11%, to \$53.1 million at December 31, 2012 compared to \$55.4 million at December 31, 2011. The decline in PNB's allowance for loan losses was due to continued improvement in the credit metrics across the PNB loan portfolio. Refer to the "Credit Metrics and Provision for Loan Losses" section below for additional information regarding the improvements in the credit metrics of PNB's loan portfolio.

#### Guardian Financial Services Company (GFSC)

The table below reflects the results for GFSC for each quarter of 2012, the results for the fiscal year ended December 31, 2012, and the results for each of the prior two fiscal years ended December 31, 2011 and 2010.

(In thousands)	Q1 2012	Q2 2012	Q3 2012	Q4 2012	2012	2011	2010

Net income	\$806	\$909	\$971	\$864	\$3,550	\$2,721	\$2,006

In the 2011 Annual Report, management stated that GFSC was expected to make net income of \$3.0 million in 2012. Actual results for 2012 were net income of \$3.5 million. This improvement was the result of increased net interest income due to the 6.31% increase in loans in 2012, as well as a lower provision for loan losses based on analysis of the credit portfolio performed by GFSC's management.

The table below provides certain balance sheet information and financial ratios for GFSC as of December 31, 2012, and 2011.

(In thousands)	December 31, 2012	December 31, 2011	% change from 12/31/11

#### Park Parent Company

The table below reflects the results for Park's Parent Company for each quarter of 2012, the results for the fiscal year ended December 31, 2012, and the results for each of the prior two fiscal years ended December 31, 2011 and 2010.

Net income (loss)	\$49	\$134	\$274	\$(262)	)\$195	\$(1,595)	\$(1,439)

In the 2011 Annual Report, management projected aggregate net income of \$1 million for the Parent Company, Vision Bank through February 16, 2012 and SEPH. Typically, we expect the Park Parent Company will perform around breakeven. Results for 2012 show net income of \$195,000.

Net interest income for Park's parent company included interest income on loans by Park to SEPH and on subordinated debt investments by Park with PNB, which were eliminated in the consolidated Park National Corporation totals. Additionally, net interest income included interest expense related to the \$35.25 million and \$30 million of subordinated notes issued by Park in December 2009 and April 2012, respectively.

#### SEPH / Vision Bank

Vision Bank (“Vision”) merged with and into SEPH, a non-bank subsidiary of Park, following the sale of the Vision business to Centennial Bank (“Centennial”) on February 16, 2012. SEPH holds the remaining assets and liabilities retained by Vision subsequent to the sale. SEPH's assets consist primarily of performing and nonperforming loans and other real estate owned (“OREO”). This segment represents a run off portfolio of the legacy Vision assets.

The table below reflects the results for SEPH for each quarter of 2012 and the results for the fiscal year ended December 31, 2012. The SEPH results for the first quarter of 2012 include Vision's results prior to the completion of the sale to Centennial on February 16, 2012. Also included below are the results for SEPH and Vision for the fiscal year ended December 31, 2011. SEPH was formed in March 2011. Prior to holding the remaining Vision assets, SEPH held OREO assets that were sold by Vision to SEPH.

(In thousands)	Q1 2012	Q2 2012	Q3 2012	Q4 2012	2012	SEPH 2011	Vision 2011

In the 2011 Annual Report, management projected combined net income of \$1 million for the Park Parent Company, Vision through February 16, 2012 and SEPH. As noted above, we typically expect the Park Parent Company will perform around breakeven. As such, management expected net income of approximately \$1 million for the combined operations of Vision through February 16, 2012 and SEPH throughout the 2012 year. For the fiscal year ended December 31, 2012, SEPH reported a net loss of \$12.2 million. The decline in projected net income was primarily due to increased provision for loan losses and higher than projected total other expense incurred by SEPH throughout 2012.

SEPH results for the fourth quarter of 2012 included a \$1.7 million expense to establish a valuation allowance against certain OREO assets. The expense related to the establishment of the valuation allowance was included within fee income.

On February 16, 2012, when Vision merged with and into SEPH, the loans then held by Vision were transferred to SEPH by operation of law at their fair market value and thus no allowance for loan loss was carried at SEPH. The loans included in both the performing and nonperforming portfolios were charged down to their fair value. The table below provides additional information regarding charge-offs as a percentage of unpaid principal balance, as of December 31, 2012:

#### SEPH - Retained Vision Loan Portfolio

(In thousands)	Unpaid Principal Balance	Charge-Offs	Net Book Balance	Charge-off Percentage

The table below provides an overview of all Vision exposure remaining at SEPH. This information is provided as of December 31, 2012 and September 30, 2012, showing the decline in legacy Vision assets at SEPH over the fourth quarter of 2012.

#### Park National Corporation

The table below reflects the results for Park on a consolidated basis for each quarter of 2012, the results for the fiscal year ended December 31, 2012, and the results for each of the prior two fiscal years ended December 31, 2011 and 2010.

In the 2011 Annual Report, management stated that Park was expected to make net income of approximately \$97.0 million in 2012. For the fiscal year ended December 31, 2012, Park reported net income of \$78.6 million. The negative variance of \$18.4 million was primarily due to the continued low interest rate environment, resulting in a lower than projected net interest income, and worse than expected results at SEPH.

## Credit Metrics and Provision for Loan Losses

The provision for loan losses for the fiscal year ended December 31, 2012 was \$35.4 million, compared to \$63.3 million 2011. The table below shows a breakdown of the loan loss provision by reportable segment for each quarter in 2012 and for the years ended December 31, 2012 and 2011:

(In thousands)	Q1 2012	Q2 2012	Q3 2012	Q4 2012	2012	2011
PNB	\$4,672	\$3,756	\$4,125	\$4,125	\$16,678	\$30,220
GFSC	250	200	184	225	859	2,000
Park Parent	—	—	—	—	—	—
Total Ongoing Operations	\$4,922	\$3,956	\$4,309	\$4,350	\$17,537	\$32,220
Vision	—	—	—	—	—	31,052
SEPH	3,416	1,282	12,346	838	17,882	—
Total Park	\$8,338	\$5,238	\$16,655	\$5,188	\$35,419	\$63,272

The table above reflects that the loan loss provision for Park's ongoing operations, consisting of Park's Ohio operations (PNB and GFSC), has declined by \$14.7 million, or 45.6%, when comparing the fiscal year ended December 31, 2012 with the same period in 2011. This reduction was primarily due to improving credit trends for Park's Ohio operations. The following table shows the trends in Park's Ohio operations' commercial loan "Watch List".

Commercial loans * (In thousands)	December 31, 2012	December 31, 2011	December 31, 2010
Pass rated	\$2,228,053	\$2,131,007	\$2,046,016
Special Mention	49,275	66,254	85,287
Substandard	16,843	29,604	78,529
Impaired	89,365	95,109	90,694
Total	\$2,383,536	\$2,321,974	\$2,300,526

\* Commercial loans include: (1) Commercial, financial and agricultural loans, (2) Commercial real estate loans, (3) Commercial related loans in the construction real estate portfolio and (4) Commercial related loans in the residential real estate portfolio.

The commercial loan table above demonstrates the improvement experienced over the last 24 months in the Park's Ohio operations' commercial portfolio. Pass rated commercial loans have grown \$182.0 million, or 8.90% since December 31, 2010. Over this period, special mention loans have declined by \$36.0 million, or 42.2% and substandard loans have declined by \$61.7 million, or 78.5%. These improved credit metrics in the special mention and substandard categories of the commercial loan portfolio have a significant impact on the general reserves that are established to cover incurred losses on performing commercial loans. As these metrics have improved over the past 24 months, general reserves have declined as well.

Delinquent and accruing loan trends for Park's Ohio-based operations have also improved over the past 24 months. Delinquent and accruing loans were \$39.6 million or 0.90% of total loans at December 31, 2012, compared to \$40.1 million (0.96%) at December 31, 2011 and \$45.8 million (1.12%) at December 31, 2010.

Impaired commercial loans for Park's Ohio-based operations were \$89.4 million as of December 31, 2012, down slightly from the balances of impaired loans of \$95.1 million and \$90.7 million at December 31, 2011 and 2010, respectively. The \$89.4 million of impaired commercial loans at December 31, 2012 included \$16.7 million of loans modified in a troubled debt restructuring which are currently on accrual status and performing in accordance with the restructured terms. Impaired commercial loans are individually evaluated for impairment and specific reserves are established to cover incurred losses.

While the credit metrics have improved for Park's Ohio-based operations over the past 24 months, OREO assets have remained relatively stable. OREO assets for Park's Ohio-based operations were \$14.7 million, \$13.2 million and \$8.4 million at December 31, 2012, December 31, 2011 and December 31, 2010.
