**Item 1.01 Entry into a Material Definitive Agreement.**

On December 7, 2005 the Board of Directors of IDEXX Laboratories, Inc. (the Company) approved changes to the Company's standard compensation arrangements for non-employee Directors. A summary of the Company's non-employee Director compensation, effective as of January 1, 2006, is attached as Exhibit 10.1 and incorporated herein by reference.

The most significant changes to Director compensation are: (i) an increase in the cash retainer, (ii) an increase in annual fees for committee chairmen, Audit Committee members and the Lead Director, (iii) elimination of fees for meeting attendance, (iv) a shift in equity compensation from stock options vesting in one year to deferred stock awards vested at grant but not distributed until one year following termination of each Director's service on the Board, and (v) an increase in the share ownership guideline from \$90,000 to \$500,000. The Company does not provide and has not provided benefits or perquisites to its Directors, other than the reimbursement of expenses associated with meeting attendance.

The changes to Director compensation were approved as part of the Board's annual review of Director compensation. In connection with that review, the Compensation Committee of the Board of Directors retained a compensation consultant to evaluate the design and competitiveness of the Company's Director compensation. The changes adopted by the Board of Directors were substantially as recommended by the consultant.

The Board determined that the new Director compensation and increased share ownership guideline achieve two principal goals: (i) attraction and retention of highly qualified directors and (ii) alignment of the interests of Directors with those of long-term owners of the Company's stock.
