Magic Software Shares To Be Added To The Tel Aviv-75 Stock Index And TelTek-15 Stock Index

Listing Widens Potential Investor Base For Company's Equities With Local and Foreign Institutional Investors

Edgar Filing: MAGIC SOFTWARE ENTERPRISES LTD - Form 6-K

Irvine, California (December 18, 2003) - Magic Software Enterprises (Nasdaq: MGIC), a leading provider of state-of-the-art business integration and development technology, announced today that effective Thursday, January 1, 2004 its shares will be included on the Tel Aviv-75 (TA-75) stock index, and the TelTek-15 stock index. Magic shares will also be listed on the Tel Aviv-100 index.

The TA-75 index comprises the 75 largest companies on the exchange by market capitalization and the TelTek-15 index comprises the 15 largest high-tech companies in the exchange, also by market capitalization. Shares included in the index are traded on the Tel Aviv Continuous Trading, or TACT, system.

The listing on the TA-75 and TelTek-15 provides Magic Software access to many of the institutional investors both in Israel and abroad who are currently restricted from trading in TASE listed equities that are not listed on these indexes.

Our inclusion in the TA-75 and the TelTek-15 is another indication of the continuing momentum that is building around Magic Software and our new iBOLT Integration Suite for business integration, development and process management, improving our ability to attract larger investor audiences, said Menachem Hasfari, CEO of Magic Software. We are optimistic that we will continue to fulfill our objective to deliver solid financial performance, and shareholder value.
