**PROSPERITY PANEL REVIEW HEARINGS COMPLETE**

**May 6 , 2010, Vancouver, BC** - Taseko Mines Limited (TSX: TKO; NYSE Amex: TGB) ("Taseko" or the "Company") announces that six weeks of Federal Panel Review Hearings into the Company's Prosperity Gold-Copper Project (the "Project") have now concluded, the record has been closed and no additional information will be considered by the Panel. The Panel has 60 days to prepare its report for submission to the federal Minister of the Environment and other agencies - no later than July 2, 2010 - as directed by its Terms of Reference. The Minister will then take the matter to the federal Cabinet for a final decision.

"All potential environmental effects were examined by the responsible federal departments, agencies and authorities and based on the evidence and findings presented during these past 6 weeks of hearings, and we remain fully confident that the Cabinet will grant approval for mine development," said Russell Hallbauer, President and CEO. "After hearing all of the evidence, our position remains that there are no significant environmental effects after taking the mitigation measures into account," added Mr. Hallbauer.

Health Canada is satisfied that there are no human health effects or any ecological health concerns associated with building and operating this mine. Both Environment Canada and Natural Resources Canada agree with Taseko's findings concerning water quality and aquatic ecology. On the matter of compensation for impacts on fish habitat, the Company and the Department of Fisheries and Oceans continue to work cooperatively towards resolving any

outstanding issues.

Taseko's closing submission to the Panel emphasized some key points, including the economic and social needs of the region, an area in which over the last year consumer bankruptcies have increased by 70 percent, the unemployment rate has increased 84 percent and, in Williams Lake, the residential rental vacancy rates have increased 700 percent. The closing submission is posted on the Taseko website [www.tasekomines.com](http://www.tasekomines.com) under *Events* and the Prosperity Project website [www.prosperityproject.ca](http://www.prosperityproject.ca) under *What's New*.

The area where the proposed Prosperity Mine is located is not subject to aboriginal title; it is Crown land, owned and regulated by the Province of British Columbia which issued the Project an Environmental Assessment Certificate and approved the Project for development on January 14, 2010.

#### **Forward Looking Statements**

This release includes certain statements that may be deemed "forward-looking statements". All statements in this release, other than statements of historical facts, that address future production, reserve potential, exploration drilling, exploitation activities and events or developments that the Company expects are forward-looking statements. Although the Company believes the expectations expressed in such forward-looking statements are based on reasonable assumptions, such statements are not guarantees of future performance and actual results or developments may differ materially from those in the forward-looking statements. Factors that could cause actual results to differ materially from those in forward-looking statements include capital market conditions, commodities market prices, exploitation and exploration successes, lack of continuity of mineralization, completion of the mill upgrade on time estimated and at scheduled cost, continued availability of capital and financing, and general economic, market or business conditions. Investors are cautioned that any such statements are not guarantees of future performance and that actual results or developments may differ materially from those projected in the forward-looking statements. For more information on the Company, Investors should review the Company's annual Form 20-F filing with the United States Securities and Exchange Commission or the Company's home jurisdiction filings at [www.sedar.com](http://www.sedar.com).
