AVON PRODUCTS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(U.S. dollars in millions, except per share data)

1. ACCOUNTING POLICIES

Basis of Presentation

We prepare our unaudited interim Consolidated Financial Statements in conformity with accounting principles generally accepted in the United States ("GAAP"). We consistently applied the accounting policies described in our 2017 Annual Report on Form 10-K ("2017 Form 10-K") in preparing these unaudited interim Consolidated Financial Statements, other than those impacted by new accounting standards as described below. In our opinion, the unaudited interim Consolidated Financial Statements reflect all adjustments of a normal recurring nature that are necessary for a fair statement of the results for the interim periods presented. Results for interim periods are not necessarily indicative of results for a full year. You should read these unaudited interim Consolidated Financial Statements in conjunction with our Consolidated Financial Statements contained in our 2017 Form 10-K. When used in this report, the terms "Avon," "Company," "we" or "us" mean Avon Products, Inc.

For interim Consolidated Financial Statements purposes, we generally provide for accruals under our various employee benefit plans for each quarter based on one quarter of the estimated annual expense, and adjust these accruals as estimates are refined. In addition, our income tax provision is determined using an estimate of our consolidated annual effective tax rate, adjusted in the current period for discrete income tax items including:

• the effects of significant, unusual or extraordinary pretax and income tax items, if any;

• withholding taxes recognized associated with cash repatriations; and

• the impact of loss-making subsidiaries for which we cannot recognize an income tax benefit and subsidiaries for which an effective tax rate cannot be reliably estimated.

Revenue

Nature of goods and services

We are a global manufacturer and marketer of beauty and related products. Our product categories are Beauty and Fashion & Home. Beauty consists of skincare, fragrance and color (cosmetics). Fashion & Home consists of fashion jewelry, watches, apparel, footwear, accessories, gift and decorative products, housewares, entertainment and leisure products, children's products and nutritional products.

Our business is conducted primarily in one channel - direct selling. Our reportable segments are based on geographic operations in four regions: Europe, Middle East & Africa South Latin America North Latin America and Asia Pacific.

We primarily sell our products to the ultimate consumer through the direct selling channel principally through Representatives, who are independent contractors and not our employees.

Revenue recognition

Revenue is recognized when control of a product or service is transferred to a customer, which is generally the Representative. Revenue is measured based on the consideration specified in a contract with a customer and excludes amounts collected on behalf of third parties, such as Value Added Taxes ("VAT") collected for taxing authorities.

Principal revenue streams and significant judgments

Our principal revenue streams can be distinguished into: i) the sale of Beauty and Fashion & Home products to Representatives (recorded in net sales); ii) Representative fees, primarily for the sale of brochures to Representatives and fulfillment activities related to the contract, which include fees for shipping and handling (recorded in other revenue); and iii) other, which includes the sale of products to New Avon and royalties from the licensing of our name and products (recorded in other revenue).

i) Sale of Beauty and Fashion & Home products to Representatives

We generate the majority of our revenue through the sale of Beauty and Fashion & Home products. A Representative contacts her customers directly, selling primarily through our brochure, which highlights new products and special promotions (or incentives) for each sales campaign. In this sense, the Representative, together with the brochure, are the "store" through which our products are sold. A brochure introducing a new sales campaign is typically generated every three to four weeks. A purchase order is processed and the products are picked at a distribution center and

delivered to the Representative usually through a combination of local and national delivery companies. Generally, the Representative then delivers the merchandise and collects

9

AVON PRODUCTS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(U.S. dollars in millions, except per share data)

payment from the customer for her or his own account. A Representative generally receives a refund of the price the Representative paid for a product if the Representative chooses to return it.

A Representative Agreement, which outlines the basic terms of the agreement between Avon and the Representative, combined with a purchase order, constitutes a contract for the purposes of Accounting Standards Codification Topic ("ASC 606"), Revenue from Contracts with Customers.

We account for individual products and services separately in the contract if they are distinct (i.e., if a product or service is separately identifiable from the other items in the contract and if a Representative can benefit from the product or service on its own or with other resources that are readily available). This revenue is recognized at a point in time, when control of a product is transferred to a Representative. In addition, we offer incentives to Representatives to support sales growth. Certain of these sales incentives are distinct promises to a Representative, and therefore are a separate performance obligation. As a result, revenue is allocated to the performance obligation for sales incentives and is deferred on the balance sheet until the associated performance obligations are satisfied.

Typically included within a contract is variable consideration, such as sales returns and late payment fees. Revenue is only recorded to the extent it is probable that it will not be reversed, and therefore revenue is adjusted for variable consideration. Variable consideration is generally estimated using the expected value method, which considers possible outcomes weighted by their probability. Specifically for sales returns, a refund liability will be recorded for the estimated cash to be refunded for the products expected to be returned, and a returns asset will be recorded for the products which we expect to be returned and re-sold, each of these based on historical experience. Sales returns are estimated and updated at the end of each month. The measurement of the returns asset and the refund liability is updated at the end of each month for changes in expectations regarding the amount of salvageable returns, reconditioning costs and any additional decreases in the value of the returned products. Late payment fees are recorded when the uncertainty associated with collecting such fees are resolved (i.e., when collected).

The Representative generally receives a credit period of one sales campaign if they meet certain criteria; however, the specific credit terms are outlined in the Representative Agreement. Generally, the Representative remits payment during each sales campaign, which relates to the prior campaign cycle. The Representative is generally precluded from submitting an order for the current sales campaign until the accounts receivable balance past due for prior campaigns is paid; however, there are circumstances where the Representative fails to make the required payment.

Our contracts with Representatives often include multiple promises to transfer products and/or services to the Representative, and determining which of these products and/or services are considered distinct performance obligations that should be accounted for separately may require significant judgment. In addition, in assessing the recognition of revenue for the following performance obligations, management has exercised significant judgment in the following areas: estimation of variable consideration and the stand-alone selling prices ("SSP") of promised goods or services in order to determine and allocate the transaction price.

Performance obligation - Avon products

The Representative purchases Avon products through a purchase order. We recognize revenue for Avon products in net sales in our Consolidated Statements of Operations when the Representative obtains control of the products, which occurs upon delivery of the product to the Representative. Transaction price is the amount we expect to receive in exchange for those products adjusted for variable consideration as discussed above and the estimated SSP of other performance obligations as discussed below.

Performance obligation - Sales incentives

Types of sales incentives include status programs, loyalty points, prospective discounts, and gift with purchase, among others. A Representative is eligible for certain status programs if specified sales levels are met. Status programs offer additional benefits such as free or discounted products and services. Loyalty points offer the option to redeem for additional Avon or other products or services. Prospective discounts are offered in some countries when certain sales levels are reached in a given time period. The revenue attributable to the prospective discount performance obligation

is for the option to purchase additional product at a discounted amount.

Certain benefits within status programs, loyalty points, prospective discounts and certain other sales incentives constitute a material right and, therefore, a distinct performance obligation in the contract with the Representative. Transaction price is allocated to the material right (performance obligation) based on estimated SSP and is deferred on the balance sheet until the associated performance obligations are satisfied. The cost of sales incentives is presented in inventories in our Consolidated Balance Sheets. We recognize revenue allocated to the material right in net sales in our Consolidated

10

AVON PRODUCTS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(U.S. dollars in millions, except per share data)

Statements of Operations at the point in time that the Representative receives the benefits of the material right or obtains control of the products, which occurs upon delivery to the Representative or upon expiration of the material right. For sales incentives that are delivered with the associated products order (such as gift with purchase), no deferral is required.

SSP represents the estimated market value, or the estimated amount that could be charged for that material right when the entity sells it separately in similar circumstances to similar customers. Judgment is required to determine the SSP for each distinct performance obligation. In instances where SSP is not directly observable, such as when we do not sell the product or service separately, including for certain sales incentives, we determine the SSP using information that may include market prices and other observable inputs.

ii) Representative fees, primarily for the sale of brochures to Representatives and fulfillment activities related to the contract ("Representative fees")

The purchase order in the contract with the Representative explicitly identifies activities that we will perform. This includes fees that we charge Representatives, primarily for the sale of brochures to Representatives and fulfillment activities, and also includes late payment fees (discussed above). Brochures represent promotional materials that are given directly by the Representatives to their customers as a marketing activity. Under ASC 606, brochures that are sold by Avon to Representatives through purchase orders represent separate performance obligations in the contract as these are promises made between Avon and the Representative. Although the brochures are used similar to marketing materials, the Representative generally orders and pays for the brochures, and we allocate consideration for purposes of revenue recognition. The revenue associated with brochures that are sold to Representatives is recognized in other revenue and the related cost is recognized in cost of sales in our Consolidated Statements of Operations. We recognize revenue when the Representative obtains control of the brochures, which occurs upon delivery to the Representative. When brochures are given away for free to Representatives as promotional items, the cost is recognized in selling, general and administrative expenses in our Consolidated Statements of Operations.

We often charge the Representative for shipping and handling (including order processing) and payment processing activities on the invoice, and such activities are considered to be fulfillment costs. The consideration received represents part of the transaction price in the contract that is allocated to the performance obligations in the contract. We recognize revenue for fulfillment activities in other revenue in our Consolidated Statements of Operations when the Representative obtains control of the associated products, which occurs upon delivery of the products to the Representative. The cost of these activities is recognized in selling, general and administrative expenses in our Consolidated Statements of Operations.

iii) Other revenue

We also recognize revenue from the sale of products to New Avon LLC ("New Avon"), as part of a manufacturing and supply agreement, since the separation of the Company's North America business into New Avon on March 1, 2016, and royalties from the licensing of our name and products, in other revenue in our Consolidated Statements of Operations.

AVON PRODUCTS, INC.
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 (U.S. dollars in millions, except per share data)

Contract balances

The timing of revenue recognition generally is different from the timing of a promise made to a Representative. As a result, we have contract liabilities, which primarily relate to the advance consideration received from Representatives prior to transfer of the related good or service for material rights, such as loyalty points and status programs, and are primarily classified within other accrued liabilities (with the long-term portion in other liabilities) in our Consolidated Balance Sheets.

Generally, we record accounts receivable when we invoice a Representative. In addition, we record an estimate of an allowance for doubtful accounts on receivable balances based on an analysis of historical data and current circumstances, including seasonality and changing trends. The allowance for doubtful accounts is reviewed for adequacy, at a minimum, on a quarterly basis. We generally have no detailed information concerning, or any communication with, any ultimate consumer of our products beyond the Representative. We have no legal recourse against the ultimate consumer for the collection of any accounts receivable balances due from the Representative to us. If the financial condition of the Representatives were to deteriorate, resulting in their inability to make payments, additional allowances may be required.

The following table provides information about receivables and contract liabilities from contracts with customers at June 30, 2018:

	June 30, 2018
Accounts receivable, net of allowances of \$108.5	\$386.4
Contract liabilities	\$70.3

At January 1, 2018 and June 30, 2018 we had a contract liability of \$91.8 and \$70.3, respectively, relating to certain material rights (loyalty points, status program and prospective discounts). During the six months ended June 30, 2018, we recognized \$80.8 of revenue related to the contract liability balance at January 1, 2018, as the result of performance obligations satisfied. In addition, we deferred an additional \$59.7 related to certain material rights granted during the period, for which the performance obligations are not yet satisfied. Of the amount deferred during the period, substantially all will be recognized within a year, with the significant majority to be captured within a quarter; therefore, the contract liability at June 30, 2018 will primarily be recognized in the remainder of 2018. The remaining movement in the contract liability balance is attributable to foreign exchange differences arising on the translation of the balance as at June 30, 2018 as compared with December 31, 2017.

Contract costs

Incremental costs to obtain contracts, such as bonuses or commissions, are recognized as an asset if the entity expects to recover them. However, ASC 340-40, Other Assets and Deferred Costs, offers a practical expedient to recognize the incremental costs of obtaining a contract as an expense when incurred if the amortization period of the asset that the entity otherwise would have recognized is one year or less. We elected the practical expedient and expense costs to obtain contracts when incurred because our amortization period is one year or less.

Costs to fulfill contracts with Representatives are comprised of shipping and handling (including order processing) and payment processing services, which are expensed as incurred. The fees for these services are included in the transaction price.

Changes in accounting policies

Except for the changes below, we have consistently applied the accounting policies to all periods presented in these consolidated financial statements.

We adopted ASC 606 with a date of the initial application of January 1, 2018, as a cumulative-effect adjustment to retained earnings. Therefore, the comparative information for prior periods has not been adjusted and continues to be

reported under ASC 605, Revenue Recognition. We applied ASC 606 to all outstanding contracts at January 1, 2018. We recorded a cumulative-effect adjustment upon adoption of the new revenue recognition standard as of January 1, 2018 comprised of the following:

- a reduction to retained earnings of \$52.7 before taxes (\$41.1 after tax), with a corresponding impact to deferred income taxes of \$11.6;
- a reduction to prepaid expenses and other of \$54.9;
- an increase to inventories of \$39.3; and

AVON PRODUCTS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(U.S. dollars in millions, except per share data)

an increase to other accrued liabilities of \$37.1 due to the net impact of the establishment of a contract liability of \$91.8 for deferred revenue where our performance obligations are not yet satisfied, which is partially offset by a reduction in the sales incentive accrual of \$54.7.

This cumulative-effect adjustment impacting our Consolidated Balance Sheets is primarily driven by sales incentives and brochures. The other changes resulting from the new revenue recognition standard were not material.

The details of the significant changes to our accounting policy for revenue recognition and the quantitative impact of the changes on our Consolidated Financial Statements are set out below.

Performance obligations - Avon products

We recognize revenue for Avon products in net sales in our Consolidated Statements of Operations when the Representative obtains control of the products, which occurs upon delivery of the product to the Representative. Transaction price is the amount we expect to receive in exchange for those products adjusted for variable consideration, such as sales returns and past due fees, and the estimated SSP of other performance obligations, such as sales incentives. Revenue allocated to the material right (performance obligation) for sales incentives is deferred on the balance sheet until the associated performance obligations are satisfied.

Under our historical accounting, we recognized revenue for Avon products in net sales in our Consolidated Statements of Operations upon delivery of the product to the Representative. Revenue was adjusted for expected sales returns.

Performance obligations/ material rights - sales incentives

Certain benefits within status programs, loyalty points, prospective discounts and certain other sales incentives constitute a material right and, therefore, a distinct performance obligation in the contract with the Representative. Transaction price is allocated to the material right based on estimated SSP and is deferred on the balance sheet until the associated performance obligations are satisfied. The cost of sales incentives is presented in inventories in our Consolidated Balance Sheets. We recognize revenue allocated to the material right in net sales and the associated cost of sales incentives is recognized in cost of sales in our Consolidated Statements of Operations, at the point in time that the Representative receives the benefits of the material right or obtains control of the products, which occurs upon delivery to the Representative or upon expiration of the material right. For sales incentives that are delivered with the associated products order (such as gift with purchase), no deferral is required.

Under our historical accounting, the cost of sales incentives was generally presented in other accrued liabilities and prepaid expenses and other in our Consolidated Balance Sheets and recognized in selling, general and administrative expenses in our Consolidated Statements of Operations over the period that the sales incentive was earned.

Representative fees, primarily for the sale of brochures to Representatives and fulfillment activities related to the contract

This includes fees that we charge Representatives, primarily for the sale of brochures to Representatives and fulfillment activities, and also includes late payment fees.

Brochures - Brochures represent promotional materials that are given directly by the Representatives to their customers as a marketing activity. Under ASC 606, brochures that are sold by Avon to Representatives through purchase orders represent separate performance obligations in the contract as these are promises made between Avon and the Representative. Although the brochures are used similar to marketing materials, the Representative generally orders and pays for the brochures, and Avon allocates consideration for purposes of revenue recognition. The revenue associated with brochures that are sold to Representatives is recognized in other revenue and the related cost is recognized in cost of sales in our Consolidated Statements of Operations. We recognize revenue when the Representative obtains control of the brochures, which occurs upon delivery to the Representative. When brochures are given away for free to Representatives as promotional items, the cost is recognized in selling, general and administrative expenses in our Consolidated Statements of Operations.

Under our historical accounting, all brochure costs were initially deferred to prepaid expenses and other in our Consolidated Balance Sheets and were charged to selling, general, and administrative expenses in our Consolidated

Statements of Operations over the campaign length. In addition, fees charged to Representatives for brochures were initially deferred and presented as a reduction of prepaid expenses and other in our Consolidated Balance Sheets, and were recorded as a reduction of selling, general, and administrative expenses in our Consolidated Statements of Operations over the campaign length.

Fulfillment activities and late payment fees - We often charge the Representative for shipping and handling (including order processing) and payment processing activities on the invoice, and such activities are considered to be fulfillment

AVON PRODUCTS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(U.S. dollars in millions, except per share data)

costs. The consideration received represents part of the transaction price in the contract that is allocated to the performance obligations in the contract. We recognize revenue for fulfillment activities in other revenue in our Consolidated Statements of Operations when the Representative obtains control of the associated products, which occurs upon delivery of the products to the Representative. The cost of these activities is recognized in selling, general and administrative expenses in our Consolidated Statements of Operations. Late payment fees are recorded in other revenue in our Consolidated Statements of Operations when collected.

Under our historical accounting, revenue for shipping and handling (including order processing) activities was recorded in other revenue in our Consolidated Statements of Operations. However, the revenue for payment processing activities and late payment fees were recognized as a reduction of selling, general, and administrative expenses in our Consolidated Statements of Operations. The cost of these activities was recognized in selling, general and administrative expenses in our Consolidated Statements of Operations.

Impacts on consolidated financial statements

The following tables summarize the impacts of adopting ASC 606 on the Company's consolidated financial statements for the three months ended June 30, 2018:

Line items impacted within the Consolidated Statements of Operations	Impact of change in revenue recognition standard			Balances excluding the impact of adopting ASC 606
	Per consolidated financial statements	Adjustments		
Revenue				
Net sales	\$1,268.8	\$ (7.6)	(1)	\$1,261.2
Other revenue	83.1	(50.5)	(2)	32.6
Total revenue	1,351.9	(58.1)		1,293.8
Costs and expenses				
Cost of sales	539.7	(65.6)	(3)	474.1
Selling, general and administrative expenses	759.2	9.5	(4)	768.7
Operating profit	53.0	(2.0)		51.0
Loss before income taxes	(0.3)	(2.0)		(2.3)
Income taxes	(36.7)	(0.1)		(36.8)
Net loss	(37.0)	(2.1)		(39.1)
Net loss attributable to Avon	(36.1)	(2.1)		(38.2)

(1) Primarily relates to net impact of the timing of recognition of sales incentives.

(2) Relates to Representative fees (primarily brochure fees, late payment fees and certain other fees), which were reclassified from SG&A. Brochure fees were also impacted by the timing of recognition.

(3) Primarily relates to the cost of sales incentives and the cost of brochures paid for by Representatives, both of which were reclassified from SG&A and were also impacted by the timing of recognition.

(4) Relates to the cost of sales incentives, which were reclassified to cost of sales and were also impacted by the timing of recognition. This was partially offset by Representative fees, which were reclassified to other revenue.

Other Accounting Standards Implemented

ASU 2017-07, Compensation - Retirement Benefits

In March 2017, the FASB issued ASU 2017-07, Compensation - Retirement Benefits. This new guidance requires entities to (1) disaggregate the service cost component from the other components of net periodic benefit costs and present it with other current employee compensation costs in the Consolidated Statements of Operations and (2) present the other components of net periodic benefit costs below operating profit in other expense, net. We adopted this new accounting guidance effective January 1, 2018. The new accounting guidance was applied retrospectively and increased our operating profit for the three and six months ended June 30, 2017 by \$1.1 and \$2.2 respectively, but had no impact on net loss.

Accounting Standards to be Implemented

ASU 2016-02, Leases

In February 2016, the FASB issued ASU 2016-02, Leases, which requires all assets and liabilities arising from leases to be recognized in our Consolidated Balance Sheets. We intend to adopt this new accounting guidance effective January 1, 2019. While we are still evaluating the full effect that adopting this new accounting guidance will have on our Consolidated Financial Statements, we believe that it will significantly increase the assets and liabilities in our Consolidated Balance Sheets.

ASU 2018-02, Income Statement - Reporting Comprehensive Income

In February 2018, the FASB issued ASU 2018-02, Income Statement - Reporting Comprehensive Income, which permits entities to reclassify the disproportionate income tax effects of the 2017 enactment of U.S. tax reform legislation on items within accumulated other comprehensive income (loss) to retained earnings. These disproportionate income tax effect items are referred to as "stranded tax effects." We intend to adopt this new accounting guidance effective January 1, 2019. We are currently assessing the impact on our consolidated financial statements.

ASU 2016-13, Financial Instruments - Credit Losses

In January 2016, the FASB issued ASU 2016-13, Financial Instruments - Credit Losses, which requires measurement and recognition of expected credit losses for financial assets held. We intend to adopt this new accounting guidance effective January 1, 2020. We are currently assessing the impact on our consolidated financial statements.

2. EARNINGS (LOSS) PER SHARE AND SHARE REPURCHASES

Edgar Filing: AVON PRODUCTS INC - Form 10-Q

We compute earnings (loss) per share ("EPS") using the two-class method, which is an earnings (loss) allocation formula that determines earnings (loss) per share for common stock, and earnings (loss) allocated to convertible preferred stock and participating securities, as appropriate. The earnings allocated to convertible preferred stock are the larger of 1) the preferred dividends accrued in the period or 2) the percentage of earnings from continuing operations allocable to the preferred stock as if they had been converted to common stock. Our participating securities are our grants of restricted stock and restricted stock units, which contain non-forfeitable rights to dividend equivalents to the extent any dividends are declared and paid on our common stock. We compute basic EPS by dividing net income (loss) allocated to common shareholders by the weighted-average number of shares outstanding during the period. Diluted EPS is calculated to give effect to all potentially dilutive common shares that were outstanding during the period.

(Shares in millions)	Three Months		Six Months	
	Ended June 30,		Ended June 30,	
	2018	2017	2018	2017
Numerator attributable to Avon:				
Net loss attributable to Avon	\$(36.1)	\$(45.5)	\$(56.4)	\$(82.0)
Less: Loss allocated to participating securities	(.4)	(.6)	(.6)	(1.0)
Less: Earnings allocated to convertible preferred stock	6.0	5.7	12.0	11.4
Loss allocated to common shareholders	(41.7)	(50.6)	(67.8)	(92.4)
Denominator:				
Basic EPS weighted-average shares outstanding	442.2	439.9	441.5	439.3
Diluted effect of assumed conversion of stock options	—	—	—	—
Diluted effect of assumed conversion of preferred stock	—	—	—	—
Diluted EPS adjusted weighted-average shares outstanding	442.2	439.9	441.5	439.3
Loss per Common Share attributable to Avon:				
Basic	\$(.09)	\$(.12)	\$(.15)	\$(.21)
Diluted	(.09)	(.12)	(.15)	(.21)

Amounts in the table above may not necessarily sum due to rounding.

During the three months and six months ended June 30, 2018, we did not include stock options to purchase 18.5 million shares and 17.4 million shares, respectively, of Avon common stock in the calculation of diluted EPS as we had a net loss and the inclusion of these shares would decrease the net loss per share. Since the inclusion of such shares would be anti-dilutive, these are excluded from the calculation. During the three and six months ended June 30, 2017, we did not include stock options to purchase 18.1 million shares and 16.1 million shares, respectively, for the same reason.

For the three and six months ended June 30, 2018 and 2017, it is more dilutive to assume the series C convertible preferred stock is not converted into common stock; therefore, the weighted-average shares outstanding were not adjusted by the as-if

AVON PRODUCTS, INC.
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 (U.S. dollars in millions, except per share data)

converted series C convertible preferred stock because the effect would be anti-dilutive as it would decrease the net loss per share. If the as-if converted series C convertible preferred stock had been dilutive, approximately 87.1 million additional shares would have been included in the diluted weighted average number of shares outstanding for the three and six months ended June 30, 2018 and 2017. See Note 4, Related Party Transactions.

We purchased approximately 1.1 million shares of Avon common stock for \$3.2 during the first six months of 2018, as compared to approximately 1.5 million shares of Avon common stock for \$6.4 during the first six months of 2017, through acquisition of stock from employees in connection with tax payments upon the vesting of restricted stock units and performance restricted stock units.

3. INVESTMENT IN NEW AVON

In connection with the separation of the Company's North America business, which closed on March 1, 2016, the Company retained a 19.9% ownership interest in New Avon, a privately-held company that is majority-owned and managed by an affiliate of Cerberus Capital Management L.P. ("Cerberus"). The Company has accounted for its ownership interest in New Avon using the equity method of accounting, which resulted in the Company recognizing its proportionate share of New Avon's income or loss and other comprehensive income or loss. Our recorded investment balance in New Avon at June 30, 2018 and December 31, 2017 was zero.

During the third quarter of 2017, the Company received a cash distribution of \$22.0 from New Avon, which reduced our recorded investment balance in New Avon. During the third quarter of 2017, we recorded only \$1.7 of the Company's proportionate share of the losses in New Avon, as this reduced our recorded investment balance in New Avon to zero. As a result, we have not recorded our proportionate share of New Avon's loss since the third quarter of 2017. If New Avon experiences future losses while our recorded investment balance is zero, we would not record our proportionate share of such loss. The Company's proportionate share of the losses of New Avon was \$5.8 and \$9.8 during the three and six months ended June 30, 2017, respectively, which was recorded within other expense, net. In addition, the Company's proportionate share of the post-separation other comprehensive income of New Avon was an immaterial amount during the three and six months ended June 30, 2017, and was recorded within other comprehensive income (loss).

The Company also recorded an additional loss of \$.5 within other expense, net and a benefit of \$1.1 within other comprehensive income (loss), during the six months ended June 30, 2017, primarily associated with purchase accounting adjustments reported by New Avon.

Summarized financial information related to New Avon is shown below:

	Six Months Ended June 30,	
	2018	2017
Total revenue	\$320.1	\$361.8
Gross profit	186.6	225.6
Net loss	(42.3)	(49.4)

(1) The Company supplies product to New Avon as part of a manufacturing and supply agreement.

(2) New Avon supplies product to the Company as part of the same manufacturing and supply agreement noted above. The Company purchased \$.5 and \$.9 from New Avon associated with this agreement during the three months ended June 30, 2018 and 2017, respectively, and recorded \$.7 and \$1.3 associated with these purchases within cost of sales in our Consolidated Statement of Operations during the three months ended June 30, 2018 and 2017, respectively. The Company purchased \$1.2 and \$1.9 from New Avon associated with this agreement during the six months ended June 30, 2018 and 2017, respectively, and recorded \$1.2 and \$2.1 associated with these purchases within cost of sales in our Consolidated Statement of Operations during the six months ended June 30, 2018 and 2017, respectively.

(3) The Company also entered into a transition services agreement to provide certain services to New Avon, as well as an intellectual property ("IP") license agreement, an agreement for technical support and innovation and sublease for office space. In addition, New Avon performed certain services for the Company under a similar transition services agreement, which expired during the third quarter of 2017. The Company recorded a net \$.5 and \$7.2 reduction of selling, general and administrative expenses associated with these agreements during the three months ended June 30, 2018 and 2017, respectively, and a net \$3.7 and \$15.1 reduction of selling, general and administrative expenses

associated with these agreements during the six months ended June 30, 2018 and 2017, respectively, which generally represents a recovery of the related costs.

(4) The Company also entered into agreements with an affiliate of Cerberus, which provide for the secondment of Cerberus affiliate personnel to the Company's project management team responsible for assisting with the execution of the transformation plan (the "Transformation Plan") announced in January 2016. The Company recorded \$.2 and \$.8 in selling, general and administrative expenses associated with these agreements during the three months ended June 30, 2018 and 2017, respectively, and recorded \$.8 and \$1.6 in selling, general and administrative expenses associated with these agreements during the six months ended June 30, 2018 and 2017, respectively. See Note 11, Restructuring Initiatives for additional information related to the Transformation Plan.

AVON PRODUCTS, INC.
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 (U.S. dollars in millions, except per share data)

(5) During the second quarter of 2018, the Company entered into an agreement to loan the Instituto Avon, an independent non-government charitable organization in Brazil, \$3.6 for an unsecured 5-year term at a fixed interest rate of 7% per annum, to be paid back in 5 equal annual installments. The Instituto Avon was created by an Avon subsidiary in Brazil, with board and executive team comprising of Avon Brazil management. The purpose of the loan is to provide the Instituto Avon with the means to donate funds to Fundação Pio XII (a leading cancer prevention and treatment organization in Brazil and owner of the Hospital do Câncer de Barretos), in order to invest in equipment with the objective of expanding breast cancer prevention and treatment.

(6) Inventories relate to purchases from New Avon, associated with the manufacturing and supply agreement, which have not yet been sold, and were classified within inventories in our Consolidated Balance Sheets.

(7) The receivables due from New Avon relate to the agreements for transition services, the IP license, technical support and innovation and subleases for office space, as well as the manufacturing and supply agreement, and were classified within prepaid expenses and other in our Consolidated Balance Sheets.

(8) The payables due to New Avon relate to the manufacturing and supply agreement, and were classified within other accrued liabilities in our Consolidated Balance Sheets.

(9) The payables due to an affiliate of Cerberus relate to the agreement for the project management team, and were classified within other accrued liabilities in our Consolidated Balance Sheets.

In addition, the Company also issued standby letters of credit to the lessors of certain equipment, a lease for which was transferred to New Avon in connection with the separation of the Company's North America business. As of June 30, 2018, the Company has a liability of \$1.4 for the estimated value of such standby letters of credit.

Series C Preferred Stock

On March 1, 2016, the Company issued and sold to Cerberus Investor 435,000 shares of newly issued series C preferred stock for an aggregate purchase price of \$435.0. Cumulative preferred dividends accrue daily on the series C preferred stock at a rate of 1.25% per quarter. The series C preferred stock had accrued unpaid dividends of \$53.5 as of June 30, 2018. There were no dividends declared in the six months ended June 30, 2018 and 2017.

5. INVENTORIES

Components of Inventories	June 30, December 31,

Net periodic benefit costs ⁽¹⁾	\$4.0	\$5.1	\$(2.4)	\$1.3	\$.5	\$.6

⁽¹⁾ Service cost is presented in selling, general and administrative expenses in our Consolidated Statements of Operations. The components of net periodic benefit costs other than service cost are presented in other expense, net in our Consolidated Statements of Operations.

During the six months ended June 30, 2018, we made approximately \$11.4 and approximately \$8 of contributions to the U.S. and non-U.S. defined benefit pension and postretirement benefit plans, respectively. During the remainder of 2018, we anticipate contributing approximately \$0 to \$4 and approximately \$12 to \$17 to fund our U.S. and non-U.S. defined benefit pension and postretirement benefit plans, respectively.

In addition to the amounts in the tables above, during the second quarter of 2017, we recorded an \$18.2 charge for a loss contingency related to a non-U.S. pension plan, for which an amendment to the plan that occurred in a prior year may not have been appropriately implemented.

7. CONTINGENCIES

Settlements of FCPA Investigations

As previously reported, we engaged outside counsel to conduct an internal investigation and compliance reviews focused on compliance with the Foreign Corrupt Practices Act ("FCPA") and related U.S. and foreign laws in China and additional countries. The internal investigation, which was conducted under the oversight of our Audit Committee, began in June 2008 and along with the compliance reviews, was completed in 2014.

Following our voluntary reporting of the internal investigation to both the U.S. Department of Justice (the "DOJ") and the U.S. Securities and Exchange Commission (the "SEC") and our subsequent cooperation with those agencies, the United States District Court for the Southern District of New York (the "USDC") approved in December 2014 a deferred prosecution agreement ("DPA") entered into between the Company and the DOJ related to charges of violations of the books and records and internal controls provisions of the FCPA. In addition, Avon Products (China) Co. Ltd., a subsidiary of the Company operating in China, pleaded guilty to conspiring to violate the books and records provision of the FCPA. The USDC also entered a judgment in January 2015 approving our consent agreement with the SEC (the "Consent") to settle the SEC's complaint charging violations of the books and records and internal control provisions of the FCPA.

As part of these resolutions, the Company agreed, among other things, to pay fines, disgorgement and prejudgment interest in an aggregate amount of \$135 and to have a compliance monitor (the "monitor"). The monitor was replaced by the Company, which undertook self-reporting obligations for the remainder of the monitoring period. The DPA has expired, and the charges against the Company were dismissed with prejudice on February 5, 2018.

The Company was subject to a continued self-monitoring period, including the filing of periodic self-monitoring reports with the SEC, until the July 2018 expiry of the monitoring period under the Consent. The Company's final self-monitoring report and certification of completion were filed on July 9, 2018, but the SEC retains the right under

the Consent to request additional compliance-related information from the Company as part of the Company's self-monitoring. Third-party costs incurred in connection with self-monitoring and compliance with the Consent have not been material to date. While we do not anticipate material costs going forward, the Company's related obligations may be costly and/or time-consuming.

Brazilian Tax Assessments

In 2002, our Brazilian subsidiary received an excise tax (IPI) assessment from the Brazilian tax authorities for alleged tax deficiencies during the years 1997-1998, which was officially closed in favor of Avon Brazil in July 2017. In December 2012,

AVON PRODUCTS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(U.S. dollars in millions, except per share data)

additional assessments were received for the year 2008 with respect to excise tax (IPI) and taxes charged on gross receipts (PIS and COFINS). In the second quarter of 2014, the PIS and COFINS assessments were officially closed in favor of Avon Brazil. As in the 2002 IPI case, the 2012 IPI assessment asserts that the establishment in 1995 of separate manufacturing and distribution companies in Brazil was done without a valid business purpose and that Avon Brazil did not observe minimum pricing rules to define the taxable basis of excise tax. The structure adopted in 1995 is comparable to that used by many other companies in Brazil. We believe that our Brazilian corporate structure is appropriate, both operationally and legally, and that the 2012 IPI assessment is unfounded.

These matters are being vigorously contested. In January 2013, we filed a protest seeking a first administrative level review with respect to the 2012 IPI assessment. In July 2013, the 2012 IPI assessment was upheld at the first administrative level and we appealed this decision to the second administrative level. The 2012 IPI assessment totals approximately \$303, including penalties and accrued interest. On April 18, 2018, Avon received official notification that the second administrative level has issued a partially favorable and partially unfavorable decision. In this decision, the original assessment was reduced by approximately \$64 (including associated penalty and interest), subject to Federal Revenue appeal. The remaining \$239 of the assessment was upheld at the second administrative level. On April 20, 2018, we appealed this decision in the third administrative level.

On October 3, 2017, Avon Brazil received a new tax assessment notice regarding IPI for 2014. The 2017 IPI assessment totals approximately \$232, including penalties and accrued interest. In line with the other assessments received in the past, the Brazilian tax authorities assert that the structure adopted in 2005 has no valid business purpose and that Avon Brazil did not observe minimum pricing rules to define the taxable basis of excise tax. Avon will vigorously contest this assessment, and presented the first defense on November 1, 2017. On April 2, 2018, Avon was notified of an unfavorable decision at the first administrative level. On April 27, 2018, we filed an appeal in the second administrative level.

In the event that the 2012 and the 2017 IPI assessments are upheld in the third and final administrative level, it may be necessary for us to provide security to pursue further appeals in the judicial levels, which, depending on the circumstances, may result in a charge to earnings and an adverse effect on the Company's Consolidated Statements of Cash Flows. It is not possible to reasonably estimate the likelihood or potential amount of assessments that may be issued for subsequent periods (tax years up through 2010 are closed by statute). However, other similar IPI assessments involving different periods (1998-2001) have been cancelled and officially closed in our favor by the second administrative level and in July 2017 we received the official cancellation of the 2002 assessment pursuant to the favorable decision discussed above. We believe that the 2012 and the 2017 IPI assessments are unfounded, however, based on the likelihood that these will be upheld, we assess the risks as disclosed above as reasonably possible. At June 30, 2018, we have not recognized a liability for the 2012 or 2017 IPI assessments.

Brazil IPI Tax on Cosmetics

In May 2015, an Executive Decree on certain cosmetics went into effect in Brazil which increased the amount of IPI taxes that are to be remitted by Avon Brazil to the taxing authority on the sales of cosmetic products subject to IPI. Avon Brazil filed an objection to this IPI tax increase on the basis that it is not constitutional. In December 2016, Avon Brazil received a favorable decision from the Federal District Court regarding this objection. This decision has been appealed by the tax authorities.

From May 2015 through April 2016, Avon Brazil remitted the taxes associated with this IPI tax increase into a judicial deposit which would be remitted to the taxing authorities in the event that we are not successful in our objection to the tax increase. In May 2016, Avon Brazil received a favorable preliminary decision on its objection to the tax and was granted a preliminary injunction. As a result, beginning in May 2016, Avon Brazil is no longer required to remit the taxes associated with IPI into a judicial deposit. While an increasing number of recent preliminary decisions have been in favor of the taxpayer, as of

June 30, 2018, we have concluded that it is appropriate to continue to recognize the associated IPI taxes as a liability. At June 30, 2018, the liability to the taxing authorities for this IPI tax increase was approximately \$191 and was classified within long-term sales taxes and taxes other than income in our Consolidated Balance Sheets, and the judicial deposit was approximately \$65 and was classified within prepaid expenses and other in our Consolidated Balance Sheets. The net liability that did not have a corresponding judicial deposit was approximately \$126 at June 30, 2018, and the interest associated with this net liability has been and will continue to be recognized in other expense, net. Our cash flow from operations has benefited as compared to our earnings as we have recognized the expense and associated interest related to this IPI tax in our Consolidated Statements of Operations; however, since May 2016, we have not made a corresponding cash payment into a judicial deposit based on the preliminary injunction that is still in force. On June 12, 2018, we received a decision authorizing Avon to withdraw the amount held as a judicial deposit, substituting it by letter of guarantee, which was presented; on July 30, 2018, the funds were received in our bank account. The tax authorities have presented an appeal against that decision. An unfavorable ruling to our objection of this IPI tax increase would have an adverse effect on the Company's Consolidated Statements of Cash Flows as Avon Brazil would have to remit the liability owed to the taxing authorities (including the judicial

AVON PRODUCTS, INC.
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 (U.S. dollars in millions, except per share data)

deposit that was returned to us on July 30, 2018). We are not able to reliably predict the timing of the outcome of our objection to this tax increase.

Talc-Related Litigation

The Company has been named a defendant in numerous personal injury lawsuits filed in U.S. courts, alleging that certain talc products the Company sold in the past were contaminated with asbestos. Many of these actions involve a number of codefendants from a variety of different industries, including manufacturers of cosmetics and manufacturers of other products that, unlike the Company's products, were designed to contain asbestos. We believe that the claims against us are without merit. We are defending vigorously against these claims and will continue to do so. To date, there have been no findings of liability against the Company in any of these cases but we are unable to predict the ultimate outcome of each case. Additional similar cases arising out of the use of the Company's talc products are reasonably anticipated. At this time, we are unable to estimate our reasonably possible losses, if any. Also, in light of the inherent litigation uncertainties, potential costs to litigate these cases are not known, but they may be significant, though some costs will be covered by insurance.

Brazilian Labor-Related Litigation

On an ongoing basis, the Company is subject to numerous and diverse labor-related lawsuits filed by employees in Brazil. These cases are assessed on an aggregated and ongoing basis based on historical outcomes of similar cases. The claims made are often for significantly larger sums than have historically been paid out by the Company. Our practice continues to be to recognize a liability based on our assessment of historical payments in similar cases. Our best estimate of the probable loss for such current cases at June 30, 2018 is approximately \$13 and, accordingly, we have recognized a liability for this amount.

Other Matters

Various other lawsuits and claims, arising in the ordinary course of business or related to businesses previously sold, are pending or threatened against Avon. In management's opinion, based on its review of the information available at this time, the total cost of resolving such other contingencies at June 30, 2018, is not expected to have a material adverse effect on our consolidated financial position, results of operations or cash flows.

8. ACCUMULATED OTHER COMPREHENSIVE INCOME (LOSS)

The tables below present the changes in AOCI by component and the reclassifications out of AOCI for the three and six months ended June 30, 2018 and 2017:

(1) Gross amount reclassified to pension and postretirement expense, within other expense, net in our Consolidated Statements of Operations, and related taxes reclassified to income taxes in our Consolidated Statements of Operations. Foreign exchange net loss of \$9.6 and net gain of \$6.4 for the three months ended June 30, 2018 and 2017, respectively, and a foreign exchange net losses of \$3.7 and net gain of \$9.8 for the six months ended June 30, 2018 and 2017, respectively, resulting from the translation of actuarial losses and prior service cost recorded in AOCI, are included in foreign currency translation adjustments in our Consolidated Statements of Comprehensive Loss.

9. SEGMENT INFORMATION

We determine segment profit by deducting the related costs and expenses from segment revenue. Segment profit includes an allocation of global marketing expenses based on actual revenues. Segment profit excludes global expenses other than the allocation of marketing, costs to implement ("CTI") restructuring initiatives (see Note 11, Restructuring Initiatives), a loss contingency related to a non U.S. pension plan (see Note 6, Employee Benefit Plans), certain significant asset impairment charges, and other items, which are not allocated to a particular segment, if applicable. This is consistent with the manner in which we assess our performance and allocate resources.

Summarized financial information concerning our reportable segments was as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2018	2017	2018	2017
Total Revenue	\$500.7	\$494.6	\$1,069.1	\$1,002.1

Other operating segments and business activities include markets that have been exited. Effective in the first quarter of 2018, given that we are exiting Australia and New Zealand during 2018, the results of Australia and New Zealand are now reported in Other operating segments and business activities for all periods presented, while previously the results had been reported in the Asia Pacific segment. Other operating segments and business activities also include revenue from the sale of products to New Avon since the separation of the Company's North America business into New Avon on March 1, 2016 and ongoing royalties from the licensing of our name and products.

10. SUPPLEMENTAL BALANCE SHEET INFORMATION

At June 30, 2018 and December 31, 2017, prepaid expenses and other included the following:

Components of Prepaid Expenses and Other	June 30, December 31,	
	2018	2017
Prepaid taxes and tax refunds receivable	\$ 113.3	\$ 111.6
Receivables other than trade	54.8	67.2
Prepaid brochure costs, paper and other literature ⁽¹⁾	13.9	64.8
Judicial deposit for Brazil IPI tax on cosmetics (Note 7)	65.0	—
Other	43.9	52.8
Prepaid expenses and other	\$ 290.9	\$ 296.4

(1) The decrease in prepaid brochure costs, paper and other literature is primarily due to the adoption of ASC 606. Effective January 1, 2018, the costs associated with brochures that will be purchased by the Representative are presented within inventories in our Consolidated Balance Sheets, while the costs associated with brochures that will be given away for free as promotional items are reflected within prepaid expenses and other in our Consolidated Balance Sheets. Previously, the net of the costs and fees charged to Representatives for all brochures were presented within prepaid expenses and other in our Consolidated Balance Sheets. See Note 1, Accounting Policies for further details.

Other assets	\$ 573.9	\$ 666.2

11. RESTRUCTURING INITIATIVES

Transformation Plan

In January 2016, we initiated a Transformation Plan, which included cost reduction efforts to continue to improve our cost structure and to enable us to reinvest in growth. Under this plan, we had targeted pre-tax annualized cost savings of approximately \$350 after three years, with an estimated \$200 from supply chain reductions and an estimated \$150 from other cost reductions, which were expected to be achieved through restructuring actions, as well as other cost-savings strategies that would not result in restructuring charges. We have reinvested and continue to plan to reinvest a portion of these cost savings in growth initiatives, including media, social selling and information technology systems that will help us modernize our business. We had initiated the Transformation Plan in an attempt to enable us to achieve our long-term goals of mid-single-digit constant-dollar revenue growth and low double-digit operating margin. As part of the Transformation Plan, we identified certain actions, that we believe will reduce ongoing costs, primarily consisting of global headcount reductions relating to operating model changes, as well as the closure of Australia, New Zealand and Thailand, which were smaller, under-performing markets. The operating model changes include the streamlining of our corporate functions to align with the current and future needs of the business and an information technology infrastructure outsourcing initiative.

As a result of these restructuring actions approved to-date, we have recorded total costs to implement these restructuring initiatives of \$202.4 before taxes, of which \$35.3 was recorded during the six months ended June 30, 2018, in our Consolidated Statements of Operations. The additional charges not yet incurred associated with the restructuring actions approved to-date of approximately \$20 to \$30 before taxes are expected to be recorded primarily in 2018. At this time we are unable to quantify the total costs to implement the restructuring initiatives that will be incurred through the time the Transformation Plan is fully implemented as we have not yet identified all actions to be taken.

Costs to Implement Restructuring Initiatives - Three and Six Months Ended June 30, 2018

During the three and six months ended June 30, 2018, we recorded costs to implement of \$24.5 and \$35.3 respectively, related to the Transformation Plan, in our Consolidated Statements of Operations. The costs consisted of the following:

- net charges of \$17.3 and \$25.5, respectively, for employee-related costs, including severance benefits;
- implementation costs of \$4.7 and \$5.7, respectively, primarily related to professional service fees;
- accelerated depreciation of \$.9 and \$1.6, respectively;
- inventory write-offs of \$.4 and \$1.1, respectively;
- foreign currency translation adjustment charges of \$.7 and \$.7, respectively; and
- contract termination and other net charges of \$.5 and \$.7, respectively.

Of the total costs to implement during the three months ended June 30, 2018, \$24.1 was recorded in selling, general and administrative expenses and \$.5 was recorded in cost of sales in our Consolidated Statement of Operations. Of the total costs to implement during the six months ended June 30, 2018, \$34.2 was recorded in selling, general and administrative expenses and \$1.1 was recorded in cost of sales.

27

AVON PRODUCTS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(U.S. dollars in millions, except per share data)

Costs to Implement Restructuring Initiatives - Three and Six Months Ended June 30, 2017

During the three and six months ended June 30, 2017, we recorded costs to implement of \$21.0 and \$31.0, respectively, related to the Transformation Plan, in the Consolidated Statement of Operations. The costs consisted of the following:

- net charges of \$9.5, and \$17.1, respectively, for employee-related costs, including severance benefits;
- contract termination and other net charges of \$10.8 and \$12.2, respectively, associated with vacating our previous corporate headquarters;
- implementation costs of \$.2 and \$.7, respectively, primarily related to professional service fees; and
- accelerated depreciation of \$.5 and \$1.0, respectively.

Of the total costs to implement during the three months ended June 30, 2017, \$21.0 was recorded in selling, general and administrative expenses. Of the total costs to implement during the six months ended June 30, 2017, \$31.1 was recorded in selling, general and administrative expenses and a benefit of \$.1 was recorded in cost of sales in our Consolidated Statement of Operations.

The tables below include restructuring costs such as employee-related costs, inventory write-offs, foreign currency translation write-offs and contract terminations, and do not include other costs to implement restructuring initiatives such as professional services fees and accelerated depreciation.

The liability balance for the Transformation Plan as of June 30, 2018 is as follows:

	Employee-Related Costs	Inventory Write-offs	Contract Terminations/Other	Foreign Currency Translation Adjustment	Total
Balance at December 31, 2017	\$ 41.2	\$ —	\$ 8.0	\$ —	\$49.2
2018 charges	30.1	1.1	1.4	.7	33.3
Adjustments	(4.6)	—	(0.7)	—	(5.3)
Cash payments	(13.3)	—	(3.8)	—	(17.1)
Non-cash write-offs	—	(1.1)	—	(.7)	(1.8)
Foreign exchange	(2.0)	—	—	—	(2.0)
Balance at June 30, 2018	\$ 51.4	\$ —	\$ 4.9	\$ —	\$56.3

The majority of cash payments, if applicable, associated with these charges are expected to be made during 2018.

The following table presents the restructuring charges incurred to date, under the Transformation Plan, along with the estimated charges expected to be incurred on approved initiatives under the plan:

	Employee- Related Costs	Inventory Write-offs	Foreign Currency Translation Adjustment Write-offs	Contract Terminations/Other	Total
Charges incurred to-date	\$ 136.5	\$ 2.0	\$ 3.4	\$ 36.7	\$178.6
Estimated charges to be incurred on approved initiatives	6.6	—	—	6.8	13.4
Total expected charges on approved initiatives	\$ 143.1	\$ 2.0	\$ 3.4	\$ 43.5	\$192.0

The charges, net of adjustments, of initiatives under the Transformation Plan, along with the estimated charges expected to be incurred on approved initiatives under the plan, by reportable segment are as follows:

	Europe, Middle East & Africa	South Latin America	North Latin America	Asia Pacific	Global & Other Operating Segments	Total
2015	\$ —	\$ —	\$ —	\$ —	\$ 21.4	\$21.4
2016	30.9	13.2	4.4	9.1	16.8	74.4
2017	.9	5.6	(.6)	(.5)	49.4	54.8
First quarter 2018	3.2	5.3	0.6	—	—	9.1
Second quarter 2018	4.7	(.1)	—	—	14.3	18.9
Charges incurred to-date	39.7	24.0	4.4	8.6	101.9	178.6
Estimated charges to be incurred on approved initiatives	.5	—	—	6.5	6.4	13.4
Total expected charges on approved initiatives	\$ 40.2	\$ 24.0	\$ 4.4	\$ 15.1	\$ 108.3	\$ 192.0

The charges above are not included in segment profit, as this excludes costs to implement restructuring initiatives. We expect our total costs to implement restructuring on approved initiatives to be an estimated \$220 to \$230 before taxes under the Transformation Plan. The amounts shown in the tables above as charges recorded to-date relate to initiatives that have been approved and recorded in the consolidated financial statements as the costs are probable and estimable. The amounts shown in the tables above as total expected charges on approved initiatives represent charges recorded to-date plus charges yet to be recorded for approved initiatives as the relevant accounting criteria for recording an expense have not yet been met.

Other Restructuring Initiatives

During the three and six months ended June 30, 2018, we recorded net benefits of \$.8 and \$.7, respectively, in selling, general and administrative expenses, in our Consolidated Statements of Operations, associated with other restructuring initiatives.

During the three and six months ended June 30, 2017, we recorded net benefits of \$.7 and \$.7, respectively, in selling, general and administrative expenses, in our Consolidated Statements of Operations, associated with other restructuring initiatives.

Foreign exchange	(1.7)	.9	—	(.8)
Net balance at June 30, 2018	\$ 18.7	\$ 73.6	\$ 2.6	\$94.9

13. FAIR VALUE

Assets and Liabilities Recorded at Fair Value on a Recurring Basis

The assets and liabilities measured at fair value on a recurring basis were immaterial at June 30, 2018 and December 31, 2017.

Fair Value of Financial Instruments

Our financial instruments include cash and cash equivalents, available-for-sale securities, short-term investments, accounts receivable, debt maturing within one year, accounts payable, long-term debt and foreign exchange forward

contracts. The carrying value for cash and cash equivalents, accounts receivable, accounts payable and short-term investments approximate fair value because of the short-term nature of these instruments.

The net asset (liability) amounts recorded in the balance sheet (carrying amount) and the estimated fair values of our remaining financial instruments at June 30, 2018 and December 31, 2017, respectively, consisted of the following:

	June 30, 2018		December 31, 2017	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Available-for-sale securities	\$3.7	\$ 3.7	\$3.7	\$ 3.7
Debt maturing within one year ⁽¹⁾	(12.0)	(12.0)	(25.7)	(25.7)
Long-term debt ⁽¹⁾	(1,630.1)	(1,502.3)	(1,872.2)	(1,718.6)
Foreign exchange forward contracts	(.6)	(.6)	—	—

(1) The carrying value of debt maturing within one year and long-term debt is presented net of debt issuance costs and includes any related discount or premium and unamortized deferred gains on terminated interest-rate swap agreements, as applicable.

The methods and assumptions used to estimate fair value are as follows:

• Available-for-sale securities - The fair values of these investments were the quoted market prices for issues listed on securities exchanges.

• Debt maturing within one year and long-term debt - The fair values of our debt and other financing were determined using Level 2 inputs based on indicative market prices.

• Foreign exchange forward contracts - The fair values of forward contracts were estimated based on quoted forward foreign exchange prices at the reporting date.

14. DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES

We operate globally, with manufacturing and distribution facilities in various countries around the world. We may reduce our exposure to fluctuations in the fair value and cash flows associated with changes in interest rates and foreign exchange rates by creating offsetting positions, including through the use of derivative financial instruments. If we use foreign currency-rate sensitive and interest-rate sensitive instruments to hedge a certain portion of our existing and forecasted transactions, we would expect that any gain or loss in value of the hedge instruments generally would be offset by decreases or increases in the value of the underlying forecasted transactions.

We do not enter into derivative financial instruments for trading or speculative purposes, nor are we a party to leveraged derivatives. The master agreements governing our derivative contracts generally contain standard provisions that could trigger early termination of the contracts in certain circumstances, including if we were to merge with another entity and the creditworthiness of the surviving entity were to be "materially weaker" than that of Avon prior to the merger.

Derivatives are recognized in the Consolidated Balance Sheets at their fair values. The following table presents the fair value of derivative instruments outstanding at June 30, 2018:

	Asset		Liability	
	Balance Sheet Classification	Fair Value	Balance Sheet Classification	Fair Value
Derivatives not designated as hedges:				
Foreign exchange forward contracts	Prepaid expenses and other	\$.5	Accounts payable	\$ 1.1
Total derivatives not designated as hedges		\$.5		\$ 1.1
Total derivatives		\$.5		\$ 1.1

The following table presents the fair value of derivative instruments outstanding at December 31, 2017:

	Asset		Liability	
	Balance Sheet Classification	Fair Value	Balance Sheet Classification	Fair Value
Derivatives not designated as hedges:				
Foreign exchange forward contracts	Prepaid expenses and other	\$.2		\$.2

AVON PRODUCTS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(U.S. dollars in millions, except per share data)

Interest Rate Risk

A portion of our borrowings is subject to interest rate risk. In the past we have used interest-rate swap agreements, which effectively converted the fixed rate on long-term debt to a floating interest rate, to manage our interest rate exposure. The agreements were designated as fair value hedges. As of June 30, 2018, we do not have any interest-rate swap agreements. Approximately 1% of our debt portfolio at June 30, 2018 and December 31, 2017, was exposed to floating interest rates.

In March 2012, we terminated two of our interest-rate swap agreements previously designated as fair value hedges, with notional amounts totaling \$350. As of the interest-rate swap agreements' termination date, the aggregate favorable adjustment to the carrying value (deferred gain) of our debt was \$46.1, which was amortized as a reduction of interest expense until repayment of the underlying debt obligations in June 2018, at which point the remaining unamortized balance was fully released to the Consolidated Statement of Operations. The net impact of the gain amortization was \$1.3 and \$6.0 for the three and six months ended June 30, 2018, respectively, and \$1.2 and \$2.4 for the three and six months ended June 30, 2017, respectively. At June 30, 2018, there was no unamortized deferred gain associated with the March 2012 interest-rate swap termination.

Foreign Currency Risk

We may use foreign exchange forward contracts to manage a portion of our foreign currency exchange rate exposures. At June 30, 2018, we had outstanding foreign exchange forward contracts with notional amounts totaling approximately \$57.0 for various currencies.

We may use foreign exchange forward contracts to manage foreign currency exposure of certain intercompany loans. These contracts are not designated as hedges. The change in fair value of these contracts is immediately recognized in earnings and substantially offsets the foreign currency impact recognized in earnings relating to the associated intercompany loans. During the three and six months ended June 30, 2018, we recorded a loss of \$4.0 and a loss of \$3.1, respectively, in other expense, net in our Consolidated Statements of Operations related to these undesignated foreign exchange forward contracts. Also during the three and six months ended June 30, 2018, we recorded a gain of \$4.9 and a gain of \$3.7, respectively, related to the associated intercompany loans, caused by changes in foreign currency exchange rates. During the three and six months ended June 30, 2017, we recorded gains of \$1.7 and \$2.2, respectively, in other expense, net in our Consolidated Statements of Operations related to these undesignated foreign exchange forward contracts. Also during the three and six months ended June 30, 2017, we recorded losses of \$2.7 and \$3.9, respectively, related to the associated intercompany loans, caused by changes in foreign currency exchange rates.

15. DEBT

Revolving Credit Facility

In June 2015, Avon International Operations, Inc. ("AIO"), a wholly-owned domestic subsidiary of the Company, entered into a five-year \$400.0 senior secured revolving credit facility (the "2015 facility"). Borrowings under the 2015 facility bear interest, at our option, at a rate per annum equal to LIBOR plus 250 basis points or a floating base rate plus 150 basis points, in each case subject to adjustment based upon a leverage-based pricing grid. In December 2017, AIO entered into an amendment to the 2015 facility, which, among other things, modified the financial covenants (interest coverage and total leverage ratios) to provide the Company additional flexibility. As of June 30, 2018, there were no amounts outstanding under the 2015 facility. The 2015 facility will terminate in June 2020; provided, however, that it shall terminate on the 91st day prior to the maturity of the 4.60% Notes (as defined below), if on such 91st day, the applicable notes are not redeemed, repaid, discharged, defeased or otherwise refinanced in full.

The 2015 facility contains affirmative and negative covenants, which are customary for secured financings of this type, as well as financial covenants (interest coverage and total leverage ratios). As of June 30, 2018, we were in compliance with our interest coverage and total leverage ratios under the 2015 facility, as amended. The amount of the

facility available to be drawn down on is reduced by any standby letters of credit granted by AIO, which, as of June 30, 2018, was approximately \$33. As of June 30, 2018, based on then applicable interest rates, the entire amount of the remaining 2015 facility, which is approximately \$367, could have been drawn down without violating any covenant.

Public Notes

30

AVON PRODUCTS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(U.S. dollars in millions, except per share data)

In March 2013, we issued, in a public offering, \$500.0 principal amount of 4.60% Notes due March 15, 2020 (the "4.60% Notes"), \$500.0 principal amount of 5.00% Notes due March 15, 2023 (the "5.00% Notes") and \$250.0 principal amount of 6.95% Notes due March 15, 2043 (the "6.95% Notes") (collectively, the "2013 Notes"). In March 2009, we issued \$350.0 principal amount of 6.50% Notes due March 1, 2019 (the "6.50% Notes"). Interest on the 2013 Notes is payable semi-annually on March 15 and September 15 of each year, and interest on the 6.50% Notes are payable semi-annually on March 1 and September 1 of each year.

On June 18, 2018, we prepaid the remaining principal amount of our 6.50% Notes. The prepayment price was equal to the remaining principal amount of \$237.8, plus a make-whole premium of \$6.2 and accrued interest of \$4.6. In connection with

the prepayment, we incurred a loss on extinguishment of debt of \$2.9 before tax in the second quarter of 2018 consisting of the \$6.2 make-whole premium, and the write-off of \$.3 of debt issuance costs and discounts related to the initial issuances of the notes that were prepaid, partially offset by a write off of a deferred gain of \$3.6 associated with the March 2012 interest-rate swap agreement termination (see Note 14, Derivative Instruments and Hedging Activities).

The indenture governing the 2013 Notes contains interest rate adjustment provisions depending on the long-term credit ratings assigned to the 2013 Notes by S&P and Moody's. As described in the indenture, the interest rates on the 2013 Notes increase by .25% for each one-notch downgrade below investment grade on each of our long-term credit ratings assigned to the 2013 Notes by S&P or Moody's. These adjustments are limited to a total increase of 2% above the respective interest rates in effect on the date of issuance of the 2013 Notes. As a result of the long-term credit rating downgrades by S&P and Moody's since issuance of the 2013 Notes, the interest rates on these notes have increased by the maximum allowable increase.

The indentures governing our outstanding notes described above contain certain customary covenants and customary events of default and cross-default provisions. Further, we would be required to make an offer to repurchase all of our outstanding notes described above at a price equal to 101% of their aggregate principal amount plus accrued and unpaid interest in the event of a change in control involving Avon and, at such time, the outstanding notes are rated below investment grade.

Senior Secured Notes

In August 2016, AIO issued, in a private placement exempt from registration under the Securities Act of 1933, as amended, \$500.0 in aggregate principal amount of 7.875% Senior Secured Notes, which will mature on August 15, 2022 (the "Senior Secured Notes"). Interest on the Senior Secured Notes is payable semi-annually on February 15 and August 15 of each year.

The indenture governing our Senior Secured Notes contains certain customary covenants and restrictions as well as customary events of default and cross-default provisions. The indenture also contains a covenant requiring AIO and its restricted subsidiaries to, at the end of each year, own at least a certain percentage of the total assets of API and its restricted subsidiaries, subject to certain qualifications. Further, we would be required to make an offer to repurchase all of our Senior Secured Notes, at a price equal to 101% of their aggregate principal amount plus accrued and unpaid interest, in the event of a change in control involving Avon.

16. INCOME TAXES

Our quarterly income tax provision is calculated using an estimated annual effective income tax approach. The quarterly effective tax rate can differ from our estimated annual effective tax rate as the Company cannot apply an effective tax rate approach for all of its operations. For those entities that can apply an effective tax rate approach, as of June 30, 2018, our annual effective tax rate, excluding discrete items, is 25.6% for 2018, as compared to 25.9% for 2017. The remaining entities, which are operations that generate pre-tax losses which cannot be tax benefited and/or have an effective tax rate which cannot be reliably estimated, have to account for their income taxes on a discrete year-to-date basis as of the end of each quarter and are excluded from the effective tax rate approach. The estimated

annual effective tax rate for 2018 also excludes the unfavorable impact of withholding taxes associated with certain intercompany payments, including royalties, service charges and dividends, which in the aggregate are relatively consistent each year due to the need to repatriate funds to cover U.S.-based costs, such as interest on debt and corporate overhead. Withholding taxes are accounted for discretely and accrued in the provision for income taxes as they become due.

The provision for income taxes for the three months ended June 30, 2018 and 2017 was \$36.7 and \$33.6, respectively. Our effective tax rates for the three months ended June 30, 2018 and 2017 were (12,233.3)% and (275.4)%, respectively. The provision for income taxes for the six months ended June 30, 2018 and 2017 was \$68.2 and \$63.4, respectively. Our effective tax rates for the six months ended June 30, 2018 and 2017 were 675.2% and (335.4)%, respectively.

The effective tax rates in 2018 and 2017 were impacted by CTI restructuring charges, country mix of earnings and withholding taxes that are relatively consistent. The effective tax rate in 2018 was also negatively impacted by one-time tax reserves of \$5.5 for the three months ended June 30, 2018 and \$14.7 for the six months ended June 30, 2018 associated with our uncertain tax positions.

AVON PRODUCTS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(U.S. dollars in millions, except per share data)

In its initial analysis of the impacts of the Tax Cuts and Job Act (the “Act”) at year end 2017, the Company made provisional estimates that may be adjusted in future periods as required. As part of the 2017 provisional estimate, we provided for the Global Intangible Low-Taxed Income tax (“GILTI”), a US tax on certain foreign earnings, as a period cost. While still provisional, the first-quarter and second-quarter 2018 provisions for income taxes has been calculated treating GILTI as a period cost. The Act has significant complexity. Expected implementation guidance from the Internal Revenue Service, clarifications of state tax law and the information analyzed during the completion of the Company’s 2017 tax return filings could impact these provisional estimates.

32

AVON PRODUCTS, INC.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(U.S. dollars in millions, except per share data)

When used in this report, the terms "Avon," "Company," "we," "our" or "us" mean, unless the context otherwise indicates, Avon Products, Inc. and its majority, wholly owned and controlled subsidiaries.

OVERVIEW

We are a global manufacturer and marketer of beauty and related products. Our business is conducted primarily in the direct-selling channel. During 2017, we had sales operations in 56 countries and territories, and distributed products in 18 more. All of our consolidated revenue is derived from operations of subsidiaries outside of the United States ("U.S."). Our reportable segments are based on geographic operations in four regions: Europe, Middle East & Africa; South Latin America; North Latin America; and Asia Pacific. Our product categories are Beauty and Fashion & Home. Beauty consists of skincare, fragrance and color (cosmetics). Fashion & Home consists of fashion jewelry, watches, apparel, footwear, accessories, gift and decorative products, housewares, entertainment and leisure products, children's products and nutritional products. Sales are made to the ultimate consumer principally through direct selling by Representatives, who are independent contractors and not our employees.

During the six months ended June 30, 2018, revenue increased 1% compared to the prior-year period, partially impacted by the unfavorable impact of foreign exchange. Constant \$ revenue increased by 2%. Revenue and Constant \$ revenue included a benefit of approximately 6% due to the impact of adopting the new revenue recognition standard. The 6% benefit was driven primarily by (i) the reclassification of fees paid by Representatives for brochures, late payments and payment processing from SG&A, and (ii) the timing of revenue recognition for sales incentives, as revenue recognized during the period for prior quarter sales incentives exceeded revenue deferred during the period for sales incentives not yet satisfied. Constant \$ revenue was impacted by declines primarily in Brazil, partially due to a national transportation strike that affected sales and distribution, and to a lesser extent, in the United Kingdom, Mexico and South Africa. Constant \$ revenue was negatively impacted by approximately 1% due to the national transportation strike in Brazil. These declines were partially offset by improved revenue growth management including inflationary pricing in Argentina. Revenue and Constant \$ revenue were impacted by a decrease in Active Representatives of 4%, which was primarily driven by a decline in Brazil, and included an estimated 1% decline attributable to the national transportation strike. Average order in Constant \$ increased 6%, including a benefit of approximately 6% due to the impact of adopting the new revenue recognition standard. Units sold decreased 4%, driven by a decline in Brazil.

Ending Representatives decreased by 4%. The decrease in Ending Representatives at June 30, 2018 as compared to the prior-year period was attributable to all segments, and primarily Brazil, North Latin America and Russia.

The impact of the new revenue recognition standard was primarily driven by the following accounting changes effective as of January 1, 2018:

Certain of our sales incentives and prospective discounts are now considered to be a separate deliverable, thus initially revenue is deferred generally until delivery of the incentive prize to the Representative or future discounts are realized, and at that time the associated cost is recognized in cost of sales. Historically, the cost of sales incentives was recognized in SG&A over the period that the sales incentive was earned; and

Fees paid by Representatives to the Company for brochures, late payments and payment processing are now reflected as revenue, rather than reflected as a reduction of SG&A. The associated cost for brochures that are sold is now recognized in cost of sales rather than in SG&A. Further, the fees and costs associated with brochures are now recognized upon delivery to the Representatives, rather than recognized over the campaign length.

See Note 1, Accounting Policies, to the Consolidated Financial Statements included herein for additional information on the new revenue recognition standard.

See "Segment Review" in this management's discussion and analysis of financial condition and results of operations ("MD&A") for additional information related to changes in revenue by segment.

Transformation Plan

In January 2016, we initiated a transformation plan (the “Transformation Plan”) in order to enable us to achieve our long-term goals of mid-single-digit Constant \$ revenue growth and low double-digit operating margin. The Transformation Plan included

33

AVON PRODUCTS, INC.

MANAGEMENT DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(U.S. dollars in millions, except per share data)

three pillars: invest in growth, reduce costs in an effort to continue to improve our cost structure and improve our financial resilience.

The Transformation Plan was designed to focus on cost savings and financial resilience in the first year, in order to support future investment in growth. In 2016, we estimate that we achieved cost savings of \$120 before taxes when comparing to our costs in 2015, and we significantly strengthened the balance sheet. In 2017, we estimate that we achieved cost savings of \$255 before taxes when comparing to our costs in 2015. These savings include both run-rate savings from 2016, along with in-year savings from current year initiatives. These savings have mostly been offset by the impact of inflation.

During the second quarter of 2018, we estimate that we achieved cost savings of \$15 before taxes, and we expect to achieve our cost savings target of \$65 before taxes for 2018. These savings include both run-rate savings from 2017, along with in-year savings from current year initiatives.

In connection with the actions and associated savings discussed above, we have incurred costs to implement ("CTI") restructuring initiatives of approximately \$202.4 before taxes associated with the Transformation Plan to-date. In connection with the restructuring actions approved to-date associated with the Transformation Plan, we expect to realize annualized cost savings of an estimated \$120 to \$130 before taxes, when comparing to our costs in 2015 before the Transformation Plan initiated. Also associated with the restructuring actions, during the second quarter of 2018, we realized cost savings of an estimated \$30 before taxes, when comparing to our costs in 2015 before the Transformation Plan initiated. We are expected to achieve the majority of the annualized savings in 2018. In addition, we have realized savings from other cost-savings strategies that did not result in restructuring charges. For the market closures in Australia, New Zealand and Thailand, the expected annualized savings represented the operating loss no longer included within Avon's operating results as a result of no longer operating in the respective market. For actions that did not result in the closure of a market, the annualized savings represent the net reduction of expenses that will no longer be incurred by Avon. For additional details on restructuring initiatives, see Note 11, Restructuring Initiatives, to the Consolidated Financial Statements included herein.

Immediate operational priorities

The Company is focusing on immediate corrective priorities and regaining competitive momentum, while also finalizing plans for Avon's long-term success. Our corrective priorities include focusing on Brazil to re-energize Representatives and strengthening our marketing plans, improving service quality, instituting a performance culture, training Representatives, strengthening and accelerating innovation core plans and expanding digital routes to market.

NEW ACCOUNTING STANDARDS

Information relating to new accounting standards is included in Note 1, Accounting Policies, to the Consolidated Financial Statements included herein.

RESULTS OF OPERATIONS—THE THREE AND SIX MONTHS ENDED JUNE 30, 2018 AS COMPARED TO THE THREE AND SIX MONTHS ENDED JUNE 30, 2017

Non-GAAP Financial Measures

To supplement our financial results presented in accordance with generally accepted accounting principles in the United States ("GAAP"), we disclose operating results that have been adjusted to exclude the impact of changes due to the translation of foreign currencies into U.S. dollars, including changes in: revenue, operating profit, Adjusted operating profit, operating margin and Adjusted operating margin. We also refer to these adjusted financial measures as Constant \$ items, which are Non-GAAP financial measures. We believe these measures provide investors an additional perspective on trends and underlying business results. To exclude the impact of changes due to the translation of foreign currencies into U.S. dollars, we calculate current-year results and prior-year results at constant exchange rates, which are updated on an annual basis as part of our budgeting process. Foreign currency impact is

determined as the difference between actual growth rates and Constant \$ growth rates.

We also present gross margin, selling, general and administrative expenses as a percentage of revenue, operating profit, operating margin, income (loss) before taxes, income taxes and effective tax rate on a Non-GAAP basis. We refer to these Non-GAAP financial measures as "Adjusted." We have provided a quantitative reconciliation of the difference between the Non-GAAP financial measures and the financial measures calculated and reported in accordance with GAAP. See "Reconciliation of Non-GAAP Financial Measures" within "Results of Operations" in this MD&A for this quantitative reconciliation.

The Company uses the Non-GAAP financial measures to evaluate its operating performance. These Non-GAAP measures should not be considered in isolation, or as a substitute for, or superior to, financial measures calculated in accordance with GAAP. The Company believes investors find the Non-GAAP information helpful in understanding the ongoing performance of operations separate from items that may have a disproportionate positive or negative impact on the Company's financial results in any particular period. The Company believes that it is meaningful for investors to be made aware of the impacts of 1) CTI

AVON PRODUCTS, INC.

MANAGEMENT DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(U.S. dollars in millions, except per share data)

restructuring initiatives; 2) one-time tax reserves associated with our uncertain tax positions ("Special tax items"); and 3) a charge for a loss contingency related to a non-US pension plan ("Loss contingency").

The Special tax items includes the impact on the provision for income taxes in our Consolidated Statements of Operations during the first and second quarters of 2018 due to one-time tax reserves of approximately \$9 and \$6, respectively, associated with our uncertain tax positions.

The Loss contingency includes the impact on the Consolidated Statements of Operations during the second quarter of 2017 caused by a charge of approximately \$18 for a loss contingency related to a non-US pension plan, for which an amendment to the plan that occurred in a prior year many not have been properly implemented.

See Note 11, Restructuring Initiatives, Note 6, Employee Benefit Plans and "Effective Tax Rate" in this MD&A for more information on these items.

Change in Active Representatives	(4)%	(4)%
Change in units sold	(5)%	(4)%
Change in Ending Representatives	(4)%	(4)%

* Calculation not meaningful

Amounts in the table above may not necessarily sum due to rounding.

(1) Advertising expenses are recorded in selling, general and administrative expenses.

(2) Change in Constant \$ Adjusted operating margin for all years presented is calculated using the current-year Constant \$ rates.

Three Months Ended June 30, 2018

Revenue

During the three months ended June 30, 2018, revenue decreased 3% compared to the prior-year period, primarily due to the unfavorable impact of foreign exchange. Constant \$ revenue increased 1%. Revenue and Constant \$ revenue included a benefit of approximately 4% due to the impact of adopting the new revenue recognition standard. The 4% benefit was driven primarily by the reclassification of fees paid by Representatives for brochures, late payments and payment processing from SG&A. The impact of timing of revenue recognition for sales incentives was negligible. Constant \$ revenue declined primarily in Brazil, partially due to a national transportation strike that affected sales and distribution, and to a lesser extent, the United Kingdom and South Africa. Constant \$ revenue was negatively impacted by approximately 1% due to the national transportation strike in Brazil. These declines were partially offset by improved revenue growth management including inflationary pricing in Argentina. Revenue and Constant \$ revenue were impacted by a decrease in Active Representatives of 4%, which was driven by South Latin America, primarily in Brazil, Europe, Middle East & Africa and North Latin America, and included an estimated 1% decline attributable to the national transportation strike in Brazil. The decrease in Active Representatives was partially offset by higher average order. Average order in Constant \$ increased 6%, including a benefit of approximately 4% due to the impact of adopting the new revenue recognition standard. Units sold decreased 5%, driven by a decline in Brazil. Ending Representatives decreased by 4%. The decrease in Ending Representatives at June 30, 2018 as compared to the prior-year period was attributable to all segments, and primarily Brazil, North Latin America and Russia. The impact of the new revenue recognition standard was primarily driven by the following accounting changes effective as of January 1, 2018:

Certain of our sales incentives and prospective discounts are now considered to be a separate deliverable, thus initially revenue is deferred generally until delivery of the incentive prize to the Representative or future discounts are realized, and at that time the associated cost is recognized in cost of sales. Historically, the cost of sales incentives was recognized in SG&A over the period that the sales incentive was earned; and

Fees paid by Representatives to the Company for brochures, late payments and payment processing are now reflected as revenue, rather than reflected as a reduction of SG&A. The associated cost for brochures that are sold is now recognized in cost of sales rather than in SG&A. Further, the fees and costs associated with brochures are now recognized upon delivery to the Representatives, rather than recognized over the campaign length.

See Note 1, Accounting Policies, to the Consolidated Financial Statements included herein for additional information on the new revenue recognition standard.

Net sales	\$1,268.8	\$1,353.5	(6)	1

See "Segment Review" in this MD&A for additional information related to changes in revenue by segment.

Operating Margin

Operating margin and Adjusted operating margin increased 160 basis points and 60 basis points, respectively, compared to the same period of 2017, including a decline of 10 basis points due to the impact of adopting the new revenue recognition standard. The decline of 10 basis points was driven by the net negative impact to operating margin of prior quarter sales incentives satisfied during the period and sales incentives deferred during the period, impacted by the mix of products. The changes in operating margin and Adjusted operating margin include the benefits associated with the Transformation Plan, primarily reductions in headcount, as well as other cost reductions. These savings were offset by the inflationary impact on costs outpacing revenue growth. The increases in operating margin and Adjusted operating margin are discussed further below in "Gross Margin" and "Selling, General and Administrative Expenses."

Gross Margin

Gross margin and Adjusted gross margin decreased 230 basis points and 230 basis points, respectively, compared to the same period of 2017, including a decline of 330 basis points due to the impact of adopting the new revenue recognition standard. The decline of 330 basis points was driven by (i) the reclassification of sales incentive costs from SG&A to cost of sales; and (ii) the reclassification of fees paid by Representatives for late payments, payment processing and brochures from SG&A to other revenue and cost of sales, respectively.

Gross margin and Adjusted gross margin were primarily impacted by the following:

- an increase of 70 basis points due to non-recurring net tax recoveries in Brazil; and
- an increase of 40 basis points due to the favorable net impact of mix and pricing, driven by inflationary pricing in Argentina.

These items were partially offset by the following:

- a decrease of 30 basis points due to higher supply chain costs, driven by higher material costs primarily in South Latin America, partially offset by Europe, Middle East and Africa.

Selling, General and Administrative Expenses

Selling, general and administrative expenses as a percentage of revenue and Adjusted selling, general, and administrative expenses as a percentage of revenue decreased 390 basis points and 290 basis points, respectively, compared to the same period of 2017, in each case including a benefit of 320 basis points due to the impact of adopting the new revenue recognition standard. The 320 basis point benefit was driven by (i) the reclassification of sales incentive costs from SG&A to cost of sales; and (ii) the reclassification of fees paid by Representatives for late payments, payment processing and brochures from SG&A to other revenue and cost of sales, respectively. In addition, the selling, general and administrative expenses as a percentage of revenue comparison was favorably impacted by approximately 130 basis from a loss contingency recorded in the prior-year period related to a non-U.S. pension plan and approximately.

AVON PRODUCTS, INC.

MANAGEMENT DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(U.S. dollars in millions, except per share data)

Selling, general and administrative expenses as a percentage of revenue and Adjusted selling, general, and administrative expenses as a percentage of revenue were primarily impacted by the following:

an increase of 50 basis points from higher transportation costs, primarily in Brazil relating to inefficiencies caused by the national transportation strike, in the United Kingdom due to increased flexibility in order processing, further increases in delivery rates in Russia and an increase in fuel prices in Mexico;

an increase of 40 basis points from higher net brochure cost, primarily in Brazil, and to a lesser extent, in the United Kingdom and South Africa; and

- a decrease of 60 basis points due to lower Representative, sales leader and field expense, primarily in South Latin America and North Latin America in line with sales performance.

Other Expenses

Interest expense decreased by approximately \$2 and interest income was relatively unchanged compared to the prior-year period.

A loss on extinguishment of debt of \$2.9 before tax was recorded in the second quarter of 2018 in connection with the prepayment of our 6.50% Notes. The loss of \$2.9 consisted of the \$6.2 make-whole premium, and the write-off of \$3.3 of debt issuance costs and discounts related to the initial issuances of the notes that were prepaid, partially offset by a write off of a deferred gain of \$3.6 associated with the March 2012 interest-rate swap agreement termination (see Note 15, Debt, to the Consolidated Financial Statements).

Other expense, net, increased by approximately \$8 compared to the prior-year period, primarily due to higher foreign exchange net losses in the current period as compared to the prior-year period, resulting in an unfavorable impact of approximately \$15. This was partially offset by approximately \$6 recorded for our proportionate share of New Avon's losses during the three months ended June 30, 2017. As the recorded investment balance in New Avon was zero at the end of the third quarter of 2017, we have not recorded any additional losses associated with New Avon since the third quarter of 2017. See Note 3, Investment in New Avon, to the Consolidated Financial Statements included herein for more information on New Avon.

Effective Tax Rate

The effective tax rates and the Adjusted effective tax rates in 2018 and 2017 continue to be impacted by our inability to recognize additional deferred tax assets in various jurisdictions related to our current-year operating results. In addition, the effective tax rates and the Adjusted effective tax rates in 2018 and 2017 continue to be impacted by withholding taxes associated with certain intercompany payments, including royalties, service charges and dividends, which in the aggregate are relatively consistent each year due to the need to repatriate funds to cover U.S.-based costs, such as interest on debt and corporate overhead. These factors resulted in unusually high effective tax rates and the Adjusted effective tax rates in 2018 and 2017.

Our effective tax rates for the three months ended June 30, 2018 and 2017 were (12,233.3)% and (275.4)%, respectively. The effective tax rates in 2018 and 2017 were also impacted by CTI restructuring charges, country mix of earnings and withholding taxes that are relatively consistent. The effective tax rate in the second quarter of 2018 was also negatively impacted by one-time tax reserves of approximately \$6 associated with our uncertain tax positions.

Our Adjusted effective tax rates for the three months ended June 30, 2018 and 2017 were 133.3% and 130.8%, respectively. While the Adjusted effective tax rate is still high during the six months ended June 30, 2018, the absolute amount of Adjusted income taxes declined relative to 2017 as a result of our global business transformation.

See Note 16, Income Taxes, to the Consolidated Financial Statements included herein for more information on the effective tax rate, and Note 11, Restructuring Initiatives, to the Consolidated Financial Statements included herein for

more information on CTI restructuring.

Impact of Foreign Currency

As compared to the prior-year period, foreign currency has impacted our consolidated financial results in the form of: foreign currency transaction losses (classified within cost of sales, and SG&A in our Consolidated Statements of Operations), which had an unfavorable impact to operating profit and Adjusted operating profit of approximately \$5, or approximately 30 basis points to operating margin and Adjusted operating margin;

39

AVON PRODUCTS, INC.

MANAGEMENT DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(U.S. dollars in millions, except per share data)

foreign currency translation, which had an unfavorable impact to operating profit and Adjusted operating profit of approximately \$5, or approximately 20 basis points to operating margin and Adjusted operating margin; and higher foreign exchange net losses on our working capital (classified within other expense, net in our Consolidated Statements of Operations) as compared to the prior year, resulting in an unfavorable impact of approximately \$15 before tax on both a reported and Adjusted basis.

Six Months Ended June 30, 2018

Revenue

During the six months ended June 30, 2018, revenue increased 1% compared to the prior-year period, partially impacted by the unfavorable impact of foreign exchange. Constant \$ revenue increased by 2%. Revenue and Constant \$ revenue included a benefit of approximately 6% due to the impact of adopting the new revenue recognition standard. The 6% benefit was driven primarily by (i) the reclassification of fees paid by Representatives for brochures, late payments and payment processing from SG&A, and (ii) the timing of revenue recognition for sales incentives, as revenue recognized during the period for prior quarter sales incentives exceeded revenue deferred during the period for sales incentives not yet satisfied. Constant \$ revenue was impacted by declines primarily in Brazil, partially due to a national transportation strike that affected sales and distribution, the United Kingdom, Mexico and South Africa. Constant \$ revenue was negatively impacted by approximately 1% due to the national transportation strike in Brazil. These declines were partially offset by improved revenue growth management including inflationary pricing in Argentina. Revenue and Constant \$ revenue were impacted by a decrease in Active Representatives of 4%, which was primarily driven by a decline in Brazil, and included an estimated 1% decline attributable to the national transportation strike. Average order in Constant \$ increased 6%, including a benefit of approximately 6% due to the impact of adopting the new revenue recognition standard. Units sold decreased 4%, driven by a decline in Brazil. On a category basis, our net sales from reportable segments and associated growth rates were as follows:

	Six Months Ended		% Change	
	June 30,		US\$	Constant \$
	2,018	2017		
Beauty:				
Skincare	\$761.5	\$778.0	(2)%	(2)%
Fragrance	701.8	708.7	(1)	1
Color	448.1	473.3	(5)	(5)
Total Beauty	1,911.4	1,960.0	(2)	(2)
Fashion & Home:				
Fashion	374.5	392.7	(5)	(5)
Home	273.7	278.6	(2)	2
Total Fashion & Home	648.2	671.3	(3)	(2)
Net sales from reportable segments	\$2,559.6	\$2,631.3	(3)	(2)
Net sales from Other operating segments and business activities	185.8	97.7	90	(15)
Net sales	\$2,745.4	\$2,729.0	1	2

See “Segment Review” in this MD&A for additional information related to changes in revenue by segment.

Operating Margin

Operating margin and Adjusted operating margin increased 130 basis points and 70 basis points, respectively, compared to the same period of 2017, including a benefit of 50 basis points due to the impact of adopting the new revenue recognition standard. The benefit of 50 basis points was driven by the net positive contribution to operating

margin of fourth quarter 2017 sales incentives satisfied during the six months ended June 30, 2018 and sales incentives deferred during the period, impacted by the mix of products. The changes in operating margin and Adjusted operating margin include the benefits associated with the Transformation Plan, primarily reductions in headcount, as well as other cost reductions. These savings were offset by the inflationary impact on costs outpacing revenue growth. The increases in operating margin and Adjusted operating margin are discussed further below in "Gross Margin" and "Selling, General and Administrative Expenses."

Gross Margin

Gross margin and Adjusted gross margin both decreased 260 basis points compared to the same period of 2017, including a decline of 310 basis points due to the impact of adopting the new revenue recognition standard. The 320 basis point decline was

AVON PRODUCTS, INC.

MANAGEMENT DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(U.S. dollars in millions, except per share data)

driven by (i) the reclassification of sales incentive costs from SG&A to cost of sales; and (ii) the reclassification of fees paid by Representatives for late payments, payment processing and brochures from SG&A to other revenue and cost of sales, respectively.

Gross margin and Adjusted gross margin were primarily impacted by the following:

- an increase of 30 basis points due to non-recurring net tax recoveries in Brazil;

- an increase of 60 basis points due to the favorable net impact of mix and pricing, driven by inflationary pricing in Argentina;

These items were partially offset by the following:

- a decrease of 50 basis points due to higher supply chain costs, driven by higher material costs primarily in South Latin America.

Selling, General and Administrative Expenses

Selling, general and administrative expenses as a percentage of revenue and Adjusted selling, general, and administrative expenses as a percentage of revenue decreased 380 basis points and 330 basis points, respectively, compared to the same period of 2017, in each case including a benefit of 370 basis points due to the impact of adopting the new revenue recognition standard. The 370 basis point benefit was driven by (i) the reclassification of sales incentive costs from SG&A to cost of sales; and (ii) the reclassification of fees paid by Representatives for late payments, payment processing and brochures from SG&A to other revenue and cost of sales, respectively. In addition, the selling, general and administrative expenses as a percentage of revenue comparison was favorably impacted by approximately 70 basis from a loss contingency recorded in the prior-year period related to a non-U.S. pension plan and approximately.

Selling, general and administrative expenses as a percentage of revenue and Adjusted selling, general, and administrative expenses as a percentage of revenue were primarily impacted by the following:

- an increase of 50 basis points from higher transportation costs, primarily in Brazil relating to inefficiencies caused by the national transportation strike, in the United Kingdom due to increased flexibility in order processing, further increases in delivery rates in Russia and an increase in fuel prices in Mexico; and

- an increase of 30 basis points due to the impact higher net brochure expense primarily in Brazil, and to a lesser extent, in the United Kingdom and South Africa.

These items were partially offset by the following:

- a decrease of 50 basis points from lower bad debt expense, primarily in Brazil, as the prior-year period was impacted by lower than anticipated collection of receivables;

Our expenses associated with employee incentive compensation plans did not have a significant year-on-year impact, as a benefit of approximately \$9 mainly associated with a change in the way that we record our accrual in interim periods for 2018 employee incentive compensation plans was offset by an approximate \$6 true-up to the accrual for 2017 employee incentive compensation plans which were paid in 2018. Our accrual for 2018 employee incentive compensation plan uses a phased approach that takes into account the relative contribution of the quarter's performance to the total annual target. In both the six month ended June 30, 2018 and 2017, the accrual was adjusted for the latest estimate of bonus payout (based on full year performance), however, the year-on-year impact was immaterial.

Other Expenses

Interest expense decreased by approximately \$1 and interest income was relatively unchanged compared to the prior-year period.

A loss on extinguishment of debt of \$2.9 before tax was recorded in the second quarter of 2018 in connection with the prepayment of our 6.50% Notes. The loss of \$2.9 consisted of the \$6.2 make-whole premium, and the write-off of \$.1 of debt issuance costs and discounts related to the initial issuances of the notes that were prepaid, partially offset by a

write off of a deferred gain of \$3.6 associated with the March 2012 interest-rate swap agreement termination (see Note 15, Debt, to the Consolidated Financial Statements).

Other expense, net, increased by approximately \$4 compared to the prior-year period, primarily due to foreign exchange net losses in the current period as compared to net gains in the prior-year period, resulting in an unfavorable impact of approximately \$15. This is partially offset by approximately \$10 recorded for our proportionate share of New Avon's losses during the six months ended June 30, 2017. As the recorded investment balance in New Avon was zero at the end of the third

AVON PRODUCTS, INC.

MANAGEMENT DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(U.S. dollars in millions, except per share data)

quarter of 2017, we have not recorded any additional losses associated with New Avon since the third quarter of 2017. See Note 3, Investment in New Avon, to the Consolidated Financial Statements included herein for more information on New Avon.

Effective Tax Rate

The effective tax rates and the Adjusted effective tax rates in 2018 and 2017 continue to be impacted by our inability to recognize additional deferred tax assets in various jurisdictions related to our current-year operating results. In addition, the

42

AVON PRODUCTS, INC.

MANAGEMENT DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(U.S. dollars in millions, except per share data)

effective tax rates and the Adjusted effective tax rates in 2018 and 2017 continue to be impacted by withholding taxes associated with certain intercompany payments, including royalties, service charges and dividends, which in the aggregate are relatively consistent each year due to the need to repatriate funds to cover U.S.-based costs, such as interest on debt and corporate overhead. These factors resulted in unusually high effective tax rates and the Adjusted effective tax rates in 2018 and 2017.

Our effective tax rates for the six months ended June 30, 2018 and 2017 were 675.2% and (335.4)%, respectively. The effective tax rates in 2018 and 2017 were also impacted by CTI restructuring charges, country mix of earnings and withholding taxes that are relatively consistent. The effective tax rate in 2018 was also negatively impacted by one-time tax reserves of approximately \$15 associated with our uncertain tax positions.

Our Adjusted effective tax rates for the six months ended June 30, 2018 and 2017 were 124.4% and 220.3%, respectively. While the Adjusted effective tax rate is still high during the six months ended June 30, 2018, both the Adjusted effective tax rate and the absolute amount of Adjusted income taxes declined relative to 2017, as a result of our global business transformation.

See Note 16, Income Taxes, to the Consolidated Financial Statements included herein for more information on the effective tax rate, and Note 11, Restructuring Initiatives, to the Consolidated Financial Statements included herein for more information on CTI restructuring.

Impact of Foreign Currency

As compared to the prior-year period, foreign currency has impacted our consolidated financial results in the form of: foreign currency transaction gains (classified within cost of sales, and selling, general and administrative expenses), which had an unfavorable impact to operating profit and Adjusted operating profit of an estimated \$10, or approximately 30 basis points to operating margin and Adjusted operating margin;

foreign currency translation, which had an immaterial net impact to operating profit and Adjusted operating profit; and

foreign exchange net losses on our working capital (classified within other expense, net) as compared to net gains in the prior year, resulting in a year-over-year unfavorable impact of approximately \$15 before tax on both a reported and Adjusted basis.

Segment Review

We determine segment profit by deducting the related costs and expenses from segment revenue. Segment profit includes an allocation of global marketing expenses based on actual revenues. Segment profit excludes global expenses other than the allocation of marketing, CTI restructuring initiatives, certain significant asset impairment charges, and other items, which are not allocated to a particular segment, if applicable. This is consistent with the manner in which we assess our performance and allocate resources. See Note 9, Segment Information, to the Consolidated Financial Statements included herein for a reconciliation of segment profit to operating profit.

Europe, Middle East & Africa

Change in Active Representatives	(3)%	(2)%
Change in units sold	(3)%	(1)%
Change in Ending Representatives	(2)%	(2)%

Amounts in the table above may not necessarily sum due to rounding.

Three Months Ended June 30, 2018

Total revenue increased 1% compared to the prior-year period, primarily due to the favorable impact of foreign exchange which was primarily driven by the weakening of the U.S. dollar relative to multiple currencies. On a Constant \$ basis, revenue was

AVON PRODUCTS, INC.

MANAGEMENT DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(U.S. dollars in millions, except per share data)

relatively unchanged. Revenue and Constant \$ revenue included a benefit of approximately 3% due to the impact of adopting the new revenue recognition standard. Revenue and Constant \$ revenue were negatively impacted primarily by a decrease in Active Representatives, driven by a decline in Russia.

In Russia, revenue has decreased 5%. On a Constant \$ basis, Russia's revenue increased 3%. Russia's revenue and Constant \$ revenue included a benefit of approximately 4% due to the impact of adopting the new revenue recognition standard. Revenue and Constant \$ revenue in Russia was negatively impacted by a decrease in Active Representatives, offset by higher average order driven by growth in the Fragrance category. Revenue and Constant \$ revenue in Russia was also impacted by lower consumption in the market.

In the United Kingdom, revenue decreased 3%, despite the favorable impact of foreign exchange. On a Constant \$ basis, the United Kingdom's revenue declined 9%. The United Kingdom's revenue and Constant \$ revenue included a benefit of 4% due to the impact of adopting the new revenue recognition standard. Revenue and Constant \$ revenue in the United Kingdom were negatively impacted by a decrease in Active Representatives, driven by the continuation of underlying field issues, partially offset by higher average order.

In South Africa, revenue decreased 4%, despite the favorable impact of foreign exchange. On a Constant \$ basis, South Africa's revenue declined 7%. South Africa's revenue and Constant \$ revenue included a benefit of 2% due to the impact of adopting the new revenue recognition standard. Revenue and Constant \$ revenue in South Africa were negatively impacted by a decrease in Active Representatives, resulting from uncompetitive pricing and the application of stricter credit requirements for the acceptance of new Representatives as compared to the requirements in the prior year.

Segment margin decreased 140 basis points, or 150 basis points on a Constant \$ basis, including a decline of 40 basis points due to the impact of the new revenue recognition standard. The decrease in reported and Constant \$ segment margin was primarily as a result of:

- a decline of 60 basis points from higher advertising expense, primarily due to increased investment in the United Kingdom and Russia;
- a decline of 50 basis points due to higher net brochure cost, primarily in the United Kingdom and in South Africa;
- a decline of 50 basis points due to higher transportation costs, primarily in the United Kingdom, primarily relating to increased flexibility in order processing in the United Kingdom and further increases in delivery rates in Russia;
- a decline of 30 basis points from higher variable distribution cost, primarily relating to increased flexibility in order processing in the United Kingdom; and
- a benefit of 90 basis points due to higher gross margin primarily due to lower supply chain costs driven by material costs.

Six Months Ended June 30, 2018

Total revenue increased 7% compared to the prior-year period, primarily due to the favorable impact of foreign exchange which was primarily driven by the weakening of the U.S. dollar relative to multiple currencies. On a Constant \$ basis, revenue increased 1%. Revenue and Constant \$ revenue included a benefit of approximately 4% due to the impact of adopting the new revenue recognition standard. Revenue and Constant \$ revenue were negatively impacted by a decrease in Active Representatives and lower average order. The decrease in Ending Representatives was primarily driven by decreases in the UK and South Africa.

In Russia, revenue increased 3%, despite the unfavorable impact of foreign exchange. On a Constant \$ basis, Russia's revenue increased 4%. Russia's revenue and Constant \$ revenue included a benefit of approximately 6% due to the impact of adopting the new revenue recognition standard. Revenue and Constant \$ revenue in Russia were negatively impacted by a decrease in Active Representatives. Revenue and Constant \$ revenue in Russia was also negatively impacted by continued competitive pressures, lower consumption in the market and a decline in the Fashion & Home

category.

In the United Kingdom, revenue decreased 1%, despite the favorable impact of foreign exchange. On a Constant \$ basis, the United Kingdom's revenue declined 9%. The United Kingdom's revenue and Constant \$ revenue included a benefit of 5% due to the impact of adopting the new revenue recognition standard. Revenue and Constant \$ revenue in the United Kingdom were negatively impacted by a decrease in Active Representatives, driven by the continuation of underlying field issues, partially offset by higher average order.

In South Africa, revenue grew 5%, primarily due to the favorable impact of foreign exchange. On a Constant \$ basis, South Africa's revenue declined 3%. South Africa's revenue and Constant \$ revenue included a benefit of 2% due to the impact of

44

AVON PRODUCTS, INC.

MANAGEMENT DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(U.S. dollars in millions, except per share data)

adopting the new revenue recognition standard. Revenue and Constant \$ revenue in South Africa were negatively impacted by a decrease in Active Representatives.

Segment margin decreased 150 basis points, or 160 basis points on a Constant \$ basis, including a benefit of 20 basis points due to the impact of the new revenue recognition standard. The decrease in reported and Constant \$ segment margin was primarily as a result of:

- a decline of 60 basis points due to lower gross margin primarily caused by 70 basis points from the unfavorable impact of foreign currency transaction net losses;
- a decline of 50 basis points from higher transportation costs, driven by further increases in delivery rates in Russia and increased flexibility in order processing in the United Kingdom;
- a decline of 30 basis points due to the higher Representative, sales leader and field expense in Russia and Turkey, driven by increased investment and higher pay-outs to the field compared to the prior-year period; and
- a decline of 20 basis points from higher advertising expense, primarily due to increased investment in the United Kingdom and Russia.

Amounts in the table above may not necessarily sum due to rounding.

Three Months Ended June 30, 2018

Total revenue decreased 8% compared to the prior-year period, including the unfavorable impact of foreign exchange, which was primarily driven by the strengthening of the U.S. dollar relative to the Argentinian peso and the Brazilian real. On a Constant \$ basis, revenue increased 3%. Revenue and Constant \$ revenue included a benefit of approximately 5% due to the impact of adopting the new revenue recognition standard. Revenue and Constant \$ revenue were negatively impacted by a decrease in Active Representatives, partially offset by higher average order. The decline in both Active Representatives and Ending Representatives was primarily driven by a decline in Brazil. Revenue in Brazil decreased 13%, unfavorably impacted by foreign exchange. On a Constant \$ basis, Brazil's revenue decreased 2%. Brazil's revenue and Constant \$ revenue included a benefit of approximately 9% due to the impact of adopting the new revenue recognition standard. Revenue and Constant \$ revenue in Brazil were negatively impacted by a decrease in Active Representatives, as well as lower average order. On a Constant \$ basis, Brazil's sales from Beauty products and Fashion & Home products declined 7% and 6%, respectively, including a benefit of 2% and 2% due to the impact of the new revenue recognition standard. Constant \$ revenue for the segment and for Brazil were both negatively impacted by approximately 3% and 6%, respectively, due to a national transportation strike that affected sales and distribution. In addition, revenue and Constant \$ revenue in Brazil, as well as Active Representatives and Ending Representatives, continued to be impacted by lower consumption in the market.

Revenue in Argentina declined 16%, unfavorably impacted by foreign exchange. On a Constant \$ basis, Argentina's revenue grew 22%. Argentina's revenue and Constant \$ revenue included a decline of approximately 2% due to the impact of adopting the new revenue recognition standard. Revenue and Constant \$ revenue in Argentina benefited from higher average order, which was impacted by improved revenue growth management including inflationary pricing.

45

AVON PRODUCTS, INC.

MANAGEMENT DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(U.S. dollars in millions, except per share data)

Segment margin increased 250 basis points, or 230 basis points on a Constant \$ basis, including a decline of 90 basis points due to the impact of adopting the new revenue recognition standard. The increase in reported and Constant \$ segment margin was primarily as a result of:

- a benefit of 240 basis points due to higher gross margin primarily caused by 170 basis points due to non-recurring net tax recoveries in Brazil and 120 basis points from the favorable net impact of mix and pricing, partially offset by 70 basis points due to higher supply chain costs driven by higher material costs;
- a benefit of 90 basis points due to lower Representative, sales leader and field expense, in line with sales performance;
- a benefit of 60 basis points from lower bad debt expense, primarily in Brazil, as the prior-year period was impacted by lower than anticipated collection of receivables;
- a decline of 70 basis points primarily related to higher transportation costs in Brazil, primarily driven by inefficiencies caused by the national transportation strike; and
- a decline of 40 basis points due to higher net brochure cost, primarily due to an increase in brochure volumes in Brazil.

During the quarter ended June 30, 2018, primarily based on published estimates which indicate that Argentina's three-year cumulative inflation rate has exceeded 100%, we concluded that Argentina has become a highly inflationary economy. Beginning July 1, 2018, we expect to apply highly inflationary accounting for our Argentinian subsidiary. As such, the functional currency for Argentina will change to U.S. dollar, which is the consolidated group's functional currency. When an entity operates in a highly inflationary economy, exchange gains and losses associated with monetary assets and liabilities resulting from changes in the exchange rate are recorded in income. Nonmonetary assets and liabilities, which include inventories and property, plant and equipment, are carried forward at their historical dollar cost, which will be calculated using the exchange rate at July 1, 2018. Our Argentinian operations contributed \$150, or 5.5% of revenues, or \$167, or 6.1% of Constant \$ revenue in the six months ended June 30, 2018. Based on a sensitivity analysis, we anticipate that a 10% devaluation of the Argentinian peso from July 1, 2018 to September 30, 2018 would result in an immaterial impact on net income for the third quarter of 2018, driven by the net monetary liability position of Argentina as at June 30, 2018.

Six Months Ended June 30, 2018

Total revenue decreased 4% compared to the prior-year period, including the unfavorable impact of foreign exchange, which was primarily driven by the strengthening of the U.S. dollar relative to the Argentinian peso and the Brazilian real. On a Constant \$ basis, revenue increased 4%. Revenue and Constant \$ revenue included a benefit of approximately 8% due to the impact of adopting the new revenue recognition standard. Revenue and Constant \$ revenue were negatively impacted by a decrease in Active Representatives, partially offset by higher average order driven by Argentina. The decline in Ending Representatives was primarily driven by a decline in Brazil. Revenue in Brazil decreased 8%, unfavorably impacted by foreign exchange. On a Constant \$ basis, Brazil's revenue decreased 2%. Brazil's revenue and Constant \$ revenue included a benefit of approximately 10% due to the impact of adopting the new revenue recognition standard. Revenue and Constant \$ revenue in Brazil were negatively impacted by a decrease in Active Representatives, as well as lower average order. On a Constant \$ basis, Brazil's sales from Beauty products and Fashion & Home products declined 8% and 6%, respectively, including a benefit of 2% and 3% due to the impact of the new revenue recognition standard. The decline in Constant \$ Beauty sales in Brazil was driven by weaker performance in Color, which was negatively impacted by competition. The challenging macroeconomic environment and lower consumption in the market continued to impact revenue and Constant \$ revenue in Brazil, as well as Active Representatives and Ending Representatives. In addition, revenue and Constant \$ revenue in Brazil, as well as Active Representatives and Ending Representatives, were also impacted by a national

transportation strike which affected sales and distribution.

Revenue in Argentina declined 9%, unfavorably impacted by foreign exchange. On a Constant \$ basis, Argentina's revenue grew 23%. Argentina's revenue and Constant \$ revenue included a benefit of approximately 1% due to the impact of adopting the new revenue recognition standard. Revenue and Constant \$ revenue in Argentina benefited from higher average order, which was impacted by the continuous inflationary impact on pricing.

Segment margin increased 250 basis points, or 260 basis points on a Constant \$ basis, with no net impact from adoption of the new revenue recognition standard. The increase in reported and Constant \$ segment margin was primarily as a result of:

a benefit of 210 basis points due to higher gross margin including 90 basis points due to non-recurring net tax recoveries in Brazil, 110 basis points from the favorable net impact of mix and pricing and 40 basis points from the favorable impact of foreign currency net gains. These items were partially offset by 60 basis points due to higher supply chain costs driven by higher material costs;

AVON PRODUCTS, INC.

MANAGEMENT DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(U.S. dollars in millions, except per share data)

a benefit of 150 basis points from lower net bad debt expense, primarily in Brazil, as the prior-year period was impacted by lower than anticipated collection of receivables;

a decline of 70 basis points due to higher transportation costs in Brazil, primarily driven by inefficiencies caused by the national transportation strike, and the unfavorable impact of declining revenue with respect to transportation costs; and

a decline of 70 basis points due to higher net brochure cost, primarily due to an increase in brochure volumes in Brazil.

Three Months Ended June 30, 2018

North Latin America consists largely of our Mexico business. Total revenue for the segment was relatively unchanged compared to the prior-year period, unfavorably impacted by foreign exchange, which was primarily driven by the strengthening of the U.S. dollar relative to the Mexican peso. On a Constant \$ basis, revenue increased 3%. Revenue and constant dollar revenue included a benefit of approximately 5% due to the impact of adopting the new revenue recognition standard. Revenue and Constant \$ revenue were negatively impacted by a decrease in Active Representatives, primarily in Mexico, partially offset by higher average order.

Revenue in Mexico increased 2%, despite the unfavorable impact of foreign exchange. On a Constant \$ basis, Mexico's revenue increased 6%. Mexico's revenue and Constant \$ revenue included a benefit of approximately 6% due to the impact of the new revenue recognition standard. The benefit of higher average order on revenue and Constant \$ revenue was offset by a decrease in Active Representatives, impacted by lower Representative satisfaction, primarily resulting from quality issues in the Fashion & Home category in the first quarter of 2018.

Segment margin increased 40 basis points, or 50 basis points on a Constant \$ basis, including a benefit of 60 basis points due to the impact of adopting the new revenue recognition standard. In each case, segment margin was also impacted by:

a net decline of 170 basis points due to higher fixed expenses, primarily related to personnel cost;

a decline of 70 basis points due to increased net bad debt expense primarily driven by lower payments in Mexico and political unrest in Nicaragua;

a decline of 40 basis points due to higher transportation costs, primarily related to an increase in fuel prices in Mexico;

a benefit of 210 basis points due to lower Representative, sales leader and field expense in line with sales performance; and

▪ benefit of 60 basis points from lower advertising expense as compared to the prior-year period.

Six Months Ended June 30, 2018

North Latin America consists largely of our Mexico business. Total revenue for the segment remained relatively unchanged compared to the prior-year period. On a Constant \$ basis, revenue was also relatively unchanged. Revenue and constant dollar revenue included a benefit of approximately 5% due to the impact of the adopting new revenue recognition standard. Revenue and Constant \$ revenue were negatively impacted by a decrease in Active Representatives.

Revenue in Mexico increased 4%, which was favorably impacted by foreign exchange. On a Constant \$ basis, Mexico's revenue increased 2%. Mexico's revenue and Constant \$ revenue included a benefit of approximately 5% due to the impact of

AVON PRODUCTS, INC.

MANAGEMENT DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(U.S. dollars in millions, except per share data)

the new revenue recognition standard. Revenue and Constant \$ revenue in Mexico were negatively impacted by a decrease in Active Representatives primarily due to quality issues in the Fashion & Home category.

Segment margin was relatively unchanged. On a Constant \$ basis, segment margin was also relatively unchanged, and included a benefit of 80 basis points due to the impact of adopting the new revenue recognition standard. The decrease in reported and Constant \$ segment margin was primarily as a result of:

- a net decline of 190 basis points primarily due to higher fixed expenses, primarily related to personnel cost and the impact of the Constant \$ revenue decline causing deleverage of our fixed expenses;

- a decline of 60 basis points primarily due to an increase in fuel prices in Mexico;

- a benefit of 120 basis points due to lower Representative, sales leader and field expense in line with sales performance; and

- a benefit of 40 basis points from lower advertising expense as compared to the prior-year period.

Effective from the first quarter of 2018, given that we will exit Australia and New Zealand during 2018, the results of Australia and New Zealand are now reported in Other operating segments and business activities for all periods presented, while previously the results had been reported in the Asia Pacific segment. The impact was not material to Asia Pacific or Other operating segments and business activities and is consistent with how we present other market exits.

Three Months Ended June 30, 2018

Total revenue decreased 1% compared to the prior-year period, due to the unfavorable impact of foreign exchange. On a Constant \$ basis, revenue increased 1%. Revenue and constant dollar revenue included an increase of 1% due to the impact of adopting the new revenue recognition standard. Revenue and Constant \$ revenue benefited from higher average order, offset by a decrease in Active Representatives, most significantly in Malaysia. The decline in Ending Representatives was primarily driven by a decline in Malaysia.

Revenue in the Philippines decreased 3%, negatively impacted by the unfavorable impact of foreign exchange. On a Constant \$ basis, revenue in the Philippines increased 2%. Revenue and Constant \$ revenue in the Philippines included a benefit of 2% due to the impact of adopting the new revenue recognition standard, and continued to be negatively impacted by inventory system issues resulting in service disruption. The benefit of an increase in Active

Representatives on revenue and Constant \$ revenue in the Philippines was offset by lower average order. Segment margin decreased 250 basis points, or 200 basis points on a Constant \$ basis, including a decrease of 40 basis points due to the impact of adopting the new revenue recognition standard. The decrease in reported and Constant \$ segment margin was primarily as a result of:

- a decline of 90 basis points from lower gross margin, primarily due to higher logistics cost in the Philippines to address service disruptions caused by the inventory system implementation earlier in the year;

AVON PRODUCTS, INC.

MANAGEMENT DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(U.S. dollars in millions, except per share data)

a decline of 50 basis points due to higher fixed expenses primarily relating to the impairment of the inventory system implemented in the Philippines; and

a decline of 30 basis points due to higher advertising expense, primarily in China, related to celebrity and digital advertising to support growth.

Six Months Ended June 30, 2018

Total revenue decreased 1% compared to the prior-year period, due to the unfavorable impact of foreign exchange. On a Constant \$ basis, revenue decreased 1%. Revenue and constant dollar revenue included a negligible benefit due to the impact of adopting the new revenue recognition standard. Revenue and Constant \$ revenue were negatively impacted by a decrease in Active Representatives, most significantly in Malaysia. The decline in Ending Representatives was primarily driven by a decline in Malaysia.

Revenue in the Philippines declined 4%, negatively impacted by the unfavorable impact of foreign exchange. On a Constant \$ basis, revenue in the Philippines remained relatively unchanged. Revenue and Constant \$ revenue in the Philippines included a benefit of 1% due to the impact of adopting the new revenue recognition standard. Revenue and Constant \$ revenue in the Philippines were negatively impacted by lower average order, partially offset by an increase in Active Representatives. Revenue and Constant \$ revenue in the region and the Philippines was also negatively impacted by inventory system implementation issues resulting in service disruption.

Segment margin decreased 240 basis points, or 180 basis points on a Constant \$ basis, including a decline of 30 basis points due to the impact of adopting the new revenue recognition standard. The decrease in reported and Constant \$ segment margin was primarily as a result of:

a decline of 70 basis points related to higher Representative, sales leader and field expense, primarily due to investments in store upgrades and e-commerce in China;

a decline of 60 basis points primarily relating to the impairment of the inventory system implemented in the Philippines;

a decline of 50 basis points due to higher advertising expense, primarily in the Philippines, related to television advertising associated with our Color category, and in China, related to celebrity and digital advertising to support growth; and

a benefit of 30 basis points due to higher gross margin caused by 160 basis points from benefits in supply chain costs due to lower obsolescence and overhead costs, partially offset by 100 basis points due to higher logistics cost in the Philippines to address service disruptions caused by the inventory system implementation earlier in the year.

LIQUIDITY AND CAPITAL RESOURCES

Our principal sources of funds historically have been cash flows from operations, public offerings of notes, bank financings, issuance of commercial paper, borrowings under lines of credit and a private placement of notes. At June 30, 2018, we had cash and cash equivalents totaling approximately \$444. We believe that our sources of funding will be sufficient to satisfy our currently anticipated cash requirements through at least the next twelve months. On June 12, 2018, we received a decision authorizing Avon to withdraw the amount held as a judicial deposit relating to Brazil IPI taxes, substituting it by letter of guarantee, which was presented; on July 30, 2018, \$68 was received (described more fully in Note 7, Contingencies, to the Consolidated Financial Statements included herein).

We may seek to repurchase our equity or to retire our outstanding debt in open market purchases, privately negotiated transactions, through derivative instruments, cash tender offers or otherwise. Repurchases of equity and debt may be funded by the incurrence of additional debt or the issuance of equity (including shares of preferred stock) or convertible securities and will depend on prevailing market conditions, our liquidity requirements, contractual restrictions and other factors, and the amounts involved may be material. We may also elect to incur additional debt or issue equity (including shares of preferred stock) or convertible securities to finance ongoing operations or to meet our

other liquidity needs. Any issuances of equity (including shares of preferred stock) or convertible securities could have a dilutive effect on the ownership interest of our current shareholders and may adversely impact earnings per share in future periods. Our credit ratings were downgraded during the past several years, which may impact our ability to access such transactions on favorable terms, if at all. For more information, see "Risk Factors - Our credit ratings were downgraded during the past several years, which could limit our access to financing, affect the market price of our financing and increase financing costs. A further downgrade in our credit ratings may adversely affect our access to liquidity," "Risk Factors - Our indebtedness and any future inability to meet any of our obligations under our indebtedness, could adversely affect us by reducing our flexibility to respond to changing business and economic conditions," and "Risk Factors - A general economic downturn, a recession globally or in one or more of our geographic regions

49

AVON PRODUCTS, INC.

MANAGEMENT DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(U.S. dollars in millions, except per share data)

or markets or sudden disruption in business conditions or other challenges may adversely affect our business, our access to liquidity and capital, and our credit ratings" contained in our 2017 Form 10-K.

Our liquidity could also be negatively impacted by restructuring initiatives, dividends, capital expenditures, acquisitions, and certain contingencies, including any legal or regulatory settlements, described more fully in Note 7, Contingencies, to the Consolidated Financial Statements included herein. See our Cautionary Statement for purposes of the "Safe Harbor" Statement under the Private Securities Litigation Reform Act of 1995 contained in this report.

Cash Flows

Net Cash Provided (Used) by Continuing Operating Activities

Net cash used by continuing operating activities during the first six months of 2018 was approximately \$107, as compared to net cash provided by continuing operations of approximately \$11 during the first six months of 2017.

The approximate \$118 unfavorable impact to the year-over-year comparison of net cash used by continuing operating activities was primarily due to higher inventory purchase, the timing of payments and a \$10 contribution to the U.S. pension plan, partially offset by lower net receivables. Net cash used by continuing operations was also impacted by the make-whole payment and payment of accrued interest related to the 2019 bond prepayment, which totaled \$11.

Net Cash Used by Continuing Investing Activities

Net cash used by continuing investing activities during the first six months of 2018 was approximately \$50, as compared to approximately \$40 during the first six months of 2017. The approximate \$10 increase to net cash used by continuing investing activities was primarily due to higher capital expenditures.

Net Cash Used by Continuing Financing Activities

Net cash used by continuing financing activities during the first six months of 2018 was less than \$252, as compared to approximately \$13 during the first six months of 2017. The approximate \$239 unfavorable impact to net cash used by continuing financing activities was primarily due to repayment of debt.

Capital Resources

Revolving Credit Facility

In June 2015, Avon International Operations, Inc. ("AIO"), a wholly-owned domestic subsidiary of the Company, entered into a five-year \$400.0 senior secured revolving credit facility (the "2015 facility"). Borrowings under the 2015 facility bear interest, at our option, at a rate per annum equal to LIBOR plus 250 basis points or a floating base rate plus 150 basis points, in each case subject to adjustment based upon a leverage-based pricing grid. In December 2017, AIO entered into an amendment to the 2015 facility, which, among other things, modified the financial covenants (interest coverage and total leverage ratios) to provide the Company additional flexibility. As of June 30, 2018, there were no amounts outstanding under the 2015 facility.

All obligations of AIO under the 2015 facility are (i) unconditionally guaranteed by each material domestic restricted subsidiary of the Company (other than AIO, the borrower), in each case, subject to certain exceptions and (ii) fully guaranteed on an unsecured basis by the Company. The obligations of AIO and the subsidiary guarantors are secured by first priority liens on and security interest in substantially all of the assets of AIO and the subsidiary guarantors, in each case, subject to certain exceptions.

The 2015 facility will terminate in June 2020; provided, however, that it shall terminate on the 91st day prior to the maturity of the 4.60% Notes (as defined below), if on such 91st day, the applicable notes are not redeemed, repaid, discharged, defeased or otherwise refinanced in full.

The 2015 facility contains affirmative and negative covenants, which are customary for secured financings of this type, as well as financial covenants (interest coverage and total leverage ratios). As of June 30, 2018, we were in compliance with our interest coverage and total leverage ratios under the 2015 facility, as amended. The amount of the facility available to be drawn down on is reduced by any standby letters of credit granted by AIO, which, as of

June 30, 2018, was approximately \$33. As of June 30, 2018, based on then applicable interest rates, the entire amount of the remaining 2015 facility, which is approximately \$367, could have been drawn down without violating any covenant. Depending on our business results (including the impact of any adverse foreign exchange movements and significant restructuring charges), it is possible that we may be non-compliant with our interest coverage or total leverage ratio absent the Company undertaking other alternatives to avoid noncompliance, such as obtaining additional amendments to the 2015 facility or repurchasing certain debt. If we were to be non-compliant with

AVON PRODUCTS, INC.

MANAGEMENT DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(U.S. dollars in millions, except per share data)

our interest coverage or total leverage ratio, we would no longer have access to our 2015 facility and our credit ratings may be downgraded. As of June 30, 2018, there were no amounts outstanding under the 2015 facility.

FINANCIAL INSTRUMENTS AND RISK MANAGEMENT STRATEGIES

Interest Rate Risk

In the past we have used interest-rate swaps to manage our interest rate exposure. The interest-rate swaps were used to either convert our fixed rate borrowing to a variable interest rate or to unwind an existing variable interest-rate swap on a fixed rate borrowing. As of June 30, 2018, we do not have any interest-rate swap agreements. Approximately 1% of our debt portfolio at June 30, 2018 and December 31, 2017, was exposed to floating interest rates.

Foreign Currency Risk

We conduct business globally, with operations in various locations around the world. Over the past three years, all of our consolidated revenue was derived from operations of subsidiaries outside of the U.S. The functional currency for most of our foreign operations is their local currency. We may reduce our exposure to fluctuations in cash flows associated with changes in foreign exchange rates by creating offsetting positions, including through the use of derivative financial instruments.

CAUTIONARY STATEMENT FOR PURPOSES OF THE "SAFE HARBOR" STATEMENT UNDER THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995

Statements in this report (or in the documents it incorporates by reference) that are not historical facts or information may be forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Words such as "estimate," "project," "forecast," "plan," "believe," "may," "expect," "anticipate," "intend," "planned," "potential," "can," "expectation," "could," "will," "would" and similar expressions, or the negative of those expressions, may identify forward looking statements. They include, among other things, statements regarding our anticipated or expected results, future financial performance, various strategies and initiatives (including our Transformation Plan, stabilization strategies, cost savings initiatives, restructuring and other initiatives and related actions), costs and cost savings, competitive advantages, impairments, the impact of foreign currency, including devaluations, and other laws and regulations, government investigations, internal investigations and compliance reviews, results of litigation, contingencies, taxes and tax rates, potential alliances or divestitures, liquidity, cash flow, uses of cash and financing, hedging and risk management strategies, pension, postretirement and incentive compensation plans, supply chain and the legal status of the Representatives. Such forward-looking statements are based on management's reasonable current assumptions, expectations, plans and forecasts regarding the Company's current or future results and future business and economic conditions more generally. Such forward-looking statements involve risks, uncertainties and other factors, which may cause the actual results, levels of activity, performance or achievement of Avon to be materially different from any future results expressed or implied by such forward-looking statements, and there can be no assurance that actual results will not differ materially from management's expectations. Therefore, you should not rely on any of these forward-looking statements as predictors of future events. Important factors that could cause our actual results and financial condition to differ materially from those indicated in the forward-looking statements include, among others, the following:

• our ability to improve our financial and operational performance and execute fully our global business strategy, including our ability to implement the key initiatives of, and/or realize the projected benefits (in the amounts and time schedules we expect) from, our transformation plan, stabilization strategies, cost savings initiatives, restructuring and other initiatives, product mix and pricing strategies, enterprise resource planning, customer service initiatives, sales and operation planning process, outsourcing strategies, Internet platform and technology strategies including e-commerce, marketing and advertising strategies, information technology and related system enhancements and cash

management, tax, foreign currency hedging and risk management strategies, and any plans to invest these projected benefits ahead of future growth;

our ability to achieve the anticipated benefits of our strategic partnership with Cerberus Capital Management, L.P.;

our broad-based geographic portfolio, which is heavily weighted towards emerging markets, a general economic downturn, a recession globally or in one or more of our geographic regions or markets, such as Brazil, Mexico or Russia, or sudden disruption in business conditions, and the ability to withstand an economic downturn, recession, cost inflation, commodity cost pressures, economic or political instability (including fluctuations in foreign exchange rates), competitive or other market pressures or conditions;

the effect of economic factors, including inflation and fluctuations in interest rates and foreign currency exchange rates; as well as the designation of Argentina as a highly inflationary economy, and the potential effect of such factors on our business, results of operations and financial condition;

the possibility of business disruption in connection with our transformation plan, stabilization strategies, cost savings initiatives, or restructuring and other initiatives;

our ability to reverse declining revenue, to improve margins and net income, or to achieve profitable growth, particularly in our largest markets and developing and emerging markets, such as Brazil, Mexico and Russia;

our ability to improve working capital and effectively manage doubtful accounts and inventory and implement initiatives to reduce inventory levels, including the potential impact on cash flows and obsolescence;

our ability to reverse declines in Active Representatives, to enhance our sales leadership programs, to generate Representative activity, to increase the number of consumers served per Representative and their engagement online, to enhance branding and the Representative and consumer experience and increase Representative productivity through field activation and segmentation programs and technology tools and enablers, to invest in the direct-selling channel, to offer a more social selling experience, and to compete with other direct-selling organizations to recruit, retain and service Representatives and to continue to innovate the direct-selling model;

general economic and business conditions in our markets, including social, economic and political uncertainties, such as in Russia and Ukraine or elsewhere, and any potential sanctions, restrictions or responses to such conditions imposed by other markets in which we operate;

developments in or consequences of any investigations and compliance reviews, and any litigation related thereto, including the investigations and compliance reviews of Foreign Corrupt Practices Act and related United States ("U.S.") and foreign law matters, as well as any disruption or adverse consequences resulting from such investigations, reviews, related actions or litigation;

the effect of political, legal, tax, including changes in tax rates, and other regulatory risks imposed on us abroad and in the U.S., our operations or the Representatives, including foreign exchange, pricing, data privacy or other restrictions, the adoption, interpretation and enforcement of foreign laws, including in jurisdictions such as Brazil and Russia, and any changes thereto, as well as reviews and investigations by government regulators that have occurred or may occur from time to time, including, for example, local regulatory scrutiny;

competitive uncertainties in our markets, including competition from companies in the consumer packaged goods industry, some of which are larger than we are and have greater resources;

the impact of the adverse effect of volatile energy, commodity and raw material prices, changes in market trends, purchasing habits of our consumers and changes in consumer preferences, particularly given the global nature of our business and the conduct of our business in primarily one channel;

our ability to attract and retain key personnel;

other sudden disruption in business operations beyond our control as a result of events such as acts of terrorism or war, natural disasters, pandemic situations, large-scale power outages and similar events;

key information technology systems, process or site outages and disruptions, and any cyber security breaches, including any security breach of our systems or those of a third-party provider that results in the theft, transfer or unauthorized disclosure of Representative, customer, employee or Company information or compliance with information security and privacy laws and regulations in the event of such an incident which could disrupt business operations, result in the loss of critical and confidential information, and adversely impact our reputation and results of operations, and related costs to address such malicious intentional acts and to implement adequate preventative measures against cyber security breaches;

our ability to comply with various data privacy laws affecting the markets in which we do business;

- the risk of product or ingredient shortages resulting from our concentration of sourcing in fewer suppliers;
- any changes to our credit ratings and the impact of such changes on our financing costs, rates, terms, debt service obligations, access to lending sources and working capital needs;
- the impact of our indebtedness, our access to cash and financing, and our ability to secure financing or financing at attractive rates and terms and conditions;
- the impact of our business results (including the impact of any adverse foreign exchange movements and significant restructuring charges), on our ability to comply with certain covenants in our revolving credit facility;
- our ability to successfully identify new business opportunities, strategic alliances and strategic alternatives and identify and analyze alliance candidates, secure financing on favorable terms and negotiate and consummate alliances;
- disruption in our supply chain or manufacturing and distribution operations;

AVON PRODUCTS, INC.

MANAGEMENT DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(U.S. dollars in millions, except per share data)

the quality, safety and efficacy of our products;
the success of our research and development activities;
our ability to protect our intellectual property rights, including in connection with the separation of the North America business;
our ability to repurchase the series C preferred stock in connection with a change of control; and
the risk of an adverse outcome in any material pending and future litigation or with respect to the legal status of Representatives.

Additional information identifying such factors is contained in Item 1A of our 2017 Form 10-K for the year ended December 31, 2017, and other reports and documents we file with the SEC. We undertake no obligation to update any such forward-looking statements.

AVON PRODUCTS, INC.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There have been no material changes in market risk from the information provided in Item 7A, Quantitative and Qualitative Disclosures About Market Risk, of our 2017 Form 10-K.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

As of the end of the period covered by this report, our principal executive and principal financial officers carried out an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Rule 13a-15 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). In designing and evaluating our disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management was required to apply its judgment in evaluating and implementing possible controls and procedures. Based upon their evaluation, the principal executive and principal financial officers concluded that our disclosure controls and procedures were effective as of June 30, 2018, at the reasonable assurance level. Disclosure controls and procedures are designed to ensure that information relating to Avon (including our consolidated subsidiaries) required to be disclosed by us in the reports we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the United States Securities and Exchange Commission’s rules and forms and to ensure that information required to be disclosed is accumulated and communicated to management to allow timely decisions regarding disclosure.

Changes in Internal Control over Financial Reporting

Our management has evaluated, with the participation of our principal executive and principal financial officers, whether any changes in our internal control over financial reporting that occurred during our last fiscal quarter (the registrant’s fourth fiscal quarter in the case of an annual report) have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting. Based on the evaluation we conducted, our management has concluded that no such changes have occurred.

AVON PRODUCTS, INC.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

See Note 7, Contingencies, to the Consolidated Financial Statements included herein.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

(c) Repurchases

The following table provides information about our purchases of our common stock during the quarterly period ended June 30, 2018:

	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Programs	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Program
4/1 - 4/30/18	120,511	(1) 2.77	*	*
5/1 - 5/31/18	48,667	(1) \$ 2.65	*	*
6/1 - 6/30/18	9,089	2.69	*	*
Total	178,267	\$ 2.73	*	*

*These amounts are not applicable as the Company does not have a share repurchase program in effect.

(1) All shares were repurchased by the Company in connection with employee elections to use shares to pay withholding taxes upon the vesting of their restricted stock units and performance restricted stock units. Some of these share repurchases may reflect a delay from the actual transaction date.
