PRESIDENT'S MESSAGE

July 21, 2004

Dear Shareholder:

We are pleased to let you know that FleetBoston Financial Corporation and Bank of America Corporation have merged, effective April 1, 2004. As a result of the merger, Columbia Management Group and your Colonial Municipal Income Trust became part of the Bank of America family of companies. Looking ahead, we believe this merger will be a real benefit to our shareholders. Preserving and leveraging our strengths, the combined organization intends to deliver additional research and management capabilities, as well as new products. There are no immediate changes planned for fund names, product lines, or customer service contacts.

As you might know, on March 15, 2004, FleetBoston Financial announced an agreement in principle with the staff of the Securities and Exchange Commission ("SEC") and the New York Attorney General ("NYAG") to settle charges involving market timing in Columbia Management mutual funds. (You may also know that Bank of America came to a similar settlement in principle at the same time.) The agreement requires the final approval of the SEC and the NYAG. This settlement in principle reflects our strong wish to put this regrettable situation behind us. Columbia Management has taken and will continue to take steps to strengthen policies, procedures and oversight to curb frequent trading of Columbia open-end fund shares.

Both your fund's trustees and Columbia Management are committed to serving the interests of our shareholders, and we will continue to work hard to help you achieve your financial goals.

As always, thank you for choosing Colonial Municipal Income Trust, and for giving us the opportunity to help you build a strong financial future.

Sincerely,

/s/ Thomas C. Theobald

/s/ J. Kevin Connaughton

# Edgar Filing: COLONIAL MUNICIPAL INCOME TRUST - Form N-CSRS

Thomas C. Theobald  
Chairman, Board of Trustees

J. Kevin Connaughton  
President

J. Kevin Connaughton was named president of Colonial Municipal Income Trust on February 27, 2004.

Economic and market conditions change frequently. There is no assurance that the trends described in this report will continue or commence.

## PORTFOLIO MANAGER'S REPORT

-----	

Sector breakdown is calculated as a percentage of net assets (including auction preferred shares). Quality breakdown is calculated as a percentage of total investments. Ratings shown in the quality breakdown represent the highest rating assigned to a particular bond by one of the following nationally recognized rating agencies: Standard & Poor's Corporation, Moody's Investors Service, Inc. or Fitch Ratings Ltd.

Because the trust is actively managed, there is no guarantee that the trust will continue to invest in these sectors or maintain this quality breakdown in the future.

For the six-month period ended May 31, 2004, Colonial Municipal Income Trust returned negative 1.77%, based on investment at net asset value. The trust trailed its peer group, the Lipper High Yield Municipal Debt Funds Category, which averaged 0.74%.<sup>1</sup> It also fell short of its benchmark, the Lehman Brothers Municipal Bond Index, which returned negative 0.22% during the period.

#### CERTAIN BONDS DETRACTED FROM PERFORMANCE

The trust's investments in multi-family housing and airline bonds detracted from performance. Multi-family housing bond prices declined as low interest rates allowed more renters to become homeowners, resulting in high apartment vacancy rates. Delta Air Lines and US Airways (0.2% and 0.2% of total investments, respectively)<sup>2</sup> were among the airlines that turned in disappointing returns. The trust's above-average stake in zero coupon municipal bonds further hampered returns. Bought at a steep discount, zeros appreciate to face value at maturity. They pay no periodic interest payments. Zeros that have longer maturities tend to underperform when interest rates are rising, as they were during this six-month period.

## Edgar Filing: COLONIAL MUNICIPAL INCOME TRUST - Form N-CSRS

The trust's slightly short duration also hindered relative performance early on when stagnant job growth caused interest rates to decline. Duration is a measure, expressed in years, of a bond's sensitivity to changes in interest rates. As interest rates fell, bonds with shorter durations did not appreciate as much as bonds with longer durations. We made up some, but not all, of this relative underperformance in the spring when job growth picked up and interest rates moved higher.

For the six-month period ended May 31, 2004, the trust had an even lower return of negative 4.48%, based on its market price, as the discount to net asset value increased. Fears that short-term interest rates would rise and hurt the trust's high dividend yield put pressure on the stock's price.

### LEVERAGE HELPED BOOST INCOME

During the period the trust derived added income from its leverage. The leverage comes from preferred shares, issued in 1999, which allowed the trust to borrow against its underlying investments. We invested the proceeds from these shares in longer maturity, higher-yielding bonds, while paying out a short-term rate that is influenced by the federal funds rate. The trust earns the difference between the rate paid to the preferred shareholders and the yield on the longer maturity securities. With the federal funds rate at 1.0% during this reporting period, the difference was significant and resulted in added income for the trust. However, going forward, if the trend is toward higher interest rates, the rate paid on the preferred shares could rise, lowering the income available to pay the dividend on the common shares.

-----

- 1 Lipper, Inc., a widely respected data provider in the industry, calculates an average total return for mutual funds with similar investment objectives as those of the trust.
- 2 Holdings are disclosed as of May 31, 2004, and are subject to change.

1

### PORTFOLIO MANAGER'S REPORT (CONTINUED)

To bolster the trust's yield, we sold some higher quality bonds and replaced them with higher-yielding issues. We also replaced 30-year bonds with 20-year bonds with comparable yields but shorter durations, which should make them less volatile as interest rates rise. These shorter-maturity bonds did well.

The trust further benefited from its above-average stake in health care bonds, which were strong performers. Specific issues such as HealthEast, a Minnesota hospital (0.8% of total investments),<sup>2</sup> rallied amid credit improvement. In addition, we took advantage of attractive yields in the retirement housing sector, buying bonds issued by well-run companies that were expanding their facilities. We also purchased securities issued by Charter Mac, a multi-family housing loan pool (0.7% of total investments).<sup>2</sup>

### LOOKING AHEAD TO RISING INTEREST RATES

We plan to maintain the trust's slightly short duration on the expectation that short-term interest rates will rise gradually as job gains fuel the economy while high oil prices keep growth somewhat in check. In this environment, we continue to believe that high-yield bonds will outpace higher quality issues.

/s/ Maureen G. Newman

## Edgar Filing: COLONIAL MUNICIPAL INCOME TRUST - Form N-CSRS

Maureen G. Newman has been the portfolio manager of Colonial Municipal Income Trust since August 1998. Ms. Newman has managed various other municipal funds for Columbia Management Advisors, Inc. or its predecessors since May 1996.

Past performance is no guarantee of future investment results. Current performance may be higher or lower than performance data shown.

Tax-exempt investing offers current tax-free income, but it also involves certain risks. The value of the trust shares will be affected by interest rate changes and the creditworthiness of issues held in the trust. Investing in high-yield securities offers the potential for high current income and attractive total return, but involves certain risks. Lower-rated bond risks include default of the issuer and rising interest rates. Interest income from certain tax-exempt bonds may be subject to the federal alternative minimum tax for individuals and corporations.

## NOTES TO FINANCIAL STATEMENTS

May 31, 2004 (Unaudited)

### NOTE 1. ORGANIZATION

Colonial Municipal Income Trust (the "Trust") is a Massachusetts business trust registered under the Investment Company Act of 1940 (the "Act"), as amended, as a non-diversified, closed-end management investment company.

### INVESTMENT GOAL

The Trust seeks to provide high current income, generally exempt from federal income taxes, by investing primarily in medium and lower quality bonds and notes issued by or on behalf of state and local government units whose interest is exempt from ordinary federal income tax, other than the possible incidence of any alternative minimum tax. The Trust's secondary goal is to seek total return.

### TRUST SHARES

The Trust may issue an unlimited number of common shares. On July 20, 1999, the Trust issued 3,600 Auction Preferred Shares ("APS").

### NOTE 2. SIGNIFICANT ACCOUNTING POLICIES

#### USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of

## Edgar Filing: COLONIAL MUNICIPAL INCOME TRUST - Form N-CSRS

the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates. The following is a summary of significant accounting policies consistently followed by the Trust in the preparation of its financial statements.

### SECURITY VALUATION

Debt securities generally are valued by a pricing service approved by the Trust's Board of Trustees, based upon market transactions for normal, institutional-size trading units of similar securities. The services may use various pricing techniques which take into account appropriate factors such as yield, quality, coupon rate, maturity, type of issue, trading characteristics and other data, as well as broker quotes. Debt securities for which quotations are readily available are valued at an over-the-counter or exchange bid quotation. Certain debt securities, which tend to be more thinly traded and of lesser quality, are priced based on fundamental analysis of the financial condition of the issuer and the estimated value of any collateral. Valuations developed through pricing techniques may vary from the actual amounts realized upon sale of the securities, and the potential variation may be greater for those securities valued using fundamental analysis.

Short-term debt obligations maturing within 60 days are valued at amortized cost, which approximates market value.

Futures contracts are valued at the settlement price established each day by the board of trade or exchange on which they are traded.

Restricted securities and investments for which market quotations are not readily available, or quotations which management believes are not appropriate, are valued at fair value as determined in good faith under consistently applied procedures established by and under the general supervision of the Board of Trustees.

### SECURITY TRANSACTIONS

Security transactions are accounted for on the trade date. Cost is determined and gains (losses) are based upon the specific identification method for both financial statement and federal income tax purposes.

### FUTURES CONTRACTS

The Trust may invest in municipal and U.S. Treasury futures contracts. The Trust may invest in these instruments to hedge against the effects of changes in the value of portfolio securities due to anticipated changes in interest rates and/or market conditions, for duration management, or when the transactions are economically appropriate to the reduction of risk inherent in the management of the Trust and not for trading purposes. The use of futures contracts involves certain risks, which include: (1) imperfect correlation between the price movement of the instruments and the underlying securities, (2) inability to close out positions due to differing trading hours, or the temporary absence of a liquid market, for either the instrument or the underlying securities, or (3) an inaccurate prediction by Columbia Management Advisors, Inc. of the future direction of interest rates. Any of these risks may involve amounts exceeding the variation margin recorded on the Trust's Statement of Assets and Liabilities at any given time.

Upon entering into a futures contract, the Trust deposits cash or securities with the broker in an amount sufficient to meet the initial margin requirement. Subsequent payments are made or received by the Trust equal to the daily change in the contract value and are recorded as variation margin payable or receivable and offset in unrealized gains or losses. The Trust also identifies portfolio securities as segregated with the custodian in a separate account in an amount equal to the futures contract. The Trust recognizes a realized gain or loss when the contract is closed or expires.

## Edgar Filing: COLONIAL MUNICIPAL INCOME TRUST - Form N-CSRS

### OPTIONS

The Trust may write call and put options on futures it owns or in which it may invest. Writing put options tends to increase the Trust's exposure to the underlying instrument. Writing call options tends to decrease the Trust's exposure to the underlying instrument. When the Trust writes a call or put option, an amount equal to the premium received is recorded as a liability and subsequently marked-to-market to reflect the current value of the option written. Premiums received from writing options which expire are treated as realized gains. Premiums received from writing options which are exercised or closed are added to the proceeds or offset against the amounts paid on the underlying future transaction to determine the realized gain or

17

### NOTES TO FINANCIAL STATEMENTS (CONTINUED)

May 31, 2004 (Unaudited)

loss. The Trust as a writer of an option has no control over whether the underlying future may be sold (call) or purchased (put) and as a result bears the market risk of an unfavorable change in the price of the future underlying the written option. There is the risk the Trust may not be able to enter into a closing transaction because of an illiquid market.

The Trust may also purchase put and call options. Purchasing call options tends to increase the Trust's exposure to the underlying instrument. Purchasing put options tends to decrease the Trust's exposure to the underlying instrument. The Trust pays a premium, which is included in the Trust's Statement of Assets and Liabilities as an investment and subsequently marked-to-market to reflect the current value of the option. The risk associated with purchasing put and call options is limited to the premium paid. Premiums paid for purchasing options which expire are treated as realized losses. Premiums paid for purchasing options which are exercised or closed are added to the amounts paid or offset against the proceeds on the underlying future transaction to determine the realized gain or loss. The Trust's custodian will set aside cash or liquid portfolio securities equal to the amount of the written options contract commitment in a separate account.

### RESTRICTED SECURITIES

Restricted securities are securities that may only be resold upon registration under federal securities laws or in transactions exempt from registration. In some cases, the issuer of restricted securities has agreed to register such securities for resale at the issuer's expense either upon demand by the Trust or in connection with another registered offering of the securities. Many restricted securities may be resold in the secondary market in transactions exempt from registration. Such restricted securities may be determined to be liquid under criteria established by the Board of Trustees. The Trust will not incur any registration costs upon such resale.

### DELAYED DELIVERY SECURITIES

The Trust may trade securities on other than normal settlement terms, including securities purchased or sold on a "when-issued" basis. This may increase the risk if the other party to the transaction fails to deliver and causes the Trust to subsequently invest at less advantageous prices. The Trust identifies cash or liquid portfolio securities as segregated with the custodian in an amount equal to the delayed delivery commitment.

### INCOME RECOGNITION

Interest income is recorded on the accrual basis. Premium and discount are amortized and accreted, respectively, on all debt securities.

## Edgar Filing: COLONIAL MUNICIPAL INCOME TRUST - Form N-CSRS

### FEDERAL INCOME TAX STATUS

The Trust intends to qualify each year as a "regulated investment company" under Subchapter M of the Internal Revenue Code, as amended, and will distribute substantially all of its taxable or tax-exempt income, if any, for its tax year, and as such will not be subject to federal income taxes. In addition, the Trust intends to distribute in each calendar year substantially all of its net investment income, capital gains and certain other amounts, if any, such that the Trust should not be subject to federal excise tax. Therefore, no federal income or excise tax provision is recorded.

### DISTRIBUTIONS TO SHAREHOLDERS

Distributions to common shareholders are recorded on ex-date. Distributions to Auction Preferred shareholders are recorded daily and payable at the end of each dividend period. Each dividend payment period for the APS is generally seven days. The applicable dividend rate for the APS on May 31, 2004 was 1.07%. For the six months ended May 31, 2004, the Trust declared dividends to Auction Preferred shareholders amounting to \$448,647, representing an average APS dividend rate of 0.99%.

### NOTE 3. FEDERAL TAX INFORMATION

The tax character of distributions paid during the year ended November 30, 2003 was as follows:

Distributions paid from:

Tax-Exempt Income	\$12,778,538
Ordinary Income*	5,971
Long-Term Capital Gains	--

\* For tax purposes short-term capital gains distributions, if any, are considered ordinary income distributions.

Unrealized appreciation and depreciation at May 31, 2004, based on cost of investments for federal income tax purposes was:

Unrealized appreciation	\$ 10,329,357
Unrealized depreciation	(16,565,719)
	-----
Net unrealized depreciation	\$ (6,236,362)
	-----

The following capital loss carryforwards, determined as of November 30, 2003, may be available to reduce taxable income arising from future net realized gains on investments, if any, to the extent permitted by the Internal Revenue Code:

YEAR OF EXPIRATION	CAPITAL LOSS CARRYFORWARD
-----	-----
2004	\$ 4,074
2005	7,196,783
2007	3,490,821
2008	13,036,764
2009	3,114,307
2010	7,684,792
2011	4,393,912
	-----
	\$38,921,453
	-----

Expired capital loss carryforwards are recorded as a reduction of paid-in capital.

## Edgar Filing: COLONIAL MUNICIPAL INCOME TRUST - Form N-CSRS

### NOTES TO FINANCIAL STATEMENTS (CONTINUED)

May 31, 2004 (Unaudited)

#### NOTE 4. FEES AND COMPENSATION PAID TO AFFILIATES

Columbia Management Advisors, Inc. ("Columbia") is the investment advisor to the Trust. Prior to April 1, 2004, Columbia was an indirect, wholly owned subsidiary of FleetBoston Financial Corporation ("FleetBoston"). Effective April 1, 2004, FleetBoston, including the Trust's investment advisor, was acquired by Bank of America Corporation ("BOA"). The acquisition did not change the way the Trust is managed, the investment personnel assigned to manage the Trust or the fees paid by the Trust.

##### INVESTMENT ADVISORY FEE

Columbia provides administrative and other services to the Trust in addition to investment advisory services. Columbia receives a monthly investment advisory fee at the annual rate of 0.65% of the Trust's average weekly net assets, including assets applicable to the APS.

##### PRICING AND BOOKKEEPING FEES

Columbia is responsible for providing pricing and bookkeeping services to the Trust under a pricing and bookkeeping agreement. Under a separate agreement (the "Outsourcing Agreement"), Columbia has delegated those functions to State Street Corporation ("State Street"). As a result, Columbia pays the total fees received to State Street under the Outsourcing Agreement.

Under its pricing and bookkeeping agreement with the Trust, Columbia receives from the Trust an annual flat fee of \$10,000 paid monthly, and in any month that the Trust's average weekly net assets, including assets applicable to APS, exceed \$50 million, an additional monthly fee. The additional fee rate is calculated by taking into account the fees payable to State Street under the Outsourcing Agreement. This rate is applied to the average weekly net assets, including assets applicable to APS, of the Trust for that month. The Trust also pays additional fees for pricing services based on the number of securities held by the Trust. For the six months ended May 31, 2004, the Trust's annualized effective pricing and bookkeeping fee rate was 0.05%.

##### CUSTODY CREDITS

The Trust has an agreement with its custodian bank under which custody fees may be reduced by balance credits. The Trust could have invested a portion of the assets utilized in connection with the expense offset arrangement in an income-producing asset if it had not entered into such an agreement.

##### FEES PAID TO OFFICERS AND TRUSTEES

The Trust pays no compensation to its officers, all of whom are employees of Columbia or its affiliates.

The Trust's Trustees may participate in a deferred compensation plan which may be terminated at any time. Obligations of the plan will be paid solely out of the Trust's assets.

##### OTHER

Columbia provides certain services to the Trust related to Sarbanes-Oxley compliance. For the six months ended May 31, 2004, the Trust paid \$769 to Columbia for such services. This amount is included in "Other expenses" on the Statement of Operations.

#### NOTE 5. PORTFOLIO INFORMATION

## Edgar Filing: COLONIAL MUNICIPAL INCOME TRUST - Form N-CSRS

For the six months ended May 31, 2004, the cost of purchases and proceeds from sales of securities, excluding short-term obligations, were \$14,850,998 and \$17,839,823, respectively.

### NOTE 6. PREFERRED SHARES

The Trust currently has outstanding 3,600 APS. The APS are redeemable at the option of the Trust on any dividend payment date at the redemption price of \$25,000 per share, plus an amount equal to any dividends accumulated on a daily basis unpaid through the redemption date (whether or not such dividends have been declared).

Under the Act, the Trust is required to maintain asset coverage of at least 200% with respect to the APS as of the last business day of each month in which any APS are outstanding. Additionally, the Trust is required to meet more stringent asset coverage requirements under the terms of the APS Agreement and in accordance with the guidelines prescribed by the APS' rating agencies. Should these requirements not be met, or should dividends accrued on the APS not be paid, the Trust may be restricted in its ability to declare dividends to common shareholders or may be required to redeem certain APS. At May 31, 2004, there were no such restrictions on the Trust.

### NOTE 7. DISCLOSURE OF SIGNIFICANT RISKS AND CONTINGENCIES

#### GEOGRAPHIC CONCENTRATION

The Trust has greater than 5% of its total investments at May 31, 2004 invested in debt obligations issued by the states of California, Illinois, Massachusetts, New York, Pennsylvania, Texas and Washington and their respective political subdivisions, agencies and public authorities. The Trust is more susceptible to economic and political factors adversely affecting issuers of the specific state's municipal securities than are municipal bond funds that are not concentrated to the same extent in these issuers.

#### HIGH-YIELD SECURITIES

Investing in high-yield securities may involve greater credit risk and considerations not typically associated with investing in U.S. Government bonds and other higher quality fixed income securities. These securities are non-investment grade securities, often referred to as "junk bonds." Economic downturns may disrupt the high yield market and impair the ability of issuers to repay principal and interest. Also, an increase in interest rates would likely have an adverse impact on the value of such

19

### NOTES TO FINANCIAL STATEMENTS (CONTINUED)

May 31, 2004 (Unaudited)

obligations. Moreover, high-yield securities may be less liquid to the extent there is no established secondary market.

#### INDUSTRY FOCUS

The Trust may focus its investments in certain industries, subjecting it to greater risk than a fund that is more diversified.

#### ISSUER FOCUS

As a non-diversified fund, the Trust may invest a greater percentage of its total assets in the securities of fewer issuers than a diversified fund. The Trust may, therefore, have a greater risk of loss from a few issuers than a

## Edgar Filing: COLONIAL MUNICIPAL INCOME TRUST - Form N-CSRS

similar fund that invests more broadly.

### LEGAL PROCEEDINGS

Columbia and Columbia Funds Distributor, Inc. ("CFDI"), and certain of their affiliates (collectively, "the Columbia Group") have received information requests and subpoenas from various regulatory and law enforcement authorities in connection with their investigations of late trading and market timing in mutual funds, as well as other industry wide issues. The Columbia Group has not uncovered any instances where Columbia or CFDI were knowingly involved in late trading of mutual fund shares.

On February 24, 2004, the Securities and Exchange Commission ("SEC") filed a civil complaint in the United States District Court for the District of Massachusetts against Columbia and CFDI, alleging that they had violated certain provisions of the federal securities laws in connection with trading activity in mutual fund shares. Also on February 24, 2004, the New York Attorney General ("NYAG") filed a civil complaint in New York Supreme Court, County of New York against Columbia and CFDI alleging that Columbia and CFDI had violated certain New York anti-fraud statutes. If either Columbia or CFDI is unsuccessful in its defense of these proceedings, it could be barred from serving as an investment advisor or distributor for any investment company registered under the Investment Company Act of 1940, as amended (a "registered investment company"). Such results could prevent Columbia, CFDI or any company that is an affiliated person of Columbia and CFDI from serving as an investment advisor or distributor for any registered investment company, including your fund. Your fund has been informed by Columbia and CFDI that, if these results occur, they will seek exemptive relief from the SEC to permit them to continue to serve as your fund's investment advisor and distributor. There is no assurance that such exemptive relief will be granted. On March 15, 2004, Columbia and CFDI entered into agreements in principle with the SEC Division of Enforcement and NYAG in settlement of the charges. Under the agreements, Columbia and CFDI agreed, among other things, to the following conditions: payment of \$70 million in disgorgement; payment of \$70 million in civil penalties; an order requiring Columbia and CFDI to cease and desist from violations of the antifraud provisions and other provisions of the federal securities laws; governance changes designed to maintain the independence of the mutual fund boards of trustees and ensure compliance with securities laws and their fiduciary duties; and retention of an independent consultant to review Columbia's and CFDI's compliance policies and procedures. The agreement requires the final approval of the SEC. In a separate agreement with the NYAG, the Columbia Group has agreed to reduce mutual fund fees by \$80 million over a five-year period.

As a result of these matters or any adverse publicity or other developments resulting from them, there may be increased redemptions or reduced sales of fund shares, which could increase transaction costs or operating expenses, or have other adverse consequences for the funds.

In connection with the events described in detail above, various parties have filed suit against certain funds, their Boards and/or FleetBoston (and affiliated entities). These suits and certain regulatory investigations are ongoing. Accordingly, an estimate of the financial impact of this litigation on any fund, if any, cannot currently be made.

20

### FINANCIAL HIGHLIGHTS

### DIVIDEND REINVESTMENT PLAN

#### COLONIAL MUNICIPAL INCOME TRUST

Shareholders may elect to have all distributions of dividends and capital gains automatically reinvested by EquiServe Trust Company, N.A. (the "Plan Agent"), as agent under the Trust's Dividend Reinvestment and Cash Purchase Plan (the "Plan"). Pursuant to the Plan, the provisions of which are described below, shareholders not making such an election will receive all such amounts in cash paid by check mailed directly to the shareholder by the Plan Agent, as the dividend paying agent.

If the Trustees of the Trust declare a dividend or determine to make a capital gain distribution payable either in shares of the Trust or in cash, as shareholders may have elected, non-participants in the Plan will receive cash and participants in the Plan will receive the equivalent in shares of the Trust. If the market price of the shares on the payment date for the dividend or distribution is equal to or exceeds their net asset value, participants will be issued shares of the Trust at the higher of net asset value of 95% of the market price. If the net asset value exceeds the market price of Trust shares at such time, or if the Trust declares a dividend or other distribution payable only in cash, the Plan Agent will, as agent for Plan participants, buy Trust shares in the open market, on the New York Stock Exchange or elsewhere, for the participants' accounts. If, before the Plan Agent has completed its purchases, the market price exceeds the net asset value of the Trust's shares, the average per share purchase price paid by the Plan Agent may exceed the net asset value of the Trust's shares, resulting in the acquisition of fewer shares than if the dividend or distribution had been paid in shares issued by the Trust.

Participants in the Plan may withdraw from the Plan upon written notice to the Plan Agent. When a participant withdraws from the Plan or upon termination of the Plan as provided below, certificates for whole shares credited to the participant's account under the Plan will be issued and a cash payment will be made for any fraction of a share credited to such account.

Participants in the Plan have the option of making additional cash payments to the Plan Agent semi-annually, for investment in the Trust's shares. Such payments may be made in any amount from \$100 to \$500. State Street will use all funds received from participants (as well as any dividends and distributions received in cash) to purchase Trust shares in the open market semiannually. Interest will not be paid on any uninvested cash payments.

In the case of shareholders such as banks, brokers or nominees holding shares for others who are the beneficial owners of those shares, the Plan Agent will administer the Plan on the basis of the number of shares certified from time to time by the shareholder of record as representing the total amount registered in such shareholder's name and held for the account of beneficial owners who are to participate in the Plan.

There is no charge to Plan participants for reinvesting dividends or distributions. The Plan Agent's fees for the handling of the reinvestment of dividends and distributions will be paid by the Trust. There will be no brokerage charges with respect to shares issued directly by the Trust as a result of dividends or distributions payable either in stock or in cash.

## Edgar Filing: COLONIAL MUNICIPAL INCOME TRUST - Form N-CSRS

However, each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent's open market purchases in connection with the reinvestment of dividends or distributions as well as from voluntary cash payments. Brokerage charges for purchasing small amounts of stock for individual accounts under the voluntary cash purchase provisions of the Plan are expected to be less than the usual brokerage charges for individual transactions of comparable size, because the Plan Agent will be purchasing shares for all participants in blocks and charging to cash purchase Plan participants a pro rated portion of the lower commissions usually obtainable on such block purchases.

The automatic reinvestment of dividends and distributions will not relieve participants of any income tax that may be payable on such dividends or distributions.

The Plan may be amended or terminated on 30 days' written notice to the Plan participants. All correspondence concerning the Plan should be directed to EquiServe by mail at P.O. Box 403011, Providence, RI 02940-3011, or by phone at 1-800-426-5523.

P.O. Box 43010  
Providence, RI 02940-3010

The trust mails one shareholder report to each shareholder address. Shareholders can order additional reports by calling 800-730-6001. In addition, representatives at that number can provide shareholders information about the trust.

Financial advisors who want additional information about the trust may speak to a representative at 800-426-3750.

A description of the policies and procedures that the trust uses to determine how to vote proxies relating to its portfolio securities is available (i) without charge, upon request, by calling 800-730-6001 and (ii) on the Securities and Exchange Commission's website at <http://www.sec.gov>.

This report has been prepared for shareholders of Colonial Municipal Income Trust.

COLONIAL MUNICIPAL INCOME TRUST

SEMIANNUAL REPORT

101-03/056S-0504 (07/04) 04/1532

ITEM 2. CODE OF ETHICS.
