Chairman's
Letter to Shareholders

Once again, I am pleased to report that over the six-month period covered by this semiannual report your Fund continued to provide you with monthly tax-free income and an attractive total return. For more details about the management strategy and performance of your Fund, please see the Portfolio Managers' Comments and Performance Overview sections of this report.

As I noted in my last letter to you, our conversations with financial advisers and investors suggest that many of you may be wondering whether longer-term interest rates will soon begin to rise substantially, mirroring the rise that has taken place over the past year in shorter-term rates. If longer-term rates do begin to rise significantly, some of you also may be wondering if that makes this a good time to adjust your holdings of fixed-income investments. We can't answer these questions for you - no one knows what the future will bring.

"In fact, a well-diversified portfolio may actually help to reduce your overall investment risk."

From our experience, we do know that a well-balanced portfolio, structured and carefully monitored with the help of a trusted investment professional, can be an important component in helping you achieve your long-term financial goals. In fact, a well-diversified portfolio may actually help to reduce your overall investment risk. That is one reason why we believe that a municipal bond investment like your Nuveen Fund can be an important building block in a comprehensive investment program designed to perform well in a variety of market conditions.

As in past reports, I urge you to consider receiving future Fund reports and other Fund information by e-mail and the Internet. Not only will you be able to receive the information faster, but this also may help lower your Fund's expenses. Sign up is quick and easy - see the inside front cover of this report for instructions.

Some of you may have heard that in April, 2005, The St. Paul Travelers Companies, Inc., which owned 79% of Nuveen Investments, Inc. (the parent of your Fund's investment adviser) completed a public offering of a substantial portion of its equity stake in Nuveen. At the same time, St. Paul Travelers also entered into agreements to sell the balance of its shares in Nuveen to us or to others at a future date.

Edgar Filing: NUVEEN MUNICIPAL VALUE FUND INC - Form N-CSRS

These transactions will have no impact on the investment objectives or management of your Fund. However, taken as a whole they are considered to be an "assignment" of your Fund's investment management agreement. This means that you and your fellow Fund shareholders soon will be asked to formally approve the continuation of your Fund's management contract with Nuveen. We will be sending you more information about this process in the coming weeks.

At Nuveen Investments, our mission continues to be to assist you and your financial advisor by offering investment services and products that can help you to secure your financial objectives. We are grateful that you have chosen us as a partner as you pursue your financial goals, and we look forward to continuing to earn your trust in the months and years ahead.

Sincerely,

/s/ Timothy R. Schwertfeger

Nuveen Investments Municipal Closed-End Exchange-Traded Funds NUV, NMI

Portfolio Managers'
COMMENTS

Portfolio managers Tom Spalding and John Miller review key investment strategies and the semiannual performance of NUV and NMI. With 28 years of investment experience at Nuveen, Tom has managed NUV since its inception in 1987. John, who has 12 years of municipal market experience, including 9 years with Nuveen, assumed portfolio management responsibility for NMI in 2001.

WHAT KEY STRATEGIES WERE USED TO MANAGE THESE FUNDS DURING THE SIX MONTHS ENDED APRIL 30, 2005?

Between November 2004 and April 2005, the Federal Reserve introduced four quarter-point increases in the fed funds rate, raising this short-term rate benchmark from 1.75% to 2.75%. (On May 3, 2005, following the end of this reporting period, the Fed announced another 0.25% hike, bringing the fed funds rate to 3.00%.) Given these short-term rate increases, many market participants expected to see steadily higher interest rates across most of the municipal market yield curve as we moved through the reporting period. This did not occur, as longer-term yields (as measured by the widely-followed Bond Buyer 25 Revenue Municipal Bond Index) declined by 14 basis points during the six-month period. As a result, the municipal yield curve flattened.

In this environment, our focus for each of these Funds remained on a strategy we have employed for the past few years - finding and holding bonds that, in our judgment, would add immediate value to the Funds' portfolios and that could also perform well under a variety of future market scenarios.

As a result, our purchase activity during this period concentrated on bonds in the long-intermediate part of the yield curve, that is, bonds that mature in 20 years or more. In our opinion, this part of the municipal market yield curve often offered more attractive opportunities and better values than bonds with longer or shorter maturities.

Edgar Filing: NUVEEN MUNICIPAL VALUE FUND INC - Form N-CSRS

We also sought to keep the Funds fully invested. This was helped by the strong supply of municipal bonds during this reporting period. For the six months ended April 2005, municipal issuance nationwide totaled approximately \$187.7 billion, up 8.6% from the six months ended April 2004. One of the major drivers of the increased supply during this current period was a significant growth in the number of refundings, as issuers sought to take advantage of relatively low current interest rates.

Overall, the percentage of insured and higher credit quality securities that came to market during this period was greater than typically seen. As a result, many of our new purchases over this six-month period were bonds that were rated AAA or AA. Although the market provided fewer opportunities in the lower-rated investment-grade categories, we did seek to maintain or augment the Fund's holdings at this end of the quality spectrum when attractive securities were available. This generally benefited all the Funds, as lower-rated bonds often were among the best performers during this reporting

4

period. Many of these portfolio additions were made with the proceeds from sales of pre-refunded bonds, which tended to underperform in the interest rate environment of the past six months.

HOW DID THE FUNDS PERFORM?

Individual results for these Funds, as well as for a comparative index and average, are presented in the accompanying table.

TOTAL RETURNS ON NET ASSET VALUE*

For periods ended 4/30/05

	6-Month	1-Year	5-Year	10-Year
NUV	4.18%	9.94%	7.16%	6.17%
NMI	3.89%	9.68%	5.15%	5.44%
Lehman Brothers Municipal Bond Index(1)	1.93%	6.82%	7.04%	6.48%
Lipper General and Insured Unleveraged Municipal Debt Funds Average(2)	2.94%	7.96%	5.90%	5.92%

*Six-month returns are cumulative; returns for one year, five years, and ten years are annualized.

Past performance is not predictive of future results. Current performance may be higher or lower than the data shown. Returns do not reflect the deduction of taxes that shareholders may have to pay on Fund distributions or upon the sale of Fund shares.

Edgar Filing: NUVEEN MUNICIPAL VALUE FUND INC - Form N-CSRS

For the six months ended April 30, 2005, the cumulative returns on net asset value (NAV) for both NUV and NMI outperformed the return on the Lehman Brothers Municipal Bond Index. Both Funds also outperformed the average return for their Lipper peer group.

As noted, longer-term municipal market interest rates declined modestly over the course of this reporting period. As a result, many issuers found it economically feasible to pre-refund some of their outstanding municipal bonds. This led to an increase in escrowed and pre-refunded holdings in NUV, and the Fund's performance was boosted by the price appreciation and enhanced credit quality accompanying these developments. At the same time, we trimmed holdings of some other, older pre-refunded bonds in both NUV and NMI, because of their shorter effective maturities. Bonds with shorter effective maturities tend to underperform the general municipal market when bond prices stay flat or rise, like they did during this reporting period.

Both of the Funds also benefited from their allocations of lower quality bonds during this period, with bonds rated BBB and sub-investment grade bonds generally outperforming other credit quality sectors as the economy continued to expand. As of April 30, 2005, NUV held 21% of its portfolio in bonds rated BBB or lower and nonrated bonds, while

- (1) The Lehman Brothers Municipal Bond Index is an unleveraged, unmanaged national index comprising a broad range of investment-grade municipal bonds. Results for the Lehman index do not reflect any expenses.
- (2) The Lipper General and Insured Unleveraged Municipal Debt Funds category average is calculated using the returns of all closed-end exchange-traded funds in this category for each period as follows: 6 months, 8 funds; 1 year, 8 funds; 5 years, 8 funds; and 10 years, 8 funds. Fund and Lipper returns assume reinvestment of dividends.

5

NMI, which can invest up to 25% of its portfolio in below investment-grade quality bonds, held 39% of its portfolio in BBB rated securities and another 22% in sub-investment grade and nonrated bonds.

Among the lower-rated holdings making positive contributions to the Funds' cumulative six-month returns were hospital bonds, as the healthcare sector ranked second in overall performance among the Lehman municipal revenue sectors for the period. In addition, bonds backed by the 1998 master tobacco settlement agreement also produced solid returns during this period as the litigation environment improved and increased demand pushed prices higher. As of April 30, 2005, both NUV and NMI held approximately 5% of their portfolios in tobacco bonds.

During this reporting period, the selection of individual securities and assessment of the potential for credit improvement were just as important to overall performance as yield curve positioning and sector allocation. For example, NMI bought bonds issued by Piedmont Municipal Power Agency (South Carolina) and the Virgin Islands Matching Fund, both of which performed well for the Fund. Both Funds also saw appreciation in their airline holdings, as the airline industry generally was successful in increasing passenger loads and improving cost management. NUV continued to hold bonds issued for American Airlines and Continental Airlines, while NMI held a small position in Northwest Airlines, all of which were strong performers over the six month period. In NMI, we also saw good performance from our holding of bonds issued for the Joliet (Illinois) Regional Airport.

Edgar Filing: NUVEEN MUNICIPAL VALUE FUND INC - Form N-CSRS

HOW WERE THE FUNDS POSITIONED IN TERMS OF CREDIT QUALITY AND BOND CALLS AS OF APRIL 30, 2005?

Even though lower quality bonds performed well over this period, we continued to believe that in the current geopolitical and economic climate it was important to maintain strong credit quality. As of April 30, 2005, NUV held 67% of its portfolio in bonds rated AAA/U.S. guaranteed and AA. NMI held 27% of its portfolio in bonds rated AAA/U.S. guaranteed and AA, and 78% of NMI's portfolio was invested in investment-grade quality securities.

As of April 30, 2005, potential call exposure for the period May 2005 through the end of 2006 was 13% in NUV and 18% in NMI. These callable bonds generally had yields significantly higher than those available in the current marketplace, and we continued to hold many of these bonds to maintain this income-generating capability. The number of actual bond calls in both of these Funds over this period will depend largely on future market interest rates.

6

Dividend and Share Price INFORMATION

The dividends of both NUV and NMI remained stable during the six-month reporting period ended April 30, 2005.

In addition, due to capital gains generated by normal portfolio activity, common shareholders received capital gains and/or net ordinary income distributions at the end of December 2004 as follows:

	LONG-TERM CAPITAL GAINS (PER SHARE)	ORDINARY INCOME (PER SHARE)
NUV	\$ 0.0559	\$ 0.0063
NMI	\$ --	\$ 0.0002

Both of these Funds seek to pay stable dividends at rates that reflect each Fund's past results and projected future performance. During certain periods, each Fund may pay dividends at a rate that may be more or less than the amount of net investment income actually earned by the Fund during the period. If a Fund has cumulatively earned more than it has paid in dividends, it holds the excess in reserve as undistributed net investment income (UNII) as part of the Fund's net asset value (NAV). Conversely, if a Fund has cumulatively paid dividends in excess of its earnings, the excess constitutes negative UNII that is likewise reflected in the Fund's NAV. Each Fund will, over time, pay all of its net investment income as dividends to shareholders. As of April 30, 2005, both NUV and NMI had positive UNII balances for both financial statement and tax purposes.

At the end of the reporting period, the Funds' share prices were trading at discounts to their NAVs as shown in the accompanying chart:

	4/30/05 DISCOUNT	6-MONTH AVERAGE DISCOUNT

(1) Taxable-equivalent yield represents the yield that must be earned on a fully taxable investment in order to equal the yield of the Fund on an after-tax basis. It is based on a federal income tax rate of 28%. For investments that generate qualified dividend income, the taxable-equivalent yield is lower.

(2) The Fund also paid shareholders capital gains and net ordinary income distributions in December 2004 of \$0.0622 per share.

1. GENERAL INFORMATION AND SIGNIFICANT ACCOUNTING POLICIES

The funds (the "Funds") covered in this report and their corresponding New York Stock Exchange symbols are Nuveen Municipal Value Fund, Inc. (NUV) and Nuveen Municipal Income Fund, Inc. (NMI). The Funds are registered under the Investment Company Act of 1940, as amended, as closed-end, diversified management investment companies.

Each Fund seeks to provide current income exempt from regular federal income tax by investing primarily in a diversified portfolio of municipal obligations issued by state and local government authorities.

Effective January 1, 2005, Nuveen Advisory Corp. ("NAC"), the Funds' previous Adviser, and its affiliate, Nuveen Institutional Advisory Corp. ("NIAC"), were merged into Nuveen Asset Management ("NAM"), each wholly owned subsidiaries of Nuveen Investments, Inc. ("Nuveen"). As a result of the merger, NAM is now the Adviser to all funds previously advised by either NAC or NIAC.

The following is a summary of significant accounting policies followed by the Funds in the preparation of their financial statements in accordance with U.S. generally accepted accounting principles.

Investment Valuation

Edgar Filing: NUVEEN MUNICIPAL VALUE FUND INC - Form N-CSRS

The prices of municipal bonds in each Fund's investment portfolio are provided by a pricing service approved by the Fund's Board of Directors. When price quotes are not readily available (which is usually the case for municipal securities), the pricing service or, in the absence of a pricing service for a particular security, the Board of Directors of the Funds, or its designee, may establish fair market value using a wide variety of market data including yields or prices of municipal bonds of comparable quality, type of issue, coupon, maturity and rating, market quotes or indications of value from securities dealers, evaluations of anticipated cash flows or collateral, general market conditions and other information and analysis, including the obligor's credit characteristics considered relevant by the pricing service or the Board of Directors' designee. Temporary investments in securities that have variable rate and demand features qualifying them as short-term securities are valued at amortized cost, which approximates market value.

Securities Transactions

Securities transactions are recorded on a trade date basis. Realized gains and losses from transactions are determined on the specific identification method. Securities purchased on a when-issued or delayed delivery basis may have extended settlement periods. Any securities so purchased are subject to market fluctuation during this period. The Funds have instructed the custodian to segregate assets with a current value at least equal to the amount of the when-issued and delayed delivery purchase commitments. At April 30, 2005, Municipal Value (NUV) had an outstanding delayed delivery purchase commitment of \$3,727,700. There were no such outstanding purchase commitments in Municipal Income (NMI).

Investment Income

Interest income, which includes the amortization of premiums and accretion of discounts for financial reporting purposes, is recorded on an accrual basis. Investment income also includes paydown gains and losses, if any.

Income Taxes

Each Fund is a separate taxpayer for federal income tax purposes. Each Fund intends to distribute substantially all net investment income and net capital gains to shareholders and to otherwise comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies. Therefore, no federal income tax provision is required. Furthermore, each Fund intends to satisfy conditions which will enable interest from municipal securities, which is exempt from regular federal income tax, to retain such tax-exempt status when distributed to shareholders of the Funds. Net realized capital gains and ordinary income distributions paid by the Funds are subject to federal taxation.

29

Notes to

Financial Statements (Unaudited) (continued)

Dividends and Distributions to Shareholders

Dividends from tax-exempt net investment income are declared monthly. Net realized capital gains and/or market discount from investment transactions, if any, are distributed to shareholders not less frequently than annually. Furthermore, capital gains are distributed only to the extent they exceed available capital loss carryforwards.

Edgar Filing: NUVEEN MUNICIPAL VALUE FUND INC - Form N-CSRS

Distributions to shareholders of tax-exempt net investment income, net realized capital gains and/or market discount, if any, are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from U.S. generally accepted accounting principles.

Derivative Financial Instruments

The Funds may invest in certain derivative financial instruments including futures, forward, swap and option contracts, and other financial instruments with similar characteristics. Although the Funds are authorized to invest in such financial instruments, and may do so in the future, they did not make any such investments during the six months ended April 30, 2005.

Custodian Fee Credit

Each Fund has an arrangement with the custodian bank whereby certain custodian fees and expenses are reduced by credits earned on each Fund's cash on deposit with the bank. Such deposit arrangements are an alternative to overnight investments.

Indemnifications

Under the Funds' organizational documents, their Officers and Directors are indemnified against certain liabilities arising out of the performance of their duties to the Funds. In addition, in the normal course of business, the Funds enter into contracts that provide general indemnifications to other parties. The Funds' maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results may differ from those estimates.

2. FUND SHARES

Neither of the Funds engaged in transactions in their own shares during the six months ended April 30, 2005, nor during the fiscal year ended October 31, 2004.

3. SECURITIES TRANSACTIONS

Purchases and sales (including maturities) of investments in long-term municipal securities during the six months ended April 30, 2005, were as follows:

	MUNICIPAL VALUE (NUV)	MUNICIPAL INCOME (NMI)
Purchases	\$68,244,054	\$ 4,457,908
Sales and maturities	74,160,975	3,808,700

Edgar Filing: NUVEEN MUNICIPAL VALUE FUND INC - Form N-CSRS

4. INCOME TAX INFORMATION

The following information is presented on an income tax basis. Differences between amounts for financial statement and federal income tax purposes are primarily due to the treatment of paydown gains and losses on investments, timing differences in recognizing income on taxable market discount securities and timing differences in recognizing certain gains and losses on security transactions.

At April 30, 2005, the cost of investments was as follows:

	MUNICIPAL VALUE (NUV)	MUNICIPAL INCOME (NMI)
Cost of investments	\$1,814,350,222	\$ 82,315,729

Gross unrealized appreciation and gross unrealized depreciation of investments at April 30, 2005, were as follows:

	MUNICIPAL VALUE (NUV)	MUNICIPAL INCOME (NMI)
Gross unrealized:		
Appreciation	\$ 157,906,548	\$ 5,909,282
Depreciation	(8,292,778)	(235,471)
Net unrealized appreciation of investments	\$ 149,613,770	\$ 5,673,811

The tax components of undistributed net investment income and net realized gains at October 31, 2004, the Funds' last fiscal year end, were as follows:

	MUNICIPAL VALUE (NUV)	MUNICIPAL INCOME (NMI)
Undistributed net tax-exempt income *	\$7,163,417	\$152,721
Undistributed net ordinary income **	1,222,188	942
Undistributed net long-term capital gains	10,887,039	--

* Undistributed net tax-exempt income (on a tax basis) has not been reduced for the dividend declared on October 1, 2004, paid on November 1, 2004.

** Net ordinary income consists of taxable market discount income and net short-term capital gains, if any.

The tax character of distributions paid during the fiscal year ended October 31, 2004, the Funds' last fiscal year end, was designated for purposes of the dividends paid deduction as follows:

	MUNICIPAL VALUE (NUV)	MUNICIPAL INCOME (NMI)
Distributions from net tax-exempt income	\$92,800,716	\$4,324,697
Distributions from net ordinary income **	3,643,302	--
Distributions from net long-term capital gains	12,577,331	--

** Net ordinary income consists of taxable market discount income and net

Edgar Filing: NUVEEN MUNICIPAL VALUE FUND INC - Form N-CSRS

short-term capital gains, if any.

At October 31, 2004, the Funds' last fiscal year end, Municipal Income (NMI) had an unused capital loss carryforward of \$8,038,260, available to be applied against future capital gains, if any. If not applied, \$116,138, \$7,005,363 and \$916,759 of the carryforward will expire in the years 2008, 2011 and 2012, respectively.

5. MANAGEMENT FEES AND OTHER TRANSACTIONS WITH AFFILIATES

As approved by the Board of Directors, effective August 1, 2004, a complex-wide management fee structure was adopted for all funds sponsored by the Adviser, or its predecessor and its affiliates. This fee structure separates each fund's management fee into two components - a complex-level component, based on the aggregate amount of all fund assets managed by the Adviser, and a specific fund-level component, based only on the amount of assets within each individual fund. This pricing structure enables Nuveen fund shareholders to benefit from growth in the assets within each individual fund as well as from growth in the amount of complex-wide assets managed by the Adviser. Under no circumstances will this pricing structure result in a fund paying management fees at a rate higher than would otherwise have been applicable had the complex-wide management fee structure not been implemented. As of May 31, 2005, the complex-level fee rate was .1905%; that is, the funds' effective management fees were reduced by approximately .0095%.

31

Notes to
Financial Statements (Unaudited) (continued)

Effective August 1, 2004, Municipal Value's (NUV) annual fund-level fee, payable monthly, at the rates set forth below, which are based upon the average daily net assets of the Fund as follows:

AVERAGE DAILY NET ASSETS	MUNICIPAL VALUE (NUV) FUND-LEVEL FEE RATE
For the first \$500 million	.1500%
For the next \$500 million	.1250
For net assets over \$1 billion	.1000

In addition, Municipal Value (NUV) pays an annual management fee, payable monthly, based on gross interest income as follows:

GROSS INTEREST INCOME	MUNICIPAL VALUE (NUV) GROSS INCOME FEE RATE
For the first \$50 million	4.125%
For the next \$50 million	4.000
For gross income over \$100 million	3.875

Effective August 1, 2004, Municipal Income's (NMI) annual fund-level fee, payable monthly, at the rates set forth below, which are based upon the average daily net assets of the Fund as follows:

AVERAGE DAILY NET ASSETS	MUNICIPAL INCOME (NMI) FUND-LEVEL FEE RATE
--------------------------	---

Edgar Filing: NUVEEN MUNICIPAL VALUE FUND INC - Form N-CSRS

For the first \$125 million	.4500%
For the next \$125 million	.4375
For the next \$250 million	.4250
For the next \$500 million	.4125
For the next \$ 1 billion	.4000
For the next \$3 billion	.3875
For net assets over \$5 billion	.3750

Effective August 1, 2004, the annual complex-level fee, payable monthly, which is additive to the fund-level fee, for all Nuveen sponsored funds in the U.S., is based on the aggregate amount of total fund assets managed as follows:

COMPLEX-LEVEL ASSETS (1)	COMPLEX-LEVEL FEE RATE
For the first \$55 billion	.2000%
For the next \$1 billion	.1800
For the next \$1 billion	.1600
For the next \$3 billion	.1425
For the next \$3 billion	.1325
For the next \$3 billion	.1250
For the next \$5 billion	.1200
For the next \$5 billion	.1175
For the next \$15 billion	.1150
For Managed Assets over \$91 billion(2)	.1400

- (1) The complex-level fee component of the management fee for the funds is calculated based upon the aggregate Managed Assets ("Managed Assets" means the average daily net assets of each fund including assets attributable to all types of leverage used by the Nuveen funds) of Nuveen-sponsored funds in the U.S.
- (2) With respect to the complex-wide Managed Assets over \$91 billion, the fee rate or rates that will apply to such assets will be determined at a later date. In the unlikely event that complex-wide Managed Assets reach \$91 billion prior to a determination of the complex-level fee rate or rates to be applied to Managed Assets in excess of \$91 billion, the complex-level fee rate for such complex-wide Managed Assets shall be .1400% until such time as a different rate or rates is determined.

32

Municipal Value (NUV) paid through July 31, 2004, an annual management fee, payable monthly, at the rates set forth below, which were based upon the average daily net assets of the Fund as follows:

AVERAGE DAILY NET ASSETS	MUNICIPAL VALUE (NUV) MANAGEMENT FEE RATE
For the first \$500 million	.3500%
For the next \$500 million	.3250
For net assets over \$1 billion	.3000

In addition, Municipal Value (NUV) paid an annual management fee, payable monthly, based on gross interest income as follows:

GROSS INTEREST INCOME	MUNICIPAL VALUE (NUV) GROSS INCOME FEE RATE
-----------------------	--

Edgar Filing: NUVEEN MUNICIPAL VALUE FUND INC - Form N-CSRS

For the first \$50 million	4.125%
For the next \$50 million	4.000
For gross income over \$100 million	3.875

Municipal Income (NMI) paid through July 31, 2004, an annual management fee, payable monthly, at the rates set forth below, which were based upon the average daily net assets of the Fund as follows:

AVERAGE DAILY NET ASSETS	MUNICIPAL INCOME (NMI) MANAGEMENT FEE RATE
For the first \$125 million	.6500%
For the next \$125 million	.6375
For the next \$250 million	.6250
For the next \$500 million	.6125
For the next \$1 billion	.6000
For the next \$3 billion	.5875
For net assets over \$5 billion	.5750

The management fee compensates the Adviser for overall investment advisory and administrative services and general office facilities. The Funds pay no compensation directly to those of its Directors who are affiliated with the Adviser or to their officers, all of whom receive remuneration for their services to the Funds from the Adviser or its affiliates. The Board of Directors has adopted a deferred compensation plan for independent Directors that enables Directors to elect to defer receipt of all or a portion of the annual compensation they are entitled to receive from certain Nuveen advised Funds. Under the plan, deferred amounts are treated as though equal dollar amounts had been invested in shares of select Nuveen advised Funds.

6. ANNOUNCEMENT REGARDING PARENT COMPANY OF ADVISER

In early April, 2005, The St. Paul Travelers Companies, Inc. ("St. Paul Travelers"), which owned 79% of Nuveen, (A) completed a public offering of a substantial portion of its equity stake in Nuveen, (B) sold Nuveen \$200 million of its Nuveen shares, (C) entered into an agreement with Nuveen to sell an additional \$400 million of its Nuveen shares on a "forward" basis with payment for and settlement of these shares delayed for several months, and (D) entered into agreements with two unaffiliated investment banking firms to sell an amount equal to most or all of its remaining Nuveen shares for current payment but for future settlement. The settlement of transactions (C) and (D) above would likely be deemed an "assignment" (as defined in the 1940 Act) of the investment management agreements between the Funds and the Adviser, which would result in the automatic termination of each agreement under the 1940 Act. The Board of Directors will consider approval of new ongoing investment management agreements for each Fund and the submission of those agreements for approval by each respective Fund's shareholders. Those agreements, if approved by a Fund's shareholders, would take effect upon such approval. There can be no assurance that these approvals will be obtained.

+ Total Investment Return on Market Value is the combination of changes in the market price per share and the effect of reinvested dividend income and reinvested capital gains distributions, if any, at the average price paid per share at the time of reinvestment. Total Return on Net Asset Value is the combination of changes in net asset value, reinvested dividend income at net asset value and reinvested capital gains distributions at net asset value, if any. Total returns are not annualized.

Reinvest Automatically Easily and Conveniently

Nuveen makes reinvesting easy. A phone call is all it takes to set up your reinvestment account.

NUVEEN CLOSED-END EXCHANGE-TRADED FUNDS DIVIDEND REINVESTMENT PLAN

Your Nuveen Closed-End Exchange-Traded Fund allows you to conveniently reinvest dividends and/or capital gains distributions in additional fund shares.

By choosing to reinvest, you'll be able to invest money regularly and automatically, and watch your investment grow through the power of tax-free compounding. Just like dividends or distributions in cash, there may be times when income or capital gains taxes may be payable on dividends or distributions that are reinvested.

It is important to note that an automatic reinvestment plan does not ensure a profit, nor does it protect you against loss in a declining market.

EASY AND CONVENIENT

To make recordkeeping easy and convenient, each month you'll receive a statement showing your total dividends and distributions, the date of investment, the shares acquired and the price per share, and the total number of shares you own.

HOW SHARES ARE PURCHASED

The shares you acquire by reinvesting will either be purchased on the open market or newly issued by the Fund. If the shares are trading at or above net asset value at the time of valuation, the Fund will issue new shares at the then-current market price. If the shares are trading at less than net asset value, shares for your account will be purchased on the open market. Dividends and distributions received to purchase shares in the open market will normally be invested shortly after the dividend payment date. No interest will be paid on dividends and distributions awaiting reinvestment. Because the market price of the shares may increase before purchases are completed, the average purchase price per share may exceed the market price at the time of valuation, resulting in the acquisition of fewer shares than if the dividend or distribution had been paid in shares issued by the Fund. A pro rata portion of any applicable brokerage commissions on open market purchases will be paid by Plan participants. These commissions usually will be lower than those charged on

Edgar Filing: NUVEEN MUNICIPAL VALUE FUND INC - Form N-CSRS

individual transactions.

FLEXIBLE

You may change your distribution option or withdraw from the Plan at any time, should your needs or situation change. Should you withdraw, you can receive a certificate for all whole shares credited to your reinvestment account and cash payment for fractional shares, or cash payment for all reinvestment account shares, less brokerage commissions and a \$2.50 service fee.

You can reinvest whether your shares are registered in your name, or in the name of a brokerage firm, bank, or other nominee. Ask your investment advisor if his or her firm will participate on your behalf. Participants whose shares are registered in the name of one firm may not be able to transfer the shares to another firm and continue to participate in the Plan.

The Fund reserves the right to amend or terminate the Plan at any time. Although the Fund reserves the right to amend the Plan to include a service charge payable by the participants, there is no direct service charge to participants in the Plan at this time.

Other Useful Information

Effective Jan. 1, 2005, the asset management services and operations of Nuveen Advisory Corp. (NAC) and Nuveen Institutional Advisory Corp (NIAC) became part of Nuveen Asset Management (NAM). This internal consolidation is intended to simplify the delivery of services to the investment management clients of Nuveen Investments. It does not affect the investment objectives or portfolio management of any Fund.

QUARTERLY PORTFOLIO OF INVESTMENTS AND PROXY VOTING INFORMATION

Each Fund's (i) quarterly portfolio of investments, (ii) information regarding how the Funds voted proxies relating to portfolio securities held during the 12-month period ended June 30, 2004, and (iii) a description of the policies and procedures that the Funds used to determine how to vote proxies relating to portfolio securities are available without charge, upon request, by calling Nuveen Investments toll-free at (800) 257-8787 or on Nuveen's website at www.nuveen.com.

GLOSSARY OF TERMS USED IN THIS REPORT

AVERAGE ANNUAL TOTAL RETURN: This is a commonly used method to express an

Edgar Filing: NUVEEN MUNICIPAL VALUE FUND INC - Form N-CSRS

investment's performance over a particular, usually multi-year time period. It expresses the return that would have been necessary each year to equal the investment's actual cumulative performance (including change in NAV or market price and reinvested dividends and capital gains distributions, if any) over the time period being considered.

AVERAGE EFFECTIVE MATURITY: The average of all the maturities of the bonds in a Fund's portfolio, computed by weighting each maturity date (the date the security comes due) by the market value of the security. This figure does not account for the likelihood of prepayments or the exercise of call provisions.

MODIFIED DURATION: Duration is a measure of the expected period over which a bond's principal and interest will be paid, and consequently is a measure of the sensitivity of a bond's or bond Fund's value to changes when market interest rates change. Generally, the longer a bond's or Fund's duration, the more the price of the bond or Fund will change as interest rates change.

MARKET YIELD (ALSO KNOWN AS DIVIDEND YIELD OR CURRENT YIELD): An investment's current annualized dividend divided by its current market price.

NET ASSET VALUE (NAV): A Fund's common share NAV per share is calculated by subtracting the liabilities of the Fund (including any MuniPreferred shares issued in order to leverage the Fund) from its total assets and then dividing the remainder by the number of shares outstanding. Fund NAVs are calculated at the end of each business day.

TAXABLE-EQUIVALENT YIELD: The yield necessary from a fully taxable investment to equal, on an after-tax basis, the yield of a municipal bond investment.
