THE VALSPAR CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

JULY 27, 2012

DOLLARS IN THOUSANDS, EXCEPT PER SHARE AMOUNTS

NOTE 1: BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements of The Valspar Corporation have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles (GAAP) for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the quarter ended July 27, 2012 are not necessarily indicative of the results that may be expected for the year ending October 26, 2012.

Certain amounts in the 2011 financial statements have been reclassified to conform to the 2012 presentation. Such reclassifications had no effect on net income or stockholders' equity as previously reported.

The Condensed Consolidated Balance Sheet at October 28, 2011 has been derived from the audited consolidated financial statements at that date but does not include all of the information and footnotes required by GAAP for complete financial statements.

For further information, refer to the consolidated financial statements and footnotes thereto included in our annual report on Form 10-K for the year ended October 28, 2011.

NOTE 2: ACCOUNTS PAYABLE

Trade accounts payable includes \$38,289 at July 27, 2012, \$42,502 at October 28, 2011 and \$35,343 at July 29, 2011, of issued checks that had not cleared our bank accounts.

NOTE 3: ACQUISITIONS AND DIVESTITURES

In February 2011, we acquired Isocoat Tintas e Vernizes Ltda. (Isocoat), a Brazilian powder coatings business serving customers in Brazil, Argentina and Colombia. The acquisition strengthened our manufacturing, marketing and distribution in a growing region. Isocoat had 2010 sales of approximately \$35,000. The acquisition was recorded at fair value in the second quarter of fiscal year 2011. The purchase price allocation was completed in the third quarter of fiscal year 2011. Accordingly, the net assets and operating results are included in our financial statements from the date of acquisition.

In September 2010, we acquired all the outstanding shares of Australian paint manufacturer Wattyl Limited for approximately AUD 142,000 and assumed Wattyl's existing debt. The acquisition was paid for primarily through the use of existing cash and cash equivalents. Wattyl's fiscal year 2010 net sales were approximately AUD 386,500. Wattyl distributes leading paint brands through company-owned stores, independent dealers, hardware chains and home centers. The acquisition was recorded at fair value in the fourth quarter of fiscal year 2010. The purchase price allocation was completed in the first quarter of fiscal year 2011. Accordingly, the net assets and operating results are included in our financial statements from the date of acquisition.

Pro forma results of operations for the acquisitions noted above have not been presented, as they were immaterial to the reported results on an individual and combined basis.

NOTE 4: INVENTORIES

The major classes of inventories consist of the following:

	July 27, 2012	October 28, 2011	July 29, 2011
Manufactured products	\$218,208	\$189,754	\$249,958

Accumulated Other Comprehensive Income (Loss)	\$48,667	\$62,779	\$146,039

NOTE 6: GOODWILL AND OTHER INTANGIBLE ASSETS

The carrying amount of goodwill as of July 27, 2012 is \$1,050,942, a decrease of \$7,064 from the end of fiscal year 2011. The decrease is due to foreign currency translation.

Total intangible asset amortization expense for the nine months ended July 27, 2012 was \$4,939, compared to \$5,711 for the same period last year. Estimated amortization expense for each of the five succeeding fiscal years based on the intangible assets as of July 27, 2012 is expected to be approximately \$7,000 annually.

NOTE 7: SEGMENT INFORMATION

Based on the nature of our products, technology, manufacturing processes, customers and regulatory environment, we aggregate our operating segments into two reportable segments: Coatings and Paints. We are required to report segment information in the same way that management internally organizes its business for assessing performance and making decisions regarding allocation of resources. We evaluate the performance of operating segments and allocate resources based on profit or loss from operations before interest expense and taxes (EBIT).

The Coatings segment aggregates our industrial and packaging product lines. Industrial products include a broad range of decorative and protective coatings for metal, wood and plastic. Packaging products include both interior and exterior coatings used in metal packaging containers, principally food containers and beverage cans. The products of this segment are sold throughout the world.

The Paints segment aggregates our consumer paints and automotive refinish product lines. Consumer paint products include interior and exterior decorative paints, stains, primers, varnishes, high performance floor paints and specialty decorative products, such as enamels, aerosols and faux varnishes primarily distributed for the do-it-yourself and professional markets in Australia, China and North America. Automotive paint products include refinish paints and aerosol spray paints sold through automotive refinish distributors, body shops and automotive supply distributors and retailers.

Our remaining activities are included in All Other. These activities include specialty polymers and colorants that are used internally and sold to other coatings manufacturers, as well as gelcoats and related products and furniture protection plans. In the third quarter of fiscal year 2012, we announced the exit of our gelcoat product line as part of our restructuring initiatives. Also included within All Other are our corporate administrative expenses. The administrative expenses include amortization expense, certain environmental-related expenses and other expenses not directly allocated to any other operating segment.

It is not practicable to obtain the information needed to disclose revenues attributable to each of our identified product lines within our reportable segments.

NOTE 8: DERIVATIVE FINANCIAL INSTRUMENTS

We use derivative financial instruments to manage well-defined interest rate and foreign currency exchange risks. We enter into derivative financial instruments with high-credit-quality counterparties and diversify our positions among

such counterparties to reduce our exposure to credit losses. We do not have any credit-risk-related contingent features in our derivative contracts as of July 27, 2012.

At July 27, 2012, we had \$3,249 and \$2,786 notional amount of foreign currency contracts that mature during fiscal year 2012 and 2013, respectively. These foreign currency contracts have been designated as cash flow hedges with unrealized gains or losses recorded in accumulated other comprehensive income (loss). Realized gains and losses were recognized in other expense (income) when they occurred. At July 29, 2011, we had \$3,249 and \$6,432 notional amount of foreign currency contracts that matured in fiscal year 2011 and 2012, respectively. There was no material ineffectiveness related to these hedges during the quarter or year-to-date periods ended July 27, 2012 or July 29, 2011.

At July 27, 2012, we had no treasury lock contracts in place. During the first quarter of 2012, we settled \$200,000 notional amount of treasury lock contracts as a result of issuing \$400,000 of Senior Notes, yielding a pretax loss of \$27,875. This loss was recognized net of tax, in accumulated other comprehensive income in the first quarter of fiscal year 2012. The accumulated other comprehensive income amount in our Condensed Consolidated Balance Sheets as of July 27, 2012 represents the unamortized gains and losses, net of tax, from our settled contracts. Unamortized gains and losses are reclassified ratably to interest expense in our Condensed Consolidated Statements of Operations over the term of the related debt. At July 29, 2011, we had \$200,000 notional amount of treasury locks to hedge, or lock-in, interest rates on anticipated long-term debt issuances. We designated the treasury locks as cash flow hedges with unrealized gains and losses recorded, net of tax, to accumulated other comprehensive income. The accumulated other comprehensive income amount in our Condensed Consolidated Balance Sheet as of July 29, 2011 represents the unrealized gains and losses, net of tax, from our current contracts and unamortized net gains, net of tax, from our settled contracts. There was no material ineffectiveness related to these hedges for the 2012 and 2011 fiscal periods.

JULY 27, 2012

DOLLARS IN THOUSANDS, EXCEPT PER SHARE AMOUNTS

At July 27, 2012 and July 29, 2011, we had no interest rate derivative contracts. We had \$50,000 notional amount of interest rate derivative contracts that matured in the second quarter of 2011. These contracts were designated as cash flow hedges, to pay fixed rates of interest and receive a floating interest rate based on LIBOR. Prior to maturity, the interest rate derivative contracts were reflected at fair value in the Condensed Consolidated Balance Sheets. Unrealized gains and losses were recorded in accumulated other comprehensive income (loss). Amounts to be received or paid under the contracts are recognized as interest expense over the life of the contracts.

Our derivative assets and liabilities subject to fair value measurement disclosures are the following:

	Fair Value at July 27, 2012 Level 2 ¹	Fair Value at October 28, 2011 Level 2 ¹	Fair Value at July 29, 2011 Level 2 ¹

Treasury lock contracts	—	20,005	8,489
Total Liabilities	\$ —	\$20,005	\$8,764

Edgar Filing: VALSPAR CORP - Form 10-Q

The fair value is calculated as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). Our derivative financial instruments are categorized as Level 2 assets or liabilities as they have observable inputs based on quoted prices for similar assets and liabilities in active markets, or quoted prices for identical assets and liabilities in inactive markets. The fair market value was estimated using market data for the components of the derivatives financial instruments. See Note 1 in Notes to Consolidated Financial Statements in our Form 10-K for more information on fair value measurements. There were no transfers of derivative financial instruments between Level 1 and Level 2 of the fair value hierarchy as of July 27, 2012, October 28, 2011 or July 29, 2011.

Derivative gains (losses) recognized in AOCI² and on the Condensed Consolidated Statements of Operations for the three and nine-month periods ended July 27, 2012 and July 29, 2011, respectively, are as follows:

NOTE 9: DEBT AND MONEY MARKET SECURITIES

Edgar Filing: VALSPAR CORP - Form 10-Q

The tables below summarize the carrying value and fair market value of our outstanding debt. The fair market value of our publicly traded debt is based on observable market prices. Our publicly traded debt is classified as Level 1 within the fair value hierarchy as it has observable inputs based on quoted prices (unadjusted) in active markets for identical liabilities. The fair market value of our non-publicly traded debt was estimated using a discounted cash flow analysis based on our current borrowing costs for debt with similar maturities. The carrying values approximate the fair values for our outstanding commercial paper as the maturities are less than three months. Our non-publicly traded debt is classified as Level 2 within the fair value hierarchy as it has observable inputs based on quoted prices for similar liabilities in active markets, or quoted prices for identical liabilities in inactive markets. See Note 1 in Notes to Consolidated Financial Statements in our Form 10-K for more information on fair value measurements. We did not elect the option to report our debt at fair value in our Condensed Consolidated Balance Sheets.

Our non-publicly traded debt consists of the following:

	July 27, 2012	October 28, 2011	July 29, 2011
Commercial paper	\$ 110,980	\$ 153,955	\$ 255,907
Credit facility borrowings	44,364	74,827	83,793
Industrial development bonds	12,502	12,502	12,502
Uncommitted borrowings	5,102	15,840	12,632
Total Non-publicly Traded Debt	\$ 172,948	\$ 257,124	\$ 364,834

In the first quarter of 2012, we issued \$400,000 of unsecured Senior Notes that mature on January 15, 2022 with a coupon rate of 4.20%. The net proceeds were \$396,816. The public offering was made pursuant to a registration statement filed with the U.S. Securities and Exchange Commission. We used the net proceeds for general corporate purposes, including paying down our commercial paper borrowings and retiring our \$200,000 of 5.625% Senior Notes that matured on May 1, 2012.

Our credit facilities have covenants that require us to maintain certain financial ratios. We were in compliance with these covenants as of July 27, 2012. Our debt covenants do not limit, nor are they reasonably likely to limit, our ability to obtain additional debt or equity financing.

To ensure availability of funds, we maintain uncommitted bank lines of credit sufficient to cover outstanding short-term borrowings. These arrangements are reviewed periodically for renewal and modification.

We invest in short-term securities, including money market funds, with high-credit quality financial institutions and diversify our holdings among such financial institutions to reduce our exposure to credit losses. The fair values of our short-term securities are \$73,743, \$34,114 and \$18,042 as of July 27, 2012, October 28, 2011 and July 29, 2011, respectively. The short-term securities are included in our cash and cash equivalents and restricted cash balances with the carrying values approximating the fair values as the maturities are less than three months. These assets are classified as Level 1 inputs under the fair value hierarchy as the fair value is determined using observable inputs based on quoted prices (unadjusted) in active markets for identical assets or liabilities. See Note 1 in Notes to Consolidated Financial Statements in our Form 10-K for more information on fair value measurements. There were no transfers of short-term securities between Level 1 and Level 2 of the fair value hierarchy as of July 27, 2012, October 28, 2011 or July 29, 2011.

Restricted cash represents cash that is restricted from withdrawal. As of July 27, 2012, October 28, 2011 and July 29, 2011, we had restricted cash of \$19,828, \$20,378 and \$21,062, respectively. The restricted cash primarily serves as collateral for our liability insurance programs.

NOTE 10: GUARANTEES AND CONTRACTUAL OBLIGATIONS

We are required to disclose information about certain guarantees and contractual obligations in our periodic financial statements.

We sell extended furniture protection plans and offer warranties for certain products. Revenue related to furniture protection plans is deferred and recognized over the contract life. Historical claims data is used to forecast claims payments over the contract period and revenue is recognized based on the forecasted claims payments. Actual claims costs are reflected in earnings in the period incurred. Anticipated losses on programs in progress are charged to earnings when identified. For product warranties, we estimate the costs that may be incurred under these warranties based on historical claims data and record a liability in the amount of such costs at the time revenue is recognized.

We periodically assess the adequacy of these recorded amounts and adjust as necessary. Provisions for estimated losses on uncompleted contracts are made in the period in which such losses can be estimated. The extended furniture protection plans that we enter into have fixed prices. To the extent the actual costs to complete contracts are higher than the amounts estimated as of the date of the financial statements, gross margin would be negatively affected in future quarters when we revise our estimates. Our practice is to revise estimates as soon as such changes in estimates become known.

NOTE 12: PENSIONS AND OTHER POSTRETIREMENT BENEFITS

We sponsor a number of defined benefit pension plans for certain hourly and salaried employees. The benefits for most of these plans are generally based on stated amounts for each year of service. We fund the plans in amounts consistent with the limits of allowable tax deductions.

The net periodic benefit cost of the pension benefits is as follows:

NOTE 13: INCOME TAXES

At October 28, 2011, we had a \$12,948 liability recorded for gross unrecognized tax benefits (excluding interest and penalties). Of this total, \$12,203 represents the amount of unrecognized tax benefits that, if recognized, would affect the effective tax rate.

We recognize interest and penalties related to unrecognized tax benefits in income tax expense. As of October 28, 2011, we had accrued approximately \$4,620 of interest and penalties relating to unrecognized tax benefits.

During the first quarter of fiscal year 2012, we recorded a \$3,600 benefit to income tax expense related to an increase in the tax basis of assets for a foreign subsidiary. In the same period of fiscal year 2011, we recorded a \$1,250 benefit to income tax expense for the retroactive extension of the U.S. federal research and development tax credit. There were no material adjustments to our recorded liability for unrecognized tax benefits during the second or third quarters of fiscal year 2012 or 2011.

The company and its subsidiaries file income tax returns in the U.S. federal jurisdiction, and numerous state and foreign jurisdictions. With few exceptions, we are no longer subject to U.S. federal, state and local, or non-U.S. income tax examinations by tax authorities for years before 2006. The IRS is currently auditing our fiscal 2009 and 2010 U.S. federal tax returns. We are currently under audit in several state and foreign jurisdictions. We also expect various statutes of limitation to expire during the next 12 months. Due to the uncertain response of taxing authorities, a range of outcomes cannot be reasonably estimated at this time.

NOTE 14: RESTRUCTURING

During the 2011 fiscal year, we initiated restructuring actions in our Coatings segment, primarily in our wood product line, which further rationalized our manufacturing capacity and reduced our overall global headcount. We also initiated restructuring actions to improve the profitability of our Australian acquisition in our Paints segment, which include facility consolidations in manufacturing and distribution, store rationalization and other related costs. In the third quarter of 2012, we announced the exit of our gelcoat product line, categorized in All Other, and the consolidation of a manufacturing facility in our Paints segment. These restructuring activities resulted in pre-tax charges of \$6,864 or \$0.05 per share after tax and \$16,379 or \$0.12 per share after tax for the three and nine-month periods ended July 27, 2012, respectively. Pre-tax restructuring charges were \$14,333 or \$0.10 per share after tax and \$15,696 or \$0.12 per share after tax for the three and nine-month periods ended July 29, 2011, respectively. The restructuring charges for these initiatives for the full year 2011 were \$0.24 per share after tax. We expect the total cost of these activities, which began in fiscal year 2011 and are anticipated to be completed in fiscal year 2012, to be

approximately \$0.40 - \$0.42 per share after tax.

In fiscal year 2008, we initiated a comprehensive series of restructuring activities that were completed in fiscal year 2011. These restructuring initiatives included plant closures, reductions to research and development and selling, general and administrative expenses, manufacturing consolidation and relocation, and our exit from non-strategic product lines in certain geographies. We rationalized our manufacturing capacity and reduced our overall global headcount to lower our costs in light of the challenging global economic conditions. Pre-tax restructuring charges for these initiatives were \$1,346 or \$0.01 per share after tax for the nine-month period ended July 29, 2011. Our total restructuring activities for the nine-months ended July 29, 2011 was \$17,042 or \$0.12 per share after tax.

The total resulting expenses recognized in fiscal year 2012 and 2011 included severance and employee benefits, asset impairments, professional services and site clean-up.

Weighted-average common shares outstanding – basic	90,601,291	93,063,614	91,843,596	94,788,124
Diluted effect of stock options and unvested restricted stock	2,971,914	2,787,597	2,931,840	2,882,383
Equivalent average common shares outstanding - diluted	93,573,205	95,851,211	94,775,436	97,670,507
Net Income per Common Share - Diluted	\$0.92	\$ 0.70	\$2.31	\$1.61

Basic earnings per share are based on the weighted-average number of common shares outstanding during each period. In computing diluted earnings per share, the number of common shares outstanding is increased by common stock options with exercise prices lower than the average market prices of common shares during each period and reduced by the number of shares assumed to have been purchased with proceeds from the exercised options. Potential common shares of 59,430 and 29,450 related to our outstanding stock options were excluded from the computation of diluted earnings per share for the three and nine months ended July 27, 2012, respectively, as inclusion of these shares

would have been antidilutive. Potential common shares of 253,658 and 285,839 related to our outstanding stock options were excluded from the computation of diluted earnings per share for the three and nine months ended July 29, 2011, respectively.

NOTE 16: RECENTLY ISSUED ACCOUNTING STANDARDS

In May 2011, the Financial Accounting Standards Board (“FASB”) amended the guidance on fair value measurement to expand certain disclosure requirements and converge United States Generally Accepted Accounting Principles (GAAP) and International Financial Reporting Standards (IFRS) measurement and reporting requirements. The change was effective for interim and annual periods beginning after December 15, 2011 and was to be applied prospectively. We adopted the new requirements in the second quarter of our 2012 fiscal year. The adoption of this accounting guidance did not have a material effect on our consolidated financial statements.

In June 2011, the FASB updated the disclosure requirements for comprehensive income. The update requires companies to disclose total comprehensive income, the components of net income and the components of other comprehensive income, either in a single continuous statement of comprehensive income or in two separate but consecutive statements. The change is effective for fiscal years, and interim periods within those years, beginning after December 15, 2011, which means the first quarter of our fiscal year 2013, and is to be applied retrospectively. We do not expect the adoption of these updated disclosure requirements to have an effect on our consolidated results of operations, financial condition or liquidity.

In September 2011, the FASB amended the guidance on goodwill impairment testing to allow companies the option of first assessing qualitative factors to determine whether the two-step impairment test is required. If it is more likely than not that the fair value of a reporting unit is less than its carrying value, the two-step impairment test must be performed. Otherwise, the two-step impairment test is not necessary. The change is effective for fiscal years beginning after December 15, 2011, which is our fiscal year 2013, but early adoption is permitted. We do not expect the adoption of this accounting guidance to have an effect on our consolidated financial statements.

In July 2012, the FASB amended the guidance on indefinite-lived intangible asset impairment testing to allow companies the option to first perform a qualitative assessment to determine whether it is more likely than not that an indefinite-lived intangible asset is impaired. If a company determines that it is more likely than not that the fair value of such an asset exceeds its carrying amount, it would not need to calculate the fair value of the asset in that year. However, if a company concludes otherwise, it must calculate the fair value of the asset, compare that value with its carrying value and record an impairment charge if the carrying value exceeds the fair value of the asset. The change is effective for fiscal years beginning after September 15, 2012, which is our fiscal year 2013, but early adoption is permitted. We do not expect the adoption of this accounting guidance to have an effect on our consolidated financial statements.

ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

DOLLARS IN THOUSANDS, EXCEPT PER SHARE AMOUNTS

Overview: Net sales growth for the third quarter of 2012 was driven by carryover selling price increases across all product lines and solid new business gains in our Coatings segment. The increase was partially offset by volume declines due to uneven demand in our global markets and our decision to exit a small number of relatively high volume, unprofitable products and customers as part of our restructuring actions initiated in fiscal year 2011 and negative foreign currency exchange. Net income increased by 28.2% as we continued to benefit from previous pricing actions put in place to offset raw material inflation, productivity improvements, including savings from our previously completed restructuring actions, and new business, which offset volume declines due to market softness and the impact of a higher tax rate.

In the third quarter of 2012, we continued to experience sequential raw material cost increases. We expect the trend of rising raw material costs to moderate in the fourth quarter of 2012, but the raw material market remains volatile.

Weighted average common shares outstanding – diluted for the third quarter of 2012 were 93,573,205, down 2,278,006 from the same period in the prior year. During the quarter, we repurchased 1,192,800 shares for \$57,612. Year-to-date, we have repurchased 4,442,800 shares and can purchase an additional 3,807,200 shares under our current authorization.

We continually evaluate our cost structure in the normal course of our business. In the third quarter of 2012, we announced the exit of our gelcoat product line, categorized in All Other, and the consolidation of a manufacturing facility in our Paints segment. In the prior year, we initiated restructuring actions in our Coatings segment, primarily in our wood product line, which further rationalized our manufacturing capacity and reduced our overall global headcount. We also initiated restructuring actions to improve the profitability of our Australian acquisition in the Paints segment, which include facility consolidations in manufacturing and distribution, store rationalization and other related costs. We anticipate all of these activities to be completed in fiscal year 2012 and expect the total cost to be approximately \$0.40 - \$0.42 per share after tax, which includes \$0.24 per share in after tax charges incurred in fiscal year 2011. The restructuring activities in the third quarter and year-to-date periods resulted in pre-tax charges of \$6,864 or \$0.05 per share after tax and \$16,379 or \$0.12 per share after tax, respectively.

Edgar Filing: VALSPAR CORP - Form 10-Q

In January 2012, we strengthened our balance sheet by issuing \$400,000 of Senior Notes due January 15, 2022 with a coupon rate of 4.20%. We used the net proceeds for general corporate purposes, including paying down our commercial paper and retiring our \$200,000 of 5.625% Senior Notes that matured on May 1, 2012.

Earnings Per Share: Net income per common share - diluted was \$0.92 and \$2.31 for the three and nine-month periods ended July 27, 2012, respectively, and \$0.70 and \$1.61 for the three and nine-month periods ended July 29, 2011, respectively. The table below presents adjusted net income per common share – diluted, which excludes in the respective periods: (i) restructuring charges and (ii) acquisition-related charges.

	Three Months Ended		Nine Months Ended	
	July 27, 2012	July 29, 2011	July 27, 2012	July 29, 2011
Net income per common share - diluted	\$0.92	\$ 0.70	\$2.31	\$ 1.61
Restructuring charges	0.05	0.10	0.12	0.12
Acquisition-related charges	—	—	—	0.09
Adjusted net income per common share - diluted	\$0.97	\$ 0.80	\$2.43	\$ 1.82

“Adjusted net income per common share – diluted” is a non-GAAP financial measure. We disclose this measure because we believe it may assist investors in comparing our results of operations without regard to restructuring and/or acquisition-related charges. The acquisition-related charges are primarily related to the step-up of inventory from our Australian acquisition in the Paints segment to fair value. This non-GAAP measure is provided to enhance investors’ overall understanding of our current financial performance. We believe the non-GAAP measure provides useful information to both management and investors by excluding certain expenses and non-cash charges, which may not be indicative of our core operating results. In addition, because we have historically reported certain non-GAAP results to investors, we believe the inclusion of this non-GAAP measure provides consistency in our presentation of financial information. See Note 14 in Notes to Condensed Consolidated Financial Statements for further information on restructuring.

Critical Accounting Policies: In the third quarter of fiscal year 2012, there were no material changes in our critical accounting policies.

Consolidated Net Sales – Adjusting for the negative impact of 2.6% from foreign currency, sales for the third quarter of 2012 increased 3.3%. Adjusting for the negative impact of 0.9% from foreign currency, year-to-date sales increased 4.0%. The increase in sales was primarily due to carryover selling price increases in all product lines and net new business in our Coatings segment. The increase was partially offset by volume declines caused by uneven demand in our global markets.

- **Coatings Segment Net Sales** – Adjusting for the negative impact of 3.6% from foreign currency, sales for the third quarter of 2012 increased 5.2%. Adjusting for the negative impact of 1.8% from foreign currency and a positive impact of 1.1% from acquisitions, year-to-date sales increased 5.9%. The increase in sales for the third quarter and year-to-date periods was primarily due to carryover selling price increases and net new business in all product lines, which includes the exit of a small number of relatively high volume, unprofitable products and customers as part of our restructuring actions initiated in fiscal year 2011. The increase was partially offset by volume declines caused by uneven market conditions.

Paints Segment Net Sales – Adjusting for the negative impact of 1.6% from foreign currency, sales for the third quarter of 2012 increased 1.8%. Adjusting for the positive impact of 0.3% from foreign currency, year-to-date sales increased 0.8%. The increase in third quarter sales reflects volume increases in North

- America, partially offset by volume declines due to a weak residential housing market and lost business in Australia. The slight increase in year-to-date sales was primarily due to carryover selling price increases in all product lines and volume growth in our China consumer paints product line, which offset lower volumes in Australia due to market softness and lost business.
- **All Other Net Sales** – The All Other category includes the following product lines: resins, furniture protection plans, colorants and gelcoats. Adjusting for the negative impact of 1.2% from foreign currency, sales for the third quarter of 2012 decreased 1.9%. Adjusting for the negative impact of 0.7% from foreign currency, year-to-date sales increased 0.4%. The decrease in sales for the third quarter was primarily due to

lower sales in our gelcoat product line.

Due to the seasonal nature of portions of our business, sales for the third quarter are not necessarily indicative of sales for subsequent quarters or for the full year.

<u>Gross Profit</u>	Three Months Ended		Nine Months Ended

As a percent of Net Sales	33.8 %	30.3 %	33.8 %	30.9 %

Gross Profit – Third quarter gross profit as a percentage of net sales increased due to our carryover selling price increases, new business at higher average gross margins and productivity improvements, including savings from our previously completed restructuring actions. Year-to-date gross profit as a percentage of net sales increased due to our carryover selling price increases, productivity improvements, including savings from our previously completed restructuring actions, new business at higher average gross margins and acquisition-related charges recognized in 2011. The year-to-date increase was partially offset by higher raw material costs. There were no acquisition-related charges included in gross profit in the third quarter and year-to-date periods of 2012 and the third quarter of 2011. Acquisition-related charges were \$11,416 or 0.4% of net sales in the year-to-date period of 2011. Restructuring charges of \$4,312 or 0.4% of net sales and \$8,972 or 0.3% of net sales were included in the third quarter and year-to-date periods of 2012, respectively. Restructuring charges of \$12,224 or 1.1% of net sales and \$14,149 or 0.5% of net sales were included in the third quarter and year-to-date periods of 2011, respectively.

We evaluate the performance of operating segments and allocate resources based on profit or loss from operations before interest expense and taxes (EBIT).

Consolidated EBIT – EBIT for the third quarter of 2012 increased \$33,286 or 30.2% from the prior year. Year-to-date EBIT increased \$92,468 or 33.9% from the prior year. Restructuring charges of \$6,864 or 0.6% of net sales and \$16,379 or 0.5% of net sales were included in third quarter and year-to-date periods of 2012, respectively. Restructuring charges of \$14,184 or 1.3% of net sales and \$17,042 or 0.6% of net sales were included in third quarter and year-to-date periods of 2011, respectively. There were no acquisition-related charges in the third quarter and year-to-date periods of 2012 and the third quarter of 2011. The 2011 year-to-date period included acquisition-related charges of \$13,275 or 0.5% of net sales. Foreign currency exchange fluctuation had an immaterial effect on Consolidated EBIT, as well as EBIT of the segments discussed below.

Coatings Segment EBIT – EBIT as a percent of net sales for the third quarter increased primarily due to the benefits of carryover selling price increases when compared to moderating raw material costs in the quarter, higher margin new business, lower restructuring charges in 2012 versus 2011 and productivity improvements, including savings from our previously completed restructuring actions. Year-to-date EBIT as a percent of net sales improved due to our carryover selling price increases, productivity improvements, including savings from our previously completed restructuring actions, higher margin new business, lower restructuring charges in 2012 versus 2011 and acquisition-related charges recognized in the second quarter of 2011. The year-to-date increase was partially offset by higher raw material costs. EBIT included a restructuring credit of \$139 in the third quarter of 2012. Restructuring charges of \$896 are included in the 2012 year-to-date period. The 2011 third quarter and year-to-date periods included restructuring charges of \$8,246 or 1.5% of net sales and \$10,704 or 0.7%, respectively. There were no acquisition-related charges in the third quarter and year-to-date periods of 2012 and third quarter of 2011. EBIT included acquisition-related charges of \$1,859 or 0.1% of net sales in the year-to-date period of 2011.

Paints Segment EBIT – EBIT as a percent of net sales for the third quarter increased due to carryover selling price increases and productivity improvements, including savings from our previously completed restructuring actions, partially offset by higher raw material costs. Year-to-date EBIT as a percent of net sales increased due to carryover selling price increases, productivity improvements, including savings from our previously completed restructuring actions and acquisition-related charges recognized in the second quarter of 2011. These improvements were partially offset by higher raw material costs and lower restructuring charges in 2012 versus 2011. EBIT included restructuring charges of \$3,713 or 0.8% of net sales and \$11,511 or 1.0% of net sales in the third quarter and year-to-date periods of 2012, respectively. Restructuring charges of \$5,594 or 1.3% of net sales and \$5,994 or 0.5% of net sales was included in EBIT in the third quarter and year-to-date periods of 2011. There were no acquisition-related charges in the third quarter and year-to-date periods of 2012 and third quarter of 2011. EBIT included acquisition-related charges of \$11,416 or 1.0% of net sales in the year-to-date period of 2011.

All Other EBIT – All Other EBIT includes corporate expenses. Third quarter and year-to-date EBIT as a percent of net sales declined primarily due to timing of incentive compensation accruals and higher restructuring charges. EBIT included restructuring charges of \$3,290 or 5.0% of net sales and \$3,972 or 2.2% of net sales in the third quarter and year-to-date periods of 2012, respectively. Restructuring charges of \$344 or 0.5% of net sales and 0.2% of net sales were included in EBIT in the third quarter and year-to-date periods of 2011, respectively.

Due to the seasonal nature of portions of our business, EBIT for the third quarter is not necessarily indicative of EBIT for subsequent quarters or for the full year.

Financial Condition: The Company's financial condition, cash flow and liquidity remained strong in the third quarter of 2012. Cash provided by operations was \$166,165 for the first nine months of 2012 compared to \$105,558 provided by operations for the same period last year. Cash flow improvement in the first three quarters of fiscal year 2012 was primarily due to higher earnings and lower working capital requirements, partially offset by the settlement of outstanding derivative contracts.

During the first nine months of 2012, we used our borrowing capacity and cash provided by operations to fund \$202,934 in share repurchases, \$61,358 in capital expenditures and our seasonal working capital needs. We used cash on hand and \$35,246 in proceeds from the sale of treasury stock to fund \$55,249 in dividend payments. We anticipate capital spending in 2012 to be approximately \$90,000.

See Note 9 in Notes to the Condensed Consolidated Financial Statements for further discussion on our restricted cash associated with cash collateralization of certain letters of credit.

ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

DOLLARS IN THOUSANDS, EXCEPT PER SHARE AMOUNTS

In the first quarter of 2012, we issued \$400,000 in unsecured Senior Notes that mature on January 15, 2022 with a coupon rate of 4.20%. The public offering was made pursuant to a registration statement filed with the U.S. Securities and Exchange Commission. We used the net proceeds for general corporate purposes, including paying down our commercial paper and retiring our \$200,000 of 5.625% Senior Notes that matured on May 1, 2012. The ratio of total debt to capital was 49.5% at July 27, 2012, compared to 46.6% at October 28, 2011 and 42.0% at July 29, 2011.

Our debt classified as current was \$115,993 at July 27, 2012 compared to \$377,319 and \$476,589 at October 28, 2011 and July 29, 2011, respectively. The decline in current debt from October 28, 2011 was due to retirement of our \$200,000 of 5.625% Senior Notes that matured on May 1, 2012 and repayment of our commercial paper borrowings with proceeds from our issuance of Senior Notes. We ended our 2012 third quarter with \$668,276 of reserve liquidity that includes \$486,798 of available committed credit facilities and \$181,478 of cash.

Our credit facilities have covenants that require us to maintain certain financial ratios. We were in compliance with these covenants as of July 27, 2012. Our debt covenants do not limit, nor are they reasonably likely to limit, our ability to obtain additional debt or equity financing.

To ensure availability of funds, we maintain uncommitted bank lines of credit sufficient to cover outstanding short-term borrowings. These arrangements are reviewed periodically for renewal and modification.

We believe future cash flow from operations, existing lines of credit, access to credit facilities and access to debt and capital markets will be sufficient to meet our current and projected financing and liquidity needs. In the current market conditions, we have demonstrated continued access to capital markets. We have committed liquidity and cash reserves in excess of our anticipated funding requirements.

Our cash and cash equivalent balances consist of high quality, short-term money market instruments and cash held by our international subsidiaries that are used to fund those subsidiaries' day-to-day operating needs. Those balances have also been used to finance acquisitions. Our investment policy on excess cash is to preserve principal.

We use derivative instruments with a number of counterparties principally to manage well-defined interest rate and foreign currency exchange risks. We evaluate the financial stability of each counterparty and spread the risk among several financial institutions to limit our exposure. We will continue to monitor counterparty risk on an ongoing basis. We do not have any credit-risk related contingent features in our derivative contracts as of July 27, 2012.

Off-Balance Sheet Financing: We do not have off-balance sheet arrangements that have, or are reasonably likely to have, a current or future material effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.

Forward Looking Statements: Certain statements contained in “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and elsewhere in this report constitute “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. The Private Securities Litigation Reform Act of 1995 provides a safe harbor for forward-looking statements.

Forward-looking statements are based on management’s current expectations, estimates, assumptions and beliefs about future events, conditions and financial performance. Forward-looking statements are subject to risks, uncertainties and other factors, many of which are outside our control and could cause actual results to differ materially from such statements. Any statement that is not historical in nature is a forward-looking statement. We may identify forward-looking statements with words and phrases such as “expects,” “projects,” “estimates,” “anticipates,” “believes,” “could,” “may,” “will,” “plans to,” “intend,” “should” and similar expressions.

These risks, uncertainties and other factors include, but are not limited to, deterioration in general economic conditions, both domestic and international, that may adversely affect our business; fluctuations in availability and prices of raw materials, including raw material shortages and other supply chain disruptions, and the inability to pass along or delays in passing along raw material cost increases to our customers; dependence of internal sales and earnings growth on business cycles affecting our customers and growth in the domestic and international coatings industry; market share loss to, and pricing or margin pressure from, larger competitors with greater financial resources; significant indebtedness that restricts the use of cash flow from operations for acquisitions and other investments; dependence on acquisitions for growth, and risks related to future acquisitions, including adverse changes in the results of acquired businesses, the assumption of unforeseen liabilities and disruptions resulting from the integration of acquisitions; risks and uncertainties associated with operations and achievement of profitable growth in developing markets, including Asia and Central and South America; loss of business with key customers; damage to our reputation and business resulting from product claims or recalls, litigation, customer perception and other matters; our ability to respond to technology changes and to protect our technology; changes in governmental regulation, including more stringent environmental, health and safety regulations; our reliance on the efforts of vendors, government agencies, utilities and other third parties to achieve adequate compliance and avoid disruption of our business; unusual weather conditions adversely affecting sales; changes in accounting policies and standards and taxation requirements such as new tax laws or revised tax law interpretations; the nature, cost and outcome of pending and future litigation and other legal proceedings; and civil unrest and the outbreak of war and other significant national and international events.

We undertake no obligation to subsequently revise any forward-looking statement to reflect new information, events or circumstances after the date of such statement, except as required by law.

ITEM 3: QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our foreign sales and results of operations are subject to the impact of foreign currency fluctuations. As most of our underlying costs are denominated in the same currency as our sales, the effect has not been material. We have not hedged our exposure to translation gains and losses; however, we have reduced our exposure by borrowing funds in local currencies. A 10% adverse change in foreign currency rates is not expected to have a material effect on our results of operations or financial position.

We are also subject to interest rate risk. At July 27, 2012, approximately 14.7% of our total debt consisted of floating rate debt. From time to time, we may enter into interest rate swaps to hedge a portion of either our variable or fixed rate debt. Assuming the current level of borrowings, a 10% increase in interest rates from those in effect at the end of the third quarter would not have a material impact on our results of operations or financial position.

ITEM 4: CONTROLS AND PROCEDURES

Disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) are our controls and other procedures that are designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is accumulated and communicated to our management, including our chief executive officer and chief financial officer, as appropriate, to allow timely decisions regarding required disclosure.

We have evaluated the effectiveness of the design and operation of our disclosure controls and procedures as of July 27, 2012. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective.

There were no changes in our internal control over financial reporting during the quarter ended July 27, 2012 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION**ITEM 1: LEGAL PROCEEDINGS**

During the period covered by this report, there were no legal proceedings instituted that are reportable, and there were no material developments in any of the legal proceedings that were previously reported on our Form 10-K for the year ended October 28, 2011.

ITEM 1A: RISK FACTORS

There were no material changes to the risk factors disclosed in our Form 10-K for the year ended October 28, 2011.
