Principal Financial Group, Inc. Announces Third Quarter 2011 Results

Third quarter 2011 operating earnings¹ of \$192 million were down 12 percent from third quarter 2010; net income available to common shareholders was \$64 million, a decrease of 55

percent from third quarter 2010.

Year-to-date operating earnings were \$661 million, an increase of 5 percent over the same period in 2010; year-to-date net income available to common shareholders was \$518 million, an

increase of 11 percent over the same period in 2010.

Assets under management were \$320.8 billion at the end of third quarter 2011, an increase of 5

percent compared to third quarter 2010.

Book value per share, excluding AOCI2, increased to a record high of \$29.59, up 7 percent over

third quarter 2010 and 1 percent sequentially.

(Des Moines, Iowa) – Principal Financial Group, Inc. (NYSE: PFG) today announced results for third quarter 2011. The company reported operating earnings of \$191.9 million for third quarter 2011, compared to \$218.9 million for third quarter 2010. Operating earnings per diluted share (EPS) were \$0.61 for third quarter 2011, compared to \$0.68 for third quarter 2010. The company reported net income available to common stockholders of \$63.7 million, or \$0.20 per diluted share for third quarter 2011, compared to \$142.2 million, or \$0.44 per diluted share for third quarter 2010. Operating revenues for third quarter 2011 were \$2,026.3 million compared to \$1,986.7 million for the same period last year.

“Although operating earnings were negatively impacted by extreme market events, the momentum of our businesses remained strong in the third quarter,” said Larry D. Zimpleman, chairman, president and chief executive officer. “We expect full-year 2011 sales and net cash flows for fee-based businesses to be significantly improved from 2010.”

Added Terry Lillis, senior vice president and chief financial officer, “Our financial position remains strong giving us the flexibility to continue to invest for future growth, as well as return capital to shareholders. During the quarter, we completed our share repurchase programs, reducing our common shares outstanding by 9.1 million shares. In addition, today we announced a \$0.70 per share common stock annual dividend, a 27 percent increase over 2010, further demonstrating our long-term commitment to shareholders.”

¹ Use of non-GAAP financial measures is discussed in this release after Segment Highlights.

² Accumulated Other Comprehensive Income

Page 4

Key Highlights for the Third Quarter

Strong sales in two key Retirement and Investor Services businesses in the third quarter, with \$1.5 billion

for Full Service Accumulation and \$2.6 billion for Principal Funds, contributing to positive net cash flows

of \$350 million for Full Service Accumulation and \$180 million for Principal Funds.

Unaffiliated deposits of \$5.6 billion in the quarter led to net cash flows of \$1.2 billion for Principal Global

Investors.

Principal International net cash flows of \$700 million and \$3.1 billion of operations acquired with our HSBC Mexican AFORE acquisition in the quarter contributed to a record \$54.5 billion of assets under management. (Reported assets under management do not include an additional \$7.3 billion of assets managed by our Chinese joint venture.)

Continued momentum in U.S. Insurance Solutions with \$41 million of Individual Life sales and \$66 million

of Specialty Benefits sales.

Strong capital position with an estimated risk based capital ratio of 455 percent at quarter end and approximately \$1.8 billion of excess capital.³

Principal Financial Group completed both Board authorized share repurchase programs and bought back 9.1

million shares of common stock in the third quarter at an average share price of \$24.16, bringing the year-to-

date total number of shares repurchased to 16.8 million.

Net Income

Net income available to common stockholders of \$63.7 million for third quarter 2011 reflects net realized capital losses of \$63.7 million, which includes \$30.0 million of losses related to credit gains and losses on sales and permanent impairments of fixed maturity securities, including \$23.5 million of losses on commercial mortgage-backed securities.

Net income also reflects a \$79.4 million after-tax loss resulting from the impact of a court ruling regarding some uncertain tax positions and the estimated obligation associated with the New York State Insurance Department's liquidation plan for Executive Life Insurance Company of New York.

Segment Highlights

Retirement and Investor Services

Segment operating earnings for third quarter 2011 were \$128.6 million, compared to \$147.4 million for the same period in 2010. Full Service Accumulation earnings were \$71.0 million compared to \$80.3 million for the same period a year ago, reflecting an \$8.3 million after-tax increase in deferred policy acquisition cost (DPAC) amortization expense due to negative equity market returns in the current quarter. Principal Fund's earnings increased 47 percent from a year ago to \$12.5 million, reflecting strong operating leverage on a 16 percent increase in average account values. Individual Annuities earnings were \$15.0 million for third quarter 2011 compared to \$31.9 million a year ago, reflecting a \$10.5 million after-tax increase in DPAC amortization expense due to negative equity market returns in the current quarter. Bank and Trust Services earnings were up 26 percent from a year ago to \$9.2 million due to margin improvement and expense management in the current quarter. Investment Only earnings were \$11.5 million for third quarter 2011, compared to \$13.9 million for the same period a year ago. The decline is primarily due to a 17 percent decrease in average account values, reflecting the company's scale back of its institutional GIC and funding agreement business. Full Service Payout earnings increased 71 percent from the year ago quarter to \$9.4 million in third quarter 2011 primarily due to more favorable mortality experience in the current quarter compared to the third quarter 2010.

³ Excess capital includes cash at the holding company and capital at the life company above that needed to maintain a 350 percent NAIC risk based capital ratio for the life company.

Page 5

Operating revenues for third quarter 2011 were \$995.5 million compared to \$997.0 million for the same period in 2010, as higher revenues for the accumulation businesses, which improved \$42.2 million, or 6 percent, from the year ago quarter were offset by a \$43.7 million decline in revenues for the guaranteed businesses.

Segment assets under management were \$168.6 billion as of Sept. 30, 2011, compared to \$168.8 billion as of Sept. 30, 2010.

Principal Global Investors

Segment operating earnings for third quarter 2011 were \$19.1 million, a 27 percent increase compared to the year ago quarter, primarily due to the increase in revenue and operating leverage. Operating revenues for third quarter were \$132.9 million, compared to \$118.0 million for the same period in 2010, primarily due to higher asset management and transaction fees.

Unaffiliated assets under management were \$77.8 billion as of Sept. 30, 2011, compared to \$76.2

billion as of Sept. 30, 2010 as we saw strong demand in several of our investment strategies.

Principal International

Segment operating earnings were \$36.6 million in third quarter 2011, an 11 percent increase compared to the prior year quarter. The improvement was primarily due to the increase in assets under management.

Operating revenues were \$220.2 million for third quarter 2011, compared to \$200.1 million for the same period in 2010, primarily due to growth in assets under management.

Segment assets under management were a record \$54.5 billion as of Sept. 30, 2011, up from \$42.3 billion as of Sept. 30, 2010. This includes \$5.6 billion of net cash flows over the trailing twelve months, or 13 percent of beginning of period assets under management and \$3.1 billion from the HSBC AFORE acquisition in Mexico. Reported assets under management do not include an additional \$7.3 billion of assets managed by our Chinese joint venture.

U.S. Insurance Solutions

Segment operating earnings for third quarter 2011 were \$47.6 million, compared to \$47.3 million for the same period in 2010. Specialty Benefits earnings were \$21.8 million in third quarter 2011, down from \$24.7 million for the same period in 2010. The decrease was driven by a higher loss ratio in the current quarter compared to the year ago quarter, exhibiting normal quarterly volatility. Individual Life earnings were \$25.8 million in the third quarter, compared to \$22.6 million in third quarter 2010 as the growth in the block of business was partially offset by \$3.3 million after-tax of higher DPAC amortization expense due to negative equity market returns in the current quarter.

Page 6

Segment operating revenues for third quarter 2011 were \$734.3 million compared to \$690.7 million for the same period a year ago due to higher premiums and fees in Individual Life and positive trends in both sales and client retention in Specialty Benefits.

Corporate

Operating losses for third quarter 2011 were \$40.0 million compared to operating losses of \$23.9 million in third quarter 2010 primarily due to lower variable investment income on excess capital at the holding company due to negative marks caused by widening of credit spreads.

Forward looking and cautionary statements

This press release contains forward-looking statements, including, without limitation, statements as to operating earnings, net income available to common stockholders, net cash flows, realized and unrealized gains and losses, capital and liquidity positions, sales and earnings trends, and management's beliefs,

expectations, goals and opinions. The company does not undertake to update these statements, which are based on a number of assumptions concerning future conditions that may ultimately prove to be inaccurate. Future events and their effects on the company may not be those anticipated, and actual results may differ materially from the results anticipated in these forward-looking statements. The risks, uncertainties and factors that could cause or contribute to such material differences are discussed in the company's annual report on Form 10-K for the year ended Dec. 31, 2010, and in the company's quarterly report on Form 10-Q for the quarter ended June 30, 2011, filed by the company with the Securities and Exchange Commission, as updated or supplemented from time to time in subsequent filings. These risks and uncertainties include, without limitation: adverse capital and credit market conditions may significantly affect the company's ability to meet liquidity needs, access to capital and cost of capital; continued difficult conditions in the global capital markets and the economy generally; continued volatility or further declines in the equity markets; changes in interest rates or credit spreads; the company's investment portfolio is subject to several risks that may diminish the value of its invested assets and the investment returns credited to customers; the company's valuation of securities may include methodologies, estimations and assumptions that are subject to differing interpretations; the determination of the amount of allowances and impairments taken on the company's investments requires estimations and assumptions that are subject to differing interpretations; gross unrealized losses may be realized or result in future impairments; competition from companies that may have greater financial resources, broader arrays of products, higher ratings and stronger financial performance; a downgrade in the company's financial strength or credit ratings; inability to attract and retain sales representatives and develop new distribution sources; international business risks; the company's actual experience could differ significantly from its pricing and reserving assumptions; the company's ability to pay stockholder dividends and meet its obligations may be constrained by the limitations on dividends or distributions Iowa insurance laws impose on Principal Life; the pattern of amortizing the company's DPAC and other actuarial balances on its universal life-type insurance contracts, participating life insurance policies and certain investment contracts may change; the company may need to fund deficiencies in its "Closed Block" assets that support participating ordinary life insurance policies that had a dividend scale in force at the time of Principal Life's 1998 conversion into a stock life insurance company; the company's reinsurers could default on their obligations or increase their rates; risks arising from acquisitions of businesses; changes in laws, regulations or accounting standards; a computer system failure or security breach could disrupt the company's business, and damage its reputation; results of litigation and regulatory investigations; from time to time the company may become subject to tax audits, tax litigation or similar proceedings, and as a result it may owe additional taxes, interest and penalties in amounts that may be material; fluctuations in foreign currency exchange rates; and applicable laws and the company's stockholder rights plan, certificate of incorporation and by-laws may discourage takeovers and business combinations that some stockholders might consider in their best interests.

Use of Non-GAAP Financial Measures

The company uses a number of non-GAAP financial measures that management believes are useful to investors because they illustrate the performance of normal, ongoing operations, which is important in understanding and

evaluating the company's financial condition and results of operations. They are not, however, a substitute for U.S. GAAP financial measures. Therefore, the company has provided reconciliations of the non-GAAP measures to the most directly comparable U.S. GAAP measure at the end of the release. The company adjusts U.S. GAAP measures for items not directly related to ongoing operations. However, it is possible these adjusting items have occurred in the past and could recur in the future reporting periods. Management also uses

non-GAAP measures for goal setting, as a basis for determining employee and senior management awards and compensation, and evaluating performance on a basis comparable to that used by investors and securities analysts.

Earnings Conference Call

On Friday, Oct. 28, 2011 at 10:00 a.m. (ET), Chairman, President and Chief Executive Officer Larry Zimpleman and Senior Vice President and Chief Financial Officer Terry Lillis will lead a discussion of results, asset quality and capital adequacy during a live conference call, which can be accessed as follows:

- Via live Internet webcast. Please go to www.principal.com/investor at least 10-15 minutes prior to the start of the call to register, and to download and install any necessary audio software.
- Via telephone by dialing 800-374-1609 (U.S. and Canadian callers) or 706-643-7701 (International callers) approximately 10 minutes prior to the start of the call. The access code is 13931944.
- Replay of the earnings call via telephone is available by dialing 855-859-2056 (U.S. and Canadian callers) or 404-537-3406 (International callers). The access code is 13931944. This replay will be available approximately two hours after the completion of the live earnings call through the end of day November 4, 2011.
- Replay of the earnings call via webcast as well as a transcript of the call will be available after the call at: www.principal.com/investor.

The company's financial supplement and additional investment portfolio detail for third quarter 2011 is currently available at www.principal.com/investor, and may be referred to during the call.
