SCHEDULE 13D

Page 5 of 8 Pages

Item 1. Security and Issuer

This Amendment No. 18 to Schedule 13D (“Schedule”) relates to shares of common stock, \$0.10 par value (the “Common Stock”), of TigerLogic Corporation (the “Issuer”). The principal executive office of the Issuer is 2855 Michelle Drive, Suite 190, Irvine, CA 92606. All capitalized terms contained herein but not otherwise defined shall have the meanings ascribed to such terms in Amendment No. 17 to the Schedule, filed December 31, 2013.

Item 4. Purpose of Transaction

Item 4 of the Schedule is hereby amended and restated in its entirety as follows:

The Reporting Persons acquired the shares of Common Stock reported herein for investment purposes. Richard Koe (“Koe”) currently serves as Chief Executive Officer and Chairman of the Board of Directors of the Issuer.

Astoria’s partnership agreement provides that the term of the partnership ended December 31, 2013 and that upon Astoria’s termination, its general partners are to wind up Astoria’s affairs, liquidate assets to pay liabilities, and distribute the remaining assets. In the interest of liquidating the assets in an orderly and rational fashion, given the size of Astoria’s position in the Common Stock and the general illiquidity of the Common Stock, Astoria’s partners agreed December 23, 2013, to amend the partnership agreement to provide, among other things, that (i) as part of the winding up process, Astoria would seek to sell its holdings in the Issuer to one or a small number of strategic block purchasers and would engage investment bankers or similar financial advisers (“Advisers”) to assist with that process, (ii) the general partners were to form a Limited Partner Advisory Committee (the “Committee”), with which Astoria’s general partners were to consult regarding the engagement of certain advisers and any potential sale of Astoria’s holdings, (iii) proposals to sell the Common Stock held by Astoria would be subject to approval by a vote of Astoria’s partners, and (iv) if Astoria had not completed a sale, agreed to a sale, or at least entered into substantive negotiations with one or more purchasers by June 30, 2014, it would begin the process of making liquidating distributions of its net assets, in-kind, as promptly as practicable, consistent with and subject to regulatory constraints that affect Astoria and/or its general partners. Thereafter, Astoria and its general partners, among other things, formed a Committee and engaged an Adviser to help explore alternatives for monetizing Astoria’s holdings.

The Issuer disclosed in its Form 10-K for the period ended March 31, 2014, that its Board of Directors formed a special committee consisting of independent directors (the “Special Committee”), which engaged its own legal and financial advisers to evaluate any proposed sale by Astoria of its Common Stock that may be presented to the Issuer as well as other strategic alternatives available to the Issuer. Astoria’s Adviser is coordinating its efforts with the Special Committee’s adviser in an effort to pursue a value-maximizing strategy.

In order to allow more time to continue exploring potential sales, exchanges or other transactions, Astoria’s partners voted as of July 22, 2014 to further amend Astoria’s partnership agreement to provide that, pursuant to its winding up, Astoria will continue to pursue ways to sell, exchange, or otherwise liquidate the Common Stock it holds in one or more strategic transactions or by other avenues and that, if Astoria has not, by December 31, 2014, agreed to a sale, exchange, or other transaction by which it may liquidate its Common Stock, or at least entered into substantive negotiations with one or more counterparties over definitive terms to do so, it will begin the process of making liquidating distributions of its net assets, in-kind, as promptly as practical, consistent with and subject to regulatory

constraints that affect Astoria and/or its general partners, unless prior to such time a majority in

SCHEDULE 13D

Page 6 of 8 Pages

interest of Astoria's limited partners have agreed to a further extension of the period during which the Partnership will pursue those efforts described above.

Except as set forth above, none of the Reporting Persons has any plans or proposals that relate to, or could result in, any of the matters referred to in paragraphs (a) through (j), inclusive, of the instructions to Item 4 of Schedule 13D. However, as prospective purchasers are pursued, certain terms may be negotiated that relate to, or could result in, such matters. Further, in connection with the process of winding Astoria up, the Reporting Persons may review or reconsider their position and/or change their purpose and/or formulate additional plans or proposals with respect thereto.

Item 7. Material to be Filed as Exhibits.

Effective in 2008, a change in accounting policy was adopted with regard to the calculation of the portfolio turnover rate to include cash proceeds due to mergers. Had this policy been adopted retroactively, the portfolio turnover rate for the year ended December 31, 2007 would have been 14.8%.

* Based on year to date book income. Amounts are subject to change and recharacterization at year end.

(a) Amount represents less than \$0.005 per share.

(b) Calculated based upon average common shares outstanding on the record dates throughout the periods.

(c) Annualized.

(d) Based on weekly prices.

(e) Liquidation value, except for 2007 when price was based on weekly auction prices. Since February 2008, the weekly auctions have failed. Holders that have submitted orders have not been able to sell any or all of their shares in the auction.

(f) Asset coverage is calculated by combining all series of preferred shares.

The Gabelli Multimedia Trust Inc.

Notes to Financial Statements (Unaudited)

1. Organization. The Gabelli Multimedia Trust Inc. (the Fund), formerly The Gabelli Global Multimedia Trust Inc., is a non-diversified closed-end management investment company organized as a Maryland corporation on March 31, 1994 and registered under the Investment Company Act of 1940, as amended (the 1940 Act). The Fund commenced investment operations on November 15, 1994.

The Fund's investment objective is long-term growth of capital. The Fund will invest at least 80% of its assets, under normal market conditions, in common stock and other securities, including convertible securities, preferred stock, options, and warrants of companies in the telecommunications, media, publishing, and entertainment industries (the 80% Policy). The 80% Policy may be changed without shareholder approval. The Fund will provide shareholders with notice at least sixty days prior to the implementation of any change in the 80% Policy.

2. Significant Accounting Policies. The Fund's financial statements are prepared in accordance with U.S. Generally Accepted Accounting Principles (GAAP), which may require the use of management estimates and assumptions. Actual results could differ from those estimates. The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements.

Security Valuation. Portfolio securities listed or traded on a nationally recognized securities exchange or traded in the U.S. over-the-counter market for which market quotations are readily available are valued at the last quoted sale price or a market's official closing price as of the close of business on the day the securities are being valued. If there were no sales that day, the security is valued at the average of the closing bid and asked prices or, if there were no asked prices quoted on that day, then the security is valued at the closing bid price on that day. If no bid or asked prices are quoted on such day, the security is valued at the most recently available price or, if the Board of Directors (the Board) so determines, by such other method as the Board shall determine in good faith to reflect its fair market value. Portfolio securities traded on more than one national securities exchange or market are valued according to the broadest and most representative market, as determined by Gabelli Funds, LLC (the Adviser).

Portfolio securities primarily traded on a foreign market are generally valued at the preceding closing values of such securities on the relevant market, but may be fair valued pursuant to procedures established by the Board if market conditions change significantly after the close of the foreign market, but prior to the close of business on the day the securities are being valued. Debt instruments with remaining maturities of sixty days or less that are not credit impaired are valued at amortized cost, unless the Board determines such amount does not reflect the securities' fair value, in which case these securities will be fair valued as determined by the Board. Debt instruments having a maturity greater than sixty days for which market quotations are readily available are valued at the average of the latest bid and asked prices. If there were no asked prices quoted on such day, the security is valued using the closing bid price. U.S. government obligations with maturities greater than sixty days are normally valued using a model that incorporates market observable data such as reported sales of similar securities, broker quotes, yields, bids, offers, and reference data. Certain securities are valued principally using dealer quotations.

Securities and assets for which market quotations are not readily available are fair valued as determined by the Board. Fair valuation methodologies and procedures may include, but are not limited to: analysis and review of available financial and non-financial information about the company; comparisons with the valuation and changes in valuation of similar securities, including a comparison of foreign securities with the equivalent U.S.

The Gabelli Multimedia Trust Inc.**Notes to Financial Statements (Unaudited) (Continued)**

dollar value ADR securities at the close of the U.S. exchange; and evaluation of any other information that could be indicative of the value of the security.

The inputs and valuation techniques used to measure fair value of the Fund's investments are summarized into three levels as described in the hierarchy below:

- Level 1 quoted prices in active markets for identical securities;
- Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.); and
- Level 3 significant unobservable inputs (including the Fund's determinations as to the fair value of investments).

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input both individually and in the aggregate that is significant to the fair value measurement. The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The summary of the Fund's investments in securities and other financial instruments by inputs used to value the Fund's investments as of June 30, 2012 is as follows:

The Fund did not have transfers between Level 1 and Level 2 during the six months ended June 30, 2012. The Fund's policy is to recognize transfers among Levels as of the beginning of the reporting period.

The Gabelli Multimedia Trust Inc.

Notes to Financial Statements (Unaudited) (Continued)

Additional Information to Evaluate Quantitative Information.

General. The Fund uses recognized industry pricing services approved by the Board and unaffiliated with the Adviser to value most of its securities, and uses broker quotes provided by market makers of securities not valued by these and other recognized pricing sources. Several different pricing feeds are received to value domestic equity securities, international equity securities, preferred equity securities, and fixed income securities. The data within these feeds is ultimately sourced from major stock exchanges and trading systems where these securities trade. The prices supplied by external sources are checked by obtaining quotations or actual transaction prices from market participants. If a price obtained from the pricing source is deemed unreliable, prices will be sought from another pricing service or from a broker/dealer that trades that security or similar securities.

Fair Valuation. Fair valued securities may be common and preferred equities, warrants, options, rights, and fixed income obligations. Where appropriate, Level 3 securities are those for which market quotations are not available, such as securities not traded for several days, or for which current bids are not available, or which are restricted as to transfer. Among the factors to be considered to fair value a security are recent prices of comparable securities that are publicly traded, reliable prices of securities not publicly traded, the use of valuation models, current analyst reports, valuing the income or cash flow of the issuer, or cost if the preceding factors do not apply. The circumstances of Level 3 securities are regularly monitored to determine if fair valuation measures continue to apply.

The Adviser reports quarterly to the Board the results of the application of fair valuation policies and procedures. These include back testing the prices realized in subsequent trades of these fair valued securities to fair values previously recognized.

Derivative Financial Instruments. The Fund may engage in various portfolio investment strategies by investing in a number of derivative financial instruments for the purposes of hedging or protecting its exposure to interest rate movements and movements in the securities markets, hedging against changes in the value of its portfolio securities and in the value of securities it intends to purchase, or hedging against a specific transaction with respect to either the currency in which the transaction is denominated or another currency. Investing in certain derivative financial instruments, including participation in the options, futures, or swap markets, entails certain execution, liquidity, hedging, tax, and securities, interest, credit, or currency market risks. Losses may arise if the Adviser's prediction of movements in the direction of the securities, foreign currency, and interest rate markets is inaccurate. Losses may also arise if the counterparty does not perform its duties under a contract, or that, in the event of default, the Fund may be delayed in or prevented from obtaining payments or other contractual remedies owed to it under derivative contracts. The creditworthiness of the counterparties is closely monitored in order to minimize these risks. Participation in derivative transactions involves investment risks, transaction costs, and potential losses to which the Fund would not be subject absent the use of these strategies. The consequences of these risks, transaction costs, and losses may have a negative impact on the Fund's ability to pay distributions.

The Fund's derivative contracts held at June 30, 2012, if any, are not accounted for as hedging instruments under GAAP and are disclosed in the Schedule of Investments together with the related counterparty.

Swap Agreements. The Fund may enter into interest rate swap or cap transactions for the purposes of hedging or protecting its exposure to interest rate movements and movements in the securities markets. The

The Gabelli Multimedia Trust Inc.**Notes to Financial Statements (Unaudited) (Continued)**

use of swaps is a highly specialized activity that involves investment techniques and risks different from those associated with ordinary portfolio security transactions. In an interest rate swap, the Fund would agree to pay periodically to the counterparty a fixed rate payment in exchange for the counterparty agreeing to pay to the Fund periodically a variable rate payment that is intended to approximate the Fund's variable rate payment obligation on the Series C Auction Rate Cumulative Preferred Stock (Series C Preferred). Interest rate swaps transactions introduce additional risk because the Fund would remain obligated to pay preferred stock dividends when due in accordance with the Articles Supplementary even if the counterparty defaulted. In an equity contract for difference swap, a set of future cash flows is exchanged between two counterparties. One of these cash flow streams will typically be based on a reference interest rate combined with the performance of a notional value of shares of a stock. The other will be based on the performance of the shares of a stock. Depending on the general state of short-term interest rates and the returns on the Fund's portfolio securities at the time a swap transaction reaches its scheduled termination date, there is a risk that the Fund will not be able to obtain a replacement transaction or that the terms of the replacement will not be as favorable as on the expiring transaction.

Unrealized gains related to swaps are reported as an asset and unrealized losses are reported as a liability in the Statement of Assets and Liabilities. The change in value of swaps, including the accrual of periodic amounts of interest to be received or paid on swaps, is reported as unrealized gain or loss in the Statement of Operations. A realized gain or loss is recorded upon receipt or payment of a periodic payment or termination of swap agreements.

The Fund has entered into an interest rate swap agreement with Citibank N.A. Under the agreement, the Fund receives a floating rate of interest and pays a respective fixed rate of interest on the nominal value of the swap. Details of the swap at June 30, 2012 are reflected within the Schedule of Investments and further details are as follows:

Notional Amount	Fixed Rate	Floating Rate* (rate reset monthly)	Termination Date	Net Unrealized Depreciation
\$10,000,000	4.32000%	0.23875%	4/04/13	\$(319,938)

* Based on LIBOR (London Interbank Offered Rate).

Current notional amounts are an indicator of the average volume of the Fund's derivative activities during the six months ended June 30, 2012.

As of June 30, 2012, the value of interest rate swap agreements can be found in the Statement of Assets and Liabilities under Liabilities, Unrealized depreciation on swap contracts. For the six months ended June 30, 2012, the effect of interest rate swap agreements can be found in the Statement of Operations under Net Realized and Unrealized Gain/(Loss) on Investments, Swap Contracts, and Foreign Currency, Net realized loss on swap contracts and Net change in unrealized appreciation on swap contracts.

Foreign Currency Translations. The books and records of the Fund are maintained in U.S. dollars. Foreign currencies, investments, and other assets and liabilities are translated into U.S. dollars at current exchange rates. Purchases and sales of investment securities, income, and expenses are translated at the exchange

The Gabelli Multimedia Trust Inc.

Notes to Financial Statements (Unaudited) (Continued)

rate prevailing on the respective dates of such transactions. Unrealized gains and losses that result from changes in foreign exchange rates and/or changes in market prices of securities have been included in unrealized appreciation/depreciation on investments and foreign currency translations. Net realized foreign currency gains and losses resulting from changes in exchange rates include foreign currency gains and losses between trade date and settlement date on investment securities transactions, foreign currency transactions, and the difference between the amounts of interest and dividends recorded on the books of the Fund and the amounts actually received. The portion of foreign currency gains and losses related to fluctuation in exchange rates between the initial purchase trade date and subsequent sale trade date is included in realized gain/(loss) on investments.

Foreign Securities. The Fund may directly purchase securities of foreign issuers. Investing in securities of foreign issuers involves special risks not typically associated with investing in securities of U.S. issuers. The risks include possible revaluation of currencies, the inability to repatriate funds, less complete financial information about companies, and possible future adverse political and economic developments. Moreover, securities of many foreign issuers and their markets may be less liquid and their prices more volatile than securities of comparable U.S. issuers.

Foreign Taxes. The Fund may be subject to foreign taxes on income, gains on investments, or currency repatriation, a portion of which may be recoverable. The Fund will accrue such taxes and recoveries as applicable, based upon its current interpretation of tax rules and regulations that exist in the markets in which it invests.

Restricted Securities. The Fund may invest up to 15% of its net assets in securities for which the markets are illiquid. Illiquid securities include securities the disposition of which is subject to substantial legal or contractual restrictions. The sale of illiquid securities often requires more time and results in higher brokerage charges or dealer discounts and other selling expenses than does the sale of securities eligible for trading on national securities exchanges or in the over-the-counter markets. Restricted securities may sell at a price lower than similar securities that are not subject to restrictions on resale. Securities freely saleable among qualified institutional investors under special rules adopted by the SEC may be treated as liquid if they satisfy liquidity standards established by the Board. The continued liquidity of such securities is not as well assured as that of publicly traded securities, and accordingly the Board will monitor their liquidity. For the restricted securities the Fund held as of June 30, 2012, refer to the Schedule of Investments.

Securities Transactions and Investment Income. Securities transactions are accounted for on the trade date with realized gain or loss on investments determined by using the identified cost method. Interest income (including amortization of premium and accretion of discount) is recorded on the accrual basis. Premiums and discounts on debt securities are amortized using the effective yield to maturity method. Dividend income is recorded on the ex-dividend date, except for certain dividends from foreign securities that are recorded as soon after the ex-dividend date as the Fund becomes aware of such dividends.

Custodian Fee Credits and Interest Expense. When cash balances are maintained in the custody account, the Fund receives credits which are used to offset custodian fees. The gross expenses paid under the custody arrangement are included in custodian fees in the Statement of Operations with the corresponding expense offset, if any, shown as Custodian fee credits. When cash balances are overdrawn, the Fund is charged an overdraft fee equal to 2.00% above the federal funds rate on outstanding balances. This amount, if any, would be included in the Statement of Operations.

The Gabelli Multimedia Trust Inc.**Notes to Financial Statements (Unaudited) (Continued)**

Distributions to Shareholders. Distributions to common shareholders are recorded on the ex-dividend date. Distributions to shareholders are based on income and capital gains as determined in accordance with federal income tax regulations, which may differ from income and capital gains as determined under GAAP. These differences are primarily due to differing treatments of income and gains on various investment securities and foreign currency transactions held by the Fund, timing differences, and differing characterizations of distributions made by the Fund. Distributions from net investment income for federal income tax purposes include net realized gains on foreign currency transactions. These book/tax differences are either temporary or permanent in nature. To the extent these differences are permanent, adjustments are made to the appropriate capital accounts in the period when the differences arise. These reclassifications have no impact on the NAV of the Fund.

Distributions to shareholders of the Fund's 6.00% Series B Cumulative Preferred Stock (Series B Preferred) and Series C Preferred (Preferred Stock) are accrued on a daily basis and are determined as described in Note 5.

Under its distribution policy, the Fund declares and pays quarterly distributions. The actual source of the distribution is determined after the end of the calendar year. To the extent such distributions are made from current earnings and profits, they are considered ordinary income or long-term capital gains. The Fund's current distribution policy may restrict the Fund's ability to pay out all of its net realized long-term capital gains as a Capital Gain Dividend. Distributions sourced from paid-in capital should not be considered the current yield or the total return from an investment in the Fund.

The tax character of distributions paid during the year ended December 31, 2011 was as follows:

	Common	Preferred
Distributions paid from:		
Ordinary income	\$ 4,218,822	\$ 1,209,367
Return of capital	10,618,372	
Total distributions paid	\$ 14,837,194	\$ 1,209,367

Provision for Income Taxes. The Fund intends to continue to qualify as a regulated investment company under Subchapter M of the Internal Revenue Code of 1986, as amended (the Code). It is the policy of the Fund to comply with the requirements of the Code applicable to regulated investment companies and to distribute substantially all of its net investment company taxable income and net capital gains. Therefore, no provision for federal income taxes is required.

As of December 31, 2011, the components of accumulated earnings/losses on a tax basis were as follows:

Accumulated capital loss carryforwards	\$ (10,774,341)
Net unrealized appreciation on investments.	38,880,778
Net unrealized depreciation on swaps contracts and foreign currency translations	(496,421)
Other temporary differences*	29,240
Total	\$ 27,639,256

Edgar Filing: TigerLogic CORP - Form SC 13D/A

* Other temporary differences are primarily due to current year swap accrual.

At December 31, 2011, the Fund had net capital loss carryforwards for federal income tax purposes which are available to reduce future required distributions of net capital gains to shareholders. Under the Regulated Investment Company Modernization Act of 2010, the Fund will be permitted to carry forward for an unlimited period capital

The Gabelli Multimedia Trust Inc.**Notes to Financial Statements (Unaudited) (Continued)**

losses incurred in years beginning after December 22, 2010. As a result of the rule, post-enactment capital losses that are carried forward will retain their character as either short-term or long-term capital losses rather than being considered all short-term as under previous law. \$10,774,341 of capital loss carryforwards is available through 2017.

The following summarizes the tax cost of investments and the related net unrealized appreciation at June 30, 2012:

	Cost	Gross Unrealized Appreciation	Gross Unrealized Depreciation	Net Unrealized Appreciation
Investments	\$ 124,949,096	\$61,547,938	\$(14,647,444)	\$46,900,494

The Fund is required to evaluate tax positions taken or expected to be taken in the course of preparing the Fund's tax returns to determine whether the tax positions are more-likely-than-not of being sustained by the applicable tax authority. Income tax and related interest and penalties would be recognized by the Fund as tax expense in the Statement of Operations if the tax positions were deemed not to meet the more-likely-than-not threshold. For the six months ended June 30, 2012, the Fund did not incur any income tax, interest, or penalties. As of June 30, 2012, the Adviser has reviewed all open tax years and concluded that there was no impact to the Fund's net assets or results of operations. Tax years ended December 31, 2008 through December 31, 2011 remain subject to examination by the Internal Revenue Service and state taxing authorities. On an ongoing basis, the Adviser will monitor the Fund's tax positions to determine if adjustments to this conclusion are necessary.

3. Agreements and Transactions with Affiliates. The Fund has entered into an investment advisory agreement (the "Advisory Agreement") with the Adviser which provides that the Fund will pay the Adviser a fee, computed weekly and paid monthly, equal on an annual basis to 1.00% of the value of the Fund's average weekly net assets including the liquidation value of preferred stock. In accordance with the Advisory Agreement, the Adviser provides a continuous investment program for the Fund's portfolio and oversees the administration of all aspects of the Fund's business and affairs. The Adviser has agreed to reduce the management fee on the incremental assets attributable to the Preferred Stock if the total return of the NAV of the common shares of the Fund, including distributions and advisory fee subject to reduction, does not exceed the stated dividend rate or corresponding swap rate of each particular series of the Preferred Stock for the year.

The Fund's total return on the NAV of the common shares is monitored on a monthly basis to assess whether the total return on the NAV of the common shares exceeds the stated dividend rate or corresponding swap rate of each particular series of Preferred Stock for the period. For the six months ended June 30, 2012, the Fund's total return on the NAV of the common shares exceeded the stated dividend rate or net swap expense on the outstanding Preferred Stock. Thus, advisory fees were accrued on the assets attributable to all Preferred Stock.

During the six months ended June 30, 2012, the Fund paid brokerage commissions on security trades of \$7,228 to Gabelli & Company, Inc., an affiliate of the Adviser.

The cost of calculating the Fund's NAV per share is a Fund expense pursuant to the Advisory Agreement. During the six months ended June 30, 2012, the Fund paid or accrued \$22,500 to the Adviser in connection with the cost of computing the Fund's NAV.

The Gabelli Multimedia Trust Inc.**Notes to Financial Statements (Unaudited) (Continued)**

As per the approval of the Board, the Fund compensates officers of the Fund, who are employed by the Fund and are not employed by the Adviser (although officers may receive incentive based variable compensation from affiliates of the Adviser). For the six months ended June 30, 2012 the Fund paid or accrued \$26,856 in payroll expenses in the Statement of Operations.

The Fund pays each Director who is not considered an affiliated person an annual retainer of \$6,000 plus \$500 for each Board meeting attended and each Director is reimbursed by the Fund for any out of pocket expenses incurred in attending meetings. All Board committee members receive \$1,000 per meeting attended. The Audit Committee Chairman receives an annual fee of \$3,000, the Nominating Committee Chairman and the Lead Director each receive an annual fee of \$2,000. A Director may receive a single meeting fee, allocated among the participating funds, for participation in certain meetings held on behalf of multiple funds. Directors who are directors or employees of the Adviser or an affiliated company receive no compensation or expense reimbursement from the Fund.

4. Portfolio Securities. Purchases and sales of securities during the six months ended June 30, 2012, other than short-term securities and U.S. Government obligations, aggregated \$7,139,545 and \$6,289,451, respectively.

5. Capital. The charter permits the Fund to issue 196,750,000 shares of common stock (par value \$0.001). The Board has authorized the repurchase of up to 1,950,000 shares on the open market when the shares are trading at a discount of 5% or more (or such other percentage as the Board may determine from time to time) from the NAV of the shares. During the six months ended June 30, 2012, the Fund repurchased and retired 50,025 shares of common stock in the open market at a cost of \$354,024 and an average discount of approximately 9.81% from its NAV. During the year ended December 30, 2011, the Fund repurchased and retired 20,500 shares of common stock in the open market at a cost of \$135,085 and an average discount of approximately 16.0% from its NAV.

Transactions in common stock were as follows:

	Six Months Ended		Year Ended	
	June 30, 2012 (Unaudited)		December 31, 2011	
	Shares	Amount	Shares	Amount
Net increase in net assets from common shares issued in rights offering			4,525,223	\$ 31,676,561
Net decrease from repurchase of common shares	(50,025)	\$ (354,024)	(20,500)	(135,085)
Net increase/(Decrease)	(50,025)	\$ (354,024)	4,504,723	\$ 31,541,476

The Fund's Articles of Incorporation authorize the issuance of up to 2,000,000 shares of \$0.001 par value Preferred Stock. The Preferred Stock is senior to the common stock and results in the financial leveraging of the common stock. Such leveraging tends to magnify both the risks and opportunities to common shareholders. Dividends on shares of the Preferred Stock are cumulative. The Fund is required by the 1940 Act and by the Articles Supplementary to meet certain asset coverage tests with respect to the Preferred Stock. If the Fund fails to meet these requirements and does not correct such failure, the Fund may be required to redeem, in part or in full, the Series B and Series C Preferred at redemption prices of \$25.00 and \$25,000, respectively, per share plus an amount equal to the accumulated and unpaid dividends whether or not declared on such shares in order to meet these requirements. Additionally, failure to meet the foregoing asset coverage requirements

The Gabelli Multimedia Trust Inc.

Notes to Financial Statements (Unaudited) (Continued)

could restrict the Fund's ability to pay dividends to common shareholders and could lead to sales of portfolio securities at inopportune times. The income received on the Fund's assets may vary in a manner unrelated to the fixed and variable rates, which could have either a beneficial or detrimental impact on net investment income and gains available to common shareholders.

The Fund filed a \$400 million shelf registration statement with the SEC that was declared effective on June 30, 2011, enabling the Fund to offer additional common or preferred stock.

On March 31, 2003, the Fund received net proceeds of \$24,009,966 (after underwriting discounts of \$787,500 and offering expenses of \$202,534) from the public offering of 1,000,000 shares of Series B Preferred. The Fund, at its option, may redeem the Series B Preferred in whole or in part at the redemption price at any time. The Board has authorized the repurchase of Series B Preferred in the open market at prices less than the \$25 liquidation value per share. During the six months ended June 30, 2012, the Fund did not repurchase any shares of Series B Preferred. At June 30, 2012, 791,014 shares of 6.00% Series B Preferred were outstanding and accrued dividends amounted to \$13,184.

On March 31, 2003, the Fund received net proceeds of \$24,547,465 (after underwriting discounts of \$250,000 and offering expenses of \$202,535) from the public offering of 1,000 shares of Series C Preferred. The dividend rate, as set by the auction process, which is generally held every seven days, is expected to vary with short-term interest rates. Since February 2008, the number of Series C Preferred subject to bid orders by potential holders has been less than the number of Series C Preferred subject to sell orders. Therefore, the weekly auctions have failed, and the dividend rate since then has been the maximum rate. In that event, holders that have submitted sell orders may not be able to sell any or all of the Series C Preferred for which they have submitted sell orders. The current maximum rate is 150% of the AA Financial Composite Commercial Paper Rate on the date of such auction. The dividend rates of Series C Preferred ranged from 0.045% to 0.345% for the six months ended June 30, 2012. Existing shareholders may submit an order to hold, bid, or sell such shares on each auction date. Shareholders of the Series C Preferred may also trade their shares in the secondary market. The Fund, at its option, may redeem the Series C Preferred in whole or in part at the redemption price at any time. There were no redemptions of Series C Preferred during the six months ended June 30, 2012. At June 30, 2012, 600 shares of Series C Preferred were outstanding with an annualized dividend rate of 0.045% per share and accrued dividends amounted to \$188.

On March 29, 2011, the Fund distributed one transferable right for each of the 13,575,669 shares of common stock outstanding on that date. Three rights were required to purchase one additional share of common stock at the subscription price of \$7.00 per share. On April 26, 2011, the Fund issued 4,525,223 shares of common stock, receiving proceeds of \$31,676,561, prior to the deduction of offering expenses of \$456,781. The NAV per share of the Fund was reduced by approximately \$0.76 per share as a result of the issuance of shares below NAV.

The holders of Preferred Stock generally are entitled to one vote per share held on each matter submitted to a vote of shareholders of the Fund and will vote together with holders of common stock as a single class. The holders of Preferred Stock voting together as a single class also have the right currently to elect two Directors and under certain circumstances are entitled to elect a majority of the Board. In addition, the affirmative vote of a majority of the votes entitled to be cast by holders of all outstanding shares of the preferred stock, voting as a single class, will be required to approve any plan of reorganization adversely affecting the preferred stock,

The Gabelli Multimedia Trust Inc.

Notes to Financial Statements (Unaudited) (Continued)

and the approval of two-thirds of each class, voting separately, of the Fund's outstanding voting stock must approve the conversion of the Fund from a closed-end to an open-end investment company. The approval of a majority (as defined in the 1940 Act) of the outstanding preferred stock and a majority (as defined in the 1940 Act) of the Fund's outstanding voting securities are required to approve certain other actions, including changes in the Fund's investment objectives or fundamental investment policies.

6. Industry Concentration. Because the Fund primarily invests in common stocks and other securities of foreign and domestic companies in the telecommunications, media, publishing, and entertainment industries, its portfolio may be subject to greater risk and market fluctuations than a portfolio of securities representing a broad range of investments.

7. Indemnifications. The Fund enters into contracts that contain a variety of indemnifications. The Fund's maximum exposure under these arrangements is unknown. However, the Fund has not had prior claims or losses pursuant to these contracts. Management has reviewed the Fund's existing contracts and expects the risk of loss to be remote.

8. Other Matters. On April 24, 2008, the Adviser entered into a settlement with the SEC to resolve an inquiry regarding prior frequent trading in shares of the GAMCO Global Growth Fund (the Global Growth Fund) by one investor who was banned from the Global Growth Fund in August 2002. Under the terms of the settlement, the Adviser, without admitting or denying the SEC's findings and allegations, paid \$16 million (which included a \$5 million civil monetary penalty). On the same day, the SEC filed a civil action in the U.S. District Court for the Southern District of New York against the Executive Vice President and Chief Operating Officer of the Adviser, alleging violations of certain federal securities laws arising from the same matter. The officer, who also is an officer of the Global Growth Fund and other funds in the Gabelli/GAMCO complex, including this Fund, denies the allegations and is continuing in his positions with the Adviser and the funds. The settlement by the Adviser did not have, and the resolution of the action against the officer is not expected to have, a material adverse impact on the Adviser or its ability to fulfill its obligations under the Advisory Agreement.

9. Subsequent Events. On July 12, 2012, Moody's Investors Services changed its rating on the Preferred Stock, increasing the maximum rate to 175% of the AA Financial Composite Commercial Paper Rate on subsequent auction dates, for the Series C Preferred.

Management has evaluated the impact on the Fund of all other subsequent events occurring through the date the financial statements were issued and has determined that there were no other subsequent events requiring recognition or disclosure in the financial statements.

Certifications

The Fund's Chief Executive Officer has certified to the New York Stock Exchange (NYSE) that, as of June 8, 2012, he was not aware of any violation by the Fund of applicable NYSE corporate governance listing standards. The Fund reports to the SEC on Form N-CSR which contains certifications by the Fund's principal executive officer and principal financial officer that relate to the Fund's disclosure in such reports and that are required by Rule 30a-2(a) under the 1940 Act.

The Gabelli Multimedia Trust Inc.

Board Consideration and Re-Approval of Advisory Agreements (Unaudited)

Section 15(c) of the Investment Company Act of 1940, as amended (the 1940 Act), contemplates that the Board of Directors (the Board) of The Gabelli Multimedia Trust Inc. (the Fund), including a majority of the Directors who have no direct or indirect interest in the investment advisory agreement and are not interested persons of the Fund, as defined in the 1940 Act (the Independent Board Members), are required to annually review and re-approve the terms of the Fund's existing investment advisory agreement and approve any newly proposed terms therein. In this regard, the Board reviewed and re-approved, during the most recent six month period covered by this report, the Advisory Agreement (the Advisory Agreement) with Gabelli Funds, LLC (the Adviser) for the Fund.

More specifically, at a meeting held on May 16, 2012, the Board, including the Independent Board Members meeting in executive session with their counsel, considered the factors and reached the conclusions described below relating to the selection of the Adviser and the re-approval of the Advisory Agreement.

1. The nature, extent, and quality of services provided by the Adviser.

The Board reviewed in detail the nature and extent of the services provided by the Adviser under the Advisory Agreement and the quality of those services over the past year. The Board noted that these services included managing the investment program of the Fund, including the purchase and sale of portfolio securities, as well as the provision of general corporate services. The Board considered that the Adviser also provided, at its expense, office facilities for use by the Fund and supervisory personnel responsible for supervising the performance of administrative, accounting, and related services for the Fund, including monitoring to assure compliance with stated investment policies and restrictions under the 1940 Act and related securities regulation. The Board noted that, in addition to managing the investment program for the Fund, the Adviser provided certain non-advisory and compliance services, including services for the Fund's Rule 38a-1 compliance program.

The Board noted that the Adviser had engaged, at its expense, BNY to assist it in performing certain of its administrative functions. The Board concluded that the nature and extent of the services provided was reasonable and appropriate in relation to the advisory fee, that the level of services provided by the Adviser, either directly or through BNY, had not diminished over the past year, and that the quality of service continued to be high.

The Board reviewed the personnel responsible for providing services to the Fund and concluded, based on their experience and interaction with the Adviser, that (i) the Adviser was able to retain quality personnel, (ii) the Adviser and its agents exhibited a high level of diligence and attention to detail in carrying out their advisory and administrative responsibilities under the Advisory Agreement, (iii) the Adviser was responsive to requests of the Board, (iv) the scope and depth of the Adviser's resources was adequate, and (v) the Adviser had kept the Board apprised of developments relating to the Fund and the industry in general. The Board also focused on the Adviser's reputation and long standing relationship with the Fund. The Board also believed that the Adviser had devoted substantial resources and made substantial commitments to address new regulatory compliance requirements applicable to the Fund.

2. The performance of the Fund and the Adviser.

The Board reviewed the investment performance of the Fund, on an absolute basis, as compared with its Lipper peer group of other SEC registered closed-end funds. The Board considered the Fund's one year average annual total return for the period ended March 31, 2012. The peer group considered by the Board Members was developed by Lipper and was comprised of other selected closed-end core, growth and value equity funds (the Performance Peer Group). The Board considered these comparisons helpful in their assessment as to

The Gabelli Multimedia Trust Inc.

Board Consideration and Re-Approval of Advisory Agreements (Unaudited) (Continued)

whether the Adviser was obtaining for the Fund's shareholders the total return performance that was available in the marketplace, given the Fund's objectives, strategies, limitations, and restrictions. In reviewing the performance of the Fund, the Board Members noted that the Fund's performance was below the median for the one year, five year and ten year periods, and above the median for the three year period. The Board concluded that the Fund's performance was reasonable in comparison with that of the Performance Peer Group.

In connection with its assessment of the performance of the Adviser, the Board considered the Adviser's financial condition and whether it had the resources necessary to continue to carry out its functions under the Advisory Agreement. The Board concluded that the Adviser had the financial resources necessary to continue to perform its obligations under the Advisory Agreement and to continue to provide the high quality services that it has provided to the Fund to date.

3. The cost of the advisory services and the profits to the Adviser and its affiliates from the relationship with the Fund.

In connection with the Board's consideration of the cost of the advisory services and the profits to the Adviser and its affiliates from the relationship with the Fund, the Board considered a number of factors. First, the Board compared the level of the advisory fee for the Fund against a comparative Lipper expense peer group comprised of other selected closed-end core, growth and value equity funds (Expense Peer Group). The Board also considered comparative non-management fee expenses and comparative total fund expenses of the Fund and the Expense Peer Group. The Board considered this information as useful in assessing whether the Adviser was providing services at a cost that was competitive with other similar funds. In assessing this information, the Board considered the comparative contract rates. The Board noted that the Fund's advisory fee and expense ratio were higher than average when compared with those of the Expense Peer Group.

The Board also reviewed the fees charged by the Adviser to provide similar advisory services to other registered investment companies or accounts with similar investment objectives, noting that in some cases the fees charged by the Adviser were the same, or lower, than the fees charged to the Fund.

The Board also considered an analysis prepared by the Adviser of the estimated profitability to the Adviser of its relationship with the Fund and reviewed with the Adviser its cost allocation methodology in connection with its profitability. In this regard, the Board reviewed Pro-forma Income Statements of the Adviser for the year ended December 31, 2011. The Board considered one analysis for the Adviser as a whole, and a second analysis for the Adviser with respect to the Fund. With respect to the Fund analysis, the Board received an analysis based on the Fund's average net assets during the period as well as a pro-forma analysis of profitability at higher and lower asset levels. The Board concluded that the profitability of the Fund to the Adviser under either analysis was not excessive.

4. The extent to which economies of scale will be realized as the Fund grows and whether fee levels reflect those economies of scale.

With respect to the Board's consideration of economies of scale, the Board discussed whether economies of scale would be realized by the Fund at higher asset levels. The Board also reviewed data from the Expense Peer Group to assess whether the Expense Peer Group funds had advisory fee breakpoints and, if so, at what asset levels. The Board also assessed whether certain of the Adviser's costs would increase if asset levels rise. The Board noted the Fund's current size and concluded that under foreseeable conditions, they were unable to assess at this time whether economies of scale would be realized by the Fund if it were to experience

Board Consideration and Re-Approval of Advisory Agreements (Unaudited) (Continued)

significant asset growth. In the event there were to be significant asset growth in the Fund, the Board determined to reassess whether the advisory fee appropriately took into account any economies of scale that had been realized as a result of that growth.

5. Other Factors.

In addition to the above factors, the Board also discussed other benefits received by the Adviser from its management of the Fund. The Board considered that the Adviser does use soft dollars in connection with its management of the Fund.

Based on a consideration of all these factors in their totality, the Board, including all of the Independent Board Members, determined that the Fund's advisory fee was fair and reasonable with respect to the quality of services provided and in light of the other factors described above that the Board deemed relevant. Accordingly, the Board determined to approve the continuation of the Fund's Advisory Agreement. The Board based its decision on evaluations of all these factors as a whole and did not consider any one factor as all important or controlling.

**AUTOMATIC DIVIDEND REINVESTMENT
AND VOLUNTARY CASH PURCHASE PLANS**

Enrollment in the Plan

It is the policy of The Gabelli Multimedia Trust Inc. (the Fund) to automatically reinvest dividends payable to common shareholders. As a registered shareholder, you automatically become a participant in the Fund's Automatic Dividend Reinvestment Plan (the Plan). The Plan authorizes the Fund to credit shares of common stock to participants upon an income dividend or a capital gains distribution regardless of whether the shares are trading at a discount or a premium to net asset value. All distributions to shareholders whose shares are registered in their own names will be automatically reinvested pursuant to the Plan in additional shares of the Fund. Plan participants may send their stock certificates to Computershare Trust Company, N.A. (Computershare) to be held in their dividend reinvestment account. Registered shareholders wishing to receive their distribution in cash must submit this request in writing to:

The Gabelli Multimedia Trust Inc.

c/o Computershare

P.O. Box 43010

Providence, RI 02940-3010

Shareholders requesting this cash election must include the shareholder's name and address as they appear on the share certificate. Shareholders with additional questions regarding the Plan or requesting a copy of the terms of the Plan may contact Computershare at (800) 336-6983.

If your shares are held in the name of a broker, bank, or nominee, you should contact such institution. If such institution is not participating in the Plan, your account will be credited with a cash dividend. In order to participate in the Plan through such institution, it may be necessary for you to have your shares taken out of street name and re-registered in your own name. Once registered in your own name, your dividends will be automatically reinvested. Certain brokers participate in the Plan. Shareholders holding shares in street name at participating institutions will have dividends automatically reinvested. Shareholders wishing a cash dividend at such institution must contact their broker to make this change.

The number of shares of common stock distributed to participants in the Plan in lieu of cash dividends is determined in the following manner. Under the Plan, whenever the market price of the Fund's common stock is equal to or exceeds net asset value at the time shares are valued for purposes of determining the number of shares equivalent to the cash dividends or capital gains distribution, participants are issued shares of common stock valued at the greater of (i) the net asset value as most recently determined or (ii) 95% of the then current market price of the Fund's common stock. The valuation date is the dividend or distribution payment date or, if that date is not a New York Stock Exchange (NYSE) trading day, the next trading day. If the net asset value of the common stock at the time of valuation exceeds the market price of the common stock, participants will receive shares from the Fund valued at market price. If the Fund should declare a dividend or capital gains distribution payable only in cash, Computershare will buy common stock in the open market, or on the NYSE or elsewhere, for the participants' accounts, except that Computershare will endeavor to terminate purchases in the open market and cause the Fund to issue shares at net asset value if, following the commencement of such purchases, the market value of the common stock exceeds the then current net asset value.

The automatic reinvestment of dividends and capital gains distributions will not relieve participants of any income tax which may be payable on such distributions. A participant in the Plan will be treated for federal income tax purposes as having received, on a dividend payment date, a dividend or distribution in an amount equal to the cash the participant could have received instead of shares.

Voluntary Cash Purchase Plan

The Voluntary Cash Purchase Plan is yet another vehicle for our shareholders to increase their investment in the Fund. In order to participate in the Voluntary Cash Purchase Plan, shareholders must have their shares registered in their own name.

Participants in the Voluntary Cash Purchase Plan have the option of making additional cash payments to Computershare for investments in the Fund's shares at the then current market price. Shareholders may send an amount from \$250 to \$10,000. Computershare will use these funds to purchase shares in the open market on or about the 1st and 15th of each month. Computershare will charge each shareholder who participates \$0.75, plus a pro rata share of the brokerage commissions. Brokerage charges for such purchases are expected to be less than the usual brokerage charge for such transactions. It is suggested that any voluntary cash payments be sent to Computershare, P.O. Box 43010, Providence, RI 02940 3010 such that Computershare receives such payments approximately 10 days before the 1st and 15th of the month. Funds not received at

Edgar Filing: TigerLogic CORP - Form SC 13D/A

least five days before the investment date shall be held for investment until the next purchase date. A payment may be withdrawn without charge if notice is received by Computershare at least 48 hours before such payment is to be invested.

Shareholders wishing to liquidate shares held at Computershare must do so in writing or by telephone. Please submit your request to the above mentioned address or telephone number. Include in your request your name, address, and account number. The cost to liquidate shares is \$2.50 per transaction as well as the brokerage commission incurred. Brokerage charges are expected to be less than the usual brokerage charge for such transactions.

For more information regarding the Dividend Reinvestment Plan and Voluntary Cash Purchase Plan, brochures are available by calling (914) 921-5070 or by writing directly to the Fund.

The Fund reserves the right to amend or terminate the Plan as applied to any voluntary cash payments made and any dividend or distribution paid subsequent to written notice of the change sent to the members of the Plan at least 90 days before the record date for such dividend or distribution. The Plan also may be amended or terminated by Computershare on at least 90 days written notice to participants in the Plan.
