The merger warrants have an exercise price of \$15.00 per share. The merger warrants expire on July 11, 2005. The merger warrants are redeemable by the holder upon demand for \$10.00 for each share of common stock the holder may purchase under the merger warrant. The common stock purchase warrants issued to former Advanced Machine Vision shareholders are referred to as the "merger warrants." We will pay the expenses of registering the common stock.
--------------------	---

Use of Proceeds	Holders of our merger warrants are not obligated to exercise any of their warrants. If the holders of our merger warrants decide to exercise all of their warrants, we may receive gross proceeds of up to \$473,235, which we intend to use for working capital purposes.
Trading Markets	Our common stock is traded on the Nasdaq National Market under the symbol "KTEC." The merger warrants are traded on the over-the-counter market known as the "pink sheets" under the symbol "KTECW.PK."
Dividend Policy	We have not historically paid dividends on our common stock, and do not intend to in the future. See "Dividend Policy."
Risk Factors	Investment in our securities involves a high degree of risk. See "Risk Factors."

RISK FACTORS

Before you invest in our securities, you should be aware that there are various risks, including those described below, that may affect our business, financial condition and results of operations. This list of risk factors may be supplemented by future filings. Any of the following risks could materially adversely affect our business, financial condition or results of operations. In such case, you may lose all or part of your investment.

Adverse economic conditions in the food processing industry may adversely affect the Company's revenues.

The markets the Company serves, particularly the food processing industry, are experiencing variable economic conditions. In general, the food processing industry is not growing and is experiencing consolidation. Additionally, changing consumer dietary preferences, most notably in the potato market, have resulted in reduced or deferred capital equipment purchases for the Company's product lines supplying the potato processing industry. While the Company has reacted to these developments with applications directed to the growing fresh vegetable and fruit industries, continued loss of business in the potato industry will have a negative effect on the Company's sales and net earnings.

Competition and advances in technology may adversely affect sales and prices.

The markets for the Company's products are highly competitive. Advances in technology may remove some barriers to market entry, enabling additional competitors to enter the Company's markets. Such additional competition could force the Company to reduce prices to remain competitive, and decrease the Company's profits, having a material adverse affect on the Company's business and financial condition. Important competitive factors in the Company's markets include price, performance, reliability, customer support and service. There can be no assurance that the Company will be able to continue to compete effectively in the future.

The Company's new products may not compete successfully in either existing or new markets.

The future success and growth of the Company is dependent upon its ability to develop, market, and sell products and services in certain food processing markets as well as to introduce new products into other existing and potential markets. There can be no assurance the Company can successfully penetrate these potential markets or expand into new international markets with its current or new products.

The limited availability and possible cost fluctuations of materials used in the Company's products could adversely affect the Company's business.

Certain of the components, subassemblies and materials for the Company's products are obtained from single sources or a limited group of suppliers. Although the Company seeks to reduce dependence on sole or limited source suppliers, the partial or complete loss of certain of these sources could have an adverse effect on the Company's results of operations and customer relationships. In addition, certain basic materials, such as stainless steel, are used extensively in the Company's product fabrication processes. Such basic materials may also be subject to worldwide shortages or price fluctuations related to the supply of or demand for raw materials, such as nickel, which are used in their production by the Company's suppliers. A significant increase in the price or decrease in the availability of one or more of these components, subassemblies or basic materials could also adversely affect the Company's results of operations. Although protected somewhat by supply contracts, the high price of stainless steel worldwide in fiscal 2004 resulted in higher component costs and reduced margins on certain product lines.

The Company's inability to protect its intellectual property may adversely affect the Company's competitive advantage.

The Company's competitive position may be affected by its ability to protect its proprietary technology. The Company has obtained certain patents and has filed a number of patent applications. The Company also anticipates filing applications for protection of its future products and technology. There can be no assurance that any such patents will provide meaningful protection for the Company's product innovations, or that the issuance of a patent will give the Company any material advantage over its competition in connection with any of its products. The Company may experience additional intellectual property risks in international markets where it may lack patent protection. The patent laws of other countries may differ from those of the U.S. as to the patentability of the Company's products and processes. Moreover, the degree of protection afforded by foreign patents may be different from that of U.S. patents.

Intellectual property-related litigation expenses and other costs resulting from infringement claims asserted against the Company or its customers by third parties may adversely affect the Company's results of operations and its customer relations.

The technologies used by the Company may infringe the patents or proprietary technology of others. In the past, the Company has been required to initiate litigation to protect its patents. The Company has experienced a direct infringement of its intellectual property rights in China and is presently working with the Chinese patent officials in an effort to protect the intellectual property rights regarding its tobacco sorter technology in that country. The cost of enforcing the Company's patent rights in lawsuits that it may bring against infringers or of defending itself against infringement charges by other patent holders or other third parties, including customers, may be high and could have an adverse effect on the Company's results of operations and its customer relations.

Certain users of the Company's products have received notice of patent infringement from the Lemelson Medical, Education and Research Foundation, Limited Partnership (the Partnership) alleging that their use of the Company's products may infringe certain patents transferred to the Partnership by the late Jerome H. Lemelson. Certain of these users have notified the Company that, in the event it is subsequently determined that their use of the Company's products infringes any of the Partnership's patents, they may seek indemnification from the Company for damages or expenses resulting from this matter. The Company does not believe its products infringe any valid and enforceable claims of the Partnership's patents. Furthermore, the Partnership has stated that it is not the Company's products that infringe the Partnership's patents, but rather the use of those products by the Company's customers. The Company cannot predict the outcome of this matter nor any related litigation or other costs related to mitigation activities that may arise in the future, the effect of such litigation or mitigation activities on the financial results of the Company, or the effect upon its customer relations.

FORWARD-LOOKING STATEMENTS

From time to time, we, through our management, may make forward-looking public statements with respect to the Company regarding, among other things, expected future revenues or earnings, projections, plans, future performance, product development and commercialization, and other estimates relating to our future operations. Forward-looking statements may be included in reports filed under the Securities Exchange Act of 1934, as amended, in press releases or in oral statements made with the approval of one of our authorized executive officers. The words or phrases "will likely result," "are expected to," "intends," "is anticipated," "estimates," "believes," "projects" or similar expressions are used to identify forward-looking statements within the meaning of Section 21E of the Exchange Act and Section 27A of the Securities Act of 1933, as amended, as enacted by the Private Securities Litigation Reform Act of 1995.

Such forward-looking statements reflect our current views and are subject to a number of risks and uncertainties. We caution investors not to place undue reliance on our forward-looking statements, which speak only as to the date on which they are made. Our actual results may materially differ from those described in the forward-looking statements as a result of various factors, including those listed above. We disclaim any obligation subsequently to revise or update forward-looking statements to reflect events or circumstances after the date of such statements or to reflect the occurrence of anticipated or unanticipated events.

Item 15. Indemnification of Directors and Officers

The Oregon Business Corporation Act (the "Act") authorizes the indemnification of an officer or director made party to a proceeding because the officer or director is or was an officer or director against liability (including amounts paid in settlement) incurred in the proceeding and against expenses with respect to the proceeding (including attorney fees) if: (a) the conduct of the officer or director was in good faith, (b) the officer or director reasonably believed that his conduct was in the best interests of the corporation or at least not opposed to its best interests, (c) in the case of a criminal proceeding, the officer or director had no reasonable cause to believe his conduct was unlawful, (d) in the case of any proceeding by or in the right of the corporation, unless a court otherwise determines, if such officer or director shall not have been adjudged liable, and (e) in connection with any other proceeding charging improper personal benefit to the director or officer, unless a court otherwise determines, in which the director or officer was not adjudged liable on the basis that personal benefit was improperly received by the director or officer. Our Restated Articles of Incorporation, as amended, and Restated Bylaws, as amended, allow us to indemnify officers and directors to the fullest extent permissible by law.

The Act further provides that the articles of incorporation of a corporation may provide that no director shall be personally liable to a corporation or its shareholders for monetary damages for conduct as a director, except that such provision does not eliminate the liability of a director (i) for any breach of the directors' duty of loyalty to the corporation or its shareholders, (ii) for acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of the law, (iii) for any unlawful distribution as defined under the Act, or (iv) for any transaction from which the director derived an improper personal benefit. Our Restated Articles of Incorporation, as amended, provide that, to the fullest extent permissible by law, no director shall be personally liable to us or its shareholders for monetary damages.

We have entered into indemnification agreements with each director and certain officers that indemnify them to the full extent authorized or permitted by the Act.

We have purchased directors' and officers' liability insurance. Subject to conditions, limitations and exclusions in the policy, the insurance covers amounts required to be paid for a claim or claims made against directors and officers for any act, error, omission, misstatement, misleading statement or breach of duty by directors and officers in their

capacity as directors and officers of the Company.

II - 1

The effect of these provisions is to indemnify our directors and officers against all costs and expenses of liability incurred by them in connection with any action, suit or proceeding in which they are involved by reason of their affiliation with us, to the fullest extent permitted by law.

Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers or persons pursuant to the foregoing provisions, we have been informed that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act and is therefore unenforceable.

Item 16. Exhibits

The exhibits listed on the accompanying Exhibit Index are filed or incorporated by reference as part of this Registration Statement.

Item 17. Undertakings

The Registrant hereby undertakes:

- (1) To file, during any period in which it offers or sells securities, a post-effective amendment to this registration statement:
 - (i) To include any prospectus required by Section 10(a)(3) of the Securities Act of 1933, as amended (the "Securities Act");
 - (ii) To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than a 20 percent change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement.
 - (iii) To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement.
- (2) That, for the purpose of determining any liability under the Securities Act, each post-effective amendment shall be deemed a new registration statement relating to the securities offered therein, and the offering of such securities at the that time shall be deemed the initial bona fide offering thereof.
- (3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of this offering.
- (4) For the purpose of determining any liability under the Securities Act, each filing of the registrant's annual report pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934 (and, where applicable, each filing of an employee benefit plan's annual report pursuant to Section 15(d) of the Securities Exchange Act of 1934) that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities

offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(5) To deliver or cause to be delivered with the prospectus, to each person to whom the prospectus is sent or given, the latest annual report to security holders that is incorporated by reference in the prospectus and furnished pursuant to and meeting the requirements of Rule 14a-3 or Rule 14c-3 under the Securities Exchange Act of 1934; and, where interim financial information required to be presented by Article 3 of Regulation S-X is not set forth in the prospectus, to deliver, or cause to be delivered to each person to whom the prospectus is sent or given, the latest quarterly report that is specifically incorporated by reference in the prospectus to provide such interim financial information.

(6) Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons of the issuer pursuant to the foregoing provisions, or otherwise, the issuer has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the issuer of expenses incurred or paid by a director, officer or controlling person of the issuer in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the issuer will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.

(7) For purposes of determining any liability under the Securities Act of 1933, the information omitted from the form of prospectus filed as part of this registration statement in reliance upon Rule 430A and contained in a form of prospectus filed by the registrant pursuant to Rule 424(b)(1) or (4) or 497(h) under the Securities Act shall be deemed to be part of this registration statement as of the time it was declared effective.

(8) For determining any liability under the Securities Act of 1933, each post-effective amendment that contains a form of prospectus shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.
