On March 16, 2007, IMAX Corporation (the Company) announced that its management and the Audit Committee of the Board of Directors are evaluating certain identified accounting errors with a currently expected impact of approximately \$2.5 million in the aggregate during the past six years. The Company expects to file restated financial statements for certain periods during those years. The Company and its auditors, PricewaterhouseCoopers LLP, remain in the process of analyzing the errors. The estimated \$2.5 million in errors that occurred during 2001-2006 relate to the accounting treatment of certain costs previously capitalized that should have been expensed as incurred and unrecorded branch-level interest taxes, as well as certain adjustments for errors determined to have been immaterial and previously identified in the related periods. The Company is also evaluating the effect of these matters on its internal control over financial reporting and expects to report material weaknesses with respect to certain of these matters. In light of these matters, the Company requires additional time to prepare its financial statements. The Company intends to file its Annual Report on Form 10-K for the fiscal year ended December 31, 2006 on or before March 30, 2007. This intention is based on management assumptions and existing information and involves certain risks and uncertainties and the Company makes no assurances that it will ultimately do so.

As discussed in Part III, the Company's management and the Audit Committee of the Board of Directors are evaluating certain identified accounting errors. The Company expects to file restated financial statements for certain periods during the past six years. In light of these matters, the Company requires additional time to prepare its financial statements. Accordingly, at this time, the Company is unable to estimate the amount of any changes in its results of operations from the corresponding period for the last fiscal year.
