TANDY LEATHER FACTORY, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. BASIS OF PRESENTATION AND CERTAIN SIGNIFICANT ACCOUNTING POLICIES

In the opinion of management, the accompanying consolidated financial statements for Tandy Leather Factory, Inc. and its consolidated subsidiaries contain all adjustments (consisting of normal recurring adjustments) necessary to present fairly its financial position as of June 30, 2017 and December 31, 2016, and its results of operations and cash flows for the three and six-month periods ended June 30, 2017 and 2016. Operating results for the three and six-month periods ended June 30, 2017 are not necessarily indicative of the results that may be expected for the year ending December 31, 2017. These consolidated financial statements should be read in conjunction with the audited consolidated financial statements and accompanying notes included in our Annual Report on Form 10-K for the year ended December 31, 2016.

The preparation of financial statements in accordance with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Reclassifications. Certain prior year amounts have been reclassified to conform to the current year presentation.

Inventory. Inventory is valued at the lower of first-in, first-out cost or market. In addition, the value of inventory is periodically reduced to net realizable value for slow-moving or obsolete inventory based on management's review of items on hand compared to their estimated future demand. Based on negotiations with vendors, title generally passes to us when merchandise is put on board. Merchandise to which we have title but have not yet received is recorded as inventory in transit.

	June 30, 2017	December 31, 2016
Inventory on hand:		
Finished goods held for sale	\$33,665,227	\$30,684,026
Raw materials and work in process	1,574,142	1,034,041
Inventory in transit	2,088,119	1,459,472
	\$37,327,488	\$33,177,539

Goodwill and Other Intangibles. Goodwill represents the excess of the purchase price over the fair value of net assets acquired in a business combination. Goodwill is required to be evaluated for impairment on an annual basis, absent indicators of impairment during the interim. Application of the goodwill impairment test requires exercise of judgment, including the estimation of future cash flows, determination of appropriate discount rates and other important assumptions. Changes in these estimates and assumptions could materially affect the determination of fair value and/or goodwill impairment for each reporting unit.

A two-step process is used to test for goodwill impairment. The first phase screens for impairment, while the second phase (if necessary) measures the impairment. We have elected to perform the annual analysis during the fourth calendar quarter of each year. As of December 31, 2016, management determined that the present value of the discounted estimated future cash flows of the stores associated with the goodwill is sufficient to support their respective goodwill balances. No indicators of impairment were identified during the first half of 2017.

The only change in our goodwill for the six-month periods ended June 30, 2017 and 2016 resulted from foreign currency translation of \$3,596 and \$6,512, respectively.

Other intangibles consist of the following:

	June 30, 2017			December 31, 2016		
	<u>Gross</u>	<u>Accumulated Amortization</u>	<u>Net</u>	<u>Gross</u>	<u>Accumulated Amortization</u>	<u>Net</u>
Trademarks, Copyrights	\$554,369	\$ 545,665	\$8,704	\$554,369	\$ 545,279	\$9,090
Non-Compete Agreements	175,316	164,066	11,250	175,316	163,566	11,750
	\$729,685	\$ 709,731	\$19,954	\$729,685	\$ 708,845	\$20,840

We recorded amortization expense of \$886 during the six months ended June 30, 2017 compared to \$5,054 during the first half of 2016. All of our intangible assets, other than goodwill, are subject to amortization under U.S. GAAP. Based on the current amount of intangible assets subject to amortization, the estimated amortization expense for each of the succeeding 5 years is as follows:

2017	871
2018	1,417
2019	666
2020	666
2021	666
Thereafter	\$5,668

Revenue Recognition. Our sales generally occur via two methods: (1) at the counter in our stores, and (2) shipment by common carrier. Sales at the counter are recorded and title passes as transactions occur. Otherwise, sales are recorded and title passes when the merchandise is shipped to the customer. Shipping terms are normally FOB shipping point. Sales tax and comparable foreign tax is excluded from revenue.

We offer an unconditional satisfaction guarantee to our customers and accept all product returns. Net sales represent gross sales less negotiated price allowances, product returns, and allowances for defective merchandise.

Comprehensive Income (loss). Comprehensive income includes net income and certain other items that are recorded directly to Stockholders' Equity. Our only source of other comprehensive income is foreign currency translation adjustments

Recent Accounting Pronouncements. In May 2014, the Financial Accounting Standards Board ("FASB") issued ASU No. 2014-09, which amends ASC Topic 606, "Revenue from Contracts with Customers". The amendments in this ASU are intended to provide a more robust framework for addressing revenue issues, improve comparability of revenue recognition practices and improve disclosure requirements. The amendments in this accounting standard update are effective for interim and annual reporting periods beginning after December 15, 2016. In April 2015, FASB issued ASU No. 2015-24, Revenue from Contracts with Customers: Deferral of the Effective Date which proposed a deferral of the effective date by one year, and on July 7, 2015, FASB decided to delay the effective date by one year. The deferral results in the new revenue standard being effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2017. We are therefore required to apply the new revenue guidance beginning in our 2018 interim and annual financial statements. This ASU can be adopted either retrospectively or as a cumulative-effect adjustment as of the date of adoption. Entities reporting under U.S. GAAP are not permitted to adopt this standard earlier than the original effective date for public entities (that is, no earlier than 2017 for calendar year-end entities.) We are currently evaluating what impact, if any, the adoption of this guidance will have on our financial condition, results of operations, cash flows and financial disclosures. Based on our procedures to date, we believe that the adoption will not have a material impact to our financial condition, results of operations or cash flows although our disclosures will be expanded. We expect to adopt ASU No. 2014-09 under the modified retrospective method. Given the nature of our business and that our sales generally occur at the counter or by shipment through common carrier at observable transaction prices with little, if any, variable consideration factors, we do not expect there to be significant changes to the amount and timing of revenue recognition. Finally, while we offer an unconditional right of return to our customers, this has historically been immaterial to our financial condition, results of operations and cash flows (annual gross product returns historically have represent less than 0.5% of our net sales over the last three years).

In February 2016, the FASB issued ASU 2016-02, "Leases", a comprehensive new standard that amends various aspects of existing accounting guidance for leases, including the recognition of a right of use asset and a lease liability for leases with a duration greater than one year. The guidance is effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. Early adoption is permitted. We have not completed our review of the new guidance; however, we anticipate that upon adoption of the standard, using a modified retrospective approach, we will recognize additional assets and corresponding liabilities related to leases on our balance sheet.

2. NOTES PAYABLE AND LONG-TERM DEBT

On September 18, 2015, we executed a Promissory Note and Business Loan Agreement with BOKF, NA d/b/a Bank of Texas ("BOKF") which provides us with a line of credit facility of up to \$10,000,000 for the purpose of purchasing shares of our common stock pursuant to our stock repurchase program, announced in August 2015 and subsequently amended, which permits us to repurchase up to 2.2 million shares of our common stock at prevailing market prices through August 2018. On August 25, 2016, this line of credit was amended to increase the availability from \$10,000,000 to \$15,000,000 for the purchase of shares of our common stock through the earlier of August 25, 2017 or

the date on which the entire amount is drawn. During this time period, we are required to make monthly interest-only payments. At the end of this time period, we expect that the principal balance will be rolled into a 4-year term note. We are currently working to amend this Promissory Note to extend the drawdown period and conversion date from August 25, 2017 to August 25, 2018 to align with our stock buyback program. This Promissory Note is secured by a Deed of Trust on the real estate located at 1900 SE Loop 820, Fort Worth, Texas. There were no amounts drawn on this line during the six months ended June 30, 2017. For the six months ended June 30, 2016, we drew approximately \$3.7 million on this line which was used to purchase approximately 520,500 shares of our common stock. At June 30, 2017, the unused portion of the line of credit was approximately \$7.6 million.

Also, on September 18, 2015, we executed a Promissory Note and Business Loan Agreement with BOKF which provides us with a line of credit facility of up to \$6,000,000 and is secured by our inventory. On August 25, 2016, this line of credit was amended to extend the maturity from September 18, 2017 to September 18, 2018. The Business Loan Agreement contains covenants that require us to maintain a funded debt to EBITDA ratio of no greater than 1.5 to 1 and that we will maintain a Fixed Charge Coverage Ratio greater than or equal to 1.2 to 1. Both ratios are calculated quarterly on a trailing four quarter basis. For the six month periods ended June 30, 2017 and 2016, there were no amounts drawn on this line.

Amounts drawn under either facility accrue interest at the London interbank Eurodollar market rate for U.S. dollars (commonly known as "LIBOR") plus 1.85% (2.860% and 2.557% at June 30, 2017 and December 31, 2016, respectively).

The amount outstanding under the above agreements consisted of the following:

	<u>6/30/2017</u>	<u>12/31/2016</u>
Line of Credit, as amended, in the maximum principal amount of \$15,000,000 with features as more fully described above –matures September 18, 2021	\$7,371,730	\$7,371,730
Line of Credit, as amended, in the maximum principal amount of \$6,000,000 with revolving features as more fully described above – matures September 18, 2018	-	-
	\$7,371,730	\$7,371,730
Less current maturities	1,535,778	614,311
	\$5,835,952	\$6,757,419

3. CAPITAL LEASE OBLIGATIONS

We lease certain telecommunication equipment under a capital lease agreement. The asset subject to the agreement totaled \$227,783, of which \$217,114 and \$210,904 is included in Property and Equipment at June 30, 2017 and December 31, 2016, respectively, and \$10,669 and \$16,879 is included in Prepaid expenses (not placed in service) as of June 30, 2017 and December 31, 2016, respectively. Accumulated depreciation on the assets placed in service was approximately \$33,300 and \$21,400 at June 30, 2017 and December 31, 2016, respectively. Amortization of the capitalized cost is charged to depreciation expense. The final installment of our capital lease obligations, due at the end of 2017, is equal to \$72,686 and is included in current liabilities as of June 30, 2017.

4. STOCK-BASED COMPENSATION

We have one stock option plan that terminated in March 2017. This plan permitted annual stock option grants to non-employee directors with an exercise price equal to the fair market value of the shares at the date of grant. Options outstanding and exercisable were granted at a stock option price which was not less than the fair market value of our common stock on the date the option was granted and no option has a term in excess of ten years. Under this plan, no options were awarded to directors during the six months ended June 30, 2017 or 2016 and therefore, no share based compensation expense was recorded for the six months ended June 30, 2017 or 2016. During the six months ended June 30, 2017 and 2016, the stock option activity under this now expired stock option plans was as follows:

	Weighted Average Exercise Price	# of shares	Weighted Average Remaining Contractual Term (in years)	Aggregate Intrinsic Value

We have a restricted stock plan that was adopted by our Board of Directors in January 2013 and approved by our stockholders in June 2013. The plan reserves up to 300,000 shares of our common stock for restricted stock awards to our executive officers, non-employee directors and other key employees. Awards granted under the plan may be stock awards or performance awards, and may be subject to a graded vesting schedule with a minimum vesting period of four years, unless otherwise determined by the committee that administers the plan.

In February 2017, our five independent directors were awarded restricted stock grants consisting of 1,801 shares each. In March 2016, our Chief Executive Officer and President were awarded restricted stock grants consisting of 11,765 shares each, and our five independent directors were awarded restricted stock grants consisting of 2,031 shares each. All of these grants vest in equal annual amounts over a four-year period. The fair value of these restricted stock grants is based on the market value of our common stock on the date of grant. Compensation costs for these awards is recognized on a straight-line basis over the four-year vesting period.

On June 6, 2017, vesting for certain restricted stock grants to three of our independent directors whose Board service had just completed were accelerated which resulted in \$104,000 of compensation expense that was recognized in the three and six months ended June 30, 2017.

A summary of the activity for non-vested restricted common stock awards as of June 30, 2017 and 2016 is presented below:

5. EARNINGS PER SHARE

The following table sets forth the computation of basic and diluted earnings per share (“EPS”) for the three and six months ended June 30:

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2017	2016	2017	2016
Net income	\$1,027,732	\$1,820,915	\$2,258,997	\$3,341,912
Numerator for basic and diluted earnings per share	1,027,732	1,820,915	2,258,997	3,341,912
Denominator for basic EPS: weighted-average shares	9,225,960	9,209,446	9,212,846	9,418,645
Effect of dilutive securities:				
Stock options	-	18,495	9,810	18,975
Restricted stock	3,169	-	2,818	-
Dilutive potential common shares	3,169	18,495	12,628	18,975
Denominator for diluted EPS-weighted-average shares	9,229,129	9,227,941	9,225,474	9,437,620
Basic earnings per share	\$0.11	\$0.19	\$0.24	\$0.35
Diluted earnings per share	\$0.11	\$0.19	\$0.24	\$0.35

The net effect of assuming the exercise of all potentially dilutive common share equivalents, including stock options to purchase common stock at exercise prices less than the average market prices and restricted stock awards of an aggregate of 36,801 and 133,562 shares of common stock have been included in the computations of diluted EPS for the quarters ended June 30, 2017 and 2016, respectively.

6. COMMITMENTS AND CONTINGENCIES

Legal Proceedings. We are periodically involved in litigation that arises in the ordinary course of business and operations. There are no such matters pending that we expect to have a material impact on our financial position or operating results. Legal costs associated with the resolution of claims, lawsuits and other contingencies are expensed as incurred.

7. SEGMENT INFORMATION

Effective January 1, 2017, we updated our reporting segments to better reflect how management analyzes the business and allocates resources, as follows:

Prior Reporting Structure

1. Wholesale – chain of wholesale stores operating under the name, The Leather Factory, located in North America
2. Retail – chain of retail stores operating under the name, Tandy Leather Company, located in North America
3. International – four stores, 2 located in UK, 1 in Spain and 1 in Australia

New Reporting Structure

1. North America – chain of stores located in North America (combined prior Wholesale and Retail)
2. International – no change

Our reportable operating segments have been determined as separately identifiable business units, and we measure segment earnings as operating earnings, defined as income before interest and income taxes. The 2016 segment information has been restated to conform to the current segment structure.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations.

Our Business

We are the world’s largest specialty retailer of leather and leathercraft related items. We sell our products to our growing list of customers through company-owned stores and through orders generated from our website, www.tandyleather.com. We are a Delaware corporation, and our common stock trades on the NASDAQ Global Market under the symbol “TLF.” We have built our business by offering our customers quality products in one location at competitive prices. We believe that the key to our success is our ability to profitably grow our base business. We expect to grow that business by opening new locations and by increasing sales in our existing locations. We are also focusing on improving our customer experience, increasing our brand awareness, and strengthening our store performance. In early 2017, we announced a district restructuring with our store footprint divided into fifteen districts. Each district contains six to ten stores, reporting to a district manager who is tasked with growing traffic and sales, as well as training the next generation of store managers to better serve our customers and succeed in today’s retail environment. As of August 1, 2017, we have placed twelve of our fifteen district managers.

We operate in two segments: North America and International. Prior to January 1, 2017, we operated in three segments: Wholesale, Retail and International. To better reflect how management analyzes the business and allocates resources, we combined Wholesale and Retail into North America effective January 1, 2017, while International remains the same. All prior year data discussed throughout this Form 10Q has been restated to conform to the new reporting segment structure. There is no change to our consolidated financial position or results.

As of August 1, 2017, our North America segment operates 115 company-owned stores located in 42 U.S. states and 7 Canadian provinces. Tandy Leather Factory has long been known for its specialty retail leathercraft store chain, offering quality tools, leather, accessories, kits and teaching materials. We expect to grow the number of stores to approximately 150 in the future. Our pace of store openings has recently picked up due to a change in strategy with a focus on growth. To date in 2017, we have reopened one store in Harrisburg, PA and opened new stores in Allen, TX; Miami, FL; and McAllen, TX. We expect more North America new store openings in the future.

Our International Leathercraft segment operates four company-owned stores located in each of Northampton, United Kingdom; Manchester, United Kingdom; Sydney, Australia; and Jerez, Spain. We expect to continue opening international stores in the future, but do not intend to open any new International stores in 2017.

Critical Accounting Policies

A description of our critical accounting policies appears in Item 7 “Management’s Discussions and Analysis of Financial Condition and Results of Operations” in our Annual Report on Form 10-K for the fiscal year ended December 31, 2016.

Forward-Looking Statements

Certain statements contained in this report and other materials we file with the Securities and Exchange Commission, as well as information included in oral statements or other written statements made or to be made by us, other than statements of historical fact, are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Forward-looking statements generally are accompanied by words such as “may,” “will,” “could,” “should,” “anticipate,” “believe,” “budgeted,” “intend,” “plan,” “project,” “potential,” “estimate,” “continue,” or “future” variations thereof or other similar statements. There are certain important risks that could cause results to differ materially from those anticipated by some of the forward-looking statements. Some, but not all, of the important risks, including, without limitation, those described below, could cause actual results to differ materially from those suggested by the forward-looking statements. Please

refer also to our Annual Report on Form 10-K for fiscal year ended December 31, 2016 for additional information concerning these and other uncertainties that could negatively impact the Company. Potential factors, which could cause our actual results of operations to differ materially from those in the forward-looking statements include, among others:

- Ø General economic conditions in the United States and abroad;
- Ø Increased pressure on margins;
- Ø Increases in the cost of the products we sell or a reduction in availability of those products;
- Ø Challenges in implementing our planned expansion and district restructuring program;
- Ø Failure to hire and train qualified personnel to operate new and existing stores;
- Ø Failure to protect our trademarks and other proprietary intellectual property rights;
- Ø Negative impact of foreign currency fluctuations on our financial condition and results of operations;
- Ø Information technology system failures or network disruptions;
- Ø Significant data security or privacy breach of our information systems;
- Ø Loss or prolonged disruption in the operation of our centralized distribution center; and
- Ø Damage to our brand.

We assume no obligation to update or otherwise revise our forward-looking statements even if experience or future changes make it clear that any projected results, express or implied, will not be realized.

Results of Operations

Three Months Ended June 30, 2017 and 2016

The following tables present selected financial data for each of our segments:

	Quarter Ended June 30, 2017		Quarter Ended June 30, 2016	
	Net Sales	Income from Operations	Net Sales	Income from Operations
North America	\$18,427,425	\$1,814,887	\$18,558,938	\$2,714,312

Total	\$19,280,770	\$1,655,437	\$19,522,905	\$2,838,891

Consolidated net sales for the quarter ended June 30, 2017 decreased \$242,135, or 1.2%, compared to the same period in 2016. North America and International reported sales declines of 0.7% and 11.5%, respectively. Income from operations on a consolidated basis for the quarter ended June 30, 2017 decreased \$1,183,454, from the second quarter of 2016 primarily due to the decrease in sales and an increase in operating expenses, primarily related to the six new stores opened since October 2016, as well as investments in our district manager program.

The following table shows in comparative form our consolidated net income for the second quarter of 2017 and 2016:

	<u>2017</u>	<u>2016</u>	<u>% change</u>
Net income	\$1,027,732	\$1,820,915	(43.6 %)

Additional information appears below for each segment (see also the information contained in Note 7 to the consolidated financial statements included in Item 1 of this Report).

North America

North America consisted of 115 stores at June 30, 2017 and 109 stores at June 30, 2016. Six new stores opened since the beginning of the second quarter of 2016, with one each in Philadelphia, PA (October 2016); Lyndhurst, NJ (November 2016); Johnston, RI (December 2016); Allen, TX (April 2017); Miami, FL (May 2017); and McAllen, TX (May 2017). Our Harrisburg, PA store was temporarily closed from April 2016 to December 2016. A store is categorized as “new” until it is operating for the full comparable period in the prior year.

	# Stores	Qtr Ended 06/30/17	# Stores	Qtr Ended 06/30/16	\$ Change	% Change

Total net sales	115	\$18,427,425	109	\$18,558,938	\$ (131,513)	(0.7)%

The following table presents our sales mix by customer categories for the quarters ended June 30:

<u>Customer Group</u>	2017	2016
RETAIL (end users, consumers, individuals)	56%	53%
INSTITUTION (prisons, prisoners, hospitals, schools, youth organizations, etc.)	4%	4%
WHOLESALE (resellers & distributors, saddle & tack shops, authorized dealers, etc.)	37%	39%
MANUFACTURERS	3%	4%

Net sales decreased 0.7%, or \$132,000, for the second quarter of 2017 compared to the second quarter of 2016, primarily due to unfavorable currency exchange fluctuations in the Canadian dollar and soft sales in April 2017. By customer group, sales to our retail customers increased in the second quarter of 2017 compared to the second quarter of 2016, while sales to our wholesale and manufacturer groups declined.

Income from operations for North America during the quarter ended June 30, 2017 decreased by \$899,000 from the comparative 2016 quarter due to increase in operating expenses of \$1,193,000 offset by an increase in gross profit of \$294,000. Gross profit as a percentage of sales improved from 65.5% in the second quarter of 2016 to 67.6% in the second quarter of 2017, due to an increase in sales of higher margin products compared to last year's second quarter and customer mix with more retail than business sales. Operating expenses increased 12.6% compared to last year's comparable period. The most significant expense increases occurred in personnel, occupancy and selling costs related to the six new stores that have opened since October 2016 as well as the increase in our store manager salaries and the investment in our district manager program. We believe these investments in personnel and new stores are laying the foundation for future profitable growth.

Table of Contents

International Leathercraft

International Leathercraft consists of all stores located outside of North America. As of June 30, 2017 and 2016, the segment contained four stores, two of which are located in United Kingdom and one each in Australia and Spain (there were no new or closed stores). This segment's sales totaled approximately \$853,000 for the second quarter of 2017, compared to approximately \$964,000 in the second quarter of 2016, a decrease of \$111,000 or 11.5%, primarily due to lower average tickets and unfavorable foreign currency exchange rates in the UK and to a lesser extent, Spain. These unfavorable exchange rates also negatively impacted our gross profit margin which declined from 77% in 2016 to 52% in 2017. The impact of changes in foreign currency exchange rates in the UK and Spain makes our products more expensive and compresses gross profit. International's operating expenses of \$606,000 for the second quarter of 2017 decreased by \$10,000 compared to second quarter of 2016, primarily due to lower accrued bonus as a result of the unfavorable operating income performance quarter over quarter. Overall, advertising and marketing expenses are this segment's largest expense, followed by employee compensation, rent, travel, and shipping costs to customers.

Other Expenses

We paid \$54,000 in interest on our bank debt in the second quarter of 2017, compared to \$42,000 in the second quarter of 2016 due to a slightly higher interest rate and higher weighted average outstanding balance in 2017 compared to 2016. We recorded income of \$17,000 for currency fluctuations in the second quarter of 2017, compared to \$23,000 in the second quarter of 2016.

Six Months Ended June 30, 2017 and 2016

The following tables present selected financial data for each of our segments:

	Six Months Ended June 30, 2017		Six Months Ended June 30, 2016	
	Net Sales	Income from Operations	Net Sales	Income from Operations
North America	\$37,659,139	\$3,626,450	\$38,298,429	\$5,055,521

Total	\$39,430,615	\$3,392,928	\$40,195,132	\$5,201,681

Consolidated net sales for the six months ended June 30, 2017 decreased \$764,517, or 1.9%, compared to the same period in 2016. North America and International reported sales declines of 1.7% and 6.6%, respectively. Income from operations on a consolidated basis for the six months ended June 30, 2017 decreased 35%, or \$1,808,753, from the first half of 2016 primarily due to the decrease in sales and an increase in operating expenses, primarily related to seven new stores opened since the beginning of 2016, as well as investments in our district manager program.

The following table shows in comparative form our consolidated net income for the first half of 2017 and 2016:

	<u>2017</u>	<u>2016</u>	<u>% change</u>
Net income	\$2,258,997	\$3,341,912	(32.4 %)

Additional information appears below for each segment (see also the information contained in Note 7 to the consolidated financial statements included in Item 1 of this Report).

In addition to the six new stores mentioned previously, Nyack, NY opened in March 2016 and is considered a new store in the table below:

Table of Contents

The following table presents our sales mix by customer categories for the six months ended June 30:

<u>Customer Group</u>	2017	2016
RETAIL (end users, consumers, individuals)	58%	55%
INSTITUTION (prisons, prisoners, hospitals, schools, youth organizations, etc.)	3%	3%
WHOLESALE (resellers & distributors, saddle & tack shops, authorized dealers, etc.)	36%	38%
MANUFACTURERS	3%	4%
	100%	100%

Net sales decreased 1.7%, or \$639,000, for the first half of 2017 compared to the first half of 2016, primarily due to a soft start to the year and an overall lower average ticket as sales to our retail customers increased, while sales to our wholesale and manufacturer groups declined. However, we have seen an uptick in the number of sales transactions in May and June, compared to the same periods in 2016. We expect that this trend will continue into the second half of 2017 as our we roll out new products and our district managers continue to work with our store managers to develop local business and drive sales to our wholesale and manufacturer groups.

Income from operations for North America for the six months ended June 30, 2017 decreased \$1,429,000 from the comparative 2016 period. A decrease in gross profit of \$38,000 and an increase in operating expenses of \$1,391,000 contributed to the decline in income from operations. Gross profit as a percentage of sales increased from 63.3% in the first half of 2016 to 64.3% in the first half of 2017, due to an increase in sales of higher margin products compared to last year's first half and customer mix. Operating expenses increased 7.3% compared to last year's comparable period. The most significant expense increases occurred in personnel, occupancy and selling costs related to the seven new stores opened as well as the increase in our store manager salaries and the investment in our district manager program. We believe these investments in personnel and new stores are laying the foundation for future profitable growth.

International Leathercraft

International's sales totaled approximately \$1,771,000 for the first half of 2017, compared to approximately \$1,897,000 in the first half of 2016, a decrease of \$125,000 or 6.6%, primarily due to lower average tickets and unfavorable foreign currency exchange rates in the UK and to a lesser extent, Spain. These unfavorable exchange rates also negatively impacted our gross profit margin which declined from 69.0% in 2016 to 55.3% in 2017. The impact of changes in foreign currency exchange rates in the UK and Spain makes our products more expensive and compresses gross profit. International's operating expenses increased by \$51,000 due to higher rent and advertising costs. Operating expenses totaled approximately \$1,213,000 in the first half of 2017, up from approximately \$1,162,000 in the first half of 2016. Overall, advertising and marketing expenses are this segment's largest expense, followed by employee compensation, rent, travel, and shipping costs to customers.

Other Expenses

We paid approximately \$90,000 in interest on our bank debt in the first six months of 2017, compared to approximately \$65,000 in the first six months of 2016. We recorded approximately \$4,400 in interest income on our cash balances in the six months ended June 30, 2017 compared to approximately \$3,100 in the six months ended June 30, 2016. We recorded expense of \$15,000 for currency fluctuations in the first half of 2017. Comparatively, in the first half of 2016, we recorded income of \$5,400 for currency fluctuations.

Capital Resources, Liquidity and Financial Condition

On September 18, 2015, we executed a Promissory Note and Business Loan Agreement with BOKF, NA d/b/a Bank of Texas (“BOKF”) which provides us with a line of credit facility of up to \$10,000,000 for the purpose of purchasing shares of our common stock pursuant to our stock repurchase program, announced in August 2015 and subsequently amended, which permits us to repurchase up to 2.2 million shares of our common stock at prevailing market prices through August 2018. On August 25, 2016, this line of credit was amended to increase the availability from \$10,000,000 to \$15,000,000 for the purchase of shares of our common stock through the earlier of August 25, 2017 or the date on which the entire amount is drawn. During this time period, we are required to make monthly interest-only payments. At the end of this time period, we expect that the principal balance will be rolled into a 4-year term note. We are currently working to amend this Promissory Note to extend the drawdown period and conversion date from August 25, 2017 to August 25, 2018 to align with our stock buyback program. This Promissory Note is secured by a Deed of Trust on the real estate located at 1900 SE Loop 820, Fort Worth, Texas. There were no amounts drawn on this line during the six months ended June 30, 2017. For the six months ended June 30, 2016, we drew approximately \$3.7 million on this line which was used to purchase approximately 520,500 shares of our common stock. At June 30, 2017, the unused portion of the line of credit was approximately \$7.6 million.

Also, on September 18, 2015, we executed a Promissory Note and Business Loan Agreement with BOKF which provides us with a line of credit facility of up to \$6,000,000 and is secured by our inventory. On August 25, 2016, this line of credit was amended to extend the maturity from September 18, 2017 to September 18, 2018. The Business Loan Agreement contains covenants that require us to maintain a funded debt to EBITDA ratio of no greater than 1.5 to 1 and that we will maintain a Fixed Charge Coverage Ratio greater than or equal to 1.2 to 1. Both ratios are calculated quarterly on a trailing four quarter basis. For the six month periods ended June 30, 2017 and 2016, there were no amounts drawn on this line.

Amounts drawn under either facility accrue interest at the London interbank Eurodollar market rate for U.S. dollars (commonly known as “LIBOR”) plus 1.85% (2.860% and 2.557% at June 30, 2017 and December 31, 2016, respectively).

On our consolidated balance sheet, total assets increased from \$70.7 million at year-end 2016 to \$72.2 million at June 30, 2017. Total stockholders’ equity increased from \$53.7 million at December 31, 2016 to \$57.0 million at June 30, 2017, primarily due to net income earned in the first half of 2017, the exercise of stock options and impact of foreign currency translation. Our current ratio increased from 6.5 at December 31, 2016 to 7.2 at June 30, 2017 due primarily to the reduction in accrued liabilities for bonuses paid in the first half of 2017 and an increase in inventory.

As of June 30, 2017, our investment in inventory increased by \$4.1 million from year-end 2016, as we stocked up following the holiday sales and invest in our new stores and new products. Inventory turnover reached an annualized rate of 2.2 times during the first half of 2017, decreasing from 2.3 times for the half of 2016. Inventory turnover was 2.5 times for all of 2016. We compute our inventory turns as sales divided by average inventory.

Accounts payable decreased approximately \$138,000 to \$1.5 million at June 30, 2017 compared to \$1.6 million at year-end 2016 due to timing of payments. Accrued expenses decreased from \$5.9 million at December 31, 2016 to \$4.5 million at June 30, 2017. The payment of the 2016 manager bonuses during the first half of 2017 primarily accounted for the reduction.

During the first half of 2017, cash flow used in operating activities was \$1.2 million, composed of net income of \$2.3 million, plus \$929,000 of depreciation and amortization, plus \$628,000 of foreign currency translation, offset by changes in working capital including purchases of inventory and payments of 2016 bonus.

By comparison, during the first half of 2016, cash flow used in operating activities was approximately \$231,000, composed of net income of \$3.3 million, plus \$832,000 of depreciation and amortization, plus \$256,000 of foreign currency translation, offset by the increase in inventory and decrease in accounts payable and accrued expenses totaling \$4.4 million.

Cash flow used in investing activities totaled approximately \$1,034,000 and \$871,000 in the first half of 2017 and 2016, respectively, consisting primarily of the purchase of fixtures for new stores, store moves and remodels and computer equipment, and in 2017, vehicles and computer equipment for our new district managers.

There was \$223,000 of cash provided by financing activities in the first half of 2017, related to proceeds from the exercise of stock options, compared to \$22,000 used in financing activities in the first half of 2016. In 2016, we purchased \$3.7 million of treasury stock, funded primarily through drawdowns on our line of credit with BOKF, as well as made a scheduled payment on our capital lease obligation for \$6,710.

We expect to fund our operating and liquidity needs as well as our store growth from a combination of current cash balances and internally generated funds.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

For disclosures about market risk affecting us, see Item 7A “Quantitative and Qualitative Disclosures About Market Risk” in our Annual Report on Form 10-K for fiscal year ended December 31, 2016. We believe that our exposure to market risks has not changed significantly since December 31, 2016.

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

Our management team, under the supervision and with the participation of our principal executive officer and our principal financial officer, evaluated the effectiveness of the design and operation of our disclosure controls and procedures as such term is defined under Rule 13a-15(e) promulgated under the Securities Exchange Act of 1934, as amended, as of the last day of the fiscal period covered by this report, June 30, 2017. The term disclosure controls and procedures means our controls and other procedures that are designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission’s rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Securities Exchange Act of 1934, as amended, is accumulated and communicated to management, including our principal executive and principal financial officer, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure. Based on this evaluation, our principal executive officer and our principal financial officer concluded that, as of June 30, 2017, our disclosure controls and procedures were effective at a reasonable assurance level.

Changes in Internal Control Over Financial Reporting

There have been no changes in our internal control over financial reporting during the fiscal quarter ended June 30, 2017 that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
