BANCORP RHODE ISLAND, INC. Notes to Consolidated Financial Statements

(1) Basis of Presentation

Bancorp Rhode Island, Inc. (the "Company"), a Rhode Island corporation, is the holding company for Bank Rhode Island (the "Bank"). The Company has no significant assets other than the common stock of the Bank. For that reason, substantially all of the discussion in this Quarterly Report on Form 10-Q relates to the operations of the Bank and its subsidiaries.

The audited consolidated financial statements include the accounts of the Company and its wholly-owned direct subsidiary, the Bank, and its indirect subsidiaries, BRI Investment Corp. (a Rhode Island passive investment company), BRI Realty Corp. (a real estate holding company), Macrolease Corporation (an equipment leasing company) and Acorn Insurance Agency, Inc. (a licensed insurance agency). The Company adopted Financial Accounting Standards Board ("FASB") Interpretation 46-R, "Consolidation of Variable Interest Entities - Revised" on December 31, 2003, and therefore deconsolidated its statutory trust subsidiaries as of that date. All significant intercompany accounts and transactions have been eliminated in consolidation.

The unaudited interim results of consolidated operations are not necessarily indicative of the results for any future interim period or for the entire year. These interim consolidated financial statements do not include all disclosures associated with annual financial statements and, accordingly, should be read in conjunction with the annual consolidated financial statements and accompanying notes included in the Company's Annual Report on Form 10-K filed with the Securities and Exchange Commission ("SEC").

In preparing the unaudited consolidated financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities as of the date of the balance sheet and revenues and expenses for the period. Actual results could differ from those estimates. Material estimates that are particularly susceptible to change relate to the determination of the allowance for loan losses and goodwill valuation.

The unaudited interim consolidated financial statements of the Company have been prepared in accordance with U.S. Generally Accepted Accounting Principles ("GAAP") and prevailing practices within the banking industry and include all necessary adjustments (consisting of only normal recurring adjustments), that, in the opinion of management, are required for a fair presentation of the results and financial condition of the Company.

(2) Earnings Per Share

Edgar Filing: BANCORP RHODE ISLAND INC - Form 10-Q

Basic earnings per share ("EPS") excludes dilution and is computed by dividing income available to common shareholders by the weighted average number of common shares outstanding during the period. Diluted EPS reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised and resulted in the issuance of additional common stock that then shared in the earnings of the Company.

7

(3) Stock Based Compensation

The Company has adopted Statement of Financial Accounting Standards ("SFAS") 123, "Accounting for Stock-Based Compensation." This Statement establishes a fair value based method of accounting for stock-based compensation plans under which compensation cost is measured at the grant date based on the value of the award and is recognized over the service period. However, the Statement allows a company to continue to measure compensation cost for such plans using the intrinsic value method under which no compensation cost is recorded if, at the grant date, the exercise price of the option is equal to the fair market value of the company's stock. The Company has elected to continue to follow the intrinsic value method; accordingly, the Company must disclose in the notes to its financial statements various information as if the fair value based method of accounting had been applied.

In December 2004, the FASB issued SFAS 123-R, "Share-Based Payment", which requires companies to recognize an expense in the income statement for the grant-date fair value of stock options and other equity-based compensation issued to employees using the fair value method. This expense will be recognized over the period during which an employee is required to provide service in exchange for the award. This Statement carries forward prior guidance on accounting for awards to non-employees. If an equity award is modified after grant date, incremental compensation cost will be recognized in an amount equal to the excess of the fair value of the modified award over the fair value of the original award immediately prior to the modification.

On April 14, 2005, the SEC announced the adoption of a new rule that amends the compliance dates for SFAS 123-R, which requires registrants to implement SFAS 123-R at the beginning of their next fiscal year, instead of the next reporting period, that begins after June 15, 2005, which for the Company is January 1, 2006.

The following table summarizes the differences between the fair value and intrinsic value methods of accounting for stock-based compensation:
