1. Press release re Internet Gold Taking 015 International to the Next Stage:
To Launch Calling Card Services in Mid-December dated December 17, 2004.

Press Release

Source: Internet Gold

Internet Gold Taking 015 International to the Next Stage: To Launch Calling Card Services in Mid-December Friday December 17, 7:01 am ET PETACH TIKVA, Israel, December 17 /PRNewswire-FirstCall/ -- Internet Gold (NASDAQ: IGLD - News) today announced that its 015 International Telephony business plans to enter Israel's NIS 100 million calling card market with a launch of prepaid and postpaid calling card services during the second half of December. The calling card operations will be headed by a senior sales manager with extensive experience in the field that has recently been recruited by the Company.

"Since launching 015 in August, our focus has been on the residential market, a strategy that is in line with our work plans," said Mr. Eli Holtzman, Internet Gold's CEO. "Now, we are leveraging this success to take 015 to the next stage. Calling card services are essential for businesses in Israel, a sector we are now only beginning to address, and also for foreign workers. They are also important products for Israeli tourists, a market which is becoming larger again thanks to the increased stability of the region."

The Company's preparations to launch the new services include the production of the calling cards themselves, the solidification of its nationwide dealer and channel network, the training of sales personnel and the planning of an effective sales and marketing campaign.

"We have set ourselves a target of achieving a 10% market share of Israel's calling card market by the end of 2005," continued Mr. Holtzman. "As a well-greased 'marketing machine' with an effective nationwide dealer network and well-established distribution channels and co-operations, we are confident in our ability to achieve this goal."

About Internet Gold

Internet Gold is a communications company that provides Internet access and related value-added services, international telephony, e-advertising, content and e-Commerce services throughout Israel to both residential and business customers.

Internet Gold's operations are carried out through four subsidiaries. Its fully-owned subsidiary Internet Gold International specializes in the provision of international Internet and communication services. Its fully-owned subsidiary Gold Mind focuses on the provision of Internet value-added services. Through MSN Israel, its joint-venture with Microsoft Corp., the Company operates two of Israel's leading Internet portals, MSN-Israel and Start.co.il. Through P1000, its e-Commerce joint venture, the Company has established itself as one of Israel's leading e-Commerce providers.
