NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

1. BASIS OF PRESENTATION

The Unaudited Consolidated Financial Statements included herein reflect all adjustments (consisting of normal recurring items) which, in the opinion of management, are necessary to present fairly the results of operations and financial position of Duane Reade Inc. (the "Company"), and have been prepared, in all material respects, in accordance with the same accounting principles followed in the preparation of the Company's annual financial statements for the year ended December 30, 2000. These financial statements should be read in conjunction with the Company's financial statements included in its Annual Report on Form 10-K for the year ended December 30, 2000. The Unaudited Consolidated Financial Statements include the accounts of the Company and its subsidiaries. All significant intercompany transactions and balances have been eliminated. Certain prior year amounts have been reclassified to conform to the current year presentation. The results for the interim periods presented are not necessarily indicative of the results expected for the full year.

The Company has no assets or operations other than its investment in its subsidiary guarantors. Accordingly, the Unaudited Consolidated Financial Statements present the combined assets and operations of the subsidiary guarantors.

2. NET INCOME PER COMMON SHARE

Net income per common share is based on the weighted average shares outstanding during each period in accordance with the provisions of FASB Statement No. 128 "Earnings Per Share." Basic earnings per share is computed based on the weighted

Edgar Filing: DUANE READE INC - Form 10-Q

average number of common shares outstanding during the period. Diluted earnings per share gives effect to all dilutive potential common shares outstanding during the period. Dilutive potential common shares include shares issuable upon exercise of the Company's stock options. Options to purchase 55,156 shares at March 31, 2001 and 694,934 shares at March 25, 2000 were not included in the computation of diluted earnings per share because the options' exercise prices were greater than the average market price of the common shares.

3. INCOME TAXES

Income taxes are recorded based on the estimated effective tax rate expected to be applicable for the full fiscal year. The effective tax rate is greater than the statutory rate, principally reflecting the impact of non-deductible goodwill.

4. ACQUISITIONS

During the first quarter of 2001, the Company acquired certain assets of five separate independently owned pharmacy establishments. The total cost of these acquisitions was \$5.7 million, paid for by the issuance of common stock and was allocated as follows: customer lists (\$2.1 million), lease acquisition costs (\$1.3 million), property and equipment (\$0.9 million), inventory (\$0.7 million), goodwill (\$0.5 million) and other assets (\$0.3 million) net of accruals for expenses and liabilities assumed (\$0.1 million). The operations of the acquired stores have been included in the consolidated financial statements from the dates of the acquisitions. The pro forma impact of these acquisitions was not material to sales or results of operations of the Company for the period ended March 31, 2001.

6

5. INCOME PER COMMON SHARE

The following table sets forth the computation of income per common share for the periods presented (in thousands, except per share amounts):

	For the 13 Weeks Ended	
	March 31, 2001	March 25, 2000
Net Income	\$ 2,621	\$ 1,926
Weighted average number of common shares outstanding during the period - basic	18,315	17,404
Potential dilutive shares	869	699
Weighted average number of shares outstanding - diluted	19,184	18,103
Per common share - basic		
Net Income	\$ 0.14	\$ 0.11
Per common share - diluted		
Net Income	\$ 0.14	\$ 0.11

=====

6. NEWLY IMPLEMENTED ACCOUNTING POLICIES

Financial Accounting Standards Board Pronouncement No. 133 (FAS 133), "Accounting for Derivative Instruments and Hedging Activities," requires companies to disclose the nature and substance of derivative instrument transactions in which they may engage and to record in their financial statements the fair value of assets and liabilities and the gain or loss in comprehensive income which arises from these transactions. At March 31, 2001, the Company has reflected a tax affected loss on the swap transaction of \$1.7 million in the "Accumulated other comprehensive income" component of Shareholders' Equity.

The Company maintains an interest rate risk management strategy that allows for the use of derivative instruments to minimize significant, unanticipated earnings fluctuations caused by interest rate volatility. The Company's specific goals are (1) to manage interest rate sensitivity by modifying the maturity characteristics of certain of its debt instruments and (2) to lower (where possible) the cost of borrowed funds. Interest rate fluctuations create an unrealized appreciation or depreciation in the market value of the Company's fixed rate debt when compared to cost. The effect of this unrealized appreciation or depreciation in market value, however, will generally be offset by income or loss on derivative instruments that are linked to the debt. The Company uses interest rate swaps to convert a portion of its variable rate debt to fixed rates. The resulting cost of funds is lower than it would have been had fixed rate borrowings been issued directly. The level of fixed rate debt, after the effects of the interest rate swaps have been considered, is maintained between 50 and 75 percent of term debt.

The 1998 refinancing of the Company's debt resulted in a heavily leveraged entity, whose primary source of capital is composed of a mixture of floating rate term and revolving credit financing. The interest rates associated with these borrowings are based on prevailing LIBOR rates plus an applicable margin as defined in the Company's credit agreement. At March 31, 2001, the Company had a total of \$275,600 of outstanding floating rate debt, composed of \$254,600 of term loans and \$21,000 of revolving credit borrowings.

Due to the volatile nature of short-term interest rates, the credit agreement allows for some latitude with respect to the Company's ability to engage in transactions aimed at minimizing a portion of the risk associated with the fluctuation in short-term interest rates. In November 1998, the Company entered into an interest rate protection agreement which capped the LIBOR rate on \$65.0 million of floating rate term debt at 6.50%. Following the expiration of this agreement in November 2000, the Company purchased a two-year interest rate swap agreement with a notional amount of \$150.0 million of floating rate term loan borrowings. This swap agreement, which became effective on January 12, 2001, effectively served to convert this floating rate component of the Company's debt structure to a fixed rate of 5.8075% plus the applicable margins as defined in the Company's credit agreement. It is likely that the Company may continue to engage in transactions involving

swaps, hedges and other types of derivative instruments in a continuing effort to moderate and minimize the effects of upward changes in short-term interest rates.

Edgar Filing: DUANE READE INC - Form 10-Q

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

THE FOREGOING INFORMATION CONTAINS FORWARD-LOOKING STATEMENTS THAT INVOLVE A NUMBER OF RISKS AND UNCERTAINTIES. A NUMBER OF FACTORS COULD CAUSE OUR ACTUAL RESULTS, PERFORMANCE, ACHIEVEMENTS, OR INDUSTRY RESULTS, TO BE MATERIALLY DIFFERENT FROM ANY FUTURE RESULTS, PERFORMANCE OR ACHIEVEMENTS EXPRESSED OR IMPLIED BY THESE FORWARD-LOOKING STATEMENTS. THESE FACTORS INCLUDE, BUT ARE NOT LIMITED TO, THE COMPETITIVE ENVIRONMENT IN THE DRUGSTORE INDUSTRY IN GENERAL AND IN OUR SPECIFIC MARKET AREA; INFLATION; CHANGES IN COSTS OF GOODS AND SERVICES; ECONOMIC CONDITIONS IN GENERAL AND IN THE COMPANY'S SPECIFIC MARKET AREAS; DEMOGRAPHIC CHANGES; CHANGES IN PREVAILING INTEREST RATES AND THE AVAILABILITY OF AND TERMS OF FINANCING TO FUND THE ANTICIPATED GROWTH OF OUR BUSINESS; LIABILITY AND OTHER CLAIMS ASSERTED AGAINST US; CHANGES IN OPERATING STRATEGY OR DEVELOPMENT PLANS; THE ABILITY TO ATTRACT AND RETAIN QUALIFIED PERSONNEL; OUR SIGNIFICANT INDEBTEDNESS; LABOR DISTURBANCES; CHANGES IN OUR ACQUISITION AND CAPITAL EXPENDITURE PLANS AND OTHER FACTORS REFERENCED IN THIS REPORT. IN ADDITION, THESE FORWARD-LOOKING STATEMENTS ARE NECESSARILY DEPENDENT UPON ASSUMPTIONS, ESTIMATES AND DATES THAT MAY BE INCORRECT OR IMPRECISE AND INVOLVE KNOWN AND UNKNOWN RISKS, UNCERTAINTIES AND OTHER FACTORS. ACCORDINGLY, ANY FORWARD-LOOKING STATEMENTS INCLUDED IN THIS REPORT DO NOT PURPORT TO BE PREDICTIONS OF FUTURE EVENTS OR CIRCUMSTANCES AND MAY NOT BE REALIZED. FORWARD-LOOKING STATEMENTS CAN BE IDENTIFIED BY, AMONG OTHER THINGS, THE USE OF FORWARD-LOOKING TERMINOLOGY SUCH AS "BELIEVES," "EXPECTS," "MAY," "WILL," "SHOULD," "SEEKS," "PRO FORMA," "ANTICIPATES," "INTENDS" OR THE NEGATIVE OF ANY OF THESE TERMS, OR OTHER VARIATIONS ON THESE TERMS OR COMPARABLE TERMINOLOGY, OR BY DISCUSSIONS OF STRATEGY OR INTENTIONS. GIVEN THESE UNCERTAINTIES, WE CAUTION INVESTORS NOT TO PLACE UNDUE RELIANCE ON THESE FORWARD-LOOKING STATEMENTS. WE DISCLAIM ANY OBLIGATION TO UPDATE ANY OF THESE FACTORS OR TO PUBLICLY ANNOUNCE THE RESULTS OF ANY REVISIONS TO ANY OF THE FORWARD-LOOKING STATEMENTS CONTAINED IN THIS REPORT TO REFLECT FUTURE EVENTS OR DEVELOPMENTS.

RESULTS OF OPERATIONS

The following sets forth the results of operations as a percentage of net sales for the periods indicated.

	For the 13 Weeks Ended	
	March 31, 2001	March 25, 2000
Net sales	100.0 %	100.0 %
Cost of sales	76.2	75.8
Gross profit	23.8	24.2
Selling, general and administrative expenses	16.4	16.2
Depreciation & amortization	2.4	2.7
Store pre-opening expenses	0.2	0.1
Operating income	4.8	5.2
Interest expense, net	3.2	3.7

Edgar Filing: DUANE READE INC - Form 10-Q

Income before income taxes	1.6	1.5
Income taxes	0.7	0.6
Net income	0.9 %	0.9 %

THIRTEEN WEEKS ENDED MARCH 31, 2001 VERSUS THIRTEEN WEEKS ENDED MARCH 25, 2000

Net sales were \$271.7 million in the first quarter of 2001, an increase of 20.1% over net sales of \$226.3 million for the first quarter of 2000. Pharmacy sales increased 30.0% and represented 37.5% of total sales, while front-end sales

8

increased 14.8% and represented 62.5% of total sales. For the first quarter of 2001, third party pharmacy sales represented 85.9% of total pharmacy sales, as compared to 83.7% in the first quarter of 2000. The increase in total sales over last year was attributable to increased comparable store sales of 8.5%, including increases in pharmacy and front-end same store sales of 16.9% and 4.0%, respectively, combined with the full quarterly impact of four stores opened during the first quarter of 2000 and sales from 27 net new stores opened since the first quarter of 2000. We opened eight stores during the first quarter of 2001, compared to four store openings during the first quarter of 2000. At March 31, 2001, we operated 180 stores, versus 153 at March 25, 2000.

Cost of sales as a percentage of net sales increased to 76.2% for the first quarter of 2001 from 75.8% for the first quarter of 2000, resulting in a decrease in gross profit margin to 23.8% for the first quarter of 2001 from 24.2% for the first quarter of 2000. This decrease is primarily attributable to an increased proportion of lower margin pharmacy and third-party reimbursed pharmacy sales in relation to front-end sales, along with the impact of a milder flu season experienced in the first quarter of 2001, resulting in fewer sales of higher-margin flu-related prescriptions.

Selling, general and administrative expenses were \$44.6 million, or 16.4% of net sales, and \$36.7 million, or 16.2% of net sales in the first quarters of 2001 and 2000, respectively. The increase in these expenses as a percentage of sales resulted principally from increased advertising and promotional costs to support new store openings, combined with higher than normal seasonal maintenance costs associated with adverse winter weather experienced throughout our trading areas.

Depreciation and amortization of intangibles in the first quarters of 2001 and 2000 were \$6.5 million and \$5.9 million, respectively. This increase resulted primarily from increases in the amortization of pharmacy customer lists and lease acquisition costs for pharmacy acquisitions completed since the first quarter of 2000, combined with incremental depreciation expenses related to capital expenditures in 2000 and 2001.

We incurred store pre-opening expenses of \$0.5 million during the first quarter of 2001 related to the opening of eight stores. Store pre-opening expenses of \$0.3 million incurred during the first quarter of 2000 were attributable to the opening of four stores.

Net interest expense increased 5.2% to \$8.7 million in the first quarter of 2001 from \$8.2 million in the first quarter of 2000. This increase is attributable to several factors, including additional term and other borrowings incurred after the first quarter of 2000 in support of our store expansion program, partially offset by a decrease in short-term interest rates that favorably affected the interest rates on our floating rate term and revolving loans.

Edgar Filing: DUANE READE INC - Form 10-Q

Our income before income taxes in the first quarter of 2001 increased 33.4% to \$4.6 million from \$3.4 million in the first quarter of 2000, reflecting increased sales and related gross profit dollars, partially offset by increases in selling, general, administrative and interest expenses.

In the first quarter of 2001, we recorded an income tax provision of \$2.0 million, reflecting an estimated annual effective tax rate of 42.9%. The current year's estimated effective rate includes the anticipated benefits of certain employment-related tax credits. In the comparable period last year, the income tax provision of \$1.5 million reflected an estimated effective tax rate of 44.0%.

Our net income was \$2.6 million in the first quarter of 2001, compared to \$1.9 million in the first quarter of 2000, reflecting a \$1.2 million improvement in pre-tax income, partially offset by the incremental tax provision of \$0.5 million described above.

LIQUIDITY AND CAPITAL RESOURCES

Working capital was \$164.5 million as of March 31, 2001 and \$154.5 million as of December 30, 2000. The increase is primarily due to increases in inventory related to the opening of eight additional stores during the first quarter of 2001

9

as well as seasonal and forward buy inventory purchases, partially offset by reductions in prepaid expenses and receivables and an increase in accounts payable related to the additional inventory purchased during the quarter.

For the first quarter of 2001, net cash provided by operating activities was \$3.7 million, as compared to net cash used by operating activities of \$3.7 million in the first quarter of 2000.

Our EBITDA increased by 12.1% to \$21.1 million in the first quarter of 2001, compared to \$18.8 million in the first quarter of 2000. EBITDA as a percentage of sales was 7.8% in the first quarter of 2001, compared to 8.3% of sales in the first quarter of 2000.

Net cash used in investing activities was \$9.5 million during the first quarter of 2001, compared to \$6.0 million during the first quarter of 2000. In the first quarter of 2001, capital expenditures, primarily related to new store openings and the remodeling of existing locations, amounted to \$9.1 million. Lease acquisition costs accounted for \$0.4 million of cash used in investing activities. In the first quarter of 2000, \$5.8 million was spent on capital expenditures and \$0.2 million on lease acquisition costs.

Net cash provided by financing activities was \$5.8 million for the first quarter of 2001, compared to \$9.8 million for the first quarter of 2000. The decrease reflects the timing of new store, seasonal and forward buy inventory purchases as well as an increased level of earnings in the current year.

Our capital requirements primarily result from opening and stocking new stores, remodeling and renovating existing retail locations and from the continuing

Edgar Filing: DUANE READE INC - Form 10-Q

development of management information systems. We believe that there are significant opportunities to open additional stores, and currently plan to open approximately 50 to 60 stores through year-end 2002, including the eight stores opened during the first quarter of 2001. We expect to spend approximately \$30 million in 2001 on capital expenditures, primarily for new and replacement stores and an additional \$7 million for lease and pharmacy file acquisition costs. We also require working capital to support inventory for our existing stores. Historically, we have been able to lease our store locations.

We believe that, based on current levels of operations and anticipated growth, cash flow from operations, together with other available sources of funds, including revolving and term loan borrowings under our senior credit agreement, will be adequate for at least the next two years to make required payments of principal and interest on our indebtedness, to fund anticipated capital expenditures and working capital requirements, and to comply with the terms of our debt agreements. As of March 31, 2001, we had borrowed \$21.0 million under the revolving portion of our senior credit agreement and had \$33.2 million of remaining availability. Our ability to meet our debt service obligations and reduce our total debt will be dependent upon our future performance which, in turn, will be subject to general economic, financial, business, competitive, legislative, regulatory and other conditions, many of which are beyond our control. In addition, we cannot assure you that our operating results, cash flow and capital resources will be sufficient to repay our indebtedness in the future. Substantially all of our revolving and term loan borrowings under our senior credit agreement bear interest at floating rates. There was approximately \$275.6 million of floating rate debt outstanding on March 31, 2001. Therefore, our financial condition will be affected by changes in prevailing interest rates. On December 20, 2000, we entered into a two-year interest rate swap in the notional amount of \$150.0 million. This swap had an effective date of January 12, 2001, and represented a hedging transaction whereby we would receive interest at a floating rate and pay interest at a fixed LIBOR rate. The effect of this swap is to fix our interest obligations on \$150.0 million of floating rate debt for two years at a LIBOR rate of 5.8075% plus the applicable margins as defined in the senior credit agreement. See "--Market Risk."

The senior credit agreement and the indenture relating to our senior subordinated notes contain various covenants that limit or restrict, among other things, subject to specified exceptions, our ability to make capital expenditures, incur indebtedness, permit liens on our property, enter into transactions with affiliates, make restricted payments, investments or acquisitions, enter into mergers, consolidations or dissolutions, conduct assets sales, pay dividends or distributions and enter into other specified transactions and business activities.

Financial performance covenants included in our senior credit agreement include interest coverage, leverage ratios, minimum net worth requirements and fixed charge coverage requirements. At March 31, 2001, we were in compliance with all financial performance covenants.

TAX BENEFITS FROM NET OPERATING LOSSES

At December 30, 2000, we had net operating loss carryforwards, or NOLs, of approximately \$23 million, which are due to expire in the years 2007 through 2018. These NOLs may be used to offset future taxable income through 2018 and thereby reduce or eliminate our federal income taxes otherwise payable. The Internal Revenue Code of 1986, as amended, imposes significant limitations on the utilization of NOLs in the event of an "ownership change," as defined in Section 382 of the Code. This Section 382 limitation is an annual limitation on

Edgar Filing: DUANE READE INC - Form 10-Q

the amount of pre-ownership change NOLs that a corporation may use to offset its post-ownership change income. The Section 382 limitation is calculated by multiplying the value of a corporation's stock immediately before an ownership change by the long-term tax-exempt rate (as published by the Internal Revenue Service). Generally, an ownership change occurs with respect to a corporation if the aggregate increase in the percentage of stock ownership by value of that corporation by one or more 5% shareholders, including specified groups of shareholders who in the aggregate own at least 5% of that corporation's stock, exceeds 50 percentage points over a three-year testing period. Our recapitalization in 1997 caused us to experience an ownership change. As a result, we are currently subject to an annual Section 382 limitation of approximately \$8.5 million in 2001 and approximately \$5.1 million from 2002 to 2007 on the amount of NOLs generated prior to the recapitalization that we may use to offset future taxable income. At December 30, 2000, all of the existing NOLs were subject to this limitation. We cannot assure you that we will be able to use any NOLs to offset future taxable income or that the NOLs will not become subject to limitation due to future ownership changes. Based on our recent and projected performance, however, management believes that it is more likely than not that the full value of the NOLs will be realized.

SEASONALITY

In general, sales of drugstore items such as prescription drugs, over-the-counter drugs and health and beauty care products exhibit limited seasonality in the aggregate, but do vary by product category. Quarterly results are primarily affected by the timing of new store openings and the sale of seasonal products, with the Christmas holiday season generating a higher proportion of sales and earnings than other periods.

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

FASB Statement No. 133 "Accounting for Derivative Instruments and Hedging Activities" requires that derivative instruments such as interest rate swaps be recorded as assets and liabilities at fair value and provides guidance for recognition of changes in fair value depending on the reason for holding the derivative. As discussed in "Newly Implemented Accounting Policies" on page 7, we adopted Statement No. 133 during the first quarter of 2001, but this action did not have a material impact on our consolidated financial statements.

MARKET RISK

Our financial results are subject to risk from interest rate fluctuations on debt which carries variable interest rates. Variable rate debt outstanding under our credit agreement was approximately \$275.6 million at March 31, 2001. During 1998, in connection with senior credit agreement requirements, we entered into an interest rate protection agreement, which capped the LIBOR rate at 6.5% on \$65 million of our floating rate debt. This agreement expired in November 2000. On December 20, 2000, we purchased a two-year interest rate swap in the notional amount of \$150.0 million. This swap had an effective date of January 12, 2001, and represented a hedging transaction to effectively convert \$150.0 million of floating rate debt to a fixed rate. This fixed rate is equivalent to a LIBOR rate of 5.8075% plus the applicable margins described in our senior credit agreement. At March 31, 2001, the 90-day LIBOR rate in effect on the \$125.6 million balance of the floating rate term debt was 5.6875%. A 0.50% change in interest rates applied to the \$125.6 million balance of floating rate debt would affect pre-tax annual results of operations by approximately \$0.6 million. We also have \$80 million of senior subordinated notes outstanding at March 31, 2001, which bear interest payable semi-annually at a fixed rate of 9.25%, and are therefore not subject to risk from interest rate fluctuations. The principal objective of our investment management activities is to maintain acceptable levels of interest rate and liquidity risk to facilitate our funding needs. As part of our risk management, we may use additional derivative

Edgar Filing: DUANE READE INC - Form 10-Q

financial products such as interest rate hedges and interest rate swaps in the future.

PART II

OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

We are a party to legal actions arising in the ordinary course of business. Based on information presently available to us, we believe that we have adequate legal defenses or insurance coverage for these actions and that the ultimate outcome of these actions will not have a material adverse effect on us.

In addition, we are currently party to arbitration proceedings arising out of disputes over the purchase price with respect to the Rock Bottom acquisition. In this arbitration, RB Holdings Corporation (formerly known as Rock Bottom Stores, Inc.) claims that it is owed approximately \$1.2 million for rent and other proration payments allegedly made by RB Holdings prior to the closing. We have not disputed this claim, but we have filed counterclaims against RB Holdings seeking to recover in excess of \$42 million based on an assertion of several breaches by RB Holdings of the asset purchase agreement for the acquisition and tortious interference with a business relationship by RB Holdings. In RB Holdings' reply to our counterclaims, RB Holdings has asserted that it is entitled to recover unspecified amounts from us in connection with certain trade payables owed to our vendors. An arbitrator has been overseeing this matter and is expected to render its decision in the near future. We believe that the ultimate outcome of this action will not have a material adverse effect on our financial position or results of operations.

Also in connection with the Rock Bottom acquisition, we were awarded a purchase price adjustment of approximately \$2.15 million with respect to an inventory shortfall at the closing.

ITEM 5. OTHER INFORMATION

AMENDMENT TO MR. CUTI'S EMPLOYMENT AGREEMENT

On May 1, 2001, we entered into an amendment to Mr. Cuti's existing employment agreement to provide, in certain circumstances, for the forgiveness of a \$2.0 million loan extended to Mr. Cuti by us in November 1998 and our payment on behalf of Mr. Cuti, or assumption of his obligations under a \$1.0 million loan extended to Mr. Cuti by Donaldson, Lufkin & Jenrette, or DLJ, in

Edgar Filing: DUANE READE INC - Form 10-Q

November 1997.

Under the amendment, if prior to December 31, 2001, Mr. Cuti's employment is terminated without "cause," as a result of Mr. Cuti's death or "disability or by Mr. Cuti with "good reason," or if a "sale of the company" occurs, as these terms are defined in the amendment, we will forgive 50% of the outstanding interest and principal balance of our \$2.0 million loan, and we will pay or assume 50% of the outstanding interest and principal balance of the \$1.0 million loan from DLJ. If any of these events occur after December 31, 2001, we will forgive the outstanding interest and principal balance of our \$2.0 million loan and pay or assume the outstanding interest and principal balance of \$1.0 million loan from DLJ in their entirety.

In addition, the amendment provides for certain changes with respect to the funding of Mr. Cuti's Supplemental Executive Retirement Plan, or SERP, such that we will either, at Mr. Cuti's option, establish a "rabbi trust" and fully fund his SERP in an amount that will be calculated on the basis of 20 years of employment regardless of his actual number of years of employment with us, the present value of which was approximately \$1,837,000 as of December 30, 2000, or implement another arrangement that does not result in a total after-tax economic impact to us that is materially greater than the first alternative, upon the occurrence of any of the events described above with respect to Mr. Cuti's loans or upon his 65th birthday.

ITEM 6. EXHIBITS, FINANCIAL STATEMENT SCHEDULES AND REPORTS ON FORM 8-K

(a) The following documents are filed as a part of this report:

(i) Financial Statements

(ii) Exhibits:

- 3.1(i) Amended and Restated Certificate of Incorporation of the Company (incorporated by reference to Exhibit 3.1(i) to the Common Stock S-1).
