NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 1. Summary of Significant Accounting Policies

PRINCIPLES OF CONSOLIDATION AND BASIS OF PRESENTATION

Mandalay Resort Group (the Company), which changed its name from Circus Circus Enterprises, Inc. effective June 18, 1999, was incorporated February 27, 1974. The Company owns and operates hotel and casino facilities in Las Vegas, Reno, Laughlin, Jean and Henderson, Nevada and a hotel and dockside casino in Tunica County, Mississippi. In Detroit, Michigan, the Company is the majority investor in a temporary casino which opened December 14, 1999. It is also an investor in several unconsolidated affiliates, with operations that include a riverboat casino in Elgin, Illinois, a hotel/casino in Reno, Nevada and a hotel/casino on the Las Vegas Strip. (See Note 10 Investments in Unconsolidated Affiliates.)

The consolidated financial statements include the accounts of the Company, its wholly owned subsidiaries and the Detroit joint venture, which is required to be consolidated. Material intercompany accounts and transactions have been eliminated. Investments in 50% or less owned affiliated companies are accounted for under the equity method.

CASH EQUIVALENTS

At January 31, 2001 and 2000, cash equivalents (consisting principally of money market funds and instruments with initial maturities of three months or less) had a cost approximately equal to market value.

ACCOUNTS RECEIVABLE

Accounts receivable consists primarily of casino and hotel receivables. Casino receivables represent credit extended to approved casino customers. Hotel receivables represent charges for hotel guests and receivables related to conventions and other group business. Accounts receivable for the years ended January 31, 2001 and 2000 are shown net of an allowance for doubtful accounts of \$33.3 million and \$13.8 million, respectively, related primarily to casino receivables.

INVENTORIES

Inventories are stated at the lower of cost or market. Cost is determined using the first in, first out and the average cost methods.

DEPRECIATION AND AMORTIZATION

Depreciation and amortization of property, equipment and leasehold interests are provided using the straight line method

over the following estimated useful lives:

Buildings and improvements	15-45	years
Equipment, furniture and fixtures	3-15	years
Leasehold interests and improvements	5-16	years

Accumulated amortization of the excess of the purchase price over the fair market value of the net assets of businesses acquired was \$63.5 million and \$51.7 million, as of January 31, 2001 and 2000, respectively.

CAPITALIZED INTEREST

The Company capitalizes interest costs associated with debt incurred in connection with major construction projects. When debt is not specifically identified as being incurred in connection with a construction project, the Company capitalizes interest on amounts expended on the project at the Company's average cost of borrowed money. The amounts capitalized during the years ended January 31, 2001, 2000 and 1999, were \$1.6 million, \$11.0 million and \$45.5 million, respectively.

GOODWILL

On December 14, 1999, the Company purchased an additional ownership interest in a joint venture which operates MotorCity Casino, a temporary casino in Detroit, Michigan, bringing its total ownership interest to 53.5%. On June 1, 1995, the Company completed its acquisition of Gold Strike Resorts, in which it acquired two hotel/casino facilities in Jean, Nevada, one in Henderson, Nevada, a 50% interest in a joint venture which owns Grand Victoria, a riverboat casino and land-based entertainment complex in Elgin, Illinois, and a 50% interest in a joint venture which owns the Monte Carlo, a major hotel/casino on the Las Vegas Strip. On February 1, 1983, the Company purchased the Edgewater Hotel and Casino in Laughlin, Nevada and on November 1, 1979, the Company purchased the Slots-A-Fun Casino in Las Vegas. The excess of the purchase price over the fair market value of the net assets acquired amounted to \$38.4 million for the purchase of the additional ownership interest in MotorCity Casino, \$394.5 million for the purchase of Gold Strike Resorts, \$9.7 million for the purchase of the Edgewater and \$4.2 million for the purchase of Slots-A-Fun, and each is being amortized over a period of 40 years with the exception of the MotorCity Casino interest which is being amortized over a period of 25 years.

LONG-LIVED ASSETS

Long-lived assets are comprised of intangible assets and property, plant and equipment. Long-lived assets, including certain identifiable intangibles and goodwill related to those assets to be held and used, are reviewed for impairment whenever

events or changes in circumstances indicate that the carrying amount of the asset may not be recoverable. An estimate of undiscounted future cash flows produced by the asset, or the appropriate grouping of assets, is compared to the carrying value to determine whether an impairment exists, pursuant to the provisions of Statement of Financial Accounting Standards No. 121, Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to Be Disposed Of. If an asset is determined to be impaired based on expected future cash flows, a loss, measured using a fair-value based model, is recognized in the consolidated statements of income.

INTEREST RATE SWAPS

The Company, from time to time, uses interest rate swaps and similar financial instruments to assist in managing interest incurred on its long-term debt. The difference between amounts received and amounts paid under such agreements, as well as any costs or fees, is recorded as a reduction of, or addition to, interest expense as incurred over the life of the swap or similar financial instrument.

REVENUES AND EXPENSES

Casino revenues are the net difference between the sums received as winnings and the sums paid as losses. Incentives, such as discounts to induce casino play, are deducted from gross revenues. Revenues include the retail value of rooms, food and beverage furnished gratuitously to customers. Such amounts are then deducted as complimentary allowances. The costs of such rooms, food and beverage were included as casino expenses as follows: \$102.1 million, \$86.5 million and \$63.2 million for the fiscal years ended January 31, 2001, 2000 and 1999, respectively. For the three years, approximately 75-85% of such costs were for food and beverage with the balance for rooms.

PREOPENING EXPENSES

Preopening expenses consist principally of direct incremental personnel costs and advertising and marketing expenses. In accordance with the American Institute of Certified Public Accountants' Statement of Position 98-5, preopening expenses incurred prior to January 31, 1999 (\$33.8 million), on projects opening after that date, are reflected, net of income tax benefit of \$11.8 million, as a cumulative effect of a change in accounting principle for preopening expenses in the consolidated statements of income. Preopening expenses incurred after January 31, 1999 are expensed as incurred. Previously, these costs were capitalized prior to the opening of the specific project and were charged to expense at the commencement of operations.

For the year ended January 31, 2001, preopening expenses of

\$1.8 million relate to the Shark Reef at Mandalay Bay, which opened June 20, 2000. For the year ended January 31, 2000, preopening expenses of \$83.0 million (including the write-off of \$33.8 million of previously capitalized preopening expenses) related primarily to Mandalay Bay, the Four Seasons at Mandalay Bay, and the Company's joint venture in Detroit.

ABANDONMENT LOSS

During fiscal 2000, the Company wrote off \$5.4 million related to a proposed timeshare resort in Las Vegas which the Company decided not to pursue.

USE OF ESTIMATES

The preparation of financial statements in conformity with Generally Accepted Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and affect the disclosure of contingent assets and liabilities at the date of the financial statements. These estimates and assumptions also affect the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

RECLASSIFICATIONS

The financial statements for prior years reflect certain reclassifications, which have no effect on net income, to conform with classifications adopted in the current year.

Note 2. Property, Equipment and Leasehold Interests

Property, equipment and leasehold interests are stated at cost. Additions, including maintenance projects which extend the life of an asset, are capitalized. Normal repairs and maintenance are expensed as incurred.

The Company has established a corporate debt program whereby it can issue commercial paper or similar forms of short-term debt. Although the debt instruments issued under this program are short term in tenor, they are classified as long-term debt because (i) they are backed by long-term debt facilities (see below) and (ii) it is management's intention to continue to replace such borrowings on a rolling basis as various instruments come due and to have such borrowings outstanding for longer than one year. To the extent that the Company incurs debt under this program, it maintains an equivalent amount of credit available under its bank credit facility, discussed more fully below.

The Company maintains a \$1.8 billion unsecured credit facility which matures on July 31, 2002 (the Facility). See Note 4 Leasing Arrangements, for permanent reductions in the availability under the credit facility due to certain operating lease transactions. The maturity date may be extended for an unlimited number of one-year periods with the consent of the bank group. The Facility contains financial covenants regarding total debt and investments. The Facility is for general corporate purposes. The Company incurs commitment fees (currently 25.0 basis points) on the unused portion of the Facility. The fair value of the debt issued under the Facility and the corporate debt program approximates the carrying amount of the debt due to the short-term maturities of the individual components of the debt.

On December 14, 1999, the Company acquired an additional 8.5% ownership interest in the joint venture that owns and operates MotorCity Casino in Detroit, Michigan bringing the total ownership interest to 53.5%. Therefore, long-term debt of that joint venture is reflected as an obligation of the Company. In June 1999, the joint venture entered into a \$150 million reducing revolving credit facility (the Detroit Facility) which matures on June 30, 2003. The Detroit Facility reduces by fixed amounts quarterly, which began on December 31, 2000, and contains financial covenants regarding total debt, capital expenditures and investments. The Detroit Facility was used primarily to develop and construct the temporary casino facility. The Detroit Facility is guaranteed by the Company. The fair value of the debt issued under the Detroit Facility approximates the carrying amount of the debt.

On July 24, 2000, the Company issued \$500 million principal amount of 10-1/4% Senior Subordinated Notes due August 2007 (the 10-1/4% Notes), with interest payable each February and August. The 10-1/4% Notes are redeemable prior to maturity at the option of the Company, in whole, at 100% of the principal amount plus a make-whole premium. A portion of the 10-1/4% Notes are also redeemable at the option of the Company prior to August 1, 2003 with the proceeds of a public offering of equity securities. The 10-1/4% Notes are not subject to any sinking fund requirements. The net proceeds from this offering were used to repay borrowings under the Company's credit facility. As of January 31, 2001, the estimated fair value of the 10-1/4% Notes was \$513.1 million, based on their trading price.

On August 16, 2000, the Company issued \$200 million principal amount of 9-1/2% Senior Notes due August 2008 (the 9-1/2% Notes), with interest payable each February and August. The 9-1/2% Notes are redeemable prior to maturity at the option of the Company, in whole, at 100% of the principal amount plus a make-whole premium. The 9-1/2% Notes are not subject to any sinking fund requirements. The net proceeds from this offering were used to repay borrowings under the Company's credit facility. As of January 31, 2001, the estimated fair value of the 9-1/2% Notes was \$207.0 million, based on their trading price.

In November 1998, the Company issued \$275 million principal amount of 9-1/4% Senior Subordinated Notes due December 2005 (the 9-1/4% Notes), with interest payable each June and December. The 9-1/4% Notes are redeemable at the option of the Company, in whole, at 100% of the principal amount plus a make-whole premium at any time prior to December 1, 2002. The 9-1/4% Notes are also redeemable at the option of the Company, in whole or in part, beginning December 1, 2002 at prices declining annually to 100% on or after December 1, 2004. The Company may also use the net proceeds of a public offering of equity securities to redeem up to 35% of the 9-1/4% Notes prior to December 1, 2001. The 9-1/4% Notes are not subject to any sinking fund requirements. As of January 31, 2001, the estimated fair value of the 9-1/4% Notes was \$276.0 million, based on their trading price.

In November 1996, the Company issued \$150 million principal amount of 7.0% Debentures due November 2036 (the 7.0% Debentures). The 7.0% Debentures may be redeemed at the option of the holder in November 2008. Also, in November 1996, the Company issued \$150 million principal amount of 6.70% Debentures due November 2096 (the 6.70% Debentures). The 6.70% Debentures may be redeemed at the option of the holder in November 2003. Both the 7.0% Debentures, which were discounted to \$149.8 million, and the 6.70% Debentures, which were discounted to \$149.7 million, have interest payable each May and November, are not redeemable by the Company prior to maturity and are not subject to any sinking fund requirements. As of January 31, 2001, the estimated fair value of the 7.0% Debentures was \$133.5 million and the estimated fair value of the 6.70% Debentures was \$142.5 million, based on their trading prices.

In February 1996, the Company issued \$200 million principal amount of 6.45% Senior Notes due February 1, 2006 (the 6.45% Notes), with interest payable each February and August. The 6.45% Notes, which were discounted to \$199.6 million, are not redeemable prior to maturity and are not subject to any sinking fund requirements. As of January 31, 2001, the estimated fair value of the 6.45% Notes was \$181.5 million, based on their trading price.

In July 1993, the Company issued \$150 million principal amount of 6-3/4% Senior Subordinated Notes (the 6-3/4% Notes) due July 2003 and \$150 million principal amount of 7-5/8% Senior Subordinated Debentures (the 7-5/8% Debentures) due July 2013, with interest payable each July and January. The 6-3/4% Notes, which were discounted to \$149.8 million, and the 7-5/8% Debentures are not redeemable prior to maturity and are not subject to any sinking fund requirements. As of January 31, 2001, the estimated fair value of the 6-3/4% Notes was \$142.9 million and the estimated fair value of the 7-5/8% Debentures was \$121.5 million, based on their trading prices.

The Company has a policy aimed at managing interest rate risk associated with its current and anticipated future borrowings. This policy enables the Company to use any combination of interest rate swaps, futures, options, caps and similar instruments. To the extent the Company employs such financial instruments pursuant to this policy, and the instruments qualify for hedge accounting, they are accounted for as hedging instruments. In order to qualify for hedge accounting, the underlying hedged item must expose the Company to risks associated with market fluctuations and the financial instrument used must be designated as a hedge and must reduce the Company's exposure to market fluctuation throughout the hedge period. If these criteria are not met, a change in the market value of the financial instrument is recognized as a gain or loss in the period of change. Otherwise, gains and losses are not recognized except to the extent that the financial instrument is disposed of prior to maturity. Net interest paid or received pursuant to the financial instrument is included as interest expense in the period.

The Company has entered into various interest rate swaps, principally with its bank group, to manage interest expense, which is subject to fluctuation due to the variable-rate nature of the debt under the Company's corporate debt program. The Company has interest rate swap agreements under which it pays a fixed interest rate (weighted average of approximately 6.4%) and receives a variable interest rate (weighted average of approximately 6.5% at January 31, 2001) on \$550 million notional amount of initial swaps. The net effect of all such swaps resulted in a reduction of interest expense of \$1.2 million for the year. Three of the swaps with a combined notional amount of \$350 million terminate in fiscal 2003. The remaining swap of \$200 million notional amount terminates in fiscal 2004.

The Company is exposed to credit loss in the event of nonperformance by the other parties to the interest rate swap agreements. However, the Company considers the risk of nonperformance by the counterparties to be minimal because the parties to the swaps are predominantly members of the Company's bank group. If the Company had terminated all swaps as of January 31, 2001, the Company would have had to pay a net amount of \$14.3 million based on quoted market values from the various financial institutions holding the swaps.

As of January 31, 2001, under the Company's most restrictive loan covenant, the Company was restricted from issuing additional debt in excess of approximately \$490 million.

Required annual principal payments as of January 31, 2001 are as follows:

Year Ending January 31	(In Thousands)
2002	\$ 42,262
2003	820,313

Note 4. Leasing Arrangements

On October 30, 1998, the Company entered into an operating lease agreement with a group of financial institutions (the Lease Facility) to permit the Company to lease up to \$200 million of equipment. As of June 30, 1999, the Company had utilized the entire \$200 million Lease Facility to lease equipment at Mandalay Bay and, pursuant to the terms of the lease, the commitment under the Company's bank credit facility was permanently reduced to \$1.8 billion. The base term of the lease expires June 30, 2001. The lease agreement provides that the lease term will automatically renew for an additional one-year term (with a maximum of two successive one-year renewal terms) unless the Company makes prior election to terminate the lease. As of January 31, 2001, the lease term had been automatically extended to June 30, 2002. The rent expense related to this lease facility is reported separately on the consolidated statements of income as operating lease rent.

The Company also leases various storage facilities and equipment and has various air space under operating leases expiring individually through 2032. A portion of the Circus Circus facility in Reno is built on leased land with various

Operating rent expense	\$ 43,222	\$ 27,988	\$ 3,454

Note 5. Income Taxes

The Company accounts for income taxes according to Statement of Financial Accounting Standards No. 109, Accounting for Income Taxes (SFAS 109). SFAS 109 requires the recognition of deferred tax assets, net of applicable reserves, related to net operating loss carryforwards and certain temporary differences. The standard requires recognition of a future tax benefit to the extent that realization of such benefit is more likely than not. Otherwise, a valuation allowance is applied. At January 31, 2001, the Company believes that its deferred tax assets are fully realizable because of the future reversal of existing taxable temporary differences and future projected taxable income. Accordingly, there is no valuation allowance at January 31, 2001.

The components of the provision for income taxes are as follows:

The Company has recognized a tax benefit of \$2.7 million, \$1.7 million and \$38,000 related to the exercise of stock options for the fiscal years ended January 31, 2001, 2000 and 1999, respectively. Such amounts reduce the current portion of taxes payable.

The components of deferred income tax expense are as follows:

	Year Ended January 31		
	2001	2000	1999

Note 6. Employee Retirement Plans

Approximately 41% of the Company's employees are covered by union sponsored, collectively bargained, multi employer defined benefit pension plans. The Company contributed \$13.2 million, \$12.8 million and \$10.2 million during the years ended January 31, 2001, 2000 and 1999, respectively, for such plans. These contributions are determined in accordance with the provisions of negotiated labor contracts and generally are based on the number of hours worked.

The Company also has a profit sharing and investment plan covering primarily nonunion employees who are at least 21 years of age and have at least one year of service. The plan is a voluntary defined contribution plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974. The plan allows for investments in the Company's common stock as one of the investment alternatives. The Company's contributions to this plan are determined based on employees' years of service and matching of employees' contributions, and were approximately \$5.4 million, \$4.7 million and \$4.5 million in the years ended January 31, 2001, 2000 and 1999. Contributions are funded with cash.

On June 18, 1998, the Company adopted a Supplemental Executive Retirement Plan (SERP). The SERP is a defined benefit plan pursuant to which the Company will pay supplemental pension benefits to certain key employees upon retirement based upon the employees' years of service, compensation and SERP tier.

The following information summarizes activity in the SERP:

(1) While the SERP is an unfunded plan, the Company is informally funding the plan through life insurance contracts on the participants. The life insurance contracts had cash surrender values of \$20.9 million and \$10.3 million at January 31, 2001 and 2000.

(2) Amount recorded in the Consolidated Statement of Stockholders' Equity is net of income tax of \$3.7 million.

(3) The periodic pension expense is included in departmental expenses.

Note 7. Stock Options

The Company has various stock option plans for executive, managerial and supervisory personnel as well as the Company's outside directors and consultants. The plans permit grants of options, performance shares and restricted stock awards relating to the Company's common stock. The stock options are generally exercisable in one or more installments beginning not less than six months after the grant date.

Summarized information for stock option plans is as follows:

	Year Ended January 31,

In December 1998, replacement options to purchase an aggregate of approximately 2.6 million shares of the Company's common stock were awarded at an exercise price of \$11.25 per share, subject to the surrender for cancellation of 3.9 million options with an average exercise price of \$24.29.

Statement of Financial Accounting Standards No. 123, Accounting for Stock-Based Compensation (SFAS 123) provides, among other things, that companies may elect to account for employee stock options using a fair value method or continue to apply the intrinsic value method prescribed by Accounting Principles Board Opinion No. 25 (APB 25).

Edgar Filing: MANDALAY RESORT GROUP - Form 10-K405/A

Under SFAS 123, all employee stock option grants are considered compensatory. Compensation cost is measured at the date of grant based on the estimated fair value of the options determined using an option pricing model. The model takes into account the stock price at the grant date, the exercise price, the expected life of the option, the volatility of the stock, expected dividends on the stock and the risk-free interest rate over the expected life of the option. Under APB 25, generally only stock options that have an intrinsic value at the date of grant are considered compensatory. Intrinsic value represents the excess, if any, of the market price of the stock at the grant date over the exercise price of the options. Under both methods, compensation cost is charged to earnings over the period the options become exercisable.

The Company has elected to continue to account for employee stock options under APB 25. Accordingly, no compensation cost has been recognized.

The following table discloses the Company's pro forma net income and net income per share assuming compensation cost for employee stock options had been determined consistent with SFAS 123. The table also discloses the weighted average assumptions used in estimating the fair value of each option grant on the date of grant using the Black-Scholes option pricing model, and the estimated weighted average fair value of the options granted. The model assumes no expected future dividend payments on the Company's common stock.

Note 8. Stock Related Matters

On July 14, 1994, the Company declared a dividend of one common stock purchase right (the "Rights") for each share of common stock outstanding at the close of business on August 15, 1994. Each Right entitles the holder to purchase from the Company one share of common stock at an exercise price of \$125, subject to certain antidilution adjustments. The Rights become exercisable ten days after the earlier of an announcement that an individual or group has acquired 15% or more of the Company's outstanding common stock or the announcement of commencement of a tender offer for 15% or more of the Company's common stock.

In the event the Rights become exercisable, each Right (except the Rights beneficially owned by the acquiring individual or group, which become void) would entitle the holder to purchase, for the exercise price, a number of shares of the Company's common stock having an aggregate current market value equal to two times the exercise price. The Rights expire August 15, 2004, and may be redeemed by the Company at a price of \$.01 per Right any time prior to their expiration or the acquisition of 15% or more of the Company's common stock. The Rights should not interfere with any merger or other business combination approved by the Company's Board of Directors and are intended to cause substantial dilution to a person or group that attempts to acquire control of the Company on terms not approved by the Board of Directors.

During the year ended January 31, 2001, the Company repurchased 14.5 million shares of its common stock at a cost of \$247.1 million. In the fiscal years ended 2000 and 1999, the Company repurchased 1.7 million shares of its common stock at a cost of \$29.6 million and 4.5 million shares of its common stock at a cost of \$51.6 million, respectively. See also Note 11 - Commitments and Contingent Liabilities for information regarding the Company's agreement to purchase shares from Bank of America.

The Company is authorized to issue up to 75 million shares of \$.01 par value preferred stock in one or more series having such respective terms, rights and preferences as are designated by the Board of Directors. No preferred stock has yet been issued.

Note 9. Earnings Per Share

Earnings per share is computed and presented in accordance with Statement of Financial Accounting Standards No. 128, Earnings Per Share. Basic earnings per share is computed by dividing net income by the weighted average number of common shares outstanding during the period, while diluted earnings per share reflects the impact of additional dilution for all potentially dilutive securities, such as stock options.

The table below reconciles weighted average shares outstanding used to calculate basic earnings per share with the weighted average shares outstanding used to calculate diluted earnings per share. There were no reconciling items for net income.

Note 10. Investments in Unconsolidated Affiliates

The Company has investments in unconsolidated affiliates that are accounted for under the equity method. Under the equity method, original investments are recorded at cost and adjusted by the Company's share of earnings, losses and distributions of these companies. The investment balance also includes interest capitalized during construction. Investments in unconsolidated affiliates consist of the following:

	2001	January 31 (In Thousands)	2000
Circus and Eldorado Joint Venture (50%) (Silver Legacy, Reno, Nevada)	\$	72,222	\$ 87,150

The Company's unconsolidated affiliates operate with fiscal years ending on December 31. Summarized balance sheet information of the unconsolidated affiliates as of December 31, 2000 and 1999 is as follows:

Note 11. Commitments and Contingent Liabilities

In July 1995, Silver Legacy, a 50/50 joint venture with the Eldorado Hotel/Casino, opened in downtown Reno, Nevada. As a condition to the joint venture's \$230 million bank credit agreement, Mandalay is obligated under a make-well agreement to make additional contributions to the joint venture as may be necessary to maintain a minimum coverage ratio (as defined).

The Company has formed a joint venture with the Detroit-based Atwater Casino Group to build, own and operate a hotel/casino in Detroit, Michigan. This joint venture is one of three groups which negotiated development agreements with the city. Mandalay had an initial 45% ownership interest in the joint venture. Effective December 14, 1999, the Company acquired an additional 8.5% interest at a cost of \$38.4 million, thus increasing its total ownership interest to 53.5%.

Pending the development of a permanent hotel/casino, the joint venture constructed a temporary casino (MotorCity Casino) in downtown Detroit, which opened December 14, 1999. The cost of the temporary casino, including land and capitalized interest but excluding preopening expenses, was approximately \$150 million. This cost was financed pursuant to the joint venture's \$150 million credit facility, which is secured by the assets associated with the temporary casino. Mandalay has guaranteed this credit facility. The joint venture's operation of the temporary casino is subject to ongoing regulatory oversight, and its ability to proceed with a permanent hotel/casino facility is contingent upon the receipt of all necessary gaming approvals and satisfaction of other conditions.

Under a plan agreed to by the City of Detroit development authorities, but not yet approved by the Detroit City Council, the Company would expand its temporary facility into a permanent facility by adding approximately 800 hotel rooms, expanded casino space, convention space, retail space and additional dining and entertainment facilities. The Company has committed to contribute 20% of the cost of the permanent facility in the form of equity, and the joint venture will seek project-specific funding for the balance of the cost. The permanent facility's cost is being evaluated in light of the decision to utilize the site of the temporary casino for the permanent facility. The development agreement provides that the Company will guarantee completion of the permanent facility and will enter into a keep-well guarantee with the city, pursuant to which it could be required to contribute additional funds, if and as needed, to continue operation of the project for a period of two years. This keep-well agreement also applies to the temporary casino. Mandalay has issued letters of credit totaling \$50 million for the benefit of Bank of America in order to back letters of credit issued by Bank of America for the same total amount. The Bank of America letters of credit were issued to secure payments of principal and interest on bonds issued by the Economic Development Corporation of the City of Detroit. The proceeds of the bonds are to be used to finance costs associated with activities (including acquisition) relating to land located along the Detroit Riverfront (including the site where the joint venture's permanent facility originally was to be located).

Various lawsuits have been filed in the state and federal courts challenging the constitutionality of the Detroit Casino Competitive Selection Process and the Michigan Gaming Control and Revenue Act, and seeking to appeal the issuance of a certificate of suitability to MotorCity Casino. No assurance can be given regarding the timing and outcome of these proceedings. An adverse ruling in any of these lawsuits could adversely impact the status of the joint venture's operation of the temporary facility, as well as its ability to obtain a certificate of suitability and a casino license for its permanent facility.

In May 2000, the Company's Board of Directors authorized the purchase of up to 15% (or approximately 11.7 million) of the then outstanding shares of common stock, as market conditions and other factors warrant. As of January 31, 2001, the Company had purchased 1.8 million shares pursuant to this authorization at a cost of \$39.1 million. To facilitate the Company's purchase of shares pursuant to this authorization, the Company entered into agreements with Bank of America providing for the purchase, in accordance with the volume and other limitations of Rule 10b-18 under the Securities Exchange Act of 1934, of up to \$100 million of the Company's outstanding common stock by Bank of America. The agreements provide that the Company will purchase from Bank of America at its cost (plus accrued fees) the shares acquired pursuant to the agreements one year following completion of Bank of America's acquisition of the stock. At the Company's option, it may acquire all or a portion of the shares at an earlier date, or it may become obligated to acquire all or a portion of the shares at an earlier date under certain circumstances specified in the agreements. Although the Company's current intention is to purchase the shares in accordance with the terms of the agreements, the Company may elect to net settle the obligation in cash or shares (i.e., pay cash or deliver additional shares or receive cash or shares). As of January 31, 2001, Bank of America had purchased 4.9 million shares pursuant to this agreement at a cost of \$100 million, excluding commissions. Any shares the Company purchases from Bank of America pursuant to these agreements will reduce, by that number, the shares the Company may purchase pursuant to the May 2000 share purchase authorization.

The Company is a defendant in various pending litigation. In management's opinion, the ultimate outcome of such litigation will not have a material effect on the results of operations or the financial position of the Company.

Note 12. Recently Issued Accounting Standards

In June 1998, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards No. 133, Accounting for Derivative Instruments and Hedging Activities (SFAS 133), which the Company will adopt in the first quarter of fiscal 2002. This statement establishes accounting and reporting standards for derivative financial instruments. The provisions of SFAS 133 require that a company recognize derivatives as either assets or liabilities on its balance sheet and that the instrument be recorded at its fair value. The statement also defines the criteria and conditions which govern the recognition of subsequent changes in the fair value of the instrument. The Company will recognize the value of its interest rate swaps (\$14.3 million expense at January 31, 2001) as a cumulative effect of a change in accounting principle.

In November 2000, the Emerging Issues Task Force (EITF) of the FASB reached a consensus on EITF 00-14, Accounting for Certain Sales Incentives. EITF 00-14 requires that discounts which result in a reduction in or refund of the selling price of a product or service in a single exchange transaction be recorded as a reduction of revenues. The Company's accounting policy related to free or discounted rooms, food and beverage and other services already complies with EITF 00-14, and those free or discounted services are deducted from gross revenues as complimentary allowances. The Company's accounting policy related to discounts to induce casino play also complies with EITF 00-14, as such incentives are netted against gross casino revenues.

In February 2001, the EITF reached a partial consensus on EITF 00-22, Accounting for Points and Certain Other Time-Based or Volume-Based Sales Incentive Offers, and Offers for Free Products or Services to be Delivered in the Future. The consensus requires that vendors recognize the cash rebate or refund obligation associated with time- or volume-based cash rebates as a reduction of revenue. The liability for such obligations should be based on the estimated amount of rebates or refunds to be ultimately earned, including an estimation of breakage if it can be reasonably estimated. The consensus is applicable beginning in the first quarter of fiscal 2002.

The Company's players' clubs allow customers to earn certain complimentary services and/or cash rebates based on the volume of the customers' gaming activity. The Company accounts for its players' clubs in accordance with EITF 00-22, except that it records the charge for progress towards the complimentary services/cash rebates as a casino department expense instead of a reduction of revenue. The Company will change the classification for these charges in the first quarter of fiscal 2002, including reclassifying prior period amounts.

REPORT OF INDEPENDENT PUBLIC ACCOUNTANTS

To the Board of Directors and Stockholders of Mandalay Resort Group:

We have audited the accompanying consolidated balance sheets of Mandalay Resort Group (a Nevada corporation) and subsidiaries as of January 31, 2001 and 2000 and the related consolidated statements of income, stockholders' equity and cash flows for each of the three years in the period ended January 31, 2001. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Mandalay Resort Group and subsidiaries as of January 31, 2001 and 2000 and the results of their operations and their cash flows for each of the three years in the period ended January 31, 2001, in conformity with accounting principles generally accepted in the United States.

Management's Report on Financial Statements

The Company is responsible for preparing the consolidated financial statements and related information appearing in this report. Management believes that the financial statements present fairly the Company's financial position, results of operations and cash flows in conformity with Generally Accepted Accounting Principles. In preparing its financial statements, the Company is required to include amounts based on estimates and judgments which management believes are reasonable under the circumstances.

The Company maintains accounting and other control systems designed to provide reasonable assurance that financial records are reliable for purposes of preparing financial statements and that assets are properly accounted for and safeguarded. Compliance with these systems and controls is reviewed through a program of audits by an internal audit staff.

The Board of Directors fulfills its responsibility for the Company's financial statements through its audit committee, which is composed solely of directors who are not Company officers or employees. The audit committee meets from time to time with the independent public accountants, management and the internal auditors. The independent public accountants have direct access to the audit committee, with or without the presence of management representatives.

Elgin Riverboat Resort - Riverboat Casino

Notes to Financial Statements

1. Business

Elgin Riverboat Resort - Riverboat Casino (Joint Venture), doing business as the Grand Victoria Casino, was formed in December 1992, as a partnership, under a Joint Venture Agreement between Nevada Landing Partnership and RBG, L.P., in which each partner owns a fifty percent interest.

The Joint Venture is licensed by the Illinois Gaming Board (IGB) to own and operate a riverboat casino on the Fox River in Elgin, Illinois. The original license, issued on October 6, 1994, was valid for a three-year term. On October 17, 2000, the IGB approved the renewal of the license for a term of four years.

2. Summary of Significant Accounting Policies

Casino Revenues

In accordance with industry practice, the Joint Venture recognizes as casino revenues the net win from gaming activities, which is the difference between gaming wins and losses.

Promotional Allowances

The retail value of admissions, food and beverage, and other complimentary items furnished to customers without charge is included in gross revenue and then deducted as promotional allowances. Additionally, the estimated costs of providing such promotional allowances have been included in casino expenses as follows:

	2001	2000	1999
Admissions and other	\$ 9,164,805	\$ 8,858,483	\$ 9,843,693
Food and beverage	16,666,842	14,454,073	13,788,717
	\$ 25,831,647	\$ 23,312,556	\$ 23,632,410

Cash and Cash Equivalents

The Joint Venture considers all highly liquid investments purchased with an original maturity of three months or less to be cash equivalents. The Joint Venture maintains cash balances at a financial institution in excess of federally insured limits.

Inventories

Inventories, consisting of food, beverage, and gift shop items are stated at the lower of cost or market value. Cost is determined by the first-in, first-out method.

Property and Equipment

Property, improvements and equipment are stated at cost. The Joint Venture computes depreciation and amortization using the straight-line method over the estimated useful lives of the assets. The estimated useful lives are as follows:

Buildings	39 years
Riverboat	20 years
Land improvements	15 years
Furniture, fixtures and equipment, gaming and computer equipment	2-7 years

Reserve for Slot Club Redemption

The Joint Venture has accrued for the total liability of all points earned, but not redeemed by slot club members, less inactive players. Expenses incurred from actual cash redemptions and the change in reserve for slot club redemption is presented as a reduction in casino revenues on the statement of operations.

Income Taxes

The financial statements of the Joint Venture do not reflect a provision for income taxes because the partners are required to recognize their proportionate share of the Joint Venture's income in their individual tax returns.

Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make

estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Recently Issued Accounting Standards

In February 2001, the Emerging Issues Task Force (EITF) of the Financial Accounting Standards Board reached a consensus in EITF Issue No. 00-22, Accounting for Points and Certain Other Time-Based or Volume Based Sales Incentive Offers, and Offers for Free Products or Services to be Delivered in the Future, which requires that the redemption of points for cash be recognized as a reduction in revenue. The Joint Venture has complied with the requirements of EITF Issue No. 00-22 in the accompanying statements of operations, including reclassification of prior period amounts. The total amount of the reclassification was \$13,335,997 and \$10,337,484 in 2000 and 1999, respectively, from casino expenses to a reduction in casino revenue. The adoption of EITF Issue No. 00-22 had no effect on net income.

Reclassifications

Certain 2000 and 1999 amounts have been reclassified to conform to the 2001 presentation.

3. Property and Equipment

A summary of property and equipment at December 31, 2001 and 2000 is as follows:

	2001	2000

Total accrued liabilities	\$ 52,189,471	\$ 48,169,367

5. Fair Value of Financial Instruments

The carrying amounts of cash and cash equivalents, accounts receivable and accounts payable approximate fair value because of the short maturity of these instruments.

6. Leases

In accordance with the Ground Lease and Development Agreement, as amended, (the Agreement) the Joint Venture leases land for a term of ten years commencing with the initial issuance of the IGB license, with the right to renew the Agreement for successive five year terms, not to exceed a total lease term of thirty years. The Agreement requires annual lease payments equal to the greater of (i) \$107,195 or (ii) three percent of the Joint Venture's annual net operating income, as defined.

The future minimum lease commitments under the ground lease as of December 31, 2001 are as follows:

2002	107,195
2003	107,195
2004	81,938

Rent expense for the years ended December 31, 2001, 2000, and 1999 were \$5,207,797, \$4,822,905, and \$3,931,310, respectively.

7. Commitments

Pursuant to an agreement with the City of Elgin, the Joint Venture has guaranteed that the City shall receive at least \$500,000 annually resulting from a combination of lease payments and admission taxes. For each of the three years ended December 31, 2001, 2000, and 1999, the Joint Venture has paid amounts in excess of the guarantee.

Pursuant to the Fox River Trust Agreement, entered into on July 20, 1993, the Joint Venture has agreed to make certain payments to a trust fund for the benefit of the Fox River. Annual contributions of \$500,000 commenced on October 6, 1995, the initial anniversary date of the issuance of the IGB license, and will continue for twelve successive years.

The Joint Venture has agreed to contribute to both the County of Kane and a foundation that has been established for the benefit of educational, environmental and economic development programs in the region. The total commitment is equal to 20% of adjusted net operating income (ANOI), as defined. This commitment must be paid within 120 days of the end of the fiscal year for which it has been calculated. Donation expense for the years ended December 31, 2001, 2000, and 1999 were \$32,119,418, \$30,660,173 and \$24,394,158, respectively.

8. Related Party Transactions

Employment expenses for certain key Joint Venture employees are paid by one of the Joint Venture Partners. The Joint Venture partner is then reimbursed by the Joint Venture for these expenses.

9. Profit Sharing Plan

The Joint Venture contributes to a defined contribution plan which provides for contributions in accordance with the plan document. The plan covers substantially all employees. The Joint Venture contributes a set dollar amount to all eligible employees as well as a matching contribution of 25% of employee contributions limited to specified dollar amount as stated in the plan document. Contribution expense for the years ended December 31, 2001, 2000 and 1999 were \$613,944, \$475,943 and \$404,175, respectively.

10. Contingencies

In November 2001, the IGB proposed a fine of \$7,200,000 against the Joint Venture and certain of its employees for alleged violations of the Illinois Riverboat Gambling Act and the IGB's Adopted Rules. The Joint Venture intends to vigorously defend this matter. In the opinion of management, the amount of the ultimate liability with respect to the IGB's allegations will not materially affect the Joint Venture's financial position, results of operations or cash flows.

Report of Independent Accountants

To the Partners of the Elgin Riverboat Resort - Riverboat Casino

In our opinion, the accompanying balance sheets and the related statements of operations, partners' equity and cash flows present fairly, in all material respects, the financial position of Elgin Riverboat Resort - Riverboat Casino (Joint Venture) at December 31, 2001 and 2000, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2001 in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Joint Venture's management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with auditing standards generally accepted in the United States of America, which require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.
