Items 1.01, 1.02, and 2.03 – Entry into a Material Definitive Agreement, Termination of a Material Definitive Agreement, and Creation of a Direct Financial Obligation

On December 7, 2011, Eastman Chemical Company (the “Company”) entered into a \$750 million revolving credit agreement (the “New Credit Facility”) expiring December 7, 2016. The New Credit Facility replaces, and has terms substantially similar to, the \$700 million revolving credit agreement (the “Prior Credit Facility”) which, by its terms, was scheduled to expire in April 2012 and April 2013 and was terminated concurrently with the entry into the New Credit Facility. (The Prior Credit Facility is filed as Exhibit 4.11 to the Company's Quarterly Report on Form 10-Q for the quarter ended March 31, 2006 and Exhibit 4.10 to the Company's Quarterly Report on Form 10-Q for the quarter ended March 31, 2008 and is described in “Management’s Discussion and Analysis of Financial Condition and Results of Operations -- Liquidity, Capital Resources, and Other Financial Information – Liquidity” in the Company's Quarterly Report on Form 10-Q for the quarter ended September 30, 2011.) At December 7, 2011 the Company had no outstanding borrowings under the Prior Credit Facility, and at December 13, 2011 the Company had no outstanding borrowings under the New Credit Facility.

Borrowings under the New Credit Facility are subject to interest at varying spreads above quoted market rates, and a commitment fee is paid on the total unused commitment and letter of credit fees are paid on the amount of any issued letters of credit based upon the Company’s long-term senior unsecured non-credit-enhanced debt rating. The New Credit Facility contains a number of customary covenants and events of default, including the maintenance of a ratio of Debt to Consolidated EBITDA (as defined in the New Credit Facility) for any four consecutive quarters of not greater than 3.5 to 1. Borrowings under the New Credit Facility may be made in multiple currencies in up to U.S. \$750 million for general corporate purposes, as liquidity support for commercial paper borrowings, and for funding draws upon letters of credit issued under the New Credit Facility. The New Credit Facility provides for issuance of letters of credit in the amount of up to U.S. \$250 million.

Certain of the lenders, agents, and other parties to the New Credit Facility and their affiliates have in the past provided lending, commercial banking, underwriting, investment banking, or other advisory services to the Company for which they have received customary compensation.

This description of the New Credit Facility is not complete and is qualified in its entirety by reference to the entire New Credit Facility, a copy of which is attached hereto as Exhibit 10.01 and incorporated herein by this reference.
