 RE: Questions and Answers about the CarMax Separation

We have had many inquires about how the proposed separation of CarMax Inc. from Circuit City Stores, Inc will affect outstanding options to purchase Circuit City Group common stock and Circuit City Group restricted stock grants. This memo in question and answer format will hopefully answer those questions. We have also attached a copy of your Optionee Statement detailing your outstanding options and/or restricted stock grants.

v **Will my outstanding Circuit City Group stock options be affected by the proposed separation of CarMax from Circuit City?**

Yes. If the separation is approved by the Circuit City Group and CarMax Group shareholders, Circuit City will have only one series of common stock after the separation: Circuit City common stock. As of the separation date, each unexercised option to purchase Circuit City Group common stock will be converted into an option to purchase Circuit City common stock. In general, that option will be subject to the same terms and conditions, such as vesting and expiration, as the original option to purchase Circuit City Group common stock. The exercise price and the number of shares covered by the option will be adjusted to maintain the intrinsic value of the option by reflecting the distribution of Circuit City interest in the CarMax Group as a dividend to Circuit City Group shareholders.

v **How will the exercise price of my Circuit City Group options be adjusted?**

The adjusted exercise price will be:

$$\begin{array}{r} \text{Old Exercise Price} \\ \text{of Circuit City Group Option} \end{array} \quad \times \quad \frac{\begin{array}{r} \text{Circuit City Common Stock Value} \\ \text{(without the CarMax Dividend)} \end{array}}{\begin{array}{r} \text{Circuit City Group Common Stock Value} \\ \text{(with the CarMax Dividend)} \end{array}}$$

v **How will the number of shares covered by my Circuit City Group options be adjusted?**

The adjusted number of shares of stock will be:

$$\begin{array}{r} \text{Old Number of Shares} \\ \text{of Circuit City Group Option} \end{array} \quad \times \quad \frac{\begin{array}{r} \text{Circuit City Group Common Stock Value} \\ \text{(with the CarMax Dividend)} \end{array}}{\begin{array}{r} \text{Circuit City Common Stock Value} \\ \text{(without the CarMax Dividend)} \end{array}}$$

 QUESTIONS AND ANSWERS ABOUT THE CARMAX SEPARATION

 v **How will the value of Circuit City Group common stock and Circuit City common stock be determined for purposes of the option adjustment?**

The value of Circuit City Group common stock and of Circuit City common stock (trading on a when-issued basis) will be their respective average closing sale prices for the five trading days immediately preceding the separation date.

 v **Can you provide an example of the option adjustments?**

The following are examples of the option adjustments described above. The first example shows an adjustment of an option in the money. The second example shows an adjustment of an underwater option.

	A	B	C	D	E	F
	CC Group Stock Value With Dividend Right	CC Stock Value Without Dividend Right	CC Option Shares	Exercise Price on CC Group Option	Adjusted Number of Shares on Option = C x A / B	Adjusted Exercise Price on Option = D x B / A
Example 1	\$17.94	\$13.25	667	\$12.45	903	\$9.19523
Example 2	\$17.94	\$13.25	500	\$20.25	677	\$14.9561

 v **What will happen to Circuit City Group options that are exercised before the distribution record date?**

If you exercise a Circuit City Group option before the distribution record date, you will receive the number of Circuit City Group common shares that you elected to purchase by exercising the option. On the separation date, each Circuit City Group common share will become a share of Circuit City common stock and the holder of that share will receive approximately 0.314 of a share of CarMax common stock in the distribution. Fractional shares of CarMax common stock will not be issued in the distribution. The holder will receive cash in lieu of the fractional interest.

 v **What will happen to Circuit City Group options that are exercised after the distribution record date but before the separation date?**

If you exercise a Circuit City Group option after the distribution record date but before the separation date, you will receive the number of Circuit City Group common shares that you elected to purchase by exercising the option. On the separation date, each Circuit City Group common share will become a share of Circuit City common stock, *but you will not be entitled to receive the CarMax dividend.*

Thus, please be advised, that if you exercise a Circuit City Group option between the distribution record date and the separation date, you will not receive the CarMax dividend on the shares of Circuit City Group common stock received from the option exercise nor will the exercise price or the number of shares for your Circuit City Group option be adjusted.

PLEASE NOTE: The distribution record date has not yet been set, but is expected to be approximately ten trading days before the separation date. If the separation is approved by the Circuit City Group and CarMax Group shareholders and the Circuit City board of directors, the board will set the distribution record date and the separation date. We expect the separation date to be October 1, 2002.

The exercise price and the number of shares covered by the option will be adjusted to maintain the intrinsic value of the option by reflecting the distribution of Circuit City's interest in the CarMax Group as a dividend to Circuit City Group shareholders.

This memo in question and answer format will hopefully answer your questions about how the proposed separation of CarMax Inc. from Circuit City Stores, Inc will affect outstanding options to purchase Circuit City Group and CarMax Group common stock and restricted stock grants. We have attached a copy of your Optionee Statement detailing your outstanding options.

v **Will my outstanding Circuit City Group and CarMax Group stock options be affected by the proposed separation of CarMax from Circuit City?**

If the separation is approved, each unexercised option to purchase Circuit City Group common stock will be converted into an option to purchase Circuit City common stock and each unexercised option to purchase CarMax Group common stock will be converted into an option to purchase CarMax common stock. In general, the options will be subject to the same terms and conditions, such as vesting and expiration, as the original options to purchase Circuit City Group or CarMax Group common stock.
