Restatement of first, second quarter and first half of 2006 unaudited financial

statements

The Company reported a restatement of first, second and first half of 2006 unaudited financial statements resulting from the accounting treatment of certain aspects of the sale and leaseback transactions that were completed in March and April 2006.(3) The sale and leaseback transactions involved the sale of 13 vessels to financial institutions unaffiliated with the Company, for a consideration of \$550 million, and their simultaneous leaseback under bareboat charters to separate subsidiaries of the Company for a period of five to seven years. Under the terms of the sale and leaseback transactions, upon completion of the sale of the vessels, the Company received 90% of the consideration, or \$495 million. The remaining 10% of the consideration or \$55 million, commonly referred to as "Seller's Credit", was not due from the purchaser until not later than three months after the end of the bareboat charter period or upon the resale of the vessels by the purchaser, if earlier. The main purpose of the Seller's Credit is to secure a portion of the seller-lessee's payments to the owner-lessor. The sale and leaseback transactions resulted in a total book gain of \$96 million.

The Company deferred and amortized over the relevant charter period of five to seven years the total gain of \$82 million (which is the total gain including the present value of the Seller's Credit. This amount was included in part in "Deferred Income" in the Company's interim unaudited financial statements for the first quarter of 2006, and in full in the Company's interim unaudited financial statements for the second quarter of 2006. The Company has decided to restate its interim unaudited financial statements and exclude the Seller's Credit of \$55 million from the total gain and to defer recognition of the full amount until payment. The non-cash effect from deducting the Seller's Credit of \$55 million from the total gain of \$96 million, is to reduce net income per share by \$0.01 and \$0.07 for the first and second quarter of 2006, respectively. The net income per share in all subsequent quarters until December 31, 2010 will be reduced by approximately \$0.07.

In addition, there are some balance sheet reclassifications for the same periods resulting from the financial covenants contained in the agreements for the sale and leaseback transactions and the change of discount rate initially used to value the Seller's Credit of \$55 million.

Under the financial covenants, the Company is required to maintain a minimum amount of \$20 million up to December 15, 2006 and \$25 million thereafter and until the expiration of the bareboat charters, in a specified Company bank account. Furthermore, during the bareboat charter period, the Company is required to maintain a consolidated cash balances of at least \$50 million, including the \$20/\$25 million, mentioned above. As of June 30, 2006 and during the bareboat charter period, the amount of \$50 million will be presented separately as restricted cash, even though there are no actual restrictions as to withdrawal or use imposed by any financial institution. The restricted cash, included in Other Non-Current Assets, in the reported first and second quarter of 2006 financial results amounted to \$13.5 million, relates to minimum

liquidity requirements under loan covenants relating to the Company's owned vessels. This amount will also be included in the \$50 million minimum consolidated cash balances.

Evangelos J. Pistiolis, President and Chief Executive Officer of TOP Tankers Inc, commented, "During the third quarter of 2006, we continued our extensive upgrading of our entire fleet. The total investment in our tankers will be in excess of \$50 million and has been completed by more than 60% in 2006. We have

## Edgar Filing: TOP TANKERS INC. - Form 6-K

conducted extensive works on our tankers, closely supervised by our experienced technical team, in order to upgrade the vessels to the highest possible standards.

Once again, we would like to emphasize our commitment to provide the highest quality of service to our clients and we will continue to operate and maintain our fleet with the utmost efficiency and professionalism.

Regarding our recently announced newbuilding orders, our strategy is to modernize and expand our fleet. For that purpose, we have recently sold three Handymaxes, one built in 1998 and two built in 1999. Many people in the industry consider the aggregate sale price of \$128 million to be one of the highest prices ever achieved for such vessels.

In addition, we have entered into an agreement to acquire four newbuildings for \$191 million. Assuming we exercise our option to acquire two additional newbuildings, our current total order will increase to six vessels, or \$286 million. Furthermore, we managed to achieve deliveries in the first and second quarters of 2009, even though most shipyards are not offering tanker newbuilding deliveries before 2010, or 2011".

- (4) Consistent with general practice in the tanker shipping industry, time charter equivalent, or TCE, is a measure of the average daily revenue performance of a vessel on a per voyage basis. Our method of calculating TCE is consistent with industry standards and is determined by dividing net voyage revenue by voyage days for the relevant time period. Net voyage revenues are voyage revenues minus voyage expenses. Voyage expenses primarily consist of port, canal and fuel costs that are unique to a particular voyage, which would otherwise be paid by the charterer under a time charter contract, as well as commissions.

### Fleet Report

As of September 30, 2006, the Company's fleet under management totalled 27 vessels or 2.6 million dwt (including 18 vessels sold and leased back for a period of 5 to 7 years) as compared to 22 vessels or 2.0 million dwt on September 30, 2005.

In September and October 2006, the Company agreed to sell the vessels M/T Taintless, M/T Soundless and M/T Topless for a total consideration of \$127.5 million, resulting in an expected total book gain of \$12 million, which will be recognized in the fourth quarter of 2006. The M/T Taintless and M/T Soundless were delivered to new owners in November 2006 and the M/T Topless is expected to be delivered to its new owners by the end of December 2006.

In November, 2006, the Company entered into an agreement with SPP Shipbuilding Co, Ltd of the Republic of Korea for the construction of four 50,000 dwt Product / Chemical tankers. The vessels will be delivered during the first and second quarters of 2009. The Company also has the option to order two additional tankers with the same specifications and delivery periods. The total investment for the Company (excluding the option) will be approximately \$190.9 million, which will be funded with secured credit lines and working capital.

### APPENDIX A - SPECIFIC ITEMS AFFECTING NET INCOME AND RECONCILIATION OF EBITDA

Set forth below are some of the significant items of income and expense that affected the Company's net income for the third quarter and first nine months of 2005 and 2006, all of which are items the Company believes are typically excluded by securities analysts in their published estimates of the Company's financial results:

\* The net income for third quarter and the nine months ended September 30, 2006 was also reduced by \$0.07 and \$0.15 per share respectively, resulting from the revised accounting treatment of the Seller's Credit discussed in this release.

### EBITDA RECONCILIATION(5)

(Expressed in Thousands of U.S Dollars)	Three Months Ended September 30,		Nine Months ----- 2005 -----
	2005	2006	
NET INCOME (LOSS)	7,921	(11,394)	40,594

# Edgar Filing: TOP TANKERS INC. - Form 6-K

EBITDA	28,324	7,704	91,171
	=====	=====	=====

-----

(5) EBITDA represents earnings before interest and finance costs, net, taxes, depreciation and amortization. Interest and finance costs, net include gain or loss from termination of swaps and swap fair value changes. EBITDA is included in this release because we believe it provides investors with an understanding of operating performance over comparative periods. EBITDA should not be considered as a substitute for income from operations, net income or cash flows from operating activities (all as determined in accordance with generally accepted accounting principles) for the purpose of analyzing our operating performance, financial position and cash flows, as EBITDA is not defined by generally accepted accounting principles. We presented EBITDA, however, because it is commonly used by certain investors and analysts to analyze and compare companies on the basis of operating performance and to determine a company's ability to service and/or incur debt.
