EXPLANATORY NOTE

We refer to Highwoods Properties, Inc. as the “Company,” Highwoods Realty Limited Partnership as the “Operating Partnership,” the Company’s common stock as “Common Stock” or “Common Shares,” the Company’s preferred stock as “Preferred Stock” or “Preferred Shares,” the Operating Partnership’s common partnership interests as “Common Units” and the Operating Partnership’s preferred partnership interests as “Preferred Units.” References to “we” and “our” mean the Company and the Operating Partnership, collectively, unless the context indicates otherwise.

The Company conducts its activities through the Operating Partnership and is its sole general partner. The partnership agreement provides that the Operating Partnership will assume and pay when due, or reimburse the Company for payment of, all costs and expenses relating to the ownership and operations of, or for the benefit of, the Operating Partnership. The partnership agreement further provides that all expenses of the Company are deemed to be incurred for the benefit of the Operating Partnership.

Certain information contained herein is presented as of July 27, 2015, the latest practicable date for financial information prior to the filing of this Quarterly Report.

This report combines the Quarterly Reports on Form 10-Q for the period ended June 30, 2015 of the Company and the Operating Partnership. We believe combining the quarterly reports into this single report results in the following benefits:

- combined reports better reflect how management and investors view the business as a single operating unit;

- combined reports enhance investors' understanding of the Company and the Operating Partnership by enabling them to view the business as a whole and in the same manner as management;

- combined reports are more efficient for the Company and the Operating Partnership and result in savings in time, effort and expense; and

- combined reports are more efficient for investors by reducing duplicative disclosure and providing a single document for their review.

To help investors understand the significant differences between the Company and the Operating Partnership, this report presents the following separate sections for each of the Company and the Operating Partnership:

- Consolidated Financial Statements;

- the following Notes to Consolidated Financial Statements:

- Note 8 - Noncontrolling Interests; and

- Note 13 - Earnings Per Share and Per Unit;

- Item 4 - Controls and Procedures; and

- Item 6 - Certifications of CEO and CFO Pursuant to Sections 302 and 906 of the Sarbanes-Oxley Act.

1. Description of Business and Significant Accounting Policies

Description of Business

Highwoods Properties, Inc. (the “Company”) is a fully integrated real estate investment trust (“REIT”) that provides leasing, management, development, construction and other customer-related services for its properties and for third parties. The Company conducts its activities through Highwoods Realty Limited Partnership (the “Operating Partnership”). At June 30, 2015, we owned or had an interest in 31.4 million rentable square feet of in-service properties, 0.9 million rentable square feet of properties under development and approximately 500 acres of development land.

The Company is the sole general partner of the Operating Partnership. At June 30, 2015, the Company owned all of the Preferred Units and 93.7 million, or 97.0%, of the Common Units in the Operating Partnership. Limited partners own the remaining 2.9 million Common Units. During the six months ended June 30, 2015, the Company redeemed 26,820 Common Units for a like number of shares of Common Stock.

Common Stock Offerings

During the three and six months ended June 30, 2015, the Company issued 58,533 and 972,659 shares, respectively, of Common Stock under its equity sales agreements at an average gross sales price of \$41.72 and \$45.12 per share, respectively, and received net proceeds, after sales commissions, of \$2.4 million and \$43.2 million, respectively. As a result of this activity and the redemptions discussed above, the percentage of Common Units owned by the Company increased from 96.9% at December 31, 2014 to 97.0% at June 30, 2015.

Basis of Presentation

Our Consolidated Financial Statements are prepared in conformity with accounting principles generally accepted in the United States of America (“GAAP”). The Company's Consolidated Financial Statements include the Operating Partnership, wholly owned subsidiaries and those entities in which the Company has the controlling interest. The Operating Partnership's Consolidated Financial Statements include wholly owned subsidiaries and those entities in which the Operating Partnership has the controlling interest. All intercompany transactions and accounts have been eliminated. At December 31, 2014, we had involvement with, but were not the primary beneficiary in, an entity that we concluded to be a variable interest entity (see Note 3).

During the second quarter of 2015, as a result of our partner's irrevocable exercise of a buy-sell provision in one of our joint venture agreements, our partner's right to put its 80.0% equity interest back to us became no longer exercisable. As a result, we recorded the original contribution transaction as a partial sale and recognized \$2.2 million of gain. Our investment in this joint venture now qualifies for the equity method of accounting, which resulted in the retrospective revision of the Consolidated Balance Sheets and Consolidated Statements of Equity and Capital for all prior periods presented. The effects of the retrospective application of the equity method of accounting to the Consolidated Statements of Income, Comprehensive Income and Cash Flows were not material. The effects of the retrospective application of the equity method of accounting to the Company's December 31, 2014 Balance Sheet were as follows:

|---|------------------------|--------------|
| | Previously Reported | As Revised |

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(tabular dollar amounts in thousands, except per share and per unit data)

1. Description of Business and Significant Accounting Policies – Continued

The unaudited interim consolidated financial statements and accompanying unaudited consolidated financial information, in the opinion of management, contain all adjustments (including normal recurring accruals) necessary for a fair presentation of our financial position, results of operations and cash flows. We have condensed or omitted certain notes and other information from the interim Consolidated Financial Statements presented in this Quarterly Report as permitted by SEC rules and regulations. These Consolidated Financial Statements should be read in conjunction with our 2014 Annual Report on Form 10-K.

Use of Estimates

The preparation of consolidated financial statements in accordance with GAAP requires us to make estimates and assumptions that affect the amounts reported in the Consolidated Financial Statements and accompanying notes. Actual results could differ from those estimates.

Recently Issued Accounting Standards

The Financial Accounting Standards Board ("FASB") recently issued an accounting standards update that requires the use of a new five-step model to recognize revenue from customer contracts. The five-step model requires that we identify the contract with the customer, identify the performance obligations in the contract, determine the transaction price, allocate the transaction price to the performance obligations in the contract and recognize revenue when we satisfy the performance obligations. We will also be required to disclose information regarding the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers. The accounting standards update is required to be adopted in 2017. Retrospective application is required either to all periods presented or with the cumulative effect of initial adoption recognized in the period of adoption. We are in the process of evaluating this accounting standards update.

The FASB recently issued an accounting standards update that amends consolidation requirements. The amendments significantly change the consolidation analysis required under GAAP and will require companies to reevaluate all previous consolidation conclusions. The accounting standards update is required to be adopted in 2016. We are in the process of evaluating this accounting standards update.

The FASB recently issued an accounting standards update that requires debt issuance costs related to a recognized debt liability to be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. The accounting standards update is required to be adopted in 2016. Retrospective application is required. We are in the process of evaluating this accounting standards update.

2. Real Estate Assets

Acquisitions

During the second quarter of 2015, we acquired:

land in Atlanta, GA for a purchase price and related transaction costs of \$5.2 million (including contingent consideration of \$0.9 million); and

our Highwoods DLF 98/29, LLC joint venture partner's 77.2% interest in a building in Orlando, FL encompassing 168,000 rentable square feet in exchange for the assumption of secured debt recorded at fair value of \$19.3 million (see Note 6). We expensed \$0.1 million of acquisition costs (included in general and administrative expenses) related to this acquisition.

The assets acquired and liabilities assumed were recorded at fair value as determined by management based on information available at the acquisition date and on current assumptions as to future operations.

Dispositions

During the second quarter of 2015, we sold land for a sale price of \$0.5 million and recorded a gain on disposition of property of \$0.2 million.

During the first quarter of 2015, we sold:

two buildings for an aggregate sale price of \$3.5 million and recorded aggregate gains on disposition of property of \$0.4 million; and

land for a sale price of \$2.5 million and recorded a gain on disposition of property of \$0.8 million.

3. Mortgages and Notes Receivable

Mortgages and notes receivable were \$5.9 million and \$13.1 million at June 30, 2015 and December 31, 2014, respectively, and consisted primarily of secured financing provided to a third party. During the second quarter of 2015, \$9.9 million of secured acquisition financing provided to a third party in 2012 was repaid, including accrued interest. Previously, we concluded this arrangement to be an interest in a variable interest entity. However, since we did not have the power to direct matters that most significantly impact the activities of the entity, we did not qualify as the primary beneficiary. Accordingly, the entity was not consolidated. Our risk of loss with respect to this arrangement was limited to the carrying value of the mortgage receivable.

We evaluate the ability to collect our mortgages and notes receivable by monitoring the leasing statistics and/or market fundamentals of these assets. As of June 30, 2015, our mortgages and notes receivable were not in default and there were no other indicators of impairment.

4. Investments in and Advances to Unconsolidated Affiliates

We have equity interests of up to 50.0% in various joint ventures with unrelated third parties that are accounted for using the equity method of accounting because we have the ability to exercise significant influence over their operating and financial policies.

The following table sets forth the summarized income statements of our unconsolidated affiliates:

| | Three Months Ended June 30, | | Six Months Ended June 30, | |
|---------------------------------------|-----------------------------------|----------|------------------------------|----------|
| | 2015 | 2014 | 2015 | 2014 |

| Net income | \$17,304 | \$980 | \$20,731 | \$3,459 |

We have a 20.0% interest in SF-HIW Harborview Plaza, LP (“Harborview”). We are the manager and leasing agent for Harborview’s property in Tampa, FL and receive customary management and leasing fees. During 2012, we also provided a three-year \$20.8 million interest-only secured loan to Harborview that is scheduled to mature in September 2015. The loan bears interest at LIBOR plus 500 basis points, subject to a LIBOR floor of 0.5%. Previously, we accounted for the original contribution transaction as a financing obligation since our partner had the right to put its 80.0% equity interest back to us any time during the one-year period prior to September 11, 2015. During the second quarter of 2015, as a result of our partner’s irrevocable exercise of a buy-sell provision in our joint venture agreement, our partner’s right to put its 80.0% equity interest back to us became no longer exercisable, which resulted in recording the original contribution transaction as a partial sale. Harborview is now accounted for using the equity method of accounting. See Note 1.

See Note 2 for a description of our acquisition of a building in Orlando, FL from Highwoods DLF 98/29, LLC during the second quarter of 2015. The joint venture recorded a gain on disposition of property of \$13.7 million. Our share of \$3.1 million was recorded as a reduction to real estate assets.

During the second quarter of 2015, Highwoods KC Glenridge Office, LLC and Highwoods KC Glenridge Land, LLC collectively sold two buildings and land to an unrelated third party for an aggregate sale price of \$24.5 million (before closing credits to buyer of \$0.3 million for unfunded tenant improvements) and recorded gains on disposition of property of \$2.4 million. We recorded \$0.9 million as our share of these gains through equity in earnings of unconsolidated affiliates.

During the first quarter of 2015, Highwoods DLF 97/26 DLF 99/32, LP sold a building to an unrelated third party for a sale price of \$7.0 million and recorded a gain on disposition of property of \$2.1 million. We recorded \$1.1 million as our share of this gain through equity in earnings of unconsolidated affiliates.

6. Mortgages and Notes Payable - Continued

Our \$475.0 million unsecured revolving credit facility is scheduled to mature in January 2018 and includes an accordion feature that allows for an additional \$75.0 million of borrowing capacity subject to additional lender commitments. Assuming no defaults have occurred, we have an option to extend the maturity for two additional six-month periods. The interest rate at our current credit ratings is LIBOR plus 110 basis points and the annual facility fee is 20 basis points. There was \$159.0 million and \$158.0 million outstanding under our revolving credit facility at June 30, 2015 and July 27, 2015, respectively. At both June 30, 2015 and July 27, 2015, we had \$0.4 million of outstanding letters of credit, which reduces the availability on our revolving credit facility. As a result, the unused capacity of our revolving credit facility at June 30, 2015 and July 27, 2015 was \$315.6 million and \$316.6 million, respectively.

During the second quarter of 2015, we amended our \$225.0 million, seven-year unsecured bank term loan, which was scheduled to mature in January 2019. We increased the borrowed amount to \$350.0 million. The amended term loan is now scheduled to mature in June 2020 and the interest rate, based on our current credit ratings, was reduced from LIBOR plus 175 basis points to LIBOR plus 110 basis points. The interest rate is based on the higher of the publicly announced ratings from Moody's Investors Service or Standard & Poor's Ratings Services. The financial and other covenants under the amended term loan are unchanged. We incurred \$1.3 million of deferred financing fees in connection with this amendment, which will be amortized along with existing unamortized deferred loan fees over the remaining term of the new loan.

During the second quarter of 2015, we prepaid without penalty the remaining \$39.4 million balance on a secured mortgage loan with an effective interest rate of 6.43% that was originally scheduled to mature in November 2015. We recorded \$0.2 million of loss on debt extinguishment related to this prepayment.

During the second quarter of 2015, we acquired our joint venture partner's 77.2% interest in a building in Orlando, FL. Simultaneously with this acquisition, the joint venture's previously existing mortgage note was restructured into a new \$18.0 million first mortgage note and a \$10.2 million subordinated note, both of which are scheduled to mature in July 2017. The first mortgage note is interest only with an effective interest rate of 5.36%, payable monthly. The subordinated note has an effective interest rate of 8.6%. Additionally, we deposited \$3.0 million into escrow to fund tenant improvements, leasing commissions and building improvements. The first mortgage note and subordinated note can be prepaid at any time commencing October 2016 upon a sale or refinancing of the property. In such event, the subordinated note and any and all accrued interest thereon would be deemed fully satisfied upon payment of a "waterfall payment," if any. Such "waterfall payment" would be a cash payment equal to 50.0% of the amount, if any, by which the net sale proceeds or appraised value in the event of a refinancing exceeds (1) the outstanding principal of the first mortgage note, (2) the funds deposited by us into escrow to fund tenant improvements, leasing commissions and building improvements and (3) a 10.0% return on such funds deposited by us into escrow. As of June 30, 2015, the fair value of the first mortgage note was \$18.3 million and the fair value of the subordinated note equaled the projected waterfall payment of \$1.0 million.

We are currently in compliance with financial covenants and other requirements with respect to our consolidated debt.

7. Derivative Financial Instruments

Our interest rate swaps have been designated as and are being accounted for as cash flow hedges with changes in fair value recorded in other comprehensive income/(loss) each reporting period. No gain or loss was recognized related to hedge ineffectiveness or to amounts excluded from effectiveness testing on our cash flow hedges during the six months ended June 30, 2015 and 2014. We have no collateral requirements related to our interest rate swaps.

Amounts reported in accumulated other comprehensive loss ("AOCL") related to derivatives will be reclassified to interest expense as interest payments are made on our variable-rate debt. During the period from July 1, 2015 through June 30, 2016, we estimate that \$2.9 million will be reclassified to interest expense.

9. Disclosure About Fair Value of Financial Instruments

The following summarizes the three levels of inputs that we use to measure fair value.

Level 1. Quoted prices in active markets for identical assets or liabilities.

Our Level 1 asset is our investment in marketable securities that we use to pay benefits under our non-qualified deferred compensation plan. Our Level 1 liability is our non-qualified deferred compensation obligation. The Company's Level 1 noncontrolling interests in the Operating Partnership relate to the ownership of Common Units by various individuals and entities other than the Company.

Level 2. Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the related assets or liabilities.

Our Level 2 asset is the fair value of certain of our mortgages and notes receivable. Our Level 2 liabilities include the fair value of our mortgages and notes payable and interest rate swaps.

The fair value of mortgages and notes receivable and mortgages and notes payable is estimated by the income approach utilizing contractual cash flows and market-based interest rates to approximate the price that would be paid in an orderly transaction between market participants. The fair value of interest rate swaps is determined using the market standard methodology of netting the discounted future fixed cash receipts and the discounted expected variable cash payments. The variable cash payments of interest rate swaps are based on the expectation of future LIBOR interest rates (forward curves) derived from observed market LIBOR interest rate curves. In addition, credit valuation adjustments are incorporated in the fair values to account for potential nonperformance risk, but were concluded to not be significant inputs to the calculation for the periods presented.

Level 3. Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Our Level 3 assets include (1) certain of our mortgages and notes receivable, which were estimated by the income approach utilizing internal cash flow projections and market interest rates to estimate the price that would be paid in an orderly transaction between market participants, and (2) our tax increment financing bond, which is not routinely traded but whose fair value is determined by the income approach utilizing contractual cash flows and market-based interest rates to estimate the projected redemption value based on quoted bid/ask prices for similar unrated municipal bonds.

Our Level 3 liability is the fair value of our financing obligation, which was estimated by the income approach to approximate the price that would be paid in an orderly transaction between market participants, utilizing: (1) contractual cash flows; (2) market-based interest rates; and (3) a number of other assumptions including demand for space, competition for customers, changes in market rental rates, costs of operation and expected ownership periods.

9. Disclosure About Fair Value of Financial Instruments - Continued

The following table sets forth the changes in our Level 3 asset, which is recorded at fair value on our Consolidated Balance Sheets:

| | Three Months Ended June 30, | | Six Months Ended June 30, | |
|-------------------------------|--------------------------------|----------|------------------------------|----------|
| | 2015 | 2014 | 2015 | 2014 |
| Asset: | | | | |
| Tax Increment Financing Bond: | | | | |
| Beginning balance | \$12,640 | \$13,568 | \$12,447 | \$13,403 |
| Unrealized gains (in AOCL) | 1 | 105 | 194 | 270 |
| Ending balance | \$12,641 | \$13,673 | \$12,641 | \$13,673 |

During 2007, we acquired a tax increment financing bond associated with a parking garage developed by us. This bond amortizes to maturity in 2020. The estimated fair value at June 30, 2015 was \$0.2 million below the outstanding principal due on the bond. If the discount rate used to fair value this bond was 100 basis points higher or lower, the fair value of the bond would have been \$0.3 million lower or \$0.4 million higher, respectively, as of June 30, 2015. We intend to hold this bond and have concluded that we will not be required to sell this bond before recovery of the bond principal. Payment of the principal and interest for the bond is guaranteed by us. We have recorded no credit losses related to the bond during the three and six months ended June 30, 2015 and 2014. There is no legal right of offset with the liability, which we report as a financing obligation, related to this tax increment financing bond.

The following table sets forth quantitative information about the unobservable input of our Level 3 asset, which is recorded at fair value on our Consolidated Balance Sheets:

| | Valuation Technique | Unobservable Input | Rate as of June 30, 2015 | December 31, 2014 |
|------------------------------|------------------------|-----------------------|--------------------------------|----------------------|
| Asset: | | | | |
| Tax increment financing bond | Income approach | Discount rate | 8.1% | 8.4% |

10. Share-Based Payments

During the six months ended June 30, 2015, the Company granted 197,408 stock options with an exercise price equal to the closing market price of a share of Common Stock on the date of grant. The fair value of each option is estimated on the date of grant using the Black-Scholes option pricing model, which resulted in a weighted average grant date fair value per share of \$6.19. During the six months ended June 30, 2015, the Company also granted 71,994 shares of time-based restricted stock and 56,957 shares of total return-based restricted stock with weighted average grant date fair values per share of \$45.91 and \$43.77, respectively. We recorded share-based compensation expense of \$1.2 million and \$1.1 million during the three months ended June 30, 2015 and 2014, respectively, and \$5.1 million and \$5.4 million during the six months ended June 30, 2015 and 2014, respectively. At June 30, 2015, there was \$6.7

million of total unrecognized share-based compensation costs, which will be recognized over a weighted average remaining contractual term of 2.6 years.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The Company is a fully integrated office REIT that owns, develops, acquires, leases and manages properties primarily in the best business districts (BBDs) of Atlanta, Greensboro, Kansas City, Memphis, Nashville, Orlando, Pittsburgh, Raleigh, Richmond and Tampa. The Company conducts its activities through the Operating Partnership. The Operating Partnership is managed by the Company, its sole general partner. Additional information about us can be found on our website at www.highwoods.com. Information on our website is not part of this Quarterly Report.

You should read the following discussion and analysis in conjunction with the accompanying Consolidated Financial Statements and related notes contained elsewhere in this Quarterly Report.

Disclosure Regarding Forward-Looking Statements

Some of the information in this Quarterly Report may contain forward-looking statements. Such statements include, in particular, statements about our plans, strategies and prospects under this section. You can identify forward-looking statements by our use of forward-looking terminology such as “may,” “will,” “expect,” “anticipate,” “estimate,” “continue” or similar words. Although we believe that our plans, intentions and expectations reflected in or suggested by such forward-looking statements are reasonable, we cannot assure you that our plans, intentions or expectations will be achieved. When considering such forward-looking statements, you should keep in mind the following important factors that could cause our actual results to differ materially from those contained in any forward-looking statement:

- the financial condition of our customers could deteriorate;
- we may not be able to lease or re-lease second generation space, defined as previously occupied space that becomes available for lease, quickly or on as favorable terms as old leases;
- we may not be able to lease our newly constructed buildings as quickly or on as favorable terms as originally anticipated;
- we may not be able to complete development, acquisition, reinvestment, disposition or joint venture projects as quickly or on as favorable terms as anticipated;
- development activity by our competitors in our existing markets could result in an excessive supply relative to customer demand;
- our markets may suffer declines in economic growth;
- unanticipated increases in interest rates could increase our debt service costs;
- unanticipated increases in operating expenses could negatively impact our operating results;
- we may not be able to meet our liquidity requirements or obtain capital on favorable terms to fund our working capital needs and growth initiatives or repay or refinance outstanding debt upon maturity; and
- the Company could lose key executive officers.

This list of risks and uncertainties, however, is not intended to be exhaustive. You should also review the other cautionary statements we make in “Business – Risk Factors” set forth in our 2014 Annual Report on Form 10-K. Given

these uncertainties, you should not place undue reliance on forward-looking statements. We undertake no obligation to publicly release the results of any revisions to these forward-looking statements to reflect any future events or circumstances or to reflect the occurrence of unanticipated events.

Executive Summary

Our Strategic Plan focuses on:

- owning high-quality, differentiated real estate assets in the BBDs of our core markets;
- improving the operating results of our existing properties through concentrated leasing, asset management, cost control and customer service efforts;
- developing and acquiring office properties in BBDs that improve the overall quality of our portfolio and generate attractive returns over the long term for our stockholders;
- disposing of properties no longer considered to be core assets primarily due to location, age, quality and overall strategic fit; and
- maintaining a conservative and flexible balance sheet with ample liquidity to meet our funding needs and growth prospects.

Revenues

Our operating results depend heavily on successfully leasing and operating the office space in our portfolio. Economic growth and employment levels in our core markets are and will continue to be important factors in predicting our future operating results.

The key components affecting our rental and other revenues are average occupancy, rental rates, cost recovery income, new developments placed in service, acquisitions and dispositions. Average occupancy generally increases during times of improving economic growth, as our ability to lease space outpaces vacancies that occur upon the expirations of existing leases. Average occupancy generally declines during times of slower economic growth, when new vacancies tend to outpace our ability to lease space. Asset acquisitions, dispositions and new developments placed in service directly impact our rental revenues and could impact our average occupancy, depending upon the occupancy rate of the properties that are acquired, sold or placed in service. A further indicator of the predictability of future revenues is the expected lease expirations of our portfolio. As a result, in addition to seeking to increase our average occupancy by leasing current vacant space, we also must concentrate our leasing efforts on renewing our existing leases prior to expiration. For more information regarding our lease expirations, see "Properties - Lease Expirations" in our 2014 Annual Report on Form 10-K. Our occupancy for our office portfolio increased from 91.2% at December 31, 2014 to 92.4% at June 30, 2015. We expect average occupancy for our office portfolio to be approximately 92% to 93% for the remainder of 2015.

Whether or not our rental revenue tracks average occupancy proportionally depends upon whether GAAP rents under signed new and renewal leases are higher or lower than the GAAP rents under expiring leases. Annualized rental revenues from second generation leases expiring during any particular year are generally less than 15% of our total annual rental revenues. The following table sets forth information regarding second generation office leases signed during the second quarter of 2015 (we define second generation office leases as leases with new customers and renewals of existing customers in office space that has been previously occupied under our ownership and leases with respect to vacant space in acquired buildings):

| | New | Renewal | All Office |
|---|---------|---------|------------|
| Leased space (in rentable square feet) | 331,734 | 584,764 | 916,498 |
| Average term (in years - rentable square foot weighted) | 6.7 | 4.1 | 5.0 |

Edgar Filing: HIGHWOODS PROPERTIES INC - Form 10-Q

| | | | |
|--|---------|---------|---------|
| Base rents (per rentable square foot) (1) | \$24.03 | \$23.95 | \$23.98 |
| Rent concessions (per rentable square foot) (1) | (1.12) | (0.30) | (0.60) |
| GAAP rents (per rentable square foot) (1) | \$22.91 | \$23.65 | \$23.38 |
| Tenant improvements (per rentable square foot) (1) | \$3.57 | \$1.73 | \$2.39 |
| Leasing commissions (per rentable square foot) (1) | \$0.91 | \$0.70 | \$0.77 |

(1) Weighted average per rentable square foot on an annual basis over the lease term.

Compared to previous leases in the same office spaces, annual combined GAAP rents for new and renewal leases signed in the second quarter were \$23.38 per rentable square foot, or 9.3% higher.

Table of Contents

We strive to maintain a diverse, stable and creditworthy customer base. We have an internal guideline whereby customers that account for more than 3% of our revenues are periodically reviewed with the Company's Board of Directors. As of June 30, 2015, no customer accounted for more than 3% of our cash revenues other than the Federal Government, which accounted for less than 6% of our cash revenues on an annualized basis. Upon completion of the Bridgestone Americas development project in Nashville, which is scheduled for delivery in mid-to-late 2017, it is expected that Bridgestone Americas, Inc., the U.S. subsidiary of Bridgestone Corporation, will account for approximately 3.1% of our revenues based on annualized cash revenues for June 2015.

Operating Expenses

Our expenses primarily consist of rental property expenses, depreciation and amortization, general and administrative expenses and interest expense. From time to time, expenses also include impairments of real estate assets. Rental property expenses are expenses associated with our ownership and operation of rental properties and include expenses that vary somewhat proportionately to occupancy levels, such as janitorial services and utilities, and expenses that do not vary based on occupancy, such as property taxes and insurance. Depreciation and amortization is a non-cash expense associated with the ownership of real property and generally remains relatively consistent each year, unless we buy, place in service or sell assets, since we depreciate our properties and related building and tenant improvement assets on a straight-line basis over fixed lives. General and administrative expenses consist primarily of management and employee salaries and other personnel costs, corporate overhead and short and long-term incentive compensation.

Net Operating Income

Whether or not we record growing same property net operating income ("NOI") depends upon our ability to garner higher rental revenues, whether from higher average occupancy, higher GAAP rents per rentable square foot or higher cost recovery income, that exceed any corresponding growth in operating expenses. Same property NOI was \$3.9 million, or 4.2%, higher in the second quarter of 2015 as compared to 2014 due to an increase in same property revenues of \$6.1 million offset by an increase of \$2.3 million in same property expenses. We expect same property NOI to be higher in the remainder of 2015 compared to 2014 from higher rental revenues, mostly from increasing average occupancy, higher average GAAP rents per rentable square foot and higher cost recovery income, which are expected to more than offset a corresponding increase in same property operating expenses.

In addition to the effect of same property NOI, whether or not overall NOI increases depends upon whether the NOI from our acquired properties and development properties placed in service exceeds the NOI from sold properties. Overall NOI was \$6.4 million, or 6.6%, higher in the second quarter of 2015 as compared to 2014 due to the full year impact of acquisitions and development properties placed in service in 2014 and the partial year impact of development properties placed in service in 2015, offset by NOI lost from sold properties. We expect overall NOI to be higher in the remainder of 2015 compared to 2014 due to the full year impact of our net investment activity in 2014 and 2015.

Cash Flows

In calculating net cash related to operating activities, depreciation and amortization, which are non-cash expenses, are added back to net income. As a result, we have historically generated a positive amount of cash from operating activities. From period to period, cash flow from operations depends primarily upon changes in our net income, as discussed more fully below under "Results of Operations," changes in receivables and payables, and net additions or decreases in our overall portfolio.

Net cash related to investing activities generally relates to capitalized costs incurred for leasing and major building improvements and our acquisition, development, disposition and joint venture capital activity. During periods of

significant net acquisition and/or development activity, our cash used in such investing activities will generally exceed cash provided by investing activities, which typically consists of cash received upon the sale of properties and distributions of capital from our joint ventures.

Net cash related to financing activities generally relates to distributions, incurrence and repayment of debt, and issuances, repurchases or redemptions of Common Stock, Common Units and Preferred Stock. As discussed previously, we use a significant amount of our cash to fund distributions. Whether or not we have increases in the outstanding balances of debt during a period depends generally upon the net effect of our acquisition, disposition, development and joint venture activity. We generally use our revolving credit facility for daily working capital purposes, which means that during any given period, in order to minimize interest expense, we may record significant repayments and borrowings under our revolving credit facility.

Table of Contents

Liquidity and Capital Resources

We intend to maintain a conservative and flexible balance sheet with access to multiple sources of debt and equity capital and sufficient availability under our revolving credit facility that allows us to capitalize on favorable development and acquisition opportunities as they arise.

Rental and other revenues are our principal source of funds to meet our short-term liquidity requirements. Other sources of funds for short-term liquidity needs include available working capital and borrowings under our existing revolving credit facility, which had \$316.6 million of availability at July 27, 2015. Our short-term liquidity requirements primarily consist of operating expenses, interest and principal amortization on our debt, distributions and capital expenditures, including building improvement costs, tenant improvement costs and lease commissions. Building improvements are capital costs to maintain or enhance existing buildings not typically related to a specific customer. Tenant improvements are the costs required to customize space for the specific needs of customers. We anticipate that our available cash and cash equivalents and cash provided by operating activities, together with cash available from borrowings under our revolving credit facility, will be adequate to meet our short-term liquidity requirements. We use our revolving credit facility for working capital purposes and for the short-term funding of our development and acquisition activity and, in certain instances, the repayment of other debt. The continued ability to borrow under the revolving credit facility allows us to quickly capitalize on strategic opportunities at short-term interest rates.

Our long-term liquidity uses generally consist of the retirement or refinancing of debt upon maturity (including mortgage debt, our revolving credit facility, term loans and other unsecured debt), funding of existing and new building development and land infrastructure projects and funding acquisitions of buildings and development land. Our expected future capital expenditures for started and/or committed new development projects were approximately \$390 million at June 30, 2015. Additionally, we may, from time to time, retire some or all of our remaining outstanding Preferred Stock and/or unsecured debt securities through redemptions, open market repurchases, privately negotiated acquisitions or otherwise.

We expect to meet our long-term liquidity needs through a combination of:

- cash flow from operating activities;
- bank term loans and borrowings under our revolving credit facility;
- the issuance of unsecured debt;
- the issuance of secured debt;
- the issuance of equity securities by the Company or the Operating Partnership; and
- the disposition of non-core assets.

We generally expect to grow our company on a leverage neutral basis by maintaining a leverage ratio of 40% to 45% as measured by the percentage of the undepreciated book value of our assets represented by our mortgages and notes payable and outstanding preferred stock. At June 30, 2015, our leverage ratio was 42.1% and there were 97.1 million diluted shares outstanding.

Investment Activity

As noted above, a key tenet of our strategic plan is to continuously upgrade the quality of our portfolio through acquisitions, dispositions and development. We generally seek to acquire and develop assets that improve the average quality of our overall portfolio and deliver consistent and sustainable value for our stockholders over the long-term. Whether or not an asset acquisition or new development results in higher per share net income or funds from operations ("FFO") in any given period depends upon a number of factors, including whether the NOI for any such period exceeds the actual cost of capital used to finance the acquisition or development. Additionally, given the length of construction cycles, development projects are not placed in service until, in some cases, several years after commencement. Sales of non-core assets could result in lower per share net income or FFO in any given period in the event the resulting use of proceeds does not exceed the capitalization rate on the sold properties. Forward-looking information regarding 2015 operating performance contained herein and below under "Results of Operations" excludes the impact of any potential acquisitions or dispositions.

Results of Operations

Three Months Ended June 30, 2015 and 2014

Rental and Other Revenues

Rental and other revenues were \$8.4 million, or 5.5%, higher in the second quarter of 2015 as compared to 2014 primarily due to higher same property revenues, 2014 acquisitions and recent development properties placed in service, which increased rental and other revenues by \$6.1 million, \$4.1 million and \$4.3 million, respectively. Same property rental and other revenues were higher primarily due to an increase in average occupancy to 92.6% in the second quarter of 2015 from 90.2% in the second quarter of 2014, higher average GAAP rents per rentable square foot and higher cost recovery income in the second quarter of 2015. These increases were partly offset by lost revenue from property dispositions of \$5.7 million. We expect rental and other revenues for the remainder of 2015 to increase over 2014 primarily due to acquisitions closed in 2014 and 2015 and recent development properties placed in service, partly offset by lost revenue from property dispositions. We also expect increasing average occupancy, higher average GAAP rents per rentable square foot and higher cost recovery income in our same property portfolio.

Operating Expenses

Rental property and other expenses were \$2.0 million, or 3.6%, higher in the second quarter of 2015 as compared to 2014 primarily due to higher same property operating expenses, 2014 acquisitions and recent development properties placed in service, which increased operating expenses by \$2.3 million, \$1.5 million and \$0.9 million, respectively. Same property operating expenses were higher primarily due to higher property taxes, janitorial and other building-related services and repairs and maintenance, partly offset by lower utilities. These increases were partly offset by a \$2.0 million decrease in operating expenses from property dispositions. We expect rental property and other expenses for the remainder of 2015 to increase over 2014 primarily due to acquisitions closed in 2014 and 2015 and recent development properties placed in service, partly offset by lower operating expenses due to property dispositions. We also expect higher same property operating expenses resulting from higher property taxes, janitorial and other building-related services and utilities, partly offset by lower property insurance.

Depreciation and amortization was \$0.8 million, or 1.6%, higher in the second quarter of 2015 as compared to 2014 primarily due to 2014 acquisitions and recent development properties placed in service, partly offset by lower depreciation and amortization due to property dispositions. We expect depreciation and amortization for the remainder of 2015 to increase over 2014 for similar reasons.

We recorded an impairment of real estate assets of \$0.6 million in the second quarter of 2014 on a building in Greensboro, NC, which resulted from a change in the assumed timing of future disposition and leasing assumptions. We recorded no such impairment in the second quarter of 2015.

General and administrative expenses were \$0.2 million, or 1.8%, higher in the second quarter of 2015 as compared to 2014 primarily due to higher incentive compensation and company-wide base salaries. We expect general and administrative expenses for the remainder of 2015 to increase slightly over 2014 for similar reasons.

Interest Expense

Interest expense was \$0.8 million, or 3.7%, higher in the second quarter of 2015 as compared to 2014 primarily due to higher average debt balances and financing obligation interest expense, partly offset by higher capitalized interest. We expect interest expense for the remainder of 2015 to decrease over 2014 primarily due to lower average interest rates and financing obligation interest expense, partly offset by lower capitalized interest.

Other Income

Other income was \$0.4 million, or 31.4%, lower in the second quarter of 2015 as compared to 2014 primarily due to a loss on debt extinguishment and the repayment of mortgages receivable in the second quarter of 2015. We expect other income for the remainder of 2015 to decrease over 2014 as a result of this repayment.

Table of Contents

Gains on Disposition of Property

Gains on disposition of property were \$3.5 million lower in the second quarter of 2015 as compared to 2014 due to the net effect of the disposition activity in such periods.

Equity in Earnings of Unconsolidated Affiliates

Equity in earnings of unconsolidated affiliates was \$1.1 million higher in the second quarter of 2015 as compared to 2014 due to our \$1.1 million share of a gain recognized by Highwoods KC Glenridge Land, LLC.

Earnings Per Common Share - Diluted

Diluted earnings per common share was \$0.02, or 8.0%, higher in the second quarter of 2015 as compared to 2014 due to an increase in net income for the reasons discussed above offset by an increase in the weighted average Common Shares outstanding.

Six Months Ended June 30, 2015 and 2014

Rental and Other Revenues

Rental and other revenues were \$17.3 million, or 5.7%, higher in the first six months of 2015 as compared to 2014 primarily due to higher same property revenues, 2014 acquisitions and recent development properties placed in service, which increased rental and other revenues by \$14.1 million, \$8.1 million and \$6.1 million, respectively. Same property rental and other revenues were higher primarily due to an increase in average occupancy to 92.1% in the first six months of 2015 from 89.9% in the first six months of 2014, higher average GAAP rents per rentable square foot and higher cost recovery income. These increases were partly offset by lost revenue from property dispositions of \$10.9 million.

Operating Expenses

Rental property and other expenses were \$3.1 million, or 2.8%, higher in the first six months of 2015 as compared to 2014 primarily due to higher same property operating expenses, 2014 acquisitions and recent development properties placed in service, which increased operating expenses by \$3.7 million, \$2.9 million and \$1.3 million, respectively. Same property operating expenses were higher primarily due to higher property taxes, janitorial and other building-related services and repairs and maintenance, partly offset by lower utilities and property insurance. These increases were partly offset by a \$4.0 million decrease in operating expenses from property dispositions.

Depreciation and amortization was \$2.9 million, or 3.0%, higher in the first six months of 2015 as compared to 2014 primarily due to 2014 acquisitions and recent development properties placed in service, partly offset by lower depreciation and amortization due to property dispositions.

We recorded an impairment of real estate assets of \$0.6 million in the second quarter of 2014 on a building in Greensboro, NC, which resulted from a change in the assumed timing of future disposition and leasing assumptions. We recorded no such impairment in the first six months of 2015.

General and administrative expenses were \$0.9 million, or 4.5%, higher in the first six months of 2015 as compared to 2014 primarily due to higher incentive compensation and company-wide base salaries and benefits.

Interest Expense

Interest expense was \$0.9 million, or 2.0%, higher in the first six months of 2015 as compared to 2014 primarily due to higher average debt balances and financing obligation interest expense, partly offset by higher capitalized interest.

Other Income

Other income was \$0.6 million, or 21.6%, lower in the first six months of 2015 as compared to 2014 primarily due to the repayments of mortgages receivable in the first quarter of 2014 and second quarter of 2015 and a loss on debt extinguishment in the second quarter of 2015.

Table of Contents

Gains on Disposition of Property and Net Gains on Disposition of Discontinued Operations

With the adoption of the discontinued operations accounting standards update in the second quarter of 2014, gains on disposition of property are now generally included in continuing operations. Prior to adoption, such gains were generally classified as discontinued operations. Total gains were \$2.8 million lower in the first six months of 2015 as compared to 2014 due to the net effect of the disposition activity in such periods.

Equity in Earnings of Unconsolidated Affiliates

Equity in earnings of unconsolidated affiliates was \$2.9 million higher in the first six months of 2015 as compared to 2014 primarily due to our \$1.1 million share of a gain recognized by Highwoods DLF 97/26 DLF 99/32, LP in the first quarter of 2015, our \$1.1 million share of a gain recognized by Highwoods KC Glenridge Land, LLC in the second quarter of 2015 and a \$0.4 million net impairment of our previous investment in Board of Trade Investment Company in the first quarter of 2014.

Earnings Per Common Share - Diluted

Diluted earnings per common share was \$0.08, or 20.5%, higher in the first six months of 2015 as compared to 2014 due to an increase in net income for the reasons discussed above offset by an increase in the weighted average Common Shares outstanding.

Statements of Cash Flows

We report and analyze our cash flows based on operating activities, investing activities and financing activities. The following table sets forth the changes in the Company's cash flows (\$ in thousands):

| | Six Months Ended | | |
|---|------------------|------------|------------|
| | June 30, | | |
| | 2015 | 2014 | Change |
| Net Cash Provided By Operating Activities | \$122,295 | \$114,534 | \$7,761 |
| Net Cash Used In Investing Activities | (116,818) | (133,112) | 16,294 |
| Net Cash Provided By/(Used In) Financing Activities | (9,370) | 27,093 | (36,463) |
| Total Cash Flows | \$(3,893) | \$8,515 | \$(12,408) |

The increase in net cash provided by operating activities in the first six months of 2015 as compared to 2014 was primarily due to higher net cash from the operations of properties acquired in 2014 and recent development properties placed in service, partly offset by higher cash paid for operating expenses in 2015. We expect net cash related to operating activities for the remainder of 2015 to be higher as compared to 2014 due to the full year impact of properties acquired in 2014 and 2015, recent development properties placed in service and higher cash flows from leases signed in prior years as free rent periods expire.

The decrease in net cash used in investing activities in the first six months of 2015 as compared to 2014 was primarily due to lower development activity, higher distributions of capital from unconsolidated affiliates and lower investments in unconsolidated affiliates in 2015, partly offset by higher investments in tenant improvements and deferred leasing costs and lower repayments of mortgages and notes receivable in 2015. We expect uses of cash for investing activities for the remainder of 2015 to be primarily driven by our plans to acquire and commence development of office buildings. Additionally, as of June 30, 2015, we have \$390 million left to fund of our previously-announced

development activity. We expect these uses of cash for investing activities will be partially offset by proceeds from non-core dispositions during the remainder of 2015.

The change in net cash provided by/used in financing activities in the first six months of 2015 as compared to 2014 was primarily due to lower net debt borrowings in 2015, partly offset by higher proceeds from the issuance of Common Stock in 2015. Assuming the net effect of our acquisition, disposition and development activity in the remainder of 2015 results in an increase in our assets, we would expect outstanding debt balances to increase. However, because we plan to continue to maintain a flexible and conservative balance sheet with mortgages and notes payable and outstanding preferred stock representing around 40% to 45% of the undepreciated book value of our assets, we would also expect higher outstanding balances of Common Stock in such event.

Capitalization

The following table sets forth the Company's capitalization (in thousands, except per share amounts):

| | June 30, 2015 | December 31, 2014 (as revised) |
|---|------------------|--------------------------------------|
| Mortgages and notes payable, at recorded book value | \$2,124,028 | \$2,071,389 |
| Financing obligation | \$8,962 | \$8,962 |
| Preferred Stock, at liquidation value | \$29,050 | \$29,060 |
| Common Stock outstanding | 94,118 | 92,907 |
| Common Units outstanding (not owned by the Company) | 2,910 | 2,937 |
| Per share stock price at period end | \$39.95 | \$44.28 |
| Market value of Common Stock and Common Units | \$3,876,269 | \$4,243,972 |
| Total capitalization | \$6,038,309 | \$6,353,383 |

At June 30, 2015, our mortgages and notes payable and outstanding preferred stock represented 35.7% of our total capitalization and 42.1% of the undepreciated book value of our assets.

Our mortgages and notes payable as of June 30, 2015 consisted of \$290.1 million of secured indebtedness with a weighted average interest rate of 5.82% and \$1,833.9 million of unsecured indebtedness with a weighted average interest rate of 3.78%. The secured indebtedness was collateralized by real estate assets with an aggregate undepreciated book value of \$545.5 million. As of June 30, 2015, all but \$484.0 million of our debt bears interest at fixed rates or is protected by interest rate hedge contracts.

Investment Activity

During the second quarter of 2015, we acquired:

land in Atlanta, GA for a purchase price and related transaction costs of \$5.2 million (including contingent consideration of \$0.9 million); and

our Highwoods DLF 98/29, LLC joint venture partner's 77.2% interest in a building in Orlando, FL encompassing 168,000 rentable square feet in exchange for the assumption of secured debt recorded at fair value of \$19.3 million. See "Financing Activity." We expensed \$0.1 million of acquisition costs (included in general and administrative expenses) related to this acquisition.

The assets acquired and liabilities assumed were recorded at fair value as determined by management based on information available at the acquisition date and on current assumptions as to future operations.

In the normal course of business, we regularly evaluate potential acquisitions. As a result, from time to time, we may have one or more potential acquisitions under consideration that are in varying stages of evaluation, negotiation or due diligence, including potential acquisitions that are subject to non-binding letters of intent or enforceable contracts. Consummation of any transaction is subject to a number of contingencies, including the satisfaction of customary closing conditions. No assurances can be provided that we will acquire any properties in the future. See "Item 1A. Risk Factors - Recent and future acquisitions and development properties may fail to perform in accordance with our expectations and may require renovation and development costs exceeding our estimates" in our 2014 Annual Report on Form 10-K.

During the second quarter of 2015, we sold land for a sale price of \$0.5 million and recorded a gain on disposition of property of \$0.2 million.

On July 23, 2015, we sold a building for a sale price of \$15.3 million and expect to record a gain on disposition of property of \$6.5 million.

During the second quarter of 2015, \$9.9 million of secured acquisition financing provided to a third party in 2012 was repaid, including accrued interest.

Table of Contents

As of June 30, 2015, we were developing 1,482,200 rentable square feet of properties. The following table summarizes these developments:

| Property | Market | Rentable Square Feet | Anticipated Total Investment (1) (\$ in thousands) | Investment As Of June 30, 2015 (1) | Pre Leased % | Estimated Completion | Estimated Stabilization |

Financing Activity

We have entered into separate sales agreements with each of Merrill Lynch, Pierce, Fenner & Smith Incorporated, Robert W. Baird & Co. Incorporated, BB&T Capital Markets, a division of BB&T Securities, LLC, Capital One Securities, Inc., Comerica Securities, Inc., Jefferies LLC, Mitsubishi UFJ Securities (USA), Inc., Morgan Stanley & Co. LLC, Piper Jaffray & Co., RBC Capital Markets, LLC and Wells Fargo Securities, LLC. During the second quarter of 2015, the Company issued 58,533 shares of Common Stock at an average gross sales price of \$41.72 per share and received net proceeds, after sales commissions, of \$2.4 million. We paid less than \$0.1 million in sales commissions to Jefferies LLC during the second quarter of 2015.

Our \$475.0 million unsecured revolving credit facility is scheduled to mature in January 2018 and includes an accordion feature that allows for an additional \$75.0 million of borrowing capacity subject to additional lender commitments. Assuming no defaults have occurred, we have an option to extend the maturity for two additional six month periods. The interest rate at our current credit ratings is LIBOR plus 110 basis points and the annual facility fee is 20 basis points. The interest rate and facility fee are based on the higher of the publicly announced ratings from Moody's Investors Service or Standard & Poor's Ratings Services. There was \$159.0 million and \$158.0 million outstanding under our revolving credit facility at June 30, 2015 and July 27, 2015, respectively. At both June 30, 2015 and July 27, 2015, we had \$0.4 million of outstanding letters of credit, which reduces the availability on our revolving credit facility. As a result, the unused capacity of our revolving credit facility at June 30, 2015 and July 27, 2015 was \$315.6 million and \$316.6 million, respectively.

During the second quarter of 2015, we amended our \$225.0 million, seven-year unsecured bank term loan, which was scheduled to mature in January 2019. We increased the borrowed amount to \$350.0 million and used the \$125.0 million of incremental new proceeds to repay amounts outstanding under our \$475.0 million unsecured revolving credit facility. The amended term loan is now scheduled to mature in June 2020 and the interest rate, based on our current credit ratings, was reduced from LIBOR plus 175 basis points to LIBOR plus 110 basis points. The interest rate is based on the higher of the publicly announced ratings from Moody's Investors Service or Standard & Poor's

Ratings Services. The financial and other covenants under the amended term loan are unchanged.

During the second quarter of 2015, we prepaid without penalty the remaining \$39.4 million balance on a secured mortgage loan with an effective interest rate of 6.43% that was originally scheduled to mature in November 2015.

During the second quarter of 2015, we acquired our joint venture partner's 77.2% interest in a building in Orlando, FL. Simultaneously with this acquisition, the joint venture's previously existing mortgage note was restructured into a new \$18.0 million first mortgage note and a \$10.2 million subordinated note, both of which are scheduled to mature in July 2017. The first mortgage note is interest only with an effective interest rate of 5.36%, payable monthly. The subordinated note has an effective interest rate of 8.6%. Additionally, we deposited \$3.0 million into escrow to fund tenant improvements, leasing commissions and building improvements. The first mortgage note and subordinated note can be prepaid at any time commencing October 2016 upon a sale or refinancing of the property. In such event, the subordinated note and any and all accrued interest thereon would be deemed fully satisfied upon payment of a "waterfall payment," if any. Such "waterfall payment" would be a cash payment equal

Table of Contents

to 50.0% of the amount, if any, by which the net sale proceeds or appraised value in the event of a refinancing exceeds (1) the outstanding principal of the first mortgage note, (2) the funds deposited by us into escrow to fund tenant improvements, leasing commissions and building improvements and (3) a 10.0% return on such funds deposited by us into escrow. As of June 30, 2015, the fair value of the first mortgage note was \$18.3 million and the fair value of the subordinated note equaled the projected waterfall payment of \$1.0 million.

We are currently in compliance with financial covenants and other requirements with respect to our consolidated debt. Although we expect to remain in compliance with these covenants and ratios for at least the next year, depending upon our future operating performance, property and financing transactions and general economic conditions, we cannot assure you that we will continue to be in compliance.

Our revolving credit facility and bank term loans require us to comply with customary operating covenants and various financial requirements.

Off Balance Sheet Arrangements

We have a 20.0% interest in SF-HIW Harborview Plaza, LP (“Harborview”). We are the manager and leasing agent for Harborview’s property in Tampa, FL and receive customary management and leasing fees. During 2012, we also provided a three-year \$20.8 million interest-only secured loan to Harborview that is scheduled to mature in September 2015. The loan bears interest at LIBOR plus 500 basis points, subject to a LIBOR floor of 0.5%. Previously, we accounted for the original contribution transaction as a financing obligation since our partner had the right to put its 80.0% equity interest back to us any time during the one-year period prior to September 11, 2015. During the second quarter of 2015, as a result of our partner’s irrevocable exercise of a buy-sell provision in our joint venture agreement, our partner’s right to put its 80.0% equity interest back to us became no longer exercisable, which resulted in recording the original contribution transaction as a partial sale. Harborview is now accounted for using the equity method of accounting.

See "Investment Activity" for a description of our acquisition of a building in Orlando, FL from Highwoods DLF 98/29, LLC during the second quarter of 2015. The joint venture recorded a gain on disposition of property of \$13.7 million. Our share of \$3.1 million was recorded as a reduction to real estate assets.

During the second quarter of 2015, Highwoods KC Glenridge Office, LLC and Highwoods KC Glenridge Land, LLC collectively sold two buildings and land to an unrelated third party for an aggregate sale price of \$24.5 million (before closing credits to buyer of \$0.3 million for unfunded tenant improvements) and recorded gains on disposition of property of \$2.4 million. We recorded \$0.9 million as our share of these gains through equity in earnings of unconsolidated affiliates.

Critical Accounting Estimates

There were no changes made by management to the critical accounting policies in the six months ended June 30, 2015. For a description of our critical accounting estimates, see “Management's Discussion and Analysis of Financial Condition and Results of Operations - Critical Accounting Estimates” in our 2014 Annual Report on Form 10-K.

Non-GAAP Information

The Company believes that FFO, FFO available for common stockholders and FFO available for common stockholders per share are beneficial to management and investors and are important indicators of the performance of any equity REIT. Because these FFO calculations exclude such factors as depreciation, amortization and impairments of real estate assets and gains or losses from sales of operating real estate assets, which can vary among owners of

identical assets in similar conditions based on historical cost accounting and useful life estimates, they facilitate comparisons of operating performance between periods and between other REITs. Management believes that historical cost accounting for real estate assets in accordance with GAAP implicitly assumes that the value of real estate assets diminishes predictably over time. Since real estate values have historically risen or fallen with market conditions, many industry investors and analysts have considered the presentation of operating results for real estate companies that use historical cost accounting to be insufficient on a stand-alone basis. As a result, management believes that the use of FFO, FFO available for common stockholders and FFO available for common stockholders per share, together with the required GAAP presentations, provides a more complete understanding of the Company's performance relative to its competitors and a more informed and appropriate basis on which to make decisions involving operating, financing and investing activities.

FFO, FFO available for common stockholders and FFO available for common stockholders per share are non-GAAP financial measures and therefore do not represent net income or net income per share as defined by GAAP. Net income and net income per share as defined by GAAP are the most relevant measures in determining the Company's operating performance because these FFO measures include adjustments that investors may deem subjective, such as adding back expenses such as depreciation,

amortization and impairments. Furthermore, FFO available for common stockholders per share does not depict the amount that accrues directly to the stockholders' benefit. Accordingly, FFO, FFO available for common stockholders and FFO available for common stockholders per share should never be considered as alternatives to net income, net income available for common stockholders, or net income available for common stockholders per share as indicators of the Company's operating performance.

The Company's presentation of FFO is consistent with FFO as defined by the National Association of Real Estate Investment Trusts, which is calculated as follows:

Net income/(loss) computed in accordance with GAAP;

Less net income attributable to noncontrolling interests in consolidated affiliates;

Plus depreciation and amortization of depreciable operating properties;

Less gains, or plus losses, from sales of depreciable operating properties, plus impairments on depreciable operating properties and excluding items that are classified as extraordinary items under GAAP;

Plus or minus our share of adjustments, including depreciation and amortization of depreciable operating properties, for unconsolidated partnerships and joint ventures (to reflect funds from operations on the same basis); and

Plus or minus adjustments for depreciation and amortization and gains/(losses) on sales of depreciable operating properties, plus impairments on depreciable operating properties, and noncontrolling interests in consolidated affiliates related to discontinued operations.

In calculating FFO, the Company includes net income attributable to noncontrolling interests in the Operating Partnership, which the Company believes is consistent with standard industry practice for REITs that operate through an UPREIT structure. The Company believes that it is important to present FFO on an as-converted basis since all of the Common Units not owned by the Company are redeemable on a one-for-one basis for shares of its Common Stock.

The following table sets forth the Company's FFO, FFO available for common stockholders and FFO available for common stockholders per share (\$ in thousands, except per share amounts):

In addition, the Company believes NOI from continuing operations and same property NOI are useful supplemental measures of the Company's property operating performance because such metrics provide a performance measure of the revenues and expenses directly involved in owning real estate assets and a perspective not immediately apparent from net income or FFO. The Company defines NOI as rental and other revenues from continuing operations, less rental property and other expenses from continuing operations. The Company defines cash NOI as NOI less straight-line rent and lease termination fees. Other REITs may use different methodologies to calculate NOI and same property NOI.

As of June 30, 2015, our same property portfolio consisted of 235 in-service properties encompassing 27.6 million rentable square feet that were wholly owned during the entirety of the periods presented (from January 1, 2014 to June 30, 2015). As of December 31, 2014, our same property portfolio consisted of 223 in-service properties encompassing 24.2 million rentable square feet that were wholly owned during the entirety of the periods presented (from January 1, 2013 to December 31, 2014). The change in our same property portfolio was due to the addition of 11 properties encompassing 3.2 million rentable square feet acquired during 2013 and three newly developed properties encompassing 0.2 million rentable square feet placed in service during 2013. These additions were offset by the removal of two properties encompassing 0.1 million rentable square feet that were sold during 2015.

Rental and other revenues related to properties not in our same property portfolio were \$11.7 million and \$9.4 million for the three months ended June 30, 2015 and 2014, respectively, and \$21.1 million and \$17.9 million for the six months ended June 30, 2015 and 2014, respectively. Rental property and other expenses related to properties not in our same property portfolio were \$3.4 million and \$3.7 million for the three months ended June 30, 2015 and 2014, respectively, and \$6.7 million and \$7.3 million for the six months ended June 30, 2015 and 2014, respectively.

The following table sets forth the Company's NOI and same property NOI:

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

For information regarding our market risk as of December 31, 2014, see "Quantitative and Qualitative Disclosures About Market Risk" in our 2014 Annual Report on Form 10-K.

ITEM 4. CONTROLS AND PROCEDURES

SEC rules require us to maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our annual and periodic reports filed with the SEC is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. The Company's CEO and CFO have concluded that the disclosure controls and procedures of the Company and the Operating Partnership were each effective at the end of the period covered by this Quarterly Report.

SEC rules also require us to establish and maintain internal control over financial reporting designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. There were no changes in internal control over financial reporting during the three months ended June 30, 2015 that materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting. There were also no changes in internal control over financial reporting during the three months ended June 30, 2015 that materially affected, or are reasonably likely to materially affect, the Operating Partnership's internal control over financial reporting.
