Highwoods Properties, Inc.

Edgar Filing: HIGHWOODS PROPERTIES INC - Form 10-Q

Large accelerated filer ☒ Accelerated filer ☐ Non-accelerated filer ☐ Smaller reporting company ☐
Highwoods Realty Limited Partnership
Large accelerated filer ☐ Accelerated filer ☐ Non-accelerated filer ☒ Smaller reporting company ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Securities Exchange Act).

Highwoods Properties, Inc. Yes ☐ No ☒ Highwoods Realty Limited Partnership Yes ☐ No ☒

The Company had 97,409,163 shares of Common Stock outstanding as of April 19, 2016.

EXPLANATORY NOTE

We refer to Highwoods Properties, Inc. as the “Company,” Highwoods Realty Limited Partnership as the “Operating Partnership,” the Company’s common stock as “Common Stock” or “Common Shares,” the Company’s preferred stock as “Preferred Stock” or “Preferred Shares,” the Operating Partnership’s common partnership interests as “Common Units” and the Operating Partnership’s preferred partnership interests as “Preferred Units.” References to “we” and “our” mean the Company and the Operating Partnership, collectively, unless the context indicates otherwise.

The Company conducts its activities through the Operating Partnership and is its sole general partner. The partnership agreement provides that the Operating Partnership will assume and pay when due, or reimburse the Company for payment of, all costs and expenses relating to the ownership and operations of, or for the benefit of, the Operating Partnership. The partnership agreement further provides that all expenses of the Company are deemed to be incurred for the benefit of the Operating Partnership.

Certain information contained herein is presented as of April 19, 2016, the latest practicable date for financial information prior to the filing of this Quarterly Report.

This report combines the Quarterly Reports on Form 10-Q for the period ended March 31, 2016 of the Company and the Operating Partnership. We believe combining the quarterly reports into this single report results in the following benefits:

- combined reports better reflect how management and investors view the business as a single operating unit;
- combined reports enhance investors' understanding of the Company and the Operating Partnership by enabling them to view the business as a whole and in the same manner as management;
- combined reports are more efficient for the Company and the Operating Partnership and result in savings in time, effort and expense; and
- combined reports are more efficient for investors by reducing duplicative disclosure and providing a single document for their review.

To help investors understand the significant differences between the Company and the Operating Partnership, this report presents the following separate sections for each of the Company and the Operating Partnership:

• Consolidated Financial Statements;

• Note 13 to Consolidated Financial Statements - Earnings Per Share and Per Unit;

• Item 4 - Controls and Procedures; and

- Item 6 - Certifications of CEO and CFO Pursuant to Sections 302 and 906 of the Sarbanes-Oxley Act.

(Unaudited)

1. Description of Business and Significant Accounting Policies

Description of Business

Highwoods Properties, Inc. (the “Company”) is a fully integrated real estate investment trust (“REIT”) that provides leasing, management, development, construction and other customer-related services for its properties and for third parties. The Company conducts its activities through Highwoods Realty Limited Partnership (the “Operating Partnership”). At March 31, 2016, we owned or had an interest in 31.2 million rentable square feet of in-service properties, 1.3 million rentable square feet of properties under development and approximately 500 acres of development land.

The Company is the sole general partner of the Operating Partnership. At March 31, 2016, the Company owned all of the Preferred Units and 97.0 million, or 97.1%, of the Common Units in the Operating Partnership. Limited partners owned the remaining 2.9 million Common Units.

Common Stock Offerings

During the three months ended March 31, 2016, the Company issued 1,054,496 shares of Common Stock under its equity distribution agreements at an average gross sales price of \$45.86 per share and received net proceeds, after sales commissions, of \$47.6 million.

Basis of Presentation

Our Consolidated Financial Statements are prepared in conformity with accounting principles generally accepted in the United States of America (“GAAP”). Our Consolidated Statements of Income for the three months ended March 31, 2015 were retrospectively revised from previously reported amounts to reclassify the operations for those properties classified as discontinued operations. The Company's Consolidated Financial Statements include the Operating Partnership, wholly owned subsidiaries and those entities in which the Company has the controlling interest. The Operating Partnership's Consolidated Financial Statements include wholly owned subsidiaries and those entities in which the Operating Partnership has the controlling interest. In addition, we consolidate those entities deemed to be variable interest entities in which we are determined to be the primary beneficiary. At March 31, 2016, we had involvement with, but are not the primary beneficiary in, an entity that we concluded to be a variable interest entity. All intercompany transactions and accounts have been eliminated.

The unaudited interim consolidated financial statements and accompanying unaudited consolidated financial information, in the opinion of management, contain all adjustments (including normal recurring accruals) necessary for a fair presentation of our financial position, results of operations and cash flows. We have condensed or omitted certain notes and other information from the interim Consolidated Financial Statements presented in this Quarterly Report as permitted by SEC rules and regulations. These Consolidated Financial Statements should be read in conjunction with our 2015 Annual Report on Form 10-K.

During 2015, as a result of our partner's irrevocable exercise of a buy-sell provision in our SF-HIW Harborview Plaza, LP joint venture agreement, our partner's right to put its 80.0% equity interest back to us became no longer exercisable. As a result, we recorded the original contribution transaction as a partial sale. Our investment in this joint venture then qualified for the equity method of accounting, which resulted in the retrospective revision of our Consolidated Balance Sheets and Consolidated Statements of Equity and Capital for prior periods. Such retrospective revision is denoted using "as revised" on our Consolidated Statements of Equity and Capital as of March 31, 2015.

(tabular dollar amounts in thousands, except per share and per unit data)

1. Description of Business and Significant Accounting Policies – Continued

Use of Estimates

The preparation of consolidated financial statements in accordance with GAAP requires us to make estimates and assumptions that affect the amounts reported in our Consolidated Financial Statements and accompanying notes. Actual results could differ from those estimates.

Recently Issued Accounting Standards

The Financial Accounting Standards Board ("FASB") recently issued an accounting standards update that requires the use of a new five-step model to recognize revenue from customer contracts. The five-step model requires that we identify the contract with the customer, identify the performance obligations in the contract, determine the transaction price, allocate the transaction price to the performance obligations in the contract and recognize revenue when we satisfy the performance obligations. We will also be required to disclose information regarding the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers. The accounting standards update is required to be adopted in 2018. Retrospective application is required either to all periods presented or with the cumulative effect of initial adoption recognized in the period of adoption. We are in the process of evaluating this accounting standards update.

The FASB recently issued an accounting standards update that amended consolidation requirements. The amendments significantly change the consolidation analysis required under GAAP and require companies to reevaluate all previous consolidation conclusions. We adopted the accounting standards update as of January 1, 2016 and there was no impact to consolidated entities included in our Consolidated Financial Statements. However, in reevaluating our previous consolidation conclusions upon adoption of the accounting standards update, we determined our 12.5% equity interest in an unconsolidated affiliate to be an interest in a variable interest entity because certain of its limited partners do not have substantive kick-out or participating rights. We do not qualify as the primary beneficiary since our obligation to absorb losses and receive benefits of the variable interest entity is less than that of the other general partner. Accordingly, the entity is not consolidated. Our maximum exposure to loss with respect to this arrangement is limited to the \$1.6 million carrying value of our 12.5% investment in the unconsolidated affiliate.

The FASB recently issued an accounting standards update that requires debt issuance costs to be presented in the balance sheet as a direct deduction from the carrying amount of the debt liability to which they relate, consistent with debt discounts, as opposed to being presented as assets. For debt issuance costs related to revolving credit facilities, the FASB allows the presentation of debt issuance costs as an asset. We adopted the accounting standards update as of January 1, 2016 with retrospective application to our December 31, 2015 Consolidated Balance Sheets. The effect of the adoption was to reclassify debt issuance costs from deferred financing and leasing costs, net of accumulated amortization, as follows: \$7.8 million to a contra account as a deduction from the related mortgages and notes payable and \$2.1 million to prepaid expenses and other assets. There was no effect on our Consolidated Statements of Income.

The FASB recently issued an accounting standards update which sets out the principles for the recognition, measurement, presentation and disclosure of leases for both lessees and lessors. The accounting standards update requires lessors to account for leases using an approach that is substantially equivalent to the existing guidance and is effective for reporting periods beginning after December 15, 2018 with early adoption permitted. We are in the

process of evaluating this accounting standards update.

2. Real Estate Assets

Dispositions

During the first quarter of 2016, we sold:

substantially all of our wholly-owned Country Club Plaza assets in Kansas City (which we refer to as the “Plaza assets”) for a sale price of \$660.0 million (before closing credits to buyer of \$4.8 million). We recorded gains on disposition of discontinued operations of \$414.5 million and a gain on disposition of property of \$1.3 million related to the land;

Table of Contents

HIGHWOODS PROPERTIES, INC.

HIGHWOODS REALTY LIMITED PARTNERSHIP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(tabular dollar amounts in thousands, except per share and per unit data)

2. Real Estate Assets - Continued

a 32,000 square foot building for a sale price of \$4.7 million (before closing credits to buyer of \$0.1 million) and recorded a gain on disposition of property of \$1.1 million. The buyer, which leased 79% of the building, is a family business controlled by a director of the Company. The sale price exceeded the value set forth in an appraisal performed by a reputable independent commercial real estate services firm that has no relationship with the director or any of his affiliates; and

a building for a sale price of \$6.4 million (before closing credits to buyer of \$0.5 million) and recorded a gain on disposition of property of \$2.0 million.

3. Mortgages and Notes Receivable

Mortgages and notes receivable were \$9.7 million and \$2.1 million at March 31, 2016 and December 31, 2015, respectively. We evaluate the ability to collect our mortgages and notes receivable by monitoring the leasing statistics and/or market fundamentals of these assets. As of March 31, 2016, our mortgages and notes receivable were not in default and there were no other indicators of impairment.

4. Investments in and Advances to Unconsolidated Affiliates

We have equity interests of up to 50.0% in various joint ventures with unrelated third parties that are accounted for using the equity method of accounting because we have the ability to exercise significant influence over their operating and financial policies.

The following table sets forth the summarized income statements of our unconsolidated affiliates:

	Three Months Ended March 31, 2016 2015	
Income Statements:		
Rental and other revenues	\$ 10,772	\$ 12,231
Expenses:		
Rental property and other expenses	4,715	5,667
Depreciation and amortization	2,747	3,115
Interest expense	1,377	2,149
Total expenses	8,839	10,931
Income before disposition of property	1,933	1,300
Gains on disposition of property	902	2,127
Net income	\$ 2,835	\$ 3,427

During the first quarter of 2016, Concourse Center Associates, LLC sold two buildings and land to an unrelated third party for an aggregate sale price of \$11.0 million and recorded losses on disposition of property of \$0.1 million. As our cost basis was different from the basis reflected at the joint venture level, we recorded \$0.4 million of gains

through equity in earnings of unconsolidated affiliates. Simultaneously with the sale, the joint venture repaid all \$6.6 million of its secured debt.

During the first quarter of 2016, 4600 Madison Associates, LP sold land to an unrelated third party for a sale price of \$3.4 million and recorded a gain on disposition of property of \$1.0 million. We recorded \$0.1 million as our share of this gain through equity in earnings of unconsolidated affiliates. Simultaneously with the sale, the joint venture used all of the proceeds to pay down \$3.4 million on its secured mortgage loan with an effective interest rate of 6.85%.

HIGHWOODS PROPERTIES, INC.

HIGHWOODS REALTY LIMITED PARTNERSHIP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(tabular dollar amounts in thousands, except per share and per unit data)

6. Mortgages and Notes Payable

The following table sets forth our mortgages and notes payable:

	March 31, 2016	December 31, 2015
Secured indebtedness	\$174,475	\$175,281
Unsecured indebtedness	1,933,536	2,324,333
Less-unamortized debt issuance costs	(7,074)	(7,801)
Total mortgages and notes payable, net	\$2,100,937	\$2,491,813

At March 31, 2016, our secured mortgage loans were collateralized by real estate assets with an aggregate un depreciated book value of \$315.8 million.

Our \$475.0 million unsecured revolving credit facility is scheduled to mature in January 2018 and includes an accordion feature that allows for an additional \$75.0 million of borrowing capacity subject to additional lender commitments. Assuming no defaults have occurred, we have an option to extend the maturity for two additional six-month periods. The interest rate at our current credit ratings is LIBOR plus 110 basis points and the annual facility fee is 20 basis points. There was \$258.0 million and \$257.0 million outstanding under our revolving credit facility at March 31, 2016 and April 19, 2016, respectively. At both March 31, 2016 and April 19, 2016, we had \$0.2 million of outstanding letters of credit, which reduces the availability on our revolving credit facility. As a result, the unused capacity of our revolving credit facility at March 31, 2016 and April 19, 2016 was \$216.8 million and \$217.8 million, respectively.

During the first quarter of 2016, we prepaid without penalty the \$350.0 million balance on our unsecured bridge facility that was originally scheduled to mature in March 2016.

We are currently in compliance with financial covenants and other requirements with respect to our consolidated debt.

7. Derivative Financial Instruments

During the first quarter of 2016, we obtained \$150.0 million notional amount of forward-starting swaps that effectively lock the underlying treasury rate at 1.90% with respect to a forecasted debt issuance expected to occur between June 15, 2016 and March 15, 2017. The counterparties under the swaps are major financial institutions.

Our interest rate swaps have been designated as and are being accounted for as cash flow hedges with changes in fair value recorded in other comprehensive income/(loss) each reporting period. No gain or loss was recognized related to hedge ineffectiveness or to amounts excluded from effectiveness testing on our cash flow hedges during the three months ended March 31, 2016 and 2015. We have no collateral requirements related to our interest rate swaps.

Amounts reported in accumulated other comprehensive loss ("AOCL") related to derivatives will be reclassified to interest expense as interest payments are made on our variable-rate debt. During the period from April 1, 2016 through March 31, 2017, we estimate that \$3.3 million will be reclassified to interest expense.

The following table sets forth the fair value of our derivatives:

	March 31, December 31, 2016 2015	
Derivatives:		
Derivatives designated as cash flow hedges in accounts payable, accrued expenses and other liabilities:		
Interest rate swaps	\$ 5,992	\$ 3,073

7. Derivative Financial Instruments - Continued

The following table sets forth the effect of our cash flow hedges on AOCL and interest expense:

	Three Months Ended March 31, 20162015	
Derivatives Designated as Cash Flow Hedges:		
Amount of unrealized losses recognized in AOCL on derivatives (effective portion):		
Interest rate swaps	\$(3,635)	\$(2,914)
Amount of losses reclassified out of AOCL into contractual interest expense (effective portion):		
Interest rate swaps	\$795	\$924

8. Noncontrolling Interests

Noncontrolling Interests in Consolidated Affiliates

At March 31, 2016, our noncontrolling interests in consolidated affiliates relate to our joint venture partner's 50.0% interest in office properties in Richmond, VA. Our joint venture partner is an unrelated third party.

Noncontrolling Interests in the Operating Partnership

The following table sets forth the Company's noncontrolling interests in the Operating Partnership:

	Three Months Ended March 31, 2016 2015	
Beginning noncontrolling interests in the Operating Partnership	\$ 126,429	\$ 130,048
Adjustment of noncontrolling interests in the Operating Partnership to fair value	429	5,036
Conversions of Common Units to Common Stock	—	(1,206)
Net income attributable to noncontrolling interests in the Operating Partnership	13,011	596
Distributions to noncontrolling interests in the Operating Partnership	(1,232)	(1,248)
Total noncontrolling interests in the Operating Partnership	\$ 138,637	\$ 133,226

The following table sets forth net income available for common stockholders and transfers from the Company's noncontrolling interests in the Operating Partnership:

	Three Months Ended March 31, 2016 2015	
Net income available for common stockholders	\$ 432,790	\$ 19,316
	—	1,206

Increase in additional paid in capital from conversions of Common Units
to Common Stock

Change from net income available for common stockholders and transfers from noncontrolling interests	\$432,790	\$20,522

(tabular dollar amounts in thousands, except per share and per unit data)

9. Disclosure About Fair Value of Financial Instruments

The following summarizes the three levels of inputs that we use to measure fair value.

Level 1. Quoted prices in active markets for identical assets or liabilities.

Our Level 1 asset is our investment in marketable securities that we use to pay benefits under our non-qualified deferred compensation plan. Our Level 1 liability is our non-qualified deferred compensation obligation. The Company's Level 1 noncontrolling interests in the Operating Partnership relate to the ownership of Common Units by various individuals and entities other than the Company.

Level 2. Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the related assets or liabilities.

Our Level 2 asset is the fair value of our mortgages and notes receivable. Our Level 2 liabilities include the fair value of our mortgages and notes payable and interest rate swaps.

The fair value of mortgages and notes receivable and mortgages and notes payable is estimated by the income approach utilizing contractual cash flows and market-based interest rates to approximate the price that would be paid in an orderly transaction between market participants. The fair value of interest rate swaps is determined using the market standard methodology of netting the discounted future fixed cash receipts and the discounted expected variable cash payments. The variable cash payments of interest rate swaps are based on the expectation of future interest rates (forward curves) derived from observed market interest rate curves. In addition, credit valuation adjustments are considered in the fair values to account for potential nonperformance risk, but were concluded to not be significant inputs to the calculation for the periods presented.

Level 3. Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Our Level 3 asset included our tax increment financing bond, which was not routinely traded but whose fair value was determined by the income approach utilizing contractual cash flows and market-based interest rates to estimate the projected redemption value based on quoted bid/ask prices for similar unrated municipal bonds.

Our Level 3 liability was the fair value of our financing obligation, which was estimated by the income approach to approximate the price that would be paid in an orderly transaction between market participants, utilizing: (1) contractual cash flows; (2) market-based interest rates; and (3) a number of other assumptions including demand for space, competition for customers, changes in market rental rates, costs of operation and expected ownership periods.

9. Disclosure About Fair Value of Financial Instruments - Continued

The following table sets forth our assets and liabilities and the Company's noncontrolling interests in the Operating Partnership that are measured at fair value within the fair value hierarchy.

	Total	Level 1 Quoted Prices in Active Markets for Identical Assets or Liabilities	Level 2 Significant Observable Inputs	Level 3 Significant Unobservable Inputs
Fair Value at March 31, 2016:				
Assets:				
Mortgages and notes receivable, at fair value (1)	\$9,661	\$—	\$9,661	\$—
Marketable securities of non-qualified deferred compensation plan (in prepaid expenses and other assets)	2,521	2,521	—	—
Total Assets	\$12,182	\$2,521	\$9,661	\$—
Noncontrolling Interests in the Operating Partnership	\$138,637	\$138,637	\$—	\$—
Liabilities:				
Mortgages and notes payable, net, at fair value (1)	\$2,131,771	\$—	\$2,131,771	\$—
Interest rate swaps (in accounts payable, accrued expenses and other liabilities)	5,992	—	5,992	—
Non-qualified deferred compensation obligation (in accounts payable, accrued expenses and other liabilities)	2,521	2,521	—	—
Total Liabilities	\$2,140,284	\$2,521	\$2,137,763	\$—
Fair Value at December 31, 2015:				
Assets:				
Mortgages and notes receivable, at fair value (1)	\$2,096	\$—	\$2,096	\$—
Marketable securities of non-qualified deferred compensation plan (in prepaid expenses and other assets)	2,736	2,736	—	—
Tax increment financing bond (in real estate and other assets, net, held for sale) (2)	11,197	—	—	11,197
Total Assets	\$16,029	\$2,736	\$2,096	\$11,197
Noncontrolling Interests in the Operating Partnership	\$126,429	\$126,429	\$—	\$—
Liabilities:				
Mortgages and notes payable, net, at fair value (1)	\$2,517,589	\$—	\$2,517,589	\$—
Interest rate swaps (in accounts payable, accrued expenses and other liabilities)	3,073	—	3,073	—
Non-qualified deferred compensation obligation (in accounts payable, accrued expenses and other liabilities)	2,736	2,736	—	—
Financing obligation, at fair value (in liabilities held for sale) (1) (2)	7,402	—	—	7,402

Total Liabilities	\$2,530,800	\$2,736	\$2,520,662	\$7,402
-------------------	-------------	---------	-------------	---------

(1) Amounts recorded at historical cost on our Consolidated Balance Sheets at March 31, 2016 and December 31, 2015.

(2) Sold during the first quarter of 2016 in conjunction with the sale of the Plaza assets.

(tabular dollar amounts in thousands, except per share and per unit data)

9. Disclosure About Fair Value of Financial Instruments - Continued

The following table sets forth the changes in our Level 3 asset, which was recorded at fair value on our Consolidated Balance Sheets:

	Three Months Ended March 31, 2016 2015	
Asset:		
Tax Increment Financing Bond:		
Beginning balance	\$ 11,197	\$ 12,447
Assigned to the buyer of the Plaza assets	(11,197)	—
Unrealized gains (in AOCL)	—	193
Ending balance	\$—	\$ 12,640

During 2007, we acquired a tax increment financing bond associated with a parking garage developed by us, which was assigned to the buyer of the Plaza assets in the first quarter of 2016. The estimated fair value at the date of sale was equal to the outstanding principal amount due on the bond.

The following table sets forth quantitative information about the unobservable input of our Level 3 asset, which was recorded at fair value on our Consolidated Balance Sheets:

	Valuation Technique	Unobservable Input	Rate as of December 31, 2015
Asset:			
Tax increment financing bond	Income approach	Discount rate	6.93%

10. Share-Based Payments

During the three months ended March 31, 2016, the Company granted 244,664 stock options with an exercise price equal to the closing market price of a share of Common Stock on the date of grant. The fair value of each option is estimated on the date of grant using the Black-Scholes option pricing model, which resulted in a weighted average grant date fair value per share of \$4.61. During the three months ended March 31, 2016, the Company also granted 66,486 shares of time-based restricted stock and 56,346 shares of total return-based restricted stock with weighted average grant date fair values per share of \$43.19 and \$41.25, respectively. We recorded share-based compensation expense of \$3.6 million and \$3.9 million during the three months ended March 31, 2016 and 2015, respectively. At March 31, 2016, there was \$7.8 million of total unrecognized share-based compensation costs, which will be recognized over a weighted average remaining contractual term of 2.7 years.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The Company is a fully integrated office REIT that owns, develops, acquires, leases and manages properties primarily in the best business districts (BBDs) of Atlanta, Greensboro, Memphis, Nashville, Orlando, Pittsburgh, Raleigh, Richmond and Tampa. The Company conducts its activities through the Operating Partnership. The Operating Partnership is managed by the Company, its sole general partner. Additional information about us can be found on our website at www.highwoods.com. Information on our website is not part of this Quarterly Report.

You should read the following discussion and analysis in conjunction with the accompanying Consolidated Financial Statements and related notes contained elsewhere in this Quarterly Report.

Disclosure Regarding Forward-Looking Statements

Some of the information in this Quarterly Report may contain forward-looking statements. Such statements include, in particular, statements about our plans, strategies and prospects under this section. You can identify forward-looking statements by our use of forward-looking terminology such as "may," "will," "expect," "anticipate," "estimate," "continue" or similar words. Although we believe that our plans, intentions and expectations reflected in or suggested by such forward-looking statements are reasonable, we cannot assure you that our plans, intentions or expectations will be achieved. When considering such forward-looking statements, you should keep in mind the following important factors that could cause our actual results to differ materially from those contained in any forward-looking statement:

- given the competition for properties meeting our investment criteria, there could be a delay in reinvesting Section 1031 proceeds currently held by an escrow agent or we may be unable to reinvest such proceeds at all and any delay or limitation in using the reinvestment proceeds to acquire additional income producing assets would adversely affect our results of operations;

- the financial condition of our customers could deteriorate;

- we may not be able to lease or re-lease second generation space, defined as previously occupied space that becomes available for lease, quickly or on as favorable terms as old leases;

- we may not be able to lease our newly constructed buildings as quickly or on as favorable terms as originally anticipated;

- we may not be able to complete development, acquisition, reinvestment, disposition or joint venture projects as quickly or on as favorable terms as anticipated;

- development activity by our competitors in our existing markets could result in an excessive supply relative to customer demand;

- our markets may suffer declines in economic growth;

- unanticipated increases in interest rates could increase our debt service costs;

- unanticipated increases in operating expenses could negatively impact our operating results;

- we may not be able to meet our liquidity requirements or obtain capital on favorable terms to fund our working capital needs and growth initiatives or repay or refinance outstanding debt upon maturity; and

the Company could lose key executive officers.

This list of risks and uncertainties, however, is not intended to be exhaustive. You should also review the other cautionary statements we make in “Business – Risk Factors” set forth in our 2015 Annual Report on Form 10-K. Given these uncertainties, you should not place undue reliance on forward-looking statements. We undertake no obligation to publicly release the results of any revisions to these forward-looking statements to reflect any future events or circumstances or to reflect the occurrence of unanticipated events.

Table of Contents

Executive Summary

Our Strategic Plan focuses on:

- owning high-quality, differentiated office buildings in the BBDs of our core markets;
- improving the operating results of our existing properties through concentrated leasing, asset management, cost control and customer service efforts;
- developing and acquiring office buildings in BBDs that improve the overall quality of our portfolio and generate attractive returns over the long term for our stockholders;
- disposing of properties no longer considered to be core assets primarily due to location, age, quality and overall strategic fit; and
- maintaining a conservative and flexible balance sheet with ample liquidity to meet our funding needs and growth prospects.

Revenues

Our operating results depend heavily on successfully leasing and operating the office space in our portfolio. Economic growth and employment levels in our core markets are and will continue to be important factors in predicting our future operating results.

The key components affecting our rental and other revenues are average occupancy, rental rates, cost recovery income, new developments placed in service, acquisitions and dispositions. Average occupancy generally increases during times of improving economic growth, as our ability to lease space outpaces vacancies that occur upon the expirations of existing leases. Average occupancy generally declines during times of slower economic growth, when new vacancies tend to outpace our ability to lease space. Asset acquisitions, dispositions and new developments placed in service directly impact our rental revenues and could impact our average occupancy, depending upon the occupancy rate of the properties that are acquired, sold or placed in service. A further indicator of the predictability of future revenues is the expected lease expirations of our portfolio. As a result, in addition to seeking to increase our average occupancy by leasing current vacant space, we also must concentrate our leasing efforts on renewing our existing leases prior to expiration. For more information regarding our lease expirations, see "Properties - Lease Expirations" in our 2015 Annual Report on Form 10-K. Occupancy in our office portfolio decreased from 92.6% at December 31, 2015 to 92.2% at March 31, 2016. We expect average occupancy for our office portfolio to be approximately 92% to 93% for the remainder of 2016.

Whether or not our rental revenue tracks average occupancy proportionally depends upon whether GAAP rents under signed new and renewal leases are higher or lower than the GAAP rents under expiring leases. Annualized rental revenues from second generation leases expiring during any particular year are generally less than 15% of our total annual rental revenues. The following table sets forth information regarding second generation office leases signed during the first quarter of 2016 (we define second generation office leases as leases with new customers and renewals of existing customers in office space that has been previously occupied under our ownership and leases with respect to vacant space in acquired buildings):

	New	Renewal	All Office
Leased space (in rentable square feet)	207,880	694,258	902,138

Edgar Filing: HIGHWOODS PROPERTIES INC - Form 10-Q

Average term (in years - rentable square foot weighted)	7.2	6.3	6.5
Base rents (per rentable square foot) (1)	\$25.47	\$24.11	\$24.42
Rent concessions (per rentable square foot) (1)	(1.32)	(0.43)	(0.63)
GAAP rents (per rentable square foot) (1)	\$24.15	\$23.68	\$23.79
Tenant improvements (per rentable square foot) (1)	\$3.85	\$1.52	\$2.05
Leasing commissions (per rentable square foot) (1)	\$0.89	\$0.42	\$0.53

(1) Weighted average per rentable square foot on an annual basis over the lease term.

Compared to previous leases in the same office spaces, annual combined GAAP rents for new and renewal leases signed in the first quarter were \$23.79 per rentable square foot, or 9.7% higher.

Table of Contents

We strive to maintain a diverse, stable and creditworthy customer base. We have an internal guideline whereby customers that account for more than 3% of our revenues are periodically reviewed with the Company's Board of Directors. As of March 31, 2016, no customer accounted for more than 3% of our cash revenues other than the Federal Government, which accounted for less than 6% of our cash revenues on an annualized basis. Upon completion of the Bridgestone Americas development project in Nashville, which is scheduled for delivery in mid-to-late 2017, it is expected that Bridgestone Americas, Inc., the U.S. subsidiary of Bridgestone Corporation, will account for approximately 3% of our revenues based on annualized cash revenues for March 2016.

Operating Expenses

Our expenses primarily consist of rental property expenses, depreciation and amortization, general and administrative expenses and interest expense. From time to time, expenses also include impairments of real estate assets. Rental property expenses are expenses associated with our ownership and operation of rental properties and include expenses that vary somewhat proportionately to occupancy levels, such as janitorial services and utilities, and expenses that do not vary based on occupancy, such as property taxes and insurance. Depreciation and amortization is a non-cash expense associated with the ownership of real property and generally remains relatively consistent each year, unless we buy, place in service or sell assets, since we depreciate our properties and related building and tenant improvement assets on a straight-line basis over fixed lives. General and administrative expenses consist primarily of management and employee salaries and other personnel costs, corporate overhead and short and long-term incentive compensation.

Net Operating Income

Whether or not we record growing same property net operating income ("NOI") depends upon our ability to garner higher rental revenues, whether from higher average occupancy, higher GAAP rents per rentable square foot or higher cost recovery income, that exceed any corresponding growth in operating expenses. Same property NOI from continuing operations was \$4.0 million, or 4.5%, higher in the first quarter of 2016 as compared to 2015 due to an increase in same property revenues of \$4.1 million. We expect same property NOI to be higher in the remainder of 2016 than 2015 as higher rental revenues, mostly from higher average occupancy and higher average GAAP rents per rentable square foot, are expected to more than offset an increase in same property operating expenses.

In addition to the effect of same property NOI, whether or not NOI from continuing operations increases depends upon whether the NOI from our acquired properties and development properties placed in service exceeds the NOI from sold properties. NOI from continuing operations was \$14.6 million, or 15.7%, higher in the first quarter of 2016 as compared to 2015 due to the full year impact of acquisitions and development properties placed in service in 2015, offset by NOI lost from sold properties not classified as discontinued operations. We expect NOI from continuing operations to be higher in the remainder of 2016 than 2015 due to the full year impact of our net investment activity in 2015.

Cash Flows

In calculating net cash related to operating activities, depreciation and amortization, which are non-cash expenses, are added back to net income. As a result, we have historically generated a positive amount of cash from operating activities. From period to period, cash flow from operations depends primarily upon changes in our net income, as discussed more fully below under "Results of Operations," changes in receivables and payables, and net additions or decreases in our overall portfolio.

Net cash related to investing activities generally relates to capitalized costs incurred for leasing and major building improvements and our acquisition, development, disposition and joint venture capital activity. During periods of significant net acquisition and/or development activity, our cash used in such investing activities will generally exceed

cash provided by investing activities, which typically consists of cash received upon the sale of properties and distributions of capital from our joint ventures.

Net cash related to financing activities generally relates to distributions, incurrence and repayment of debt, and issuances, repurchases or redemptions of Common Stock, Common Units and Preferred Stock. As discussed previously, we use a significant amount of our cash to fund distributions. Whether or not we have increases in the outstanding balances of debt during a period depends generally upon the net effect of our acquisition, disposition, development and joint venture activity. We generally use our revolving credit facility for daily working capital purposes, which means that during any given period, in order to minimize interest expense, we may record significant repayments and borrowings under our revolving credit facility.

Table of Contents

Liquidity and Capital Resources

We intend to maintain a conservative and flexible balance sheet with access to multiple sources of debt and equity capital and sufficient availability under our revolving credit facility that allows us to capitalize on favorable development and acquisition opportunities as they arise.

Rental and other revenues are our principal source of funds to meet our short-term liquidity requirements. Other sources of funds for short-term liquidity needs include available working capital and borrowings under our existing revolving credit facility, which had \$217.8 million of availability at April 19, 2016. Our short-term liquidity requirements primarily consist of operating expenses, interest and principal amortization on our debt, distributions and capital expenditures, including building improvement costs, tenant improvement costs and lease commissions. Building improvements are capital costs to maintain or enhance existing buildings not typically related to a specific customer. Tenant improvements are the costs required to customize space for the specific needs of customers. We anticipate that our available cash and cash equivalents and cash provided by operating activities, together with cash available from borrowings under our revolving credit facility, will be adequate to meet our short-term liquidity requirements. We use our revolving credit facility for working capital purposes and for the short-term funding of our development and acquisition activity and, in certain instances, the repayment of other debt. The continued ability to borrow under the revolving credit facility allows us to quickly capitalize on strategic opportunities at short-term interest rates.

Our long-term liquidity uses generally consist of the retirement or refinancing of debt upon maturity (including mortgage debt, our revolving credit facility, term loans and other unsecured debt), funding of existing and new building development and land infrastructure projects and funding acquisitions of buildings and development land. Our expected future capital expenditures for started and/or committed new development projects were approximately \$297 million at March 31, 2016. Additionally, we may, from time to time, retire some or all of our remaining outstanding Preferred Stock and/or unsecured debt securities through redemptions, open market repurchases, privately negotiated acquisitions or otherwise.

We expect to meet our long-term liquidity needs through a combination of:

- cash flow from operating activities;
- bank term loans and borrowings under our revolving credit facility;
- the issuance of unsecured debt;
- the issuance of secured debt;
- the issuance of equity securities by the Company or the Operating Partnership; and
- the disposition of non-core assets.

We generally expect to grow our company on a leverage-neutral basis by maintaining a leverage ratio of 38% to 43% as measured by the ratio of our mortgages and notes payable and outstanding preferred stock to the undepreciated book value of our assets. At March 31, 2016, our leverage ratio was 38.4% and there were 100.4 million diluted shares outstanding.

Investment Activity

As noted above, a key tenet of our strategic plan is to continuously upgrade the quality of our office portfolio through acquisitions, dispositions and development. We generally seek to acquire and develop office buildings that improve the average quality of our overall portfolio and deliver consistent and sustainable value for our stockholders over the long-term. Whether or not an asset acquisition or new development results in higher per share net income or funds from operations ("FFO") in any given period depends upon a number of factors, including whether the NOI for any such period exceeds the actual cost of capital used to finance the acquisition or development. Additionally, given the length of construction cycles, development projects are not placed in service until, in some cases, several years after commencement. Sales of non-core assets could result in lower per share net income or FFO in any given period in the event the resulting use of proceeds does not exceed the capitalization rate on the sold properties.

Table of Contents

Results of Operations

On March 1, 2016, we sold substantially all of our wholly-owned Country Club Plaza assets in Kansas City (which we refer to as the “Plaza assets”) for a sale price of \$660.0 million. The Plaza assets and related liabilities were classified as held for sale at December 31, 2015 and, accordingly, the revenues and expenses of the Plaza assets have been reclassified to discontinued operations for the three months ended March 31, 2016 and 2015.

Three Months Ended March 31, 2016 and 2015

Rental and Other Revenues

Rental and other revenues were \$19.6 million, or 13.5%, higher in the first quarter of 2016 as compared to 2015 primarily due to 2015 acquisitions, development properties placed in service in 2015 and higher same property revenues, which increased rental and other revenues by \$12.2 million, \$5.2 million and \$4.1 million, respectively. Same property rental and other revenues were higher primarily due to an increase in average occupancy to 92.6% in the first quarter of 2016 from 91.4% in the first quarter of 2015, higher average GAAP rents per rentable square foot and higher termination fees. These increases were partly offset by lost revenue of \$1.7 million from property dispositions. We expect rental and other revenues for the remainder of 2016 to increase over 2015 primarily due to the full year contribution of acquisitions closed in 2015, development properties placed in service in 2015 and 2016 and higher same property revenues, partly offset by lost revenue from property dispositions.

Operating Expenses

Rental property and other expenses were \$5.1 million, or 9.6%, higher in the first quarter of 2016 as compared to 2015 primarily due to 2015 acquisitions and development properties placed in service, which increased operating expenses by \$4.8 million and \$1.2 million, respectively. These increases were partly offset by a \$0.5 million decrease in operating expenses from property dispositions. Same property operating expenses were relatively unchanged in the first quarter of 2016 as compared to 2015 primarily due to higher property taxes offset by lower utilities. We expect rental property and other expenses for the remainder of 2016 to increase over 2015 primarily due to the full year contribution of acquisitions closed in 2015, development properties placed in service in 2015 and 2016 and higher same property operating expenses, partly offset by lower operating expenses due to property dispositions.

Depreciation and amortization was \$6.6 million, or 14.1%, higher in the first quarter of 2016 as compared to 2015 primarily due to 2015 acquisitions and development properties placed in service, partly offset by property dispositions. We expect depreciation and amortization for the remainder of 2016 to increase over 2015 for similar reasons.

General and administrative expenses were relatively unchanged in the first quarter of 2016 as compared to 2015 primarily due to lower incentive compensation offset by higher company-wide base salaries. We expect general and administrative expenses for the remainder of 2016 to decrease over 2015 primarily due to lower incentive compensation, partly offset by higher company-wide base salaries and benefits. First quarter general and administrative expenses are typically higher than in subsequent quarters due to higher long-term equity incentive compensation recognized for certain employees who meet the age and service eligibility requirements under our retirement plan. Long-term equity incentive compensation awards are typically issued during the first quarter of each year.

Interest Expense

Interest expense was \$0.5 million, or 2.5%, lower in the first quarter of 2016 as compared to 2015 primarily due to lower average interest rates, partly offset by higher average debt balances. We expect interest expense for the remainder of 2016 to decrease over 2015 primarily due to lower average debt balances, lower average interest rates and higher capitalized interest.

Other Income

Other income was \$0.1 million, or 11.2%, lower in the first quarter of 2016 as compared to 2015 primarily due to the repayment of mortgages receivable in the second quarter of 2015. We expect other income for the remainder of 2016 to decrease over 2015 as a result of this repayment.

Table of Contents

Equity in Earnings of Unconsolidated Affiliates

Equity in earnings of unconsolidated affiliates was \$0.5 million, or 29.0%, lower in the first quarter of 2016 as compared to 2015 primarily due to our \$1.1 million share of a gain recognized by Highwoods DLF 97/26 DLF 99/32, LP in 2015 and less net operating income in our unconsolidated affiliates as a result of disposition activity, partly offset by our \$0.4 million share of a gain recognized by Concourse Center Associates, LLC in 2016. We expect equity in earnings of unconsolidated affiliates for the remainder of 2016 to decrease over 2015 for similar reasons.

Gains on Disposition of Property and Net Gains on Disposition of Discontinued Operations

Total gains were \$417.7 million higher in the first quarter of 2016 as compared to 2015 due to the sale of the Plaza assets.

Earnings Per Common Share - Diluted

Diluted earnings per common share was \$4.28 higher in the first quarter of 2016 as compared to 2015 due to an increase in net income for the reasons discussed above offset by an increase in the weighted average Common Shares outstanding.

Liquidity and Capital Resources

Statements of Cash Flows

We report and analyze our cash flows based on operating activities, investing activities and financing activities. The following table sets forth the changes in the Company's cash flows (\$ in thousands):

	Three Months Ended March 31,		
	2016	2015	Change
Net Cash Provided By Operating Activities	\$48,235	\$33,106	\$15,129
Net Cash Provided By/(Used In) Investing Activities	333,835	(47,135)	380,970
Net Cash Provided By/(Used In) Financing Activities	(383,761)	16,578	(400,339)
Total Cash Flows	\$(1,691)	\$2,549	\$(4,240)

The increase in net cash provided by operating activities in the first quarter of 2016 as compared to 2015 was primarily due to higher net cash from the operations of 2015 acquisitions and development properties placed in service and the timing of cash paid for operating expenses. We expect net cash related to operating activities for the remainder of 2016 to be higher as compared to 2015 due to the full year impact of properties acquired in 2015, development properties placed in service in 2015 and 2016 and higher cash flows from leases signed in prior years as free rent periods expire, partly offset by the sale of the Plaza assets in 2016.

The change in net cash provided by/(used in) investing activities in the first quarter of 2016 as compared to 2015 was primarily due to the proceeds from the sale of the Plaza assets, partly offset by higher investments in development in-process in 2016. We expect uses of cash for investing activities for the remainder of 2016 to be primarily driven by our plans to acquire and commence development of office buildings in the BBDs of our markets. Additionally, as of March 31, 2016, we have \$297 million left to fund of our previously-announced development activity. We expect these uses of cash for investing activities will be partly offset by proceeds from non-core dispositions for the remainder of 2016.

The change in net cash provided by/(used in) financing activities in the first quarter of 2016 as compared to 2015 was primarily due to higher net debt repayments in 2016, partly offset by higher proceeds from the issuance of Common Stock in 2016.

Table of Contents

Capitalization

The following table sets forth the Company's capitalization (in thousands, except per share amounts):

	March 31, 2016	December 31, 2015
Mortgages and notes payable, net, at recorded book value	\$2,100,937	\$ 2,491,813
Financing obligation (in liabilities held for sale)	\$—	\$ 7,402
Preferred Stock, at liquidation value	\$29,030	\$ 29,050
Common Stock outstanding	97,392	96,092
Common Units outstanding (not owned by the Company)	2,900	2,900
Per share stock price at period end	\$47.81	\$ 43.60
Market value of Common Stock and Common Units	\$4,794,961	\$ 4,316,051
Total capitalization	\$6,924,928	\$ 6,844,316

At March 31, 2016, our mortgages and notes payable and outstanding preferred stock represented 30.8% of our total capitalization and 38.4% of the undepreciated book value of our assets.

Our mortgages and notes payable as of March 31, 2016 consisted of \$174.5 million of secured indebtedness with a weighted average interest rate of 5.14% and \$1,933.5 million of unsecured indebtedness with a weighted average interest rate of 3.73%. The secured indebtedness was collateralized by real estate assets with an aggregate undepreciated book value of \$315.8 million. As of March 31, 2016, \$583.0 million of our debt does not bear interest at fixed rates or is not protected by interest rate hedge contracts.

Investment Activity

On April 4, 2016, we acquired 14 acres of development land in Nashville, TN for a purchase price of \$9.0 million.

In the normal course of business, we regularly evaluate potential acquisitions. As a result, from time to time, we may have one or more potential acquisitions under consideration that are in varying stages of evaluation, negotiation or due diligence, including potential acquisitions that are subject to non-binding letters of intent or enforceable contracts. Consummation of any transaction is subject to a number of contingencies, including the satisfaction of customary closing conditions. No assurances can be provided that we will acquire any properties in the future. See "Item 1A. Risk Factors - Recent and future acquisitions and development properties may fail to perform in accordance with our expectations and may require renovation and development costs exceeding our estimates" in our 2015 Annual Report on Form 10-K.

During the first quarter of 2016, we sold the Plaza assets for a sale price of \$660.0 million (before closing credits to buyer of \$4.8 million). We recorded gains on disposition of discontinued operations of \$414.5 million and a gain on disposition of property of \$1.3 million related to the land. We used \$420.0 million of the net sale proceeds from the sale of the Plaza assets to repay debt incurred to acquire three buildings in the third quarter of 2015 and are holding approximately \$230 million of the net sale proceeds in escrow pending reinvestment in 1031 exchanges qualifying for tax-deferred treatment, repayment of additional debt and/or other general corporate purposes. We closed our Kansas City division office upon such sale. See "Item 1A. Risk Factors - Illiquidity of real estate investments and the tax effect of dispositions could significantly impede our ability to sell assets or respond to favorable or adverse changes in the performance of our properties" in our 2015 Annual Report on Form 10-K.

During the first quarter of 2016, we also sold:

a 32,000 square foot building for a sale price of \$4.7 million (before closing credits to buyer of \$0.1 million) and recorded a gain on disposition of property of \$1.1 million. The buyer, which leased 79% of the building, is a family business controlled by a director of the Company. The sale price exceeded the value set forth in an appraisal performed by a reputable independent commercial real estate services firm that has no relationship with the director or any of his affiliates; and

a building for a sale price of \$6.4 million (before closing credits to buyer of \$0.5 million) and recorded a gain on disposition of property of \$2.0 million.

Table of Contents

As of March 31, 2016, we were developing 1.4 million rentable square feet of properties. The following table summarizes these developments:

Property	Market	Rentable Square Feet	Anticipated Investment		Pre-Leased %,	Estimated Completion	Estimated Stabilization
			Total Investment (1) (\$ in thousands)	As Of March 31, 2016 (1)			
Seven Springs West (Office)	Nashville	203,000	\$59,000	\$45,951	85.6 %	3Q16	1Q17
Riverwood 200 (Office)	Atlanta	299,000	107,000	31,133	66.2	2Q17	2Q19
Seven Springs II (Office)	Nashville	131,000	38,100	6,322	42.9	2Q17	3Q18
Bridgestone Americas (Office)	Nashville	514,000	200,000	70,579	98.5	3Q17	3Q17
CentreGreen III (Office) (2)	Raleigh	166,500	40,850	1,938	—	3Q17	3Q19
Enterprise V (Industrial)	Greensboro	131,200	7,600	6,156	—	2Q16	2Q17
		1,444,700	\$452,550	\$162,079	64.7 %		

(1) Includes deferred lease commissions which are classified in deferred leasing costs on our Consolidated Balance Sheets.

(2) Recorded on our Consolidated Balance Sheets in land held for development, not development in-process.

Financing Activity

During the first quarter of 2016, we entered into separate equity distribution agreements with each of Jefferies LLC, Robert W. Baird & Co. Incorporated, BB&T Capital Markets, a division of BB&T Securities, LLC, Merrill Lynch, Pierce, Fenner & Smith Incorporated, Capital One Securities, Inc., Comerica Securities, Inc., Mitsubishi UFJ Securities (USA), Inc., Morgan Stanley & Co. LLC, Piper Jaffray & Co., RBC Capital Markets, LLC and Wells Fargo Securities, LLC. Under the terms of the equity distribution agreements, the Company may offer and sell up to \$250.0 million in aggregate gross sales price of shares of common stock from time to time through such firms, acting as agents of the Company or as principals. Sales of the shares, if any, may be made by means of ordinary brokers' transactions on the New York Stock Exchange or otherwise at market prices prevailing at the time of sale, at prices related to prevailing market prices or at negotiated prices or as otherwise agreed with any of such firms. During the first quarter of 2016, the Company issued 1,054,496 shares of Common Stock at an average gross sales price of \$45.86 per share and received net proceeds, after sales commissions, of \$47.6 million. We paid an aggregate of \$0.7 million in sales commissions to RBC Capital Markets, LLC, Morgan Stanley & Co. LLC and Jefferies LLC during the first quarter of 2016.

Our \$475.0 million unsecured revolving credit facility is scheduled to mature in January 2018 and includes an accordion feature that allows for an additional \$75.0 million of borrowing capacity subject to additional lender commitments. Assuming no defaults have occurred, we have an option to extend the maturity for two additional six-month periods. The interest rate at our current credit ratings is LIBOR plus 110 basis points and the annual facility fee is 20 basis points. The interest rate and facility fee are based on the higher of the publicly announced ratings from Moody's Investors Service or Standard & Poor's Ratings Services. There was \$258.0 million and \$257.0 million outstanding under our revolving credit facility at March 31, 2016 and April 19, 2016, respectively. At both March 31,

2016 and April 19, 2016, we had \$0.2 million of outstanding letters of credit, which reduces the availability on our revolving credit facility. As a result, the unused capacity of our revolving credit facility at March 31, 2016 and April 19, 2016 was \$216.8 million and \$217.8 million, respectively.

During the first quarter of 2016, we prepaid without penalty the \$350.0 million balance on our unsecured bridge facility that was originally scheduled to mature in March 2016.

We are currently in compliance with financial covenants and other requirements with respect to our consolidated debt. Although we expect to remain in compliance with these covenants and ratios for at least the next year, depending upon our future operating performance, property and financing transactions and general economic conditions, we cannot assure you that we will continue to be in compliance.

Our revolving credit facility and bank term loans require us to comply with customary operating covenants and various financial requirements.

Off Balance Sheet Arrangements

During the first quarter of 2016, Concourse Center Associates, LLC sold two buildings and land to an unrelated third party for an aggregate sale price of \$11.0 million and recorded losses on disposition of property of \$0.1 million. As our cost basis was

Table of Contents

different from the basis reflected at the joint venture level, we recorded \$0.4 million of gains through equity in earnings of unconsolidated affiliates. Simultaneously with the sale, the joint venture repaid all \$6.6 million of its secured debt.

During the first quarter of 2016, 4600 Madison Associates, LP sold land to an unrelated third party for a sale price of \$3.4 million and recorded a gain on disposition of property of \$1.0 million. We recorded \$0.1 million as our share of this gain through equity in earnings of unconsolidated affiliates. Simultaneously with the sale, the joint venture used all of the proceeds to pay down \$3.4 million on its secured mortgage loan with an effective interest rate of 6.85%.

Critical Accounting Estimates

There were no changes made by management to the critical accounting policies in the three months ended March 31, 2016. For a description of our critical accounting estimates, see "Management's Discussion and Analysis of Financial Condition and Results of Operations - Critical Accounting Estimates" in our 2015 Annual Report on Form 10-K.

Non-GAAP Information

The Company believes that FFO, FFO available for common stockholders and FFO available for common stockholders per share are beneficial to management and investors and are important indicators of the performance of any equity REIT. Because these FFO calculations exclude such factors as depreciation, amortization and impairments of real estate assets and gains or losses from sales of operating real estate assets, which can vary among owners of identical assets in similar conditions based on historical cost accounting and useful life estimates, they facilitate comparisons of operating performance between periods and between other REITs. Management believes that historical cost accounting for real estate assets in accordance with GAAP implicitly assumes that the value of real estate assets diminishes predictably over time. Since real estate values have historically risen or fallen with market conditions, many industry investors and analysts have considered the presentation of operating results for real estate companies that use historical cost accounting to be insufficient on a stand-alone basis. As a result, management believes that the use of FFO, FFO available for common stockholders and FFO available for common stockholders per share, together with the required GAAP presentations, provides a more complete understanding of the Company's performance relative to its competitors and a more informed and appropriate basis on which to make decisions involving operating, financing and investing activities.

FFO, FFO available for common stockholders and FFO available for common stockholders per share are non-GAAP financial measures and therefore do not represent net income or net income per share as defined by GAAP. Net income and net income per share as defined by GAAP are the most relevant measures in determining the Company's operating performance because these FFO measures include adjustments that investors may deem subjective, such as adding back expenses such as depreciation, amortization and impairments. Furthermore, FFO available for common stockholders per share does not depict the amount that accrues directly to the stockholders' benefit. Accordingly, FFO, FFO available for common stockholders and FFO available for common stockholders per share should never be considered as alternatives to net income, net income available for common stockholders, or net income available for common stockholders per share as indicators of the Company's operating performance.

The Company's presentation of FFO is consistent with FFO as defined by the National Association of Real Estate Investment Trusts, which is calculated as follows:

Net income/(loss) computed in accordance with GAAP;

Less net income attributable to noncontrolling interests in consolidated affiliates;

Plus depreciation and amortization of depreciable operating properties;

Less gains, or plus losses, from sales of depreciable operating properties, plus impairments on depreciable operating properties and excluding items that are classified as extraordinary items under GAAP;

Plus or minus our share of adjustments, including depreciation and amortization of depreciable operating properties, for unconsolidated partnerships and joint ventures (to reflect funds from operations on the same basis); and

Plus or minus adjustments for depreciation and amortization and gains/(losses) on sales of depreciable operating properties, plus impairments on depreciable operating properties, and noncontrolling interests in consolidated affiliates related to discontinued operations.

In calculating FFO, the Company includes net income attributable to noncontrolling interests in the Operating Partnership, which the Company believes is consistent with standard industry practice for REITs that operate through an UPREIT structure.

Table of Contents

The Company believes that it is important to present FFO on an as-converted basis since all of the Common Units not owned by the Company are redeemable on a one-for-one basis for shares of its Common Stock.

The following table sets forth the Company's FFO, FFO available for common stockholders and FFO available for common stockholders per share (\$ in thousands, except per share amounts):

	Three Months Ended March 31,	
	2016	2015
Funds from operations:		
Net income	\$446,735	\$20,835
Net (income) attributable to noncontrolling interests in consolidated affiliates	(308)	(296)
Depreciation and amortization of real estate assets	52,797	46,298
(Gains) on disposition of depreciable properties	(3,054)	(394)
Unconsolidated affiliates:		
Depreciation and amortization of real estate assets	742	846
(Gains) on disposition of depreciable properties	(331)	(1,071)
Discontinued operations:		
Depreciation and amortization of real estate assets	—	3,380
(Gains) on disposition of depreciable properties	(414,496)	—
Funds from operations	82,085	69,598
Dividends on Preferred Stock	(626)	(627)
Funds from operations available for common stockholders	\$81,459	\$68,971
Funds from operations available for common stockholders per share	\$0.82	\$0.72
Weighted average shares outstanding (1)	99,357	96,279

(1) Includes assumed conversion of all potentially dilutive Common Stock equivalents.

In addition, the Company believes NOI from continuing operations and same property NOI are useful supplemental measures of the Company's property operating performance because such metrics provide a performance measure of the revenues and expenses directly involved in owning real estate assets and a perspective not immediately apparent from net income or FFO. The Company defines NOI as rental and other revenues from continuing operations, less rental property and other expenses from continuing operations. The Company defines cash NOI as NOI less straight-line rent and lease termination fees. Other REITs may use different methodologies to calculate NOI and same property NOI.

As of March 31, 2016, our same property portfolio consisted of 223 in-service properties encompassing 26.9 million rentable square feet that were wholly owned during the entirety of the periods presented (from January 1, 2015 to March 31, 2016). As of December 31, 2015, our same property portfolio consisted of 221 in-service properties encompassing 26.2 million rentable square feet that were wholly owned during the entirety of the periods presented (from January 1, 2014 to December 31, 2015). The change in our same property portfolio was due to the addition of three properties encompassing 0.7 million rentable square feet acquired during 2014 and one newly developed property encompassing 0.1 million rentable square feet placed in service during 2014. These additions were offset by the removal of two properties encompassing 0.1 million rentable square feet that were sold during 2016.

Rental and other revenues related to properties not in our same property portfolio were \$20.7 million and \$5.2 million for the three months ended March 31, 2016 and 2015, respectively. Rental property and other expenses related to properties not in our same property portfolio were \$6.8 million and \$1.8 million for the three months ended March 31, 2016 and 2015, respectively.

Table of Contents

The following table sets forth the Company's NOI and same property NOI:

	Three Months Ended March 31,	
	2016	2015
Income from continuing operations before disposition of investment properties and activity in unconsolidated affiliates	\$ 22,460	\$ 13,952
Other income	(517)	(582)
Interest expense	20,705	21,242
General and administrative expenses	11,137	11,243
Depreciation and amortization	53,494	46,867
Net operating income from continuing operations	107,279	92,722
Less – non same property and other net operating income	(13,924)	(3,416)
Same property net operating income from continuing operations	\$ 93,355	\$ 89,306
Same property net operating income from continuing operations	\$ 93,355	\$ 89,306
Less – straight-line rent and lease termination fees	(4,842)	(3,962)
Same property cash net operating income from continuing operations	\$ 88,513	\$ 85,344

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The effects of potential changes in interest rates are discussed below. Our market risk discussion includes “forward-looking statements” and represents an estimate of possible changes in fair value or future earnings that would occur assuming hypothetical future movements in interest rates. Actual future results may differ materially from those presented. See “Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations - Liquidity and Capital Resources” and the Notes to Consolidated Financial Statements for a description of our accounting policies and other information related to these financial instruments.

We borrow funds at a combination of fixed and variable rates. Borrowings under our revolving credit facility and bank term loans bear interest at variable rates. Our long-term debt, which consists of secured and unsecured long-term financings, typically bears interest at fixed rates. Our interest rate risk management objectives are to limit generally the impact of interest rate changes on earnings and cash flows and to lower our overall borrowing costs. To achieve these objectives, from time to time we enter into interest rate hedge contracts such as collars, swaps, caps and treasury lock agreements in order to mitigate our interest rate risk with respect to various debt instruments. We generally do not hold or issue these derivative contracts for trading or speculative purposes.

At March 31, 2016, we had \$1,300.0 million principal amount of fixed rate debt outstanding (not including debt with a variable rate that is effectively fixed by related interest rate swaps). The estimated aggregate fair market value of this debt was \$1,333.6 million. If interest rates had been 100 basis points higher, the aggregate fair market value of our fixed rate debt would have been \$39.0 million lower. If interest rates had been 100 basis points lower, the aggregate fair market value of our fixed rate debt would have been \$41.1 million higher.

At March 31, 2016, we had \$583.0 million of variable rate debt outstanding not protected by interest rate hedge contracts. If the weighted average interest rate on this variable rate debt had been 100 basis points higher, the annual interest expense would increase \$5.8 million. If the weighted average interest rate on this variable rate debt had been 100 basis points lower, the annual interest expense would decrease \$5.8 million.

At March 31, 2016, we had \$225.0 million of variable rate LIBOR-based debt outstanding with \$225.0 million of related floating-to-fixed interest rate swaps. These swaps effectively fix the underlying LIBOR rate of the debt at 1.678%. If LIBOR interest rates increase or decrease by 100 basis points, the aggregate fair market value of the swaps at March 31, 2016 would increase by \$0.4 million or decrease by \$10.7 million, respectively. During the first quarter of 2016, we obtained \$150.0 million notional amount of forward-starting swaps that effectively lock the underlying treasury rate at 1.90% with respect to a forecasted debt issuance expected to occur between June 15, 2016 and March 15, 2017.

We are exposed to certain losses in the event of nonperformance by the counterparties, which are major financial institutions, under the swaps. We regularly evaluate the financial condition of our counterparties using publicly available information. Based on this review, we currently expect the counterparties to perform fully under the swaps. However, if a counterparty defaults on its obligations under a swap, we could be required to pay the full rates on the applicable debt, even if such rates were in excess of the rate in the contract.

ITEM 4. CONTROLS AND PROCEDURES

SEC rules require us to maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our annual and periodic reports filed with the SEC is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management to allow for timely decisions regarding required disclosure. The Company's CEO and CFO have concluded that the disclosure controls and procedures of the Company and the Operating Partnership

were each effective at the end of the period covered by this Quarterly Report.

SEC rules also require us to establish and maintain internal control over financial reporting designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. There were no changes in internal control over financial reporting during the three months ended March 31, 2016 that materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting. There were also no changes in internal control over financial reporting during the three months ended March 31, 2016 that materially affected, or are reasonably likely to materially affect, the Operating Partnership's internal control over financial reporting.

PART II - OTHER INFORMATION

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The following table sets forth information related to shares of Common Stock surrendered by employees to satisfy tax withholding obligations in connection with the vesting of restricted stock during the first quarter of 2016:

	Total Number of Shares Purchased	Weighted Average Price Paid per Share
January 1 to January 31	—	\$ —
February 1 to February 29	26,758	43.55
March 1 to March 31	25,926	44.70
Total	52,684	\$ 44.12

ITEM 6. EXHIBITS

Exhibit Number	Description
1	Form of Equity Distribution Agreement, dated February 10, 2016, among Highwoods Properties, Inc., Highwoods Realty Limited Partnership and each of the firms named therein (filed as part of the Company's Current Report on Form 8-K dated February 10, 2016)
10.17	Form of Agreement for Purchase and Sale of Real Estate, dated as of December 21, 2015, by and between Highwoods Realty Limited Partnership, Highwoods Services, Inc., Country Club Plaza KC Partners LLC, The Macerich Partnership, L.P. and The Taubman Realty Group Limited Partnership (filed as part of the Company's Annual Report on Form 10-K for the year ended December 31, 2015)
10.18	Agreement for Purchase and Sale of Real Estate and Related Property, dated as of January 29, 2016, by and between Highwoods Realty Limited Partnership and SJ Company I LLC (filed as part of the Company's Annual Report on Form 10-K for the year ended December 31, 2015)
12.1	Statement re: Computation of Ratios of the Company
12.2	Statement re: Computation of Ratios of the Operating Partnership
31.1	Certification of CEO Pursuant to Section 302 of the Sarbanes-Oxley Act for the Company
31.2	Certification of CFO Pursuant to Section 302 of the Sarbanes-Oxley Act for the Company
31.3	Certification of CEO Pursuant to Section 302 of the Sarbanes-Oxley Act for the Operating Partnership
31.4	Certification of CFO Pursuant to Section 302 of the Sarbanes-Oxley Act for the Operating Partnership
32.1	Certification of CEO Pursuant to Section 906 of the Sarbanes-Oxley Act for the Company
32.2	Certification of CFO Pursuant to Section 906 of the Sarbanes-Oxley Act for the Company
32.3	Certification of CEO Pursuant to Section 906 of the Sarbanes-Oxley Act for the Operating Partnership
32.4	Certification of CFO Pursuant to Section 906 of the Sarbanes-Oxley Act for the Operating Partnership
101.INS	XBRL Instance Document
101.SCH	XBRL Taxonomy Extension Schema Document
101.CAL	XBRL Taxonomy Extension Calculation Linkbase Document
101.DEF	XBRL Taxonomy Extension Definition Linkbase Document
101.LAB	XBRL Extension Labels Linkbase
