Proxy Statement

For the Annual Meeting of Stockholders
To be held on November 21, 2002

This proxy statement is furnished to you in connection with the solicitation of proxies by our board of directors for the annual meeting of stockholders to be held on Thursday, November 21, 2002 at 3:00 p.m., local time, at the Sheraton Harborside Portsmouth Hotel, 250 Market Street, Portsmouth, New Hampshire 03801, including any postponements or adjournments thereof.

The notice of the annual meeting, this proxy statement, our annual report to stockholders for the fiscal year ended June 30, 2002, which we sometimes refer to as "fiscal 2002," and the enclosed proxy are first being mailed to stockholders on or about October 28, 2002.

Voting of Proxies

All shares held by stockholders who are entitled to vote and who are represented at the annual meeting by properly executed proxies received prior to or at the annual meeting will be voted in accordance with the instructions indicated on the proxy card, unless it is revoked prior to the vote. If a proxy card does not specify how the proxy is to be voted with respect to a particular matter, the shares will be voted "FOR" approval of the matter.

A proxy may be revoked before it is used to cast a vote. To revoke a proxy, a stockholder must:

- . file with the corporate secretary of the company, at or before the taking of the vote, a written notice of revocation bearing a later date than the proxy;
- . duly execute a later dated proxy relating to the same shares and deliver it to the corporate secretary of the company before the taking of the vote; or
- . attend the annual meeting and vote in person. Attendance at the annual meeting, if a stockholder does not vote, will not be sufficient to revoke a proxy.

Any written notice of revocation or subsequent proxy should be sent to us at the following address: Bottomline Technologies (de), Inc., 325 Corporate Drive, Portsmouth, New Hampshire 03801, Attention: Corporate Secretary.

If a stockholder indicates on a proxy that the shares should be voted "FOR" approval of the matters presented at the annual meeting, the proxies will have

Edgar Filing: BOTTOMLINE TECHNOLOGIES INC /DE/ - Form DEF 14A

discretion to vote the shares on any other matters which are properly presented at the annual meeting for consideration, including a motion to adjourn the annual meeting to another time or place for the purpose of soliciting additional proxies, unless a stockholder withholds authorization for the proxies to use their discretion.

Stockholders Entitled to Vote

Our board of directors has fixed September 23, 2002 as the record date for determination of stockholders entitled to vote at the annual meeting. Only holders of record of our common stock at the close of business on the record date are entitled to notice of and to vote at the annual meeting. On September 23, 2002, there were 15,524,368 shares of our common stock outstanding and entitled to vote. Each share of common stock will have one vote for each matter to be voted upon at the annual meeting.

Votes Required

The holders of a majority of the shares of common stock issued and outstanding and entitled to vote at the annual meeting will constitute a quorum for the transaction of business at the annual meeting. Shares of common stock present in person or represented by proxy, including shares which abstain or do not vote with respect to one or more of the matters presented for stockholder approval, will be counted for purposes of determining whether a quorum is present at the annual meeting.

If a broker does not have discretionary voting authority to vote shares for which it is the holder of record with respect to a particular matter at the annual meeting, the shares cannot be voted by the broker, although they will be counted in determining whether a quorum is present. Accordingly, these broker non-votes and abstentions would have no effect on the voting on a matter that requires the affirmative vote of a certain percentage of the votes cast on that matter (such as the election of the Class I directors and the ratification of the selection of our independent auditors).

The affirmative vote of the holders of shares representing at least a plurality of the votes cast by the holders of our common stock entitled to vote at the annual meeting is required for the election of the Class I directors. The affirmative vote of the holders of shares representing at least a majority of the votes cast by the holders of our common stock entitled to vote at the annual meeting is required for the ratification of the selection of our independent auditors for the current fiscal year ending June 30, 2003.

Security Ownership of Certain Beneficial Owners and Management

The following table sets forth information, as of September 30, 2002, regarding the beneficial ownership of shares of our common stock by (a) each person or entity known by us to own beneficially more than 5% of the outstanding shares of our common stock, (b) each of the "named executive officers," as described in the Summary Compensation Table below, (c) each director and director nominee of the company, and (d) the directors and executive officers of the company as a group. The address of each of our directors and named executive officers is c/o Bottomline Technologies (de), Inc., 325 Corporate Drive, Portsmouth, New Hampshire 03801. The address of Rowan Nominees Limited is c/o Mercury Asset Management, 33 King William Street, London EC4R 9AS, England.

Edgar Filing: BOTTOMLINE TECHNOLOGIES INC /DE/ - Form DEF 14A

Beneficial ownership is determined in accordance with the rules of the Securities and Exchange Commission, which we sometimes refer to as the "SEC," and generally includes voting power and/or investment power with respect to securities. Shares of common stock subject to options or warrants currently exercisable or exercisable within 60 days of September 30, 2002 are deemed outstanding for purposes of computing the percentage beneficially owned by the person holding the options or warrants, but are not deemed outstanding for purposes of computing the percentage beneficially owned by any other person. Except as indicated by footnote, we believe that the persons named in this table, based on information provided by them, have sole voting and investment power with respect to the shares of common stock indicated.

PROPOSAL 1--ELECTION OF CLASS I DIRECTORS

We have three classes of directors, currently consisting of three Class I directors, three Class II directors and two Class III directors. At each annual meeting, directors are elected for a full term of three years to succeed those whose terms are expiring. The terms of the three classes are staggered in a manner so that only one class is elected by stockholders annually. Mr. Joseph L. Barry, Jr., Mr. Robert A. Eberle and Ms. Dianne Gregg are currently serving as Class I directors. The Class I directors elected this year will serve as members of our board of directors until the 2005 annual meeting of stockholders, or until their respective successors are elected and qualified.

The persons named in the enclosed proxy will vote to re-elect Mr. Barry, Mr.

 + Member of compensation committee.

* Member of audit committee.

Member of nominations and corporate governance committee.

Pursuant to the terms of a stock purchase agreement dated as of January 8, 2002, between Bottomline and General Atlantic Partners, L.P., General Atlantic has the right to designate one person to serve on our board of directors so long as General Atlantic and its affiliates hold in the aggregate either (i) 5% of the outstanding shares of our common stock or (ii) 30% of the 2,700,000 shares of common stock purchased pursuant to the stock purchase agreement. We agreed to use our reasonable best efforts to have such director nominee elected to our board of directors, including causing officers of Bottomline who hold proxies (unless otherwise directed by the stockholder submitting such proxy) to vote such proxies in favor of the election of the designee. Mr. Grabe, a Class II director and a member of the compensation committee and nominations and corporate governance committee of our board of directors, was nominated as the director designee of General Atlantic to serve as a member of our board of directors until the 2003 annual meeting of stockholders.

Board of Directors and Committee Meetings

Our board of directors held seven meetings, including by telephone conference, during fiscal 2002. The compensation committee of our board of directors held one informal meeting during fiscal 2002 to review and approve certain executive officer compensation items. The audit committee of our board of directors held eight meetings, including by telephone conference, during fiscal 2002. The nominations and corporate governance committee of our board of directors was established in August 2002 and, therefore, did not hold any meetings during fiscal 2002. All directors, other than Ms. Gregg, attended at least 75% of the meetings of our board of directors and the committees on which they served during the period that they served on our board of directors or such committees.

The compensation committee of our board of directors, currently composed of Mr. Barry, Mr. Grabe and Mr. Zilinski, makes recommendations concerning salaries and incentive compensation for our employees and administers and grants stock options under our stock option plans to our executive officers. The audit committee of our board of directors currently consists of Mr. Barry, Ms. Gregg and Mr. Zilinski. See "Report of the Audit Committee of the Board of Directors." Our nominations and corporate governance committee, currently composed of Mr. Barry, Mr. Grabe and Mr. Zilinski, is responsible for nominating candidates for election to the board of directors and reviewing matters of corporate governance, such as director independence. The nominations and corporate governance committee considers suggestions from stockholders

Edgar Filing: BOTTOMLINE TECHNOLOGIES INC /DE/ - Form DEF 14A

regarding possible candidates for membership to the board of directors. Such suggestions, together with appropriate biographical information, should be submitted to the corporate secretary of Bottomline.

Director Compensation

All of our directors are entitled to reimbursement for expenses incurred to attend board of directors and committee meetings. In addition, our non-employee directors receive stock options under our 1998 Director

6

Stock Option Plan. The Director Stock Option Plan currently provides that each non-employee director will be granted an option to purchase 15,000 shares of common stock of the company on the date of his or her initial election to our board of directors, which will vest ratably over four years on each anniversary of the date of grant. In addition, each non-employee director, other than a director initially elected to the board of directors at the annual meeting of stockholders or at any time after the prior year's annual meeting, receives an option to purchase 7,500 shares of common stock of the company on the date of each annual meeting of stockholders. Such options vest annually upon the earlier of one year from the date of grant or the date immediately preceding the next annual meeting of stockholders, so long as the director remains a director of Bottomline. The exercise price per share of all options granted under the plan is the fair market value of a share of our common stock on the date of grant. In fiscal 2002, Mr. Grabe received an option to purchase 15,000 shares of common stock of the company upon his initial election to our board of directors and Mr. Barry, Ms. Gregg, Mr. Loomis and Mr. Zilinski each received an option to purchase 7,500 shares of common stock of the company.

Section 16(a) Beneficial Ownership Reporting Compliance

Based solely on our review of copies of reports filed by reporting persons pursuant to Section 16(a) of the Securities Exchange Act of 1934, as amended, or written representations from reporting persons that no Form 5 filing was required for such persons, we believe that, during fiscal 2002, all filings required to be made by our reporting persons were timely made in accordance with the requirements of the Securities Exchange Act of 1934. In fiscal 2001, a Form 4 on behalf of Mr. Leo Barry reporting the gift of shares of common stock of the company was not timely filed.

Report of the Compensation Committee on Executive Compensation

This report is submitted by the compensation committee of our board of directors, which is responsible for making recommendations concerning salary and incentive compensation for our employees, and administering and granting stock options under our stock option plans to our executive officers. In addition, the compensation committee consults with our management regarding pension and other benefit plans and our compensation policies and practices.

General Compensation Policy

The compensation committee seeks to achieve the following three broad goals in connection with our executive compensation program:

- . enable Bottomline to attract and retain qualified executives;
- . create a performance-oriented environment by rewarding executives for the achievement of Bottomline's business objectives and/or in an individual executive's particular area of responsibility; and
- . provide executives with equity incentives in Bottomline so as to link a portion of an executive's compensation with the performance of Bottomline's common stock.

Components of Compensation

To achieve these goals, the executive compensation program consists principally of the following three elements:

- . base salary;
- . cash bonuses; and
- . stock-based equity incentives in the form of participation in Bottomline's stock option plans.

General Factors for Establishing Compensation

The compensation committee reviews the executive compensation of industry peers with which Bottomline competes for employees to compare the

Edgar Filing: BOTTOMLINE TECHNOLOGIES INC /DE/ - Form DEF 14A

competitiveness of Bottomline's executive compensation packages. In

10

addition to reviewing industry compensation levels, the compensation committee also considers a number of other factors in establishing the components of each executive officer's compensation package, as summarized below.

Base Salary

Salaries for executive officers, including the chief executive officer, are generally determined on an individual basis by evaluating the following:

- . the executive's scope of responsibility, performance, prior employment experience and salary history;
- . Bottomline's financial performance, including increases in its revenues and profits, if any; and
- . internal consistency within Bottomline's salary structure.

Incentive Compensation

The compensation committee considers payment of quarterly cash bonuses as part of the compensation packages of Bottomline's executive officers. Certain levels of company financial and operational performance must be achieved before any such bonuses can be earned by executive officers. In general, the compensation committee has tied potential bonus compensation to performance factors, including the executive officer's efforts and contributions towards obtaining Bottomline's objectives and overall growth. In determining the amounts of the aggregate amount of cash bonuses to be paid to the executive officers in fiscal 2002, including the chief executive officer, the compensation committee specifically considered the following achievements and the role played by the executive officer in accomplishing these achievements:

- . the successful completion of an equity transaction with funds affiliated with General Atlantic Partners, LLC, which generated gross proceeds of \$17.3 million to Bottomline; and
- . Bottomline's improved operational performance in the second fiscal quarter of 2002.

Long-term Incentive Compensation

Stock options are an element of the compensation packages of Bottomline's executive officers, including the chief executive officer, because they provide an incentive to executives to maximize stockholder value and because they reward the executives only to the extent that stockholders of Bottomline also benefit. The compensation committee believes that it is to Bottomline's advantage to increase executive officers' interest in Bottomline's future performance, as these employees share the primary responsibility for Bottomline's management and growth. The value of the stock options is derived solely from appreciation of Bottomline's common stock. In order to promote a longer term management focus and to provide incentive for continued employment with Bottomline, stock option grants generally become exercisable over a three or four year period, with the exercise price being equal to 100% of the fair market value of Bottomline's common stock on the date of grant.

The size of the option grant made to each executive officer is based upon the following factors:

- . an evaluation of the executive's past performance;
- . the total compensation being paid to the executive;
- . the anticipated value of the executive's contribution to Bottomline's future performance;
- . the executive's scope of responsibility;
- . the executive's current position with Bottomline;
- . the number of options awarded to the executive officer during previous fiscal years; and
- . comparability with option grants made to other Bottomline executives.

11

In fiscal 2002, stock options were granted under Bottomline's 2000 Stock Incentive Plan to Messrs. McGurl, Mullen, Eberle and Fortune. See "Option Grants During Fiscal 2002."

Chief Executive Officer's Compensation

Mr. McGurl served as our chief executive officer throughout fiscal 2002. In August 2002, Mr. Mullen, then our president, assumed the additional position of chief executive officer of Bottomline. In December 1998, Bottomline entered into an employment agreement with Mr. McGurl, which was subsequently amended in June 2001. Pursuant to his employment agreement, which is more fully described below, Mr. McGurl received a base salary of \$270,000 for fiscal 2002. The compensation of our chief executive officer is based upon the same elements and measures of performance as is the compensation of Bottomline's other executive officers. In its determination to approve a cash bonus to Mr. McGurl of \$36,563 in fiscal 2002, the compensation committee specifically considered the following:

- . the successful completion of an equity transaction with funds affiliated with General Atlantic Partners, LLC, which generated gross proceeds of \$17.3 million to Bottomline; and
- . Bottomline's improved operational performance in the second fiscal quarter of 2002.

Compliance with Internal Revenue Code Section 162(m)

Section 162(m) of the Internal Revenue Code of 1986, as amended, generally disallows a tax deduction to public companies for compensation over \$1,000,000 paid to its chief executive officer and its four other most highly compensated executive officers. Qualifying performance-based compensation is not subject to the deduction limitation if certain requirements are met. In particular, income recognized upon the exercise of a stock option is not subject to the deduction limitation, if, among other things, the option was issued under a plan approved by the stockholders and such plan provides a limit on the number of shares that may be issued under the plan to any individual. Based on the compensation awarded to our chief executive officer and our other named executive officers, it does not appear that the Section 162(m) limitation will have a significant impact on Bottomline in the near term. However, the committee reserves the right to use its judgment to authorize compensation payments that do not comply with the exemptions in Section 162(m) of the Internal Revenue Code when the

Edgar Filing: BOTTOMLINE TECHNOLOGIES INC /DE/ - Form DEF 14A

committee believes that such payments are appropriate and in the best interests of the stockholders, after taking into account changing business conditions or the officer's performance.

Employment and Severance Agreements

Messrs. McGurl, Mullen and Eberle

We entered into an employment agreement with each of Messrs. McGurl and Mullen as of December 3, 1998 and with Mr. Eberle as of September 30, 1998. Each of these agreements was subsequently amended as of June 1, 2001. The provisions of each agreement are substantially the same. The term of the employment agreement is until the later of (a) December 3, 2003, in the case of Messrs. McGurl and Mullen, or, in the case of Mr. Eberle, September 30, 2003, or (b) 24 months after we experience a change in control.

A change in control of Bottomline would occur if:

- . any person becomes the beneficial owner of 50% or more of the voting power of our outstanding securities;
- . we are acquired through a merger;
- . we are liquidated; or
- . all or substantially all of our assets are sold.

If the employee's employment is terminated either by the employee as a result of an involuntary termination or by us without cause (each as described below), then (a) all outstanding options held by the employee would become immediately exercisable in full, and (b) the employee would be entitled to receive a lump sum payment and continuation of benefits for a period of 12 months, in the case of Messrs. Mullen and Eberle, and for a period of 24 months in the case of Mr. McGurl. In the case of Messrs. Mullen and Eberle, the lump sum payment would equal one year's salary plus the maximum amount of bonus they were eligible to earn in the then current year. In the case of Mr. McGurl, the lump sum payment would equal two times the sum of his then annual salary plus the maximum amount of bonus he was eligible to earn in the then current year.

An involuntary termination would occur if an employee's duties were terminated without cause, his benefits were reduced or he was demoted or relocated after a change in control.

Cause means, prior to a change in control of Bottomline, the discharge of the employee resulting from:

- . a felony conviction;
- . failure to attend to material duties or obligations;
- . the breach of confidentiality, non-competition or similar obligations by

Edgar Filing: BOTTOMLINE TECHNOLOGIES INC /DE/ - Form DEF 14A

the employee; or

- . an act or omission which would constitute a crime involving Bottomline's property.

The second and third items specified above would not constitute cause after a change in control of Bottomline.

If the employee's employment is terminated upon or after a potential change in control either by the employee as a result of an involuntary termination or by us without cause, all then outstanding options held by the employee would become immediately exercisable in full and the employee would be entitled to receive a lump sum payment and continuation of benefits for a period of 24 months. In the case of Mr. Mullen and Mr. Eberle, the lump sum payment would equal two times the sum of the employee's then annual salary plus the maximum amount of bonus he was eligible to earn in the then current year. In the case of Mr. McGurl, the lump sum payment would equal three times the sum of his then annual salary plus the maximum amount of bonus he was eligible to earn in the then current year.

A potential change in control of Bottomline would occur if:

- . we enter into an agreement that would cause a change in control;

13

- . any person publicly announces an intention to take any action which, if consummated, would constitute a change in control; or
- . our board of directors adopts a resolution approving a change in control.

Each of the employment agreements also provides that, in the event of a change in control, we would pay any excise tax which the employee would be liable for under Section 4999 of the Internal Revenue Code as a result of having received the severance benefits, as well as the amount necessary to pay all additional taxes imposed on the respective employee attributable to having received the severance benefits. Pursuant to their respective employment agreements, in fiscal 2002, Mr. McGurl was paid an annual base salary of \$270,000, Mr. Mullen was paid an annual base salary of \$235,000 and Mr. Eberle was paid an annual base salary of \$220,000. Based upon the recommendations of the compensation committee, and as more fully described above, in fiscal 2002, Mr. McGurl received a bonus of \$36,563 and Messrs. Mullen and Eberle each received a bonus of \$29,250.

In addition, following termination of their respective employment other than for "cause", options then held by each of Messrs. McGurl, Mullen and Eberle would automatically vest in full and would be exercisable for a period of two years (or the remainder of the option term if less than two years) after the date of termination. However, this automatic vesting of options would not apply to any options granted prior to June 1, 2001 with an exercise price of less than \$6.76 per share.

Mr. Fortune

We are party to a service agreement with Mr. Fortune dated as of March 11, 1999, which we assumed in connection with our acquisition of Checkpoint Holdings, Ltd., which is now our wholly owned subsidiary, Bottomline Technologies Limited (Bottomline Europe). The service agreement remains in effect, absent incapacity or our termination for cause, until terminated by at least 12 months' written notice by us or Mr. Fortune. We also have the right to

Edgar Filing: BOTTOMLINE TECHNOLOGIES INC /DE/ - Form DEF 14A

terminate the agreement on less than 12 months' written notice, but we are required to pay Mr. Fortune his salary and other contractual benefits under the service agreement for the 12-month notice period. If the agreement is terminated for incapacity or cause, we are not required to pay Mr. Fortune any compensation other than accrued compensation.

For purposes of Mr. Fortune's service agreement, "cause" means the discharge of the employee resulting from, among other things:

- . a felony conviction;
- . the failure to attend to material duties or obligations; or
- . the deliberate discrimination or harassment on grounds on race, sex or disability.

Pursuant to the service agreement, Mr. Fortune was paid an annual base salary of \$168,773 in fiscal 2002. In accordance with a bonus plan setting forth certain financial and operational goals, in fiscal 2002, Mr. Fortune received a bonus of \$48,565. Mr. Fortune also received a car allowance of \$17,310 in fiscal 2002 pursuant to the service agreement.

Pursuant to the service agreement, Mr. Fortune also agreed not to compete with the company for a period of 12 months after the termination of his employment within the United Kingdom in any business which is competitive with the company's business and with which Mr. Fortune had been involved with during the 12 months immediately preceding the termination of the agreement. In addition, Mr. Fortune also agreed that during this 12-month period, he would not solicit the company's customers or other employees.

Compensation Committee Interlocks and Insider Participation

The current members of the compensation committee of our board of directors are Messrs. Barry, Grabe and Zilinski. No executive officer of Bottomline has served as a director or member of the compensation committee of any other entity whose executive officers served as a director or member of our compensation committee.

Audit Committee of the Board of Directors

The audit committee of our board of directors is composed of three members and acts under a written charter first adopted and approved by our board of directors on June 14, 2000. Each of the members of the audit committee are independent directors, as defined by its charter and the rules of The Nasdaq Stock Market. We filed this charter as an appendix to our proxy statement for the fiscal year ended June 30, 2001.

Report of the Audit Committee of the Board of Directors

The Audit Committee oversees the Company's financial reporting process on behalf of the board of directors. Management has the primary responsibility for the financial statements and the reporting process, including the systems of internal controls. In fulfilling its oversight responsibilities, the Committee reviewed the audited financial statements in the Annual Report on Form 10-K with management, including a discussion of the quality, not just the acceptability, of the accounting principles, the reasonableness of significant judgments, and the clarity of disclosures in the financial statements.

Edgar Filing: BOTTOMLINE TECHNOLOGIES INC /DE/ - Form DEF 14A

The Committee reviewed with the independent auditors, who are responsible for expressing an opinion on the conformity of those audited financial statements with generally accepted accounting principles, their judgments as to the quality, not just the acceptability, of the Company's accounting principles and such other matters as are required to be discussed with the Committee under generally accepted auditing standards, including Statement on Auditing Standards No. 61. In addition, the Committee has discussed with the independent auditors the auditors' independence from management and the Company, including the matters in the written disclosures required by the Independence Standards Board, including Independent Standards Board No. 1, and considered the compatibility of non-audit services with the auditors' independence.

The Committee discussed with the Company's independent auditors the overall scope and plans for their respective audits. The Committee meets with the independent auditors, with and without management present, to discuss the results of their examinations, their evaluations of the Company's internal controls, and the overall quality of the Company's financial reporting. The Committee held eight meetings, including by telephone conference, during fiscal year 2002.

In reliance on the reviews and discussions referred to above, the Committee recommended to the board of directors that the audited financial statements be included in the Annual Report on Form 10-K for the fiscal year ended June 30, 2002 for filing with the Securities and Exchange Commission. The Committee and the board of directors have also recommended, subject to stockholder ratification, the selection of the Company's independent auditors for the fiscal year ending June 30, 2003.
