To Our Shareholders,

I am pleased to be writing to you as Chairman, President and Chief Executive Officer of John Hancock Funds, LLC.

As you may know, John Hancock Financial Services, Inc. -- the parent company of John Hancock Funds -- was acquired by Manulife Financial Corporation on April 28, 2004. The merger combines two exceptionally strong companies into a single, integrated, global market leader whose scale and capital will create an industry pacesetter strengthening our company's leadership in markets around the world.

Although this change has no impact on the mutual funds you have invested in, it did bring with it some changes in the executive-level management of John Hancock Funds. Specifically, Maureen Ford Goldfarb has decided to step down as chairman, president and chief executive officer in order to pursue personal interests. Since her appointment in January 2000, Maureen has provided John Hancock Funds with strong leadership and steady guidance through several years of extremely turbulent market and industry conditions.

Effective May 12, 2004, I have also been appointed by your Board of Trustees to the roles of Trustee, President and Chief Executive Officer of your fund. I have been in the investment business for over 25 years, most recently as President of Retirement Services at John Hancock Financial Services. In that role, my responsibilities included developing and directing the sale of John Hancock's variable and fixed annuity businesses through a diverse distribution network of banks and broker-dealers -- including wirehouses, regional brokerage houses and financial planners.

Prior to joining John Hancock, I served as Co-Chief Executive Officer of MetLife Investors Group, a subsidiary of MetLife, Inc. In that capacity my responsibilities included the design, manufacture and distribution of MetLife's annuity and life insurance products sold through third-party channels.

Although there has been a change in executive-level management, the one thing that never wavers is John Hancock Funds' commitment to placing the needs of our shareholders above all else. We are all dedicated to the task of working with you and your financial advisors to help you reach your long-term financial goals.

Sincerely,

/S/ JAMES A. SHEPHERDSON

James A. Shepherdson,

YOUR FUND AT A GLANCE

The Fund seeks long-term capital appreciation by normally investing at least 80% of its assets in equity securities of U.S. regional banks and thrifts and holding companies that primarily own or receive a substantial portion of their income from regional banks or thrifts.

Over the last six months

- * The stock market advanced, but encountered headwinds late in the period.
- * Financial stocks, especially banks, lagged the broader market as fears grew that the Federal Reserve would raise rates sooner than later.
- * The Fund's focus on banks held back its relative performance.

The chart is scaled in increments of 1% with 0% at the bottom and 3% at the top. The bar represents the 2.41% total return for John Hancock Bank and Thrift Opportunity Fund. A note below the chart reads "The total return for the Fund is at net asset value with all distributions reinvested."]

BY JAMES K. SCHMIDT, CFA, AND LISA A. WELCH, PORTFOLIO MANAGERS

MANAGERS' REPORT

JOHN HANCOCK
Bank and Thrift
Opportunity Fund

James J. McKelvey, previously a member of the Fund's portfolio management team, recently left John Hancock Advisers, LLC to pursue other opportunities.

Stocks advanced over the six months ended April 30, 2004, but encountered headwinds as the period progressed. In November 2003, stocks were in the midst of a year-long rally, lifted by historically low interest rates, a rebounding economy, tax cuts and positive corporate earnings results. But in 2004, stocks were choppy as investors worried about terrorism and Iraq, and good economic news in April that sparked fears that the Federal Reserve would raise interest rates sooner than later to ward off inflation. Even with the turmoil, the broad market, as measured by the Standard & Poor's 500 Index, returned 6.27% for the six months ended April 30, 2004.

"...financial stocks, and banks in particular, wound up underperforming the market over the period..."

Like the broader market, financial stocks began the period on a high note, lifted by news of the mega-merger between Bank of America and FleetBoston and heightened takeover speculation, and further bolstered by a string of mergers in early 2004. But financial stocks, and banks in particular, wound up underperforming the market over the period because investors view them as especially sensitive to rising interest rates. As a rate hike became increasingly certain and increasingly near, investors sold off the group. As a result, the S&P 500 Financials Index returned 4.67% for the period.

FUND PERFORMANCE

For the six months ended April 30, 2004, John Hancock Bank and Thrift Opportunity Fund posted a total return of 2.41% at net asset value, compared with the 4.89% return of the average open-end financial services fund, according to Lipper, Inc. Keep

2

in mind that your net asset value return will be different from the Fund's performance if you were not invested in the Fund for the entire period and did not reinvest all distributions. Our heavy concentration in banks was the main reason for our relative underperformance versus both our benchmark index and peer group, since banks lagged behind the stock-market-sensitive groups such as life insurers, investment bankers and asset managers.

[Photos of Jim Schmidt and Lisa Welch flush right next to first paragraph.]

MERGER-RELATED BANKS DOMINATE

Despite the banks' underperformance, there were exceptions, specifically banks that were involved in mergers, and they were some of our greatest contributors to performance. Bank One Corp.'s stock did exceptionally well after its announced acquisition by J.P. Morgan Chase, whose stock also rose, as the market liked the low-premium deal and believed managements' arguments about the companies' synergies. Both FleetBoston and Bank of America served us well when their stocks rose after an initial shakeout period following the merger announcement. And GreenPoint Financial's stock rose on takeover rumors, which preceded North Fork Bancorp.'s merger announcement.

"...banks that were involved in mergers... were some of our greatest contributors to performance."

There were a number of other announced mergers during the period in which a Fund holding was the acquisition target. Allegiant Bancorp was purchased by National City Corp., Community First Bankshares, Inc. was acquired by BNP Paribas (BankWest), Local Financial Corp. was bought by International Bancshares, CCBT Financial Cos. was taken over by Banknorth Group, Inc. and Union Planters Corp. entered into a merger agreement with Regions Financial.

This increased merger activity reverses the trend of recent years, where the falloff reached its low point in 2002. We believe the activity level will remain higher than it was, but not return to the frenetic pace, or pricing levels, of 1997--1998. The current merger renaissance reaffirms two of our theses: that banks perceive there to be value in bank branch networks and that there are still too many banks -- currently 8,000 -- that will inevitably consolidate to a more workable level of 4,000 nationwide.

DISAPPOINTMENTS

Some of our disappointments during the period were stocks that had produced exceptional results in 2003 and took a breather, such as Zions Bancorp and U.S. Bancorp. Others included banks with disappointing earnings news such as Fifth Third Bancorp. In addition, Washington Mutual, M&T Bank Corp. and BB&T all fell on the drop-off in mortgage-related activity and the challenging mortgage environment.

FUNDAMENTALS STILL STRONG

Bank fundamentals remain in good shape, with first quarter earnings solid and within the range we expected, averaging 8% growth. The biggest positive is asset quality, as commercial credit quality has improved faster than we thought, due primarily to the strong economy. With the bull market, market-related revenues and capital markets activity have also picked up. We're still waiting for a pickup in commercial loan activity and are seeing more signs that it will happen, but no evidence yet that it has. Our sense

Edgar Filing: HANCOCK JOHN BANK & THRIFT OPPORTUNITY FUND - Form N-CSR

is that it will begin to accelerate later in the year. Margins, which had come under pressure in this low-rate environment, seem to have stabilized, but have yet to improve.

[Pie chart in middle of page with heading "Portfolio diversification As a percentage of net assets on 4-30-04." The chart is divided into two sections (from top to left): Common stocks 99% and Short-term investments & other 1%.]

A WORD ABOUT INTEREST RATES

In this period, the increasing likelihood of a Fed rate hike hurt financial stocks as the knee-jerk reaction of investors was that rising rates would be a detriment to earnings. We continue to believe that the relationship between interest rates and banks is more complicated and nuanced than the market believes. Commercial banks have improved their ability to maintain stable margins as rates change and indeed many banks would see net

interest income benefit from a 50 basis point increase in Fed Funds. We have studied the relationship between interest rates and the relative performance of banks and other financials in great detail, and have found that there is relatively little correlation. The market impact of a Fed tightening is very short-lived and almost completely vanishes over horizons beyond six months.

MANAGED DISTRIBUTION

In December 2003, the Fund was granted an exemptive order from the Securities and Exchange Commission to implement a managed distribution plan. The plan requires the Fund to make quarterly distributions totaling at least 10% per year of the Fund's net asset value as of the prior calendar year-end. The first distribution was made in March 2004.

OUTLOOK

We remain positive about the prospects for bank stocks. Strong fundamentals, steady earnings and rising dividends as the result of tax law changes make the group a compelling component of a diversified portfolio. Good economic growth and a vibrant stock market could cause the group to underperform faster-growing market sectors. But if the economy falters, banks still have the ability to generate more steady results. Banks also stand to benefit from a resurgence in commercial lending and continued consolidation.

"Banks also stand to benefit from a resurgence in commercial lending and continued consolidation."

NOTE A
Accounting policies

John Hancock Bank and Thrift Opportunity Fund (the "Fund") is a diversified closed-end management investment company, shares of which were initially offered to the public on August 23, 1994, and are publicly traded on the New York Stock Exchange.

Significant accounting policies
of the Fund are as follows:

Valuation of investments

Securities in the Fund's portfolio are valued on the basis of market quotations, valuations provided by independent pricing services or at fair value as determined in good faith in accordance with procedures approved by the Trustees. Short-term debt investments maturing within 60 days are valued at amortized cost, which approximates market value. Investments in AIM Cash Investment Trust are valued at their net asset value each business day.

Joint repurchase agreement

Pursuant to an exemptive order issued by the Securities and Exchange Commission, the Fund, along with other registered investment companies having a management contract with John Hancock Advisers, LLC (the "Adviser"), a wholly owned subsidiary of John Hancock Financial Services, Inc., may participate in a joint repurchase agreement transaction. Aggregate cash balances are invested in one or more large repurchase agreements, whose underlying securities are obligations of the U.S. government and/or its agencies. The Fund's custodian bank receives delivery of the underlying securities for the joint account on the Fund's behalf. The Adviser is responsible for ensuring that the agreement is fully collateralized at all times.

Investment transactions

Investment transactions are recorded as of the date of purchase, sale or maturity. Net realized gains and losses on sales of investments are determined on the identified cost basis.

Discount and premium on securities

The Fund accretes discount and amortizes premiums from par value on securities from either the date of issue or the date of purchase over the life of the security.

Expenses

The majority of expenses are directly identifiable to an individual fund.

Edgar Filing: HANCOCK JOHN BANK & THRIFT OPPORTUNITY FUND - Form N-CSR

Expenses that are not readily identifiable to a specific fund are allocated in such a manner as deemed equitable, taking into consideration, among other things, the nature and type of expense and the relative sizes of the funds.

Securities lending

The Fund may lend securities to certain qualified brokers who pay the Fund negotiated lender fees. The loans are collateralized at all times with cash or securities with

15

a market value at least equal to the market value of the securities on loan. As with other extensions of credit, the Fund may bear the risk of delay of the loaned securities in recovery or even loss of rights in the collateral, should the borrower of the securities fail financially. On April 30, 2004, the Fund loaned securities having a market value of \$123,063,636 collateralized by cash in the amount of \$125,699,260. The cash collateral was invested in a short-term instrument. Securities lending expenses are paid by the Fund to the Adviser.

Federal income taxes

The Fund qualifies as a "regulated investment company" by complying with the applicable provisions of the Internal Revenue Code and will not be subject to federal income tax on taxable income that is distributed to shareholders. Therefore, no federal income tax provision is required.

Dividends, interest and distributions

Dividend income on investment securities is recorded on the ex-dividend date or, in the case of some foreign securities, on the date thereafter when the Fund identifies the dividend. Interest income on investment securities is recorded on the accrual basis. Foreign income may be subject to foreign withholding taxes, which are accrued as applicable.

The Fund records distributions to shareholders from net investment income and net realized gains on the ex-dividend date. Such distributions, on a tax basis, are determined in conformity with income tax regulations, which may differ from accounting principles generally accepted in the United States of America. Distributions in excess of tax basis earnings and profits, if any, are reported in the Fund's financial statements as a return of capital.

In December 2003, the Fund was granted an exemptive order from the Securities and Exchange Commission to implement a managed distribution plan. The plan requires the Fund to make quarterly distributions of at least 2.5% of the Fund's net asset value as of the prior calendar year end or at least 10% annually. On March 5, 2004, the Fund declared its first managed distribution of \$0.27 per share from long-term capital gains.

Use of estimates

The preparation of these financial statements, in accordance with accounting principles generally accepted in the United States of America, incorporates estimates made by management in determining the reported amount of assets, liabilities, revenues and expenses of the Fund. Actual results could differ from these estimates.

Edgar Filing: HANCOCK JOHN BANK & THRIFT OPPORTUNITY FUND - Form N-CSR

NOTE B

Management fee and
transactions with
affiliates and others

The Fund has an investment management contract with the Adviser. Under the investment management contract, the Fund pays a monthly management fee to the Adviser at an annual rate of 1.15% of the Fund's average weekly net asset value.

The Fund has an agreement with the Adviser to perform certain administrative services for the Fund. The compensation for the period was at an annual rate of approximately 0.25% of the average weekly net asset value of the Fund. The Adviser agreed to limit the administration fee to 0.20% of the Fund's average weekly net asset value. Accordingly, the expense reductions related to the administration fee amounted to \$229,131 for the period ended April 30, 2004. The Adviser reserves the right to terminate this limitation in the future with Trustees' approval.

Mr. James A. Shepherdson is a director and/or officer of the Adviser and/or its affiliates, as well as Trustee of the Fund. The compensation of unaffiliated Trustees is borne by the Fund. The unaffiliated Trustees may elect to defer, for tax purposes, their receipt of this compensation under the John Hancock Group of Funds Deferred

16

Compensation Plan. The Fund makes investments into other John Hancock funds, as applicable, to cover its liability for the deferred compensation. Investments to cover the Fund's deferred compensation liability are recorded on the Fund's books as another asset. The deferred compensation liability and the related other asset are always equal and are marked to market on a periodic basis to reflect any income earned by the investments, as well as any unrealized gains or losses. The Deferred Compensation Plan investments had no impact on the operations of the Fund.

NOTE C

Fund common
share transactions

The Fund had no common share transactions during the period ended April 30, 2004.

NOTE D

Investment
transactions

Purchases and proceeds from sales or maturities of securities, other than short-term securities and obligations of the U.S. government, during the period ended April 30, 2004, aggregated \$11,744,235 and \$73,158,540, respectively.

The cost of investments owned on April 30, 2004, including short-term investments, for federal income tax purposes, was \$527,971,627. Gross unrealized appreciation and depreciation of investments aggregated \$466,297,264 and \$2,511,389, respectively, resulting in net unrealized appreciation of \$463,785,875. The difference between book basis and tax basis net unrealized appreciation of investments is attributable primarily

Edgar Filing: HANCOCK JOHN BANK & THRIFT OPPORTUNITY FUND - Form N-CSR

to the tax deferral of losses on certain sales of securities.

NOTE E

Transactions in securities of affiliated issuers

Affiliated issuers, as defined by the Investment Company Act of 1940, are those in which the Fund's holdings of an issuer represent 5% or more of the outstanding voting securities of the issuer. A summary of the Fund's transactions in the securities of these issuers during the period ended April 30, 2004 is set forth below.

INVESTMENT OBJECTIVE AND POLICY

The Fund is a closed-end diversified management investment company, shares of which were initially offered to the public on August 23, 1994 and are publicly traded on the New York Stock Exchange. Its investment objective is long-term capital appreciation.

On November 20, 2001 the Fund's Trustees approved the following investment policy changes effective December 15, 2001: Under normal circumstances, the Fund will invest at least 80% of its net assets in equity securities of U.S. regional banks and thrifts and holding companies that primarily own or receive a substantial portion of their income from regional banks or thrifts. "Net assets" is defined as net assets plus borrowings for investment purposes. "Primarily owned" means that the bank or financial holding company derives a substantial portion of its business from U.S. regional banks or thrifts as determined by the Adviser, based upon generally accepted measures such as revenues, asset size and number of employees. U.S. regional banks or thrifts are ones that provide full-service banking (i.e. savings accounts, checking accounts, commercial lending and real estate lending) and whose assets are primarily of domestic origin. The Fund will notify shareholders at least 60 days prior to any change in this 80% investment policy.

The Fund may invest in investment-grade debt securities as well as debt securities rated BB or below by Standard & Poor's Ratings group ("Standard & Poor's") or Ba or below by Moody's Investors Service, Inc. ("Moody's"), or, if unrated by such rating organizations, determined by the Adviser to be of comparable quality.

BY-LAWS

On November 19, 2002, the Board of Trustees adopted several amendments to

Edgar Filing: HANCOCK JOHN BANK & THRIFT OPPORTUNITY FUND - Form N-CSR

the Fund's by-laws, including provisions relating to the calling of a special meeting and requiring advance notice of shareholder proposals or nominees for Trustee. The advance notice provisions in the by-laws require shareholders to notify the Fund in writing of any proposal that they intend to present at an annual meeting of shareholders, including any nominations for Trustee, between 90 and 120 days prior to the first anniversary of the mailing date of the notice from the prior year's annual meeting of shareholders. The notification must be in the form prescribed by the by-laws. The advance notice provisions provide the Fund and its Trustees with the opportunity to thoughtfully consider and address the matters proposed before the Fund prepares and mails its proxy statement to shareholders. Other amendments set forth the procedures that must be followed in order for a shareholder to call a special meeting of shareholders. Please contact the Secretary of the Fund for additional information about the advance notice requirements or the other amendments to the by-laws.

DIVIDEND REINVESTMENT PLAN

The Fund offers its shareholders a Dividend Reinvestment Plan, (the "Plan"), which offers the opportunity to earn compounded yields. Each holder of common shares will automatically have all distributions of dividends and capital gains reinvested by Mellon Investor Services as Plan agent for the shareholders (the "Plan Agent"), unless an election is made to receive cash. Each registered shareholder will receive from the Plan Agent an authorization card to be signed and returned if the shareholder elects to receive distributions from net investment income in cash or elects not to receive capital gains distributions in the form of a shares dividend. Shareholders may also make their election by notifying the Plan Agent by telephone or by visiting the Plan Agent's Web site at www.melloninvestor.com.

18

Holders of common shares who elect not to participate in the Plan will receive all distributions in cash paid by check mailed directly to the shareholder of record (or if the common shares are held in street or other nominee name, then to the nominee) by the Plan Agent, as dividend disbursing agent. Shareholders whose shares are held in the name of a broker or nominee or shareholders transferring such an account to a new broker or nominee should contact the broker or nominee, to determine whether and how they may participate in the Plan.

The Plan Agent serves as agent for the holders of common shares in administering the Plan. After the Fund declares a dividend or makes a capital gains distribution, the Plan Agent will, as agent for the participants, receive the cash payment and use it to buy common shares in the open market, on the New York Stock Exchange or elsewhere, for the participants' accounts. The Fund will not issue any new shares in connection with the Plan. The Plan Agent's fees for the handling of reinvestment of dividends and other distributions will be paid by the Fund. Each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent's open market purchases in connection with the reinvestment of distributions. There are no other charges to participants for reinvesting dividends or capital gain distributions.

Participants in the Plan may withdraw from the Plan at any time by

Edgar Filing: HANCOCK JOHN BANK & THRIFT OPPORTUNITY FUND - Form N-CSR

contacting the Plan Agent by telephone, in writing or by visiting the Plan Agent's Web site at www.melloninvestor.com. Such withdrawal will be effective immediately if received prior to a dividend record date; otherwise, it will be effective for all subsequent dividend record dates. When a participant withdraws from the Plan or upon termination of the Plan, as provided below, either a cash payment will be made to the participant for the full value of the common shares credited to the account upon instruction by the participant, or certificates for whole common shares credited to his or her account under the Plan will be issued and a cash payment will be made for any fraction of a common share credited to such account.

The Plan Agent maintains each shareholder's account in the Plan and furnishes monthly written confirmations of all transactions in the accounts, including information needed by the shareholders for personal and tax records. The Plan Agent will hold common shares in the account of each Plan participant in non-certificated form in the name of the participant. Proxy material relating to shareholders' meetings of the Fund will include those shares purchased as well as shares held pursuant to the Plan. In the case of shareholders such as banks, brokers, or nominees, which hold common shares for others who are the beneficial owners, the Plan Agent will administer the Plan on the basis of the number of common shares certified from time to time by the record shareholders as representing the total amount registered in the record shareholder's name and held for the account of beneficial owners who are participants in the Plan. Shares may be purchased through broker-dealers.

Dividends and capital gains distributions are taxable whether received in cash or reinvested in additional common shares, and the automatic reinvestment of dividends and capital gain distributions will not relieve participants of any U.S. federal income tax that may be payable or required to be withheld on such dividends or distributions. The amount of dividends to be reported on 1099-DIV should be the amount of cash used by the Plan Agent to purchase shares in the open market, including the amount of cash allocated to brokerage commissions paid on such purchases.

Experience under the Plan may indicate that changes are desirable. Accordingly, the Fund reserves the right

19

to amend or terminate the Plan as applied to any distribution paid subsequent to written notice of the change sent to all shareholders of the Fund at least 90 days before the record date for the dividend or distribution. The Plan may be amended or terminated by the Plan Agent by at least 90 days' written notice to all shareholders of the Fund. All correspondence or additional information concerning the Plan should be directed to the Plan Agent, Mellon Bank, N.A., c/o Mellon Investor Services, P.O. Box 3338, South Hackensack, NJ 07606-1938 (telephone 1-800-852-0218).
