CYTRX CORPORATION REPORTS FIRST QUARTER FINANCIAL RESULTS

Atlanta, Georgia, May 7, 2002 -- CytRx Corporation (NASDAQ: CYTR) today announced its financial performance for the three-month period ended March 31, 2002. For the quarter, the Company reported a loss of \$179,000, or \$0.02 loss per share, versus a loss of \$1,157,000, or \$0.11 loss per share, for the comparable quarter of 2001.

The Company noted that results for the first quarter of 2002 include a \$1,000,000 milestone payment from Merck & Co., Inc. pursuant to Merck's license of CytRx's TranzFect technology.

Jack J. Luchese, CytRx's President & CEO, commented, "On the scientific front, the most significant event of the first quarter for CytRx was the initiation by Merck of a Phase I human study in HIV patients of an experimental DNA-based vaccine incorporating our TranzFect technology. We are very excited about this program and look forward to communicating further results as Merck shares information of their progress with us."

"On the corporate development side," Luchese continued, "we announced in February our proposed merger with Global Genomics Capital. This combination of pharmaceutical and genomics technology will provide our shareholders a technology portfolio with potentially more balance and breadth. Pending regulatory approval of this transaction we expect to submit the merger to our shareholders for approval in the third quarter of this year."
