WASHINGTON MUTUAL ANNOUNCES RECORD QUARTERLY EARNINGS;  
STRONG OPERATING FUNDAMENTALS DRIVE QUARTER'S PERFORMANCE;  
BOARD OF DIRECTORS INCREASES CASH DIVIDEND

SEATTLE -- Washington Mutual, Inc. (NYSE: WM) today announced record quarterly earnings of \$798.2 million for the second quarter of 2001, up sharply from second-quarter 2000 earnings of \$490.8 million. On an earnings-per-share basis, second-quarter 2001 earnings were a record 91 cents per diluted share, up 49 percent from 61 cents per diluted share one year ago.

Earnings for the second quarter of 2001 included full-quarter results from the former mortgage operations of The PNC Financial Services Group, Inc. and from the former Bank United Corp., which were acquired this year by Washington Mutual on Jan. 31 and Feb. 9, respectively. In addition, earnings for the quarter included partial results from the operations of the former Fleet Mortgage Corp., which was acquired on June 1, 2001. All of these acquisitions were accounted for as purchase transactions; therefore, the operating results of each company are not included prior to the date of acquisition.

Highlights of the recently completed quarter included:

- o A return on common equity of 24.72 percent;
- o A substantially improved net interest margin of 3.21 percent;
- o Record noninterest income, including a 36 percent increase in depositor and other retail banking fees, year over year;
- o Record loan volume of \$42.66 billion, including a 159 percent increase in single-family residential (SFR) loan volume and a 47 percent increase in other loan volume, on a year-over-year basis;
- o Record checking account growth of 182,950 net new accounts; and
- o An improved operating efficiency ratio of 43.40 percent.

WM - 2

"Washington Mutual's second-quarter performance clearly illustrates the overall financial strength of the company and the successful implementation of our strategic initiatives by our talented employees," said Kerry Killinger, the company's chairman, president and CEO. "The favorable interest rate environment, coupled with our winning business formula, led to exceptional revenue growth, record loan volume and account openings, and continued strong credit quality in the second quarter.

"We also took steps to solidify our national banking and lending franchises by completing the acquisition of Fleet Mortgage and by announcing our intention to extend our retail banking presence to the greater New York area through the proposed acquisition of Dime Bancorp. Together, these actions continued our progress toward building our brand in major metropolitan markets throughout the country."

## Edgar Filing: WASHINGTON MUTUAL INC - Form 8-K

### BOARD INCREASES CASH DIVIDEND

The Board of Directors declared a cash dividend of 23 cents on the company's common stock, up from 22 cents in the previous quarter. Dividends on the common stock are payable Aug. 15, 2001 to shareholders of record as of July 31, 2001. The board also declared a \$0.90625 dividend on the company's Series H Preferred Stock which, together with a related purchase contract adjustment payment of \$0.09375, will result in an aggregate payment of \$1.00 on each unit of the company's Premium Income Equity Securities (PIES). These amounts are payable on Aug. 16, 2001 to holders of record on Aug. 15, 2001.

### SECOND-QUARTER RESULTS

#### NET INTEREST AND NONINTEREST INCOME GROW

An improved net interest margin, driven by the 275 basis point reduction in the Fed Funds rate since the first of this year, and a higher base of interest-earnings assets produced net interest income of \$1.67 billion in the second quarter, up 53 percent from \$1.09 billion a year earlier.

The net interest spread for the quarter improved to 3.16 percent, compared with 2.30 percent for the same period last year, reflecting the company's lower cost of funds. Likewise, the margin was 3.21 percent in the most recent quarter versus 2.43 percent for second quarter 2000.

Depositor and other retail banking fees were a record \$325.3 million, up 36 percent from \$239.8 million a year earlier. During the second quarter, the company added nearly 183,000 net new retail checking accounts.

Reflecting the relatively weaker stock market, securities fees and commissions were \$76.3 million for the second quarter of 2001, versus \$83.5 million for the same period one year ago.

- more -

#### WM - 3

Robust refinancing activity and additional production from the company's recent acquisitions, including Fleet Mortgage, contributed to gain from mortgage loans of \$214.9 million for the second quarter, up sharply from the gain of \$80.7 million a year ago.

During the quarter the company recorded a \$75.2 million impairment of mortgage servicing rights, which the company chose to partially offset by recognizing gains from mortgage securities of \$22.2 million.

#### RECORD LENDING VOLUME

Strong refinancing activity and recent acquisitions also led to record total loan volume of \$42.66 billion for the quarter, up 136 percent from \$18.08 billion one year ago.

SFR loan volume (excluding residential construction) was \$37.27 billion, up 159 percent from \$14.41 billion one year ago. In addition, 63 percent of the SFR mortgage loan volume represented refinance activity, versus 24 percent for last year's second quarter.

Reflecting the current interest rate environment, 81 percent of the second-quarter's SFR volume (excluding specialty mortgage finance and residential construction) represented fixed-rate mortgages versus 12 percent in last year's second quarter.

Lending volume for loans other than SFR totaled \$5.39 billion for the most recent quarter, up 47 percent over \$3.67 billion in the second quarter of 2000.

#### EFFICIENCY RATIO CONTINUES TO IMPROVE

The efficiency ratio (defined as noninterest expense, excluding

## Edgar Filing: WASHINGTON MUTUAL INC - Form 8-K

amortization of goodwill and other intangible assets, as a percentage of net interest income and noninterest income) improved to 43.40 percent in the most recent quarter compared with 46.99 percent in the second quarter of last year.

Reflecting the cost of the operations of the recently acquired companies (Bank United Corp., the mortgage operations of The PNC Financial Services Group, Inc. and Fleet Mortgage Corp.), noninterest expense totaled \$1.12 billion in the second quarter of 2001, compared with second-quarter 2000's figure of \$775.2 million.

WM - 4

### CREDIT QUALITY REMAINS STEADY

Killinger said that despite the signs of a slowing national economy, Washington Mutual's credit quality remains strong. Total nonperforming assets (NPAs) were \$1.67 billion at June 30, 2001 versus \$1.45 billion at March 31, 2001, due to an increase in SFR nonaccruals, as well as additional commercial business and commercial real estate NPAs from Bank United. Total NPAs represented 0.73 percent of total assets at the end of the second quarter of 2001, well below the company's target of less than 1.00 percent.

Reflecting the company's larger and more diversified balance sheet, the provision for loan and lease losses was \$92.4 million, versus \$44.1 million for the same period in the previous year. Net loan charge offs for the second quarter were \$75.6 million, compared with \$42.5 million a year earlier. At June 30, 2001, the allowance for loan and lease losses totaled \$1.17 billion, and represented 80 percent of nonaccrual loans, as compared with 91 percent at March 31, 2001.

### BALANCE SHEET AND CAPITAL MANAGEMENT

Consolidated assets at June 30, 2001 were \$229.30 billion, compared with \$219.93 billion at March 31, 2001 and \$185.69 billion at June 30, 2000.

At June 30, 2001, deposits in checking, savings and money market accounts represented 61 percent of total deposits, compared with 62 percent at March 31, 2001. Total deposits were \$96.95 billion at the end of the second quarter, up from \$93.34 billion at March 31, 2001 and \$80.60 billion at June 30, 2000.

Stockholders' equity at June 30, 2001 was \$13.41 billion and the capital ratios of Washington Mutual's banking subsidiaries continued to exceed regulatory requirements for classification as "well-capitalized," the highest regulatory standard.

### COMPANY UPDATES

o On June 25, 2001, the company announced a definitive agreement to merge with Dime Bancorp, Inc. (NYSE: DME) in a transaction valued at approximately \$5.2 billion in stock and cash. The transaction, approved by the directors of both companies, creates a broad-based platform for Washington Mutual's banking operations as it enters the greater New York metropolitan area, the nation's largest urban banking market.

- more -

WM - 5

At the time of the announcement, Killinger said, "The opportunity to deliver Washington Mutual's unique, customer-focused banking model to the

## Edgar Filing: WASHINGTON MUTUAL INC - Form 8-K

largest concentration of middle-market consumers in the nation is tremendously exciting. We look forward to serving this broad market with great service, a good deal, and a friendly environment through the outstanding platform provided by The Dime.

The Dime has approximately \$14 billion in deposits in the New York metropolitan area and serves approximately 1 million households through 123 branches and 250 ATMs.

The transaction, which is expected to close early in the first quarter of 2002, requires the approval of Dime shareholders and banking and other regulators.

- o Further strengthening its national mortgage lending franchise, during the quarter the company announced the completion of the acquisition of Fleet Mortgage Corp., a unit of FleetBoston Financial Corp. (NYSE: FBF). The transaction, accounted for as a purchase, is expected to be modestly accretive to earnings per share in 2001 without revenue enhancements.

- o With the successful completion of the deposit conversion of Bank United customers at the end of May, Killinger noted that the integration activities for both the former Bank United and PNC operations are essentially complete.

- o In May, the company announced that Jeremy V. "Jerry" Gross has joined Washington Mutual as chief information officer. He is responsible for leading Washington Mutual's corporate technology strategy. With more than two decades of information technology management expertise, Gross joined the company from Sydney, Australia-based Westpac Banking Corp. where he was group executive of technology, operations and eCommerce. Previously, Gross spent seven years at Countrywide Credit Industries, Calabasas, Calif., where he was managing director and chief technology officer. He replaces long-time chief information officer, S. Liane Wilson, who now provides acquisition and integration services to the company.

### OUTLOOK

"We expect to see continued strength in our operating fundamentals during the second half of this year highlighted by growth in virtually all areas of the company," Killinger said. "Assuming a stable interest rate environment and a relatively healthy but slowing national economy, our company should be well-positioned to deliver exceptional financial results for the foreseeable future."

Total derivatives	\$19,434.2	\$180.9		\$22
=====				

(1) Terms used are remaining term for deposits, and term to reprice for borrowings and notional amount of derivatives.

(2) Adjustable-rate borrowings included notional values of \$13.20 billion of embedded purchased interest rate floors at June 30, 2001 and Dec. 31, 2000. At June 30, 2001 and Dec. 31, 2000, \$8.65 billion and \$800.0 million, respectively, of these contracts were effective. Contractual start dates for the remaining floors range from July 5, 2001 to July 17, 2003. Once effective, the floors reprice every three months.

Adjustable-rate borrowings included notional values of \$703.8 million of embedded purchased interest rate caps at June 30, 2001 and Dec. 31, 2000. At June 30, 2001 and Dec. 31, 2000, \$703.8 million were active, however, no contracts had strike rates that were in effect.

Adjustable-rate borrowings included notional values of \$1.75 billion of embedded interest rate swaptions (options to enter into pay-fixed swaps) at June 30, 2001 and none at Dec. 31, 2000. These options are exercisable upon maturity. Maturity dates range from June 24, 2003 to July 17, 2003.
