SHAREHOLDER LETTER

FIRST TRUST/FIDAC MORTGAGE INCOME FUND
ANNUAL REPORT
OCTOBER 31, 2005

Dear Shareholder:

We are pleased to present our first report to shareholders of First Trust/FIDAC Mortgage Income Fund (NYSE Symbol: FMY). Although it is a short reporting period, the Fund is off to a good start. We launched and closed our common equity offering in May 2005. Since that time our economy has endured several short-term rate increases by the Federal Reserve as well as devastating hurricanes in the Gulf Coast Region. Despite pressure on the market price, the Fund has upheld a relatively stable net asset value ("NAV") while maintaining a steady annualized distribution rate of 6.25% on the \$20 Common Share IPO price.

As you know, the Fund's primary investment objective is to seek a high level of current income. As a secondary objective, the Fund seeks to preserve capital. The Fund currently pursues these investment objectives by investing primarily in mortgage-backed securities representing part ownership in a pool of either residential or commercial mortgage loans that, in the opinion of Fixed Income Discount Advisory Company ("FIDAC" or the "Sub-Advisor"), offer an attractive combination of credit quality, yield and maturity.

FIDAC's portfolio management team is positioning the portfolio to invest in securities that have the potential to outperform other fixed-income securities as interest rates rise and mortgage refinancing slows. I encourage you to read

Edgar Filing: FIRST TRUST/FIDAC MORTGAGE INCOME FUND - Form N-CSR

the commentary from the FIDAC portfolio management team found on the following pages. It includes a review of the Fund's performance and the portfolio managers' outlook for the markets.

We thank you for your confidence in First Trust Advisors L.P. ("First Trust") and FIDAC and will work diligently to keep earning it.

Sincerely,

/s/ James A. Bowen

A COMMENTARY ON THE FIRST TRUST/FIDAC MORTGAGE INCOME FUND

SUMMARY

- o FIRST TRUST/FIDAC MORTGAGE INCOME FUND: REVIEW OF FUND OBJECTIVES.
- o THE MORTGAGE MARKET: PREPAYMENTS EXPECTED TO SLOW; ASSESSING THE "NEW" NEWS AT FANNIE MAE.
- o THE ECONOMY: DESPITE KATRINA, FED RAISES RATES AGAIN; GREENSPAN TAKES ON HOUSING.
- o THE MARKETS: RATES RISE ACROSS THE CURVE; THE SHORT END LEADS THE WAY.

FIRST TRUST/FIDAC MORTGAGE INCOME FUND

The First Trust/FIDAC Mortgage Income Fund (the "Fund" or "FMY") received approximately \$76 million in proceeds from its initial public offering on May 26, 2005. The Fund's primary investment objective is to seek a high level of current income. As a secondary objective, the Fund seeks to preserve capital. The Fund will pursue its objectives by investing primarily in mortgage-backed securities representing part ownership in a pool of either residential or commercial mortgage loans that, in the opinion of the Fund's sub-advisor, offer an attractive combination of credit quality, yield and maturity. These securities may be issued by government agencies or by private originators or issuers, generally in the form of pass-through certificates, collateralized mortgage obligations, residential mortgage-backed securities or commercial mortgage-backed securities. The Fund may leverage to an aggregate amount of up to 33 1/3% of the Fund's Managed Assets. The Fund intends to utilize leverage primarily through the use of reverse repurchase agreements.

FUND PERFORMANCE

Since inception through October 31, 2005, First Trust/FIDAC Mortgage Income Fund had a net asset value ("NAV") return of 1.37%. The Fund's benchmark, the Lehman Brothers MBS Fixed Rate Index, had a total return of -0.25% over the same period. The NAV of the Fund declined 0.21% from \$19.06 to \$19.02, while the Fund paid dividends totaling \$0.3126 per share through October 31, 2005.

The Fund's market value total return for the period ended October 31, 2005 was

Edgar Filing: FIRST TRUST/FIDAC MORTGAGE INCOME FUND - Form N-CSR

-16.5%. The difference between the market value total return and the NAV total return is a result of the initial sales load and the Fund trading at a discount to its NAV on October 31, 2005. On October 31, 2005, the Fund closed at a market price of \$16.40 and reported a NAV of \$19.02.

The Fund has an initial bias towards rising interest rates and should outperform other fixed-income investments when interest rates are rising. The Fund is able to benefit from the rising yields by investing in securities that perform better as interest rates rise and consumers refinance their mortgage loans at a slower pace. Over the period May 26, 2005 through October 31, 2005, yields on the two-year U.S. Treasury Note increased 75 basis points (a basis point is 0.01%) while the 10-year Treasury Note increased 47 basis points and 30-year conventional mortgage rates, as measured by Freddie Mac Commitment Rates, increased 50 basis points.

THE MORTGAGE MARKET

With the exception of October 2005, prepayment speeds stayed relatively fast as the low rate environment of June and July worked its way through the mortgage pipeline. For the month of October, mortgage prepayment speeds decreased for fixed-rate and adjustable-rate mortgages as higher rates and fewer business days in October tempered mortgage refinancing activity. As we enter the fall/winter months, we expect higher mortgage rates and slower seasonal factors to lower prepayment speeds further. The Mortgage Bankers Association Refinancing Index is reflecting this anticipated slowdown, as it now stands at 1,863, which is about 13% lower than the three-month average of 2,151. We will be paying very close attention to whether this expected slowdown is just the usual seasonal noise or if it reflects a slowing in the overall housing market going forward. Typically, a slowing housing market would imply sustainable lower prepayment rates relative to the recent past. Also, lower prepayments would cause repayment periods on existing securities to expand and likely lead to spreads on mortgage-backed securities to widen. We have experienced some of this spread widening in the mortgage-backed securities sector recently as the 10-year Treasury yield increased by 23 basis points during October.

The popular press has devoted an extraordinary amount of time and concern to the number of alternative mortgage products that have come to define today's robust housing market. The most popular, and perhaps most risky, of these products has been Option ARMs (also known as Negative Amortization ARMs). An Option ARM typically provides the borrower with four choices each month:

1. The minimum payment, which can start as low as a 1.0% pay rate, and allows for negative amortization, or in other words a growing principal balance.
2. An interest-only payment, which is the payment necessary to keep the loan balance constant and not negatively amortize.
3. A payment of interest and principal that would amortize the loan over a 30-year period.
4. A payment of interest and principal that would amortize the loan over a 15-year period.

The most enticing of these options is the minimum payment option because of its extremely low payment amount. However, because this option allows for the loan to negatively amortize, it also has the most potential to cause credit problems for the borrower. This innovative mortgage has become very common over the past few months as the mortgage banking community has addressed the challenge of closing the gap between the relatively steep climb in house prices and the relatively flat growth in personal incomes. Thus, they have been used as a way for a borrower to stretch his or her affordability levels.

A COMMENTARY ON THE FIRST TRUST/FIDAC MORTGAGE INCOME FUND - (CONTINUED)

However, as mentioned above, such products do not come without increased risk. We believe such products have increased the amount of credit risk in the mortgage market, especially if interest rates rise or house price appreciation trends lower. IT IS FOR THIS REASON THAT WE HAVE STAYED AWAY FROM PURCHASING SUCH ASSETS. It is also worth noting that Fannie Mae and Freddie Mac ("government sponsored entities" or "GSEs"), whose mortgage-backed bonds we purchase, have been reluctant to significantly enter into the Option ARM arena. For example, according to Lehman Brothers' research, Freddie Mac has been very selective in taking on such mortgage products, as it has only accounted for 3% of their business this year.

Fannie Mae and Freddie Mac were back in the headlines in October. The House of Representatives passed their version of the GSE regulatory reform bill. In general, the House bill calls for the creation of a new regulator that would have the power to bar the GSEs from new business lines and place them under receivership in the event of default. It also has a requirement that 3.5% of their after-tax profits be allocated to a fund for affordable housing. However, the bill does not include any portfolio size limits. Thus, we believe it is unlikely that this legislation will be enacted prior to year-end because the Senate's version of the bill calls for specific portfolio limits. These limits address the concerns of Fed Chairman Greenspan and the White House that the GSEs are too large. We expect the debate surrounding the portfolio limits to continue into 2006.

In related news, the Office of Federal Housing Enterprise, the current GSE regulator, announced Fannie Mae reached the 30% capital surplus target that had been imposed because of the accounting restatement process that is under way. To meet this requirement, Fannie Mae has had to shrink its portfolio by \$177 billion year-to-date. We believe most market participants are hoping that by meeting its capital surplus target, Fannie Mae signals an inflection point for shrinkage in its portfolio and that the company will slowly come back to the market.

THE ECONOMY

Interest rates in the period ended October 31, 2005 have exhibited significant volatility, particularly in the short end of the yield curve. The Fed has continued its Fed tightening program, even in the wake of Hurricanes Katrina and Rita. On November 1, 2005, the Federal Funds rate was increased to 4.00%, the highest since 2001. The bond market has come to accept that inflation is indeed an issue to be countered with the tools of monetary policy.

Before Hurricane Katrina, we believed the economy was perceived to be fairly vibrant. In particular, housing has remained strong, with new and existing home sales posting near-record numbers, and consumer spending was strong. Real estate valuations rose, providing good support for spending. Since Hurricane Katrina, we have seen a drop in consumer spending, although this has been primarily a consequence of higher energy prices. Looking ahead, we expect to see continued volatility in the bond market as the Federal Reserve continues its tightening pattern. We also will watch the effects of higher rates on the housing market and its potential ramifications on consumer patterns.

Market participants obtained clarity on at least one question: Ben S. Bernanke will step into the very large shoes of the soon-to-retire Alan Greenspan as the

Edgar Filing: FIRST TRUST/FIDAC MORTGAGE INCOME FUND - Form N-CSR

new Chairman of the Federal Reserve in January, pending his confirmation by the U.S. Senate. Bernanke is an academic who has spent the last three years in government service, most recently as the Chairman of the President's Council of Economic Advisors and before that as a governor of the Federal Reserve Board. Prior to that he headed the economics department at Princeton University. In general, the bond and the stock markets have reacted calmly to the idea of Bernanke as the new leader at the Fed. He's a known commodity with an extensive body of work on macroeconomic policy and monetary policy, with a focus on studying the Great Depression.

While the market knows who will be the new Fed Chair, it now is focusing on what kind of policymaker he will be. In this regard, several of his intellectual touchstones have come under scrutiny. Dr. Bernanke first garnered attention beyond the halls of academia when, in November 2002, he delivered a speech that became the basis for the Fed's deflation-fighting policy. In "Deflation: Making Sure 'It' Doesn't Happen Here," Bernanke essentially argued that the Fed would take any steps necessary to stave off deflation, including non-traditional policy tools. These tools, such as fomenting inflation by cranking up the currency printing press or buying back Treasuries, are a viable alternative as interest rates neared zero because, as he said, "Sustained deflation can be highly destructive to a modern economy and should be strongly resisted." The following year, Bernanke gave a speech entitled "A Perspective on Inflation Targeting," in which he spoke admiringly of the track record of central banks around the world which practice the policy. Bernanke has also been a vocal proponent of transparency and clarity in communicating the Fed's approach to monetary policy. As it relates to the Fed's ability to influence market expectations, he said last year that "the Federal Open Market Committee statement has become an increasingly important tool of policy." These speeches and his other writings have been combed over as the market has tried to evaluate the future Bernanke-led Federal Reserve.

We will likely get some clues to Bernanke's approach going forward during his confirmation hearings. In the meantime, though, the Fed Funds futures market is generally expecting the Fed Funds rate to be increased by 25 basis points at each of the remaining two meetings that will be overseen by Alan Greenspan. We have no special insight into what Bernanke will do once in office. In his nomination press conference, Bernanke stated, "My first priority will be to maintain continuity with the policies and policy strategies established during the

Page 3

A COMMENTARY ON THE FIRST TRUST/FIDAC MORTGAGE INCOME FUND - (CONTINUED)

Greenspan years." We take that to mean that he will not be dogmatic or ideological in his approach, although his style will certainly be different--more transparency in his speeches and official Fed statements. Instead, we believe, he will focus on the data. Thus, the question that the market must think about is what kind of economy is Bernanke inheriting?

Certain aspects of the economy are solid. The Institute of Supply Management reported strong non-manufacturing and manufacturing results for October, with strength in employment and prices paid. The first estimate of third quarter Gross Domestic Product came in at 3.8%, higher than consensus, and core inflation moved mostly sideways, while headline numbers (which include the more volatile food and energy components) rose. The core PCE (personal consumption expenditures by major type of product), which has been identified as the Fed's preferred measure of inflation, rose 2.0% on a year-over-year basis through

Edgar Filing: FIRST TRUST/FIDAC MORTGAGE INCOME FUND - Form N-CSR

September, at the high end of the so-called comfort range. On the other hand, we note weakness in housing and consumer spending, both important data series for the U.S. economy going forward. Real consumer spending fell by -0.4% in September following a -1.0% decline in August, portending slowing spending in the fourth quarter. Spending on both durables and non-durables fell in the month, which offset small gains in consumption of services. Inventories of unsold homes are rising, mortgage rates are rising, and mortgage refinancing activity is declining.

Perhaps the most germane economic variable for the prospective Fed Chairman to consider is the fact that the current tightening cycle has successfully flattened the yield curve. Currently, the spread between the 10-year Treasury and Fed Funds stands at approximately 70 basis points, below its long run average of about 90 basis points, and well in from the 359 basis point spread in the second quarter of 2004. The shape of the yield curve is a good leading indicator of economic activity. The Federal Reserve Bank of New York recently released a piece on the yield curve as a leading indicator. According to the author, "The difference between long-term and short-term interest rates has borne a consistent negative relationship with subsequent real economic activity in the United States, with a lead time of about four to six quarters." To again quote from the New York Fed, "A tightening of monetary policy usually means a rise in short-term interest rates, typically intended in the end to lead to a reduction in inflationary pressures. When these pressures subside, it is expected that a policy of easing will follow."

THE MARKETS

During the period, yields in the fixed-income market rose across the board. The short end of the curve experienced the brunt of the sell-off, reflecting the perception that the Fed may need to pursue more of a tightening policy. Stocks finished the period slightly higher and oil hit new highs in the wake of Hurricane Katrina. Comparative economic data is shown in the table below.

NOTES TO FINANCIAL STATEMENTS

FIRST TRUST/FIDAC MORTGAGE INCOME FUND
OCTOBER 31, 2005

1. FUND DESCRIPTION

First Trust/FIDAC Mortgage Income Fund (the "Fund") is a diversified closed-end management investment company organized as a Massachusetts business trust on February 22, 2005, and is registered with the Securities and Exchange Commission ("SEC") under the Investment Company Act of 1940, as amended (the "1940 Act"). The Fund trades under the ticker symbol FMY on the New York Stock Exchange ("NYSE").

The Fund's primary investment objective is to seek a high level of current income. As a secondary objective, the Fund will seek to preserve capital. The Fund will pursue these objectives by investing in mortgage-backed securities that, in the opinion of Fixed Income Discount Advisory Company ("FIDAC" or the Fund's "Sub-Advisor"), offer an attractive combination of credit quality, yield and maturity. There can be no assurance that the Fund's investment objectives will be achieved.

2. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

A. PORTFOLIO VALUATION:

The net asset value ("NAV") of the Common Shares of the Fund is computed based upon the value of the Fund's portfolio securities and other assets. The NAV is

Edgar Filing: FIRST TRUST/FIDAC MORTGAGE INCOME FUND - Form N-CSR

determined as of the close of regular trading on the New York Stock Exchange ("NYSE"), normally 4:00 p.m. Eastern time, on each day the NYSE is open for trading. The Fund calculates NAV per Common Share by subtracting the Fund's liabilities (including accrued expenses, dividends payable and all borrowings of the Fund) from the Fund's Managed Assets (the value of the securities and other investments the Fund holds plus cash or other assets, including interest accrued but not yet received) and dividing the result by the total number of Common Shares outstanding.

The Fund's investments are valued daily at market value or, in the absence of market value with respect to any portfolio securities, at fair value according to procedures adopted by the Fund's Board of Trustees. Securities for which market quotations are readily available are valued at market value, which is currently determined using the last reported sale price or, if no sales are reported (as in the case of some securities traded over-the-counter), the last reported bid price, except that certain U.S. government securities are valued at the mean between the last reported bid and asked prices. The Fund will value mortgage-backed securities ("MBS") and other debt securities not traded in an organized market on the basis of valuations provided by dealers or by an independent pricing service, approved by the Board of Trustees, which uses information with respect to transactions in such securities, quotations from dealers, market transactions for comparable securities, various relationships between securities and yield to maturity in determining value. Debt securities having a remaining maturity of less than sixty days when purchased and debt securities originally purchased with maturities of sixty days or more but which currently have maturities of less than sixty days are valued at cost adjusted for amortization of premiums and accretion of discounts. In the event that market quotations are not readily available, the pricing service does not provide a valuation for a particular security, or the valuations are deemed unreliable, or if events occurring after the close of the principal markets for particular securities (e.g., domestic debt and foreign securities), but before the Fund values its assets, would materially affect NAV, First Trust Advisors L.P. ("First Trust") may use a fair value method to value the Fund's securities and investments. The use of fair value pricing by the Fund is governed by valuation procedures adopted by the Fund's Board of Trustees, and in accordance with the provisions of the 1940 Act.

The Fund values exchange-traded options and other derivative contracts at the closing price on the exchange on which they are principally traded, or if not traded, or no closing price is available, at the mean between the last bid and asked prices.

B. OPTION CONTRACTS:

COVERED CALL OPTIONS. The Fund may enter into hedging and strategic transactions to seek to reduce interest rate risk arising from any use of financial leverage by the Fund, to facilitate portfolio management and to mitigate risks, including interest rate and credit risks.

Options the Fund writes (sells) will either be exercised, expire or be cancelled pursuant to a closing transaction. If the price of the underlying security exceeds the option's exercise price, it is likely that the option holder will exercise the option. If an option written (sold) by the Fund is exercised, the Fund would be obligated to deliver the underlying security to the option holder upon payment of the

Edgar Filing: FIRST TRUST/FIDAC MORTGAGE INCOME FUND - Form N-CSR

FIRST TRUST/FIDAC MORTGAGE INCOME FUND OCTOBER 31, 2005

exercise price. In this case, the option premium received by the Fund will be added to the amount realized on the sale of the security for purposes of determining gain or loss. If the price of the underlying security is less than the option's exercise price, the call option will likely expire without being exercised. The option premium will be treated as short-term capital gain on the expiration date of the option. The Fund may also elect to close out its position in an option prior to its expiration by purchasing an option of the same option series as the option written (sold) by the Fund.

These options give the option holder the right, but not the obligation, to purchase a security from the Fund at the strike price on or prior to the option's expiration date. The ability to successfully implement the Fund's investment strategy depends on the ability of the Fund's Sub-Advisor to predict pertinent market movements, which cannot be assured. Thus, the use of options may require the Fund to sell portfolio securities at inopportune times or for prices other than current market value, may limit the amount of appreciation the Fund can realize on an investment, or may cause the Fund to hold a security that it might otherwise sell. As the writer (seller) of a covered option, the Fund forgoes, during the option's life, the opportunity to profit from increases in the market value of the security covering the option above the sum of the premium and the strike price of the option, but has retained the risk of loss should the price of the underlying security decline. The writer (seller) of an option has no control over the time when it may be required to fulfill its obligation as a writer (seller) of the option. Once an option writer (seller) has received an exercise notice, it cannot effect a closing purchase transaction in order to terminate its obligation under the option and must deliver the underlying security at the exercise price.

C. SECURITIES TRANSACTIONS AND INVESTMENT INCOME:

Securities transactions are recorded as of the trade date. Realized gains and losses from securities transactions are recorded on the identified cost basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded on the accrual basis, including amortization of premiums and the accretion of discounts.

Securities purchased or sold on a when-issued or delayed-delivery basis may be settled a month or more after the trade date; interest income is not accrued until settlement date. The Fund instructs the custodian to segregate assets of the Fund with a current value at least equal to the amount of its when-issued purchase commitments.

D. REVERSE REPURCHASE AGREEMENTS:

Edgar Filing: FIRST TRUST/FIDAC MORTGAGE INCOME FUND - Form N-CSR

A reverse repurchase agreement, although structured as a sale and repurchase obligation, acts as a financing under which the Fund will effectively pledge its assets as collateral to secure a short-term loan. Generally, the other party to the agreement makes the loan in an amount equal to a percentage of the market value of the pledged collateral. At the maturity of the reverse repurchase agreement, the Fund will be required to repay the loan and correspondingly receive back its collateral. While used as collateral, the assets continue to pay principal and interest which are for the benefit of the Fund.

Average amount outstanding during the period*.....	\$12,972,345

* The average amount outstanding during the period was calculated by adding the borrowings at the end of each day and dividing the sum by the number of days in the period ended October 31, 2005.

Interest rates ranged from 3.24% to 4.09% during the period ended October 31, 2005, on borrowings by the Fund under reverse repurchase agreements, which had interest expense that aggregated \$218,513.

E. DIVIDENDS AND DISTRIBUTIONS TO SHAREHOLDERS:

The Fund will distribute to holders of its Common Shares monthly dividends of all or a portion of its net income after the payment of interest and dividends in connection with leverage. Distributions will automatically be reinvested into additional Common Shares pursuant to the Fund's Dividend Reinvestment Plan unless cash distributions are elected by the shareholder.

Distributions from income and capital gains are determined in accordance with income tax regulations, which may differ from accounting principles generally accepted in the United States of America. These differences are primarily due to differing treatments of income and gains on various investment securities held by the Fund, timing differences and differing characterization of distributions made by the Fund. Permanent differences incurred during the period ended October 31, 2005, resulting in book and tax accounting differences, have been reclassified at year end to reflect an increase in undistributed net investment income by \$54,993 and an increase in accumulated net realized loss on investments by \$54,993. Net assets were not affected by this reclassification.

The tax character of distributions paid during fiscal period ended October 31, 2005 is as follows:

		2005

Distributions paid from:		
Ordinary Income.....	\$	1,264,541

Edgar Filing: FIRST TRUST/FIDAC MORTGAGE INCOME FUND - Form N-CSR

As of October 31, 2005, the components of distributable earnings on a tax basis were as follows:

Undistributed Ordinary Income.....	\$	226,733
Net Unrealized Depreciation.....	\$	(379,670)

F. INCOME TAXES:

The Fund intends to qualify as a regulated investment company by complying with the requirements under Subchapter M of the Internal Revenue Code of 1986, as amended, and by distributing substantially all of its net investment income and net realized gains to shareholders. Accordingly, no provision has been made for federal or state income taxes.

G. EXPENSES:

The Fund pays all expenses directly related to its operations.

H. ORGANIZATION AND OFFERING COSTS:

Organization costs consist of costs incurred to establish the Fund and enable it to legally do business. These costs include filing fees, listing fees, legal services pertaining to the organization of the business and audit fees relating to the initial registration and auditing the initial statement of assets and liabilities, among other fees. Offering costs consist of legal fees pertaining to the Fund's Common Shares offered for sale, registration fees, underwriting fees, and printing of the initial prospectus, among other fees. First Trust and FIDAC have paid all organization expenses and all offering costs of the Fund (other than sales load) that exceeded \$0.04 per Common Share. The Fund's share of Common Share offering costs, \$161,809, was recorded as a reduction of the proceeds from the sale of Common Shares.

3. INVESTMENT ADVISORY FEE AND OTHER AFFILIATED TRANSACTIONS

First Trust is a limited partnership with one limited partner, Grace Partners of DuPage L.P., and one general partner, The Charger Corporation. First Trust serves as investment advisor to the Fund pursuant to an Investment Management Agreement. First Trust is responsible for the ongoing monitoring of the Fund's investment portfolio, managing the Fund's business affairs and certain administrative services necessary for the management of the Fund. For these investment management services, First Trust is entitled to a monthly fee calculated at an annual rate of 1.00% of the Fund's Managed Assets.

FIDAC serves as the Fund's sub-advisor and manages the Fund's portfolio subject to First Trust's supervision. The Sub-Advisor receives a portfolio management fee of 0.50% of Managed Assets that is paid monthly by First Trust from its investment advisory fee.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

TO THE BOARD OF TRUSTEES AND SHAREHOLDERS OF FIRST TRUST/FIDAC MORTGAGE INCOME FUND:

We have audited the accompanying statement of assets and liabilities of First Trust/FIDAC Mortgage Income Fund (the "Fund"), including the portfolio of investments, as of October 31, 2005, the related statements of operations,

Edgar Filing: FIRST TRUST/FIDAC MORTGAGE INCOME FUND - Form N-CSR

changes in net assets and cash flows and the financial highlights for the period May 17, 2005 (inception) through October 31, 2005. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. The Fund is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of October 31, 2005, by correspondence with the Fund's custodian and broker; where replies were not received from the broker, we performed other auditing procedures. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of First Trust/FIDAC Mortgage Income Fund as of October 31, 2005, the results of its operations, the changes in its net assets and cash flows, and the financial highlights for the period May 17, 2005 (inception) through October 31, 2005, in conformity with accounting principles generally accepted in the United States of America.

ADDITIONAL INFORMATION (UNAUDITED)

FIRST TRUST/FIDAC MORTGAGE INCOME FUND
OCTOBER 31, 2005

DIVIDEND REINVESTMENT PLAN

If your Common Shares are registered directly with the Fund or if you hold your Common Shares with a brokerage firm that participates in the Fund's Dividend Reinvestment Plan (the "Plan"), unless you elect, by written notice to the Fund, to receive cash distributions, all dividends, including any capital gain dividends, on your Common Shares will be automatically reinvested by PFPC Inc. (the "Plan Agent"), in additional Common Shares under the Plan. If you elect to receive cash distributions, you will receive all distributions in cash paid by check mailed directly to you by PFPC Inc., as the dividend paying agent.

If you decide to participate in the Plan, the number of Common Shares you will

Edgar Filing: FIRST TRUST/FIDAC MORTGAGE INCOME FUND - Form N-CSR

receive will be determined as follows:

- (1) If the Common Shares are trading at or above net asset value ("NAV") at the time of valuation, the Fund will issue new shares at a price equal to the greater of (i) NAV per Common Share on that date or (ii) 95% of the market price on that date.
- (2) If the Common Shares are trading below NAV at the time of valuation, the Plan Agent will receive the dividend or distribution in cash and will purchase Common Shares in the open market, on the NYSE or elsewhere, for the participants' accounts. It is possible that the market price for the Common Shares may increase before the Plan Agent has completed its purchases. Therefore, the average purchase price per share paid by the Plan Agent may exceed the market price at the time of valuation, resulting in the purchase of fewer shares than if the dividend or distribution had been paid in Common Shares issued by the Fund. The Plan Agent will use all dividends and distributions received in cash to purchase Common Shares in the open market within 30 days of the valuation date except where temporary curtailment or suspension of purchases is necessary to comply with federal securities laws. Interest will not be paid on any uninvested cash payments.

You may elect to opt-out of or withdraw from the Plan at any time by giving written notice to the Plan Agent, or by telephone at (800) 331-1710, in accordance with such reasonable requirements as the Plan Agent and Fund may agree upon. If you withdraw or the Plan is terminated, you will receive a certificate for each whole share in your account under the Plan and you will receive a cash payment for any fraction of a share in your account. If you wish, the Plan Agent will sell your shares and send you the proceeds, minus brokerage commissions.

The Plan Agent maintains all Common Shareholders' accounts in the Plan and gives written confirmation of all transactions in the accounts, including information you may need for tax records. Common Shares in your account will be held by the Plan Agent in non-certificated form. The Plan Agent will forward to each participant any proxy solicitation material and will vote any shares so held only in accordance with proxies returned to the Fund. Any proxy you receive will include all Common Shares you have received under the Plan.

There is no brokerage charge for reinvestment of your dividends or distributions in Common Shares. However, all participants will pay a pro rata share of brokerage commissions incurred by the Plan Agent when it makes open market purchases.

Automatically reinvesting dividends and distributions does not mean that you do not have to pay income taxes due upon receiving dividends and distributions. Capital gains and income are realized, although cash is not received by you.

If you hold your Common Shares with a brokerage firm that does not participate in the Plan, you will not be able to participate in the Plan and any dividend reinvestment may be effected on different terms than those described above.

The Fund reserves the right to amend or terminate the Plan if in the judgment of the Board of Trustees the change is warranted. There is no direct service charge to participants in the Plan; however, the Fund reserves the right to amend the Plan to include a service charge payable by the participants. Additional information about the Plan may be obtained by writing PFPC Inc., 301 Bellevue Parkway, Wilmington, Delaware 19809.

In addition, the Fund's reports to the SEC on Forms N-CSR and N-Q contain certifications by the Fund's principal executive officer and principal financial officer that relate to the Fund's public disclosure in such reports and are required by Rule 30a-2 under the 1940 Act.

BY-LAW AMENDMENT

On December 12, 2005, the Board of Trustees of the Fund approved certain changes to the By-Laws of the Fund that may have the effect of delaying or preventing a change of control of the Fund. To receive a copy of the revised By-Laws, investors may call the Fund at (800) 988-5891.

BOARD APPROVAL OF ADVISORY AND SUB-ADVISORY AGREEMENTS

The Board of Trustees approved the Investment Management Agreement (the "Agreement") with First Trust Advisors at a meeting held on March 7, 2005.

The Board received and reviewed data from First Trust which the Trustees discussed at the meeting with representatives of the Advisor, Fund counsel and independent counsel. The Board concluded that the terms of the Agreement are fair and reasonable and that the Agreement is in the best interest of the Fund.

The Trustees considered the nature, extent and quality of services to be provided under the Agreement, noting that First Trust Advisors employees provided management services to other closed-end funds in the First Trust complex with diligence and care. They noted the compliance program that had been developed by First Trust Advisors and the skills of its employees who would be working with the Fund. The Trustees concluded they were comfortable that First

Edgar Filing: FIRST TRUST/FIDAC MORTGAGE INCOME FUND - Form N-CSR

Trust Advisors had the capabilities and resources to oversee the operations of the Fund, including overseeing the Sub-Advisor.

The Trustees reviewed information compiled by First Trust Advisors from an independent source on management and advisory fees charged to similar closed-end funds, and they discussed with representatives of First Trust Advisors certain differences between those funds and the Fund. They noted that a portion of the fee payable by the Fund to First Trust Advisors would then be paid to the Sub-Advisor, and they took this and other costs to be borne by First Trust Advisors in connection with its services to be performed under the Agreement into consideration when analyzing the estimated profitability of the Agreement to First Trust Advisors. The Trustees concluded that the estimated profitability was not unreasonable.

At the March 7, 2005 meeting, the Trustees received a presentation from senior executives of the Sub-Advisor, who described the Sub-Advisor's experience and investment style and the performance of its other similar accounts. The Trustees had the opportunity to ask questions and review materials submitted by the Sub-Advisor, and they met with Fund counsel and independent counsel to review their duties and responsibilities in connection with their consideration of the Investment Sub-Advisory Agreement (the "Sub-Advisory Agreement") among the Fund, the Advisor and the Sub-Advisor, as they also had done for the Agreement. The Trustees considered the nature, extent and quality of services to be provided by the Sub-Advisor, and noted the background and experience of the portfolio managers. They noted that the Sub-Advisor had not previously provided investment advisory services to a closed-end investment company, but they noted that the Advisor would be supervising the Sub-Advisor, and that the Sub-Advisor's compliance program would reflect regulatory restrictions imposed on closed-end funds.

The Sub-Advisor provided information on fees charged to its other non-closed-end fund clients, and the Trustees concluded that the fees to be paid under the Sub-Advisory Agreement were reasonable. The Trustees also concluded that the terms of the Sub-Advisory Agreement are fair and reasonable and that the Sub-Advisory Agreement is in the best interest of the Fund.

PROXY VOTING GUIDELINES

First Trust Advisors, L.P. (the "ADVISER") serves as investment adviser providing discretionary investment advisory services for several open or closed-end investment companies (the "FUNDS"). As part of these services, the Adviser has full responsibility for proxy voting and related duties. In fulfilling these duties, the Adviser and Funds have adopted the following policies and procedures:

1. It is the Adviser's policy to seek to ensure that proxies for securities held by a Fund are voted consistently and solely in the best economic interests of the respective Fund.
2. The Adviser shall be responsible for the oversight of a Fund's proxy voting process and shall assign a senior member of its staff to be responsible for this oversight.
3. The Adviser has engaged the services of Institutional Shareholder Services, Inc. ("ISS") to make recommendations to the Adviser on the voting of proxies related to securities held by a Fund. ISS provides voting recommendations based on established guidelines and practices. The Adviser has adopted these ISS Proxy Voting Guidelines.
4. The Adviser shall review the ISS recommendations and generally will vote the proxies in accordance with such recommendations. Notwithstanding the foregoing, the Adviser may not vote in accordance with the ISS recommendations if the Adviser believes that the specific ISS recommendation is not in the best interests of the respective Fund.
5. If the Adviser manages the assets or pension fund of a company and any of the Adviser's clients hold any securities in that company, the Adviser will vote proxies relating to such company's securities in accordance with the ISS recommendations to avoid any conflict of interest. In addition, if the Adviser has actual knowledge of any other type of material conflict of interest between itself and the respective Fund with respect to the voting of a proxy, the Adviser shall vote the applicable proxy in

Edgar Filing: FIRST TRUST/FIDAC MORTGAGE INCOME FUND - Form N-CSR

accordance with the ISS recommendations to avoid such conflict of interest.

6. If a Fund requests the Adviser to follow specific voting guidelines or additional guidelines, the Adviser shall review the request and follow such guidelines, unless the Adviser determines that it is unable to follow such guidelines. In such case, the Adviser shall inform the Fund that it is not able to follow the Fund's request.
7. The Adviser may have clients in addition to the Funds which have provided the Adviser with discretionary authority to vote proxies on their behalf. In such cases, the Adviser shall follow the same policies and procedures.

EXHIBIT B

ISS 2005 PROXY VOTING

GUIDELINES SUMMARY

The following is a condensed version of all proxy voting recommendations contained in the ISS Proxy Voting Manual.

1. OPERATIONAL ITEMS

ADJOURN MEETING

Generally vote AGAINST proposals to provide management with the authority to adjourn an annual or special meeting absent compelling reasons to support the proposal.

Vote FOR proposals that relate specifically to soliciting votes for a merger or transaction for which ISS has recommended a FOR vote. Vote AGAINST proposals if the wording is too vague or if the proposal includes "other business."

AMEND QUORUM REQUIREMENTS

Vote AGAINST proposals to reduce quorum requirements for shareholder meetings below a majority of the shares outstanding unless there are compelling reasons to support the proposal.

AMEND MINOR BYLAWS

Vote FOR bylaw or charter changes that are of a housekeeping nature (updates or corrections).

CHANGE COMPANY NAME

Vote FOR proposals to change the corporate name.

CHANGE DATE, TIME, OR LOCATION OF ANNUAL MEETING

Vote FOR management proposals to change the date/time/location of the annual meeting unless the proposed change is unreasonable.

Vote AGAINST shareholder proposals to change the date/time/location of the

Edgar Filing: FIRST TRUST/FIDAC MORTGAGE INCOME FUND - Form N-CSR

annual meeting unless the current scheduling or location is unreasonable.

RATIFYING AUDITORS

Vote FOR proposals to ratify auditors, unless any of the following apply:

- o An auditor has a financial interest in or association with the company, and is therefore not independent
- o Fees for non-audit services are excessive, or
- o There is reason to believe that the independent auditor has rendered an opinion which is neither accurate nor indicative of the company's financial position.

Vote CASE-BY-CASE on shareholder proposals asking companies to prohibit or limit their auditors from engaging in non-audit services.

Vote CASE-BY-CASE on shareholder proposals asking for audit firm rotation, taking into account the tenure of the audit firm, the length of rotation specified in the proposal, any significant audit-related issues at the company, the number of Audit Committee meetings held each year, the number of financial experts serving on the

committee, and whether the company has a periodic renewal process where the auditor is evaluated for both audit quality and competitive price.

TRANSACT OTHER BUSINESS

Vote AGAINST proposals to approve other business when it appears as voting item.

VOTING ON DIRECTOR NOMINEES IN UNCONTESTED ELECTIONS

Votes on director nominees should be made on a CASE-BY-CASE basis, examining the following factors: composition of the board and key board committees, attendance at board meetings, corporate governance provisions and takeover activity, long-term company performance relative to a market index, directors' investment in the company, whether the chairman is also serving as CEO, and whether a retired CEO sits on the board. However, there are some actions by directors that should result in votes being withheld. These instances include directors who:

- o Attend less than 75 percent of the board and committee meetings without a valid excuse
- o Implement or renew a dead-hand or modified dead-hand poison pill
- o Adopt a poison pill without shareholder approval since the company's last annual meeting and there is no requirement to put the pill to shareholder vote within 12 months of its adoption
- o Ignore a shareholder proposal that is approved by a majority of the shares outstanding
- o Ignore a shareholder proposal that is approved by a majority of the votes cast for two consecutive years
- o Failed to act on takeover offers where the majority of the shareholders tendered their shares
- o Are inside directors or affiliated outsiders and sit on the audit,

Edgar Filing: FIRST TRUST/FIDAC MORTGAGE INCOME FUND - Form N-CSR

compensation, or nominating committees

- o Are inside directors or affiliated outsiders and the full board serves as the audit, compensation, or nominating committee or the company does not have one of these committees
- o Are audit committee members and the non -audit fees paid to the auditor are excessive.

In addition, directors who enacted egregious corporate governance policies or failed to replace management as appropriate would be subject to recommendations to withhold votes.

- o Are inside directors or affiliated outside directors and the full board is less than majority independent
- o Sit on more than six public company boards, or on more than two public boards in addition to their own if they are CEOs of public companies.
- o Are on the compensation committee when there is a negative correlation between chief executive pay and company performance
- o Have failed to address the issue(s) that resulted in any of the directors receiving more than 50% withhold votes out of those cast at the previous board election

AGE LIMITS

Vote AGAINST shareholder or management proposals to limit the tenure of outside directors either through term limits or mandatory retirement ages.

BOARD SIZE

Vote FOR proposals seeking to fix the board size or designate a range for the board size.

Vote AGAINST proposals that give management the ability to alter the size of the board outside of a specified range without shareholder approval.

CLASSIFICATION/DECLASSIFICATION OF THE BOARD

Vote AGAINST proposals to classify the board.

Vote FOR proposals to repeal classified boards and to elect all directors annually.

CUMULATIVE VOTING

Vote AGAINST proposals to eliminate cumulative voting.

Vote proposals to restore or permit cumulative voting on a CASE-BY-CASE basis based on the extent that shareholders have access to the board through their own nominations.

DIRECTOR AND OFFICER INDEMNIFICATION AND LIABILITY PROTECTION

Proposals on director and officer indemnification and liability protection should be evaluated on a CASE-BY-CASE basis, using Delaware law as the standard.

Vote AGAINST proposals to eliminate entirely directors' and officers' liability

Edgar Filing: FIRST TRUST/FIDAC MORTGAGE INCOME FUND - Form N-CSR

for monetary damages for violating the duty of care.

Vote AGAINST indemnification proposals that would expand coverage beyond just legal expenses to acts, such as negligence, that are more serious violations of fiduciary obligation than mere carelessness.

Vote FOR only those proposals providing such expanded coverage in cases when a director's or officer's legal defense was unsuccessful if both of the following apply:

- o The director was found to have acted in good faith and in a manner that he reasonably believed was in the best interests of the company, and
- o Only if the director's legal expenses would be covered.

ESTABLISH/AMEND NOMINEE QUALIFICATIONS

Vote CASE-BY-CASE on proposals that establish or amend director qualifications. Votes should be based on how reasonable the criteria are and to what degree they may preclude dissident nominees from joining the board. Vote AGAINST shareholder proposals requiring two candidates per board seat.

FILLING VACANCIES/REMOVAL OF DIRECTORS

Vote AGAINST proposals that provide that directors may be removed only for cause.

Vote FOR proposals to restore shareholder ability to remove directors with or without cause.

Vote AGAINST proposals that provide that only continuing directors may elect replacements to fill board vacancies.

Vote FOR proposals that permit shareholders to elect directors to fill board vacancies.

INDEPENDENT CHAIRMAN (SEPARATE CHAIRMAN/CEO)

Generally vote FOR shareholder proposals requiring the position of chairman be filled by an independent director unless there are compelling reasons to recommend against the proposal, such as a counterbalancing governance structure. This should include all of the following:

- o Designated lead director, elected by and from the independent board members with clearly delineated and comprehensive duties. (The role may alternatively reside with a presiding director, vice chairman, or rotating lead director).
- o Two-thirds independent board
- o All-independent key committees
- o Established governance guidelines

Additionally, the company should not have under-performed its peers.

MAJORITY OF INDEPENDENT DIRECTORS/ESTABLISHMENT OF COMMITTEES

Vote FOR shareholder proposals asking that a majority or more of directors be independent unless the board composition already meets the proposed threshold by ISS's definition of independence.

Edgar Filing: FIRST TRUST/FIDAC MORTGAGE INCOME FUND - Form N-CSR

Vote FOR shareholder proposals asking that board audit, compensation, and/or nominating committees be composed exclusively of independent directors if they currently do not meet that standard.

OPEN ACCESS

Vote CASE-BY-CASE on shareholder proposals asking for open access taking into account the ownership threshold specified in the proposal and the proponent's rationale for targeting the company in terms of board and director conduct.

STOCK OWNERSHIP REQUIREMENTS

Generally vote AGAINST shareholder proposals that mandate a minimum amount of stock that directors must own in order to qualify as a director or to remain on the board. While ISS favors stock ownership on the part of directors, the company should determine the appropriate ownership requirement.

Vote CASE-BY-CASE shareholder proposals asking that the company adopt a holding or retention period for its executives (for holding stock after the vesting or exercise of equity awards), taking into account any stock ownership requirements or holding period/retention ratio already in place and the actual ownership level of executives.

TERM LIMITS

Vote AGAINST shareholder or management proposals to limit the tenure of outside directors either through term limits or mandatory retirement ages.

3. PROXY CONTESTS

VOTING FOR DIRECTOR NOMINEES IN CONTESTED ELECTIONS

Votes in a contested election of directors must be evaluated on a CASE-BY-CASE basis, considering the following factors:

- o Long-term financial performance of the target company relative to its industry; management's track record
- o Background to the proxy contest
- o Qualifications of director nominees (both slates)
- o Evaluation of what each side is offering shareholders as well as the likelihood that the proposed objectives and goals can be met; and stock ownership positions.

REIMBURSING PROXY SOLICITATION EXPENSES

Voting to reimburse proxy solicitation expenses should be analyzed on a CASE-BY-CASE basis. In cases where ISS recommends in favor of the dissidents, we also recommend voting for reimbursing proxy solicitation expenses.

CONFIDENTIAL VOTING

Vote FOR shareholder proposals requesting that corporations adopt confidential voting, use independent vote tabulators and use independent inspectors of election, as long as the proposal includes a provision for proxy contests as follows: In the case of a contested election, management should be permitted to request that the dissident group honor its confidential voting policy. If the dissidents agree, the policy remains in place. If the dissidents will not agree,

Edgar Filing: FIRST TRUST/FIDAC MORTGAGE INCOME FUND - Form N-CSR

the confidential voting policy is waived.

Vote FOR management proposals to adopt confidential voting.

4. ANTI-TAKEOVER DEFENSES AND VOTING RELATED ISSUES

Advance Notice Requirements for Shareholder Proposals/Nominations

Votes on advance notice proposals are determined on a CASE-BY-CASE basis, giving support to those proposals which allow shareholders to submit proposals as close to the meeting date as reasonably possible and within the broadest window possible.

Vote AGAINST proposals giving the board exclusive authority to amend the bylaws.

Vote FOR proposals giving the board the ability to amend the bylaws in addition to shareholders.

Edgar Filing: FIRST TRUST/FIDAC MORTGAGE INCOME FUND - Form N-CSR

factors:

- o Purchase price
- o Fairness opinion
- o Financial and strategic benefits
- o How the deal was negotiated
- o Conflicts of interest
- o Other alternatives for the business

- o Potential elimination of diseconomies
- o Anticipated financial and operating benefits
- o Anticipated use of funds
- o Value received for the asset
- o Fairness opinion
- o How the deal was negotiated
- o Conflicts of interest.

BUNDLED PROPOSALS

Review on a CASE-BY-CASE basis bundled or "conditioned" proxy proposals.

In the case of items that are conditioned upon each other, examine the benefits and costs of the packaged items.

In instances when the joint effect of the conditioned items is not in shareholders' best interests, vote against the proposals. If the combined effect is positive, support such proposals.

CONVERSION OF SECURITIES

Votes on proposals regarding conversion of securities are determined on a CASE-BY-CASE basis. When evaluating these proposals the investor should review the dilution to existing shareholders, the conversion price relative to market value, financial issues, control issues, termination penalties, and conflicts of interest.

Vote FOR the conversion if it is expected that the company will be subject to onerous penalties or will be forced to file for bankruptcy if the transaction is not approved.

Edgar Filing: FIRST TRUST/FIDAC MORTGAGE INCOME FUND - Form N-CSR

- o The reasons for the change
- o Any financial or tax benefits
- o Regulatory benefits
- o Increases in capital structure
- o Changes to the articles of incorporation or bylaws of the company.

Vote AGAINST proposals to increase the number of blank check preferred stock authorized for issuance when no shares have been issued or reserved for a specific purpose.

Votes on the creation of tracking stock are determined on a CASE-BY-CASE basis, weighing the strategic value of the transaction against such factors as: adverse governance changes, excessive increases in authorized capital stock, unfair method of distribution, diminution of voting rights, adverse conversion features, negative impact on stock option plans, and other alternatives such as spinoff.

8. EXECUTIVE AND DIRECTOR COMPENSATION

Votes with respect to equity-based compensation plans should be determined on a CASE-BY-CASE basis. Our methodology for reviewing compensation plans primarily focuses on the transfer of shareholder wealth (the dollar cost of pay plans to shareholders instead of simply focusing on voting power dilution). Using the expanded compensation data disclosed under the SEC's rules, ISS will value every award type. ISS will include in its analyses an estimated dollar cost for the proposed plan and all continuing plans. This cost, dilution to shareholders' equity, will also be expressed as a percentage figure for the transfer of shareholder wealth, and will be considered along with dilution to voting power. Once ISS determines the estimated cost of the plan, we compare it to a company-specific dilution cap.

Our model determines a company-specific allowable pool of shareholder wealth that may be transferred from the company to plan participants, adjusted for:

- o Long-term corporate performance (on an absolute basis and relative to a standard industry peer group and an appropriate market index),
- o Cash compensation, and
- o Categorization of the company as emerging, growth, or mature.

These adjustments are pegged to market capitalization.

Vote AGAINST plans that expressly permit the repricing of underwater stock options without shareholder approval.

Generally vote AGAINST plans in which (1) there is a disconnect between the CEO's pay and company performance (an increase in pay and a decrease in performance) and the main source of the pay increase (over half) is equity-based and (2) the CEO is the participant of the equity proposal. A decrease in performance is based on negative one- and three-year total shareholder returns. An increase in pay is based on the CEO's total direct compensation (salary, cash bonus, present value of stock options, face value of restricted stock, face value of long-term incentive plan payouts, and all other compensation) increasing over the previous year. Also may WITHHOLD votes from the Compensation Committee members.

Generally vote AGAINST plans if the company's most recent three-year burn rate exceeds one standard deviation in excess of the industry mean and is over two percent of common shares outstanding. See Table 1 for details.

However, the above general voting guidelines for pay for performance may change if the compensation committee members can demonstrate that they have improved committee performance based on additional public filing such as an DEFA 14A or 8K. The additional filing needs to present strong and compelling evidence of improved performance with new information that has not been disclosed in the original proxy statement. The reiteration of the compensation committee report will not be sufficient evidence of improved committee performance.

Evidence of improved compensation committee performance includes all of the following:

Edgar Filing: FIRST TRUST/FIDAC MORTGAGE INCOME FUND - Form N-CSR

- o The compensation committee has reviewed all components of the CEO's compensation, including the following:
 - Base salary, bonus, long-term incentives
 - Accumulative realized and unrealized stock option and restricted stock gains
 - Dollar value of perquisites and other personal benefits to the CEO and the cost to the company
 - Earnings and accumulated payment obligations under the company's nonqualified deferred compensation program
 - Actual projected payment obligations under the company's supplemental executive retirement plan (SERPs)

A tally sheet setting forth all the above components was prepared and reviewed affixing dollar amounts under the various payout scenarios.

- o A tally sheet with all the above components should be disclosed for the following termination scenarios:
 - Payment if termination occurs within 12 months: \$_____
 - Payment if "not for cause" termination occurs within 12 months: \$_____
 - Payment if "change of control" termination occurs within 12 months: \$_____
- o The compensation committee is committed to provide additional information on the named executives' annual cash bonus program and/or long-term incentive cash plan for the current fiscal year. The compensation committee will provide full disclosure of the qualitative and quantitative performance criteria and hurdle rates used to determine the payouts of the cash program. From this disclosure, shareholders will know the minimum level of performance required for any cash bonus to be delivered as well as the maximum cash bonus payable for superior performance.

The repetition of the compensation committee report does not meet ISS' requirement of compelling and strong evidence of improved disclosure. The level of transparency and disclosure is at the highest level where shareholders can understand the mechanics of the annual cash bonus and/or long-term incentive cash plan based on the additional disclosure.

- o The compensation committee is committed to grant a substantial portion of performance-based equity awards to the named executive officers. A substantial portion of performance-based awards would be at least 50 percent of the shares awarded to each of the named executive officers. Performance-based equity awards are earned or paid out based on the achievement of company performance targets. The company will disclose the details of the performance criteria (e.g., return on equity) and the hurdle rates (e.g., 15 percent) associated with the performance targets. From this disclosure, shareholders will know the minimum level of performance required for any equity grants to be made. The performance-based equity awards do not refer to non-qualified stock options(1) or performance-accelerated grants(2). Instead, performance-based equity awards are performancecontingent grants where the individual will not receive the equity grant by not meeting the target performance and vice versa.

Edgar Filing: FIRST TRUST/FIDAC MORTGAGE INCOME FUND - Form N-CSR

The level of transparency and disclosure is at the highest level where shareholders can understand the mechanics of the performance-based equity awards based on the additional disclosure.

- o The compensation committee has the sole authority to hire and fire outside compensation consultants. The role of the outside compensation consultant is to assist the compensation committee to analyze executive pay packages or contracts and understand the company's financial measures.

BASED ON THE ADDITIONAL DISCLOSURE OF IMPROVED PERFORMANCE OF THE COMPENSATION COMMITTEE, ISS WILL GENERALLY VOTE FOR THE COMPENSATION COMMITTEE MEMBERS UP FOR ANNUAL ELECTION AND VOTE FOR THE EMPLOYEE-BASED STOCK PLAN IF THERE IS ONE ON THE BALLOT. HOWEVER, ISS IS NOT LIKELY TO VOTE FOR THE COMPENSATION COMMITTEE MEMBERS AND/OR THE EMPLOYEE-BASED STOCK PLAN IF ISS BELIEVES THE COMPANY HAS NOT PROVIDED COMPELLING AND SUFFICIENT EVIDENCE OF TRANSPARENT ADDITIONAL DISCLOSURE OF EXECUTIVE COMPENSATION BASED ON THE ABOVE REQUIREMENTS.

DIRECTOR COMPENSATION

Votes on compensation plans for directors are determined on a CASE-BY-CASE basis, using a proprietary, quantitative model developed by ISS.

On occasion, director stock plans that set aside a relatively small of shares when combined with employee or executive stock compensation plans exceed the allowable cap. In such cases, starting proxy season 2005, ISS will supplement the analytical approach with a qualitative review of board compensation for companies, taking into consideration:

- o Director stock ownership guidelines
 - A minimum of three times the annual cash retainer.
- o Vesting schedule or mandatory holding/deferral period
 - A minimum vesting of three years for stock options or restricted stock, or
 - Deferred stock payable at the end of a three-year deferral period.
- o Mix between cash and equity
 - A balanced mix of cash and equity, for example 40% cash/60% equity or 50% cash/50% equity.
 - If the mix is heavier on the equity component, the vesting schedule or deferral period should be more stringent, with the lesser of five years or the term of directorship.

-
- (1) Non-qualified stock options are not performance-based awards unless the grant or the vesting of the stock options is tied to the achievement of a pre-determined and disclosed performance measure. A rising stock market will generally increase share prices of all companies, despite of the company's underlying performance.
 - (2) Performance-accelerated grants are awards that vest earlier based on the achievement of a specified measure. However, these grants will ultimately vest over time even without the attainment of the goal(s).

- o Retirement/Benefit and Perquisites programs

Edgar Filing: FIRST TRUST/FIDAC MORTGAGE INCOME FUND - Form N-CSR

- No retirement/benefits and perquisites provided to non-employee directors.
- o Quality of disclosure
- Provide detailed disclosure on cash and equity compensation delivered to each non-employee director for the most recent fiscal year in a table. The column headers for the table may include the following: name of each non-employee director, annual retainer, board meeting fees, committee retainer, committee-meeting fees, and equity grants.

For ISS to recommend a vote FOR director equity plans based on the above qualitative features, a company needs to demonstrate that it meets all the above qualitative features in its proxy statement.

STOCK PLANS IN LIEU OF CASH

Votes for plans which provide participants with the option of taking all or a portion of their cash compensation in the form of stock are determined on a CASE-BY-CASE basis.

Vote FOR plans which provide a dollar-for-dollar cash for stock exchange.

Votes for plans which do not provide a dollar-for-dollar cash for stock exchange should be determined on a CASE-BY-CASE basis using a proprietary, quantitative model developed by ISS. In cases where the exchange is not dollar-for-dollar, the request for new or additional shares for such equity program will be considered in the quantitative model. However, the cost would be lower than full-value awards since part of the deferral compensation is in-lieu-of cash compensation.

DIRECTOR RETIREMENT PLANS

Vote AGAINST retirement plans for nonemployee directors.

Vote FOR shareholder proposals to eliminate retirement plans for nonemployee directors.

MANAGEMENT PROPOSALS SEEKING APPROVAL TO REPRICE OPTIONS

Votes on management proposals seeking approval to reprice options are evaluated on a CASE-BY-CASE basis giving consideration to the following:

- o Purchase price is at least 85 percent of fair market value
- o Offering period is 27 months or less, and
- o The number of shares allocated to the plan is ten percent or less of the outstanding shares

Vote AGAINST qualified employee stock purchase plans where any of the following apply:

- o Purchase price is less than 85 percent of fair market value, or
- o Offering period is greater than 27 months, or
- o The number of shares allocated to the plan is more than ten percent of the outstanding shares

NONQUALIFIED EMPLOYEE STOCK PURCHASE PLANS

Votes on nonqualified employee stock purchase plans should be determined on a CASE-BY-CASE basis.

Vote FOR nonqualified employee stock purchase plans with all the following features:

- o Broad-based participation (i.e., all employees of the company with the exclusion of individuals with 5 percent or more of beneficial ownership of the company).
- o Limits on employee contribution, which may be a fixed dollar amount or expressed as a percent of base salary.
- o Company matching contribution up to 25 percent of employee's contribution, which is effectively a discount of 20 percent from market value.
- o No discount on the stock price on the date of purchase since there is a company matching contribution.

Vote AGAINST nonqualified employee stock purchase plans when any of the plan features do not meet the above criteria.

INCENTIVE BONUS PLANS AND TAX DEDUCTIBILITY PROPOSALS (OBRA-RELATED COMPENSATION PROPOSALS)

Vote FOR proposals that simply amend shareholder-approved compensation plans to include administrative features or place a cap on the annual grants any one participant may receive to comply with the provisions of Section 162(m).

Vote FOR proposals to add performance goals to existing compensation plans to comply with the provisions of Section 162(m) unless they are clearly inappropriate.

Votes to amend existing plans to increase shares reserved and to qualify for favorable tax treatment under the provisions of Section 162(m) should be considered on a CASE-BY-CASE basis using a proprietary, quantitative model developed by ISS.

Edgar Filing: FIRST TRUST/FIDAC MORTGAGE INCOME FUND - Form N-CSR

401(K) EMPLOYEE BENEFIT PLANS

Vote FOR proposals to implement a 401(k) savings plan for employees.

SHAREHOLDER PROPOSALS REGARDING EXECUTIVE AND DIRECTOR PAY

Generally, vote FOR shareholder proposals seeking additional disclosure of executive and director pay information, provided the information requested is relevant to shareholders' needs, would not put the company at a competitive disadvantage relative to its industry, and is not unduly burdensome to the company.

Vote AGAINST shareholder proposals requiring director fees be paid in stock only.

Vote FOR shareholder proposals to put option repricings to a shareholder vote.

Vote on a CASE-BY-CASE basis for all other shareholder proposals regarding executive and director pay, taking into account company performance, pay level versus peers, pay level versus industry, and long term corporate outlook.

Generally vote FOR shareholder proposals asking the company to expense stock options, unless the company has already publicly committed to expensing options by a specific date.

PERFORMANCE-BASED AWARDS

Generally vote FOR shareholder proposals advocating the use of performance-based awards like indexed, premium-priced, and performance-vested options or performance-based shares, unless:

- o The proposal is overly restrictive (e.g., it mandates that awards to all employees must be performance-based or all awards to top executives must be a particular type, such as indexed options)
- o The company demonstrates that it is using a substantial portion of performance-based awards for its top executives

GOLDEN PARACHUTES AND EXECUTIVE SEVERANCE AGREEMENTS

Vote FOR shareholder proposals to require golden parachutes or executive severance agreements to be submitted for shareholder ratification, unless the proposal requires shareholder approval prior to entering into employment contracts.

Edgar Filing: FIRST TRUST/FIDAC MORTGAGE INCOME FUND - Form N-CSR

Vote on a CASE-BY-CASE basis on proposals to ratify or cancel golden parachutes. An acceptable parachute should include the following:

- o The triggering mechanism should be beyond the control of management
- o The amount should not exceed three times base amount (defined as the average annual taxable W-2 compensation during the five years prior to the year in which the change of control occurs)
- o Change-in-control payments should be double-triggered, i.e., (1) after a change in control has taken place, and (2) termination of the executive as a result of the change in control. ISS defines change in control as a change in the company ownership structure.

PENSION PLAN INCOME ACCOUNTING

Generally vote FOR shareholder proposals to exclude pension plan income in the calculation of earnings used in determining executive bonuses/compensation.

SUPPLEMENTAL EXECUTIVE RETIREMENT PLANS (SERPS)

Generally vote FOR shareholder proposals requesting to put extraordinary benefits contained in SERP agreements to a shareholder vote unless the company's executive pension plans do not contain excessive benefits beyond what is offered under employee-wide plans.

9. SOCIAL AND ENVIRONMENTAL ISSUES

CONSUMER ISSUES AND PUBLIC SAFETY

ANIMAL RIGHTS

Vote CASE-BY-CASE on proposals to phase out the use of animals in product testing, taking into account:

- o The availability and feasibility of alternatives to animal testing to ensure product safety, and
- o The degree that competitors are using animal-free testing.

- o The company's standards are comparable to or better than those of peer firms, and
- o There are no serious controversies surrounding the company's treatment of animals

- o Whether the proposal focuses on a specific drug and region

Edgar Filing: FIRST TRUST/FIDAC MORTGAGE INCOME FUND - Form N-CSR

- o Whether the economic benefits of providing subsidized drugs (e.g., public goodwill) outweigh the costs in terms of reduced profits, lower R&D spending, and harm to competitiveness
- o The extent that reduced prices can be offset through the company's marketing budget without affecting R&D spending
- o Whether the company already limits price increases of its products
- o Whether the company already contributes life -saving pharmaceuticals to the needy and Third World countries
- o The extent that peer companies implement price restraints

GENETICALLY MODIFIED FOODS

Vote AGAINST proposals asking companies to voluntarily label genetically engineered (GE) ingredients in their products or alternatively to provide interim labeling and eventually eliminate GE ingredients due to the costs and feasibility of labeling and/or phasing out the use of GE ingredients.

Vote CASE-BY-CASE on proposals asking for a report on the feasibility of labeling products containing GE ingredients taking into account:

- o The relevance of the proposal in terms of the company's business and the proportion of it affected by the resolution
- o The quality of the company's disclosure on GE product labeling and related voluntary initiatives and how this disclosure compares with peer company disclosure
- o Company's current disclosure on the feasibility of GE product labeling, including information on the related costs
- o Any voluntary labeling initiatives undertaken or considered by the company.

Vote CASE-BY-CASE on proposals asking for the preparation of a report on the financial, legal, and environmental impact of continued use of GE ingredients/seeds.

- o The relevance of the proposal in terms of the company's business and the proportion of it affected by the resolution
- o The quality of the company's disclosure on risks related to GE product use and how this disclosure compares with peer company disclosure
- o The percentage of revenue derived from international operations, particularly in Europe, where GE products are more regulated and consumer backlash is more pronounced.

Vote AGAINST proposals seeking a report on the health and environmental effects of genetically modified organisms (GMOs). Health studies of this sort are better undertaken by regulators and the scientific community.

Vote AGAINST proposals to completely phase out GE ingredients from the company's products or proposals asking for reports outlining the steps necessary to eliminate GE ingredients from the company's products. Such resolutions presuppose that there are proven health risks to GE ingredients (an issue better left to federal regulators) that outweigh the economic benefits derived from

Edgar Filing: FIRST TRUST/FIDAC MORTGAGE INCOME FUND - Form N-CSR

biotechnology.
