PROVIDENT FINANCIAL HOLDINGS, INC.
REPORTS SECOND QUARTER EARNINGS

Net Interest Margin Expands (Sequential Quarter)

Operating Expenses Decline

Gain on Sale of Real Estate Contributes Approximately \$0.53 Per Share

Riverside, Calif. - January 23, 2006 - Provident Financial Holdings, Inc. ("Company"), Nasdaq: PROV, the holding company for Provident Savings Bank, F.S.B. ("Bank"), today announced earnings for the second quarter of its fiscal year ending June 30, 2006.

For the quarter ended December 31, 2005, the Company reported net income of \$8.38 million, or \$1.23 per diluted share (on 6.84 million weighted-average shares outstanding), compared to net income of \$5.03 million, or \$0.71 per diluted share (on 7.11 million weighted-average shares outstanding), in the comparable period a year ago. The sale of a commercial office building in the second quarter of fiscal 2006 resulted in a gain on sale of real estate of \$6.28 million (approximately \$3.64 million, net of statutory taxes) which contributed approximately \$0.53 to the diluted earnings per share for the quarter.

"I am pleased to report the successful sale of the commercial office building that we have owned since 1999," said Craig G. Blunden, Chairman, President and Chief

Page 1 of 14

<PAGE>

Executive Officer of the Company. "The positive cash-flow and capital generated from the sale will be used to support the continued growth of our community banking business in the Inland Empire of Southern California. Our recent announcement describing a new retail/business banking office in the La Sierra area of Riverside, California underscores the investment that we will be making for our continued growth."

Return on average assets for the second quarter of fiscal 2006 was 2.13 percent, compared to 1.37 percent for the same period of fiscal 2005. Return on average stockholders' equity for the second quarter of fiscal 2006 was 26.12 percent, compared to 17.60 percent for the comparable period of fiscal 2005.

On a sequential quarter basis, net income for the second quarter of fiscal 2006 increased by \$3.45 million to \$8.38 million, or 70 percent, from \$4.93 million in the first quarter of fiscal 2006; and diluted earnings per share increased \$0.52 to \$1.23, or 73 percent, from 71 cents in the first quarter of fiscal 2006 results. Return on average assets increased 91 basis points to 2.13 percent for the second quarter of fiscal 2006 from 1.22 percent in the first quarter of fiscal 2006 and return on average equity increased to 26.12 percent for the second quarter of fiscal 2006 from 15.80 percent in the first quarter of fiscal 2006.

For the six months ended December 31, 2005, net income was \$13.32 million, an increase of 43 percent from net income of \$9.29 million for the comparable period ended December 31, 2004; and diluted earnings per share for the six months ended December 31, 2005 increased \$0.62, or 47 percent, to \$1.93 from \$1.31 for the comparable period last year. Return on average assets for the six months ended December 31, 2005 increased 36 basis points to 1.67 percent from 1.31 percent for the six-month period a

Page 2 of 14

<PAGE>

year earlier. Return on average stockholders' equity for the six months ended December 31, 2005 was 21.01 percent, compared to 16.50 percent for the six-month period a year earlier.

Net interest income before provision for loan losses increased \$591,000, or six percent, to \$10.97 million in the second quarter of fiscal 2006 from \$10.38 million for the same period in fiscal 2005. Non-interest income increased \$4.91 million, or 76 percent, to \$11.41 million in the second quarter of fiscal 2006 from \$6.50 million in the comparable period of fiscal 2005. Non-interest expense decreased \$270,000, or three percent, to \$7.77 million in the second quarter of fiscal 2006 from \$8.04 million in the comparable period in fiscal 2005.

The average balance of loans outstanding increased by \$160.9 million to \$1.28 billion in the second quarter of fiscal 2006 from \$1.12 billion in the same quarter of fiscal 2005, and the average yield increased by 30 basis points to 5.95 percent in the second quarter of fiscal 2006 from an average yield of 5.65 percent in the same quarter of fiscal 2005. The increase in the average loan yield was primarily attributable to new loans and the repricing of existing adjustable rate loans in the loans held for investment portfolio. Total portfolio loan originations (including loans purchased for investment) in the second quarter of fiscal 2006 were \$150.4 million, which consisted primarily of single-family, multi-family, commercial real estate and construction loans. This compares to total portfolio loan originations (including loans purchased for investment) of \$216.1 million in the second quarter of fiscal 2005. The outstanding balance of "preferred loans" (multi-family, commercial real estate, construction and commercial business loans) increased by \$42.2 million, or 15 percent, to \$325.4 million at December 31, 2005 from \$283.2 million

Page 3 of 14

<PAGE>

at December 31, 2004. The ratio of preferred loans to total portfolio loans increased to 28 percent at December 31, 2005 as compared to 27 percent at December 31, 2004. Loan prepayments in the second quarter of fiscal 2006 were \$124.4 million, compared to \$125.9 million in the same quarter of fiscal 2005.

Average deposits increased by \$43.2 million to \$955.4 million and the average cost of deposits increased by 55 basis points to 2.27 percent in the second quarter of fiscal 2006, compared to an average balance of \$912.2 million and an average cost of 1.72 percent in the same quarter last year. Transaction account balances (core deposits) decreased by \$84.7 million, or 16 percent, to \$445.4 million at December 31, 2005 from \$530.1 million at December 31, 2004. The decrease is attributable to a decline in money market and savings accounts, partly offset by an increase in checking accounts. Time deposits increased by \$118.4 million, or 31 percent, to \$499.7 million at December 31, 2005 as compared to \$381.3 million at December 31, 2004. The increase is primarily attributable to the Company's successful time deposit marketing campaign and depositors switching from money market accounts to time deposits.

The average balance of borrowings, which primarily consists of FHLB advances, increased by \$41.5 million to \$455.4 million, and the average cost of advances increased 43 basis points to 4.19 percent in the second quarter of fiscal 2006, compared to an average balance of \$413.9 million and an average cost of 3.76 percent in the same quarter of fiscal 2005. The increase in the average cost of borrowings was primarily the result of higher interest rates on short-term advances.

The net interest margin during the second quarter of fiscal 2006 decreased 6 basis points to 2.87 percent from 2.93 percent during the same quarter last year. On a

Page 4 of 14

<PAGE>

sequential quarter basis, the net interest margin in the second quarter of fiscal 2006 increased seven basis points from 2.80 percent in the first quarter of fiscal 2006.

During the second quarter of fiscal 2006, the Company recorded a recovery provision of \$27,000, compared to a loan loss provision of \$260,000 during the same period of fiscal 2005. The recovery provision for loan losses was primarily attributable to a smaller balance of classified loans, partly offset by an increased balance in loans held for investment. The allowance for loan losses is considered sufficient to absorb potential losses inherent in loans held for investment.

The increase in non-interest income in the second quarter of fiscal 2006 compared to the same period of fiscal 2005 was primarily the net result of the gain on sale of real estate in the second quarter of fiscal 2006 and a decrease in the gain on sale of loans. The gain on sale of loans decreased \$1.73 million, or 34 percent, to \$3.36 million for the quarter ended December 31, 2005 from \$5.09 million in the comparable quarter last year. The average loan sale margin for mortgage banking was 110 basis points for the quarter ended December 31, 2005, down 41 basis points from 151 basis points in the comparable quarter last year, and the volume of loans originated for sale decreased to \$302.4 million. On a sequential quarter basis, the average loan sale margin for mortgage banking in the second quarter of fiscal 2006 decreased by 13 basis points to 110 basis points from 123 basis points in the prior quarter and was primarily the result of a more competitive mortgage banking environment during the quarter. The volume of loans originated for sale declined to \$302.4 million in the second quarter of fiscal 2006 from \$310.9 million during the same period last year. Total loan originations (including purchased loans) were \$452.8 million in the second quarter of fiscal 2006, a decrease of \$74.2 million from

Page 5 of 14

<PAGE>

\$527.0 million in the same quarter of fiscal 2005. The decline in loan originations was primarily attributable to lower loan demand, increases in interest rates and a more competitive environment.

In the second quarter of fiscal 2006, the fair-value adjustment of derivative financial instruments pursuant to Statement of Financial Accounting Standards ("SFAS") No. 133 on the consolidated statement of operations was a favorable \$63,000, compared to a favorable adjustment of \$132,000 in the same period last year. The fair-value adjustment for SFAS No. 133 is derived from changes in the market value of commitments to extend credit on loans to be held for sale, forward loan sale agreements and option contracts. The SFAS No. 133 adjustment is relatively volatile and results in timing differences in the recognition of income, which may have an adverse impact on future earnings.

Non-interest expense for the second quarter of fiscal 2006 decreased \$270,000, or three percent, to \$7.77 million from \$8.04 million in the same quarter in fiscal 2005. The decrease in non-interest expense was primarily the result of a decrease in variable compensation expense related to lower loan production volume in both business segments (community banking and mortgage banking). The Company recorded \$90,000 of stock option compensation expense in the second quarter of fiscal 2006 as a result of SFAS No. 123R (Share Based Payment) which was adopted on July 1, 2005. The Company's efficiency ratio improved to 35 percent in the second quarter of fiscal 2006 from 48 percent in the second quarter of fiscal 2005. For the six months ended December 31, 2005 the efficiency ratio improved to 41 percent from 48 percent during the same period in fiscal 2005.

Page 6 of 14

<PAGE>

Non-performing assets decreased to \$849,000, or 0.05 percent of total assets, at December 31, 2005, compared to \$1.1 million, or 0.08 percent of total assets, at December 31, 2004. The allowance for loan losses was \$9.3 million at December 31, 2005, or 0.79 percent of gross loans held for investment, compared to \$8.5 million, or 0.81 percent of gross loans held for investment at December 31, 2004.

The effective income tax rate for the second quarter of fiscal 2006 was 42.7 percent as compared to 41.3 percent for the same quarter last year. The Company believes that the effective income tax rate applied in the second quarter of fiscal 2006 reflects its current income tax obligations.

The Company repurchased 169,015 shares of its common stock during the quarter ended December 31, 2005 at an average cost of \$27.25 per share. As of December 31, 2005, the Company has repurchased 57 percent of the shares authorized by the June 2005 Stock Repurchase Program, leaving 150,825 shares available for future repurchase activity.

The Bank currently operates 12 retail/business banking offices in Riverside County and San Bernardino County (Inland Empire) along with 14 Provident Bank Mortgage loan production offices located throughout Southern California. During the quarter, the Company announced plans for its 13th retail/business banking office, which will be located in the La Sierra area of Riverside, California and is scheduled to open in the summer of 2006.

The Company will host a conference call for institutional investors and bank analysts on Tuesday, January 24, 2006 at 9:00 a.m. (Pacific Time) to discuss its financial results. The conference call can be accessed by dialing (800) 288-8975 and requesting

Safe-Harbor Statement

Certain matters in this News Release and the conference call noted above may constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements may relate to, among others, expectations of the business environment in which the Company operates, projections of future performance, perceived opportunities in the market, potential future credit experience, and statements regarding the Company's mission and vision. These forward-looking statements are based upon current management expectations, and may, therefore, involve risks and uncertainties. The Company's actual results, performance, or achievements may differ materially from those suggested, expressed, or implied by forward-looking statements as a result of a wide range of factors including, but not limited to, the general business environment, interest rates, the California real estate market, competitive conditions between banks and non-bank financial services providers, regulatory changes, and other risks detailed in the Company's reports filed with the Securities and Exchange Commission, including its Annual Report on Form 10-K for the fiscal year ended June 30, 2005, as amended.
