**NEWS RELEASE**

August 23, 2006

**FOR IMMEDIATE RELEASE**

**EATON VANCE CORP.  
REPORT FOR THE THREE MONTHS AND NINE MONTHS ENDED  
JULY 31, 2006**

**Boston, MA, August 23, 2006--**Eaton Vance Corp. reported diluted earnings per share of \$0.31 in the third quarter of fiscal 2006 compared to diluted earnings per share of \$0.26 in the third quarter of fiscal 2005, an increase of 19 percent. The Company earned \$0.88 per diluted share in the first nine months of fiscal 2006, an increase of 22 percent compared to earnings of \$0.72 per diluted share in the first nine months of fiscal 2005.

Assets under management of \$120.4 billion at the end of the third quarter of fiscal 2006 were \$14.4 billion or 14 percent greater than the \$106.0 billion at the end of the third fiscal quarter last year. In the 12-month period ended July 31, 2006, the Company's assets under management were positively affected by long-term fund and separate account net inflows of \$9.1 billion, market price appreciation of \$3.0 billion, acquired high-net-worth assets of \$0.5 billion and a \$1.9 billion increase in money market fund assets. Gross sales and inflows of long-term funds and separate accounts in the last 12 months were \$27.3 billion.

Fund and separate account net inflows of \$2.6 billion in the third quarter of fiscal 2006 compared to net inflows of \$2.4 billion in the third quarter of fiscal 2005. Strong open-end mutual fund net sales in the third quarter more than offset lower closed-end fund sales compared to the same period last year. Private fund net inflows increased to \$1.5 billion from \$0.3 billion in part due to a new \$0.7 billion collateralized debt obligations vehicle.

The Company experienced institutional and high-net-worth separate account net outflows of \$0.5 billion in the third quarter of fiscal 2006 compared to net inflows of \$0.2 billion in the third quarter of fiscal 2005, primarily because of a bank loan separate account withdrawal. Retail managed account net inflows were \$36 million in the third quarter of fiscal 2006 compared to \$0.4 billion in the same period last year. Without the loss of a relatively low-fee overlay arrangement at Parametric Portfolio Associates, retail managed account net inflows would have been higher than in the year-ago quarter. Attached tables 1-4 provide more details on assets under management and asset flows.

As a result of higher average assets under management, revenue in the third quarter of fiscal 2006 increased by \$25.5 million or 13 percent to \$216.3 million compared to revenue in the third quarter of fiscal 2005 of \$190.8 million. Investment adviser and administration fees increased 17 percent to \$149.8 million, generated by a 16 percent increase in average assets under management. Distribution and underwriter fees decreased 3 percent, reflecting the continuing shift in sales and assets from class B mutual fund shares to other fund share classes and other managed assets with low or no distribution fees. Service fee revenue increased 17 percent due to the increase in average fund assets that pay these fees.

Operating expenses increased 14 percent in the third quarter of fiscal 2006 to \$148.4 million compared to operating expenses of \$129.9 million in the third quarter of fiscal 2005 because of higher compensation, service fee, distribution and other expenses. Compensation expense increased 20 percent, due primarily to a 15 percent increase in employee headcount, higher marketing incentive compensation from increased mutual fund sales, and increased operating income-based management bonus accruals.

Amortization of deferred sales commissions declined 23 percent in the third quarter of fiscal 2006 compared to the third quarter of fiscal 2005 primarily because of the continuing decline in class B fund share sales and assets. Service fee expense increased 9 percent. Distribution expense increased 19 percent as a result of increases in sales support, class A fund share commissions, class C fund share distribution expenses and closed-end fund fees. Other expenses increased 35 percent primarily because of higher fund-related expenses assumed by the Company and higher information technology, facilities, communications, and travel expenses.

Operating income increased 12 percent to \$67.9 million and net income increased 17 percent to \$41.8 million in the third quarter of fiscal 2006, compared to \$60.8 million and \$35.8 million, respectively, in the third quarter of fiscal 2005. Interest income increased 113 percent, primarily because of higher interest and dividends earned on cash and short-term investments. The effective tax rate, before minority interest and equity in net income of affiliates, was 39.2 percent in the third quarter of fiscal 2006 and 41.3 percent in the third quarter of fiscal 2005.

Cash, cash equivalents and short-term investments were \$295.7 million on July 31, 2006, and \$252.3 million on July 31, 2005. The Company's strong operating cash flow in the last 12 months enabled it to repurchase 5.3 million shares of its non-voting common stock for \$141.0 million and to pay \$49.1 million in dividends to shareholders. There are currently no outstanding borrowings against the Company's \$180 million credit facility.

During the first nine months of fiscal 2006, the Company repurchased and retired 4.2 million shares of its non-voting common stock at an average price of \$27.04 per share under its current and prior repurchase authorizations. Approximately 7.9 million shares remain of the current 8.0 million share authorization.

On August 17, 2006 a subsidiary of the Company completed its redemption of \$76.4 million of its zero-coupon exchangeable notes for cash. Note holders were entitled to exchange each note for 28.73 shares of Eaton Vance Corp. non-voting common stock. The premium value of the shares in excess of the accreted value of the notes was \$9.8 million, which was paid to note holders in cash and will be charged to interest expense in the Company's fiscal fourth quarter income statement. The additional interest expense and write-off of related debt issuance costs will reduce fourth quarter diluted earnings per share by approximately \$0.05. Redemption of the notes eliminates all of Eaton Vance Corp.'s outstanding long-term debt and will reduce its diluted shares outstanding by 3.2 million shares or approximately 2.3 percent.

Eaton Vance Corp., a Boston-based investment management firm, is traded on the New York Stock Exchange under the symbol EV.

This news release contains statements that are not historical facts, referred to as forward-looking statements. The Company's actual future results may differ significantly from those stated in any forward-looking statements, depending on factors such as changes in securities or financial markets or general economic conditions, the volume of sales and repurchases of fund shares, the continuation of investment advisory, administration, distribution and service contracts, and other risks discussed from time to time in the Company's filings with the Securities and Exchange Commission.
