year.

NOTE B. GOODWILL

In June 2001 The Financial Accounting Standards Board issued Financial Accounting Standards No. 141, "Business Combinations" and No. 142, "Goodwill and Other Intangible Assets." These Statements establish accounting and reporting standards for business combinations and goodwill and other intangible assets, respectively. The Company has adopted these statements as of April 1, 2001. As allowed under FASB No. 141, the Company has elected to reclassify to goodwill certain recognized intangible assets that do not meet the criteria for recognition apart from goodwill. The company has also adopted FASB No. 142, which no longer allows for amortization of goodwill. Goodwill will be tested for impairment at the time of adoption and on an annual basis. In accordance with FASB No. 142, the Company will complete its goodwill impairment test within the first six months of the fiscal year.

The changes in the carrying amount of goodwill as of June 30, 2001, are as follows:

	Automata Instruments	Other Acquisitions	Total

RESULTS OF OPERATIONS

REVENUE

Net sales for the three months ended June 30, 2001 decreased \$201,343 or 9% to \$2,059,654 from the \$2,260,997 net sales level achieved for the same three month period last year. Three quarters of the decrease was attributable to a decline in medical product sales. The remainder of the decrease was attributable to a decline in Datatrace sales during the quarter. Nusonics products for the

Edgar Filing: MESA LABORATORIES INC /CO - Form 10QSB

quarter registered a small increase. The decrease in Datatrace sales was less than seven percent compared to the same quarter last year. Most of the sales decline for medical product was attributable to decreased dialyzer reprocessor sales. In the first quarter last year, one customer accounted for approximately \$200,000 of dialyzer reprocessor sales. In the first quarter of this fiscal year, the same customer placed an order that exceeds \$700,000 of dialyzer reproprocessors, but due to the size of the order, shipment will not occur until the second quarter reversing the initial shortfall in dialyzer reprocessor shipments in the first quarter.

COST OF GOODS SOLD

Cost of goods sold for the first three months as a percent of net sales was 39% which represents a 3% increase from the 36% level for the same three month period last year. Most of the increase realized in the quarter was attributable to changing mix of products due to the addition of the new Automata product line and decreased sales of Datatrace products.

SELLING, GENERAL AND ADMINISTRATIVE

Selling, general and administrative expenses for the first three months decreased 15% or \$102,149 to \$563,402 from \$665,551 in the same period last year. Marketing expenses accounted for an overall 5% decrease with Medical marketing expenses gaining over 38% from the prior year while Nusonics and Datatrace marketing expenses both decreased. The increase in marketing expenses for medical products was due chiefly to increased compensation and staffing level compared to last year. Datatrace costs decreased compared to last year due to lower outside commission costs. Nusonics marketing costs declined for the quarter due chiefly to lower compensation costs. Administration costs for the quarter decreased 34% due to decreased amortization and compensation expense.

RESEARCH AND DEVELOPMENT

Research and development for the first three months increased to \$98,814 from \$60,671 which represents a 63% increase from the same period last year. Research and development costs increased due to higher compensation costs as personnel resources were shifted from Nusonics marketing to research, higher consulting costs for two on-going software upgrade projects and higher material costs for prototype development of the next generation of Datatrace logging instruments.

NET INCOME

Net income for the three months ended June 30, 2001 decreased 10% to \$453,591 or \$.13 per share from \$502,610 or \$.13 per share last year. The decrease in net income compared to last year was due chiefly to a decline in sales, but was partially off-set by a decrease in goodwill amortization due to the application of newly adopted accounting standards. On an earnings per share basis, earnings remained unchanged due to the Company's on-going program of repurchasing common shares.
