Edgar Filing: MESA LABORATORIES INC /CO - Form 10QSB

MESA LABORATORIES, INC.
 NOTES TO FINANCIAL STATEMENTS
 SEPTEMBER 30, 2003 AND 2002

NOTE A. SUMMARY OF ACCOUNTING POLICIES

The summary of the Issuer's significant accounting policies are incorporated by reference to the Company's annual report on Form 10KSB, at March 31, 2003.

The accompanying unaudited condensed financial statements reflect all adjustments, which, in the opinion of management, are necessary for a fair presentation of the results of operations, financial position and cash flows. The results of the interim period are not necessarily indicative of the results for the full year.

NOTE B. STOCK BASED COMPENSATION

The Company has stock based compensation plans, which are described more fully in Note 7 of the Company's annual report on Form 10KSB, at March 31, 2003. The Company has adopted the disclosure-only provisions of Statement of Financial Accounting Standards No. 123, "Accounting for Stock-Based Compensation." Accordingly, no compensation cost has been recognized for the stock option plans. Had compensation cost for the Company's stock option plans been determined based on the fair value at the grant date for awards in fiscal 2004 and 2003 consistent with the provisions of SFAS No. 123, the Company's net earnings and earnings per share for the fiscal second quarter and year-to-date would have been reduced to the pro forma amount indicated below:

	Three Months Ended September 30,		Six Months Ended September 30,	
	2003	2002	2003	2002
Net income - as reported	\$ 528,418	\$ 661,088	\$1,051,545	\$1,080,807
Net income - pro forma	\$ 528,418	\$ 661,088	\$ 989,552	\$1,072,214
Income per diluted share - as reported	\$.17	\$.20	\$.33	\$.32
Income per diluted share - pro forma	\$.17	\$.20	\$.31	\$.32

The fair value of each option grant is estimated on the date of grant using the Black-Scholes option-pricing model with the following weighted-average assumptions used for grants: dividend yield of 0%; expected volatility of approximately 14% (2004) and 20% (2003); discount rate of 3.0% (2004) and (2003); and expected lives of 5 years.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

LIQUIDITY AND CAPITAL RESOURCES

On September 30, 2003, the Company had cash and short-term investments of \$6,019,929. In addition, the Company had other current assets totaling \$4,084,444 and total current assets of \$10,104,373. Current liabilities of Mesa Laboratories, Inc. were \$497,873, which resulted in a current ratio of 20.3:1.

The Company has made net capital asset purchases of \$16,097 for the fiscal year-to-date.

Edgar Filing: MESA LABORATORIES INC /CO - Form 10QSB

The Company has instituted a program to repurchase up to 300,000 shares of its outstanding common stock. Under the plan, the shares may be purchased from time to time in the open market at prevailing prices or in negotiated transactions off the market. Shares purchased will be canceled and repurchases will be made with existing cash reserves.

RESULTS OF OPERATIONS

REVENUE

Net sales for the six months ended September 30, 2003 increased \$44,703 or 1% to \$4,529,027 from the \$4,484,324 net sales level achieved for the same six-month period last year. Net sales for the quarter decreased \$155,583 or 6% to \$2,276,286 from the \$2,431,869 net sales level achieved in the same quarter last year. Over the first six months of the fiscal year, revenues are up a small amount compared to prior year. Datatrace sales for the six month period produced a five percent gain while medical instruments decreased by approximately seven percent. Nusonics products have increased over thirty percent for the same period, but this gain is on a much smaller base of sales. Net sales for the quarter were down a small amount from the prior year quarter, but was up slightly from last quarter. For the quarter, medical products decreased approximately five percent and Nusonics products almost doubled. Datatrace products decreased 17 percent from the prior year quarter, which was helped by initial shipments of the Micropack III product, which included shipments of backlogged product from the first quarter of that year.

COST OF GOODS SOLD

Cost of goods sold for the first six months as a percent of net sales was 38%, which is unchanged from the same six-month period last year. Cost of goods sold for the current quarter as a percent of net sales was 40%, representing a 4% increase compared to the 36% level in the same quarter last year. While the mix of products during the first six months of the fiscal year was fairly stable compared to prior year leading to no change in the cost of goods sold as a percent of sales, the quarter saw an increase in cost of goods sold due to the lower Datatrace product sales described above.

SELLING, GENERAL AND ADMINISTRATIVE

Selling, general and administrative expenses for the first six months decreased 1% or \$11,131 to \$1,063,940 from \$1,075,071 in the same period last year. For the current quarter, selling, general and administrative expenses totaled \$479,127, which was down 3% or \$14,328 from \$493,455 expended in the same quarter last year. Marketing expenses increased nine percent and five percent for the quarter and six month periods, respectively with Medical marketing expenses declining two percent and five percent from the prior year while Datatrace marketing expenses increased 14 percent for the quarter and 13 percent for the six-month period. The increase in marketing expenses for Datatrace products was due chiefly to higher compensation and commissions to outside sale representatives. Individual marketing costs for medical products trended down for the quarter and six month periods and were relatively unchanged within the major expense categories. Administration costs decreased 17 percent and nine percent for the quarter and six month periods due to the elimination of consulting expenses during the first six months of the current fiscal year.

RESEARCH AND DEVELOPMENT

Research and development for the first six months increased to \$150,464 from \$128,930, which represents a 17% increase from the same period last year. Research and development for the quarter was \$82,878, which represents an increase of \$3,398 or 4% from the \$79,480 level expensed in the same quarter

Edgar Filing: MESA LABORATORIES INC /CO - Form 10QSB

last year. Research and development costs increased for the quarter and six month periods due to higher compensation and consulting costs. This trend is expected to continue throughout the fiscal year. Development of three new versions of the Micropack III Logger that will measure other parameters besides temperature is proceeding well and is expected to see introduction later in the fiscal year. Development projects for the company's line of Dialysate Meters for kidney dialysis have begun, and we estimate that we will begin to introduce our next generation medical instruments in the next fiscal year.

NET INCOME

Net income for the six months ended September 30, 2003 decreased 3% to \$1,051,545 or \$.33 per diluted share from \$1,080,807 or \$.32 per diluted share last year. Net income for the quarter was \$528,418 or \$.17 per diluted share compared to net income of \$661,088 or \$.20 per diluted share last year. For the quarter, the decrease in net income compared to last year was due chiefly to a decreased in the sales of logging products, and the resulting change in mix. For the year-to-date, income was down slightly due to higher research and development spending and a small increase in income tax rate compared to prior year.

PART II-OTHER INFORMATION

ITEM 4. Controls and Procedures

a. Evaluation of Disclosure Controls and Procedures. The Company's Chief Executive Officer and Chief Financial Officer, have evaluated the effectiveness of the Company's disclosure controls and procedures (as such term is defined in Rules 13a-14(c) and 15d-14(c) under the Securities Exchange Act of 1934, as amended (the Exchange Act)) as of a date within 90 days prior to the filing date of this quarterly report (the Evaluation Date). Based on such evaluation, such officers have concluded that, as of the Evaluation Date, the Company's disclosure controls and procedures are effective in alerting them, on a timely basis, to material information relating to the Company (including its consolidated subsidiaries) required to be included in the Company's periodic filings under the Exchange Act.

b. Changes in Internal Controls. Since the Evaluation Date, there have not been any significant changes in the Company's internal controls or in other factors that could significantly affect such controls.

ITEM 6. Exhibits and reports on Form 8-K

a) Exhibits:

- 31.1 Certification of Chief Executive Officer Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002
- 31.2 Certification of Chief Financial Officer Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002
- 32.1 Certification of Chief Executive Officer Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002
- 32.2 Certification of Chief Financial Officer Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002

b) Reports on Form 8-K:

On October 31, 2003, we furnished a report on Form 8-K under Item

Edgar Filing: MESA LABORATORIES INC /CO - Form 10QSB

9, Regulation FD Disclosure, to announce that we issued a press release on October 30, 2003 announcing preliminary results for the second quarter period ended September 30, 2003, and filed under Item 7, Financial Statements and Exhibits, a copy of the press release dated October 30, 2003.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the Issuer has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.
