M.B.A. HOLDINGS, INC. AND SUBSIDIARY

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)
NINE MONTHS ENDED JULY 31, 2003 AND 2002

1. BASIS OF PRESENTATION

In accordance with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X, the accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information. Accordingly, not all of the information and notes required by generally accepted accounting principles for complete financial statements are included. The unaudited interim financial statements furnished herein reflect all adjustments (which include only normal, recurring adjustments), in the opinion of management, necessary for a fair statement of the results for the interim periods presented. Operating results for the nine months ended July 31, 2003 may not be indicative of the results that may be expected for the year ending October 31, 2003. For further information, please refer to the consolidated financial statements and notes thereto included in the Company's Form 10-K for the year ended October 31, 2002.

2. NET LOSS PER SHARE

Net loss per share is calculated in accordance with SFAS No. 128, Earnings Per Share that requires dual presentation of basic and diluted EPS on the face of the statements of loss and requires a reconciliation of the numerator and denominator of basic and diluted EPS calculations. Basic loss per common share is computed on the weighted average number of shares of common stock outstanding during each period. Loss per common share assuming dilution is computed on the weighted average number of shares of common stock outstanding during each period. As the company has a net loss for the nine months ended July 31, 2003 and 2002, the average number of outstanding shares for basic and dilutive net loss per share is 1,980,187.

3. OTHER COMPREHENSIVE GAIN (LOSS)

Other comprehensive gain (loss) resulted from unrealized gains of \$408 in the three months ended July 31, 2003 and unrealized losses of \$6,656 in the three months ended July 31, 2002 on available-for-sale investments. The nine months included \$1,284 of unrealized gains in the period ended July 31, 2003 and \$6,085 of unrealized losses in the period ended July 31, 2002 on available-for-sale investments.

4. INVESTMENTS

All of the Company's investments are classified as available-for-sale and are stated at estimated fair value determined by the quoted market price.

Edgar Filing: M B A HOLDINGS INC - Form 10-Q

5. INCOME TAXES

Provision for income taxes and related income tax receivable in the periods ended July 31, 2003 and 2002 reflect the Company's intent to carry back the current year losses to recover federal income taxes paid in previous years to the extent that such prior period tax payments are available for loss carry back. Similar provisions for recoverable state income taxes were not provided, as Arizona law does not allow for loss carry back. The Company has received tax refunds totaling \$431,186 during fiscal 2003 from the carry back of these losses.

Deferred income taxes are recorded based on differences between the financial statement and tax basis of assets and liabilities based on income tax rates currently in effect. The Company has provided a Valuation Allowance of \$34,200 for the value of deferred tax assets that may not be realized.

6. RELATED PARTY TRANSACTIONS

The Company leases its office space from Cactus Partnership. The managing partner of Cactus Partnership is Gaylen Brotherson, the Chief Executive Officer. Rent expense for this office space was \$81,640 and \$63,432 for the three

6

months ended July 31, 2003 and 2002 and \$234,083 and \$188,193 for the nine months ended July 31, 2003 and 2002, respectively. The current lease expires on December 31, 2003.

In February 2002, Gaylen Brotherson, the Chief Executive Officer, loaned the Company \$73,398 and in October 2002 loaned an additional \$30,000. During February 2003, the Company repaid \$22,067 of those loans. The loans mature on the anniversary date of the separate notes and the bear interest at a rate of 6%.

7. TREASURY STOCK

As of July 31, 2003 and 2002, the Company holds 31,600 shares of its common stock in the Treasury. These shares were purchased for the purpose of retirement and bonuses to employees. Management is exploring additional uses of the stock.

8. COMMITMENTS AND CONTINGENCIES

The Company is subject to claims and lawsuits that arise in the ordinary course of business, consisting principally of alleged errors and omissions in connection with the sale of insurance and personnel matters and of disputes over outstanding accounts. The Company is currently involved in a dispute with one of its associated insurance companies over alleged wrongdoing, an alleged breach of its Administrative Agreement and over reimbursement for claims and cancellation expenditures. The Company maintains a \$40,000 reserve for claims arising in the ordinary course of business and believes that this reserve is sufficient to cover the costs of such claims. On the basis of information presently available, management does not believe the settlement of any such claims or lawsuits will have a material adverse effect on the financial position, results of operations or cash flows of the Company.

The Company has available a \$200,000 working capital line of credit which was renewed on April 30, 2003 and expires on August 31, 2003. Borrowings under the line of credit bear interest at a variable rate per annum equal to the sum of 3.15 % plus the thirty day dealer commercial paper rate, as published in The Wall Street Journal and are secured by the Company's investments. There was

Edgar Filing: M B A HOLDINGS INC - Form 10-Q

borrowings of \$172,925 outstanding at July 31, 2003.

9. NEW ACCOUNTING PRONOUNCEMENTS

In December 2002, the FASB issued Statement of Financial Accounting Standards No. 148, "Accounting for Stock-Based Compensation - Transition and Disclosure" (SFAS 148). SFAS 148 amends the transition provisions of FASB No. 123, "Accounting for Stock-Based Compensation" ("SFAS 123"), for entities that voluntarily change to the fair value method of accounting for stock-based compensation. SFAS 148 also amends the disclosure provisions of SFAS 123 to require prominent disclosure about the effects on reported net income of an entity's accounting policy decision with respect to stock-based employee compensation and amends APB Opinion No. 28, "Interim Financial Reporting" ("APB 28") to require disclosure about such effects in interim financial information. The amendments to APB 28 for interim disclosure of pro forma results are effective for interim periods beginning after December 15, 2002, which for the Company is the three months ended April 30, 2003. The adoption had no significant impact on the Company's financial position or results of operations.

In January 2003, the FASB issued Interpretation No. 46, "Consolidation of Variable Interest Entities" (FIN 46) which requires the consolidation of variable interest entities, as defined. FIN 46 is applicable to financial statements to be issued by the Company after 2002; however, disclosures are required currently if the Company expects to consolidate any variable interest entities. The Company does not currently believe that any material entities will be consolidated with the Company as a result of FIN 46.

10. RECLASSIFICATIONS

Certain prior period amounts have been reclassified to conform to the current period presentation.

ITEM 2 MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with the financial statements and footnotes that appear elsewhere in this report.

FORWARD-LOOKING STATEMENTS:

This report on Form 10-Q contains forward-looking statements. Additional written or oral forward-looking statements may be made by us from time to time in filings with the Securities and Exchange Commission or otherwise. The words "believe," "expect," "anticipate," and "project," and similar expressions identify forward-looking statements, which speak only as of the date the statement was made. Such forward-looking statements are within the meaning of that term in section 27A of the Securities and Exchange Act of 1934, as amended. Such statements may include, but not be limited to, projections of revenues, income or loss, capital expenditures, plans for future operations, financing needs or plans, the impact of inflation, and plans relating to our products or services, as well as assumptions relating to the foregoing. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise.

Forward-looking statements are inherently subject to risks and uncertainties, some of which cannot be predicted or quantified. Future events and actual results could differ materially from those set forth in, contemplated by, or underlying the forward-looking statements. Statements in this Report, including

Edgar Filing: M B A HOLDINGS INC - Form 10-Q

the Notes to Condensed Consolidated Financial Statements (Unaudited) and "Management's Discussion and Analysis of Financial Condition and Results of Operations," describe factors, among others, that could contribute to or cause such differences.

CRITICAL ACCOUNTING POLICIES

The Company has prepared the accompanying unaudited condensed financial statements in conformity with accounting principles generally accepted in the United States for interim financial information. The preparation of the financial statements requires the use of judgement and estimates that affect the reported amounts of revenues, expenses, assets and liabilities. The Company has adopted accounting policies and practices that are generally accepted in the industry in which it operates. The Company believes the following are its most critical accounting policies that affect significant areas and involve management's judgement and estimates. If these estimates differ significantly from actual results, the impact to the consolidated financial statements may be material.

Revenue Recognition

The Company receives a single commission for the sale of each mechanical breakdown insurance policy ("MBI") that compensates it both for the effort in selling the policy, and for providing administrative claims services as required. The Company has no direct liability for claims losses on MBI. It acts as the issuing insurance company's agent in these transactions. The Company apportions the commissions received in a manner that it believes is proportionate to the values of the services provided. The revenues relating to policy sales are recorded in income when the policy information is received and approved by the Company. The revenues related to providing administrative claims services are deferred and recognized in income on a straight-line basis over the actual life of the policy.

A vehicle service contract ("VSC") is a contract for certain defined services between the Company and the purchaser. The Company reinsures its obligations by obtaining an insurance policy that guarantees its obligations under the contract. In accordance with Financial Accounting Standards Board Technical Bulletin 90-1, "Accounting for Separately Priced Extended Warranty and Product Maintenance Contracts", revenues and costs associated with the sales of these contracts are deferred and recognized in income on a straight-line basis over the actual life of the contracts.

8

Income Taxes

Deferred income tax is recorded based upon differences between the financial statement and tax basis of assets and liabilities using income tax rates currently in effect.

Provision for recoverable income taxes and related income tax receivable in the period ended July 31, 2003 and the year ended October 31, 2002 reflect the Company's intent to carry back the current year losses to recover federal income taxes paid in previous years. Arizona law does not provide for the carry back of losses and therefore provisions for recoverable state income taxes have not been provided. The Company has received the refunds (\$431,186) relating to the carry back of losses incurred in the year ended October 31, 2002.

RESULTS OF OPERATIONS

COMPARISON OF THREE MONTHS ENDED JULY 31, 2003 AND 2002

Edgar Filing: M B A HOLDINGS INC - Form 10-Q

NET REVENUES

Net revenues for the fiscal quarter ended July 31, 2003 totaled \$1,401,000, a slight increase of \$20,000 over the comparable quarter in 2002. The variation occurred because of the effects of changes in the number of policies sold, in the amounts of revenue deferred and of increases in the prices of the products sold during the periods. The negative effect of the volume decline was substantially offset by the deferral and pricing effects.

OPERATING EXPENSES

Operating costs decreased to \$1,725,000 in the quarter ended July 31, 2003 down \$3,000 from the \$1,728,000 expended in the quarter ended July 31, 2002. The decrease is the result of a continuation of the Company's actions to curtail expenses wherever possible. The Company did experience some cost increases as it continued its investment in web-based programming and the leasing of file servers aimed at increasing Internet sales. Professional fees increased in the period as the Company continued its defense against one of its associated insurance companies.

OTHER INCOME (EXPENSE)

Total other income declined in the quarter ended July 31, 2003 by approximately \$8,000 under the comparable 2002 quarter. The 2002 quarter included the proceeds from the sale of a mailing inserter that was excess to the Company's needs. No similar event occurred in the 2003 quarter.

INCOME TAXES

The provision for income taxes in the quarter ended July 31, 2003 does not reflect benefit from the carry back the current year losses to recover federal income taxes paid in prior years as no further prior period tax payments remain available for recovery. The tax charges arise from the continued establishment of a Valuation Allowance that recognizes that the current year net operating losses may not be fully recoverable.

COMPARISON OF THE NINE MONTHS ENDED JULY 31, 2003 AND 2002

NET REVENUES

The downward trend in revenues that has been noted in prior periods continued in the nine months ended July 31, 2003 with net revenues down \$398,000 from the comparable nine months in 2002. The number of contracts and policies sold continues to decline due to competitive pressure from the vehicle manufacturers. The decline in the volume of policies sold has been offset, in part, by decreases in the amount of revenues deferred and by increases in the pricing received for the policies sold.

9

OPERATING EXPENSES

Operating costs decreased to \$5,172,000 in the nine months ended July 31, 2003 down \$398,000 from the \$5,570,000 expended in the nine months ended July 31, 2002. The decrease is the result of staff reductions and expense curtailments instituted to protect the Company during this extended sales downturn. The Company did experience some cost increases as it continued its investment in web-based programming and the leasing of file servers aimed at increasing Internet sales.

Edgar Filing: M B A HOLDINGS INC - Form 10-Q

OTHER INCOME (EXPENSE)

Other income (expense) remained essentially unchanged in the nine months ended July 31, 2003 compared to the prior year. The nine months of Fiscal 2003 included the receipt of the 2% fee that was negotiated as a part of the service termination agreement with two insurance companies in July 2002. The comparable 2002 period included the receipt of the proceeds from the sale of surplus equipment and the reimbursement of certain web development costs by an associated insurance company.

INCOME TAXES

Provision for income taxes and related income tax receivable in the periods ended July 31, 2003 and 2002 reflect the Company's intent to carry back the current year losses to recover federal income taxes paid in previous years to the extent that such prior period tax payments are available for loss carry back. Similar provisions for recoverable state income taxes were not provided, as Arizona law does not allow for loss carry back. The Company has received tax refunds totaling \$431,186 in Fiscal 2003 from the carry back of net operating losses.

LIQUIDITY AND CAPITAL RESOURCES

COMPARISON OF JULY 31, 2003 AND OCTOBER 31, 2002

Working capital at July 31, 2003 consisted of current assets of \$4,750,000 and current liabilities of \$5,849,000, or a current ratio of 0.81: 1. At October 31, 2002 the working capital ratio was 0.98: 1 with current assets of \$6,175,000 and current liabilities of \$6,325,000. The decline occurred primarily because the Company has received substantially all of the prior period income tax refunds and has less to recover in the current period.

Deferred Revenues decreased \$280,000 and Deferred Direct Costs decreased \$196,000 from balances at October 31, 2002. Deferred revenues consist of unearned VSC gross sales and estimated administrative service fees related to MBI policies. Deferred direct costs are costs that are directly related to the sale of VSCs. The change results from the overall decline in policy sales which the Company has experienced over the last several quarters. The effect of the decline was partially mitigated by increased policy prices and lower revenue deferrals.

ITEM 3 QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Since the Company does not underwrite its own policies, a change in the current rate of inflation is not expected to have a material effect on the Company. Nevertheless, the precise effect of inflation on operations cannot be determined.

Under the terms of the VSC contracts, the Company is primarily responsible for liability under these contracts. The Company reinsures its liability with highly rated insurance companies such as Fireman's Fund Insurance Company and Heritage Warranty Mutual Insurance Risk Retention Group, Inc. In the unlikely event that the third party reinsuring companies were unable to meet their contractual commitments to the Company, the Company itself would be required to perform under the contracts. Such an event could have a material adverse effect on the Company's operations.

The Company does not have any long-term receivables. However, the Company does have outstanding balances on its line of credit. A significant change in interest rates could have a material adverse effect on the Company's operating results.

ITEM 4. CONTROLS AND PROCEDURES

In the quarter and nine months ended July 31, 2003, we did not make any significant changes in, nor take any corrective actions regarding our internal controls or other factors that could significantly affect these controls. We periodically review our internal controls for effectiveness and we have performed an evaluation of disclosure controls and procedures during this quarter. We will conduct a similar evaluation each quarter.

PART II - OTHER INFORMATION

Item 1 Legal Proceedings

The Company is subject to claims and lawsuits that arise in the ordinary course of business, consisting principally of alleged errors and omissions in connection with the sale of insurance and personnel matters and of disputes over outstanding accounts. The Company is currently involved in a dispute with one of its associated insurance companies over alleged wrongdoing, an alleged breach of its Administrative Agreement and over reimbursement for claims and cancellation expenditures. The matter has been referred to binding arbitration. The arbitration is scheduled for the Fall of 2003. The Company maintains a \$40,000 reserve for claims arising in the ordinary course of business and believes that this reserve is sufficient to cover the costs of such claims. On the basis of information presently available, management does not believe the settlement of any such claims or lawsuits will have a material adverse effect on the financial position, results of operations or cash flows of the Company.
