Dear eResearchTechnology, Inc. Stockholders:

You are cordially invited to the Annual Meeting of Stockholders to be held at 3:00 P.M. on April 20, 2004 at the Company's executive offices, 30 South 17th Street, Philadelphia, PA 19103.

Details with respect to the meeting are set forth in the attached Notice of Annual Meeting and Proxy Statement.

Your vote is important. Whether or not you plan to attend the meeting, you are urged to complete, date, sign and return your proxy. If you attend the meeting and would prefer to vote in person you may still do so.

Very truly yours,

JOEL MORGANROTH, MD
Chairman of the Board of
Directors
eResearchTechnology, Inc.

eResearchTechnology, Inc.

NOTICE OF ANNUAL MEETING OF STOCKHOLDERS To Be Held April 20, 2004

To the Stockholders:

The Annual Meeting of Stockholders of eResearchTechnology, Inc. (the "Company") will be held at the Company's executive offices located at 30 South 17th Street, Philadelphia, PA 19103, at 3:00 P.M. on April 20, 2004 for the following purposes:

1. To elect three directors to serve three-year terms.
2. To approve an amendment to the Company's Restated Certificate of Incorporation to authorize an additional 125,000,000 shares of Common Stock, \$.01 par value.
3. To ratify the selection by the Audit Committee of the Board of Directors of the firm of KPMG LLP as independent accountants for 2004.
4. To transact any other business that may properly come before the meeting or any adjournment or postponement thereof.

Stockholders of record as of the close of business on March 11, 2004 are entitled to notice of and to vote at the meeting.

Whether or not you plan to attend the meeting, please complete, date and sign the enclosed proxy card and return it in the enclosed envelope. Your proxy may be revoked at any time prior to the time it is voted.

By Order of the Board of Directors,

ANNA MARIE PAGLIACCETTI

PROXY STATEMENT

These proxy materials are furnished in connection with solicitation of proxies by the Board of Directors (the "Board of Directors" or the "Board") of eResearchTechnology, Inc., a Delaware corporation ("eRT" or the "Company"), for the Annual Meeting of Stockholders of eRT to be held at 3:00 P.M. on April 20, 2004, at the Company's executive offices located at 30 South 17th Street, Philadelphia, PA 19103, and any adjournments or postponements of such meeting. These proxy materials were first mailed to stockholders on or about March 22, 2004. Sending a signed proxy will not affect the stockholder's right to attend the Annual Meeting and vote in person. Every stockholder has the power to revoke such stockholder's proxy at any time before it is voted. The proxy, before it is exercised at the meeting, may be revoked by filing with the Secretary of the Company a notice in writing revoking it, by delivering a duly executed proxy bearing a later date, or by attending the meeting and voting in person.

Stockholders Entitled to Vote

The close of business of March 11, 2004 was the record date for stockholders entitled to notice of and to vote at the Annual Meeting. As of the record date, there were 34,137,930 outstanding shares of the common stock, \$.01 par value (the "Common Stock"), of eRT.

Voting of Proxies

A form of proxy is enclosed. All properly executed proxies received by the Board of Directors, and not revoked, will be voted as indicated in accordance with the instructions thereon. In the absence of contrary instructions, shares represented by such proxies will be voted for the election of the director nominees named in this proxy statement, for the proposal to amend the Company's Restated Certificate of Incorporation to authorize an additional 125,000,000 shares of Common Stock and for ratification of KPMG LLP as independent accountants for the year ending December 31, 2004, all of which are described herein; and in the discretion of the proxy holders on such other matters as may properly come before the meeting.

The presence, in person or by proxy, of stockholders entitled to cast at least a majority of the votes that all stockholders are entitled to cast on a particular issue constitutes a quorum for the purpose of considering such matter. Each share of Common Stock outstanding as of the record date is entitled to one vote on each matter that may be brought before the Annual Meeting. Election of directors will be by plurality of the votes cast. Any other proposal will require the affirmative vote of a majority of the votes that the holders of shares present in person or by proxy are entitled to cast on such proposal, except that the proposal to amend the Company's Restated Certificate of Incorporation will require the affirmative vote of the holders of a majority of the Company's outstanding Common Stock as of the record date. Broker nonvotes and abstentions are counted for the purposes of determining the presence or absence of a quorum for the transaction of business at the meeting. Abstentions are counted in the tabulations of the votes cast on proposals presented to the stockholders, whereas broker nonvotes are not counted for purposes of determining the election of directors or whether a proposal has been

approved.

Costs of Solicitation

The entire cost of soliciting proxies will be borne by eRT. Arrangements may be made with brokerage houses and other custodians, nominees and fiduciaries to send proxies and proxy materials to the beneficial owners of stock, and reimbursement for expenses may be made. Proxies may be solicited in person or by telephone by directors, officers or regular employees of eRT, none of whom will receive additional compensation therefor.

**ELECTION OF DIRECTORS
(Proposal No. 1)**

The Board of Directors currently consists of seven directors divided into three classes. Pursuant to the Company's Bylaws, the Board of Directors has approved an increase in the number of directors from seven to eight, effective as of the date of the 2004 Annual Meeting. Three directors are to be elected at the Annual Meeting to serve until the 2007 Annual Meeting. The nominees for election as directors are Sheldon M. Bonovitz, who currently serves on the Board, and Gerald A. Faich, MD, MPH and Elam M. Hitchner, III. Arthur H. Hayes, Jr., MD, a director whose term expires at the Annual Meeting, is not standing for reelection. The Company's remaining five directors will continue in office for the terms specified below. **THE BOARD OF DIRECTORS RECOMMENDS THAT STOCKHOLDERS VOTE "FOR" THE ELECTION OF MR. BONOVIKZ, DR. FAICH AND MR. HITCHNER.**

The proxy holders intend to vote all proxies received by them in the accompanying form for such nominees unless otherwise directed. In the event any nominee is unable or declines to serve as a director at the time of the Annual Meeting, the proxies will be voted for any nominee who shall be designated by the present Board of Directors to fill the vacancy or, in lieu thereof, the Board of Directors may reduce the number of directors. As of the date of this Proxy Statement, the Company is not aware of any nominee who is unable or will decline to serve as a director.

The following table lists the name and age of the three nominees and the five directors of the Company whose terms of office will continue after the Annual Meeting, and the year in which each director's term of office will expire (assuming, in the case of each of the nominees, such nominees are elected at the Annual Meeting).

<u>Name</u>	<u>Age As of 3/1/04</u>	<u>Year of Expiration of Term as Director</u>
<i>Nominees for Election</i>		
Sheldon M. Bonovitz	66	2007
Gerald A. Faich, MD, MPH	61	2007
Elam M. Hitchner	57	2007
<i>Directors Continuing in Office</i>		
Joseph A. Esposito	51	2006
David D. Gathman	56	2006
Joel Morganroth, MD	58	2005
Stephen S. Phillips	58	2005
John M. Ryan	68	2006

Mr. Bonovitz has been nominated by the Company's current Board of Directors to serve as a member of the Board for a three-year term beginning in April 2004. Mr. Bonovitz has served on the Company's Board of Directors since 1999. Mr. Bonovitz has been a partner in the law firm of Duane Morris LLP, which provides legal services to the Company, for more than five years, where he currently serves as Chairman and Chief Executive Officer. Mr. Bonovitz is also a director of Comcast Corporation. In addition, he serves on the Advisory Boards of several privately-held companies and he serves on the Boards of Trustees of The Curtis Institute of Music and the Philadelphia Museum of Art.

Dr. Faich has been nominated by the Company's current Board of Directors to serve as a member of the Board for a three-year term beginning in April 2004. Since 1994, Dr. Faich has been the President of Pharmaceutical Safety Assessments, a consulting firm. During 1992 to 1994, Dr. Faich served as President for Corning Pharmaceutical Services, now known as Covance, Inc., and from 1990 to 1992, he served as President for the Philadelphia Association for Clinical Trials, which focused on post marketing research. From 1983 to 1990, Dr. Faich was in charge of statistics and post marketing surveillance for drugs and biologics at the Food and Drug Administration. He co-chaired the original CIOMS International Adverse Reaction Working Group and was a founding board member of the International Society of Pharmacoepidemiology. Dr. Faich is a Fellow of the American Colleges of Physicians, Preventive Medicine and Epidemiology and has authored over 90 scientific papers and received numerous awards. He is currently an Adjunct Scholar for the Center for Clinical

Epidemiology at the University of Pennsylvania and serves as a director for Sentrx Inc. and as a member of the Life Sciences Advisory Committee for the Port of Technology of the Science Center at University of Pennsylvania.

Mr. Hitchner has been nominated by the Company's current Board of Directors to serve as a member of the Board for a three-year term beginning in April 2004. Mr. Hitchner was a partner in the law firm of Pepper Hamilton LLP from May 1992 to June 1999, and returned to the firm in January 2001, where he currently is of counsel. From July 1999 until December 31, 2000, Mr. Hitchner was a general partner of Meridian Venture Partners and Meridian Venture Partners II, venture capital firms located in Radnor, Pennsylvania. Mr. Hitchner is also a director of Mothers Work, Inc., for which he has served on the Audit Committee since 1993 and as chairman of that committee since 2000.

Mr. Esposito has served as President and Chief Executive Officer of the Company since March 2001. Mr. Esposito formerly served as the President and Chief Operating Officer of the Company from April 1998 until March 2001 and has served as a member of its Board of Directors since 1999. He also served as President of the Company's Clinical Research Technology and Services division from October 1997 to April 1998. From May 1997 through October 1997, he was President of DLB Systems, Inc., which was acquired by the Company in October 1997. He has over 28 years of experience in technology, working closely with pharmaceutical companies in the areas of clinical research, supply chain management and regulatory document management. Mr. Esposito was awarded the 2002 Ellis Island Medal of Honor by Congress and the National Ethnic Coalition Organization for outstanding citizenship, individual achievement and encouragement of cultural unity.

Mr. Gathman has served as a member of the Company's Board of Directors since April 2003. Mr. Gathman currently provides consulting services for Targeted Diagnostics & Therapeutics, Inc., which develops molecular-based technologies for the detection, diagnosis and treatment of colorectal cancer, gastrointestinal cancers and certain infectious diseases. From May 2002 until December 2003, Mr. Gathman was the Vice President and Chief Financial Officer of Targeted Diagnostics & Therapeutics, Inc. From February 2001 until May 2002, Mr. Gathman served as the Senior Vice President and Chief Financial Officer of the Federal Reserve Bank of Philadelphia. Prior to that, Mr. Gathman was Chief Financial Officer of Internet Capital Group, Inc. from January 1999 until September 2000, and Executive Vice President and Chief Financial Officer and a member of the Board of Directors of Integrated Systems Consulting Group, Inc., an information services consulting firm, from March 1994 until December 1998. Mr. Gathman served as Vice President of Finance and Chief Financial Officer of SunGard Data Systems, Inc., from December 1982 until March 1994. Mr. Gathman is also a director of Neoware Systems, Inc.

Dr. Morganroth has served as the Chairman of the Company since 1999, its Chief Scientist since March 2001 and as a director of the Company since 1997. He served as Chief Executive Officer from 1993 to March 2001. In addition, Dr. Morganroth has consulted for the Company since 1977. Dr. Morganroth is a globally recognized cardiologist and clinical researcher. Dr. Morganroth served for over ten years as a Medical Review Officer/Expert for the Food and Drug Administration.

Mr. Phillips has served on the Company's Board of Directors since August 2002. Mr. Phillips currently serves as Special Counsel to Medtronic Sofamor Danek, Inc. Mr. Phillips was the Executive Vice President, General Counsel and Secretary of Sofamor Danek Group, Inc., a manufacturer of spinal implants and cranial navigation systems used in neurosurgery, before its acquisition in 1999 by Medtronic. Before joining Sofamor Danek in 1998, Mr. Phillips was a senior partner in the Philadelphia office of Pepper Hamilton LLP where he was a member of the firm's Executive Committee.

Mr. Ryan has served on the Company's Board of Directors since 1999. Since 1987, Mr. Ryan has been a principal in Devon Hill Ventures, Inc., a venture investing and consulting firm focusing on technology investments. In 1977, Mr. Ryan founded SunGard Data Systems, Inc. and served as its Chief Executive Officer until 1986 and its Chairman until 1987. Mr. Ryan served as Chairman and Acting Chief Executive Officer for DLB Systems, Inc. from 1995 until its acquisition by the Company in 1997. Mr. Ryan is also a director of Neoware Systems, Inc. and several privately-held companies.

There are no family relationships among the directors, the director nominees and the executive officers.

Board of Directors Meetings and Committees

The Board of Directors of the Company held a total of nine meetings during 2003. Each director attended more than 75% of the meetings of the Board of Directors and any committee of which he was a member. The Board has not adopted a formal policy regarding Board member attendance at its Annual Meeting of Stockholders, but the Board highly encourages all Board members to attend such meetings. In April 2003, all members of the Board were present at the Annual Meeting of Stockholders.

The Board of Directors has an Executive Committee, a Compensation Committee, an Audit Committee and a Governance and Nominating Committee.

The Executive Committee has, with certain exceptions, all the authority of the Board of Directors. The Executive Committee, which currently consists of Mr. Bonovitz, Dr. Morganroth and Mr. Ryan, did not hold any meetings during 2003. Dr. Morganroth serves as chairman of the Executive Committee.

The Compensation Committee is composed of three members of the Company's Board of Directors, all of whom, in the judgment of the Board, (i) are independent in accordance with Rule 4200(a)(15) of the listing standards of The Nasdaq Stock Market, Inc. (Nasdaq); (ii) are Non-employee Directors for purposes of Rule 16b-3 under the Securities and Exchange Act of 1934, as amended; and (iii) satisfy the requirements of an outside director for purposes of Section 162(m) of the Internal Revenue Code. The Compensation Committee is primarily responsible for determining the compensation payable to the executive officers of the Company and for recommending to the Board of Directors additions, deletions and alterations with respect to the various employee benefit plans and other fringe benefits provided by the Company, except that no member of the Compensation Committee may take part in any decision pertaining to his compensation or benefits in his capacity as a director of the Company. The Compensation Committee also is primarily responsible for administering the Company's stock option plans, awarding stock options to key employees of the Company and determining the terms and conditions on which the options are granted. The Compensation Committee has the responsibility and authority described in its written charter, which has been adopted and approved by the Board of Directors and made available, free of charge, on the Company's website at www.ert.com. The Compensation Committee, which currently consists of Mr. Gathman, Mr. Phillips and Mr. Ryan, held four meetings during 2003. Mr. Ryan serves as chairman of the Compensation Committee.

The Audit Committee is composed of three members of the Company's Board of Directors, all of whom, in the judgment of the Board, are independent in accordance with Rule 4200(a)(15) of the Nasdaq listing standards and satisfy the criteria in Rule 4350(d)(2) of the Nasdaq listing standards. The Audit Committee is primarily responsible for engaging and approving the services performed by the Company's independent accountants and reviewing and evaluating the Company's accounting principles and reporting practices and its system of internal accounting controls. The Audit Committee has the responsibility and authority described in its written charter, which has been adopted and approved by the Board of Directors, attached to this proxy statement as Annex I and made available, free of charge, on the Company's website at www.ert.com. The Audit Committee, which currently consists of Mr. Gathman, Mr. Phillips and Mr. Ryan, held ten meetings during 2003. Mr. Gathman serves as chairman of the Audit Committee. The Board has determined that Mr. Gathman is an audit committee financial expert as defined in Item 401 of Regulation S-K.

The Governance and Nominating Committee is composed of three members of the Company's Board of Directors, all of whom, in the judgment of the Board, are independent in accordance with Rule 4200(a)(15) of the Nasdaq listing standards. The Governance and Nominating Committee is primarily responsible for recommending to the Board governance policies for the Company, the appropriate size, function and needs of the Board to perform that governance, and qualified candidates for the Company's Board. The Governance and Nominating Committee has the responsibility and authority described in its written charter, which has been adopted and approved by the Board and made available, free of charge, on the Company's website at www.ert.com. The Governance and Nominating Committee, which currently consists of Mr. Gathman, Mr. Phillips and Mr. Ryan, held one meeting during 2003. Mr. Phillips serves as chairman of the Governance and Nominating Committee.

In accordance with the policy of the Governance and Nominating Committee, a stockholder desiring to propose a candidate for the Board of Directors to the Governance and Nominating Committee should submit a

written recommendation, together with biographical information concerning the individual, to the Chairman of the Nominating Committee at eResearchTechnology, Inc., 30 South 17th Street, 8th Floor, Philadelphia, PA 19103. While recommendations may be submitted for consideration at any time, the Company requests that recommendations be received prior to November 15 in any year for consideration in connection with the nomination and election of directors at the Company's next Annual Meeting of Stockholders. Once the Governance and Nominating Committee has identified a prospective nominee, including candidates proposed by stockholders, it makes an initial determination as to whether to conduct a full evaluation of the candidate. This initial determination is based on whatever information is provided to the Governance and Nominating Committee with the recommendation of the prospective candidate, as well as the Governance and Nominating Committee's own knowledge of the prospective candidate, which may be supplemented by inquiries to the person making the recommendation or others. The preliminary determination is based primarily on the need for additional Board members to fill vacancies or expand the size of the Board and the likelihood that the prospective nominee can satisfy the evaluation factors described below. If the Governance and Nominating Committee determines, in consultation with the Chairman of the Board and other Board members as appropriate, that additional consideration is warranted, it will then evaluate the prospective nominee against the standards and qualifications it has established, including:

- Must be independent in accordance with Rule 4200(a)(15) of the Nasdaq listing standards.
- Must have business experience that included leading or occupying a senior position in the operations of a significant business or occupying a senior executive or advisory position in business strategy, investing or mergers and acquisitions of a significant business. While not required, experience in health care, particularly pharmaceuticals, biotechnology, or medical devices, is preferred.
- Must have prior board experience. While public company board experience is not absolutely required, it is highly preferred.
- Must have an excellent business and personal reputation for accomplishment and integrity. Personal characteristics that include a deliberative style, being a good listener, articulate, direct and succinct, and able to accept/respect other Board members opinions are preferred.
- Must have personal and business references from people upon whose recommendations the Governance and Nominating Committee can rely.
- Must be able to commit adequate time to the Board of Directors and its committees to attend at least 75% of Board and committee meetings in person and to be a significant contributor to each. At a minimum, this means, on average, not less than one full day every month for ordinary matters, a full day for regularly scheduled quarterly meetings and occasional unscheduled hours of accessibility. Living or working within 90 minutes of Philadelphia is not absolutely required but is highly preferred.

The Governance and Nominating Committee also considers such other relevant factors as it deems appropriate, including the current composition of the Board, the balance of management and independent directors, the need for Audit Committee expertise, diversity and the evaluations of other prospective nominees. In connection with this evaluation, the Governance and Nominating Committee determines whether to interview the prospective nominee, and if warranted, one or more members of the Governance and Nominating Committee, and others as appropriate, interview prospective nominees in person or by telephone. After completing this evaluation and interview, the Governance and Nominating Committee makes a recommendation to the full Board as to the persons who should be nominated by the Board, and the Board determines the nominees after considering the recommendation and report of the Governance and Nominating Committee. The Company does not currently employ an executive search firm, or pay a fee to any other third party, to locate qualified candidates for director positions. Gerald A. Faich, MD, MPH was recommended to the Governance and Nominating Committee by an individual who is a stockholder, Chairman of the Board and Chief Scientist of the Company. Elam M. Hitchner, III was recommended to the Governance and Nominating Committee by an individual who is a stockholder and non-management director of the Company.

Stockholders who wish to communicate with the Board of Directors or with a particular director may send a letter to the Secretary of the Company at eResearchTechnology, Inc., 30 South 17th Street, 8th Floor, Philadelphia, PA 19103. Any communication should clearly specify that it is intended to be made to the entire

Board of Directors or to one or more particular director(s). Under this process, the Secretary of the Company reviews all such correspondence and will forward to the Board of Directors a summary of all such correspondence and copies of all correspondence that, in the opinion of the Secretary, deals with the functions of the Board of Directors or committees thereof or that she otherwise determines requires their attention. Directors may at any time review a log of all correspondence received by the Company that is addressed to members of the Board of Directors and request copies of any such correspondence. Concerns relating to accounting, internal controls or auditing matters are immediately brought to the attention of the chairman of the Audit Committee and handled in accordance with procedures established by the Audit Committee with respect to such matters. A copy of the Audit Committee's procedures for the submission and handling of complaints or concerns regarding accounting, internal accounting controls or auditing matters is included in the Company's Code of Ethics and Business Conduct, which is available on the Company's website at www.ert.com.

Audit Committee Report on Audited Financial Statements

The Audit Committee of the Board of Directors assists the Board with the oversight of the Company's systems of internal control, integrity of financial reporting, adequacy of disclosures and compliance with legal and regulatory requirements. The Audit Committee is directly responsible for the engagement, compensation, oversight and evaluation of the Company's independent accountants and, once retained, consults with and reviews recommendations made by the independent accountants with respect to financial statements, financial records, and financial controls of the Company.

Accordingly, the Audit Committee has (i) reviewed and discussed the audited financial statements with management; (ii) discussed with the Company's independent accountants the matters required to be discussed by Statement on Auditing Standards No. 61 (Communications with Audit Committees); (iii) received the written disclosures and the letter from the Company's independent accountants required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees); and (iv) discussed with the Company's independent accountants its independence from management and the Company, including the matters in the written disclosures required by the Independence Standards Board. The Audit Committee also discussed with the Company's independent accountants the overall scope and plans for its audit. The Audit Committee met with management and the Company's independent accountants to discuss the results of the accountants' examination, their evaluation of the Company's internal controls and the overall quality of the Company's financial reporting.

Based on the review and discussions referred to above, and subject to the limitations of its role, the Audit Committee recommended to the Board of Directors that the audited financial statements be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2003.

This report of the Audit Committee does not constitute soliciting material and should not be deemed filed or incorporated by reference into any other eRT filing under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended, except to the extent that eRT specifically incorporates this report by reference therein.

Compensation of Directors

During 2003, directors who are not employees of the Company received a fee of \$1,000 for each directors meeting attended and \$500 for each committee meeting attended, and also received an annual retainer of \$6,000. Upon the initial election of any "outside director" (as defined), such individual receives at the time of election an automatic one-time option grant of 10,000 shares of Common Stock, and each outside director receives a fixed annual option grant of 10,000 shares of Common Stock. Each director is also reimbursed for out-of-pocket expenses incurred in connection with attending meetings and other services as a director.

Certain Relationships and Related Party Transactions

Certain of the Company's diagnostic testing and clinical research contracts require that specified medical professional services be provided by Joel Morganroth, MD, the Company's Chairman and Chief Scientist. The Company has retained Joel Morganroth, MD, P.C., a professional corporation owned by Dr. Morganroth, to provide these and other services related to the successful operation, marketing and business development of the Company's Cardiac Safety division. This professional corporation received fees for these services of approximately \$394,000 for 2003, which included a bonus award of \$166,000. Effective January 1, 2004, the Company amended its consulting agreement with the professional corporation, for which the professional corporation will receive fees at the rate of \$240,000 per annum plus discretionary bonuses to be determined by the Compensation Committee of the Board of Directors. The consulting agreement continues on a year to year basis unless terminated.

Sheldon M. Bonovitz, a director of eRT, is a partner of the law firm of Duane Morris LLP, which performs legal services for the Company.

Executive Compensation

Compensation Committee Report on Executive Compensation

The Compensation Committee of the Board of Directors sets the compensation for the executive officers of the Company and makes recommendations to the Board of Directors concerning compensation and benefit policies for the Company. The Compensation Committee believes that the most effective compensation program is one that provides executives competitive base salaries and incentives to achieve both current and long-term strategic business goals of the Company.

The Company's executive compensation programs are designed to:

- Align the interests of executive officers with the long-term interests of stockholders.
- Motivate and challenge executive officers to achieve both annual and long-term strategic business goals.
- Support an environment that rewards executive officers based upon corporate and individual performance and results.
- Attract and retain executive officers critical to the long-term success of the Company.

During 2003, the Compensation Committee engaged a third party compensation consultant to review the Company's executive officer compensation policies and the material terms of the Chief Executive Officer's 2004 compensation package and employment agreement. The information provided by the consultant assured the Compensation Committee that executive compensation fell within competitive ranges. In 2003, the basic components of executive officer compensation consisted of base salary, a cash bonus plan tied to measurements based on Company performance, and long-term incentives in the form of stock options. The executive officers also participate in employee benefit plans available generally to the Company's employees.

Base Salary. Technology companies face competition for qualified employees, and the Compensation Committee believes it is important that Company executive officer compensation levels be competitive with other technology companies. The Compensation Committee reviewed the compensation of the Company's executives in comparison with other publicly traded technology companies of similar size and development stage and targeted base salary levels to be consistent with comparable positions at those companies.

Annual Incentive Compensation Program. In 2003, the Company offered an annual incentive compensation program permitting officers and all employees to earn cash bonuses based on achieving targeted financial goals. Based upon actual 2003 performance, the bonus pool for executive officers was \$1,217,594 with the executive officer participants earning bonuses ranging from 32% to 135% of base salary.

The Compensation Committee believes that this annual incentive compensation program aids in ensuring that the Company's overall levels of compensation remain competitive and benefits the Company in that a significant portion of the compensation of executive officers is in the form of variable incentive pay, which further aligns the interests of the executive officers with the interests of the Company's stockholders.

Long-Term Incentive in Form of Stock Options. The Compensation Committee believes that significant management ownership of the Company's stock effectively motivates the building of stockholder wealth and aligns the interests of management with those of the Company's stockholders. The Company's executive officers received option grants totaling 487,500 shares of Common Stock during 2003 under the terms of the Company's 1996 Stock Option Plan and 2003 Stock Option Plan at a per share exercise price equal to the market price of the Company's Common Stock on the date of grant. All options become exercisable over four years, in equal annual increments beginning one year after the date of grant, contingent upon the officer's continued employment with the Company. Of these options granted, 300,000 options were granted to the executive officers listed in the Summary Compensation Table appearing in this Proxy Statement.

Chief Executive Officer Compensation. The compensation plan for Mr. Esposito for 2003 contained the same elements and operated in the same manner as the compensation plan described above for all the executive officers. His specific performance goals for incentive compensation were based on the Company's long-term plan and on the annual operating budget approved by the Board of Directors. His actual cash bonus was calculated based on the achievement of those specific goals. In 2003, the Company achieved exceptional growth in both revenues and profitability, substantially improved its competitive position and significantly enhanced its proprietary software. The Compensation Committee believes in rewarding exceptional performance with exceptional compensation. Following the terms of Mr. Esposito's 2003 executive incentive compensation plan, the Compensation Committee approved a cash bonus of \$404,846, representing 135% of his base salary for the year. In the opinion of the Compensation Committee, the compensation paid to Mr. Esposito was consistent with the compensation of other chief executive officers in comparable companies with similar performances.

Compliance with Internal Revenue Code Section 162(m). Section 162(m) of the Internal Revenue Code disallows a tax deduction to publicly held companies for compensation paid to certain of their executive officers, to the extent that compensation exceeds \$1,000,000 per covered officer in any fiscal year. The limitation applies only to compensation that is not considered to be performance-based. Non-performance-based compensation paid to the Company's executive officers for 2003 did not exceed the \$1,000,000 limit per officer, and the Compensation Committee does not anticipate that the non-performance-based compensation to be paid the Company's executive officers in the foreseeable future will exceed that limit.

Compensation Committee Interlocks and Insider Participation

At the end of 2003, the Compensation Committee was composed of Mr. Gathman, Mr. Phillips and Mr. Ryan. None of these individuals is a current or former officer or employee of the Company or any of its subsidiaries, nor had they had any other relationship requiring disclosure by the Company under Item 402 of Regulation S-K.

Summary Compensation Table

The following table sets forth information in respect of the compensation paid for the years ended December 31, 2001, 2002 and 2003 to the persons (sometimes collectively referred to as the "Named Executive Officers") who were, at any time during 2003, the Chief Executive Officer, and at the end of 2003, the other four most highly compensated executive officers of the Company whose salary and bonus exceeded \$100,000 in such year:

(1) In accordance with the rules of the Securities and Exchange Commission, other compensation in the form of perquisites and other personal benefits has been omitted in those instances where the aggregate amount of such perquisites and other personal benefits constituted less than the lesser of \$50,000 or 10% of the total of annual salary and bonuses for the officer for such year.

(2) Option amounts are adjusted to reflect the 100% stock dividend paid on May 29, 2003 and the 50% stock dividend paid on November 26, 2003.

(3) Represents the sum of (i) the Company's 401(k) plan contributions, which in 2003 were \$6,000 for Mr. Esposito, \$3,000 for Mr. Johnson, \$6,000 for Mr. Renz, \$3,000 for Mr. Grisanti and \$3,000 for Dr. Litwin; and (ii) the dollar value of the insurance premium paid by the Company with respect to group term life insurance, which for 2003 was \$507 for Mr. Esposito, \$507 for Mr. Johnson, \$605 for Mr. Renz, \$507 for Mr. Grisanti and \$674 for Dr. Litwin. In 2002, these amounts were \$2,750 for Mr. Esposito, \$2,538 for Mr. Johnson, \$2,619 for Mr. Renz, \$2,619 for Mr. Grisanti and \$2,750 for Dr. Litwin for 401(k) plan contributions; and \$530 for Mr. Esposito, \$530 for Mr. Johnson, \$532 for Mr. Renz, \$516 for Mr. Grisanti and \$532 for Dr. Litwin for the dollar value of the insurance premium paid by the Company with respect to group term life insurance. In 2001, these amounts were \$2,625 for Mr. Esposito, \$2,625 for Mr. Johnson, \$2,605 for Mr. Renz, \$2,547 for Mr. Grisanti and \$2,625 for Dr. Litwin for 401(k) plan contributions; and \$673 for Mr. Esposito, \$673 for Mr. Johnson, \$355 for Mr. Renz, \$563 for Mr. Grisanti and \$643 for Dr. Litwin for the dollar value of the insurance premium paid by the Company with respect to group term life insurance.

Employment Contracts

The Company has entered into an employment agreement with Mr. Esposito effective January 1, 2004. Under this agreement, his employment may be terminated with or without cause (as defined therein) by the Company at any time. In the event that the Company terminates Mr. Esposito's employment other than for cause or in the event of Mr. Esposito's death or disability (as defined therein), the Company is obligated to (i) pay Mr. Esposito, in lump sum, one year salary and bonus; (ii) to continue Mr. Esposito's benefits (as defined therein) for one year; and (iii) accelerate the vesting of all of Mr. Esposito's stock options, not otherwise vested, to purchase the Company's Common Stock. The agreement provides that, upon a change of control (as defined therein) of the Company, Mr. Esposito may resign (i) if he is not offered a position that includes comparable responsibilities, location or compensation or (ii) in Mr. Esposito's sole discretion, within one year after the first anniversary of accepting any position, regardless of the responsibilities, location or compensation of such position. The fact that Mr. Esposito may not be offered the position of Chief Executive Officer following any change of control will not conclusively determine whether the position offered does not include comparable responsibilities. If Mr. Esposito resigns under such circumstances, the Company will be obligated to provide the same benefits to Mr. Esposito as if he was terminated other than for cause. Pursuant to the agreement, Mr. Esposito has agreed, for a period of no less than one year after termination of employment, to refrain from (i) working with a company that directly competes with the Company; and (ii) interfering with the Company's business by soliciting customers or employees.

The Company has entered into employment agreements with each of the other Named Executive Officers. Under these agreements, their employment may be terminated with or without cause (as defined therein) by the Company at any time. In the event that the Company terminates an officer's employment other than for cause or in the event of the officer's death or disability (as defined therein), the Company is obligated to continue base salary payments and benefits for between six months and one year. These agreements provide that, upon a change of control (as defined therein) of the Company the officer may resign (i) if the officer is not offered a position that includes comparable responsibilities, authority, location or compensation or (ii) in the officer's sole discretion, within one year after accepting any position, regardless of the responsibilities, authority, location or compensation of such position. If the officer resigns under such circumstances, the Company will be obligated to provide up to one year's base salary and prorated bonus, in one lump sum payment. Pursuant to the agreement, each officer has agreed, for a period of no less than one year after termination of employment, to refrain from (i) working with a company that directly competes with the Company; and (ii) interfering with the Company's business by soliciting customers or employees.

2003 Stock Option Grants

The following table shows for each of the Named Executive Officers: (i) the number of options that were granted during 2003; (ii) out of the total number of options granted to all employees during 2003, the percentage granted to each Named Executive Officer; (iii) the exercise price; (iv) the expiration date; and (v) the potential realizable value of the options, assuming that the market price of the underlying securities appreciates in value from the date of grant to the end of the option term, at a 5% and 10% annualized rate.

Name	Individual Grants(1)				Potential Realizable Value at Assumed Annual Rates of Stock Price Appreciation for Option Term(2)	
	Number of Securities	% of Total Options	Exercise or Base Price (\$/Sh)	Expiration Date	5%	10%
	Underlying Options Granted	Granted to Employees in 2003				
Joseph A. Esposito	90,000	7.7%	\$9.43	4/22/13	\$533,743	\$1,352,609
Bruce Johnson	45,000	3.9%	\$9.43	4/22/13	\$266,871	\$676,305
Vincent Renz	45,000	3.9%	\$9.43	4/22/13	\$266,871	\$676,305
Scott Grisanti	45,000	3.9%	\$9.43	4/22/13	\$266,871	\$676,305
	30,000	2.6%	\$8.79	4/10/13	\$165,840	\$420,270
Jeffrey S. Litwin, MD	45,000	3.9%	\$9.43	4/22/13	\$266,871	\$676,305

(1) The options were granted under the terms of the Company's 1996 and 2003 Stock Option Plans at a per share exercise price equal to the market price of the Company's Common Stock on the date of grant. The options become exercisable over four years in equal annual increments beginning one year after the date of grant. The Compensation Committee has the right to accelerate the exercisability of any of the options, and certain options automatically accelerate upon a change of control (as defined).

(2) The potential realizable value is the product of (a) the difference between: (i) the product of the per-share market price at the time of the grant and the sum of 1 plus the adjusted stock price appreciation rate (i.e., the assumed rate of appreciation compounded annually over the term of the option) and (ii) the per-share exercise price of the option; and (b) the number of securities underlying the grant at fiscal year-end. The dollar amounts under these columns are the result of calculations at the 5% and 10% assumed rates of appreciation prescribed by the Securities and Exchange Commission, and therefore are not intended to forecast possible future appreciation, if any, of the market price of the Company's Common Stock. The actual value that any Named Executive Officer may realize, if any, will depend on the amount by which the market price of the Common Shares at the time of exercise exceeds the exercise price.

2003 Option Exercises and Fiscal Year-End Values

The following tables contain certain information concerning the number and value of any unexercised stock options held by the Named Executive Officers as of December 31, 2003 and as to the shares acquired and the value realized by Named Executive Officers who exercised options in 2003.

Name	Shares Acquired on Exercise(#)	Value Realized (\$)(1)	Number of Securities Underlying Unexercised Options at FY-End 2003(#)	Value of Unexercised In-the-Money Options at FY-End 2003(\$)(2)

interest rates still close to zero, we would expect capital to search for sustainable yield opportunities in equities which was the case coming out of the bear market in the mid-70 s.

In summary, we see both catalysts and risks in 2010. Our approach during these uncertain times is to remain broadly diversified within the dividend-paying universe while actively scanning the globe for undervalued opportunities and high quality cash flow generators. We are confident that we will be able to continue to distribute attractive dividend payouts by capitalizing on our research driven approach to identifying value opportunities as well as through our active management of the portfolio. We are hopeful that equities will continue to be an attractive asset class relative to bonds and cash in 2010 and that AGD will continue to offer strong capital appreciation and total return potential for our investors.

Thank you for your support of AGD and we look forward to a prosperous and peaceful year in 2010 and beyond.

Sincerely,

Jill K. Evans and Kevin Shacknofsky

REPORT OF INDEPENDENT REGISTERED
PUBLIC ACCOUNTING FIRM

October 31, 2009

TO THE STOCKHOLDERS AND BOARD OF TRUSTEES OF ALPINE GLOBAL DYNAMIC DIVIDEND FUND:

We have audited the accompanying statement of assets and liabilities, including the schedule of portfolio investments of Alpine Global Dynamic Dividend Fund (the Fund) as of October 31, 2009, and the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and financial highlights for each of the periods presented. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Fund is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the

Fund's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of October 31, 2009, by correspondence with the custodian and brokers; where replies were not received from brokers, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of Alpine Global Dynamic Dividend as of October 31, 2009, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended, and the financial highlights for each of the periods presented, in conformity with accounting principles generally accepted in the United States of America.

NOTES TO FINANCIAL STATEMENTS

October 31, 2009

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

Alpine Global Dynamic Dividend Fund (the Fund) is a diversified, closed-end management investment company. The Fund was organized as a Delaware statutory trust on May 11, 2006, and had no operating history prior to July 26, 2006. The Fund has an investment objective to provide high current dividend income, more than 50% of which qualifies for the reduced federal income tax rates created by the Jobs and Growth Tax Relief Reconciliation Act of 2003. The Fund also focuses on long-term growth of capital as a secondary investment objective.

The Fund had no operations prior to July 26, 2006 other than matters relating to its organization and the sale and issuance of 5,235,602 shares of beneficial interest in the Fund to Alpine Woods Capital Investors, LLC (Alpine Woods) at a net asset value of \$19.10 per share. Alpine Woods serves as the Fund's investment adviser. The Fund's Common Shares are listed on the New York Stock Exchange (NYSE) under the symbol AGD.

The following summarizes the significant accounting policies of the Fund.

Security Valuation: The net asset value (NAV) of shares of the Fund is calculated by dividing the value of the Fund's net assets by the number of outstanding shares. NAV is determined each day the New York Stock Exchange (the NYSE) is open as of the close of regular trading (normally, 4:00 p.m., Eastern time). In computing NAV, portfolio securities of the Fund are valued at their current market values determined on the basis of market quotations. In computing the Fund's net asset value, portfolio securities that are traded on a securities exchange in the United States, except for option securities, are valued at the last reported sale price as of the time of valuation, or lacking any current reported sale at the time of valuation, at the mean between the most recent bid and asked quotations. Each option security - traded on a securities exchange in the United States is valued at the last current reported sale price as of the time of valuation if the last current reported sale price falls within the consolidated bid/ask quote for the option security. If the last current reported sale price as of the time of valuation does not fall within the consolidated bid/ask quote for the option security, the security is valued at the mid-point of the consolidated bid/ask quote for the option security. Each security traded in the over-the-counter market and quoted on the NASDAQ National Market System, is valued at the NASDAQ Official Closing Price (NOCP), as determined by NASDAQ, or lacking an NOCP, the last current reported sale price as of the time of valuation by NASDAQ, or lacking any current reported sale on NASDAQ at the time of valuation, at the mean between the most recent bid and asked quotations. Each over-the-counter option that is not traded through the Options Clearing Corporation is valued by the counterparty, or if the counterparty's price is not readily available then by using the Black-Scholes method. Each other security traded over-the-counter is valued at the mean between the most recent bid and asked quotations. Short-term securities with maturities of 60 days or less are valued at amortized cost, which approximates fair value.

When market quotations are not readily available or when the valuation methods mentioned above are not reflective of a fair value of the security, the security is valued at a fair value following procedures and/or guidelines approved by the Board of Trustees, which may include utilizing a systematic fair valuation model provided by an independent pricing system. The Fund may also use fair value pricing, if the value of a security it holds is, pursuant to Board of Trustees guidelines, materially affected by events occurring before the Fund's pricing time but after the close of the primary market or exchange on which the security is traded. These procedures may utilize valuations furnished by pricing services approved by the Board of Trustees, which may be based on market transactions for comparable securities and various relationships between securities that are generally recognized by institutional traders, a computerized matrix system, or appraisals derived from information concerning the securities or similar securities received from recognized dealers in those securities. When fair value pricing is employed, the value of the portfolio security used to calculate the Fund's net asset value may differ from quoted or official closing prices.

Securities that are principally traded in a foreign market are valued at the last current sale price at the time of valuation or lacking any current or reported sale, at the time of valuation, at the mean between the most recent bid and asked quotations as of the close of the appropriate exchange or other designated time. Trading in securities on European and Far Eastern securities exchanges and over-the-counter markets is normally completed at various times before the close of business on each day on which the NYSE is open. Trading of these securities may not take place on every NYSE business day. In addition, trading may take place in various foreign markets on Saturdays or on other days when the NYSE is not open and on which the Fund's net asset value is not calculated. As stated above, if the market prices are not readily available or are not reflective of the fair value of the security, as of the close of the regular trading on the NYSE (normally, 4:00 pm Eastern time), the security will be priced at a fair value following procedures approved by the Board of Trustees. In light of the judgment involved in fair value decisions, there can be no assurance that a fair value assigned to a particular security is accurate.

NOTES TO FINANCIAL STATEMENTS

October 31, 2009

Fair Value Measurements: In accordance with GAAP, the Fund uses a three-tier hierarchy to establish classification of fair value measurements for disclosure purposes. Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk. Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability that are developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability that are developed based on the best information available.

Level 1 Unadjusted quoted prices in active markets for identical assets or liabilities that the Fund has the ability to access.

Level 2 Observable inputs other than quoted prices included in level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.

Level 3 Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available; representing the Fund's own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in level 3.

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety, is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

Various inputs are used in determining the value of the Fund's investments as of the reporting period end. The designated input levels are not necessarily an indication of the risk or liquidity associated with these investments. These inputs are categorized in the following hierarchy under applicable financial accounting standards.

The following is a summary of the inputs used as of October 31, 2009 in valuing the Fund's investments carried at value:

Investments in Securities at Value*	Valuation Inputs			Total
	Level 1	Level 2	Level 3	
Common Stocks	\$ 176,237,565	\$	\$	\$ 176,237,565
Exchange Traded Funds	872,273			872,273
Short Term Investments	413			413
Total	\$ 177,110,251	\$	\$	\$ 177,110,251

* For detailed country descriptions, see the accompanying Statement of Investments.

The following is a reconciliation of assets in which significant unobservable inputs (Level 3) were used in determining fair value for the Fund:

	Investment in Security at Value*
Common Stocks	
Balance as of 10/31/08	\$
Realized gain/(loss)	
Change in unrealized appreciation/(depreciation)	(82,800)
Net purchases/(sales)	
Transfers in and/or (out) of Level 3	82,800
Balance as of 10/31/09	\$ 0

* Reconciliation of assets represents Fund investment in Anglo Irish Bank Corp. PLC.

Foreign Securities: The Fund may invest a portion of its assets in foreign securities. In the event that the Fund executes a foreign security transaction, the Fund will generally enter into a forward foreign currency contract to settle the foreign security transaction. Foreign securities may carry more risk than U.S. securities, such as political, market and currency risks.

The accounting records of the Fund are maintained in U.S. dollars. Prices of securities denominated in foreign currencies are translated into U.S. dollars at the closing rates of exchange at period end. Amounts related to the purchase and sale of foreign securities and investment income are translated at the rates of exchange prevailing on the respective dates of such transactions.

NOTES TO FINANCIAL STATEMENTS

October 31, 2009

The effect of changes in foreign currency exchange rates on investments is included with the fluctuations arising from changes in market values of securities held and reported with all other foreign currency gains and losses in the Fund's Statement of Operations.

Distributions to Shareholders: The Fund intends to make a level dividend distribution each month to its shareholders of the net investment income of the Fund after payment of Fund operating expenses. The level dividend rate may be modified by the Board of Trustees from time to time. If, for any monthly distribution, investment company taxable income, if any (which term includes net short-term capital gain) and net tax-exempt income, if any, is less than the amount of the distribution, the difference will generally be a tax-free return of capital distributed from the Fund's assets. The Fund's final distribution for each calendar year will include any remaining investment company taxable income and net tax-exempt income undistributed during the year, as well as all net capital gains, if any, realized during the year. If the total distributions made in any fiscal year exceed investment company taxable income, net tax-exempt income and net capital gain, such excess distributed amount would be treated as ordinary dividend income to the extent of the Fund's current and accumulated earnings and profits. Distributions in excess of the earnings and profits would first be a tax-free return of capital to the extent of the adjusted tax basis in the shares. After such adjusted tax basis is reduced to zero, the distribution would constitute capital gain (assuming the shares are held as capital assets). Distributions to shareholders are recorded by the Fund on the ex-dividend date.

Income Taxes: The Fund's policy is to comply with the provisions of the Internal Revenue Code applicable to regulated investment companies and to distribute all of its taxable income to its shareholders. Therefore, no federal income tax provision is required.

The Fund accounts for uncertainty related to income taxes in accordance with U.S. GAAP. The Fund recognizes tax benefits only if it is more likely than not that a tax position (including the Fund's assertion that its income is exempt from tax) will be sustained upon examination. The Fund had no material uncertain tax positions and has not recorded a liability for material unrecognized tax benefits as of October 31, 2009. Since its inception, the Fund had not recorded any amounts for interest or penalties related to uncertain tax benefits. The statute of limitations on the Fund's Federal and New York State tax return filings remains open for the years ended October 31, 2007 through October 31, 2009.

Securities Transactions and Investment Income: Investment security transactions are accounted for as of trade date. Dividend income is recorded on the ex-dividend date. Interest income is recorded on the accrual basis, which includes amortization of premium and accretion of discounts. Realized gains and losses from securities transactions and unrealized appreciation and depreciation of securities are determined using the highest cost basis for both financial reporting and income tax purposes.

Use of Estimates: The Fund's financial statements are prepared in accordance with accounting principles generally accepted in the United States of America. This requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from these estimates.

New Accounting Pronouncements: In June 2009, the Financial Accounting Standards Board (FASB) issued FASB ASC 105 (formerly FASB Statement 168), Generally Accepted Accounting Principles, establishing the FASB Accounting Standards Codification™ (ASC) as the source of authoritative generally accepted accounting principles (GAAP) to be applied by nongovernmental entities. FASB ASC 105 is effective for

annual and interim periods ending after September 15, 2009, and the Company has updated its references to GAAP in this report in accordance with the provisions of this pronouncement. The implementation of FASB ASC 105 did not have a material effect on its financial position or results of operation.

In April 2009, the FASB issued FASB ASC 820-10-65 (formerly FASB Staff Position No. FAS 157-4), Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly. This standard applies to all assets and liabilities within the scope of accounting pronouncements that require or permit fair value measurements, with certain defined exceptions, and provides additional guidance for estimating fair value when the volume and level of activity for the asset or liability have significantly decreased. ASC 820-10-65 is effective for interim reporting periods ending after June 15, 2009. The implementation of ASC 820-10-65 did not have a material effect on the Company's financial position or results of operation.

2. INCOME TAXES

Classification of Distributions: Net investment income (loss) and net realized gain (loss) may differ for financial statement and tax purposes. The character of distributions made during the year from net investment income or net realized gains may differ from its ultimate characterization for federal income tax purposes.

NOTES TO FINANCIAL STATEMENTS

October 31, 2009

The tax character of the distributions paid by the Fund during the year ended October 31, 2009 was as follows:

Distributions paid from:

Ordinary Income	\$ 38,191,687
	\$ 38,191,687

Tax components of distributable earnings are determined in accordance with income tax regulations which may differ from the composition of net assets reported under accounting principles generally accepted in the United States. Accordingly, for the period ended October 31, 2009, the effects of certain differences were reclassified. The fund increased accumulated net investment income by \$4,025,884 and decreased accumulated net realized gain by \$4,025,846, and decreased paid in capital by \$38. These differences were primarily due to the differing tax treatment of foreign currency and certain other investments. Net assets of the portfolio were unaffected by the reclassifications and the calculation of net investment income per share in the Financial Highlights excludes these adjustments.

At October 31, 2009, the Fund had available for tax purposes unused capital loss carryovers of \$196,335,068, expiring October 31, 2016, and unused capital loss carryovers of \$106,550,577, expiring October 31, 2017.

As of October 31, 2009, the components of distributable earnings on a tax basis were as follows:

Undistributed Ordinary Income	\$ 6,916,316
Accumulated Capital Loss	(302,885,645)
Unrealized Appreciation	4,296,191
Other Cumulative Effect of Temporary Differences	(45,324)
Total	\$ (291,718,462)

As of October 31, 2009, net unrealized appreciation/(depreciation) of investments based on federal tax cost was as follows:

Gross appreciation on investments (excess of value over tax cost)	\$ 22,672,628
Gross depreciation on investments (excess of tax cost over value)	(18,430,501)
Net unrealized appreciation on foreign currency	54,064
Net unrealized appreciation	4,296,191
Total cost for federal income tax purposes	\$ 172,868,124

Edgar Filing: ERESEARCHTECHNOLOGY INC /DE/ - Form DEF 14A

The differences between book and tax net unrealized appreciation and cost were primarily due to deferral of losses from wash sales and to the different tax treatment of certain other investments.

3. CAPITAL TRANSACTIONS

	For the Year Ended October 31, 2009	For the Year Ended October 31, 2008
Common shares outstanding - beginning of year	24,231,139	23,709,177
Common shares issued as reinvestments of dividends	503,683	521,962
Common shares outstanding - end of year	24,734,822	24,231,139

4. PORTFOLIO SECURITIES

Purchases and sales of investment securities, other than short-term securities, for the year ended October 31, 2009 aggregated \$1,086,564,884 and \$1,063,775,151, respectively. The Fund did not have purchases and sales of U.S. Government obligations for the year ended October 31, 2009.

5. INVESTMENT ADVISORY AND ADMINISTRATION AGREEMENTS

Alpine Woods serves as the Fund's investment adviser pursuant to an Investment Advisory Agreement with the Fund. As compensation for its services to the Fund, Alpine Woods receives an annual investment advisory fee of 1.00% based on the Fund's average daily net assets, computed daily and payable monthly.

ALPS Fund Services, Inc. (ALPS) serves as the Fund's administrator pursuant to an Administration, Bookkeeping and Pricing Services Agreement with the Fund. As compensation for its services to the Fund, ALPS receives an annual administration fee of 0.13% based on the Fund's average daily net assets, computed daily and payable monthly.

6. LINE OF CREDIT

On July 9, 2009, an Agreement among Alpine Global Dynamic Dividend Fund, Alpine Total Dynamic Dividend Fund, Alpine Global Premier Properties Fund (together, the Funds) and The Bank of New York (BONY) was executed which allows for each Fund to borrow against a secured line of credit from BONY an aggregate amount of up to \$350,000,000 for all Funds. As of October 31, 2009 there was an unused balance of \$243,694,800 available to all three Funds. During the year ended October 31, 2009, the average borrowing by the Fund was \$5,854,325 with an average rate on borrowings of 0.92%.

7. DERIVATIVE INSTRUMENTS

Total Return Swaps: The Fund may invest in total return swap agreements to manage or gain exposure to various securities or markets in pursuit of its investment objectives.

A total return swap is an agreement between the Fund and a counter-party to exchange a market linked return for a floating rate payment, both based on a notional principal amount. Because the principal amount is not exchanged, it represents neither an asset nor a liability to either counterparty, and is referred to as notional. Total return swaps are marked to market daily based upon quotations from the market makers and the change in value, if any, is recorded as an unrealized gain or loss in the Statement of Operations. The unrealized gain (loss) related to the daily change in the valuation of the notional amount of the swap, as well as the amount due to (owed by) the Fund at termination or settlement, is combined and separately disclosed as an asset (liability). The Fund also records any periodic payments received from (paid to) the counter-party, including at termination, under such contracts as realized gain (loss).

In connection with these agreements, securities or cash may be identified as collateral in accordance with the terms of the respective swap agreements to provide assets of value and recourse in the event of default or bankruptcy/insolvency. Entering into these agreements involves, to varying degrees, elements of credit, market and documentation risk in excess of the amounts recognized on the Statement of Assets and Liabilities. Such risks involve the possibility that there will be no liquid market for these agreements, that the counterparty to the agreements may default on its obligation to perform or disagree as to the meaning of contractual terms in the agreements and that there may be unfavorable changes in interest rates. The Fund's maximum risk of loss from counterparty credit risk is the discounted net value of the cash flows to be received from the counterparty over the contract's remaining life, to the extent that amount is positive. The risk may be mitigated by having a master netting arrangement between the Fund and the counterparty and by the posting of collateral to the Fund to cover the Fund's exposure to the counterparty. The Fund did not hold any total return swaps as of October 31, 2009.

During the year ended October 31, 2009, the Fund entered into approximately seven total return swap agreements and recorded a net realized gain of \$1,255,365 on the Statement of Operations related to investments in total return swaps.

8. EQUITY-LINKED STRUCTURED NOTES

The Fund may invest in equity-linked structured notes.

Equity-linked structured notes are derivative securities which are specially designed to combine the characteristics of one or more underlying

securities and their equity derivatives in a single note form. The return and/or yield or income component may be based on the performance of the underlying equity securities, an equity index, and/or option positions. Equity-linked structured notes are typically offered in limited transactions by financial institutions in either registered or non-registered form. An investment in equity-linked structured notes creates exposure to the credit risk of the issuing financial institution, as well as to the market risk of the underlying securities. There is no guaranteed return of principal with these securities and the appreciation potential of these securities may be limited by a maximum payment or call right. In certain cases, equity-linked structured notes may be more volatile and less liquid than less complex securities or other types of fixed-income securities. Such securities may exhibit price behavior that does not correlate with other fixed-income securities. The Fund invested in equity-linked structured notes throughout the year and did not hold any equity-linked structured notes on October 31, 2009.

9. OTHER

Compensation of Trustees: The Independent Trustees of the Fund receive \$4,000 for each meeting attended.

10. SUBSEQUENT EVENTS

In preparing these financial statements, the Fund has evaluated events and transactions for potential recognition or disclosure resulting from subsequent events through December 30, 2009.

Distributions: The Fund paid a distribution of \$2,720,830 or \$0.11 per common share on November 30, 2009 to common shareholders of record on November 23, 2009.

DIVIDEND REINVESTMENT PLAN

The Fund operates a Dividend Reinvestment Plan (the Plan), sponsored and administered by The Bank of New York, pursuant to which the Fund's dividends and distributions, net of any applicable U.S. withholding tax, are reinvested in shares of the Fund. The Bank of New York serves as the agent that administers the Plan for the shareholders that participate in the Plan (the Plan Administrator).

Unless the registered owner of common shares of beneficial interest elects to receive cash by contacting the Plan Administrator, all dividends declared on common shares will be automatically reinvested by the Plan Administrator for shareholders in the Plan, in additional common shares of the Fund. Shareholders that are not permitted to participate through their broker or nominee or who elect not to participate in the Plan will receive all dividends and other distributions in cash paid by check mailed directly to the shareholder of record (or, if the common shares are held in street or other nominee name, then to such nominee) by the Plan Administrator, as dividend disbursing agent. You may elect not to participate in the Plan and to receive all dividends in cash by contacting the Plan Administrator, as dividend disbursing agent, at the address set forth below. Participation in the Plan is completely voluntary and may be terminated or resumed at any time without penalty by notice if received and processed by the Plan Administrator prior to the dividend record date; otherwise such termination or resumption will be effective with respect to any subsequently declared dividend or other distribution. If you hold your shares through a broker, and you wish for all dividends declared on your common shares to be automatically reinvested pursuant to the Plan, please contact your broker.

The Plan Administrator will open an account for each shareholder under the Plan in the same name in which such shareholder's common shares are registered. Whenever the Fund declares a dividend or other distribution (together, a Dividend) payable in cash, non-participants in the Plan will receive cash and participants in the Plan will receive the equivalent in common shares. The common shares will be acquired by the Plan Administrator for the participants' accounts, depending upon the circumstances described below, either (i) through receipt of additional unissued but authorized common shares from the Fund (Newly Issued common shares) or (ii) by purchase of outstanding common shares on the open market (Open-Market Purchases) on the NYSE or elsewhere. If, on the payment date for any Dividend, the closing market price plus estimated brokerage commissions per share is equal to or greater than the NAV per share, the Plan Administrator will invest the Dividend amount in Newly Issued common shares on behalf of the participants. The number of Newly Issued common shares to be credited to each participant's account will be determined by dividing the dollar amount of the Dividend by the NAV per share on the payment date; provided that, if the NAV is less than or equal to 95% of the closing market value on the payment date, the dollar amount of the Dividend will be divided by 95% of the closing market price per share on the payment date. If, on the payment date for any Dividend, the NAV per share is greater than the closing market value plus estimated brokerage commissions, the Plan Administrator will invest the Dividend amount in common shares acquired on behalf of the participants in Open-Market Purchases.

In the event of a market discount on the payment date for any Dividend, the Plan Administrator will have until the last business day before the next date on which the common shares trade on an ex-dividend basis or 30 days after the payment date for such Dividend, whichever is sooner (the Last Purchase Date), to invest the Dividend amount in common shares acquired in Open-Market Purchases. It is contemplated that the Fund will pay monthly income Dividends. If, before the Plan Administrator has completed its Open-Market Purchases, the market price per share exceeds the NAV per share, the average per share purchase price paid by the Plan Administrator may exceed the NAV of the common shares, resulting in the acquisition of fewer common shares than if the Dividend had been paid in Newly Issued common shares on the Dividend payment date. Because of the foregoing difficulty with respect to Open-Market Purchases, the Plan provides that if the Plan Administrator is unable to invest the full Dividend amount in Open-Market Purchases during the purchase period or if the market discount shifts to a market premium during the purchase period, the Plan Administrator may cease making Open-Market Purchases and may invest the uninvested portion of the Dividend amount in Newly Issued common shares at the NAV per share at the close of business on the Last Purchase Date provided that, if the NAV is less than or equal to 95% of the then current market price per share, the dollar amount of the Dividend will be divided by 95% of the market price on the payment date for purposes of determining the number of shares issuable under the Plan.

The Plan Administrator maintains all shareholders' accounts in the Plan and furnishes written confirmation of all transactions in the accounts, including information needed by shareholders for tax records. Common shares in the account of each Plan participant will be held by the Plan Administrator on behalf of the Plan participant, and each shareholder proxy will include those shares purchased or received pursuant to the Plan. The Plan Administrator will forward all proxy solicitation materials to participants and vote proxies for shares held under the Plan in accordance with the instructions of the participants.

In the case of the Fund's shareholders such as banks, brokers or nominees which hold shares for others who are the beneficial owners, the Plan Administrator will administer the Plan on the basis of the number of common shares certified from time to time by the record shareholder's name and held for the account of beneficial owners who participate in the Plan.

There will be no brokerage charges with respect to common shares issued directly by the Fund. However, each participant will pay a pro rata share of brokerage commissions incurred in connection with Open-Market Purchases. The automatic reinvestment of Dividends will not relieve participants of any federal, state or local income tax that may be payable (or required to be withheld) on such Dividends. See Federal Income Tax Matters. Participants that request a sale of common shares through the Plan Administrator are subject to brokerage commissions.

Shareholders participating in the Plan may receive benefits not available to shareholders not participating in the Plan. If the market price plus commissions of the Fund's shares is higher than the NAV, participants in the Plan will receive shares of the Fund for less than they could otherwise purchase them and will have shares with a cash value greater than the value of any cash distribution they would have received on their shares. If the market price plus commissions is below the NAV, participants receive distributions of shares with a NAV greater than the value of any cash distribution they would have received on their shares. However, there may be insufficient shares available in the market to make distributions in shares at prices below the NAV. Also, because the Fund does not redeem its shares, the price on resale may be more or less than the NAV.

The Fund reserves the right to amend or terminate the Plan. There is no direct service charge to participants with regard to purchases in the Plan; however, the Fund reserves the right to amend the Plan to include a service charge payable by the participants.

All correspondence or questions concerning the Plan should be directed to the Plan Administrator, The Bank of New York, at One Wall Street, New York, NY 10286 (212) 635-6375.

(1) Conflicts of interest may arise because the Fund's Portfolio Managers have day-to-day management responsibilities with respect to both the Fund and various other accounts. These potential conflicts include:

Limited Resources. The Portfolio Managers cannot devote their full time and attention to the management of each of the accounts that they manage. Accordingly, the Portfolio Managers may be limited in their ability to identify investment opportunities for each of the accounts that are as attractive as might be the case if the Portfolio Managers were to devote substantially more attention to the management of a single account. The effects of this potential conflict may be more pronounced where the accounts have different investment strategies.

Limited Investment Opportunities. Other clients of the Adviser may have investment objectives and policies similar to those of the Fund. The Adviser may, from time to time, make recommendations which result in the purchase or sale of a particular security by its other clients simultaneously with the Fund. If transactions on behalf of more than one client during the same period increase the demand for securities being purchased or the supply of securities being sold, there may be an adverse effect on price or quantity. It is the policy of the Adviser to allocate advisory recommendations and the placing of orders in a manner that it believes is equitable to the accounts involved, including the Fund. When two or more clients of the Adviser are purchasing or selling the same security on a given day from the same broker-dealer, such transactions may be averaged as to price.

Different Investment Strategies. The accounts managed by the Portfolio Managers have differing investment strategies. If the Portfolio Managers determine that an investment opportunity may be appropriate for only some of the accounts or decide that certain of the accounts should take different positions with respect to a particular security, the Portfolio Managers may effect transactions for one or more accounts which may affect the market price of the security or the execution of the transaction, or both, to the detriment or benefit of one or more other accounts.

Variation in Compensation. A conflict of interest may arise where the Adviser is compensated differently by the accounts that are managed by the Portfolio Managers. If certain accounts pay higher management fees or performance-based incentive fees, the Portfolio Managers might be motivated to prefer certain accounts over others. The Portfolio Managers might also be motivated to favor accounts in which they have a greater ownership interest or accounts that are more likely to enhance the Portfolio Managers' performance record or to otherwise benefit the Portfolio Managers.

Selection of Brokers. The Portfolio Managers select the brokers that execute securities transactions for the accounts that they supervise. In addition to executing trades, some brokers provide the Portfolio Managers with research and other services which may require the payment of higher brokerage fees than might otherwise be available. The Portfolio Managers' decision as to the selection of brokers could yield disproportionate costs and benefits among the accounts that they manage, since the research and other services provided by brokers may be more beneficial to some accounts than to others.

Where conflicts of interest arise between the Fund and other accounts managed by the Portfolio Managers, the Portfolio Managers will use good faith efforts so that the Fund will not be treated materially less favorably than other accounts. There may be instances where similar portfolio transactions may be executed for the same security for numerous accounts managed by

the Portfolio Managers. In such instances, securities will be allocated in accordance with the Adviser's trade allocation policy.

(a)(3) Portfolio Manager Compensation as of October 31, 2009

The Portfolio Managers' compensation will be made up of a fixed salary amount which is not based on the value of the assets in the Registrant's portfolio. Annually, Alpine Woods Capital Investors LLC (the Adviser) may calculate bonus compensation to be paid to each portfolio manager as a percentage of salary based in large part on the Registrant's after-tax performance in comparison to other equity income funds during the same time period, which the Adviser considers to be a comparable peer group.

(a)(4) Dollar Range of Securities Owned as of October 31, 2009.

Portfolio Manager	Dollar Range of Equity Securities Held in Registrant (1)
Jill K. Evans	\$10,001 - 50,000
Kevin Shacknofsky	\$10,001 - 50,000

(1) Beneficial Ownership is determined in accordance with Section 16a-1(a)(2) of the Securities Exchange Act of 1934, as amended

Item 9. Purchases of Equity Securities by Closed-End Management Investment Company and Affiliated Purchasers.

Not Applicable.

Item 10. Submission of Matters to Vote of Security Holders.

There have been no material changes to the procedures by which shareholders may recommend nominees to the Registrant's Board of Trustees.

Item 11. Controls and Procedures.

(a) The Registrant's principal executive officer and principal financial officer have evaluated the Registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended) within 90 days of this filing and have concluded that the registrant's disclosure controls and procedures were effective, as of that date.

(b) There was no change in the Registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the Investment Company Act of 1940, as amended) during the second fiscal quarter of the period covered by this report that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

Item 12. **Exhibits.**

(a)(1) The Code of Ethics that applies to the Registrant's principal executive officer and principal financial officer is attached hereto as Exhibit 12.A.1.

(a)(2) The certifications required by Rule 30a-2(a) of the Investment Company Act of 1940, as amended, and Section 302 of the Sarbanes-Oxley Act of 2002 are attached hereto as Ex99.Cert.

(a)(3) Not applicable.

(b) The certifications by the Registrant's Principal Executive Officer and Principal Financial Officer, as required by Rule 30a-2(b) of the Investment Company Act of 1940, as amended, and Section 906 of the Sarbanes-Oxley Act of 2002 are attached hereto as Ex99.906Cert.
