PART III
NARRATIVE

State below in reasonable detail the reasons why Forms 10-K, 20-F, 11-K, 10-Q, N-SAR, N-CSR, or the transition report or portion thereof, could not be filed within the prescribed time period.

The Registrant requests an extension of time to file its Annual Report on Form 10-K for the year ended December 31, 2003 for two principal reasons. First, as previously disclosed, the Registrant has been investigating the allegations contained in an amended class action securities lawsuit filed in December 2003. These allegations relate primarily to the manner in which the Registrant recognized revenue, and wrote down assets, with respect to its former broadband business.

The Audit Committee of the Registrant's Board of Directors has now completed its investigation of those matters. In connection with that investigation, adjustments have been identified related to the manner that the Registrant recorded a particular broadband network construction agreement entered into in 2000. These adjustments related to the timing of revenue recognition resulting from the inappropriate inclusion of certain costs that had not been fully incurred and use of estimates regarding the extent to which the construction contract had been completed. The Registrant intends to restate its financial statements to reflect the revised accounting for this contract. In investigating plaintiffs' other allegations, the Audit Committee did not identify any information that warranted any modification or change to the Registrant's financial statements.

While the following amounts could change on final review, the Registrant believes its revenue for the year-to-date period ended September 30, 2003 will remain the same as previously reported, cost of services and products will decrease by approximately \$51 million and net income will increase by approximately \$51 million; revenue and cost of services and products will likely be unchanged in 2002 and net loss will increase by approximately \$18 million due to an increase in income tax expense; revenue for 2001 will decrease by approximately \$31 million, cost of services and products for 2001 will increase by approximately \$15 million and net loss for 2001 will increase by approximately \$30 million; and revenue for 2000 will decrease by approximately \$23 million, cost of services and products for 2000 will decrease by approximately \$18 million and net loss for 2000 will increase by approximately \$3 million. Thus, the Registrant believes that there will be no cumulative change to net income over the reporting period as a result of this restatement.

Second, the anticipated impact of the restatement on the Registrant's historical financial statements gives rise to an event of default under the Registrant's credit agreement and prevents future borrowings under the Registrant's revolving credit facility. In conjunction with finalizing its revised financial statements, the Registrant intends to seek a waiver from its lenders relating to these provisions. Due to cross default provisions, an event of default under the credit agreement also gives rise to an event of default under certain other indebtedness of the Registrant, which events of default will be cured upon receipt of the waiver of the lenders under the credit agreement. The Registrant believes it will obtain the requested waiver on or before March 30, although there can be no assurances in that regard. Citibank, as administrative agent of the credit agreement, has approved the waiver and will recommend that the other lenders approve it as well. In the event that the waiver is not obtained, substantially all of the Registrant's debt would be classified as current obligations, which would give rise to a going concern opinion from the Registrant's independent auditors.

The Registrant has already received a waiver from the holders of its 16% notes for an event of default relating to representations and warranties contained in the 16% notes purchase agreement.

The Registrant is in the process of finalizing its financial statements for the relevant periods and obtaining the appropriate waiver from its lenders. These tasks cannot be completed within the prescribed time for filing its Annual Report on

Form 10-K for the year ended December 31, 2003 without unreasonable efforts or expense. The Registrant expects to announce its fourth quarter and full year 2003 results, issue its Annual Report on Form 10-K for the year ended December 31, 2003 and release its restated financial statements for prior years on or before March 30, 2004.

x Yes o No

(3) Is it anticipated that any significant change in results of operations from the corresponding period for the last fiscal year will be reflected by the earnings statements to be included in the subject report or portion thereof?

x Yes o No

If so, attach an explanation of the anticipated change, both narratively and quantitatively, and, if appropriate, state the reasons why a reasonable estimate of the results cannot be made.

The Registrant expects to report a decrease in revenue and an increase in net income in 2003 compared to 2002. The anticipated decrease in revenue is primarily due to the Registrant's sale of substantially all of the assets of its broadband business, which was effectively completed in June 2003. The expected increase in net income is primarily due to goodwill and asset impairment charges recorded in 2002, not repeated in 2003. Restated revenue and net income for the nine months ended September 30, 2003, are expected to be approximately \$1,247 million and

Edgar Filing: CINCINNATI BELL INC - Form NT 10-K

approximately \$489 million, respectively, compared to revenue and net loss of approximately \$1,669 million and approximately \$1,839 million, respectively, for the nine months ended September 30, 2002. Fourth quarter and full year 2003 results are not yet available for the reasons described in Part III above.
