Section 5 Corporate Governance and Management

Item 5.02 Departure of Directors or Principal Officers; Election of Directors; Appointment of Principal Officers.

On October 22, 2009, the Board of Directors (Board) of the Company elected Debra L. Reed to the Board. In connection with Ms. Reed's election, the Board amended the Company's Bylaws to provide that the Board shall have twelve (12) members, Richard M. Ferry resigned from the Board as a Class II director, Ms. Reed was elected as a Class II director and Mr. Ferry was reelected as a Class III director. The resignation and reelection of Mr. Ferry was effected in order to more evenly distribute the number of directors among each of our three classes of directors after Mr. Ferry retires following the annual stockholders meeting in 2010 pursuant to the retirement provision of the Company's Bylaws. The balancing of the number of directors in each class was effected through the resignation and reelection of Mr. Ferry solely to satisfy the requirements of the Delaware General Corporation Law and, for all other purposes, Mr. Ferry's service on the Board is deemed to have continued uninterrupted and Mr. Ferry will continue to serve on the Audit Committee, the Compensation and Executive Personnel Committee and the Nominating and Governance Committee. Ms. Reed was appointed to the Compensation and Executive Personnel Committee. A copy of the news release announcing Ms. Reed's election to the Board is attached as Exhibit 99.3 hereto.

SPECIAL NOTE REGARDING FORWARD LOOKING STATEMENTS

Safe Harbor Statement under the Private Securities Litigation Reform Act of 1995: Certain statements contained in this report on Form 8-K and in Exhibit 99.1 and Exhibit 99.2 are forward-looking statements intended to qualify for the safe harbor from liability established by the Private Securities Litigation Reform Act of 1995. Such forward-looking statements and financial or other business targets are subject to certain risks and uncertainties. Actual results and trends may differ materially from historical or anticipated results depending on a variety of factors, including but not limited to risks and uncertainties relating to investment in development activities and new production facilities; fluctuations in cost and availability of raw materials; ability of the Company to achieve and sustain targeted cost reductions; ability of the Company to generate sustained productivity improvement; successful integration of acquisitions; successful implementation of new manufacturing technologies and installation of manufacturing equipment; the financial condition and inventory strategies of customers; customer and supplier concentrations; changes in customer order patterns; loss of significant contract(s) or customer(s); timely development and market acceptance of new products; fluctuations in demand affecting sales to customers; impact of competitive products and pricing; selling prices; business mix shift; volatility of capital and credit markets; impairment of capitalized assets, including goodwill and other intangibles; credit risks; ability of the Company to obtain adequate financing arrangements and to maintain access to capital; fluctuations in interest and tax rates; fluctuations in pension, insurance and employee benefit costs; impact of legal proceedings, including a previous government investigation into industry competitive practices, and any related proceedings or lawsuits pertaining thereto or to the subject matter thereof related to the concluded investigation by the U.S. Department of Justice (DOJ) (including purported class actions seeking treble damages for alleged unlawful competitive practices, which were filed after the announcement of the DOJ investigation), as well as the impact of potential violations of the U.S. Foreign Corrupt Practices Act; changes in tax laws and regulations; changes in governmental regulations; changes in political conditions; fluctuations in foreign currency exchange rates and other risks associated with foreign operations; worldwide and local economic conditions; impact of epidemiological events on the economy and the Company's customers and suppliers; acts of war, terrorism, and natural disasters; and other factors.

The Company believes that the most significant risk factors that could affect its financial performance in the near-term include (1) the impact of economic conditions on underlying demand for the Company's products and on the carrying value of its assets; (2) the impact of competitors' actions, including pricing, expansion in key markets, and product offerings; (3) the degree to which higher costs can be offset with productivity measures and/or passed on to customers through selling price increases, without a significant loss of volume; (4) the impact of an increase in costs associated with the Company's debt; and (5) the ability of the Company to achieve and sustain targeted cost reductions.

For a more detailed discussion of these and other factors, see Part I, Item 1A. Risk Factors and Part II, Item 7.

Management's Discussion and Analysis of Results of Operations and Financial Condition in the Company's Form 10-K, filed on February 25, 2009. The forward-looking statements included in this Form 8-K are made only as of the date of this Form 8-K, and the Company undertakes no obligation to update the forward-looking statements to reflect subsequent events or circumstances.
