Who Can Vote

The Board of Directors of Carver has fixed the close of business on November 2, 2009 as the record date for determining stockholders entitled to receive notice of and to vote at the Annual Meeting. Only stockholders of record at the close of business on that date will be entitled to vote at the Annual Meeting. As of the close of business on November 2, 2009, the outstanding voting stock of Carver consisted of 2,474,719 shares of common stock, par value \$.01 per share (Common Stock or Voting Stock). The holders of record of a majority of the total number of votes eligible to be cast in the election of directors represented in person or by proxy at the Annual Meeting, will constitute a quorum for the transaction of business at the Annual Meeting.

How Many Votes You Have

Each holder of shares of Common Stock outstanding on November 2, 2009 will be entitled to one vote for each share held of record (other than Excess Shares, as defined below) upon each matter properly submitted at the Annual Meeting. As provided in Carver's Certificate of Incorporation, record holders of Voting Stock who beneficially own in excess of 10% of the outstanding shares of Voting Stock (Excess Shares) shall be entitled to cast only one-hundredth of one vote per share for each Excess Share.

A person or entity is deemed to beneficially own shares owned by an affiliate or associate as well as by persons acting in concert with such person or entity. Carver's Certificate of Incorporation authorizes the Board of Directors to interpret and apply the provisions of the Certificate of Incorporation and Bylaws governing Excess Shares and to determine on the basis of information known to it after reasonable inquiry of all facts necessary to ascertain compliance with the Certificate of Incorporation, including, without limitation: (1) the number of shares of Voting Stock beneficially owned by any person or purported owner; (2) whether a person or purported owner is an affiliate or associate of, or is acting in concert with, any other person or purported owner; and (3) whether a person or purported owner has an agreement or understanding with any person or purported owner as to the voting or disposition of any shares of Voting Stock.

How You Can Vote

If you are a stockholder whose shares are registered in your name, you may vote your shares by one of the three following methods:

Vote by Phone, by dialing **1-800-PROXIES (1-800-776-9437) in the United States or 1-718-921-8500 from foreign countries from any touch-tone telephone and follow the instructions**. Have your proxy card available when you call and use the Company Number and Account Number shown on your proxy card. *Vote by Proxy Card*, by completing, signing, dating and mailing the enclosed proxy card in the envelope provided.

If you vote by telephone please do not mail your proxy card.

If you return your signed proxy card or use telephone voting before the Annual Meeting, the named proxies will vote your shares as you direct. You have three choices on each matter to be voted on. For the election of directors, you may (1) vote FOR all the nominees, (2) WITHHOLD authority for all nominees or (3) FOR ALL EXCEPT. See Proposal One Election of Directors. For Proposal Two Ratification of Appointment of Independent Auditors you may vote FOR, AGAINST or ABSTAIN from voting. For Proposal Three, Advisory (non-binding) approval of compensation of named executive officers you may vote FOR, AGAINST or ABSTAIN from voting.

If you send in your proxy card or use telephone voting, but do not specify how you want to vote your shares, the named proxies will vote FOR the nominees for election as director (Proposal One) and FOR the ratification of the appointment of KPMG LLP as independent auditors for Carver for the fiscal year ending March 31, 2010 (Proposal Two) and FOR the advisory (non-binding) approval of compensation of named executive officers (Proposal Three).

If you are a stockholder whose shares are not registered in your own name, you will need appropriate documentation from the stockholder of record to vote personally at the Annual Meeting. You may receive a separate voting instruction form with this proxy statement, or you may need to contact your broker or other nominee to determine whether you will be able to vote by telephone.

Votes Required

Proposal One. Directors are elected by a plurality of votes cast in person or by proxy at the Annual Meeting. The three nominees receiving the highest number of votes cast in person or by proxy at the Annual Meeting will be elected to the Board of Directors. As such, if you do not vote for a nominee, your vote will not count for or against the nominee. If you withhold authority for any nominee, your vote will not count for or against the nominee, unless you properly submit a new proxy card or vote at the Annual Meeting. You may not vote your shares cumulatively for the election of directors.

If your shares are held in street name, your broker may vote your shares without receiving instructions from you. Shares that are not voted by a broker are called broker non-votes. Shares underlying broker non-votes will have no effect on the election of directors.

Proposal Two. The ratification of the appointment of KPMG LLP as Carver's independent auditors requires the affirmative vote of the holders of a majority of the number of votes eligible to be cast by the holders of Voting Stock present, in person or by proxy, and entitled to vote at the Annual Meeting. So, if you abstain from voting on this proposal, it has the same effect as if you voted against the proposal. Broker non-votes will have no effect on the outcome of this proposal.

Proposal Three. On February 7, 2009, President Barack Obama signed the American Recovery and Reinvestment Act of 2009 (ARRA) into law. The ARRA requires, among other things, every participant of the Troubled Asset Relief Program (TARP) to permit a non-binding shareholder vote to approve the compensation of the participant's named executive officers. Accordingly, we are asking you to approve the compensation of the named executive officers as described under Executive Compensation in this proxy statement. Under ARRA, your vote is advisory and will not be binding upon the Board of Directors of the Company. However, the Compensation Committee will take into account the outcome of the vote when considering future executive compensation arrangements.

Revocability of Proxies

If you are a stockholder whose shares are registered in your name, you may revoke your grant of a proxy at any time before it is voted at the Annual Meeting by:

 filing a written revocation of the proxy with Carver's Secretary;

 submitting another proper proxy with a more recent date than that of the proxy first given by
 (1) following the telephone voting instructions, or (2) completing, signing, dating and returning a proxy card to the Company; or

 attending and voting in person at the Annual Meeting.

If you are a stockholder whose shares are not registered in your name, you may revoke your proxy by contacting your bank or broker for revocation instructions.

We are soliciting proxies only for the Annual Meeting. If you grant us a proxy to vote your shares, the proxy will be exercised only at the Annual Meeting.

Dissenters' Right of Appraisal

Pursuant to Delaware corporation law, the actions contemplated to be taken at the Annual Meeting do not create appraisal or dissenters' rights.

Interests of Certain Persons in Matters to Be Acted Upon

Other than for the election of directors, no current or nominated director or executive officer, nor any of their associates has any direct or indirect interest in any matter to be acted upon at the annual meeting.

Solicitation of Proxies

Carver will bear the entire cost of solicitation of proxies, including the preparation, assembly, printing and mailing of this proxy statement and any additional information furnished to Carver stockholders. In addition to solicitation of proxies by mail, solicitation may be made by certain of our directors, officers or employees telephonically, electronically or by other means of communication or by Morrow & Co., LLC (Morrow) which we have retained to assist in the solicitation of proxies. Our directors, officers and employees will receive no additional compensation for any such solicitation, and Morrow will receive a fee of \$6,000 plus reasonable out-of-pocket expenses for its services. Carver will reimburse brokers and other similar institutions for costs incurred by them in mailing proxy materials to beneficial owners in accordance with applicable rules.

**PROPOSAL ONE
ELECTION OF DIRECTORS**

General

The Certificate of Incorporation of Carver provides that Carver's Board of Directors shall be divided into three classes, as nearly equal in number as possible. The directors of each class serve for a term of three years, with one class elected each year. In all cases, directors serve until their successors are elected and qualified.

Carver's Board of Directors has the discretion to fix the number of directors by resolution and has so fixed this number at eight. The terms of three directors expire at the Annual Meeting. Dr. Samuel J. Daniel, Robert Holland, Jr., and Robert R. Tarter, whose terms are expiring, have been nominated and approved by Carver's Nominating/Corporate Governance Committee and ratified by the Board of Directors to be re-elected at the Annual Meeting to serve for a term of three years and until their respective successors are elected and qualified.

Each nominee has consented to being named in this proxy statement and to serve if elected. However, if any nominee is unable to serve, the shares represented by all properly executed proxies which have not been revoked will be voted for the election of such substitute as the Board of Directors may recommend, or the size of the Board of Directors may be reduced to eliminate the vacancy. At this time, the Board knows of no reason why any nominee might be unavailable to serve.

Information Regarding Nominees and Continuing Directors

The following table sets forth certain information with respect to the nominees for election as a director and each director whose term does not expire at the Annual Meeting (Continuing Director). There are no arrangements or understandings between Carver and any director or nominee pursuant to which such person was elected or nominated to be a director of Carver. For information with respect to the ownership of shares of the Common Stock by directors and the nominees, see Security Ownership of Certain Beneficial Owners and Management Security Ownership of Management.

Transactions with Certain Related Persons

Applicable law requires that all loans or extensions of credit to executive officers and directors must be made on substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable transactions with the general public and must not involve more than the normal risk of repayment or present other unfavorable features. Carver Federal offers loans to its directors, officers and employees, which loans are made in the ordinary course of business and are not made with more favorable terms nor do they involve more than the normal risk of collectibility or present unfavorable features. Furthermore, loans above the greater of \$25,000, or 5% of Carver Federal's capital and surplus (up to \$500,000), to Carver Federal's directors and executive officers must be approved in advance by a disinterested majority of Carver Federal's Board of Directors. As of the date of this proxy statement, neither Carver nor Carver Federal had made any loans or extensions of credit to executive officers or directors.

Stock Ownership

Carver encourages its officers and directors to own stock in Carver, and a portion of the compensation of its officers and directors is stock-based, as described below under Compensation Discussion and Analysis Total Compensation Program Components. The Company's Corporate Governance Principles encourage directors to hold a meaningful number of shares in the Company, and, so long as they remain on the Board of Directors, Board members are expected to retain a majority of the shares of Company common stock purchased in the open market or received pursuant to their service as Board members. Information regarding stock ownership of Carver's directors and executive officers is set forth under Compensation Discussion and Analysis Executive Officer Compensation and Compensation Discussion Analysis-Director Compensation.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Exchange Act requires Carver's directors and executive officers, and persons who own more than ten percent of a registered class of Carver's equity securities, to file reports of ownership and changes in ownership with the SEC and the NASDAQ Stock Market. Officers, directors and greater than ten percent stockholders are required by SEC regulation to furnish Carver with copies of all Section 16(a) forms they file.

Based solely on a review of copies of such reports of ownership furnished to Carver, or written representations that no forms were necessary, Carver believes that, during the last fiscal year, all filing requirements applicable to its directors, officers and greater than ten percent stockholders of the Company were complied with, except for Pazel G. Jackson, Jr., a Director, who failed to timely report the sale of 200 shares of Carver Bancorp, Inc. common stock in March, 2009. This filing has now been made.

**PROPOSAL TWO
RATIFICATION OF APPOINTMENT OF
INDEPENDENT AUDITORS**

General

The Finance and Audit Committee of the Board of Directors of Carver has appointed the firm of KPMG LLP as independent auditors for Carver for the fiscal year ending March 31, 2010 and the Board of Directors has determined that it would be desirable to request that stockholders ratify such appointment. Representatives of KPMG LLP are expected to be present at the Annual Meeting. They will have an opportunity to make a statement if they desire to do so and will be available to respond to appropriate questions.

The appointment of KPMG LLP is being submitted for ratification at the Annual Meeting with a view towards soliciting stockholders opinions, which the Finance and Audit Committee will take into consideration in future deliberations. Stockholder approval is not required for the appointment of KPMG LLP since the Finance and Audit Committee of the Board of Directors has direct responsibility for selecting auditors.

Auditor Fee Information

KPMG's fees billed for fiscal 2009 and the fiscal year ended March 31, 2008 were as follows:

	2009	2008
Audit fees (a)	\$ 424,500	\$ 401,500
Other fees	\$ 8,500	7,000
Total	\$ 433,000	\$ 408,500

(a) The amounts in the fiscal 2009 proxy statement for fiscal year 2009 audit fees was \$424,500, which excluded 2009 fees of \$105,000 billed in fiscal 2010.

Pre-Approval Policy for Services by Independent Auditors

During fiscal 2009, the Finance and Audit Committee of Carver's Board of Directors pre-approved the engagement of KPMG LLP to provide non-audit services and considered whether, and determined that, the provision of such other services by KPMG LLP is compatible with maintaining KPMG LLP's independence.

In June 2004 the Finance and Audit Committee established a policy to pre-approve all audit and permissible non-audit services provided by KPMG LLP consistent with applicable SEC rules. Under the policy, prior to the engagement of the independent auditors for the next year's audit, management submits an aggregate of services expected to be rendered during that year for each of the four categories of services described above to the Finance and Audit Committee for approval. Prior to engagement, the Finance and Audit Committee pre-approves these services by category of service. The fees are budgeted and the Finance and Audit Committee will receive periodic reports from management on actual fees versus the budget by category of service. During the year, circumstances may arise when it may become necessary to engage the independent auditors for additional services not contemplated in the pre-approval. In those instances, the Finance and Audit Committee requires specific pre-approval before engaging the independent auditor.

The Finance and Audit Committee has delegated pre-approval authority, subject to certain limits, to the chairman of the committee. The Chairman is required to report, for informational purposes, any pre-approval decisions to the Finance and Audit Committee at its next regularly scheduled meeting.

Report of the Finance and Audit Committee of the Board of Directors

This report is furnished by the Carver Finance and Audit Committee of the Board of Directors as required by the rules of the SEC under the Exchange Act. The report of the Finance and Audit Committee shall not be deemed to be incorporated by reference by any general statement incorporating by reference this proxy statement into any filing under the Securities Act of 1933, as amended (Securities Act), or the Exchange Act, except to the extent that Carver specifically incorporates this information by reference, and shall not otherwise be deemed to be filed under the Securities Act or the Exchange Act.

The Board of Directors has adopted a written charter that sets forth the Finance and Audit Committee s duties and responsibilities and reflects applicable rules of the NASDAQ Stock Market and SEC regulations.

All members of the Finance and Audit Committee have been determined to be independent as defined in the listing requirements of the NASDAQ Stock Market. The Board of Directors has determined that Edward B. Ruggiero qualifies as an audit committee financial expert. The Finance and Audit Committee received the required written disclosures and letter from KPMG LLP, Carver s independent accountants, required by Independence Standards Board Standard No. 1, as amended or supplemented, and has discussed with KPMG LLP its independence. The Finance and Audit Committee reviewed and discussed with the Company s management and KPMG LLP the audited financial statements of the Company contained in the Company s fiscal 2009 annual report on Form 10-K. The Finance and Audit Committee has also discussed with KPMG LLP the matters required to be discussed pursuant to the Codified Statements on Auditing Standards (SAS 61), as amended or supplemented.

Throughout the year, the Finance and Audit Committee had full access to management and the independent and internal auditors for the Company. The Finance and Audit Committee consulted with advisors regarding the Sarbanes-Oxley Act of 2002, the NASDAQ Stock Market s corporate governance listing standards and the corporate governance environment in general and considered any additional requirements of the Finance and Audit Committee as well as additional procedures or matters the Finance and Audit Committee should consider. During fiscal 2009, the Finance and Audit Committee approved the retention of the Company s independent accounting firm, KPMG LLP, and received the Board s ratification of this decision. The Finance and Audit Committee acts only in an oversight capacity and necessarily relies on the assurances and work of the Company s management and independent auditors who expressed an opinion on the Company s annual financial statements. The Company s management has the primary responsibility for the financial statements and the reporting process, including the systems of internal control.

Based on its review and discussions described in the immediately preceding paragraph, the Finance and Audit Committee recommended to the Board of Directors that the audited financial statements included in the Company s fiscal 2009 Annual Report on Form 10-K be included in that report.

PROPOSAL THREE

**ADVISORY (NON-BINDING) APPROVAL OF
COMPENSATION OF NAMED EXECUTIVE
OFFICERS**

On February 17, 2009, President Barack Obama signed the American Recovery and Reinvestment Act of 2009 (the Stimulus Act) into law. The Stimulus Act requires, among other things, every participant in the Troubled Asset Relief Program to permit a non-binding shareholder vote to approve the compensation of the participant's executives. This proposal, commonly known as a "Say on Pay" proposal, gives shareholders the opportunity to endorse or not endorse the compensation of Carver's named executive officers by voting to approve or not to approve such compensation as described in this proxy statement. Accordingly, we are asking you to approve the compensation of Carver's named executive officers as described under "Compensation Discussion and Analysis" and the tabular disclosure regarding named executive officer compensation (together with the accompanying narrative disclosure) in this proxy statement. Under the Stimulus Act, your vote is advisory and will not be binding upon the Company. However, the Compensation Committee will take into account the outcome of the vote when considering future executive compensation arrangements.

CORPORATE GOVERNANCE

General

The Board of Directors of the Company is committed to strong and effective corporate governance measures. The Board has developed, and continues to review, policies and practices covering the operation of the Board and its committees, including their composition and responsibilities, the conduct of Board meetings and the structure and role of the Board's committees and related matters, including those discussed below and throughout this proxy statement. Among these measures are the following:

Independence. Under the Company's Bylaws, at least three members of the Board must be independent under the criteria set forth in the Bylaws and, as a company listed on the Nasdaq Global Market, a majority of the Company's Board must be independent under the criteria set forth in its listing requirements. In addition, pursuant to listing requirements of the NASDAQ Stock Market, the respective committee's charter requires that all members of the Finance and Audit Committee must be independent and requires independent director oversight of the Nominating/Corporate Governance and Compensation Committees.

Lead Independent Director. The Board of Directors has created the position of lead independent director, whose primary responsibility is to preside over periodic executive sessions of the independent members of the Board of Directors. The lead independent director also prepares the agenda for meetings of the independent directors, serves as a liaison between the independent directors and management and outside advisors, and makes periodic reports to the Board of Directors regarding the actions and recommendations of the independent directors. The independent members of the Board of Directors have designated Robert Holland, Jr. to serve in this position for fiscal 2010.

Director Terms. Directors serve for three-year terms. See Proposal One Election of Directors General.

Executive Sessions. The Board of Directors holds executive sessions for non-employee directors only at which management is not present. These sessions are presided over by Robert Holland, Jr., the presiding independent director. In addition, the Finance and Audit Committee regularly holds executive sessions at which management is not present, including executive sessions with the Company's independent auditors and internal auditors. Each director also has access to any member of management and the Company's independent auditors.

Outside Advisors. The Board and its committees may retain outside advisors and consultants as they, in their discretion, deem appropriate.

Board Self-Evaluation. The Nominating/Corporate Governance Committee, among other things, reviews the Company's and the Board's governance profile. In addition, the Board and/or its committees regularly review their role and responsibilities, composition and governance practices.

Corporate Governance Principles

The Board of Directors adopted Corporate Governance Principles during the fiscal year ended March 31, 2004. From time to time the Board anticipates that it will revise the Corporate Governance Principles in response to changing regulatory requirements, evolving best practices and the concerns of the Company's stockholders and other constituents. The Corporate Governance Principles are published on the Company's website at www.carverbank.com in the Corporate Governance section of the Investor Relations webpage.

Director Independence Determination

The Board of Directors has determined that each of its non-management directors is independent according to the Board's independence standards as set out in its Bylaws, Corporate Governance Principles, applicable rules of the SEC and the rules of the NASDAQ Stock Market. They are Carol Baldwin Moody, Dr. Samuel J. Daniel, David L. Hinds, Robert Holland, Jr., Pazel G. Jackson, Jr., Edward B. Ruggiero and Robert R. Tarter. Deborah C. Wright was determined not to be independent because she is currently an executive officer of the Company.

Communications with Board of Directors

The Board of Directors welcomes communications from Carver stockholders. Interested parties may contact the Board of Directors at the following address:

Board of Directors
c/o Corporate Secretary
Carver Bancorp, Inc.
75 West 125th Street
New York, NY 10027

Communications may also be sent to individual directors at the above address.

The Company's Secretary has the responsibility to collect mail for directors, forward correspondence directed to an individual director to that director in a timely manner, and to screen correspondence directed to multiple directors or to the full Board in order to forward it to the most appropriate committee chairperson or the full Board given the nature of the correspondence. Communications to the Board or any individual director that relate to the Company's accounting, internal accounting controls or auditing matters will also be referred to the chairman of the Finance and Audit Committee. Other communications will be referred to the appropriate committee chairperson.

Financial Expert, Audit Committee Independence and Financial Sophistication

The Board of Directors has determined that Edward B. Ruggiero qualifies as an audit committee financial expert and is financially sophisticated, and that each member of the Finance and Audit Committee is independent within the meaning of applicable SEC rules and meets the definition of independence in Rule 4200(a)(15) of the NASDAQ Stock Market listing standards.

Director Selection Process

The Company's Nominating/Corporate Governance Committee is charged with the responsibilities described under Board and Committee Meetings' Nominating/Corporate Governance Committee.

Among the Nominating/Corporate Governance Committee's responsibilities is to identify and recommend to the Board candidates for election as directors. The committee considers candidates suggested by its members, other directors and stockholders as necessary in anticipation of upcoming director elections and other potential or expected Board vacancies. The committee is also authorized, at the expense of the Company, to retain search firms to identify candidates, as well as external legal, accounting or other advisors. The committee will provide guidance to search firms it retains about the particular qualifications the Board is then seeking. No search firms or other advisors were retained by the committee in fiscal 2009.

All director candidates, including stockholder nominees, are evaluated on the same basis. In determining the needs of the Board and the Company, the Nominating/Corporate Governance Committee considers the qualifications of sitting directors and consults with other members of the Board, the Chief Executive Officer (CEO) and, where appropriate, external advisors. Generally the committee believes that all directors should exemplify the highest standards of personal and professional integrity, should have broad experience in positions with a high degree of responsibility and the ability to commit adequate time and effort to serve as a director. Directors will assume the responsibility of challenging management through their active and constructive participation and questioning in meetings of the Board and its various committees, as well as in less formal contacts with management.

Director candidates, other than sitting directors, are interviewed by members of the committee and by other directors and the CEO, and the results of those interviews are considered by the committee in its deliberations. The Nominating/Corporate Governance Committee also reviews sitting directors whose terms are nearing expiration, but who may be nominated for re-election, in light of the above considerations and their past contributions to the Board. The Nominating/Corporate Governance Committee will evaluate director nominations by stockholders that are submitted in accordance with the procedural and informational requirements set forth in the Company s Bylaws and described in this proxy statement under Additional Information Notice of Business to be Conducted at Annual Meeting.

Code of Ethics

The Company has adopted a Code of Ethics, which applies to the Company s directors and employees and sets forth important Company policies and procedures in conducting the Company s business in a legal, ethical and responsible manner. The Company has also adopted a Code of Ethics for Senior Financial Officers, which applies to the Company s chief executive officer, chief financial officer, controller and other persons performing similar functions that supplement the Code of Ethics by providing more specific requirements and guidance on certain topics. The Company intends to post on its website any waiver under the codes granted to any of its directors or executive officers.

No incumbent director attended fewer than 75%, in the aggregate, of the total number of Carver Board meetings held while he or she was a member of the Board during fiscal 2009 and the total number of meetings held by committees on which he or she served during such fiscal year.

Carver's Corporate Governance Principles encourage directors to attend the Company's Annual Meeting of stockholders and all Board meetings and meetings of committees of the Board on which they serve. Carver's Bylaws require that the Company have executive, finance and audit, nominating/corporate governance, compensation and asset/liability and interest rate risk committees. The committee has the responsibility to monitor current members of the Board pursuant to the same guidelines used to select candidates. The Nominating/Corporate Governance Committee is also responsible for identifying best practices and developing and recommending to the Board a set of corporate governance principles applicable to Carver and for periodically reviewing such principles. The Nominating/Corporate Governance Committee met once during fiscal 2009. The committee also met on June 11, 2009 to nominate directors for election at the Annual Meeting. Compensation Committee. The Compensation Committee consists of Directors Carol Baldwin Moody (Chairperson), Robert Holland, Jr. and Robert R. Tarter. All members have been determined to be independent directors. The Compensation Committee evaluates the performance of the Company's CEO and approves her compensation in consultation with the non-management members of the Board of Directors and, based on recommendations from management, reviews and approves senior management's compensation and approves compensation guidelines for all other officers. The Compensation Committee administers the Company's management recognition, incentive compensation stock option, and stock incentive plans and, in consultation with senior management, reviews and approves compensation policies. COMPENSATION DISCUSSION AND ANALYSIS

Executive Summary

Despite a challenging operating environment, Carver continued to service consumers and institutions in historically low to moderate income communities. Carver's commitment to this community continually earns the Company an Outstanding Community Reinvestment Act rating from the Office of Thrift Supervision. Our capital position continues to be strong, and was further enhanced by our participation in the U.S. Treasury Department's Capital Purchase Program (CPP) of the Emergency Economic Stimulus Act of 2008. The CPP, part of the Treasury's Troubled Asset Relief Program (TARP), provides cost efficient equity capital for growth. Despite the Company's operational achievements and the capital injection, the impact of a goodwill impairment charge of \$7.1 million and the global economic downturn that affected the entire banking industry exacted its toll on the Company's fiscal 2009 performance, resulting in posting our first fiscal year loss since 2001. Nevertheless, the Company is pursuing a strategy that will both satisfy Carver's intent to increase shareholder value and profitably provide services to our customers. For fiscal 2009, the Company used the Net Income metric to determine achievement of fiscal year goals and the annual incentive pool. After careful review of the Company's performance, the Compensation Committee of the Board of Directors (the *Committee* or the *Compensation Committee*) determined that the Company did not meet its fiscal 2009 Net Income goal and no bonuses were awarded to the Named Executive Officers pursuant to the Company's Incentive Plan.

The Board of Directors of Carver and the Compensation Committee share a strong pay-for-performance philosophy, which seeks to reward the achievement of performance goals and aligns Carver's executives' interests with those of Carver's stockholders. At the same time, Carver strives to attract and retain high performing executives of outstanding skill and capability by endeavoring to provide competitive compensation. The following discussion focuses on the Compensation Committee's philosophy and practices, particularly as it relates to Named Executive Officers (as defined below) for fiscal 2009 and provides important context for the more detailed disclosure tables and specific compensation amounts provided elsewhere in the proxy statement. The following table lists Carver's Chief Executive Officer, Senior Vice President and Controller (previously the Company's principal accounting officer), and each of the three other most highly compensated executive officers who served in such capacities during the fiscal year ended March 31, 2009 (the *Named Executive Officers*).

Name	Position with the Company During Fiscal 2009
Deborah C. Wright	Chairman and Chief Executive Officer

Compensation Philosophy

The Company's success depends on hiring and retaining highly qualified individuals, as each executive has the potential to influence its short and long-term performance. Therefore, the Committee places considerable effort on the design and administration of the Company's compensation program. Carver's competitive position is a critical element in the recruitment and retention of executives and all employees. As a small community bank in New York City, competitive pressures on the ability to attract and retain talent are intense. Most executives and staff are recruited to Carver from money center banks and other larger financial institutions.

The Committee believes that executive compensation should support Carver's unique business strategy and result in a compensation program that:

Enables Carver to attract and retain top talent by providing competitive award opportunities while at the same time effectively controlling compensation costs.

Places significant focus on incentive/performance based rewards that are contingent on achievement of Company and individual performance.

Enhances Carver's long-term stockholder value.

Carver's compensation program is significantly performance-based. As such, executive compensation can and does vary significantly, up or down, based on the Company's performance relative to strategic goals and industry peers. Carver's strategic vision and strategies are translated into specific performance goals, which the Committee considers in assessing performance and making total compensation decisions. To foster teamwork in building long-term performance and stockholder value, executive pay reflects a mix of Company, department and individual performance. Carver's assessment of compensation and performance considers a balanced view of factors critical to understanding the Company's total performance, as follows.

Internal and External Benchmarks – executive performance is measured against the Company's goals for the fiscal year as well as its external peer group, along with economic and industry factors that may impact performance or strategy.

Company and Individual performance – executives are incented to work together as a team to drive overall Company performance; however, each executive is also held accountable and rewarded for achieving individual goals.

Short and Long-Term Performance – compensation reflects a balance of short-term performance (i.e., how the Company meets its annual goals) and long-term performance (i.e., building a platform for sustained, profitable growth over multiple years).

Unique Business Model – Carver's legacy is anchored in a 60-year history of commitment to providing capital, and thereby expanding wealth enhancing opportunities, to consumers and institutions in historically low to moderate income communities. Opportunities created by a substantial expansion of economic opportunity in these communities in recent years is balanced by significantly greater competition from global institutions and persistently high rates of poverty, and therefore limited assets that can be invested by a majority of the residents of communities in which the Company operates. The Company's *Outstanding* rating by the Office of Thrift Supervision following its most recent Community Reinvestment Act examination in February 2009, noted that 55% of Carver's loans were originated in such communities, far exceeding peer institutions.

Benchmarking of Compensation

The Compensation Committee periodically benchmarks compensation of executive officers and directors utilizing publicly disclosed information from a peer group of publicly traded banks as well as published industry surveys. The frequency of the comprehensive reviews will reflect the competitive landscape as well as the Company's own growth. The last comprehensive review, conducted by Pearl Meyer & Partners, was in fiscal 2008. Although a comprehensive competitive review was not conducted for fiscal year 2009, Pearl Meyer & Partners validated the ranges for 2009.

The peer group below was approved by the Compensation Committee and reviewed by the compensation consultant to reflect banks with a similar business focus and of similar asset size and region to Carver. The peer group will be reviewed and updated, as appropriate, as the comparability of banks may change depending on acquisitions and business focus of the Company or peer institutions. The Company used the same peer group used in fiscal 2008 for its fiscal 2009 review. The peer group included banks that ranged from \$600 million to \$1.3 billion in assets with a median of \$875 million in assets. A list of banks in the peer group follows.

American Bancorp of New Jersey
Berkshire Bancorp Inc.

In addition to the peer group data, the Company used several other sources of data for cash compensation (base salary and incentive) to identify general compensation trends. Pearl Meyer & Partners provides comparative data from several northeast banking association surveys as well as published industry surveys and a proprietary database of national banking compensation data. Data reflect banks of similar asset size and region to the Company.

Compensation-Related Governance and Roles of the Committee and Others in Executive Compensation
Participation in Capital Purchase Program

On January 16, 2009, the Company entered into a Securities Purchase Agreement with the United States Treasury that provides for the Company's participation in the Capital Purchase Program under the TARP. TARP-CPP participants are required to agree to significant restrictions on executive compensation during the period in which the Treasury holds an equity position in the Company (the CPP Covered Period) as a condition of participation. In compliance with such requirements, the Company's Chief Executive Officer, principal accounting officers and the next three highest-paid executive officers (the Company's senior executive officers or SEOs) have agreed in writing to accept the compensation restrictions under the TARP and thereby limit some of their contractual or legal rights. These restrictions were in effect as of the end of fiscal 2009 and consisted of the following:

Limit on Severance. The Company was required to limit amounts that can be paid to any senior executive officer upon their involuntary separation of service to amounts not exceeding three times the terminated officer's average compensation over the five years prior to termination. The Company's senior executive officers have agreed to forego all severance payments as long as they remain senior executive officers and for the duration of the CPP Covered Period.

Claw back of Bonus and Incentive Compensation if Based on Certain Material Inaccuracies. Incentive compensation paid that is later found to have been based on materially inaccurate financial statements or other materially inaccurate measurements of performance is subject to recovery by the Company. The Company's senior executive officers acknowledge that each incentive program and each compensation or benefit agreement that incorporates incentive compensation was deemed amended to the extent necessary to give effect to such claw-back.

No Compensation Arrangements that Encourage Excessive Risks. The Company is prohibited from entering into compensation arrangements that encourage senior executive officers to take unnecessary and excessive risks that threaten the value of the Company. To insure this does not occur, the Company's Compensation Committee is required to meet at least once a year with senior risk officers to review the Company's executive compensation arrangements in light of the Company's risk management policies and practices. To the extent that such review suggests revisions to any compensation arrangement, the Company agrees to modify promptly the compensation arrangement to eliminate any undue risk. In March 2009, The Compensation Committee met with the Company's Chief Risk Officer and determined that Carver's compensation program does not encourage unnecessary risk taking by executive officers. Carver's short-term and long-term incentive programs use a broad based balance of performance measures with no one measurement dominating the payout determination. This feature greatly mitigates any incentive for a SEO to engage in unnecessary or excessive risk. The performance measures include net income, loan and deposit growth, efficiency ratio, SOX 404 compliance, New Markets Tax Credit allocation deployment and individual SEO performance throughout the year. Company and departmental goals are based upon an annual business plan submitted to and approved by the Board of Directors, whereat the Board considers the reasonableness of the plan and its goals. An SEO's individual performance is based upon actual performance compared to pre-established performance goals and actual performance compared to adjusting market and other conditions. In this connection, an SEO's incentive compensation can be reduced to zero based upon individual performance, further ensuring SEOs are not rewarded for performance that is not in Carver's best long term interests.

Limit on Federal Income Tax Deductions. During the CPP Covered Period, the Company is prohibited from taking a federal income tax deduction for compensation paid to senior executive officers in excess of \$500,000 per year.

American Recovery and Reinvestment Act of 2009

On February 17, 2009, the American Recovery and Reinvestment Act of 2009 (ARRA) became law. ARRA created compensation-related limitations in addition to the limitations under the CPP discussed above and required the Secretary of the United States Treasury to establish additional standards for executive compensation that will apply beyond the Company's senior executive officers and up to the 20 next most highly compensated employees during the CPP Covered Period. Under ARRA, the compensation standards are required to include the following:

Limit on Severance. The ARRA standards prohibit severance payments resulting from termination of employment for any reason, except for payments for services performed or benefits accrued. Under ARRA, we are prohibited from making any severance payment to the Company's senior executive officers and the next five most highly compensated employees during the CPP Covered Period.

Recovery of Incentive Compensation if Based on Certain Material Inaccuracies. The ARRA standards also contain the claw-back provision discussed above but will extend its application to any bonus or retention awards and other incentive compensation paid to any of the Company's senior executive officers and the next 20 most highly compensated employees that is later found to have been based on materially inaccurate financial statements or other materially inaccurate measurements of performance.

No Compensation Arrangements That Encourage Earnings Manipulation. The ARRA standards prohibit the Company from entering into compensation arrangements that encourage manipulation of reported earnings to enhance the compensation of any of the Company's employees.

Limits on Incentive Compensation. The ARRA standards prohibit the payment or accrual of any bonus, retention award or incentive compensation to the Company's most highly compensated employee (in Carver's case, the CEO) other than awards of long-term restricted stock that (i) do not fully vest during the CPP Coverage Period, (ii) have a value not greater than one-third of the total annual compensation of the employee and (iii) are subject to such other restrictions as determined by the Secretary of the Treasury. The prohibition on bonus, incentive compensation and retention awards does not preclude payments required under written employment contracts entered into on or prior to February 11, 2009.

Compensation Committee Functions. ARRA requires that the Company's Compensation Committee be comprised solely of independent directors and that it meets at least semiannually to discuss and evaluate the Company's employee compensation plans in light of an assessment of any risk posed to the Company from such compensation plans.

Compliance Certifications. ARRA requires a written certification by the Company's Chief Executive Officer and Chief Financial Officer of the Company's compliance with the provisions of ARRA. These certifications must be contained in the Company's Annual Report on Form 10-K that is filed after the relevant Treasury regulations are issued.

Treasury Review of Excessive Bonuses Previously Paid. ARRA directs the Secretary of the Treasury to review all compensation paid to the Company's senior executive officers and the Company's next 20 most highly compensated employees before date of enactment to determine whether any such payments were inconsistent with the purposes of ARRA or were otherwise contrary to the public interest. If the Secretary of the Treasury makes such a finding, the Secretary of the Treasury is directed to negotiate with the TARP CPP recipient and the affected employees for appropriate reimbursements to the Treasury with respect to the compensation and bonuses.

Limitation on Luxury Expenditures. The Board of Directors must have in place a company-wide policy regarding excessive or luxury expenditures, as identified by the Treasury, which may include excessive expenditures on (i) entertainment or events, (ii) office and facility renovations, (iii) aviation or other

transportation services, (iv) other unreasonable expenditures for staff development events, performance initiatives or other similar measures conducted in the normal course of business operations.

Say on Pay. Under ARRA, the SEC promulgated rules requiring a non-binding say on pay vote by shareholders on executive compensation at the annual meeting during the CPP Covered Period. The Company is implementing this provision by including the submission of Item 3, Advisory Vote on Compensation of Named Executive Officers set forth in this proxy statement.

At this time, the compensation standards under ARRA have not yet been fully developed and additional guidance from Treasury is expected. After the compensation standards have been introduced, the Committee will consider the new limitations and will determine how they impact the Company's executive compensation program.

Role of the Compensation Committee

The Compensation Committee is responsible for discharging the Board of Directors' responsibilities in executive compensation matters and establishing policies that govern employee compensation and equity and long-term incentive compensation plans. The Committee reviews all elements of the Company's CEO and other executive officers' compensation including base salary, annual incentive, long-term/equity incentives, and benefits. Three members of the Board serve on the Committee, each of whom is independent. The Committee met five times during fiscal 2009 (May 14, 2008, May 20, 2008, June 11, 2008, November 13, 2008 and March 30, 2009). The Chairman of the Committee reported on Committee actions at subsequent meetings of the Board of Directors.

The Committee reviews CEO performance and makes decisions regarding the CEO's compensation in consultation with non-management members of the Board of Directors. Input and data from the Senior Vice President and Chief Human Resources Officer and other management as well as outside consultants and advisors are provided as requested by the Committee. Decisions regarding other executives are made by the Compensation Committee considering recommendations from the CEO and with input from the Senior Vice President and Chief Human Resources Officer and an outside compensation consultant. Decisions by the Compensation Committee with respect to compensation of the CEO are ratified by the full Board of Directors.

The Committee has the authority and resources to obtain advice and assistance from internal or external legal, human resources, accounting or other experts, advisors, or consultants, as it deems desirable or appropriate. Details on the Committee's role are more fully described in its charter, which has been approved by the Board of Directors. The charter can be viewed on the Company's website at www.carverbank.com.

Interaction with the Compensation Consultant

The Committee utilizes the services of external advisors and consultants throughout the year regarding executive compensation. The Committee utilizes the services of its consultant to conduct periodic comprehensive total compensation studies as well as ongoing updates on market and best practices. This information was requested and utilized as needed to support the Committee's decisions and review processes. The Committee retains the right to hire, fire and seek the services of consulting and advisory firms.

During fiscal 2009, the Committee relied on the services of Pearl Meyer & Partners (*PM&P*) to provide advice and counsel related to executive compensation issues. The Committee had direct access to these advisors and *PM&P* reports directly to the Committee. *PM&P* conducted several studies for the Committee during the fiscal year and attended its five meetings (in person or by phone) held in fiscal 2009.

PM&P reports directly to the Compensation Committee and under the direction of the Committee may work with management on specific issues or assignments as appropriate. During fiscal 2009 *PM&P* worked with management to complete the compensation tables presented in the following pages and to insure the Company's incentive programs continue to be in-line with best practices.

Role of Executives in Committee Deliberations

The Compensation Committee occasionally requests one or more members of senior management to be present at Committee meetings where executive compensation and Company or individual performance are discussed and evaluated. Executives are free to provide insight, suggestions or recommendations regarding executive compensation. However, only the Compensation Committee members are allowed to vote on decisions regarding executive compensation.

The Compensation Committee meets with the CEO to discuss her own performance and compensation package, but ultimately decisions regarding her compensation are made solely based upon the Committee's deliberations with input from the compensation consultant, as requested. Decisions regarding executives reporting directly to the CEO are made by the Compensation Committee considering recommendations from the CEO, as well as input from the compensation consultant as requested.

Total Compensation Program Components

Carver's total compensation program consists of four main components: Base Salary, Annual Incentives, Long-term Incentives, and Executive Benefits/Perquisites. The following section summarizes the role of each component, how decisions are made and resulting fiscal 2009 decisions as they relate to the Named Executive Officers.

Base Salary

The purpose of base salary is to provide competitive base compensation that recognizes the executives' role, responsibilities, experience, performance and past and potential contribution to the Company. The Company targets salaries at the 50th percentile of the peer group; however, judgment is exercised in determining each executive's situation relative to market. As a result, experienced and/or high performing executives may be paid above the market median and less experienced or average performing executives may be paid below the market median. In practice, the Bank has provided salary increases at approximately 3% - 4% annually for the last four years, with limited exceptions to reflect factors including added responsibilities for an executive or marketplace changes in compensation for a particular position.

Short-Term Incentives

The Company's Performance-Driven Incentive Plan (the Incentive Plan) was developed in 2004 with the assistance of the executive compensation-consulting firm, Towers Perrin. The purpose of the annual incentive plan is to motivate and reward corporate, department and individual performance. Performance goals are set annually and reviewed by the Board and payouts are based on achievement of the predefined goals.

The Compensation Committee has determined that the primary goal and driver of incentive pay awards is achievement of forecasted Net Income based on the fiscal year business plan prepared by management and approved by the Board at the beginning of each fiscal year. Each fiscal year, a funding schedule is developed that translates incentive payouts relative to the fiscal year-end Net Income. If the Company does not achieve a minimum of 80% of target Net Income, the incentive pool is not funded and executives may not receive an annual cash incentive for that fiscal year.

The incentive pool at target performance is defined to provide competitive incentives and to reflect Carver's desired compensation philosophy to target median rewards for meeting profit goals. At the 80% of the Net Income threshold, the corporate incentive pool funds at a reduced payout of 50% of target. At maximum/stretch performance, the corporate pool funds at 150% of target. This program design provides a payout relationship that rewards high performance and reduces payouts for lower achievement of goals. Potential payouts and incentive pool funding are modeled each year relative to projected Net Income performance to ensure the pay-for-performance relationship is appropriate. However, the Committee can approve discretionary awards outside of the bonus pool on an individual basis, where the Committee deems it appropriate.

Corporate performance, as measured by Net Income, drives between 40% - 75% of the executives' incentive awards depending on his/her role. The remaining percentage consists of other specific department/strategic goals that reflect critical measures for the fiscal year. CEO and CFO incentives are comprised of 75% corporate performance and 25% department/strategic goals. Annual incentives for additional executives range from 40% - 50% corporate performance and 50% - 60% department performance.

The department/strategic goals for the management team in fiscal 2009 included the following measures:

Organic loan and deposit growth

Increased fee income or other items leading to improved return on equity

Improved efficiency ratio

Deploy New Markets Tax Credit allocation, generating tax savings for the Company

In addition to these corporate and divisional goals, the Plan's design includes an individual modifier that allows incentive awards to be modified (up or down) to reflect overall individual performance and contributions. As such, an individual incentive award can be increased by 30% for exceptional performance or reduced to 0% for poor performance.

For fiscal 2009, the Company's annual target incentive ratios for the Named Executive Officers were as follows:

Executive	Target Incentive Ratio	Potential Range	
	(as percentage of salary)	(with additional 30% upside potential)	
CEO Deborah Wright	50%	0%	97.5%
CFO Roy Swan	30%	0%	58.5%
Charles F. Koehler	25%	0%	48.8%
James Bason, Jr.	25%	0%	48.8%
Susan M. Ifill	25%	0%	48.8%
Michael Trinidad	20%	0%	39.0%
Thomas Sperzel	20%	0%	39.0%

Annual incentives when awarded are not fixed compensation, must be re-earned each year and are based on actual performance. The Compensation Committee reviews the Incentive Plan each year and resets the specific goals and targets for executives to align with business needs and the desired compensation philosophy.

As discussed earlier in this document, for fiscal 2009, the Company used the Net Income metric to determine achievement of fiscal year goals and the annual incentive pool. After careful review of the Company's performance, the Committee determined that the Company did not meet its fiscal 2009 Net Income goal and no bonuses were awarded to the Named Executive Officers pursuant to the Company's Incentive Plan.

Long-Term Incentive Compensation

The Company believes strongly in the importance of aligning executive incentives with the long-term performance of the Company and interests of stockholders. The purpose of the Company's long-term incentive plan (the *Plan*) is to promote the Company's growth and profitability, to provide certain officers and employees with an incentive to achieve corporate objectives, to attract and retain individuals of outstanding competence and to provide initial grants to new non-employee directors of the Company. The Plan is also designed to align participants' interests with stockholders of the Company and serves as a retention tool for key members of management.

The Compensation Committee reviews the Plan each year and establishes specific goals and targets for executives that are aligned with business objectives and the Company's compensation philosophy. As a demonstration of the Company's desire for long-term shareholder alignment, the Committee selected Return on Equity (ROE) as the performance measure for allocating and vesting awards. Similar to the annual incentive plan, if the Company does not achieve threshold performance, or 80% of goal, no long-term incentive awards are granted for that fiscal year.

Historically, long-term incentives had been made in the form of stock options and restricted stock. However, due to the size of the Company, limited trading and low volatility of the Company's stock, and the Company's desire to manage shareholder dilution carefully, the Committee has diligently taken steps to adjust the Company's programs to remain consistent with industry practice. The Committee will continue to review and adjust, if needed, the effectiveness of its strategy and payout mix each fiscal year, to achieve a burn rate consistent with industry peers. For fiscal 2009, the long-term incentive award mix was 80% cash and 20% restricted stock.

The long-term incentive plan payout ratios for fiscal 2009 for the Named Executive Officers are as follows:

Executive	Target Award
CEO Deborah Wright	60%
CFO Roy Swan	30%
Charles F. Koehler	25%
James Bason, Jr.	25%
Susan M. Ifill	25%
Michael Trinidad	20%
Thomas Sperzel	20%

Regardless of the type of award (stock options, restricted stock, or cash), under the Company's current incentive plan, the awards vest over a five-year period, at 20% each year on the anniversary of the grant date with accelerated vesting in years three and four if the Company meets or exceeds the current peer group's average three-year ROE. The Company did not meet its fiscal 2009 ROE goal and the Committee did not award any long-term incentives to the Named Executive Officers for fiscal 2009 performance.

The Company's current compensation structure was developed based on recommendations and models presented by Towers Perrin. The plan includes three integrated parts: (1) a grading structure based on the employee's corporate level; (2) an annual cash bonus target and a long-term incentive target based on a recommended performance measure; and (3) an individual performance modifier based on a manager's assessment of an individual's performance.

At each fiscal year-end, a model is used to calculate bonuses as a percentage of base pay for bonus-eligible employees and takes into account the employee's grade level, corporate performance, departmental performance against goals, and individual performance. Departmental and individual performance goals are defined and communicated to managers and employees during the budget and performance appraisal processes, which occur at the beginning of each fiscal year. Long-term incentives are provided to executive officers in the form of restricted stock, stock options or cash.

Awards are granted under the plan in effect at the time of the award. On January 16, 2009, the Company completed a financing transaction with the United States Treasury under the Troubled Asset Relief Program (TARP). As a result of the passage of the American Recovery and Reinvestment Act of 2009, all participants in TARP transactions are required to comply with substantial restrictions on executive compensation. These restrictions impact the terms of the Named Executive Officers' employment agreements and those other agreements described under Potential Payments Upon Termination or Change in Control. See Recent Legislation and its Impact on Executive Compensation.

The following table sets forth information regarding grants of Plan-based awards granted to the Named Executive Officers during the last fiscal year.

(1) The threshold amounts reflect the minimum payment level under the Company's current incentive compensation plans, which is 50% of the target amount. The maximum amount is 150% of the target amount plus up to an additional 30% for exceptional performance. These amounts are based on the individual's base

salary and position at the end of the fiscal year.

- (2) The equity threshold amounts reflect the same minimums and maximums discussed in footnote (1). The stock award thresholds are based on the calculated cash value pursuant to the Company's incentive compensation plan divided by the share price of \$3.41 on 3/31/09. No option awards were granted in the fiscal year. Option award thresholds, if awarded, would have been based on the calculated cash value pursuant to the Company's incentive compensation plan, a fiscal year end Black-Scholes value and the share price on 3/31/09. To reduce dilution and maintain a 3-year average burn-rate in line with industry

practices, fiscal 2008 equity awards were limited to restricted stock equal to 20% of the value of the long-term incentive award with the remaining 80% given in cash with the same vesting schedule as the equity awards. The mix of restricted stock, options and cash may change from year to year to limit shareholder dilution.

- (3) The amounts reflect the number of shares of stock granted in the fiscal year ended 3/31/09 for fiscal 2008 performance to each Named Executive Officer pursuant to the Company's Stock Incentive Plan.
- (4) The amounts reflect the value of the shares of stock at \$8.50 per share on the grant date.

The following table sets forth information regarding stock awards, stock options and similar equity compensation outstanding at March 31, 2009, whether granted during fiscal 2009 or earlier. No awards have been transferred.

Nonqualified Deferred Compensation Plans

The Company did not have any non-qualified deferred compensation plans in fiscal 2009.

Benefits and Perquisites

The Company's executive officers participate in benefit plans available to all employees including the Carver Federal Savings Bank 401(k) Savings Plan. The Company does not currently offer additional perquisites in excess of \$10,000 per year.

Benefits Plans

Pension Plan. The Carver Federal Savings Bank Retirement Income Plan is a noncontributory, tax-qualified defined benefit plan (the *Pension Plan*). The Pension Plan was amended such that future benefit accruals ceased as of December 31, 2000. Since that date, no new participants were eligible to enter into the Pension Plan and participants as of such date have not been credited with additional years of service or increased compensation.

The following table sets forth information regarding pension benefits accrued by the Named Executive Officers during the last fiscal year.

(1) The Company's defined benefit pension plan was frozen 12/31/2000. Active employees with at least one year of service on December 31, 2000 are eligible to receive a benefit under the Plan should the Plan be terminated. The amount of the benefit will be calculated

based on age, credited years of service and pay at the time the plan was frozen. Employees with more than five years of service on December 31, 2000 who reach retirement age before the Plan is terminated are eligible for a benefit calculated based on the Plan's definitions of earnings and eligibility. Ms. Wright is the only Named Executive Officer in the plan.

401(k) Savings Plan. The Company maintains a 401(k) Savings Plan (*401(k) Plan*) with a profit sharing feature for all eligible employees of the Company. The Company matches contributions to the 401(k) Plan equal to 100% of pre-tax contributions made by each employee up to a maximum of 4% of their pay, subject to IRS limitations. All such matching contributions are fully vested and non-forfeitable at all times regardless of the years of service with the Bank. To be eligible for the matching contribution, the employee must be 21 years of age and have completed at least three months of service. Under the profit-sharing feature, the Company has the discretion to make a contribution. If the Bank achieves a minimum of 70% of its fiscal year performance goal, the Compensation Committee may authorize an annual non-elective contribution to the 401(k) Plan on behalf of each eligible employee up to 2% of the employee's annual pay, subject to IRS limitations. This non-elective contribution, if made, is awarded regardless of whether the employee makes voluntary contributions to the 401(k) Plan. Non-elective Company contributions vest 20% each year for the first five years of employment and are fully vested thereafter. To be eligible for the non-elective company contribution, the employee must be 21 years of age, have completed at least one year of service and be employed on the last day of the plan year, currently December 31, or have terminated employment for death, disability or retirement. The Company did not award a non-elective contribution for the 401(k) Plan year that ended December 31, 2008.

Employee Stock Ownership Plan. Effective upon conversion to a publicly traded company, an Employee Stock Ownership Plan (*ESOP*) was established for all eligible employees. The ESOP used proceeds from a term loan obtained from a third-party institution to purchase shares of Carver's common stock in the initial public offering to pledge as collateral for the loan. In June 2004, the loan was paid off and the Bank continued to make discretionary contributions to the ESOP by purchasing shares in the open market. This was in accordance with Carver's common stock repurchase program where shares are held in a suspense account for future allocation among the participants based on compensation, as described by the Plan, in the year of allocation. In May 2006, the Compensation Committee approved management's recommendation and voted to freeze the ESOP. Discretionary contributions ceased and no new participants were eligible to enter the ESOP after December 31, 2006.

Employment and Other Agreements with Executive Officers

As of June 1, 1999, both Carver and Carver Federal entered into employment agreements to secure the services of Deborah C. Wright as President and CEO. The employment agreements are intended to set forth the aggregate compensation and benefits payable to Ms. Wright for all services rendered to them and any of their subsidiaries. Both employment agreements provided for an initial term of three years beginning June 1, 1999 and, pursuant to the terms of the employment agreements, each year thereafter have been extended an additional year following a review of Ms. Wright's performance by the Compensation Committee and the Board of Directors.

In addition, the employment agreements provide for an annual incentive payment based on the achievement of certain performance goals, future grant of stock awards, a supplemental retirement benefit, additional life insurance protection and participation in the various employee benefit plans maintained by Carver and Carver Federal from time to time. The agreements also provide customary corporate indemnification and errors and omissions insurance coverage throughout the term of the agreements and for six years thereafter.

Carver may terminate Ms. Wright's employment at any time for cause as defined in the employment agreements. In the event that Carver terminates Ms. Wright's employment for reasons other than for cause, she would be entitled to a severance benefit equal in value to the cash compensation, retirement and other fringe benefits she would have earned had she remained employed for the remaining term of the agreements. The same severance benefits would be available if Ms. Wright resigns during the term of the employment agreements following a loss of title, office or membership on the Board; a material reduction in her duties, functions or responsibilities; involuntary relocation of her principal place of employment by over 30 miles from its location as of June 1, 1999, other material breaches of contract by Carver that are not cured within 30 days; or, in certain circumstances, a change in control. In the event of a change in control, the remaining term of Ms. Wright's agreement with Carver at any point in time will be three years unless written notice of non-renewal is given by the Board or Ms. Wright.

A portion of the severance benefits payable to Ms. Wright under her employment agreements in the event of a change in control might constitute *excess parachute payments* under current federal tax laws. Federal tax laws impose a 20% excise tax, payable by the executive, on excess parachute payments. In the event that any amounts paid to Ms. Wright following a change of control would constitute *excess parachute payment*, Ms. Wright's employment agreement with Carver provides that she will be indemnified for any excise taxes imposed due to such excess parachute payments, and any additional income and employment taxes imposed as a result of such indemnification of excise taxes. Any excess parachute payments and indemnification amounts paid will not be deductible compensation expenses for the Company.

Letter Agreements

The Company entered into letter employment agreements with Mr. Swan, Mr. Bason, Mr. Trinidad, Mr. Sperzel and Ms. Ifill. Generally, each letter employment agreement provides for *at-will* employment and compensation in the form of base salary and benefits continuation based on length of service and in certain instances, a one-time payment. Mr. Swan, Mr. Trinidad and Ms. Ifill resigned from the Company during fiscal 2009 and did not receive additional compensation beyond their termination dates other than salary and benefits previously earned.

In conjunction with the Company's acquisition of Community Capital Bank, the Company entered into an employment agreement with the former President and CEO of Community Capital Bank, Mr. Charles F. Koehler, to secure his services as the Executive Vice President of the Lending Division. The employment agreement with Mr. Koehler set forth the aggregate compensation and benefits payable to Mr. Koehler for all services rendered to the Company and any of its subsidiaries for an initial term of 18 months beginning October 1, 2006 and ending March 31, 2008. Mr. Koehler's employment agreement was amended and provided a second term of 12 months, ending March 31, 2009. Mr. Koehler resigned from the Company effective February 27, 2009 and did not receive additional compensation beyond his termination date other than earned salary and benefits.

Change in Control Arrangements

In the event of a change in control, pursuant to her employment agreement, Ms. Wright is eligible for three years of base salary and benefits continuation. Pursuant to their letter agreements, as of March 31, 2009, Mr. Bason is and Mr. Sperzel would have been eligible for 39 weeks of base salary and benefits continuation. Notwithstanding their change in control arrangements, the Company's senior executive officers have agreed in writing to accept the ARRA standards discussed earlier in this document. Under ARRA, during the period in which the Treasury holds an equity position in the Company, the Company is prohibited from paying severance resulting from termination for any reason, except for payments for services performed or benefits accrued.

The following table reflects the amount of compensation to each of the Named Executive Officers in the event of termination of such executive's employment under such executive's employment agreement or employment letter. The amount of compensation payable to each Named Executive Officer upon voluntary termination, early retirement, involuntary not-for-cause termination, termination following a Change in Control (*CIC*) or in the event of disability or death of the executive is shown. The amounts assume that such termination was effective as of March 31, 2009, and thus includes amounts earned through such time or are estimates of the amounts, which would be paid to the Named Executive Officers upon their termination. The actual amounts to be paid can only be determined at the time of such executive's separation from the Company.

Recent Legislation and Its Impact On Executive Compensation

On January 16, 2009, the Company completed a financing transaction with the United States Treasury under the TARP. The Company is therefore subject to these restrictions, and would be unable to make any of the payments described above under the caption Potential Payments Upon Termination or Change in Control. To comply with these restrictions, Ms. Wright and Messrs. Bason and Sperzel have signed agreements waiving their respective rights to severance payments for so long as the Company is legally prohibited from making such payments.

On February 17, 2009, the American Recovery and Reinvestment Act (ARRA) became law. Under the Act, all institutions that have received government investments under the TARP are required to comply with new executive compensation restrictions. Among other things, these restrictions prohibit the payment of severance to the Company's senior executive officers upon their departure from the institution for any reason. In addition, for institutions like the Company that have received less than \$25 million under the TARP, the institution's highest paid executive officer may not receive a cash bonus, but may receive a bonus in the form of restricted stock provided that (i) the restricted stock does not vest until the Treasury's investment is redeemed, and (ii) the value of the restricted stock does not exceed one-third of the officer's annual compensation. These restrictions remain in place for so long as the government's investment in the institution is outstanding.

Director Compensation

The Chairman of the Board of Directors is currently the Chief Executive Officer and does not receive any additional compensation for serving as the Board Chairman. The Company's outside directors are paid an annual cash retainer of \$10,000 to serve as a Director of both Carver and Carver Federal and receive a meeting fee of \$600 for Board Meetings attended and \$700 per Executive Committee meeting attended. The chairs of the Asset Liability and Interest Rate Risk Committee (ALCO) and Audit committees receive an annual retainer of \$7,500 and \$5,000, respectively, and a meeting fee of \$650. The chairs of the remaining committees receive an annual retainer of \$1,500 and all committee members including the chairs thereof receive \$475 per committee meeting attended. Upon shareholder approval of new directors, the Compensation Committee may approve a grant of 1,000 shares of restricted stock and 1,000 stock options, which vest pursuant to the Company's incentive plan in effect at the time of the grant.

The following table sets forth information regarding compensation earned by the non-employee directors of the Company during the last fiscal year.

Impact of Accounting and Tax on the Form of Compensation

The Compensation Committee and the Company consider the accounting and tax (individual and corporate) consequences of the compensation plans prior to making changes to the plans. The Compensation Committee has considered the impact of the Statement of Financial Accounting Standard No. 123, or SFAS No. 123, as issued by the FASB in 2004, on the Company's use of equity incentives as a key retention tool.

As part of its role, the Compensation Committee also reviews and considers sections of the Internal Revenue Code (*IRC*), including but not limited to, Golden Parachutes Under IRC Section 280(g) and the deductibility of executive compensation under Section 162(m) which limits deduction of compensation paid to Named Executive Officers to \$1,000,000 unless the compensation is *performance-based* . This applies to base salary, all cash incentive plans and equity grants other than stock options. During fiscal 2009, no employee received taxable compensation in excess of \$1,000,000 and therefore, deductibility of compensation was not limited by these sections of the IRC.

Option Granting Practices

The timing of the Company's option grants has historically been and continues to be determined upon appointment to the Board, upon hire, or in conjunction with incentive grants after the Company's fiscal year end and approved by the Compensation Committee. In fiscal 2009, no options were granted to Named Executive Officers. When granted, however, grants vest pursuant to the Company's incentive plan in effect at the time of the grant.

Ownership Guidelines

The Company regularly reviews the ownership levels of its directors and officers and has not established minimum stock ownership guidelines as the Company's directors and the Named Executive Officers collectively own a significant amount of Company Stock.

Conclusion

The Compensation Committee retains the discretion to decrease all forms of incentive payouts based on significant individual or Company performance shortfalls. Likewise, the Committee retains the discretion to increase payouts and/or consider special awards for significant achievements, including but not limited to superior asset management, investment or strategic accomplishment and/or consummation of beneficial acquisitions.

Overall, the level and mix of compensation that is finally decided upon is considered within the context of both the objective data from Carver's competitive assessment of compensation and performance, as well as discussion of the subjective factors as outlined above. The Compensation Committee believes that each executive's compensation is within the competitive range of practices when compared to the objective comparative data and reasonable given Company and individual performance.

Securities Authorized for Issuance Under Equity Compensation Plans

The following table sets forth information about the shares of Voting Stock authorized by Carver for issuance under equity compensation plans as of March 31, 2009.

Plan Category	Number of securities to be issued upon exercise of outstanding options, warrants and rights	Weighted-average price of outstanding options, warrants and rights	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a))
Equity compensation plans approved by security holders	235,766	\$ 13.12	117,553
Equity compensation plans not approved by security holders			
Total	235,766	\$ 13.12	117,533

The Company's Stock Incentive Plans do not provide for re-pricing of stock options, which is the cancellation of shares in consideration of the exchange for other stock options to be issued at a lower price, and the Company has not acted to re-price stock options.

ADDITIONAL INFORMATION

Date for Submission of Stockholder Proposals

In accordance with SEC rules and Carver's Bylaws, any stockholder wishing to have a proposal considered for inclusion in Carver's proxy statement and proxy card relating to the annual meeting of stockholders for the fiscal year ending March 31, 2010 must, in addition to other applicable requirements, set forth such proposal in writing and file it with the Secretary of Carver either: (1) on or before October 18, 2010, if Carver's next annual meeting of stockholders is within 30 days of the anniversary date of the Annual Meeting; or (2) a reasonable time before Carver begins to print and mail its proxy materials, if the date of next fiscal year's annual meeting is changed by more than 30 days from the date of the Annual Meeting.

Notice of Business to be Conducted at Annual Meeting

Carver's Bylaws provide an advance notice procedure for a stockholder to properly bring business before an annual meeting or to nominate any person for election to Carver's Board of Directors. The stockholder must be a stockholder of record and have given timely notice thereof in writing to the Secretary of Carver. To be timely, a stockholder's notice must be delivered to or received by the Secretary not later than the following dates: (1) with respect to an annual meeting of stockholders, 60 days in advance of such meeting, if such meeting is to be held on a day which is within 30 days preceding the anniversary of the previous fiscal year's annual meeting, or 90 days in advance of such meeting if such meeting is to be held on or after the anniversary of the previous fiscal year's annual meeting; and (2) with respect to an annual meeting of stockholders held at a time other than within the time periods set forth in the immediately preceding clause, the close of business on the 10th day following the date on which notice of such meeting is first given to stockholders. Notice shall be deemed to be first given to stockholders when disclosure of such date of the meeting of stockholders is first made in a press release reported to Dow Jones News Services, Associated Press or comparable national news service, or in a document publicly filed by Carver with the SEC pursuant to Section 13, 14 or 15(d) of the Exchange Act. A stockholder's notice to the Secretary of Carver shall set forth such information as required by the Bylaws of Carver. Nothing in this paragraph shall be deemed to require Carver to include in its proxy statement and proxy card relating to an annual meeting any stockholder proposal or nomination that does not meet all of the requirements for inclusion established by the SEC in effect at the time such proposal or nomination is received. See Date for Submission of Stockholder Proposals.

Householding of Proxy Materials

The SEC has adopted rules that permit companies and intermediaries (e.g., brokers) to satisfy the delivery requirements for proxy statements and annual reports with respect to two or more stockholders sharing the same address by delivering a single proxy statement addressed to those stockholders. This process, which is commonly referred to as householding, potentially means extra convenience for stockholders and cost savings for companies. This year, Carver expects that a number of brokers with account holders who are our stockholders will be householding its proxy materials. A single proxy statement will be delivered to multiple stockholders sharing an address unless contrary instructions have been received from the affected stockholders. Once you have received notice from your broker that they will be householding communications to your address, householding will continue until you are notified otherwise or until you revoke your consent. If, at any time, you no longer wish to participate in householding and would prefer to receive a separate proxy statement and annual report, please notify your broker. Stockholders who currently receive multiple copies of the proxy statement and annual report at their address and would like to request householding of their communications should contact their broker. In addition, Carver will promptly deliver, upon written or oral request to its address or telephone number below, a separate copy of the proxy materials and annual report to a stockholder at a shared address to which a single copy of the documents was delivered. Direct your written request to Carver at Carver Bancorp Inc., 75 West 125th Street, New York, New York 10027; Attention: Secretary, or contact us at (212) 360-8824.

Other Matters

As of the date of this proxy statement, the Board of Directors does not know of any other matters to be brought before the stockholders at the Annual Meeting. If, however, any other matters not now known are properly brought before the Annual Meeting, the persons named in the accompanying proxy card will vote the shares represented by all properly executed proxies on such matters using their best judgment.
