2010 Annual Meeting of Shareholders**

This Proxy Statement is furnished in connection with the solicitation by the Board of Directors of Key Technology, Inc. (the Company) of proxies to be voted at the 2010 Annual Meeting of Shareholders of the Company to be held beginning at 8:00 a.m. on Wednesday, February 3, 2010 at the offices of Tonkon Torp LLP, 1600 Pioneer Tower, 888 SW Fifth Avenue, Portland, Oregon, and at any adjournments or postponements thereof. If proxies in the accompanying form are properly executed, dated and returned prior to the voting at the meeting, the shares represented thereby will be voted as instructed on the proxy. The persons named as proxies will use their discretionary authority on such other business as may properly come before the meeting or any adjournments or postponements thereof.

Any proxy may be revoked by a shareholder prior to its exercise upon written notice to the Secretary of the Company, by delivering a duly executed proxy bearing a later date, or by the vote of a shareholder cast in person at the Annual Meeting. **VOTING**

Holders of record of the Company's Common Stock on December 4, 2009 will be entitled to vote at the Annual Meeting or any adjournments or postponements thereof. As of that date, there were 5,260,734 shares of Common Stock outstanding and entitled to vote. A majority of outstanding shares as of December 4, 2009, or 2,630,368 shares, will constitute a quorum for the transaction of business at the Annual Meeting. Each share of Common Stock entitles the holder to one vote in the election of directors and on any other matter that may properly come before the meeting. Abstentions and broker non-votes will be counted toward the quorum requirement for the Annual Meeting, but will not be counted for or against any proposal. Directors are elected by a plurality of the votes cast by holders of the shares if a quorum is present. All other matters will be approved if the number of votes cast by shareholders in favor of the proposal exceeds the number of votes cast opposing the proposal. Shareholders are not entitled to cumulative voting in the election of directors or with respect to any other matter. For shares held through a broker or other nominee that is a New York Stock Exchange member organization, if a matter to be voted on is considered routine, the broker has discretion to vote the shares. If the matter to be voted on is determined to be non-routine, the broker may not vote the shares without specific instructions from the shareholder. Uncontested director elections are not considered routine matters.

**PROPOSAL 1  
ELECTION OF DIRECTORS**

The Board of Directors currently comprises six directors. The directors are divided into three classes, each consisting of two directors. One class is elected each year for a three-year term.

The two nominees recommended by the Nominating and Corporate Governance Committee and nominated by the Board of Directors for election as directors at this year's Annual Meeting, to serve until the Annual Meeting of Shareholders in 2013 or until their respective successors are elected, are John E. Pelo and Charles H. Stonecipher. Both of the nominees for director are independent, as defined under the rules of the NASDAQ Global Market®.

If a nominee is unable or unwilling to serve as a director at the date of the Annual Meeting or any adjournment or postponement thereof, the proxies may be voted for a substitute nominee designated by the proxy holders or by the present Board of Directors to fill such vacancy, or for another properly designated nominee without nomination of a substitute, or the number of directors on the Board may be reduced accordingly. The Board of Directors has no reason to believe that any of the nominees will be unwilling or unable to serve if elected.

**The Board of Directors recommends a vote FOR the election of Messrs. Pelo and Stonecipher.**

The following table sets forth certain information about each nominee for election to the Company's Board of Directors, each continuing director and each executive officer who is not also a director. Stock ownership information is shown elsewhere in this Proxy Statement under the heading "Principal Shareholders - Security Ownership of Certain Beneficial Owners and Management" and is based upon information furnished by the respective individuals. ### **Meetings and Committees**

During fiscal 2009, the Board of Directors held nine meetings. No director attended fewer than 75% of the total number of meetings of the Board of Directors and the committees of which he was a member during fiscal 2009.

The Board of Directors does not currently have a policy with regard to the attendance of board members at the annual meeting of shareholders. All of the current directors of the Company attended the Company's 2009 Annual Meeting of Shareholders.

The Board of Directors has determined that a majority of its directors presently meet the independence standards established under the applicable rules of the Securities and Exchange Commission and the NASDAQ Global Market. These directors are Messrs. Lawrence, Pelo, Shannon, Stonecipher and Washburn.

The Company maintains a standing Audit Committee, Compensation and Management Development Committee and a Nominating and Corporate Governance Committee. All of the Committees are engaged in their respective areas of responsibility throughout the year, and frequently interact with the Chief Executive Officer and the Chief Financial Officer in furtherance of the Committees' tasks and the Company's goals and objectives.

The Audit Committee consists of four members: Mr. Pelo, Chairman, Mr. Lawrence, Mr. Stonecipher, and Mr. Washburn. All of the Audit Committee members are independent, as defined under the rules of the NASDAQ Global Market. The Audit Committee operates under a written charter adopted by the Board of Directors, which is available on the Company's website at [www.key.net](http://www.key.net). The function of the Audit Committee is to review the performance of and recommend to the Board of Directors the appointment of the Company's independent registered public accountants, to review and approve the scope and proposed cost of the yearly audit, to review the financial information provided to shareholders and others, to review the Company's internal controls, and to consult with and review recommendations made by the Company's independent registered public accountants with respect to financial statements, financial records and internal controls, and to make such other recommendations to the Board of Directors as it deems appropriate from time-to-time. The Audit Committee met eleven times during fiscal 2009.

The Compensation and Management Development Committee consists of three members: Mr. Shannon, Chairman, and Mr. Lawrence and Mr. Washburn. All of the Compensation and Management Development Committee members are independent, as defined under the rules of the NASDAQ Global Market. The Committee operates under a written charter adopted by the Board of Directors, which is available on the Company's website at [www.key.net](http://www.key.net). The Committee is charged with reviewing and approving corporate goals and objectives relevant to compensation of the Company's chief executive officer, evaluating the chief executive officer's performance in light of those goals and objectives, and determining and approving the compensation level of the chief executive officer based on this evaluation. The Committee is also charged with, among other matters, considering and making recommendations to the Board of Directors regarding the compensation of the senior executives of the Company;

**Table of Contents**

and considering, reviewing and granting awards under the Company's stock incentive plans and cash bonus plans for senior executives administered by the Committee. The Committee also oversees management development and succession plans for the Company. The Committee has delegated to the Chief Executive Officer the authority to make discretionary awards of restricted stock each year up to a pre-determined aggregate number of shares to non-executive managers, individual contributors, and new hires for the purposes of retention and recruitment. For fiscal 2010, the Committee authorized up to a cumulative total of 33,000 shares that may be awarded under this discretionary program. The Committee met four times during fiscal 2009, and on numerous other occasions during the year. Committee members consulted with each other and with management in furtherance of the Committee's business.

The Nominating and Corporate Governance Committee consists of five members: Mr. Washburn, Chairman, Mr. Lawrence, Mr. Pelo, Mr. Shannon and Mr. Stonecipher, all of whom are independent directors as defined under the rules of the NASDAQ Global Market. The Committee operates under a written charter adopted by the Board of Directors, which is available on the Company's website at [www.key.net](http://www.key.net). The Committee is responsible for providing guidance and recommendations with respect to Board education and development, identifying qualified candidates who may become future members of the Board, and developing and monitoring compliance with corporate governance principles. The Committee met four times during fiscal 2009.

The Nominating and Corporate Governance Committee receives suggestions for potential director nominees from many sources, including members of the Board of Directors, advisors, and shareholders. Any such nominations, together with appropriate biographical information, should be submitted to the Committee in accordance with the Company's policies governing submissions of nominees discussed below. Any candidates submitted by a shareholder or shareholder group will be reviewed and considered by the Committee in the same manner as all other candidates.

Qualifications for consideration as a board nominee may vary according to the particular areas of expertise being sought as a complement to the existing board composition. However, minimum qualifications include high level leadership experience in business activities, breadth of knowledge about issues affecting the Company, experience on other boards of directors, preferably public company boards, and time available for meetings and consultation on Company matters. The Nominating and Corporate Governance Committee seeks a diverse group of candidates who possess the background, skills and expertise to make a significant contribution to the Board, to the Company and its shareholders. The Committee evaluates potential nominees, whether proposed by shareholders or otherwise, by reviewing their qualifications, reviewing results of personal and reference interviews, and reviewing such other information as may be deemed relevant. Candidates whose evaluations are favorable are then chosen by a majority of the members of the Nominating and Corporate Governance Committee to be recommended for selection by the Board of Directors. The Board selects and recommends candidates for nomination as directors for shareholders to consider and vote upon at the annual meeting. The Company does not currently employ an executive search firm, or pay a fee to any third party, to locate qualified candidates for director positions.

A shareholder wishing to nominate a candidate for election to the Company's Board of Directors at any annual meeting at which the Board has determined that one or more directors will be elected shall submit a written notice of his or her nomination of a candidate to the Company's Secretary at its principal executive offices. The submission must be received at the Company's principal executive offices not less than 120 calendar days before the date the Company's proxy statement was released to shareholders in connection with the previous year's annual meeting. For the 2011 annual meeting, this date would be September 7, 2010. However, if the Company did not hold an annual meeting the previous year, or if the date of this year's annual meeting has been changed by more than 30 days from the date of the previous year's meeting, then the deadline is a reasonable time before the Company begins to print and mail its proxy materials.

A shareholder's notice to the Secretary in order to be valid must set forth (i) the name and address, as they appear on the Company's books, of the shareholder nominating such candidate; (ii) the class and number of shares of the Company which are beneficially owned by the shareholder; (iii) the name, age, business address and residence address of each nominee proposed in the notice; (iv) the principal occupation or employment of the nominee; (v) the number of shares of the Company's Common Stock beneficially owned by the nominee, if any; (vi) a description of all arrangements or understandings between the shareholder and each nominee and any other person pursuant to which the shareholder is making the nomination; and (vii) any other information required to be

disclosed in solicitations of proxies for election of directors or information otherwise required pursuant to Regulation 14A under the Securities Exchange Act of 1934, as amended, relating to any person that the shareholder proposes to nominate for election or re-election as a director, including the nominee's written consent to being named in the proxy statement as a nominee and to serving as a director if elected.

The Company has adopted the Key Technology, Inc. Code of Business Conduct and Ethics which applies to all of the Company's directors and employees, including its chief executive officer and senior financial officers. The Code of Business Conduct and Ethics is available on the Company's website at [www.key.net](http://www.key.net) and will be provided without charge to any shareholder upon written request to: Investor Relations, Key Technology, Inc., 150 Avery Street, Walla Walla, Washington 99362. The Code of Business Conduct and Ethics provides that any waiver of its applicability to any director or executive officer may be made only by the Board of Directors or an appropriately designated Board committee and will be publicly disclosed promptly to the Company's shareholders.

**Compensation of Directors**

Any member of the Board of Directors who is an employee of the Company is not separately compensated for serving on the Board of Directors. During the first half of fiscal 2009, compensation for independent, non-employee directors was based upon an annual retainer of \$80,000, consisting of \$20,000 in cash and the equivalent of \$60,000 in restricted stock based upon the current market price of the Company's common stock on the date of grant, subject to the terms of the Company's 2003 Restated Employees' Stock Incentive Plan. Effective May 2009, in response to current business conditions, the compensation for independent, non-employee directors was decreased proportionally to the decrease in compensation for all executive officers to an annual retainer of \$78,000, consisting of \$18,000 in cash and the equivalent of \$60,000 in restricted stock based upon the current market price of the Company's common stock on the date of grant, subject to the terms of the Company's 2003 Restated Employees' Stock Incentive Plan. Beginning in fiscal 2010, 4% of the 10% reduction in cash compensation was restored. For fiscal year 2009, the independent directors were awarded an aggregate of 25,530 shares of restricted stock. These grants vest on the first anniversary of the date of grant. All independent directors receive reimbursement of their board-related expenses.

During the first half of fiscal 2009, compensation for the non-executive Chairman of the Board was based upon an annual retainer of \$120,000, consisting of \$60,000 in cash and the equivalent of \$60,000 in restricted stock based on the current market price of the Company's common stock on the date of grant, subject to the terms of the Company's 2003 Restated Employees' Stock Incentive Plan. Effective May 2009, in response to current business conditions, the cash component of the Chairman's compensation was decreased proportionally to the decrease in compensation for all executive officers to \$54,000, for a total annual retainer of \$114,000. Beginning in fiscal 2010, 4% of the 10% reduction in cash compensation was restored.

During the first half of fiscal 2009, the Chairmen of the Compensation and Management Development and the Audit Committees received an additional annual cash retainer of \$5,000. Effective May 2009, the annual cash retainer for the Chairmen of the Compensation and Management Development and the Audit Committees was decreased to \$4,500. The amount and composition of Board compensation is consistent with recommendations received from compensation consultants.

Stock ownership guidelines for the Company's directors adopted by the Board of Directors call for the non-employee directors to own shares of the Company's common stock having a value equal to at least five times the level of the board member's annual base cash compensation to be achieved within three years of initiation of service as a director.

The following table provides information as to compensation for services of the non-employee directors during fiscal 2009, including compensation attributed to them in 2009 as a result of stock option grants and restricted stock awards made in prior years.

**Table of Contents****SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE**

Section 16(a) of the Securities Exchange Act of 1934 requires the Company's officers and directors, and persons who own more than 10% of a registered class of the Company's equity securities, to file reports of ownership and changes in ownership with the Securities and Exchange Commission. Officers, directors and greater than 10% beneficial owners are required by the Securities and Exchange Commission regulations to furnish the Company with copies of all forms they file pursuant to Section 16(a). Based solely on the Company's review of the copies of such forms it received and written representations from reporting persons required to file reports under Section 16(a), the Company believes that all of the Section 16(a) filing requirements applicable to such persons were met during fiscal 2009 except that one report was filed late by John E. Pelo, a director, relating to a sale of 40 shares of common stock.

**COMPENSATION DISCUSSION AND ANALYSIS****Overview of Compensation**

The Compensation and Management Development Committee of the Board of Directors (the Compensation Committee) is responsible for oversight and design of compensation programs for the Company's senior management. The Compensation Committee is composed only of independent, non-employee members of the Board of Directors. The Compensation Committee, with input from the Board of Directors, is responsible for establishing performance goals and objectives relevant to compensation of the Chief Executive Officer, evaluating his performance in light of those goals and objectives, and determining and approving his compensation based on this evaluation. The Compensation Committee reviews and considers recommendations made by the Chief Executive Officer in determining the compensation of the other named executive officers. Under the Compensation Committee Charter, the Compensation Committee is also charged with administering and granting awards under the Company's stock incentive plans and cash incentive plans for senior executives.

**Background**

The Compensation Committee makes every effort to ensure that the Company's compensation program for senior management aligns interests of senior management with the economic interests of shareholders and provides incentives to support the business strategy of the Company. Historically, the Compensation Committee has not retained compensation consultants to review the Company's executive compensation policies or survey compensation paid by comparable companies, and no compensation consultant was retained for this purpose with respect to fiscal 2009 or any prior year. The Compensation Committee does not use peer data and surveys, or set compensation or any element of compensation to meet specific benchmarks or percentiles within any identified group. The members of the Compensation Committee do take into account their business experience, their experience from serving on other boards of directors, publicly available information from news sources, and broad-based third-party surveys containing information about companies of similar size in a variety of industries to obtain a general understanding of current compensation practices. The Compensation Committee also benefits from real-world experience gained from previous recruiting efforts involving the Company. The Compensation Committee uses this information, together with recommendations from the President and Chief Executive Officer, as broad guidelines for establishing total compensation for executives and has conducted an annual review of compensation for the named executive officers.

**Compensation Philosophy and Objectives**

The Compensation Committee has established the following compensation objectives for the Company's named executive officers as important elements of its overall compensation philosophy:

***Compensation should be related to performance.*** The Compensation Committee believes that the compensation paid to the named executive officers should be closely aligned with the performance of the Company on both a short-term and long-term basis, with a material portion of an executive's potential annual cash compensation at risk if Company and individual performance objectives are not achieved.

***Compensation should serve to encourage executives to remain with the Company.*** The Company's executive compensation program components are designed to retain talented executives. The

**Table of Contents**

Compensation Committee believes that continuity of employment is critical to achieving the Company’s strategic objectives and building shareholder value. A significant element of the executive compensation program, therefore, is long-term stock-based incentive compensation plans with awards that vest on a rolling basis over periods of several years. As part of the retention objective, the Compensation Committee believes that compensation should include a meaningful stock component to further align the interests of senior management with our shareholders.

***Compensation should be reasonable for our business, our locations and our long-term, multi-year approach to achieving sustainable growth.*** The Compensation Committee believes that an appropriate compensation package will attract executives and motivate them to achieve the Company’s annual and long-term strategic objectives. At the same time, the Committee believes that compensation should be set at reasonable and fiscally responsible levels.

***Compensation should be managed to encourage innovation and appropriate levels of risk.*** The Compensation Committee believes incentive compensation should be structured to discourage assumption of excessive short-term risk without constraining innovation and reasonable risk-taking. To achieve this objective, the Compensation Committee believes the success of the Company over time will be more effectively assured by connecting a significant element of incentive compensation to longer-term Company performance.

**General Process for Setting Compensation**

The Compensation Committee first determines the appropriate level of total compensation for each executive and then determines the appropriate allocation among base cash compensation, annual performance-based cash compensation and stock incentive compensation.

The Compensation Committee weights each executive’s total compensation opportunity toward incentive compensation tied to the Company’s performance by allocating approximately 50% or more of the executive’s total potential annual compensation to annual performance-based cash incentive compensation and long-term performance-based stock incentive compensation. The proportion of the executive’s overall compensation that is performance-based depends upon the executive’s level and area of responsibility. As a result, base salary generally represents less than one-half of each executive’s total potential compensation if the Company performs at expected levels, reflecting the importance of performance-based compensation.

When, therefore, the Company does not achieve satisfactory financial results or its stock does not appreciate, the compensation that can be realized by the Company’s executives may be substantially reduced. When the Company’s performance exceeds financial expectations or its stock price appreciates, the compensation that can be realized by the Company’s executives may be substantially increased. The Compensation Committee believes that this is the most effective means of aligning executive incentives with shareholder interests. The Compensation Committee evaluates the levels and the maximum amounts of such payouts in relation to the Company’s overall financial performance.

**Elements of Compensation**

The compensation program for named executive officers consists of (i) annual base cash compensation, (ii) annual performance-based cash compensation, (iii) long-term awards of restricted stock, and (iv) other executive benefits. A discussion of each element follows.

***Annual Base Cash Compensation***

The Company provides the named executive officers with annual base cash compensation ( base salary ) at levels which generally are less than half the potential total annual cash compensation if the Company’s performance objectives for that year are substantially exceeded. Base salary is a fixed, cash component of overall compensation, which is reviewed and may be adjusted periodically based on a variety of factors, including general economic conditions, executive performance, Company performance, and the subjective business judgment and general business experience of the members of the Compensation Committee. Base salary ranges for named executive officers are designed to account for different experience, responsibilities and performance levels. For fiscal year 2009, the named executive officer’s base salaries remained at the same level as base salaries in fiscal 2008. At the

**Table of Contents**

beginning of the Company's fiscal 2009 third quarter, all domestic employees' base pay was reduced in response to current business conditions. Each executive's base pay was reduced by 10%. Beginning in fiscal 2010, 4% of the 10% reduction in base pay was restored.

*Annual Performance-Based Cash Compensation*

The Company's annual performance-based cash compensation program is designed to tie executive compensation to the Company's performance and for fiscal 2009 contained from one to four of the following performance elements for each executive: (1) an objectively determined percentage of base salary awarded upon the Company achieving a certain net earnings goal for that year; (2) an individual incentive portion tied to the performance of certain aspects of the Company's business within the executive's area of responsibility; (3) a discretionary cash bonus awarded by the Chief Executive Officer to the other named executives, based on subjective factors, in an amount up to 10% of the named executive officer's base salary for fiscal 2009; and (4) a graduated supplemental incentive based on the Company exceeding a certain net earnings goal or a certain factory margin goal. Additionally, some or all of performance-based cash compensation for an executive may be at risk if the annual cost budget in the executive's area of responsibility is exceeded by 10% or more. Annual performance-based cash payments for a given year are approved by the Compensation Committee in the first quarter of the following year after a review of the previous fiscal year's financial performance. With the exception of the Chief Executive Officer, the target level for all named executive officers for fiscal 2009 varied from 50% to 75% of base salary based on achievement of the performance elements. The target performance-based cash compensation percentage may vary somewhat year to year depending on the value of specific annual objectives and goals. The Chief Executive Officer's target level of performance-based cash compensation for fiscal 2009 was 100% of base salary in accordance with the terms established at the initiation of his employment with the Company. Any performance-based cash compensation that is earned is based on the executive's base pay level prior to the above-mentioned salary reductions.

The Compensation Committee has determined that annual net earnings should be the primary appropriate measure of financial performance by which to link annual cash incentive compensation to Company performance. The Compensation Committee establishes financial targets for the Company for each fiscal year either at the beginning of the year or in the fourth quarter of the preceding fiscal year, with an emphasis on net earnings, based on the Company's business plan for the year. The business plan is developed and proposed by management, but is subject to review and final approval by the Board of Directors. The annual net earnings target is net of all performance-based compensation and was approximately \$9.4 million for fiscal 2009.

In addition to the earnings-based element, the second element of the named executive officer's annual performance-based cash compensation is based on an individual incentive plan designed to reward achievement of quantitative goals within the executive's area of responsibility. For fiscal 2009, only Mr. Wagner and Mr. Miller participated in this element.

The third element of annual performance-based cash compensation for all named executive officers except the Chief Executive Officer is a discretionary cash bonus awarded by the Chief Executive Officer based on subjective factors, in an amount up to 10% of the named executive officer's base salary. Consideration for the payment of this element may include, but is not limited to, activities such as participation in acquisitions, special projects, extraordinary performance, or consideration of best efforts even if other criteria are not achieved as the result of circumstances beyond the executive's control. For fiscal 2009, no compensation was awarded for this element due to the Company's curtailment of bonus pay.

The fourth element of the named executive officer's annual performance-based cash compensation rewards Company performance in excess of targeted achievement levels. Each officer is eligible to receive an additional graduated bonus amount to the extent the Company exceeds its net earnings target by not less than 10% increments, up to a maximum supplemental bonus amount such that this element could equal between 46% and 60% of the officer's base salary, with the exception on Mr. Camp. Mr. Camp's maximum supplemental bonus under this element is 100% of his base salary.

In setting financial performance goals for fiscal 2009, the Company did not undertake any statistical analysis of how difficult it would be to achieve the financial performance goals. The Compensation Committee

**Table of Contents**

believed that the performance goals, including the net earnings goal, were reasonably attainable based upon the Company's historical and expected levels of profitability. The Compensation Committee notes, however, that although 100% of such goals were met in fiscal 2007, 55% and 85% of such financial performance goals were not met in fiscal 2008 and fiscal 2009, respectively.

*Stock Incentive Compensation*

The Compensation Committee believes that incentives tied to stock ownership by executive officers and key employees are the most important component of total compensation. The Compensation Committee uses grants of restricted stock as part of the Company's overall incentive compensation to align the interests of executive officers with those of the Company's shareholders. All named executive officers participate in the restricted stock awards. The stock is restricted in that if the criteria for retention of the shares awarded are not achieved, the shares are forfeited and cancelled. If the criteria for unrestricted ownership are achieved, the restrictions lapse.

In fiscal 2009, due to Company performance, the Company did not make any equity awards to its named executive officers with the exception of the third annual award of restricted stock to its Chief Executive Officer that was committed to at the time of hire. This award was granted in the first quarter of fiscal 2009 and was later voluntarily surrendered to the Company by Mr. Camp.

*Other Benefits and Perquisites*

The policy of the Company is not to provide material perquisites to its named executive officers. Executive officers are eligible to participate in the Company's 401(k) plan and Restated 1996 Employee Stock Purchase Plan, and receive similar health, dental and insurance benefits as are available to other employees of the Company.

**Analysis of Specific Compensation Determinations**

*David M. Camp.* In determining the elements of compensation for Mr. Camp, the President and Chief Executive Officer, for fiscal 2009, the Compensation Committee considered the factors described above under "Annual Base Cash Compensation" and in addition further evaluated the Company's performance and Mr. Camp's job performance. Mr. Camp's base salary was continued at \$275,000. Mr. Camp's performance-based cash incentive compensation goals relied entirely on the Company reaching a certain level of net earnings. If this target was reached, Mr. Camp would earn an additional 100% of base salary. If the target was exceeded by 10 percent increments, Mr. Camp could earn an additional 25% of base salary for each 10% incremental net earnings up to an additional 100% of base salary. For fiscal 2009, the Company did not meet the net earnings target objective, and therefore Mr. Camp earned no performance-based cash compensation.

In determining Mr. Camp's equity award, pursuant to commitments made at the time of hire, Mr. Camp is entitled to receive an annual award of 21,602 shares of restricted stock during each of the first three years of his employment. The commitment to the annual grant amount was equal in value to 100% of Mr. Camp's initial base salary and therefore approximately equal to 50% of his proposed aggregate compensation. Fifty percent of each annual restricted share grant will vest based on continued employment, in three equal annual installments, and the restrictions on 50% of each annual restricted share grant will lapse based on financial performance criteria determined by the Compensation Committee and measured over the three-year period applicable to each annual grant. The criteria for the lapse of restrictions on the performance-based portion of the fiscal 2009 equity award were related to achievement of growth in three-year annual sales for a period beginning on October 1, 2008; cumulative net earnings for the three-year measuring period; and average annual net earnings for the three-year period. In accordance with his employment agreement, Mr. Camp was awarded 21,602 shares of restricted stock with respect to fiscal 2009, all of which were later voluntarily surrendered to the Company by Mr. Camp.

*John J. Ehren.* In determining the compensation for Mr. Ehren, Senior Vice President and Chief Financial Officer, for fiscal 2009, the Compensation Committee considered the factors described above under "Annual Base Salary Compensation" and continued Mr. Ehren's base salary at \$230,000. With respect to the Mr. Ehren's performance-based cash incentive compensation, the Compensation Committee took into account Company and individual performance factors and determined that net earnings should be his primary metric. Mr. Ehren's aggregate target cash incentive compensation amount in fiscal 2009 was \$126,500, against which 45% of base salary

**Table of Contents**

could be earned if target net earnings were achieved and 10% of base salary could be earned at the discretion of the Chief Executive Officer. In addition, if the target net earnings were exceeded by 10% increments, Mr. Ehren could earn up to an additional 50% of base salary, for a total of 105% of base salary in performance-based cash incentive compensation. For fiscal 2009, the Company did not meet the net earnings target objective and the Chief Executive Officer did not award any discretionary bonuses, and therefore Mr. Ehren earned no performance-based cash compensation.

*Edward A. Wagner.* In determining the compensation for Mr. Wagner, Senior Vice President of Global Operations, for fiscal 2009, the Compensation Committee considered the factors described above under Annual Base Salary Compensation and continued Mr. Wagner's base salary at \$210,000. With respect to Mr. Wagner's performance-based cash incentive compensation, the Compensation Committee took into account Company and individual performance factors and determined that factory margin percentage should be his primary metric and creation of a succession plan would be a secondary objective. Mr. Wagner's aggregate target cash incentive compensation amount in fiscal 2009 was \$157,500, against which 55% of base salary could be earned if target factory margin was achieved, 10% of base salary for finding a successor, and 10% of base salary could be earned at the discretion of the Chief Executive Officer. In addition, if the target factory margin percentage was achieved and a certain dollar amount of factory margin was achieved, for each 1% increase in factory margin percentage up to a 4% increase, Mr. Wagner could earn up to an additional 46% of base salary, for a total of 121% of base salary in performance-based cash incentive compensation. For fiscal 2009, Mr. Wagner met the target factory margin percentage and created a succession plan, and therefore Mr. Wagner earned \$136,500 in performance-based cash compensation. The Chief Executive Officer did not award any discretionary bonus to Mr. Wagner in fiscal 2009. Subsequent to the end of the fiscal year, Mr. Wagner's employment terminated on October 16, 2009 and his bonus was subsequently paid.

*Craig T.J. Miller.* In determining the compensation for Mr. Miller, Senior Vice President and General Manager of SYMETIX®, for fiscal 2009, the Compensation Committee considered the factors described above under Annual Base Salary Compensation and continued Mr. Miller's base salary at \$185,000. With respect to Mr. Miller's performance-based cash incentive compensation, the Compensation Committee took into account Company and individual performance factors and determined that net earnings should be his primary metric and creation of a succession plan would be a secondary objective. Mr. Miller's aggregate target cash incentive compensation amount in fiscal 2009 was \$111,000, against which 40% of base salary could be earned if target net earnings were achieved, 10% of base salary for finding a successor, and 10% of base salary could be earned at the discretion of the Chief Executive Officer. In addition, if the target net earnings were exceeded by 10% increments, Mr. Miller could earn up to an additional 50% of base salary, for a total of 110% of base salary in performance-based cash incentive compensation. Mr. Miller's employment terminated on April 23, 2009 and he therefore did not earn any performance-based cash compensation.

*John C. Boutsikaris.* In determining compensation for Mr. Boutsikaris, Senior Vice President of Global Sales and Aftermarket, for fiscal 2009, the Compensation Committee considered the factors described above under Annual Base Salary Compensation and continued Mr. Boutsikaris's base salary at \$218,610. With respect to Mr. Boutsikaris's performance-based cash incentive compensation, the Compensation Committee took into account Company and individual performance factors and determined that net earnings should be his primary metric. Mr. Boutsikaris's aggregate target cash incentive compensation amount in fiscal 2009 was \$142,097, against which 55% of base salary could be earned if target net earnings were achieved and 10% of base salary could be earned at the discretion of the Chief Executive Officer. In addition, if the target net earnings were exceeded by 10% increments, Mr. Boutsikaris could earn up to an additional 60% of base salary, for a total of 125% of base salary in performance-based cash incentive compensation. For fiscal 2009, the Company did not meet the net earnings target objective and the Chief Executive Officer did not award any discretionary bonuses, and therefore Mr. Boutsikaris earned no performance-based cash compensation.

*Dennis T. Hopwood.* In determining the compensation for Mr. Hopwood, Vice President of Human Resources, for fiscal 2009, the Compensation Committee considered the factors described above under Annual Base Salary Compensation and continued Mr. Hopwood's base salary at \$183,600. With respect to the Mr. Hopwood's

performance-based cash incentive compensation, the Compensation Committee took into account Company and individual performance factors and determined that net earnings should be his primary metric. Mr. Hopwood's aggregate target cash incentive compensation amount in fiscal 2009 was \$91,800, against which 40% of

**Table of Contents**

base salary could be earned if target net earnings were achieved and 10% of base salary could be earned at the discretion of the Chief Executive Officer. In addition, if the target net earnings were exceeded by 10% increments, Mr. Hopwood could earn up to an additional 50% of base salary, for a total of 100% of base salary in performance-based cash incentive compensation. For fiscal 2009, the Company did not meet the net earnings target objective and the Chief Executive Officer did not award any discretionary bonuses, and therefore Mr. Hopwood earned no performance-based cash compensation. On December 7, 2009, subsequent to the end of the fiscal year, Mr. Hopwood's employment terminated.

**Other Compensation Matters***Change in Control and Severance Arrangements*

Pursuant to commitments made at the time of hire, if Mr. Camp's employment with the Company is terminated at or within 12 months of a change in control event, or by the Board without cause in a non-change of control environment, Mr. Camp will receive severance benefits equal to one year's base salary. In the event that a transaction occurs in which substantially all of the Company's assets or 50% or more of its stock is acquired in one or more related transactions, the restrictions on all shares of restricted stock previously awarded to Mr. Camp will immediately lapse. The purpose of the change in control and severance arrangement is to facilitate Mr. Camp's continued service with the Company.

For purposes of Mr. Camp's severance arrangement, cause is defined to mean (i) a material breach by Mr. Camp of his obligations to perform the duties of his position, other than as a result of incapacity due to physical or mental illness, which is demonstrably willful and deliberate on his part, which is committed in bad faith or without reasonable belief that such breach is in the best interests of the Company and which is not remedied in a reasonable period of time after receipt of a written notice from the Company specifying such breach or (ii) the conviction of Mr. Camp (including a plea of nolo contendere) of a felony or gross misdemeanor under federal or state law which is materially and demonstrably injurious to the Company or which impairs Mr. Camp's ability to perform substantially his duties for the Company.

**Tax Considerations**

Section 162(m) of the Internal Revenue Code of 1986, as amended, generally provides that a publicly-held company may not deduct compensation paid to certain of its top executive officers to the extent such compensation exceeds \$1,000,000 per officer in any year. However, pursuant to regulations issued by the Treasury Department, certain limited exceptions to Section 162(m) apply with respect to performance-based compensation. The Company's 2003 Restated Employees' Stock Incentive Plan, which was approved by the Company's shareholders, allows performance-based awards of restricted stock to be granted with certain performance criteria. The approval by the shareholders meets one of the criteria the IRS requires for the Company to be able to exempt compensation attributed to performance-based awards of restricted stock from the limitations on tax deductible compensation expense of Section 162(m). The Company did not pay any compensation during fiscal 2009 that would be subject to the limitations set forth in Section 162(m) and, therefore, all compensation paid to executives was deductible for tax purposes.

**Stock Ownership Guidelines**

As noted above, part of the Compensation Committee's compensation philosophy is to align the interests of its named executive officers with those of the Company's shareholders. Stock ownership guidelines adopted by the Board of Directors for the named executive officers of the Company call for the Chief Executive Officer to own shares of the Company's Common Stock having a value equal to at least four times his base salary. The ownership guidelines call for the Chief Financial Officer to own shares of the Company's Common Stock having a value equal to at least three times his base salary. The ownership guidelines call for all other named executive officers who are Senior Vice Presidents or Vice Presidents of the Company to own shares of the Company's Common Stock having a value equal to at least two and one times, respectively, of their respective base salaries. The Chief Executive Officer and each other executive officer have four years from the date of their respective appointment to attain their target share ownership.

received a cash award, grossed up to net \$100, to celebrate the Company reaching \$100 million in sales. In addition, Mr. Boutsikaris and Mr. Miller received an additional payment in the amount of \$4,644 and \$1,260, respectively, during fiscal 2007 for payment under the 2006 cash bonus program due to a re-evaluation of performance scoring. These amounts were paid in December 2006 and were not previously disclosed in the 2007 Proxy Statement.

- (3) The amounts reflect the dollar amount recognized for financial reporting purposes, for each fiscal year ended September 30, in accordance with FASB ASC 718 for restricted stock awards granted

pursuant to the 2003 Restated Employee s Stock Incentive Plan and for deemed compensation resulting from the 15% discount attributed to purchases under the Restated 1996 Employee Stock Purchase Plan, the value of which is calculated using the closing price on the grant date. The amounts reflect the Company s accounting expense for these awards, and do not correspond to the actual value that may be recognized by the named executive officers.

- (4) The amounts for fiscal 2009 reflect the cash awards earned by the named executive officers under individual bonus incentive plans performance as further described in the Compensation Discussion and Analysis section of this Proxy

Statement. The amounts for fiscal 2008 and 2007 reflect the cash awards earned by the named executive officers under individual bonus incentive plans for fiscal 2008 and 2007.

- (5) The table below entitled Perquisites and Other Personal Benefits discloses the components of the amounts included for each named executive officer under the All Other Compensation column in the Summary Compensation Table.
- (6) Mr. Wagner's employment terminated on October 16, 2009, subsequent to the end of fiscal 2009.
- (7) Mr. Miller's employment terminated on April 23, 2009.
- (8) Mr. Hopwood's employment terminated on December 7,

2009,  
subsequent to  
the end of fiscal  
2009.

**Table of Contents**

In the table above, the values for fiscal 2009 in the Stock Awards column reflect the reversal of prior-year accounting expense due to changes in estimates related to performance-based stock awards as the Company estimated that it had become less than probable that the related performance goals would be achieved for each of the named executives, except for Mr. Wagner who had no prior performance-based shares. As a result of such reversals, certain negative values were reported.

- (3) This service-based restricted stock award was granted to Mr. Camp pursuant to commitments made at the time of hire as described above in the Compensation Discussion and Analysis section of this Proxy Statement and represents the third of three annual grants. This award was scheduled to vest one-third each year beginning September 30, 2009. The award was later voluntarily surrendered to the Company by Mr. Camp.
- (4) This performance-based restricted stock award was granted to Mr. Camp pursuant to commitments made at the time of hire as described above in the Compensation Discussion and Analysis section of this Proxy Statement and

represents the third of three annual grants. This award was scheduled to vest on December 15, 2011 subject to the attainment of certain performance criteria. The award was later voluntarily surrendered to the Company by Mr. Camp.

*Non-Equity Incentive Plan Award Payouts*

The Compensation Committee sets a target level for all named executive officers which is a percentage of base salary that can be earned based on achievement of certain performance elements and may be comprised of one or more elements. For fiscal 2009, the primary financial performance goal was net earnings, or in the case of Mr. Wagner, factory margin, and for attainment of this element of compensation, a minimum threshold of net earnings or factory margin had to be achieved by the Company. In the table above, the amount shown in the *Threshold* column is the minimum amount the executive could earn if the minimum net earnings or factory margin target was achieved. The amount shown in the *Target* column above is the amount the executive could earn if they achieved each of their respective performance goals. The amount shown in the *Maximum* column above is the maximum amount each executive could earn for performance in excess of the targeted achievement levels. See *Compensation Discussion and Analysis - Elements of Compensation* for further discussion regarding annual performance-based cash compensation.

There were no payouts made under the fiscal 2009 non-equity incentive plan awards, with the exception of \$136,500 paid to Mr. Wagner related specifically to the achievement of certain financial performance goals as discussed above in *Compensation Discussion and Analysis - Analysis of Specific Compensation Determinations*.

**Table of Contents**

*Stock Incentive Compensation for the Chief Executive Officer*

Pursuant to commitments made at the time of hire, the Chief Executive Officer is entitled to receive an annual award of 21,602 shares of restricted stock during each of the first three years of his employment. The commitment to the annual grant amount was equal in value to 100% of Mr. Camp's annual base salary of \$275,000 based on the fair market value of the Company's Common Stock on the date of the commencement of employment. Fifty percent of each annual restricted share grant will vest based on continued employment, in three equal annual installments, and 50% of each annual restricted share grant will vest based on financial performance criteria determined by the Compensation Committee and measured over the three-year period applicable to each annual grant.

To date, Mr. Camp has received payouts from only the service-based portion of the first and second annual awards. The first performance-based annual award was forfeited during fiscal 2009 because the performance measure was not met. It is also now less than probable that the performance goal will be met on the second annual award. In addition, both the third annual service-based and performance-based awards that were granted in the first quarter of fiscal 2009 were later voluntarily canceled and surrendered to the Company by Mr. Camp during the second quarter of fiscal 2009.

*Activity Prior to Fiscal 2009*

During fiscal 2009, restrictions lapsed on prior service-based restricted stock awards under a prior plan. The amounts recognized for financial reporting purposes are reflected in the Summary Compensation Table Fiscal 2009 above.

In past years, the Compensation Committee or the Board of Directors had from time to time also awarded stock options to executive officers and key employees under the Stock Incentive Plan and predecessor plans. Beginning with the 2006 fiscal year, the Compensation Committee determined that equity incentive awards should primarily be granted in the form of shares of restricted stock. The Compensation Committee determined to switch from stock options to restricted stock for a number of reasons, but some of the more important reasons were that (i) restricted stock awards provide a more predictable form of compensation and do not reward short-term price fluctuations in the price of the Company's Common Stock that many critics have argued is inherent in stock options, (ii) restricted stock awards reduce dilution to the Company's shareholders because the Company can provide a long-term incentive award having the same relative value as a stock option award using fewer shares, and (iii) due to changes in accounting rules under FASB ASC 718, stock options no longer receive preferential financial accounting treatment relative to restricted stock awards.

None of the named executive officers have ever been granted stock options. The following table reflects previously granted and outstanding restricted stock awards.

**AUDIT COMMITTEE REPORT AND OTHER RELATED MATTERS****Report of the Audit Committee of the Board of Directors**

*The information contained in this report shall not be deemed to be soliciting material, or to be filed with, the Securities and Exchange Commission or to be subject to Regulation 14A or Regulation 14C (other than as provided in Item 407 of Regulation S-K) or to the liabilities of Section 18 of the Securities Exchange Act of 1934, and shall not be deemed to be incorporated by reference into future filings with the Securities and Exchange Commission except to the extent that the Company specifically incorporates it by reference into a document filed under the Securities Act of 1933 or the Securities Exchange Act of 1934.*

The Audit Committee of the Board of Directors comprises four non-employee directors who meet the independence standards of the NASDAQ Global Market. The members of the Audit Committee are John E. Pelo, Chairman, Richard Lawrence, Charles H. Stonecipher and Donald A. Washburn. The Board has determined that Mr. Pelo qualifies as an audit committee financial expert under federal securities laws. The Audit Committee operates under a written charter adopted by the Board of Directors, which is available on the Company's website at [www.key.net](http://www.key.net). Among other things, the Audit Committee recommends to the Board of Directors the selection of the Company's independent registered public accountants (the public accountants). The Audit Committee has adopted a policy for the pre-approval of services provided by the public accountants.

Management is responsible for the Company's internal controls and the financial reporting process. The Company's public accountants are responsible for performing an independent audit of the Company's consolidated financial statements in accordance with generally accepted auditing standards and to issue a report thereon. The Audit Committee's responsibility is to monitor and oversee these processes.

In this context, the Audit Committee has met and held discussions with management and the public accountants of the Company. Management represented to the Audit Committee that the Company's consolidated financial statements were prepared in accordance with generally accepted accounting principles, and the Audit Committee has reviewed and discussed the consolidated audited financial statements separately with management and the Company's public accountants. The Audit Committee discussed with the public accountants the matters required to be discussed by Statement on Auditing Standards No. 61, as amended.

The Company's public accountants also provided to the Audit Committee the written disclosures and letter required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees).

**Table of Contents**

The Audit Committee discussed with the Company's public accountants that firm's independence and considered whether the non-audit services provided by the Company's public accountants were compatible with maintaining the independence of such public accountants.

Based upon the Audit Committee's discussion with management and the public accountants and the Audit Committee's review of the representations of management and the report of the public accountants to the Audit Committee, the Audit Committee recommended that the Board of Directors include the Company's audited consolidated financial statements in the Company's Annual Report on Form 10-K for the fiscal year ended September 30, 2009 filed with the Securities and Exchange Commission.

For fiscal year 2009, management completed the documentation, testing, and evaluation of the Company's system of internal control over financial reporting in response to the requirements set forth in Section 404 of the Sarbanes-Oxley Act of 2002, and related regulations. The Audit Committee monitored the progress of the evaluation and provided oversight and guidance to management during the process. In connection with this oversight, the Audit Committee received periodic updates provided by management and the Company's public accountants. At the conclusion of the process, management provided the Audit Committee with a report on management's assessment of the effectiveness of internal control over financial reporting.

In compliance with the Sarbanes-Oxley Act, the Audit Committee has established procedures for receipt, retention, and treatment of complaints for confidential, anonymous reporting of employee concerns with regard to accounting controls or auditing matters.
