QUESTIONS AND ANSWERS

1. What is a proxy?

A proxy is a procedure which enables you, as a shareholder, to authorize someone else to cast your vote for you. The Board of Directors of the Company is soliciting your proxy, and asking you to authorize Robert S. Cubbin, President and Chief Executive Officer, Karen M. Spaun, Senior Vice President and Chief Financial Officer, or Michael G. Costello, Senior Vice President, General Counsel and Secretary of the Company, to cast your vote at the 2010 Annual Meeting. You may, of course, cast your vote in person or abstain from voting, if you so choose. The term proxy is also used to refer to the person who is authorized by you to vote for you.

2. What is a proxy statement and a proxy card?

A proxy statement is the document the United States Securities and Exchange Commission (the SEC) requires to explain the matters on which you are asked to vote. A proxy card is the form by which you may authorize someone else, and in this case, Mr. Cubbin, Ms. Spaun or Mr. Costello to cast your vote for you. This proxy statement and proxy card with respect to the Company's 2010 Annual Meeting were mailed on or about April 13, 2010 to all shareholders entitled to vote at the Annual Meeting.

3. Who is entitled to vote?

Only holders of shares of the Company's common stock at the close of business on March 19, 2010 (the Record Date) are entitled to vote at the Annual Meeting. Each shareholder of record has one vote for each share of common stock for each matter presented for a vote.

4. What will I vote on at the Annual Meeting?

At the Annual Meeting, shareholders will vote upon:

- (i) Election of three directors for a three-year term expiring in 2013, or until the election and qualification of their successors;
- (ii) Ratification of the appointment of Ernst & Young LLP as the Company's independent registered public accounting firm; and
- (iii) Transaction of any other business that is properly submitted before the Annual Meeting or any adjournments of the Annual Meeting.

5. How does the Board of Directors recommend I vote on the proposals?

The Board of Directors recommends a vote FOR each proposal.

Table of Contents

6. How can I vote?

You can vote in person or by proxy. To vote by proxy, complete, sign, date and return the enclosed proxy card in the enclosed envelope. If you returned your signed proxy card to the Company before the Annual Meeting, the persons named as proxies on the card will vote your shares as you direct. Shares represented by proxies that are marked **WITHHELD** to vote for all three nominees for director, or for any individual nominee(s) for election as director(s) and which are not otherwise marked **FOR** the other nominees will not be counted in determining whether a plurality vote has been received for the election of directors. Similarly, shares represented by proxies, which are marked **ABSTAIN** on the proposals to ratify the appointment of Ernst & Young LLP as independent registered public accounting firm for the Company in 2010 will not be counted in determining whether the requisite vote has been received for such proposal. **IF YOU WISH TO VOTE IN THE MANNER THE BOARD OF DIRECTORS RECOMMENDS, IT IS NOT NECESSARY TO SPECIFY YOUR CHOICE ON THE PROXY CARD. SIMPLY SIGN, DATE AND RETURN THE PROXY CARD IN THE ENCLOSED ENVELOPE.** You may revoke a proxy at any time before the proxy is voted by:

- (i) Providing written notice of revocation to the Secretary of the Company at the address shown on the Notice of Annual Meeting of Shareholders on the first page of this statement;
- (ii) Submitting another proxy that is properly signed and dated later; or
- (iii) Voting in person at the meeting (but only if the shares are registered in the Company's records in your name and not in the name of a broker, dealer, bank or other third party).

7. Is my vote confidential?

Yes, your vote is confidential. Only the inspectors of election and certain employees associated with processing proxy cards and counting the votes have access to your proxy card. All comments received will be forwarded to management on an anonymous basis unless you request that your name be disclosed.

8. What is a quorum?

There were 54,901,542 shares of the Company's common stock outstanding on the Record Date. A majority of the outstanding shares, or 27,450,772 shares, present or represented by proxy, constitutes a quorum. A quorum must exist to conduct business at the Annual Meeting. Abstentions and broker non-votes are counted as votes present for purposes of determining whether there is a quorum. A broker non-vote is a proxy a broker submits that does not indicate a vote for the proposal, because the broker does not have discretionary voting authority and the broker did not receive instructions as to how to vote on the proposal.

9. How does voting work?

If a quorum exists at the Annual Meeting, a plurality vote, being the greatest number, of the shares voted, although not a majority is required to elect the three nominees for director. The three nominees receiving the highest number of votes will be elected. If a quorum is present, the affirmative vote by the holders of a majority of the votes cast in person or by proxy is required to ratify the appointment of Ernst & Young LLP as the independent registered public accounting firm of the Company for 2010. Abstentions and broker non-votes are not votes cast. Therefore, an abstention and a broker non-vote will have no effect on the proposals to elect the three nominees for director and ratify the appointment of Ernst & Young LLP as the independent registered public accounting firm for the Company in 2010.

The Company will vote properly executed proxies it receives prior to the Annual Meeting in the way you direct. If you do not specify instructions, the shares represented by proxies will be voted FOR the nominees for director and FOR the ratification of Ernst & Young LLP as the Company's independent registered public accounting firm for the Company in 2010. No other proposals are currently scheduled to be presented at the meeting.

10. Who pays for the costs of the Annual Meeting?

The Company pays the cost of preparing and printing the proxy statement, proxy card and soliciting proxies. The Company will solicit proxies primarily by mail, but also may solicit proxies personally and by telephone,

Table of Contents

facsimile or other means. Officers and regular employees of the Company and its subsidiaries also may solicit proxies, but will receive no additional compensation for doing so, nor will their efforts result in more than a minimal cost to the Company. The Company also will reimburse banks, brokerage houses and other custodians, nominees and fiduciaries for their out-of-pocket expenses for forwarding solicitation material to beneficial owners of the Company's common stock.

11. What other information is available about Meadowbrook Insurance Group, Inc.?

The Company maintains a corporate website, www.meadowbrook.com, where the Company makes available, free of charge, copies of its Annual Report on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K, and any amendments to those reports, as soon as reasonably practicable after they are filed. In addition, the Company maintains the charters of its Governance and Nominating Committee, the Compensation Committee, the Audit Committee, the Risk Management and Finance Committee and the Investment Committee of the Board of Directors on its website, as well as the Company's Corporate Governance Guidelines, Code of Conduct, and Business Conduct Policy. Printed copies of the above are available, free of charge, to any shareholder who requests this information.

12. When are stockholder proposals for the 2011 Annual Meeting due?

All shareholder proposals to be considered for inclusion in next year's proxy statement under SEC Rule 14a-8 must be submitted in writing to the Secretary of the Company at the address shown on the Notice of Annual Meeting of Shareholders on the first page of this booklet by December 14, 2010.

For any proposal that is not submitted for inclusion in next year's proxy statement but instead is sought to be presented directly at next year's annual meeting, SEC rules permit management to vote proxies in its discretion if (a) the Company receives notice of the proposal before the close of business on February 25, 2011 and advises shareholders in next year's proxy statement about the nature of the matter and how management intends to vote on such matter, or (b) does not receive notice of the proposal prior to the close of business on February 25, 2011.

The Company reserves the right to reject, rule out of order, or take other appropriate action with respect to any proposal that does not comply with these and other applicable requirements.

**THE FIRST PROPOSAL ON WHICH YOU ARE VOTING
THE ELECTION OF THREE DIRECTORS**

The Company's Board of Directors is divided into three classes with each class of directors elected to a three-year term of office. At each annual meeting of shareholders, the shareholders elect one class of directors for a three-year term to succeed the class of directors whose term of office expires at that meeting.

This year you are voting on three candidates for director. The Company's Board of Directors, acting upon the recommendation of its Governance and Nominating Committee, has nominated: Merton J. Segal, David K. Page and Herbert Tyner as directors with terms expiring in 2013. Each nominee currently serves as a director, has consented to their nomination and has agreed to serve as a director, if elected. Mr. Joseph S. Dresner has decided to retire from the Board of Directors; and therefore, will not be seeking re-election.

If any of the nominees are unable to stand for election, the Company may vote the shares to elect a substitute nominee, who is nominated by the Board, or the number of directors to be elected at the Annual Meeting may be reduced.

The Company's Board recommends a vote FOR each of the nominees.

CORPORATE GOVERNANCE

Board Matters

In 2009, the Board of Directors met five times and the Committees of the Board held sixteen additional meetings. During 2009, each of the directors, with the exception of Joseph S. Dresner, attended (in the aggregate) at least 75% of the total number of meetings of the Board of Directors and the total number of meetings held by all the Committees of the Board upon which he/she served.

It is the policy of the Board of Directors to encourage attendance by its members at all meetings of the Board and Committees of the Board. Eight of the twelve members of the Board of Directors attended the 2009 Annual Meeting.

Board Leadership Structure and Risk Management Oversight

The Board of Directors has adopted governance guidelines to assist with fulfilling its duties and responsibilities to the Company and its shareholders. These guidelines are intended to ensure the Board of Directors has the necessary authority and procedures in place to review and evaluate the Company's business operations, make decisions that are independent of the Company's management, and align the Company's directors and management interests with those of the Company's shareholders. While the Company's bylaws do not require a separation of the Chairman of the Board and Chief Executive Officer positions, these positions are currently held by different people. The Company believes that separation of these two positions provides for appropriate oversight and review of management performance. In addition, it allows for an independent and objective assessment of agenda items to be considered at board or committee meetings. The Company has not selected a lead director; however, the Chairman of the Risk Management and Finance Committee has been appointed to chair all executive sessions of the Board of Directors. The Board of Directors has a practice of conducting executive sessions at each of the regularly scheduled Board and Committee meeting. The Board of Directors conducts executive sessions with the Chief Executive Officer. Also, the Board of Directors, along with the Audit Committee, conducts executive sessions with the Company's Chief Financial Officer, Chief Actuary, Director of Internal Audit and General Counsel.

The Board of Directors is responsible for oversight of the Company's risk management process. The Board of Directors has delegated to the Risk Management and Finance Committee the primary function of managing the risk management process and under the oversight of the Board of Directors. While the Risk Management and Finance Committee has the primary responsibility, several of the other committees of the Board of Directors also have the role in the process as outlined by each of their respective charters. The Risk Management and Finance Committee, with assistance from the Audit Committee, is responsible for reviewing, assessing and monitoring the significant risks or exposures to the Company and assuring that management has implemented the appropriate monitors to control such risks, as well as minimize the Company's exposure to such risks. The Risk Management and Finance Committee is authorized to retain, if necessary, risk management consultants to assist the Board of Directors in this process. The Investment Committee is responsible for developing an investment policy that ensures the Company's investment portfolio is aligned with the risk profile of the Company. The Compensation Committee is responsible for adopting compensation policies that increase shareholder value, avoid undue risk taking by the Company, appropriately rewards executives and employees for performance and assures that the Company's compensation policies and practices are adequately disclosed to the public. The Governance and Nominating Committee is responsible for overseeing matters relating to the nomination, selection and evaluation of its directors, reviewing and approving any related-party transactions, as well as assuring that the Company has an effective corporate governance policy, which complies with the current rules of the New York Stock Exchange and SEC.

Independence Determination

The Board of Directors has determined that Messrs. Dresner, Greenberg, Naftaly, Page, Sturgis, Thal, Tyner, Fix, Maffett and Ms. Mark are independent, in accordance with the New York Stock Exchange's independence standards, as modified or supplemented, and these directors have no other relationship that would impair such independence.

Meadowbrook Insurance Group, Inc.
26255 American Drive
Southfield, Michigan 48034-2438
Attention: Governance and Nominating Committee

The Governance and Nominating Committee has not established specific minimum qualifications or skills for directors to possess. The Governance and Nominating Committee uses a subjective process for identifying and evaluating nominees for director, based upon the information available to members of the Governance and Nominating Committee and the current needs of the Company. While the Governance and Nominating Committee does consider diversity as one of several criteria for eligibility, the Company has not adopted a formal diversity policy. The Governance and Nominating Committee does not believe there would be any difference in the manner in which it evaluates nominees based on whether the nominee is recommended by a shareholder or director. Historically, nominees have been the existing directors or persons with significant management, insurance, accounting, actuarial, legal, banking, investment or business experience.

Code of Conduct

The Company has adopted a Code of Conduct that applies to all of its employees, officers and directors, including its principal executive officer, principal financial officer, chief accounting officer or persons performing similar functions. The Compensation Committee retained Towers Perrin in 2008 to review the competitiveness of the Company's non-employee director compensation program. Towers Perrin compared the Company's non-employee director compensation program to a group of fifteen comparably-sized insurance companies, which was supplemented with general industry data gathered by Towers Perrin. The median annual revenue of the comparable companies listed below in the **Compensation Discussion & Analysis - Compensation Assessment** was approximately \$677 million, which approximated the Company's estimated annual premium following the merger with ProCentury. Non-employee director pay levels were gathered from proxy statement filings and other information developed by and available to Towers Perrin. The data gathered by Towers Perrin indicated that the comparable companies used both cash and some form of equity awards to compensate their directors. Towers Perrin noted that the Company did not include any form of equity compensation when paying its directors. As a result, Towers Perrin determined the Company was below the market median for board compensation. Therefore, Towers Perrin recommended either the use of equity awards or an

increase in cash compensation to bring the Company's overall board compensation closer to the market median.

As a result, the Compensation Committee increased the Board of Director retainer to bring the overall board compensation in line with the market median, as well as to fairly compensate directors for their time commitment to the Company. During 2009, directors who were not officers of the Company, received an increase of their annual retainer fee from \$30,000 to \$40,000, plus \$1,500 for each board or committee meeting attended in 2009. Directors, who served as chairman of the Investment and Governance and Nominating Committees of the Board of Directors, received an annual retainer of \$5,000. Directors, who served as chairman of the Audit, Compensation and Risk Management and Finance Committees of the Board of Directors, received an increase of their annual retainer from \$5,000 to \$10,000 in recognition of the additional workload performed by the chairmen of these committees.

COMPENSATION OF EXECUTIVE OFFICERS

Compensation Discussion & Analysis

Overview

The Compensation Committee (the Committee) of the Board is, among other things, authorized by its Committee Charter (the Charter) to assure that our management is appropriately compensated in relation to their duties, responsibilities, performance and that executive compensation plans are aligned with long-term shareholder value and do not expose the Company to undue risk. The Charter authorizes the Committee to review the annual goals and objectives for the Company, Chief Executive Officer and its executive officers, evaluate the Chief Executive Officer's performance and approve his compensation (base salary, annualized bonus, long term incentive or other equity awards). The Committee is responsible for reviewing recommendations made by the Chief Executive Officer relating to the compensation of the principal executive officers who report to the Chief Executive Officer. In addition, the Committee is responsible for the administration of our annualized bonus plan, long term incentive plan, as described below, as well as other equity-based compensation. Finally, the Committee is authorized to periodically review our compensation philosophy relating to salaries, bonuses, long term incentives and other equity-based compensation paid to our senior management so as to assure the Company remains competitive with similar companies in the insurance industry. The Committee is authorized by its Charter to retain a compensation consultant to assist the Committee with the performance of its duties.

It is our policy to offer a compensation package including a competitive salary, annual incentive bonus and equity-based compensation based upon individual and Company performance. In addition, it is our policy to offer competitive benefits. Our compensation policy for our named executive officers is similar to that of other employers and is intended to promote, attract and retain a talented pool of management, encourage continued performance and attainment of corporate and personal goals, as well as, further promote our success by aligning the executive officers financial interests with long term shareholder value. Generally, it is our policy to pay within a competitive range (plus or minus ten percent of the market median) to fairly compensate our executive officers. The Company has deviated from this guideline in limited circumstances, which have included when an employee was hired at a higher level because of market conditions, the employee has assumed greater responsibilities than originally anticipated or the employee was hired as a part of an acquisition and an employment agreement had previously established the compensation.

The primary elements of our executive compensation consist of: (1) base salary, (2) annual incentive bonus, and (3) long term incentive or equity-based awards. The criteria for determining the Chief Executive Officer and other executive officers' base salary includes level of responsibility, personal contribution to the Company's success, experience, expertise and market data for our competitors in the insurance industry as supplemented by general industry data. Criteria for determining the Chief Executive Officer and other executive officers' annual incentive bonus

targets and actual awards, includes corporate performance, personal contribution to the Company, achievement of individually established goals, market data for our competitors in the insurance industry and the attainment of other corporate objectives. Criteria for determining the Chief Executive Officer and the other executive officers long term incentive targets and awards, includes level of responsibility, expected future contributions, corporate performance, achievement of individually established goals and market data for our competitors in the insurance industry.

Other benefits and perquisites consist of a qualified 401(k) savings plan, a non-qualified excess compensation plan, automobile allowance, club membership and other miscellaneous perquisites summarized within the Summary Compensation Table of the named executive officers.

Compensation Assessment

In 2008, the Committee engaged Towers Perrin to provide it with updated information and recommendations regarding the Company's compensation plans, as well as the compensation for our Chief Executive Officer and other principal executive officers, who report to the Chief Executive Officer. This engagement was prompted by the amount of time (two years) that had passed since the last analysis of Towers Perrin, as well as, the recent merger with ProCentury. In 2008, Towers Perrin met with the Committee and management to discuss the Company's current compensation philosophy, the key objectives for the Company's compensation program and conducted a market review of the Company's compensation program. The market review considered general industry data of the companies similar in size and revenue of the Company as developed by Towers Perrin, which was supplemented with similar insurance industry data. In addition to the general industry data which Towers Perrin assembled, Towers Perrin reviewed the 2007 pay levels (salary, annual bonus and equity plans) of fifteen insurance companies, specifically, One Beacon Insurance Group, Ltd., Selective Insurance Group, Inc., Philadelphia Consolidated Holding Corporation, State Auto Financial Corporation, Argo Group International Holdings, Ltd., Harleysville Group, Inc., ProAssurance Corporation, Navigators Group, Inc., RLI Corporation, Inc., AmTrust Financial Services, Inc., Tower Group, Inc., Darwin Professional Underwriters, Inc., First Mercury Financial Corporation, American Physicians Capital, Inc. and Northpointe Holdings Corporation, currently operating as a subsidiary of QBE.

Based on its analysis and discussions with the Committee, Towers Perrin recommended that certain positions receive market based salary increases in order to place the executive in line with the market median for his or her current position, as well as appropriately compensate them for additional duties assumed as a result of the merger with ProCentury. The Committee approved that the salary of Robert S. Cubbin be increased from \$620,000 to \$650,000; the salary of Karen M. Spaun be increased from \$267,000 to \$315,000; the salary of Michael G. Costello be increased from \$276,000 to \$315,000 and the salary of Stephen A. Belden be increased from \$265,000 to \$275,000. In terms of annual bonus compensation, Towers Perrin recommended market-based increases to the targets for certain executives to align them closer to the market median for their positions. The Committee approved an increase in the annual bonus target as a percent of salary for Robert S. Cubbin from 50% to 70%; the annual bonus target of Karen M. Spaun be increased from 40% to 50%; the annual bonus target of Michael G. Costello be increased from 40% to 50% and the annual bonus target of Stephen A. Belden be increased from 40% to 50%. Towers Perrin noted that equity compensation for the named executives was well below the market median. To bring the equity compensation closer to the market median, Towers Perrin recommended and the Committee approved the long term incentive plan target as a percent of salary for Robert S. Cubbin be increased from 60% to 70%; the long term incentive plan target of Karen M. Spaun be increased from 40% to 50%; the long term incentive plan target of Michael G. Costello be increased from 40% to 50% and the long term incentive plan target of Stephen A. Belden be increased from 25% to 35%. Also, the Committee approved the use of restricted stock awards for the named executives as a way to bring them in line with the market median for their positions. If awarded, restricted stock awards would be issued annually and require as a minimum the achievement by the Company of the target so as to qualify employees for an annual bonus award and would be based upon the individual's performance. The award of restricted stock awards would be within the sole discretion of the Committee. If granted, the awards would vest over a four year period and would be subject to forfeiture in the event the executive was terminated for cause, as defined within his or her employment agreements, or voluntarily resigns his or her position.

The Committee approved the above recommendations, and on February 13, 2009, the Board of Directors approved the Committee's recommendations.

Base Salary

Base salary is established based on various criteria consisting of level of responsibility, corporate performance, personal contribution to our success, experience, expertise and market data for our competitors in the insurance industry. We provide the opportunity for our executive officers to earn a competitive annual base salary. Generally, we believe executive base salaries should be set within the competitive range of salaries for executives in similar

Table of Contents

positions at comparable companies. The Committee has established as a guideline plus or minus ten percent of the market median for the position. Base salaries are reviewed annually and merit increases are awarded based on corporate and individual performance. Merit increases are effective April 1 of a calendar year.

For 2009, aside from the market adjustments to the salary increases listed above, there were no merit increases awarded to the named executive officers.

Annual Bonus

In addition to base salaries, we have established an annual bonus plan (the Bonus Plan), which is an incentive based plan for our executive officers. We believe performance based cash bonuses are an important factor in providing incentives to executive officers to achieve corporate performance objectives. Criteria for determining the named executive officers' annual incentive bonus includes achievement of corporate performance objectives, corporate performance, personal contribution to our success, achievement of individually established goals and market data for our competitors in the insurance industry.

The Bonus Plan is a discretionary cash bonus plan premised upon a targeted growth in net after-tax earnings on a year over year basis. Each year, the Committee and our Board of Directors establish a new target based upon prior year performance and the forecasted performance levels anticipated for the following year. If the minimum threshold is met, the Bonus Plan is funded from 0% up to a maximum cap of 120% of the targeted bonus pool. The amount of the bonus pool is established by aggregating the individual targets for each participant, which is a percentage of the employee's salary. An employee's actual award may be above or below his or her target based upon achievement of corporate performance objectives and their individual performance for the year.

At the end of the year, the Committee and the Board of Directors review our performance in relation to the pre-determined performance targets and then finalize the total bonus pool available to pay cash bonuses to the executive officers and the management team based upon achievement of our corporate and individual goals. Ultimately, all targets and actual awards are reviewed and approved by the Committee and the Board of Directors.

For 2009, the Committee established fifteen performance objectives for the Company. The performance goals included financial, operational and entity-wide control objectives. The financial objectives included targets for return on equity, earnings per share, combined ratio, net operating income, gross written and net earned premium, rate and underwriting changes, leverage ratios, investment income and fee and commission revenue. The operational goals included implementation of a limited number of new programs, development and implementation of certain information technology initiatives, consideration of strategic acquisitions and continued integration of ProCentury. Further, the entity-wide control objectives included implementation of a risk assessment policy, maintenance of the internal controls over financial reporting and continued compliance with Section 404. In February 2009, the Board of Directors, upon recommendation of the Committee, established target bonus awards, based on a percentage of salary for each named executive officer. In February 2010, the Committee determined that the Company achieved substantially all of the performance objectives established for the year and recommended the following annual bonuses: Robert S. Cubbin-\$455,000; Christopher J. Timm-\$173,000; Karen S. Spaun-\$158,000; Michael G. Costello-\$158,000; and Stephen A. Belden-\$138,000. The Committee's recommendations were reviewed and approved by the Board of Directors on February 12, 2010.

Long Term Incentive Plan Compensation

We provide the opportunity for our named executive officers and other executives to earn a long-term incentive award under our Long Term Incentive Plan (the LTIP). The LTIP is intended to provide an incentive to management to improve performance over a three-year period, thereby increasing shareholder value. The LTIP is not discretionary

and is based upon a target for an average three-year return on beginning equity. One-half of any LTIP award is paid in cash and one-half is paid in common stock. The cash portion of the award is paid in three annual installments, with the first payment being paid as of the end of the performance period. The remaining two payments would be paid in the subsequent two years. Any unpaid portion of a cash award is subject to forfeiture if the participant voluntarily leaves, or is discharged for cause. The stock portion of the award is issued as a stock

Table of Contents

award under the terms and conditions of our 2002 Amended and Restated Stock Option Plan or 2009 Equity Compensation Plan as of the end of the performance period. The number of shares of common stock awarded is based upon the closing stock price at the beginning of the performance period. A participant's percentage is established by the Committee and the Board in advance of any new LTIP award.

A participant's targeted award is established at the beginning of the three-year performance period. The participant's target is a percentage of his or her salary. The Chief Executive Officer and the executive officers awards are capped at 160% of their respective salaries. Ultimately, all targets and actual awards under the LTIP are reviewed and approved by the Board of Directors both at inception and distribution.

On February 9, 2007, the Committee and the Board of Directors approved the targets for the 2007-2009 performance period (2007 LTIP Grant). However, with the ProCentury merger, the Committee and Board of Directors determined that the Company's opportunity for successfully integrating the ProCentury merger would be heightened and shareholder value increased, if all participants were in the same equity-based plan beginning in 2009. As a result, the Committee approved the termination of Company's 2007-2009 LTIP Grant effective December 31, 2008. The 2007-2009 participants received their award based on a two-year performance period, rather than a three-year period. Therefore, the total award was approximately two-thirds of the original three-year award. On February 13, 2009, the Committee and the Board of Directors approved a 100% distribution of the LTIP award for the 2007-2008 plan years, as described above, based upon the Company's performance over the amended two-year performance period. Participants received the stock portion of the award, along with one-third of the cash portion of the award. Participants received the second one-third cash payment in February 2010 and will receive their last cash payment in February 2011, subject to applicable forfeiture provisions.

Thereafter, the Company established a new 2009-2011 LTIP Grant (2009 LTIP Grant) based upon a newly established target for an average three-year return on beginning equity and growth in net operating income. Participants are not eligible for any awards under the 2009-2011 LTIP Grant until December 31, 2011, which is the end of the performance period.

Stock Options and Restricted Stock

In addition to the above variable compensation plans, we also provide for the granting of stock options or awards under our 2002 Amended and Restated Stock Options Plan and the 2009 Equity Compensation Plan, which are intended to further our interests and the interest of our shareholders by attracting, retaining, and motivating key management. The plans provide for the grant of stock options (which may be nonqualified options or incentive stock options for tax purposes) and restricted stock awards, as described above.

The Committee is authorized to determine the terms and conditions of all restricted stock awards and option grants, subject to the limitations that the option price per share may not be less than the fair market value of a share of common stock on the date of grant and the term of an option may not be longer than ten years. Payment of the option price may be made in any manner specified by the Committee (which may include payment in cash or common stock or by cashless exercise).

We did not grant any stock options or restricted stock awards in 2009 to any of the named executive officers.

Executive Perquisites

We provide the opportunity for our named executive officers to receive certain perquisites, such as automobile allowances and reimbursement for club membership dues. We also offer participation in our defined contribution 401(k) plan, as well as a non-qualified excess compensation plan. In addition, our named executive officers, as well as

other employees, may occasionally receive tickets to sporting events or entertainment for personal use if the tickets are not needed for business use, for which we do not incur incremental costs. These benefits are provided as an additional incentive for our executives and to remain competitive within the marketplace for such talent. These perquisites are summarized within the *Other Compensation Table* below.

(1) Annual Incentive Bonuses, as described above, are included in this column.

(2) The dollar amounts shown in this column represent the grant date fair value of shares awarded under the 2009 & 2007 LTIP Grant. With respect to the performance shares, the estimate of the grant date fair value assumes the vesting of 85% and 100% of the shares awarded under the 2009 & 2007 LTIP Grant, respectively. While the 2007 LTIP Grant was fully earned as of December 31, 2008; for the 2009 LTIP Grant assuming the highest level of performance is achieved (which would result in the vesting of 160% of shares awarded), the aggregate grant date fair value of the awards set forth in the table above would be:

Name	2009 (\$)
-------------	----------------------------

Robert S. Cubbin	1,092,000
Karen M. Spaun	378,000
Christopher J. Timm	465,600
Michael G. Costello	378,000
Stephen A. Belden	231,000

- (3) For 2009, the amounts shown represent the cash portion of the LTIP award for the 2009 LTIP Grant, which would be fully earned at the end of the performance period in 2011 upon achievement of the associated targets. For 2007, the amounts shown represent the cash portion of the award for the 2007 LTIP Grant, which were fully earned as of December 31, 2008. These awards are paid out in three annual installments, with the first payment being paid as of the end of the performance period. The remaining two payments will be paid in the subsequent two years. Any unpaid portion of a cash award is subject to forfeiture if the participant voluntarily leaves, or is discharged for cause.
- (4) Mr. Timm was not a named executive officer for fiscal years 2008 and 2007. Mr. Belden was not a named executive officer for fiscal year 2007.

Our Executive Nonqualified Excess Plan (the Excess Plan) is intended to be a nonqualified deferred compensation plan. The Excess Plan allows certain employees, including the named executive officers, to defer receipt of current compensation in order to provide retirement and other benefits, as provided for in the Excess Plan. Deferred amounts are credited with earnings or losses based on the rate of return of funds selected by the participants in the plan. The Excess Plan is intended to be an unfunded plan maintained primarily for the purpose of providing deferred compensation benefits for eligible employees. We do not make contributions to participants' accounts under the Excess Plan. Participants may defer up to 100% of salary and bonus payments. Distributions are made in either a lump sum or installments over a period not to exceed five years as chosen by the executive at the time of the deferral.

Pension Benefits

We do not sponsor any qualified or non-qualified defined benefit plans and therefore our named executive officers do not participate in these types of plans.

Potential Payments upon Termination or Changes in Control

We have entered into employment agreements with certain of our named executive officers. The employment agreements provide for payments of certain benefits, as outlined in the table below, upon termination. The named executive officer's rights upon termination are dependent upon certain circumstances. The employment agreements are described in further detail after the table.

EMPLOYMENT AGREEMENTS

Robert S. Cubbin and Michael G. Costello Employment Agreements

The Company entered into employment agreements with Mr. Cubbin and Mr. Costello effective January 1, 2004 through December 31, 2006. The employment agreements were amended, effective January 1, 2009. Unless either the Company or they give notice to the other party of an election not to renew their employment agreement on or before December 31, 2004, and annually thereafter, the employment agreement will automatically be extended one additional year.

Mr. Cubbin's and Mr. Costello's employment agreements provide for a base salary, along with customary increases, at the sole discretion of the Company. Upon the attainment of certain growth and profitability goals, profit center goals and personal goals and objectives, each agreement provides for a discretionary bonus. Mr. Cubbin's agreement provides for a discretionary bonus targeted at seventy percent of his base salary. Mr. Costello's agreement provides for a discretionary bonus targeted at fifty percent of his base salary.
