Forward-Looking Statements

Statements contained in this filing and certain other written or oral statements made from time to time by the company and its representatives that are not historical facts are forward-looking statements as defined in the Private Securities Litigation Reform Act of 1995. Forward-looking statements relate to current expectations regarding our future financial condition and results of operations and are often identified by the use of words and phrases such as anticipate, believe, continue, could, estimate, expect, intend, may, plan, predict, project, should, to, is expected to or will continue, or the negative of these terms or other comparable terminology. These forward-looking statements are based upon assumptions we believe are reasonable.

Forward-looking statements are based on current information and are subject to risks and uncertainties that could cause our actual results to differ materially from those projected. Certain factors that may cause actual results, performance, and achievements to differ materially from those projected are discussed in this report and may include, but are not limited to:

- unexpected changes in any of the following: (i) general economic and business conditions; (ii) the competitive setting in which we operate, including, advertising or promotional strategies by us or our competitors, as well as changes in consumer demand; (iii) interest rates and other terms available to us on our borrowings; (iv) energy and raw materials costs and availability and hedging counter-party risks; (v) relationships with our employees, independent distributors and third party service providers; and (vi) laws and regulations (including environmental and health-related issues), accounting standards or tax rates in the markets in which we operate;

- the loss or financial instability of any significant customer(s);

- our ability to execute our business strategy, which may involve integration of recent acquisitions or the acquisition or disposition of assets at presently targeted values;

- our ability to operate existing, and any new, manufacturing lines according to schedule;

- the level of success we achieve in developing and introducing new products and entering new markets;

- changes in consumer behavior, trends and preferences, including health and whole grain trends, and the movement toward more inexpensive store-branded products;

- our ability to implement new technology as required;

- the credit and business risks associated with our independent distributors and customers which operate in the highly competitive retail food and foodservice industries, including the amount of consolidation in these industries;

- changes in pricing, customer and consumer reaction to pricing actions, and the pricing environment among competitors within the industry;

- any business disruptions due to political instability, armed hostilities, incidents of terrorism, natural disasters or the responses to or repercussions from any of these or similar events or conditions and our ability to insure against such events; and

- regulation and legislation related to climate change that could affect our ability to procure our commodity needs or that necessitate additional unplanned capital expenditures.

The foregoing list of important factors does not include all such factors, nor necessarily present them in order of importance. In addition, you should consult other disclosures made by the company (such as in our other filings with the Securities and Exchange Commission (SEC) or in company press releases) for other factors that may cause actual results to differ materially from those projected by the company. Please refer to Part I, Item 1A., *Risk Factors*, of the

Edgar Filing: FLOWERS FOODS INC - Form 10-Q

company's Form 10-K filed on March 3, 2010 for additional information regarding factors that could affect the company's results of operations, financial condition and liquidity.

We caution you not to place undue reliance on forward-looking statements, as they speak only as of the date made and are inherently uncertain. The company undertakes no obligation to publicly revise or update such statements, except as required by law. You are advised, however, to consult any further public disclosures by the company (such as in our filings with the SEC or in company press releases) on related subjects.

Table of Contents**FLOWERS FOODS, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)****1. BASIS OF PRESENTATION**

INTERIM FINANCIAL STATEMENTS The accompanying unaudited condensed consolidated financial statements of Flowers Foods, Inc. (the company) have been prepared by the company s management in accordance with generally accepted accounting principles (GAAP) for interim financial information and applicable rules and regulations of the Securities Exchange Act of 1934, as amended. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for annual financial statements. In the opinion of management, the unaudited condensed consolidated financial statements included herein contain all adjustments (consisting of only normal recurring accruals) necessary to present fairly the company s financial position, the results of its operations and its cash flows. The results of operations for the sixteen week periods ended April 24, 2010 and April 25, 2009 are not necessarily indicative of the results to be expected for a full year. The balance sheet at January 2, 2010 has been derived from the audited financial statements at that date but does not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. These financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in the company s Annual Report on Form 10-K for the fiscal year ended January 2, 2010.

ESTIMATES The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. The company believes the following critical accounting estimates affect its more significant judgments and estimates used in the preparation of its consolidated financial statements: revenue recognition, derivative instruments, valuation of long-lived assets, goodwill and other intangibles, self-insurance reserves, income tax expense and accruals and pension obligations. These estimates are summarized in the company s Annual Report on Form 10-K for the fiscal year ended January 2, 2010.

REPORTING PERIODS The company operates on a 52-53 week fiscal year ending the Saturday nearest December 31. Fiscal 2010 consists of 52 weeks, with the company s quarterly reporting periods as follows: first quarter ended April 24, 2010 (sixteen weeks), second quarter ending July 17, 2010 (twelve weeks), third quarter ending October 9, 2010 (twelve weeks) and fourth quarter ending January 1, 2011 (twelve weeks).

SEGMENTS The company consists of two business segments: direct-store-delivery (DSD) and warehouse delivery. The DSD segment focuses on producing and marketing bakery products to U.S. customers in the Southeast, Mid-Atlantic, and Southwest as well as select markets in California and Nevada primarily through its DSD system. The warehouse delivery segment produces snack cakes for sale to retail, vending and co-pack customers as well as frozen bread, rolls and buns for sale to retail and foodservice customers primarily through warehouse distribution.

SIGNIFICANT CUSTOMER Following is the effect our largest customer, Wal-Mart/Sam s Club, had on the company s sales for the sixteen weeks ended April 24, 2010 and April 25, 2009. No other customer accounted for 10% or more of the company s sales.

	FOR THE SIXTEEN WEEKS	
	ENDED	
	APRIL 24, 2010	APRIL 25, 2009
	(Percent of Sales)	
DSD	18.3%	17.8%
Warehouse delivery	3.0	3.0
Total	21.3%	20.8%

SIGNIFICANT ACCOUNTING POLICIES The following discussion provides the significant changes to our critical accounting policies from those disclosed in our Form 10-K filed for the year ended January 2, 2010.

Variable Interest Entities. In 2009, the Financial Accounting Standards Board (FASB) amended the consolidation principles associated with variable interest entities (VIE). The new accounting guidance resulted in a change in our accounting policy effective January 3, 2010. The new qualitative approach, generally, replaced the quantitative-based risks and rewards calculation for determining which enterprise, if any, has a controlling financial interest in the VIE. The qualitative approach is focused on identifying which company has both the power to direct the activities of a VIE that most significantly impact

Table of Contents

the entity's economic performance and the obligation to absorb losses of the entity or the right to receive benefits from the entity. As a result of this qualitative analysis, effective January 3, 2010, the company is no longer required to consolidate the VIE that delivers a significant portion of its fresh bakery products from the company's production facilities to outlying distribution centers under a transportation agreement. The company has elected to prospectively deconsolidate the VIE. Please see Note 9, *Variable Interest Entity*, for additional disclosure.

2. COMPREHENSIVE INCOME

The company's total comprehensive income presently consists of net income, adjustments for our derivative financial instruments accounted for as cash flow hedges, and various pension and other postretirement benefit related items. Total comprehensive income attributable to Flowers Foods, Inc., determined as net income adjusted by other comprehensive income and net income attributable to noncontrolling interest, was \$43.2 million and \$44.6 million for the sixteen weeks ended April 24, 2010 and April 25, 2009, respectively.

During the sixteen weeks ended April 24, 2010, changes to accumulated other comprehensive loss, net of income tax, were as follows (amounts in thousands):

	2010
Accumulated other comprehensive loss, January 2, 2010	\$ (64,672)
Derivative transactions:	
Net deferred (loss) on closed contracts, net of income tax of \$(3,368)	(5,381)
Reclassified to earnings, net of income tax of \$4,437	7,088
Effective portion of change in fair value of hedging instruments, net of income tax of \$243	389
Amortization of prior service credits, net of income tax of \$(12)	(19)
Amortization of actuarial loss, net of income tax of \$253	404
Accumulated other comprehensive loss, April 24, 2010	\$ (62,191)

3. GOODWILL AND OTHER INTANGIBLES

The changes in the carrying amount of goodwill for the sixteen weeks ended April 24, 2010, are as follows (amounts in thousands):

	DSD	Warehouse delivery	Total
Balance as of January 2, 2010	\$ 194,581	\$ 7,101	\$ 201,682
Adjustment for deconsolidation of VIE (Note 9)	(1,529)		(1,529)
Balance as of April 24, 2010	\$ 193,052	\$ 7,101	\$ 200,153

As of April 24, 2010 and January 2, 2010, the company had the following amounts related to amortizable intangible assets (amounts in thousands):

Asset	April 24, 2010 Accumulated			January 2, 2010 Accumulated		
	Cost	Amortization	Net Value	Cost	Amortization	Net Value
Trademarks	\$ 35,268	\$ 3,619	\$ 31,649	\$ 35,268	\$ 3,144	\$ 32,124
Customer relationships	75,434	10,950	64,484	75,434	9,738	65,696
Non-compete agreements	1,874	1,322	552	1,874	1,309	565
Distributor relationships	2,600	293	2,307	2,600	240	2,360
Supply agreement	1,050	323	727	1,050	215	835

Edgar Filing: FLOWERS FOODS INC - Form 10-Q

Total	\$ 116,226	\$ 16,507	\$ 99,719	\$ 116,226	\$ 14,646	\$ 101,580
-------	------------	-----------	-----------	------------	-----------	------------

There is an additional \$1.5 million indefinite life intangible asset separately identified from goodwill.

Aggregate amortization expense for the sixteen weeks ending April 24, 2010 and April 25, 2009 was as follows (amounts in thousands):

	2010	2009
Amortizable intangible assets expense	\$ 1,861	\$ 1,714
Amortizable intangible liabilities (income)	(14)	(14)
Total	\$ 1,847	\$ 1,700

Table of Contents

Estimated amortization of intangibles for each of the next five years is as follows (amounts in thousands):

	Amortization of Intangibles
Remainder of 2010	\$ 4,156
2011	\$ 5,948
2012	\$ 5,677
2013	\$ 5,488
2014	\$ 5,389

4. RECENT ACCOUNTING PRONOUNCEMENTS

In April 2009, the FASB issued a staff position requiring fair value disclosures in both interim as well as annual financial statements in order to provide more timely information about the effects of current market conditions on financial instruments. The guidance was effective for interim and annual periods ending after June 15, 2009. Upon adoption during the second quarter of fiscal 2009, the implementation of this standard did not have a material impact on our consolidated financial position and results of operations.

In May 2009, the FASB issued new guidance on subsequent events. The standard provides guidance on management's assessment of subsequent events and incorporates this guidance into accounting literature. The standard was effective prospectively for interim and annual periods ending after June 15, 2009. See Note 16, *Subsequent Events*, for the required disclosures. In February 2010, the FASB issued new guidance that amended certain recognition and disclosure requirements for subsequent events. The guidance changed the requirement for public companies to report the date through which subsequent events were reviewed. This guidance was effective at issuance. The implementation of the standard and new guidance did not have a material impact on our consolidated financial position and results of operations.

In June 2009, the FASB issued an amendment to the accounting and disclosure requirements for the consolidation of VIEs. The guidance affects the overall consolidation analysis and requires enhanced disclosures on involvement with VIEs. The guidance is effective for fiscal years beginning after November 15, 2009. Prior to January 3, 2010, we consolidated a VIE because we determined the company was the primary beneficiary. Under the new guidance, we have determined that the company no longer qualifies as the primary beneficiary and ceased consolidating the VIE beginning in the first quarter of fiscal 2010. The company will continue to record certain of the trucks and trailers the VIE uses for distributing our products as right to use leases. See Note 9, *Variable Interest Entity*, for the required disclosures.

In June 2009, the FASB Accounting Standards Codification (Codification) was issued. The Codification is the source of authoritative U.S. GAAP recognized by the FASB to be applied by nongovernmental entities. The Codification was effective for financial statements issued for interim and annual periods ending after September 15, 2009. The implementation of this standard did not have a material impact on our consolidated financial position and results of operations.

5. ACQUISITIONS

On October 17, 2009, the company acquired 100% of the outstanding shares of capital stock of Leo's Foods, Inc. (Leo's). Leo's operates one tortilla facility in Ft. Worth, Texas and makes an extensive line of flour and corn tortillas and tortilla chips that are sold to foodservice and institutional customers nationwide. This acquisition is recorded in the company's warehouse delivery segment and resulted in goodwill of \$2.6 million, none of which is deductible for tax purposes.

On May 15, 2009, the company acquired substantially all the assets of a bakery mix operation in Cedar Rapids, Iowa. Based on the purchase price allocation, the fair value of the identifiable assets acquired and liabilities assumed exceeded the fair value of the consideration paid. As a result, we recognized a gain of \$3.0 million in the second quarter of fiscal 2009, which is included in the line item "Gain on acquisition" to derive income from operations in the consolidated statement of income for the fifty-two weeks ended January 2, 2010. We believe the gain on acquisition resulted from the seller's strategic intent to exit a non-core business operation. This acquisition is recorded in the

company's warehouse delivery segment.

Table of Contents**6. FAIR VALUE OF FINANCIAL INSTRUMENTS**

The carrying value of cash and cash equivalents, accounts receivable and short-term debt approximates fair value because of the short-term maturity of the instruments. Notes receivable are entered into in connection with the purchase of distributors' territories by independent distributors. These notes receivable are recorded in the consolidated balance sheet at carrying value which represents the closest approximation of fair value. In accordance with GAAP, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. As a result, the appropriate interest rate that should be used to estimate the fair value of the distributor notes is the prevailing market rate at which similar loans would be made to distributors with similar credit ratings and for the same maturities. However, the company utilizes approximately 3,500 independent distributors all with varied financial histories and credit risks. Considering the diversity of credit risks among the independent distributors, the company has no method to accurately determine a market interest rate to apply to the notes. The territories are generally financed over ten years bearing an interest rate of 12% and the distributor notes are collateralized by the independent distributors' territories. The fair value of the company's long-term debt at April 24, 2010 approximates the recorded value.

During the sixteen weeks ending April 24, 2010 and April 25, 2009, \$3.9 million and \$4.1 million, respectively, was recorded as interest income relating to the distributor notes. At April 24, 2010 and January 2, 2010, the carrying value of the distributor notes was \$105.1 million and \$107.1 million, respectively, of which the current portion of \$12.7 million and \$12.6 million, respectively, is recorded in accounts and notes receivable, net. At April 24, 2010 and January 2, 2010, the company has evaluated the collectibility of the distributor notes and determined that a reserve is not necessary. Payments on these distributor notes are collected by the company weekly in the distributor settlement process.

7. DERIVATIVE FINANCIAL INSTRUMENTS

In the first fiscal quarter of fiscal 2008, the company began measuring the fair value of its derivative portfolio using the fair value as the price that would be received to sell an asset or paid to transfer a liability in the principal market for that asset or liability. These measurements are classified into a hierarchy by the inputs used to perform the fair value calculation as follows:

Level 1: Fair value based on unadjusted quoted prices for identical assets or liabilities in active markets

Level 2: Modeled fair value with model inputs that are all observable market values

Level 3: Modeled fair value with at least one model input that is not an observable market value

This change in measurement technique had no material impact on the reported value of our derivative portfolio.

COMMODITY PRICE RISK

The company enters into commodity derivatives, designated as cash-flow hedges of existing or future exposure to changes in commodity prices. The company's primary raw materials are flour, sweeteners and shortening, along with pulp, paper and petroleum-based packaging products. Natural gas, which is used as oven fuel, is also an important commodity input to production.

As of April 24, 2010, the company's hedge portfolio contained commodity derivatives with a fair value of \$(2.9) million, which is recorded in the following accounts with fair values measured as indicated (amounts in millions):

	Level 1	Level 2	Level 3	Total
Assets:				
Other current	\$ 1.3	\$	\$	\$ 1.3
Other long-term				
Total	1.3			1.3
Liabilities:				
Other current	(1.4)	(2.3)		(3.7)
Other long-term		(0.5)		(0.5)

Edgar Filing: FLOWERS FOODS INC - Form 10-Q

Total	(1.4)	(2.8)	(4.2)
Net Fair Value	\$ (0.1)	\$ (2.8)	\$ (2.9)

Table of Contents

The positions held in the portfolio are used to hedge economic exposure to changes in various raw material prices and effectively fix the price, or limit increases in prices, for a period of time extending into fiscal 2011. These instruments are designated as cash-flow hedges. The effective portion of changes in fair value for these derivatives is recorded each period in other comprehensive income (loss), and any ineffective portion of the change in fair value is recorded to current period earnings in selling, distribution and administrative expenses. The company held no commodity derivatives at April 24, 2010 or January 2, 2010 that did not qualify for hedge accounting.

As of April 24, 2010, the balance in accumulated other comprehensive loss related to commodity derivative transactions was \$5.5 million. Of this total, approximately \$1.7 million and \$0.1 million were related to instruments expiring in 2010 and 2011, respectively, and \$3.7 million was related to deferred losses on cash flow hedge positions.

INTEREST RATE RISK

The company entered into interest rate swaps with notional amounts of \$85.0 million, and \$65.0 million, respectively, to fix the interest rate on the \$150.0 million term loan secured on August 1, 2008 to fund the acquisitions of ButterKrust Bakery and Holsum Bakery, Inc. On October 27, 2008, the company entered an interest rate swap with a notional amount of \$50.0 million to fix the interest rate on borrowings outstanding under the company's unsecured credit facility through September 30, 2009.

The interest rate swap agreements result in the company paying or receiving the difference between the fixed and floating rates at specified intervals calculated based on the notional amount. The interest rate differential to be paid or received will be recorded as interest expense. These swap transactions are designated as cash-flow hedges. Accordingly, the effective portion of changes in the fair value of the swaps is recorded each period in other comprehensive income. Any ineffective portions of changes in fair value are recorded to current period earnings in selling, distribution and administrative expenses.

As of April 24, 2010, the fair value of the interest rate swaps was \$(6.9) million, which is recorded in the following accounts with fair values measured as indicated (amounts in millions):

	Level 1	Level 2	Level 3	Total
Liabilities:				
Other current	\$	\$ (4.1)	\$	\$ (4.1)
Other long-term		(2.8)		(2.8)
Total		(6.9)		(6.9)
Net Fair Value	\$	\$ (6.9)	\$	\$ (6.9)

During the sixteen weeks ended April 24, 2010, interest expense of \$1.5 million was recognized due to periodic settlements of the swap agreements.

As of April 24, 2010, the balance in accumulated other comprehensive loss related to interest rate derivative transactions was \$4.3 million. Of this total, approximately \$1.9 million, \$1.7 million, \$0.6 million, and \$0.1 million was related to instruments expiring in 2010, 2011, 2012, and 2013, respectively.

The company has the following derivative instruments located on the consolidated balance sheet, utilized for risk management purposes detailed above (amounts in thousands):

	Derivative Assets				Derivative Liabilities			
	April 24, 2010		January 2, 2010		April 24, 2010		January 2, 2010

Flow Hedge Relationships			
Interest rate contracts	Selling, distribution and administrative expenses	\$	\$
Commodity contracts	Selling, distribution and administrative expenses		(617)
Total		\$	\$ (617)

As of April 24, 2010, the company had the following outstanding financial contracts that were entered to hedge commodity and interest rate risk:

Derivative in Cash Flow Hedge Relationship	Notional amount (millions)
Interest rate contracts	\$ 127.5
Wheat contracts	70.2
Soybean oil contracts	9.4
Natural gas contracts	12.4
Total	\$ 219.5

The company's derivative instruments contain no credit-risk-related contingent features at April 24, 2010.

8. DEBT AND OTHER OBLIGATIONS

Long-term debt and capital leases consisted of the following at April 24, 2010 and January 2, 2010 (amounts in thousands):

	April 24, 2010	January 2, 2010
Unsecured credit facility	\$ 55,000	\$ 89,000
Unsecured term loan	127,500	131,250
Capital lease obligations	12,244	26,555
Other notes payable	3,213	4,863
	197,957	251,668
Less current maturities	24,398	25,763
Total long-term debt and capital leases	\$ 173,559	\$ 225,905

On August 1, 2008, the company entered into a Credit Agreement (term loan) with various lending parties for the purpose of completing two acquisitions. The term loan provides for amortizing \$150.0 million of borrowings through the maturity date of August 4, 2013. The term loan includes certain customary restrictions, which, among other things, require maintenance of financial covenants and limit encumbrance of assets and creation of indebtedness. Restrictive financial covenants include such ratios as a minimum interest coverage ratio and a maximum leverage ratio. The company believes that, given its current cash position, its cash flow from operating activities and its available credit capacity, it can comply with the current terms of the term loan and can meet presently foreseeable financial requirements. As of April 24, 2010 and January 2, 2010, the company was in compliance with all restrictive financial covenants under the term loan.

Table of Contents

Interest is due quarterly in arrears on outstanding borrowings at a customary Eurodollar rate or the base rate plus the applicable margin. The underlying rate is defined as the rate offered in the interbank Eurodollar market or the higher of the prime lending rate or federal funds rate plus 0.5%. The applicable margin ranges from 0.0% to 1.375% for base rate loans and from 0.875% to 2.375% for Eurodollar loans and is based on the company's leverage ratio. Principal payments began on December 31, 2008 and are due quarterly under the term loan at an annual amortization of 10% of the principal balance for the first two years, 15% during the third year, 20% during the fourth year, and 45% during the fifth year. The company paid financing costs of \$0.8 million in connection with the term loan, which is being amortized over the life of the term loan.

The company has a five-year, \$250.0 million unsecured revolving loan facility (the "credit facility") expiring October 5, 2012. The company may request to increase its borrowings under the credit facility up to an aggregate of \$350.0 million upon the satisfaction of certain conditions. Proceeds from the credit facility may be used for working capital and general corporate purposes, including acquisition financing, refinancing of indebtedness and share repurchases. The credit facility includes certain customary restrictions, which, among other things, require maintenance of financial covenants and limit encumbrance of assets and creation of indebtedness. Restrictive financial covenants include such ratios as a minimum interest coverage ratio and a maximum leverage ratio. The company believes that, given its current cash position, its cash flow from operating activities and its available credit capacity, it can comply with the current terms of the credit facility and can meet presently foreseeable financial requirements. As of April 24, 2010 and January 2, 2010, the company was in compliance with all restrictive financial covenants under its credit facility.

Interest is due quarterly in arrears on any outstanding borrowings at a customary Eurodollar rate or the base rate plus the applicable margin. The underlying rate is defined as rates offered in the interbank Eurodollar market or the higher of the prime lending rate or federal funds rate plus 0.5%. The applicable margin ranges from 0.0% to 0.30% for base rate loans and from 0.40% to 1.275% for Eurodollar loans. In addition, a facility fee ranging from 0.10% to 0.35% is due quarterly on all commitments under the credit facility. Both the interest margin and the facility fee are based on the company's leverage ratio. Financing costs of \$0.9 million were deferred and are being amortized over the term of the credit facility.

Book overdrafts occur when checks have been issued but have not been presented to the bank for payment. These bank accounts allow us to delay funding of issued checks until the checks are presented for payment. A delay in funding results in a temporary source of financing from the bank. The activity related to book overdrafts is shown as a financing activity in our consolidated statements of cash flows. Book overdrafts are included in other current liabilities on our consolidated balance sheets. As of April 24, 2010 and January 2, 2010, the book overdraft balance was \$8.4 million and \$11.1 million, respectively.

9. VARIABLE INTEREST ENTITY

The company maintains a transportation agreement with an entity that transports a significant portion of the company's fresh bakery products from the company's production facilities to outlying distribution centers. The company represents a significant portion of the entity's revenue. This entity qualifies as a VIE. Under previous accounting guidance, we consolidated the VIE in our consolidated financial statements from the first quarter of 2004 through the fourth quarter of 2009 because during that time the company was considered to be the primary beneficiary. Under the revised principles, which became effective January 3, 2010, we have determined that the company is no longer the primary beneficiary and we deconsolidated the VIE in our financial statements. The VIE does not effect the line item *Net income attributable to Flowers Foods, Inc.* since the company has no interest in any net earnings or losses of the VIE through equity participation. The VIE has collateral that is sufficient to meet its capital lease and other debt obligations and the owner of the VIE personally guarantees the obligations of the VIE. The VIE's creditors have no recourse against the general credit of the company.

The company has no exposure to gains or losses of the VIE in reporting its net income. In addition, the company does not have explicit or implied power over any of the significant activities to operate the VIE. The primary beneficiary of the VIE realizes the economic benefits and losses incurred and has the power to direct most of the significant activities. The VIE is permitted to pass along increases in their costs, with company approval, at a capped increase of 2% per year. The company and the VIE also agree on a rebate paid or credited to the company depending

on the profitability of the VIE in the preceding year. We do not guarantee the VIE's specific returns or performance benchmarks. In addition, if a manufacturing facility closes or there is a loss of market share causing the VIE to have to move their equipment the company will make an effort to move the equipment to another manufacturing facility. If the company is unable to do so, we will reimburse the VIE for any losses incurred in the disposal of the equipment and will pay the cost to transfer the equipment. The company's maximum loss exposure for the truck disposals is the difference in the estimated fair value of the trucks from the book value.

As part of the deconsolidation of the VIE, the company concluded that certain of the trucks and trailers the VIE uses for distributing our products from the manufacturing facilities to the distribution centers qualify as right to use leases. The amount for property, plant

Table of Contents

and equipment and capital lease obligations was \$11.9 million at January 3, 2010. As of April 24, 2010, there was \$11.0 million in net property, plant and equipment and capital lease obligations associated with the right to use leases.

Following is the effect of the VIE during the sixteen weeks ended April 25, 2009:

	SIXTEEN WEEKS ENDED APRIL 25, 2009	
	VIE	% OF TOTAL
	(Dollars in thousands)	
Assets as of respective quarter ends	\$ 33,268	2.5%
Sales	\$ 1,528	0.2%
Income before income taxes	\$ 452	0.8%

The assets consisted primarily of \$22.9 million as of April 25, 2009 of transportation equipment recorded as capital lease obligations.

10. LITIGATION

The company and its subsidiaries from time to time are parties to, or targets of, lawsuits, claims, investigations and proceedings, which are being handled and defended in the ordinary course of business. While the company is unable to predict the outcome of these matters, it believes, based upon currently available facts, that it is remote that the ultimate resolution of any such pending matters will have a material adverse effect on its overall financial condition, results of operations or cash flows in the future. However, adverse developments could negatively impact earnings in a particular future fiscal period.

On July 23, 2008, a wholly-owned subsidiary of the company filed a lawsuit against Hostess Brands, Inc. (Hostess) (formerly Interstate Bakeries Corporation) in the United States District Court for the Northern District of Georgia. The complaint alleges that Hostess is infringing upon Flowers *Nature's Own* trademarks by using or intending to use the *Nature's Pride* trademark. Flowers asserts that Hostess' sale or intended sale of baked goods under the *Nature's Pride* trademark is likely to cause confusion with, and likely to dilute the distinctiveness of, the *Nature's Own* mark and constitutes unfair competition and deceptive trade practices. Flowers is seeking actual damages, an accounting of Hostess' profits from its sales of *Nature's Pride* products, and injunctive relief.

The company's facilities are subject to various federal, state and local laws and regulations regarding the discharge of material into the environment and the protection of the environment in other ways. The company is not a party to any material proceedings arising under these regulations. The company believes that compliance with existing environmental laws and regulations will not materially affect the consolidated financial condition or the competitive position of the company. The company is currently in substantial compliance with all material environmental regulations affecting the company and its properties.

11. EARNINGS PER SHARE

The following is a reconciliation of net income attributable to Flowers Foods, Inc. and weighted average shares for calculating basic and diluted earnings per common share for the sixteen weeks ended April 24, 2010 and April 25, 2009 (amounts in thousands, except per share data):

	For the Sixteen Weeks Ended	
	April 24, 2010	April 25, 2009
Net income attributable to Flowers Foods, Inc.	\$ 40,687	\$ 37,381
Dividends on participating securities not expected to vest*		
Net income attributable to common and participating shareholders	\$ 40,687	\$ 37,381

Basic Earnings Per Common Share:

Edgar Filing: FLOWERS FOODS INC - Form 10-Q

Weighted average shares outstanding for common stock	91,251	92,311
Weighted average shares outstanding for participating securities	266	412
Basic weighted average shares outstanding for common stock	91,517	92,723
Basic earnings per common share attributable to Flowers Foods, Inc. common shareholders	\$ 0.44	\$ 0.40
Diluted Earnings Per Common Share:		
Basic weighted average shares outstanding for common stock	91,517	92,723
Add: Shares of common stock assumed issued upon exercise of stock options and vesting of restricted stock	687	515
Diluted weighted average shares outstanding for common stock	92,204	93,238
Diluted earnings per common share attributable to Flowers Foods, Inc. common shareholders	\$ 0.44	\$ 0.40

* The company expects all participating securities share awards outstanding at April 24, 2010 and April 25, 2009 to vest.

Stock options to purchase 2,128,925 shares and 1,841,417 shares of common stock were not included in the computation of diluted earnings per share for the sixteen weeks ended April 24, 2010 and April 25, 2009, respectively, because their effect would have been anti-dilutive.

Table of Contents**12. STOCK BASED COMPENSATION**

Our 2001 Equity and Performance Incentive Plan, as amended and restated as of April 1, 2009, (EPIP) authorizes the compensation committee of the Board of Directors to make awards of options to purchase our common stock, restricted stock, performance stock and units and deferred stock. Our officers, key employees and non-employee directors (whose grants are generally approved by the full Board of Directors) are eligible to receive awards under the EPIP. The aggregate number of shares that may be issued or transferred under the EPIP is 18,625,000 shares. Over the life of the EPIP, the company has only issued options, restricted stock and deferred stock. The following is a summary of stock options, restricted stock, and deferred stock outstanding under the EPIP. Information relating to the company's stock appreciation rights which are not issued under the EPIP is also disclosed below.

Stock Options

The following non-qualified stock options (NQSOs) have been granted under the EPIP with service period remaining. The Black-Scholes option-pricing model was used to estimate the grant date fair value (amounts in thousands, except price data and as indicated):

Grant date	2/9/2010	2/9/2009	2/4/2008
Shares granted	1,136	993	850
Exercise price(\$)	25.01	23.84	24.75
Vesting date	2/9/2013	2/9/2012	2/4/2011
Fair value per share(\$)	5.54	5.87	5.80
Dividend yield(%) ⁽¹⁾	3.00	2.20	1.90
Expected volatility(%) ⁽²⁾	30.60	31.80	27.30
Risk-free interest rate(%) ⁽³⁾	2.35	2.00	2.79
Expected option life (years) ⁽⁴⁾	5.00	5.00	5.00
Outstanding at April 24, 2010	1,136	993	848

1. Dividend yield estimated yield based on the historical dividend payment for the four most recent dividend payments prior to the grant date.
2. Expected volatility based on historical volatility over the expected term using daily stock prices.
3. Risk-free interest rate United States Treasury

Constant
Maturity rates
as of the grant
date over the
expected term.

4. Expected option life The 2008, 2009, and 2010 grant assumptions are based on the simplified formula determined in accordance with Staff Accounting Bulletin No. 110. The company does not have sufficient historical exercise behavior data to reasonably estimate the expected option life.

The stock option activity for the sixteen weeks ended April 24, 2010 pursuant to the EPIP is set forth below (amounts in thousands, except price data):

	Options	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term (Years)	Aggregate Intrinsic Value
Outstanding at January 2, 2010	3,734	\$ 20.34		
Granted	1,136	\$ 25.01		
Exercised	(131)	\$ 19.25		
Outstanding at April 24, 2010	4,739	\$ 21.49	4.89	\$ 20,348
Exercisable at April 24, 2010	1,792	\$ 16.46	3.25	\$ 16,696

As of April 24, 2010, all options outstanding under the EPIP had an average exercise price of \$21.49 and a weighted average remaining contractual life of 4.9 years.

As of April 24, 2010, there was \$9.8 million of total unrecognized compensation expense related to nonvested stock options. This cost is expected to be recognized over a weighted-average period of 1.7 years.

Table of Contents

The cash received, the (shortfall) windfall tax (expense) benefit, and intrinsic value from stock option exercises for the sixteen weeks ended April 24, 2010 and April 25, 2009 were as follows (amounts in thousands):

	April 24, 2010	April 25, 2009
Cash received from option exercises	\$2,531	\$1,397
Cash tax (shortfall) windfall, net	\$ (34)	\$ 921
Intrinsic value of stock options exercised	\$ 736	\$2,700

Generally, if the employee dies, becomes disabled or retires, the nonqualified stock options immediately vest and must be exercised within two years. In addition, nonqualified stock options will vest if the company undergoes a change in control.

Performance-Contingent Restricted Stock

Certain key employees have been granted performance-contingent restricted stock. The 2009 and 2010 awards generally vest two years from the date of grant and the 2009 award requires the return on invested capital to exceed the weighted average cost of capital by 2.5% (the ROI Target) over the two fiscal years immediately preceding the vesting date. The 2010 award requires the ROI target to be 3.75% over the two fiscal years immediately preceding the vesting date. If the ROI Target is not met the awards are forfeited. Furthermore, each grant of performance-contingent restricted stock will be adjusted as set forth below:

if the ROI Target is satisfied, then the performance-contingent restricted stock grant may be adjusted based on the company's total return to shareholders (Company TSR) percent rank as compared to the total return to shareholders of the S&P Packaged Food & Meat Index (S&P TSR) in the manner set forth below:

If the Company TSR rank is equal to the 50th percentile of the S&P TSR, then no adjustment;

If the Company TSR rank is less than the 50th percentile of the S&P TSR, the grant shall be reduced by 1.3% for each percentile below the 50th percentile that the Company TSR is less than the 50th percentile of S&P TSR, but in no event shall such reduction exceed 20%; or

If the Company TSR rank is greater than the 50th percentile of the S&P TSR, the grant shall be increased by 1.3% for each percentile above the 50th percentile that Company TSR is greater than the 50th percentile of S&P TSR, but in no event shall such increase exceed 20%.

In connection with the vesting of 209,950 shares of restricted stock granted in February 2008, during the sixteen weeks ended April 24, 2010, an additional 41,990 common shares were issued in the aggregate to these certain key employees because the company exceeded the S&P TSR by the maximum amount.

The performance-contingent restricted stock generally vests immediately if the grantee dies or becomes disabled. However, at retirement the grantee will receive a pro-rata number of shares through the grantee's retirement date at the normal vesting date. In addition, the performance-contingent restricted stock will immediately vest at the grant date award level without adjustment if the company undergoes a change in control. During the vesting period, the grantee is treated as a normal shareholder with respect to dividend and voting rights on the restricted shares for the 2009 grant. The 2010 grant does not include the right to receive dividends until vesting. Dividends declared and paid during the vesting period will accrue and will be paid at vesting. The fair value estimate was determined using a *Monte Carlo* simulation model, which utilizes multiple input variables to determine the probability of the company achieving the market condition discussed above. Inputs into the model included the following for the company and comparator companies: (i) total stockholder return from the beginning of the performance cycle through the measurement date; (ii) volatility; (iii) risk-free interest rates; and (iv) the correlation of the comparator companies' total stockholder return. The inputs are based on historical capital market data.

Table of Contents

The following restricted stock awards have been granted under the EPIP since fiscal 2008 (amounts in thousands, except price data):

Grant date	2/9/2010	2/9/2009	2/4/2008
Shares granted	179	204	210
Vesting date	2/9/2012	2/9/2011	2/4/2010
Fair value per share	\$ 26.38	\$ 24.96	\$ 27.03
Expense during the sixteen weeks ended April 24, 2010	\$ 544	\$ 784	\$ 218
Expense during the sixteen weeks ended April 25, 2009	\$	\$ 588	\$ 873

A summary of the status of the company's nonvested shares as of April 24, 2010, and changes during the quarter ended April 24, 2010, is presented below (amounts in thousands, except price data):

	Shares	Weighted Average Grant Date Fair Value
Nonvested at January 2, 2010	414	\$ 26.01
Granted	179	\$ 26.38
Vested	(210)	\$ 27.03
Forfeited		\$
Nonvested at April 24, 2010	383	\$ 25.62

As of April 24, 2010, there was \$6.1 million of total unrecognized compensation cost related to nonvested restricted stock granted by the EPIP. That cost is expected to be recognized over a weighted-average period of 1.3 years. The total fair value of shares vested during the period ended April 24, 2010 was \$5.1 million.

Stock Appreciation Rights

Prior to 2007, the company allowed non-employee directors to convert their retainers and committee chairman fees into rights. These rights vest after one year and can be exercised over nine years. The company records compensation expense for these rights at a measurement date based on changes between the grant price and an estimated fair value of the rights using the *Black-Scholes* option-pricing model.

The fair value of the rights at April 24, 2010 ranged from \$9.67 to \$22.95. The following assumptions were used to determine fair value of the rights discussed above using the *Black-Scholes* option-pricing model at April 24, 2010: dividend yield 3.0%; expected volatility 30.0%; risk-free interest rate 2.63% and expected life of 0.70 years to 3.05 years. During the sixteen weeks ended April 24, 2010 and April 25, 2009 the company recorded expense of \$0.4 million and \$0.01 million, respectively, related to these rights.

The rights activity for the sixteen weeks ended April 24, 2010 is set forth below (amounts in thousands except price data):

	Rights	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term (Years)	Aggregate Intrinsic Value
Outstanding at January 2, 2010	231	\$ 11.14		
Rights exercised				
Rights forfeited				

Outstanding at April 24, 2010	231	\$	11.14	3.61	\$	3,402
-------------------------------	-----	----	-------	------	----	-------

Deferred Stock

Pursuant to the EPIP, the company allows non-employee directors to convert their retainers into deferred stock. The deferred stock has a minimum two year vesting period and will be distributed to the individual at a time designated by the individual at the date of conversion. During the first quarter of fiscal 2010 an aggregate of 17,960 shares were converted. The company records compensation expense for this deferred stock over the two-year minimum vesting period based on the closing price of the company's common stock on the date of conversion.

18

Table of Contents

Pursuant to the EPIP non-employee directors also receive annual grants of deferred stock. This deferred stock vests over one year from the grant date. During the second quarter of fiscal 2009, non-employee directors were granted an aggregate of 47,300 shares of deferred stock. There was an additional grant of 1,860 shares during the First quarter of fiscal 2010 based on a pro-rated share amount for a new director whose term began on January 1, 2010. The deferred stock will be distributed to the grantee at a time designated by the grantee at the date of grant. Compensation expense is recorded on this deferred stock over the one year minimum vesting period. During the second quarter of fiscal 2009 a total of 14,320 shares were exercised for deferred shares issued under the fiscal 2008 grant.

The deferred stock activity for the sixteen weeks ended April 24, 2010 is set forth below (amounts in thousands, except price data):

		Weighted Average Grant Price	Weighted Average Remaining Contractual Term (Years)	Aggregate Intrinsic Value
Outstanding at January 2, 2010	130	\$ 21.90		
Deferred stock issued	20	\$ 21.83		
Deferred stock exercised	(6)	\$ 23.05		
Outstanding at April 24, 2010	144	\$ 21.84	0.62	\$ 584

The following table summarizes the company's stock based compensation expense for the sixteen weeks ended April 24, 2010 and April 25, 2009 (amounts in thousands):

	April 24, 2010	April 25, 2009
Stock options	\$ 2,410	\$ 1,457
Restricted stock	1,546	1,631
Stock appreciation rights	366	10
Deferred stock	431	429
Total stock based compensation	\$ 4,753	\$ 3,527

13. POST-RETIREMENT PLANS

The following summarizes the company's balance sheet related pension and other postretirement benefit plan accounts at April 24, 2010 as compared to accounts at January 2, 2010 (amounts in thousands):

	AS OF	
	April 24, 2010	January 2, 2010
Noncurrent benefit asset	\$	\$
Current benefit liability	\$ 841	\$ 841
Noncurrent benefit liability	\$67,660	\$68,140
Accumulated other comprehensive loss	\$52,423	\$52,808

Defined Benefit Plans

The company has trustee, noncontributory defined benefit pension plans covering certain employees. The benefits are based on years of service and the employees' career earnings. The plans are funded at amounts deductible for income tax purposes but not less than the minimum funding required by the Employee Retirement Income Security

Act of 1974 (ERISA). As of April 24, 2010, the assets of the plans included certificates of deposit, marketable equity securities, mutual funds, corporate and government debt securities, private and public real estate partnerships, other diversifying strategies and annuity contracts. Effective January 1, 2006, the company curtailed the defined benefit plan that covers the majority of its workforce. Benefits under this plan were frozen, and no future benefits will accrue under this plan. The company continues to maintain a plan that covers a small number of certain union employees. During the sixteen weeks ended April 24, 2010 the company contributed \$0.2 million to company pension plans.

Table of Contents

The net periodic pension cost for the company's plans include the following components (amounts in thousands):

	FOR THE SIXTEEN WEEKS ENDED	
	APRIL 24, 2010	APRIL 25, 2009
Service cost	\$ 119	\$ 96
Interest cost	5,743	5,744
Expected return on plan assets	(6,358)	(5,826)
Amortization of net loss	670	839
Total net periodic benefit cost	\$ 174	\$ 853

The company also has several smaller Defined Benefit Plans associated with recent acquisitions that will be merged into the Flowers Foods Defined Benefit Plans after receipt of final determination letters.

Post-retirement Benefit Plan

The company provides certain medical and life insurance benefits for eligible retired employees. The medical plan covers eligible retirees under the active medical plans. The plan incorporates an up-front deductible, coinsurance payments and retiree contributions at various premium levels. Eligibility and maximum period of coverage is based on age and length of service.

The net periodic postretirement benefit cost for the company includes the following components (amounts in thousands):

	FOR THE SIXTEEN WEEKS ENDED	
	APRIL 24, 2010	APRIL 25, 2009
Service cost	\$ 198	\$ 265
Interest cost	271	342
Amortization of net (gain) loss	(13)	11
Amortization of prior service (credit) cost	(31)	102
Total net periodic benefit cost	\$ 425	\$ 720

401(k) Retirement Savings Plan

The Flowers Foods 401(k) Retirement Savings Plan (the Plan) covers substantially all of the company's employees who have completed certain service requirements. The cost and contributions for those employees who also participate in the defined benefit pension plan is 25% of the first \$400 contributed by the employee. Prior to January 1, 2006, the costs and contributions for employees who do not participate in the defined benefit pension plan was 2% of compensation and 50% of the employees' contributions, up to 6% of compensation. Effective January 1, 2006, the costs and contributions for employees who do not participate in the defined benefit pension plan increased to 3% of compensation and 50% of the employees' contributions, up to 6% of compensation. During the sixteen weeks ended April 24, 2010 and April 25, 2009, the total cost and contributions were \$5.5 million and \$5.2 million, respectively.

The company also has several smaller 401(k) Plans associated with recent acquisitions that will be merged into the Flowers Foods 401(k) Retirement Savings Plan after receipt of final determination letters.

14. INCOME TAXES

The company's effective tax rate for the first quarter of fiscal 2010 was 35.6%. This rate is equal to the 2009 annual effective rate which included the benefit of favorable discrete items and the non-taxable earnings of the previously

consolidated VIE. The company's current effective rate is favorably impacted by the increase in the Section 199 qualifying production activities deduction. The difference in the effective rate and the statutory rate is primarily due to state income taxes and the Section 199 qualifying production activities deduction.

During the first quarter of fiscal 2010, the company's activity with respect to its FIN 48 reserve and related interest expense accrual was immaterial. At this time, we do not anticipate significant changes to the amount of gross unrecognized tax benefits over the next twelve months.

Table of Contents**15. SEGMENT REPORTING**

DSD produces fresh and frozen packaged bread and rolls and warehouse delivery produces frozen bread and rolls, tortillas and snack products. The company evaluates each segment's performance based on income or loss before interest and income taxes, excluding unallocated expenses and charges which the company's management deems to be an overall corporate cost or a cost not reflective of the segment's core operating businesses. Information regarding the operations in these reportable segments is as follows:

	FOR THE SIXTEEN WEEKS ENDED	
	APRIL 24, 2010	APRIL 25, 2009
SALES:		
DSD	\$ 653,778	\$ 672,993
Warehouse delivery	184,945	174,631
Eliminations:		
Sales from warehouse delivery to DSD	(36,093)	(35,899)
Sales from DSD to warehouse delivery	(7,604)	(4,718)
	\$ 795,026	\$ 807,007
DEPRECIATION AND AMORTIZATION:		
DSD	\$ 20,102	\$ 19,537
Warehouse delivery	5,536	4,646
Other	(1)	94
	\$ 25,637	\$ 24,277
INCOME (LOSS) FROM OPERATIONS:		
DSD	\$ 60,683	\$ 56,930
Warehouse delivery	13,533	14,224
Other	(12,176)	(11,908)
	\$ 62,040	\$ 59,246
NET INTEREST INCOME	\$ 1,131	\$ 459
INCOME BEFORE INCOME TAXES	\$ 63,171	\$ 59,705

Sales by product category in each reportable segment are as follows (amounts in thousands):

	For the 16 Weeks Ended April 24, 2010			For the 16 Weeks Ended April 25, 2009		
	DSD	Warehouse Delivery	Total	DSD	Warehouse Delivery	Total
Branded Retail	\$ 380,015	\$ 43,007	\$ 423,022	\$ 374,959	\$ 40,185	\$ 415,144

Total	\$ 646,174	\$ 148,852	\$ 795,026	\$ 668,275	\$ 138,732	\$ 807,007
-------	------------	------------	------------	------------	------------	------------

16. SUBSEQUENT EVENTS

The company has evaluated subsequent events since April 24, 2010, the date of these financial statements. There were no events or transactions discovered during this evaluation that require recognition or disclosure in the financial statements.

Table of Contents**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

The following discussion of the financial condition and results of operations of the company as of and for the sixteen week period ended April 24, 2010 should be read in conjunction with the company's Annual Report on Form 10-K for the fiscal year ended January 2, 2010.

OVERVIEW:

Flowers Foods is one of the nation's leading producers and marketers of packaged bakery foods for retail and foodservice customers. The company produces breads, buns, rolls, tortillas, snack cakes and pastries that are distributed fresh to U.S. customers in the Southeast, Mid-Atlantic, and Southwest as well as select markets in California and Nevada and frozen to customers nationwide. Our businesses are organized into two reportable segments: direct-store-delivery (DSD) and warehouse delivery. The DSD segment focuses on the production and marketing of bakery products to U.S. customers in the Southeast, Mid-Atlantic, and Southwest as well as select markets in California and Nevada primarily through its DSD system. The warehouse delivery segment produces snack cakes for sale to co-pack, retail and vending customers nationwide as well as frozen bread, rolls, buns and tortillas for sale to retail and foodservice customers nationwide primarily through warehouse distribution.

We aim to achieve consistent and sustainable growth in sales and earnings by focusing on improvement in the operating results of our existing businesses and, after detailed analysis, acquiring businesses and properties that add value to the company. We believe this consistent and sustainable growth will build value for our shareholders.

Sales are principally affected by pricing, quality, brand recognition, new product introductions and product line extensions, marketing and service. The company manages these factors to achieve a sales mix favoring its higher-margin branded products, while using private label products to absorb overhead costs and maximize use of production capacity. During the first quarter of 2010, our results were negatively impacted by the competitive landscape and higher promotional activity within the baking industry. Sales for the quarter ended April 24, 2010 decreased 1.5% from the quarter ended April 25, 2009. This decrease was primarily due to negative pricing and mix shifts of 2.4%, a decrease in volume of 0.7% and the effect of the variable interest entity (VIE) deconsolidation negatively impacted sales 0.2%. Acquisitions contributed 1.8%, partially offsetting these decreases.

Commodities, such as our baking ingredients, periodically experience price fluctuations, and, for that reason, we continually monitor the market for these commodities. The cost of these inputs may fluctuate widely due to government policy and regulation, weather conditions, domestic and international demand or other unforeseen circumstances. We enter into forward purchase agreements and derivative financial instruments to reduce the impact of such volatility in raw materials prices. Any decrease in the availability of these agreements and instruments could increase the price of these raw materials and significantly affect our earnings.

CRITICAL ACCOUNTING POLICIES:

Our financial statements are prepared in accordance with generally accepted accounting principles (GAAP). These principles are numerous and complex. Our significant accounting policies are summarized in the company's Annual Report on Form 10-K for the fiscal year ended January 2, 2010. In many instances, the application of GAAP requires management to make estimates or to apply subjective principles to particular facts and circumstances. A variance in the estimates used or a variance in the application or interpretation of GAAP could yield a materially different accounting result. Please see our Form 10-K for the fiscal year ended January 2, 2010, for a discussion of the areas where we believe that the estimates, judgments or interpretations that we have made, if different, could yield the most significant differences in our financial statements. The following discussion provides the significant changes to our critical accounting policies from those disclosed in our Form 10-K filed for the year ended January 2, 2010.

Variable Interest Entities. In 2009, the Financial Accounting Standards Board (FASB) amended the consolidation principles associated with VIE's. The new accounting principles resulted in a change in our accounting policy effective January 3, 2010. The new qualitative approach, generally, replaced the quantitative-based risks and rewards calculation for determining which enterprise, if any, has a controlling financial interest in the VIE. The qualitative approach is focused on identifying which company has both the power to direct the activities of a VIE that most significantly impact the entity's economic performance and the obligation to absorb losses of the entity or the right to receive benefits from the entity. As a result of this qualitative analysis,

Table of Contents

the company is no longer required to consolidate the VIE that delivers a significant portion of its fresh bakery products from the company's production facilities to outlying distribution centers under a transportation agreement. The company has elected to prospectively deconsolidate the VIE. Please see Note 9, *Variable Interest Entity*, of Notes to Condensed Consolidated Financial Statements of this Form 10-Q for additional disclosure.

RESULTS OF OPERATIONS:

Results of operations, expressed as a percentage of sales and the dollar and percentage change from period to period, for the sixteen week periods ended April 24, 2010 and April 25, 2009, are set forth below (Dollars in thousands):

	April 24, 2010	April 25, 2009	For the sixteen weeks ended Percentage of Sales April		Increase (Decrease)	
			24, 2010	April 25, 2009	Dollars	%

Table of Contents**CONSOLIDATED AND SEGMENT RESULTS**

SIXTEEN WEEKS ENDED APRIL 24, 2010 COMPARED TO SIXTEEN WEEKS ENDED APRIL 25, 2009

Consolidated Sales.

	For the 16 Weeks Ended April 24, 2010		For the 16 Weeks Ended April 25, 2009		
	\$	%	\$	%	% Increase
	(Amounts in thousands)		(Amounts in thousands)		
Branded Retail	\$ 423,022	53.2%	\$ 415,144	51.4%	1.9%
Store Branded Retail	119,397	15.0	128,953	16.0	(7.4)%
Non-retail and Other	252,607	31.8	262,910	32.6	(3.9)%
Total	\$ 795,026	100.0%	\$ 807,007	100.0%	(1.5)%

The 1.5% decrease in sales was attributable to the following:

Percentage Point Change in Sales Attributed to:	Favorable (Unfavorable)
Pricing/Mix	(2.4)%
Volume	(0.7)%
Deconsolidation of VIE	(0.2)%
Acquisitions	1.8%
Total Percentage Change in Sales	(1.5)%

The increase in branded retail sales was due primarily to increased sales of branded soft variety and branded buns, rolls and sandwich rounds partially offset by decreases in branded white bread. The decrease in store branded retail sales was due to negative price/mix, and to a lesser extent, volume declines. The decrease in non-retail and other sales was due primarily to volume declines, partially offset by acquisition sales.

Direct-Store-Delivery Sales.

	For the 16 Weeks Ended April 24, 2010		For the 16 Weeks Ended April 25, 2009		
	\$	%	\$	%	% Increase
	(Amounts in thousands)		(Amounts in thousands)		
Branded Retail	\$ 380,015	58.8%	\$ 374,959	56.1%	1.3%
Store Branded Retail	99,669	15.4	110,062	16.5	(9.4)%
Non-retail and Other	166,490	25.8	183,254	27.4	(9.1)%
Total	\$ 646,174	100.0%	\$ 668,275	100.0%	(3.3)%

The 3.3% decrease in sales was attributable to the following:

Percentage Point Change in Sales Attributed to:	Favorable (Unfavorable)
Pricing/Mix	(2.4)%
Volume	(0.7)%
Deconsolidation of VIE	(0.2)%
Total Percentage Change in Sales	(3.3)%

The increase in branded retail sales was due primarily to growth in branded soft variety and branded buns, rolls and sandwich rounds, partially offset by decreases in branded white bread. The decrease in store branded retail sales was due to negative price/mix, and volume declines. The decrease in non-retail and other sales was due to volume declines, and to a lesser extent, negative price/mix.

Table of Contents*Warehouse Delivery Sales.*

	For the 16 Weeks Ended		For the 16 Weeks Ended		%
	April 24, 2010		April 25, 2009		Increase
	\$	%	\$	%	(Decrease)
	(Amounts		(Amounts		
	in		in		
	thousands)		thousands)		
Branded Retail	\$ 43,007	28.9%	\$ 40,185	29.0%	7.0%
Store Branded Retail	19,728	13.3	18,891	13.6	4.4%
Non-retail and Other	86,117	57.8	79,656	57.4	8.1%
Total	\$ 148,852	100.0%	\$ 138,732	100.0%	7.3%

The 7.3% increase in sales was attributable to the following:

Percentage Point Change in Sales Attributed to:	Favorable (Unfavorable)
Pricing/Mix	(2.9)%
Volume	(0.2)%
Acquisitions	10.4%
Total Percentage Change in Sales	7.3%

The increase in branded retail sales was primarily the result of favorable multi-pak cake volume. The increase in store branded retail sales was primarily due to store branded cake volume increases, partially offset by negative price/mix. The increase in non-retail and other sales, which include contract production and vending, was due to the acquisitions partially offset by a negative mix shift and volume declines.

Materials, Supplies, Labor and Other Production Costs (exclusive of depreciation and amortization shown separately). The decrease as a percent of sales was primarily due to significant decreases in ingredient costs, improved manufacturing efficiencies, and the Bardstown, Kentucky plant start-up costs in the prior year of \$1.0 million, of which \$0.8 million was included in cost of sales. These were partially offset by higher employee related costs as a percent of sales and higher costs as a percent of sales for the acquired companies.

The DSD segment's decrease as a percent of sales was primarily the result of significant decreases in ingredient costs, improved manufacturing efficiencies and the Bardstown, Kentucky plant start-up costs in the prior year. These were offset by sales decreases and higher employee related costs as a percent of sales.

The warehouse delivery segment's increase as a percent of sales was primarily a result of higher ingredient and employee-related costs as a percent of sales, partially offset by improved manufacturing efficiencies. Acquisitions were the primary reason for the higher ingredient costs as a percent of sales.

Selling, Distribution and Administrative Expenses. The increase as a percent of sales was due to sales decreases and higher employee-related, distribution and advertising costs as a percent of sales. These increases were partially offset by lower pension and bad debt expenses as a percent of sales.

The DSD segment's selling, distribution and administrative expenses increased as a percent of sales primarily due to sales decreases and higher employee-related and advertising costs as a percent of sales, partially offset by gains on territory sales.

The warehouse delivery segment's selling, distribution and administrative expenses decreased as a percent of sales primarily due to lower distribution, storage, and rent costs as a percent of sales.

Depreciation and Amortization. Depreciation and amortization increased primarily due to increased depreciation expense related to capital expenditures subsequent to the first quarter of fiscal 2009 and acquisitions.

The DSD segment's depreciation and amortization expense increased primarily due to assets placed in service subsequent to the first quarter of fiscal 2009. The warehouse delivery segment's depreciation and amortization expense increased primarily as a result of acquisitions.

Income From Operations. The increase in the DSD segment's income from operations was primarily attributable to lower ingredient costs and improved manufacturing efficiencies, partially offset by sales declines. The decrease in the warehouse delivery segment's income from operations was primarily a result of higher materials, supplies, labor and other production costs. The increase in

Table of Contents

unallocated corporate expenses was primarily due to higher share-based payment expenses.

Net Interest Income. The increase was related to lower interest expense on the term loan because principal payments have been made quarterly since the fourth quarter of 2008. As this loan is amortized through August 4, 2013, interest expense will decrease for the term loan. Lower amounts outstanding under the company's unsecured credit facility also contributed to the increase.

Income Taxes. The effective tax rate for the first quarter of fiscal 2010 was 35.6% compared to 36.6% in the first quarter of the prior year. The decrease in the rate is due mainly to the increase in the Section 199 qualifying production activities deduction in the current quarter compared to the prior year quarter. The difference in the effective rate and the statutory rate is primarily due to state income taxes and the Section 199 qualifying production activities deduction.

Net Income Attributable to Noncontrolling Interest. The company maintains a transportation agreement with an entity that transports a significant portion of the company's fresh bakery products from the company's production facilities to outlying distribution centers. The company represents a significant portion of the entity's revenue. This entity qualified as a VIE for reporting periods prior to January 3, 2010 under previous accounting guidance and all the earnings of the VIE were eliminated through noncontrolling interest because the company did not have an equity ownership interest in the VIE. In 2009, the FASB amended the consolidation principles associated with VIE accounting by replacing the quantitative-based risks and rewards calculation for determining which enterprise, if any, has a controlling financial interest in the VIE with a qualitative approach. The qualitative approach is focused on identifying which company has both the power to direct the activities of a VIE that most significantly impact the entity's economic performance and the obligation to absorb losses of the entity or the right to receive benefits from the entity. As a result of this qualitative analysis, the company is no longer required to consolidate the VIE beginning on January 3, 2010 at adoption. Please see Note 9, *Variable Interest Entity*, of this Form 10-Q for additional disclosure.

LIQUIDITY AND CAPITAL RESOURCES:

Liquidity represents our ability to generate sufficient cash flows from operating activities to meet our obligations and commitments as well as our ability to obtain appropriate financing and convert into cash those assets that are no longer required to meet existing strategic and financing objectives. Therefore, liquidity cannot be considered separately from capital resources that consist primarily of current and potentially available funds for use in achieving long-range business objectives. Currently, the company's liquidity needs arise primarily from working capital requirements, capital expenditures and stock repurchases. The company's strategy for use of its cash flow includes paying dividends to shareholders, making acquisitions, growing internally and repurchasing shares of its common stock when appropriate.

Cash Flows

Flowers Foods' cash and cash equivalents decreased to \$8.4 million at April 24, 2010 from \$18.9 million at January 2, 2010. The decrease resulted from \$82.5 million provided by operating activities, offset by \$35.6 million and \$57.4 million disbursed for investing activities and financing activities, respectively. Included in cash and cash equivalents at January 2, 2010 was \$8.8 million related to the company's VIE which was not available for use by the company. The company deconsolidated the VIE on January 3, 2010 as discussed in Note 9, *Variable Interest Entity*, of this Form 10-Q.

Cash Flows Provided by Operating Activities. Net cash of \$82.5 million provided by operating activities during the sixteen weeks ended April 24, 2010 consisted primarily of \$40.7 million in net income, adjusted for the following non-cash items (amounts in thousands):

Depreciation and amortization	\$ 25,637
Loss reclassified from accumulated other comprehensive income to net income	11,525
Stock-based compensation	4,753
Deferred income taxes	(476)
Provision for inventory obsolescence	358
Allowances for accounts receivable	564
Pension and postretirement plans expense	599

Other	(61)
Total	\$ 42,899

Cash disbursed for working capital and other activities was \$1.1 million. As of April 24, 2010, the company had \$4.4 million recorded in other current assets representing collateral for hedged positions. As of January 2, 2010, the company had \$7.0 million recorded in other current assets representing collateral for hedged positions.

Table of Contents

Cash Flows Disbursed for Investing Activities. Net cash disbursed for investing activities during the sixteen weeks ended April 24, 2010 of \$35.6 million consisted primarily of capital expenditures of \$29.1 million. In addition, the deconsolidation of the VIE (as discussed in Note 9, *Variable Interest Entities*, of this Form 10-Q) includes a deduction for \$8.8 million of the VIE's cash and cash equivalents balance at January 2, 2010. Capital expenditures in the DSD segment and the warehouse delivery segment were \$20.4 million and \$7.6 million, respectively. The company estimates capital expenditures of approximately \$85.0 million to \$95.0 million during fiscal 2010. The company also leases certain production machinery and equipment through various operating leases.

Cash Flows Disbursed for Financing Activities. Net cash disbursed for financing activities of \$57.4 million during the sixteen weeks ended April 24, 2010 consisted primarily of dividends paid of \$16.0 million, stock repurchases of \$2.1 million, and net debt repayments of \$39.3 million, partially offset by proceeds of \$2.5 million from the exercise of stock options and the related share-based payments income tax benefit of \$0.2 million.

Credit Facility and Term Loan

Credit Facility. The company has a five-year, \$250.0 million unsecured revolving loan facility (the "credit facility") that expires October 5, 2012. The company may request to increase its borrowings under the credit facility up to an aggregate of \$350.0 million upon the satisfaction of certain conditions. Proceeds from the credit facility may be used for working capital and general corporate purposes, including acquisition financing, refinancing of indebtedness and share repurchases. The credit facility includes certain customary restrictions, which, among other things, require maintenance of financial covenants and limit encumbrance of assets and creation of indebtedness. Restrictive financial covenants include such ratios as a minimum interest coverage ratio and a maximum leverage ratio. The company believes that, given its current cash position, its cash flow from operating activities and its available credit capacity, it can comply with the current terms of the credit facility and can meet presently foreseeable financial requirements. As of April 24, 2010 and January 2, 2010, the company was in compliance with all restrictive financial covenants under its credit facility.

Interest is due quarterly in arrears on any outstanding borrowings at a customary Eurodollar rate or the base rate plus the applicable margin. The underlying rate is defined as the rate offered in the interbank Eurodollar market or the higher of the prime lending rate or federal funds rate plus 0.5%. The applicable margin ranges from 0.00% to 0.30% for base rate loans and from 0.40% to 1.275% for Eurodollar loans. In addition, a facility fee ranging from 0.10% to 0.35% is due quarterly on all commitments under the credit facility. Both the interest margin and the facility fee are based on the company's leverage ratio. There were \$55.0 million and \$89.0 million in outstanding borrowings under the credit facility at April 24, 2010 and January 2, 2010, respectively.

Term Loan. On August 1, 2008, the company entered into a credit agreement ("term loan") with various lending parties for the purpose of completing acquisitions. The term loan provides for borrowings through the maturity date of August 4, 2013. The initial maximum amount permitted to be outstanding under the term loan is \$150.0 million. The term loan includes certain customary restrictions, which, among other things, require maintenance of financial covenants and limit encumbrance of assets and creation of indebtedness. Restrictive financial covenants include such ratios as a minimum interest coverage ratio and a maximum leverage ratio. The company believes that, given its current cash position, its cash flow from operating activities and its available credit capacity, it can comply with the current terms of the term loan and can meet presently foreseeable financial requirements. As of April 24, 2010 and January 2, 2010, the company was in compliance with all restrictive financial covenants under the term loan. As of April 24, 2010 and January 2, 2010, the amounts outstanding under the term loan were \$127.5 million and \$131.3 million, respectively.

Interest is due quarterly in arrears on outstanding borrowings at a customary Eurodollar rate or the base rate plus the applicable margin. The underlying rate is defined as the rate offered in the interbank Eurodollar market or the higher of the prime lending rate or federal funds rate plus 0.5%. The applicable margin ranges from 0.0% to 1.375% for base rate loans and from 0.875% to 2.375% for Eurodollar loans and is based on the company's leverage ratio. Principal payments began on December 31, 2008 and are due quarterly under the term loan at an annual amortization of 10% of the principal balance for each of the first two years, 15% during the third year, 20% during the fourth year, and 45% during the fifth year. The company paid financing costs of \$0.8 million in connection with the term loan, which is being amortized over the life of the term loan.

Currently, the company's credit ratings by Fitch Ratings, Moody's, and Standard & Poor's are BBB, Baa2, and BBB-, respectively. Changes in the company's credit ratings do not trigger a change in the company's available borrowings or costs under the credit facility or term loan, but could affect future credit availability.

Table of Contents

Uses of Cash

On February 16, 2009, the Board of Directors declared a dividend of \$0.175 per share on the company's common stock that was paid on March 16, 2010 to shareholders of record on March 2, 2010. This dividend payment was \$16.0 million.

Our Board of Directors has approved a plan that authorizes share repurchases of up to 30.0 million shares of the company's common stock. Under the plan, the company may repurchase its common stock in open market or privately negotiated transactions at such times and at such prices as determined to be in the company's best interest. These purchases may be commenced or suspended without prior notice depending on then-existing business or market conditions and other factors. During the first quarter of fiscal 2010, 87,271 shares, at a cost of \$2.1 million of the company's common stock were purchased under the plan. From the inception of the plan through April 24, 2010, 22.7 million shares, at a cost of \$367.1 million, have been purchased.

During the first quarter of fiscal 2010, the company paid \$16.2 million in performance-based cash awards under the company's bonus plan.

NEW ACCOUNTING PRONOUNCEMENTS:

In April 2009, the FASB issued a staff position requiring fair value disclosures in both interim as well as annual financial statements in order to provide more timely information about the effects of current market conditions on financial instruments. The guidance was effective for interim and annual periods ending after June 15, 2009. Upon adoption during the second quarter of fiscal 2009, the implementation of this standard did not have a material impact on our consolidated financial position and results of operations.

In May 2009, the FASB issued new guidance on subsequent events. The standard provides guidance on management's assessment of subsequent events and incorporates this guidance into accounting literature. The standard was effective prospectively for interim and annual periods ending after June 15, 2009. See Note 16, *Subsequent Events*, of Notes to Condensed Consolidated Financial Statements of this Form 10-Q for the required disclosures. In February 2010, the FASB issued new guidance that amended certain recognition and disclosure requirements for subsequent events. The guidance changed the requirement for public companies to report the date through which subsequent events were reviewed. This guidance was effective at issuance. The implementation of the standard and new guidance did not have a material impact on our consolidated financial position and results of operations.

In June 2009, the FASB issued an amendment to the accounting and disclosure requirements for the consolidation of VIEs. The guidance affects the overall consolidation analysis and requires enhanced disclosures on involvement with VIEs. The guidance is effective for fiscal years beginning after November 15, 2009. Prior to January 3, 2010, we consolidated a VIE because we determined the company was the primary beneficiary. Under the new guidance, we have determined that the company no longer qualifies as the primary beneficiary and ceased consolidating the VIE beginning in the first quarter of fiscal 2010. The company will continue to record certain of the trucks and trailers the VIE uses for distributing our products from the manufacturing facility to the distribution centers as right to use leases. See Note 9, *Variable Interest Entity*, of Notes to Condensed Consolidated Financial Statements of this Form 10-Q for the required disclosures.

In June 2009, the FASB Accounting Standards Codification (Codification) was issued. The Codification is the source of authoritative U.S. GAAP recognized by the FASB to be applied by nongovernmental entities. The Codification was effective for financial statements issued for interim and annual periods ending after September 15, 2009. The implementation of this standard did not have a material impact on our consolidated financial position and results of operations.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The company uses derivative financial instruments as part of an overall strategy to manage market risk. The company uses forward, futures, swap and option contracts to hedge existing or future exposure to changes in interest rates and commodity prices. The company does not enter into these derivative financial instruments for trading or speculative purposes. If actual market conditions are less favorable than those anticipated, raw material prices could increase significantly, adversely affecting the margins from the sale of our products.

COMMODITY PRICE RISK

The company enters into commodity forward, futures and option contracts and swap agreements for wheat and, to a lesser extent,

Table of Contents

other commodities in an effort to provide a predictable and consistent commodity price and thereby reduce the impact of market volatility in its raw material and packaging prices. As of April 24, 2010, the company's hedge portfolio contained commodity derivatives with a fair value of \$(2.9) million. Of this fair value, \$(0.1) million is based on quoted market prices and \$(2.8) million is based on models and other valuation methods. Approximately \$(2.8) million and \$(0.1) million of this fair value relates to instruments that will be utilized in fiscal 2010 and fiscal 2011, respectively.

A sensitivity analysis has been prepared to quantify the company's potential exposure to commodity price risk with respect to the derivative portfolio. Based on the company's derivative portfolio as of April 24, 2010, a hypothetical ten percent increase (decrease) in commodity prices would increase (decrease) the fair value of the derivative portfolio by \$8.9 million. The analysis disregards changes in the exposures inherent in the underlying hedged items; however, the company expects that any increase (decrease) in fair value of the portfolio would be substantially offset by increases (decreases) in raw material and packaging prices.

INTEREST RATE RISK

The company entered into interest rate swaps with notional amounts of \$85.0 million, and \$65.0 million, respectively, to fix the interest rate on the \$150.0 million term loan secured on August 1, 2008 to fund the acquisitions of ButterKrust Bakery and Holsum Bakery, Inc. On October 27, 2008, the company entered an interest rate swap with a notional amount of \$50.0 million to fix the interest rate on borrowings outstanding under the company's unsecured credit facility through September 30, 2009. As of April 24, 2010, the fair value of these interest rate swaps was \$(6.9) million. All of this fair value is based on valuation models and \$(3.0) million, \$(2.8) million, \$(1.0) million, and \$(0.1) million of this fair value is related to instruments expiring in 2010 through 2013, respectively.

A sensitivity analysis has been prepared to quantify the company's potential exposure to interest rate risk with respect to the interest rate swaps. As of April 24, 2010, a hypothetical ten percent increase (decrease) in interest rates would increase (decrease) the fair value of the interest rate swap by \$0.5 million. The analysis disregards changes in the exposures inherent in the underlying debt; however, the company expects that any increase (decrease) in payments under the interest rate swap would be substantially offset by increases (decreases) in interest expense.

ITEM 4. CONTROLS AND PROCEDURES**Management's Evaluation of Disclosure Controls and Procedures**

We have established and maintain a system of disclosure controls and procedures that are designed to ensure that material information relating to the company, which is required to be timely disclosed by us in reports that we file or submit under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), is accumulated and communicated to management in a timely fashion and is recorded, processed, summarized and reported within the time periods specified by the SEC's rules and forms. An evaluation of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act) was performed as of the end of the period covered by this quarterly report. This evaluation was performed under the supervision and with the participation of management, including our Chief Executive Officer ("CEO"), Chief Financial Officer ("CFO") and Chief Accounting Officer ("CAO"). Based upon that evaluation, our CEO, CFO and CAO have concluded that these disclosure controls and procedures were effective as of the end of the period covered by this quarterly report.

Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting that occurred during our last fiscal quarter ended April 24, 2010 that have materially affected or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION**ITEM 1. LEGAL PROCEEDINGS**

The company and its subsidiaries from time to time are parties to, or targets of, lawsuits, claims, investigations and proceedings, which are being handled and defended in the ordinary course of business. While the company is unable to predict the outcome of these matters, it believes, based upon currently available facts, that it is remote that the ultimate resolution of any such pending matters will have a material adverse effect on its overall financial condition, results of operations or cash flows in the future. However, adverse developments could negatively impact earnings in a particular future fiscal period.

Table of Contents

On July 23, 2008, a wholly-owned subsidiary of the company filed a lawsuit against Hostess in the United States District Court for the Northern District of Georgia. The complaint alleges that Hostess is infringing upon Flowers *Nature's Own* trademarks by using or intending to use the *Nature's Pride* trademark. Flowers asserts that Hostess sale or intended sale of baked goods under the *Nature's Pride* trademark is likely to cause confusion with, and likely to dilute the distinctiveness of, the *Nature's Own* mark and constitutes unfair competition and deceptive trade practices. Flowers is seeking actual damages, an accounting of Hostess' profits from its sales of *Nature's Pride* products, and injunctive relief.

The company's facilities are subject to various federal, state and local laws and regulations regarding the discharge of material into the environment and the protection of the environment in other ways. The company is not a party to any material proceedings arising under these regulations. The company believes that compliance with existing environmental laws and regulations will not materially affect the consolidated financial condition or the competitive position of the company. The company is currently in substantial compliance with all material environmental regulations affecting the company and its properties.

ITEM 1A. RISK FACTORS

Please refer to Part I, Item 1A., *Risk Factors*, in the company's Form 10-K for the year ended January 3, 2010 for information regarding factors that could affect the company's results of operations, financial condition and liquidity. There have been no changes to our risk factors during the first quarter of fiscal 2010.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Our Board of Directors has approved a plan that authorizes share repurchases of up to 30.0 million shares of the company's common stock. Under the plan, the company may repurchase its common stock in open market or privately negotiated transactions at such times and at such prices as determined to be in the company's best interest. These purchases may be commenced or suspended without prior notice depending on then-existing business or market conditions and other factors. The following chart sets forth the amounts of our common stock purchased by the company during the first quarter of fiscal 2010 under the stock repurchase plan.

Period	Total Number of Shares Purchased	Weighted Average Price Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plan or Programs	Maximum Number of Shares that May Yet Be Purchased Under the Plan or Programs
			(Amounts in thousands, except price data)	
January 3, 2010 – January 30, 2010				7,349
January 31, 2010 – February 27, 2010	87	\$ 24.24	87	7,262
February 28, 2010 – March 27, 2010				7,262
March 28, 2010 – April 24, 2010				7,262
Total	87	\$ 24.24	87
