UNIVERSAL FOREST PRODUCTS, INC.
NOTES TO UNAUDITED
CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

A. BASIS OF PRESENTATION

The accompanying unaudited interim consolidated condensed financial statements (the Financial Statements) include our accounts and those of our wholly-owned and majority-owned subsidiaries and partnerships, and have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission. Accordingly, the Financial Statements do not include all of the information and footnotes normally included in the annual consolidated financial statements prepared in accordance with accounting principles generally accepted in the United States. All intercompany transactions and balances have been eliminated.

In our opinion, the Financial Statements contain all material adjustments necessary to present fairly our consolidated financial position, results of operations and cash flows for the interim periods presented. All such adjustments are of a normal recurring nature. These Financial Statements should be read in conjunction with the annual consolidated financial statements, and footnotes thereto, included in our Annual Report to Shareholders on Form 10-K for the fiscal year ended December 26, 2009.

B. FAIR VALUE

We apply the provisions of ASC 820, *Fair Value Measurements and Disclosures*, to assets and liabilities measured at fair value. Assets and liabilities measured at fair value are as follows:

(in thousands)	June 26, 2010			June 27, 2009		
	Quoted Prices in Active Markets (Level 1)	Prices with Other Observable Inputs (Level 2)	Total	Quoted Prices in Active Markets (Level 1)	Prices with Other Observable Inputs (Level 2)	Total
Assets:						
Money market funds	\$ 64		\$ 64			
Mutual funds:				\$ 749		\$ 749
Domestic stock funds	436		436			
International stock funds	395		395			
Target funds	114		114			
Bond funds	49		49			
Total mutual funds	994		994	749		749
Property, plant and equipment		\$ 165	165		\$ 1,204	1,204
	\$ 1,058	\$ 165	\$ 1,223	\$ 749	\$ 1,204	\$ 1,953

Mutual funds are valued at prices quoted in an active exchange market.

Table of Contents**UNIVERSAL FOREST PRODUCTS, INC.**

Property, plant and equipment are valued based on active market prices and other relevant information for sales of similar assets.

We have elected not to apply the fair value option under ASC 825, *Financial Instruments*, to any of our financial instruments except for those expressly required by U.S. GAAP.

C. REVENUE RECOGNITION

Earnings on construction contracts are reflected in operations using either percentage-of-completion accounting, which includes the cost to cost and units of delivery methods, or completed contract accounting, depending on the nature of the business at individual operations. Under percentage-of-completion using the cost to cost method, revenues and related earnings on construction contracts are measured by the relationships of actual costs incurred related to the total estimated costs. Under percentage-of-completion using the units of delivery method, revenues and related earnings on construction contracts are measured by the relationships of actual units produced related to the total number of units. Revisions in earnings estimates on the construction contracts are recorded in the accounting period in which the basis for such revisions becomes known. Projected losses on individual contracts are charged to operations in their entirety when such losses become apparent. Under the completed contract method, revenues and related earnings are recorded when the contracted work is complete and losses are charged to operations in their entirety when such losses become apparent.

The following table presents the balances of percentage-of-completion accounts which are included in Other current assets and Accrued liabilities: Other, respectively (in thousands):

	June 26, 2010	December 26, 2009	June 27, 2009
Cost and Earnings in Excess of Billings	\$ 5,333	\$ 9,998	\$ 7,086
Billings in Excess of Cost and Earnings	4,426	8,954	10,304

Table of Contents**UNIVERSAL FOREST PRODUCTS, INC.****D. EARNINGS PER SHARE**

A reconciliation of the changes in the numerator and the denominator from the calculation of basic EPS to the calculation of diluted EPS follows (in thousands, except per share data):

	Three Months Ended June 26, 2010			Three Months Ended June 27, 2009		
	Income (Numerator)	Shares (Denominator)	Per Share Amount	Income (Numerator)	Shares (Denominator)	Per Share Amount
Net Earnings Attributable to Controlling Interest	\$ 13,716			\$ 16,088		
EPS Basic						
Income available to common stockholders	13,716	19,259	\$ 0.71	16,088	19,241	\$ 0.84
Effect of dilutive securities						
Options		272			218

Income available to common stockholders and assumed options exercised	\$ 13,716	19,531	\$ 0.70	\$ 16,088	19,459	\$ 0.83
	Six Months Ended June 26, 2010			Six Months Ended June 27, 2009		
	Income (Numerator)	Shares (Denominator)	Per Share Amount	Income (Numerator)	Shares (Denominator)	Per Share Amount
Net Earnings Attributable to Controlling Interest	\$ 14,703			\$ 14,881		
EPS Basic						
Income available to common stockholders	14,703	19,258	\$ 0.76	14,881	19,213	\$ 0.77
Effect of dilutive securities						
Options		266			157	
EPS Diluted						
Income available to common stockholders and assumed options exercised	\$ 14,703	19,524	\$ 0.75	\$ 14,881	19,370	\$ 0.77

Table of Contents**UNIVERSAL FOREST PRODUCTS, INC.**

No outstanding options were excluded from the computation of diluted EPS for the quarter and six months ended June 26, 2010.

Options to purchase 10,000 shares of common stock were not included in the computation of diluted EPS for the quarter ended June 27, 2009 because the options' exercise price was greater than the average market price of the common stock during the period and, therefore would be antidilutive.

Options to purchase 120,000 shares of common stock were not included in the computation of diluted EPS for the six months ended June 27, 2009 because the options' exercise price was greater than the average market price of the common stock during the period and, therefore would be antidilutive.

E. ASSETS HELD FOR SALE AND NET LOSS (GAIN) ON DISPOSITION OF ASSETS AND OTHER IMPAIRMENTS AND EXIT CHARGES

Included in Assets held for sale on our Consolidated Condensed Balance Sheets are certain property, plant and equipment totaling \$3.1 million on June 27, 2009. The assets held for sale consist of certain vacant land and several facilities we closed to better align manufacturing capacity with the current business environment. The fair values were determined based on appraisals or recent offers to acquire the assets. These and other idle assets were evaluated based on the requirements of ASC 360, which resulted in certain impairment and other exit charges. Net loss (gain) on disposition of assets and other impairment and exit charges consists of the following amounts, separated by reporting segment, for the periods presented below (in millions):

	Three Months Ended June 26, 2010		Three Months Ended June 27, 2009	
	Northern, Southern and Western Divisions	All Other	Northern, Southern and Western Divisions	All Other
Severances			\$ 0.1	
Property, plant and equipment	\$ 0.2		0.3	
Gain on sale of real estate			(1.1)	
	Six Months Ended June 26, 2010		Six Months Ended June 27, 2009	
	Northern, Southern and Western Divisions	All Other	Northern, Southern and Western Divisions	All Other
Severances	\$ 0.3		\$ 0.6	
Property, plant and equipment	0.1		1.0	
Gain on sale of real estate			(3.5)	

Table of Contents

UNIVERSAL FOREST PRODUCTS, INC.

F. COMMITMENTS, CONTINGENCIES, AND GUARANTEES

We are self-insured for environmental impairment liability, including certain liabilities which are insured through a wholly owned subsidiary, UFP Insurance Ltd., a licensed captive insurance company.

We own and operate a number of facilities throughout the United States that chemically treat lumber products. In connection with the ownership and operation of these and other real properties, and the disposal or treatment of hazardous or toxic substances, we may, under various federal, state, and local environmental laws, ordinances, and regulations, be potentially liable for removal and remediation costs, as well as other potential costs, damages, and expenses. Environmental reserves, calculated with no discount rate, have been established to cover remediation activities at our affiliates' wood preservation facilities in Stockertown, PA; Elizabeth City, NC; Auburndale, FL; Gordon, PA; Janesville, WI; Medley, FL; and Ponce, PR. In addition, a reserve was established for our affiliate's facility in Thornton, CA to remove certain lead containing materials which existed on the property at the time of purchase.

On a consolidated basis, we have reserved approximately \$4.2 million on June 26, 2010 and \$4.3 million on June 27, 2009, representing the estimated costs to complete future remediation efforts. These amounts have not been reduced by an insurance receivable.

From time to time, various special interest environmental groups have petitioned certain states requesting restrictions on the use or disposal of CCA treated products. The wood preservation industry trade groups are working with the individual states and their regulatory agencies to provide an accurate, factual background which demonstrates that the present method of uses and disposal is scientifically supported. We market a modest amount of CCA treated products for permitted, non-residential applications.

We have not accrued for any potential loss related to the contingencies above. However, potential liabilities of this nature are not conducive to precise estimates and are subject to change.

In addition, on June 26, 2010, we were parties either as plaintiff or defendant to a number of lawsuits and claims arising through the normal course of our business. In the opinion of management, our consolidated financial statements will not be materially affected by the outcome of these contingencies and claims.

On June 26, 2010, we had outstanding purchase commitments on capital projects of approximately \$2.5 million.

We provide a variety of warranties for products we manufacture. Historically, warranty claims have not been material. We distribute products manufactured by other companies, some of which are no longer in business. While we do not warrant these products, we have received claims as a distributor of these products when the manufacturer no longer exists or has the ability to pay. Historically these costs have not had a material affect on our consolidated financial statements.

Table of Contents

UNIVERSAL FOREST PRODUCTS, INC.

In certain cases we supply building materials and labor to site-built construction projects or we jointly bid on contracts with framing companies for such projects. In some instances we are required to post payment and performance bonds to insure the owner that the products and installation services are completed in accordance with our contractual obligations. We have agreed to indemnify the surety for claims made against the bonds. As of June 26, 2010, we had approximately \$18.7 million in outstanding payment and performance bonds for projects in progress, which expire during the next two years. In addition, approximately \$25.9 million in payment and performance bonds are outstanding for completed projects which are still under warranty.

We have entered into operating leases for certain personal property assets that include a guarantee of a portion of the residual value of the leased assets. If at the expiration of the initial lease term we do not exercise our option to purchase the leased assets and these assets are sold by the lessor for a price below a predetermined amount, we will reimburse the lessor for a certain portion of the shortfall. These operating leases will expire periodically over the next five years. The estimated maximum aggregate exposure of these guarantees is approximately \$1.3 million.

On June 26, 2010, we had outstanding letters of credit totaling \$32.3 million, primarily related to certain insurance contracts and industrial development revenue bonds as further described below.

In lieu of cash deposits, we provide irrevocable letters of credit in favor of our insurers to guarantee our performance under certain insurance contracts. We currently have irrevocable letters of credit outstanding totaling approximately \$19.3 million for these types of insurance arrangements. We have reserves recorded on our balance sheet, in accrued liabilities, that reflect our expected future liabilities under these insurance arrangements.

We are required to provide irrevocable letters of credit in favor of the bond trustees for all of the industrial development revenue bonds that we have issued. These letters of credit guarantee principal and interest payments to the bondholders. We currently have irrevocable letters of credit outstanding totaling approximately \$12.4 million related to our outstanding industrial development revenue bonds. These letters of credit have varying terms but may be renewed at the option of the issuing banks.

Table of Contents**UNIVERSAL FOREST PRODUCTS, INC.**

Certain wholly owned domestic subsidiaries have guaranteed the indebtedness of Universal Forest Products, Inc. in certain debt agreements, including the Series 2002-A Senior Notes and our revolving credit facility. The maximum exposure of these guarantees is limited to the indebtedness outstanding under these debt arrangements and this exposure will expire concurrent with the expiration of the debt agreements.

Many of our wood treating operations utilize Subpart W drip pads, defined as hazardous waste management units by the EPA. The rules regulating drip pads require that the pad be closed at the point that it is no longer intended to be used for wood treating operations or to manage hazardous waste. Closure involves identification and disposal of contaminants which are required to be removed from the facility. The cost of closure is dependent upon a number of factors including, but not limited to, identification and removal of contaminants, cleanup standards that vary from state to state, and the time period over which the cleanup would be completed. Based on our present knowledge of existing circumstances, it is considered probable that these costs will approximate \$0.3 million. As a result, this amount is recorded in other long-term liabilities on June 26, 2010.

We did not enter into any new guarantee arrangements during the second quarter of 2010 which would require us to recognize a liability on our balance sheet.

G. BUSINESS COMBINATIONS

No business combinations were completed in fiscal 2009. We completed the following business combinations in fiscal 2010 which were accounted for using the purchase method (in millions):

Company Name	Acquisition Date	Purchase Price	Intangible Assets	Net Tangible Assets	Reportable Segment	Business Description
Shepherd Distribution Co. (Shepherd)	April 29, 2010	\$5.2 (asset purchase)	\$ 1.9	\$ 3.3	Northern Division	Distributes shingle underlayment, bottom board, house wrap, siding, poly film and other products to manufactured housing and RV customers. Headquartered in Elkhart, Indiana, it has distribution capabilities throughout the United States.
Service Supply Distribution, Inc. (Service Supply)	March 8, 2010	\$0.6 (asset purchase)	\$ 0.0	\$ 0.6	Southern Division	Distributes certain plumbing, electrical, adhesives, flooring, paint and other products to manufactured housing and RV customers. Headquartered in Cordele, Georgia, it has distribution capabilities throughout the United States.

The business combinations mentioned above were not significant to our operating results individually or in aggregate, and thus pro forma results are not presented.

Table of Contents**UNIVERSAL FOREST PRODUCTS, INC.**

The purchase price allocation for D-Stake Mill and Manufacturing Company (D-Stake) was adjusted as follows (in millions) during the first quarter of fiscal 2010 as a result of a change in the valuation of the intangible assets acquired. The impact of the adjustment on earnings was negligible.

	Non-compete agreements	Customer Relationships	Goodwill - Total	Goodwill - Tax Deductible
D-Stake initial purchase price allocation	\$ 2.6		\$ 2.5	\$ 2.5
Adjustments	(1.6)	1.9	(0.3)	(0.3)
D-Stake final purchase price allocation	1.0	1.9	2.2	2.2

H. SEGMENT REPORTING

ASC 280, *Segment Reporting* (ASC 280), defines operating segments as components of an enterprise about which separate financial information is available that is evaluated regularly by the chief operating decision maker in deciding how to allocate resources and in assessing performance.

Beginning January 1, 2010, our Eastern Division was divided into two divisions: a Northern Division and a Southern Division. This change was primarily made in order to drive faster growth by allowing field leadership to concentrate on a smaller entity, thereby having a bigger impact on growth. The presentation of the reportable segment amounts was not impacted.

Under the definition of a segment, our Northern, Southern, Western and Consumer Products Divisions may be considered operating segments of our business. Under ASC 280, segments may be aggregated if the segments have similar economic characteristics and if the nature of the products, distribution methods, customers and regulatory environments are similar. Based on these criteria, we have aggregated our Northern, Southern and Western Divisions into one reporting segment, which have the same totals as our former Eastern and Western Divisions. Our Consumer Products Division is included in the All Other column in the table below. Our divisions operate manufacturing and treating facilities throughout North America. A summary of results for the six months of 2010 and 2009 are presented below (in thousands).

	Six Months Ended June 26, 2010			Six Months Ended June 27, 2009		
	Northern, Southern and Western Divisions	All Other	Total	Northern, Southern and Western Divisions	All Other	Total
Net sales to outside customers	\$ 947,977	\$ 83,616	\$ 1,031,593	\$ 812,108	\$ 64,559	\$ 876,667
Intersegment net sales	0	34,644	34,644	0	20,950	20,950
Segment operating profit (loss)	23,487	3,119	26,606	21,432	4,614	26,046

I. SUBSEQUENT EVENT

On June 29, 2010, Universal Consumer Products, Inc. (“UCP”) contributed \$5.8 million to EoTek LLC (“EoTek”) in exchange for a 98% membership interest. EoTek used these proceeds to purchase new product technology for \$5.8 million from an unrelated third party. In addition, in July 2010, UCP and the minority investor contributed capital of \$250,000 each to EoTek to fund operating expenses and working capital requirements.

On July 14, 2010, the compensation committee of the board of directors approved a retirement plan for officers whereby we will pay, upon retirement, benefits totaling 150% of the officer’s highest base salary in the three years immediately preceding separation from service plus health care benefits for a specified period of time if certain eligibility requirements are met. We currently anticipate recording approximately \$1.8 million of expense in the last six months of 2010 for this plan.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

This report contains certain forward-looking statements within the meaning of Section 21E of the Securities Exchange Act, as amended, that are based on management's beliefs, assumptions, current expectations, estimates, and projections about the markets we serve, the economy, and the company itself. Words like anticipates, believes, confident, estimates, expects, forecasts, likely, plans, projects, should, variations of such words, and similar expressions are used in such forward-looking statements. These statements do not guarantee future performance and involve certain risks, uncertainties, and assumptions that are difficult to predict with regard to timing, extent, likelihood, and degree of occurrence. The Company does not undertake to update forward-looking statements to reflect facts, circumstances, assumptions or events that occur after the date the forward-looking statements are made. Actual results could differ materially from those included in such forward-looking statements. Investors are cautioned that all forward-looking statements involve risks and uncertainty. Among the factors that could cause actual results to differ materially from forward-looking statements are the following: Fluctuations in the price of lumber; adverse or unusual weather conditions; adverse conditions in the markets we serve; government regulations, particularly involving environmental and safety regulations; and our ability to make successful business acquisitions. We also encourage you to read our Annual Report on Form 10-K, filed with the United States Securities and Exchange Commission. That report includes Risk Factors that you should consider in connection with any decision to buy or sell our securities. We are pleased to present this overview of 2010.

OVERVIEW

Our results for the second quarter of 2010 were impacted by the following:

Our overall unit sales increased 9% primarily due to our manufactured housing, industrial, and site-built markets. We believe we have gained additional share of the industrial and manufactured housing markets we serve. Share gains in our industrial market have been achieved by adding many new customers while share gains in manufactured housing have been achieved by acquiring distribution operations. We believe we have maintained our share of the DIY/retail market. Finally, we recently closed several plants that supply the site-built housing market in order to achieve profitability and cash flow goals; consequently, we believe that these actions may temporarily cause us to lose some market share.

The Lumber Market was approximately 52% higher, on average, in the second quarter of 2010 compared to the same period of 2009, and was unusually volatile during the quarter. The unusual volatility had a significant adverse impact on our gross profits, particularly in the month of June. Specifically, lumber prices increased quickly to a peak at the end of April so quickly that it was not possible to pass along the increased costs to customers. This negatively affected profits on products sold at a fixed price during the quarter. Then, from late April through late June, lumber prices fell quickly, negatively affecting profits on products we sell at a price that is indexed to the Lumber Market at the time it is shipped to the customer (such as high-volume treated lumber). Consequently, our gross margin decreased to 12.2% in the second quarter of 2010 from 16.0% in the same period of 2009. Since the end of June, lumber prices have stabilized.

Table of Contents

UNIVERSAL FOREST PRODUCTS, INC.

The Leading Indicator for Remodeling Activity, released by Harvard's Joint Center for Housing Studies, released its report for the second quarter of 2010 and indicated that spending on homeowner remodeling improvements declined 9.7% for the period, which impacts our DIY/retail market. Consumer spending for large repair/remodel projects has decreased due to general economic conditions, among other factors, including weak home prices and high unemployment levels. Consequently, the same store sales of our big box home improvement retailers have declined. The Consumer Confidence Index, which had been increasing since February, decreased in June causing concern about the level of consumer spending in future months.

National housing starts increased approximately 25% in the period from March through May of 2010 (our sales trail housing starts by about a month), compared to the same period of 2009. However, within these results, multi-family starts declined approximately 6% in April and May of 2010 compared to the same period of 2009. Shipments of HUD code manufactured homes were up 14% in April and May of 2010, compared to the same period of 2009. Industry sales of modular homes were up 5% in the first quarter compared to 2009.

Housing starts and shipments of manufactured homes were positively impacted by certain tax credits that have now expired.

The industrial market has improved as the U.S. economy slowly recovers. More significantly, we gained additional share of this market due, in part, to adding many new customers and continuing to penetrate the concrete forming business.

Our cash flow used in operating activities was \$50 million due to the seasonal working capital requirements of our business, which were higher than 2009. We currently anticipate achieving strong cash flows from operations for the year.

**UNIVERSAL FOREST PRODUCTS, INC.
HISTORICAL LUMBER PRICES**

The following table presents the Random Lengths framing lumber composite price:

	Random Lengths Composite Average \$/MBF	
	2010	2009
January	\$ 264	\$ 198
February	312	199
March	310	195
April	351	208
May	333	198
June	267	222
Second quarter average	\$ 317	\$ 209
Year-to-date average	\$ 306	\$ 203
Second quarter percentage change from 2009	51.7%	
Year-to-date percentage change from 2009	50.7%	

In addition, a Southern Yellow Pine (SYP) composite price, which we prepare and use, is presented below. Sales of products produced using this species, which primarily consists of our preservative-treated products, may comprise up to 50% of our sales volume.

	Random Lengths SYP Average \$/MBF	
	2010	2009
January	\$ 269	\$ 241
February	331	233
March	337	232
April	382	241
May	374	231
June	293	236
Second quarter average	\$ 350	\$ 236
Year-to-date average	\$ 331	\$ 236
Second quarter percentage change from 2009	48.3%	
Year-to-date percentage change from 2009	40.3%	

Table of Contents

UNIVERSAL FOREST PRODUCTS, INC.

IMPACT OF THE LUMBER MARKET ON OUR OPERATING RESULTS

We experience significant fluctuations in the cost of commodity lumber products from primary producers (Lumber Market). We generally price our products to pass lumber costs through to our customers so that our profitability is based on the value-added manufacturing, distribution, engineering, and other services we provide. As a result, our sales levels (and working capital requirements) are impacted by the lumber costs of our products. Lumber costs are a significant percentage of our cost of goods sold.

Our gross margins are impacted by both (1) the relative level of the Lumber Market (i.e. whether prices are higher or lower from comparative periods), and (2) the trend in the market price of lumber (i.e. whether the price of lumber is increasing or decreasing within a period or from period to period). Moreover, as explained below, our products are priced differently. Some of our products have fixed selling prices, while the selling prices of other products are indexed to the reported Lumber Market with a fixed dollar adder to cover conversion costs and profits. Consequently, the level and trend of the Lumber Market impact our products differently.

Below is a general description of the primary ways in which our products are priced.

Products with fixed selling prices. These products include value-added products such as decking and fencing sold to DIY/retail customers, as well as trusses, wall panels and other components sold to the site-built construction market, and most industrial packaging products. Prices for these products are generally fixed at the time of the sales quotation for a specified period of time or are based upon a specific quantity. In order to maintain margins and reduce any exposure to adverse trends in the price of component lumber products, we attempt to lock in costs for these sales commitments with our suppliers. Also, the time period and quantity limitations generally allow us to re-price our products for changes in lumber costs from our suppliers.

Products with selling prices indexed to the reported Lumber Market with a fixed dollar adder to cover conversion costs and profits. These products primarily include treated lumber, remanufactured lumber, and trusses sold to the manufactured housing industry. For these products, we estimate the customers' needs and carry anticipated levels of inventory. Because lumber costs are incurred in advance of final sale prices, subsequent increases or decreases in the market price of lumber impact our gross margins. For these products, our margins are exposed to changes in the trend of lumber prices.

Changes in the trend of lumber prices have their greatest impact on the following products:

Products with significant inventory levels with low turnover rates, whose selling prices are indexed to the Lumber Market. In other words, the longer the period of time these products remain in inventory, the greater the exposure to changes in the price of lumber. This would include treated lumber, which comprises approximately 17% of our total sales. This exposure is less significant with remanufactured lumber, trusses sold to the manufactured housing market, and other similar products, due to the higher rate of inventory turnover. We attempt to mitigate the risk associated with treated lumber through vendor consignment inventory programs. *(Please refer to the Risk Factors section of our annual report on form 10-K, filed with the United States Securities and Exchange Commission.)*

Table of Contents**UNIVERSAL FOREST PRODUCTS, INC.**

Products with fixed selling prices sold under long-term supply arrangements, particularly those involving multi-family construction projects. We attempt to mitigate this risk through our purchasing practices by locking in costs.

In addition to the impact of the Lumber Market trends on gross margins, changes in the level of the market cause fluctuations in gross margins when comparing operating results from period to period. This is explained in the following example, which assumes the price of lumber has increased from period one to period two, with no changes in the trend within each period.

	Period 1	Period 2
Lumber cost	\$ 300	\$ 400
Conversion cost	50	50
= Product cost	350	450
Adder	50	50
= Sell price	\$ 400	\$ 500
Gross margin	12.5%	10.0%

As is apparent from the preceding example, the level of lumber prices does not impact our overall profits, but does impact our margins. Gross margins are negatively impacted during periods of high lumber prices; conversely, we experience margin improvement when lumber prices are relatively low.

BUSINESS COMBINATIONS

See Notes to Unaudited Consolidated Condensed Financial Statements, Note G, Business Combinations.

Table of Contents

UNIVERSAL FOREST PRODUCTS, INC.
RESULTS OF OPERATIONS

The following table presents, for the periods indicated, the components of our Consolidated Condensed Statements of Earnings as a percentage of net sales.

	For the Three Months Ended		For the Six Months Ended	
	June 26, 2010	June 27, 2009	June 26, 2010	June 27, 2009
Net sales	100.0%	100.0%	100.0%	100.0%
Cost of goods sold	87.8	84.0	87.4	85.2
Gross profit	12.2	16.0	12.6	14.8
Selling, general, and administrative expenses	8.5	10.9	10.0	12.0
Net loss (gain) on disposition of assets and other impairment and exit charges	0.0	(0.1)	0.0	(0.2)

Income taxes	1.3	1.9	0.9	1.0
Net earnings	2.3	3.1	1.5	1.7
Less net earnings attributable to non-controlling interest	(0.1)	(0.0)	(0.1)	(0.0)
Net earnings attributable to controlling interest	2.2%	3.1%	1.4%	1.7%

GROSS SALES

We market, manufacture and engineer wood and wood-alternative products for the DIY/retail market, structural lumber products for the manufactured housing market, engineered wood components for the site-built construction market, and specialty wood packaging for various markets. We also provide framing services for the site-built construction market and various forms for concrete construction. Our strategic long-term sales objectives include:

Diversifying our end market sales mix by increasing sales of specialty wood packaging to industrial users, increasing our penetration of the concrete forms market, increasing our sales of engineered wood components for custom home, multi-family and light commercial construction, and expanding our product lines in each of the markets we serve.

Expanding geographically in our core businesses.

Increasing sales of value-added products and framing services. Value-added product sales primarily consist of fencing, decking, lattice, and other specialty products sold to the DIY/retail market, specialty wood packaging, engineered wood components, and wood alternative products. Engineered wood components include roof trusses, wall panels, and floor systems. Wood alternative products consist primarily of composite wood and plastics. Although we consider the treatment of dimensional lumber with certain chemical preservatives a value-added process, treated lumber is not presently included in the value-added sales totals.

Maximizing unit sales growth while achieving return on investment goals.

Table of Contents**UNIVERSAL FOREST PRODUCTS, INC.**

The following table presents, for the periods indicated, our gross sales (in thousands) and percentage change in gross sales by market classification.

Market Classification	For the Three Months Ended			For the Six Months Ended		
	June 26, 2010	June 27, 2009	% Change	June 26, 2010	June 27, 2009	% Change
DIY/Retail	\$ 315,833	\$ 291,184	8.4	\$ 480,240	\$ 458,764	4.7
Site-Built Construction	72,223	60,642	19.1	133,112	120,963	10.0
Industrial	179,240	131,783	36.0	305,228	236,419	29.1
Manufactured Housing	81,616	44,710	82.5	129,978	81,281	59.9
Total Gross Sales	648,912	528,319	22.8	1,048,558	897,427	16.8
Sales Allowances	(10,277)	(13,374)		(16,965)	(20,760)	
Total Net Sales	\$ 638,635	\$ 514,945	24.0	\$ 1,031,593	\$ 876,667	17.7

Note: In the first quarter of 2010, we reviewed the classification of our customers and made certain reclassifications. Prior year information has been restated to reflect these reclassifications.

Gross sales in the second quarter of 2010 increased 23% compared to the second quarter of 2009. We estimate that our unit sales increased by 9% and overall selling prices increased by 14% comparing the two periods. We estimate that our unit sales increased 2% as a result of business acquisitions and new plants, increased 8% as a result of existing operations, and decreased 1% due to operations we recently closed. Our overall selling prices increased as a result of the Lumber Market (see [Historical Lumber Prices](#)).

Gross sales in the first six months of 2010 increased 17% compared to the same period of 2009. We estimate that our unit sales increased by 6% and overall selling prices increased by 11% comparing the two periods. We estimate that our unit sales increased 2% as a result of business acquisitions and new plants, increased 6% as a result of existing operations, and declined 2% due to operations we recently closed. Our overall selling prices increased as a result of the Lumber Market (see [Historical Lumber Prices](#)).

Changes in our sales by market are discussed below.

DIY/Retail:

Gross sales to the DIY/retail market increased 8% in the second quarter of 2010 compared to 2009 primarily due to an estimated 11% increase in our overall selling prices due to the Lumber Market, offset by an estimated 3% decrease in our overall unit sales. Unit sales declined due to a decrease in consumer spending which is evidenced by a drop in same store sales reported by our big box customers.

Gross sales to the DIY/retail market increased 5% in the first six months of 2010 compared to 2009 primarily due to an estimated 9% increase in overall selling prices due to the Lumber Market, offset by an estimated 4% decrease in overall unit sales. Unit sales declined due to the factors mentioned in the paragraph above.

Table of Contents

UNIVERSAL FOREST PRODUCTS, INC.

Site-Built Construction:

Gross sales to the site-built construction market increased 19% in the second quarter of 2010 compared to 2009 due to an estimated 20% increase in unit sales out of existing plants and new operations, an estimated 8% increase in selling prices primarily due to the Lumber Market, and a 9% decrease in unit sales as a result of operations we have recently closed. National housing starts increased approximately 25% in the period from March through May of 2010 (our sales trail housing starts by about a month), compared to the same period of 2009. We have taken several recent plant closure actions in order to achieve profitability and cash flow objectives, which may temporarily result in a loss of market share.

Gross sales to the site-built construction market increased 10% in the first six months of 2010 compared to 2009 due to an estimated 13% increase in unit sales out of existing plants and new operations, an estimated 5% increase in selling prices primarily due to the Lumber Market, and an 8% decrease in unit sales as a result of operations we have recently closed. National single family and multi-family housing starts increased approximately 39% and decreased approximately 31%, respectively, year-to-date through May of 2010.

Industrial:

Gross sales to the industrial market increased 36% in the second quarter of 2010 compared to 2009, due to an estimated 22% increase in unit sales and an estimated 14% increase in selling prices. The industrial market has improved as the U.S. economy continues to recover, but more significantly, we have been able to continue to gain market share due, in part, to adding many new customers and our continued penetration of the concrete forming market.

Gross sales to the industrial market increased 29% in the first six months of 2010 compared to 2009, due to an estimated 20% increase in unit sales and an estimated 9% increase in selling prices. Unit sales increased due to the factors mentioned in the paragraph above.

Manufactured Housing:

Gross sales to the manufactured housing market increased 83% in the second quarter of 2010 compared to 2009, primarily due to an estimated 28% increase in unit sales out of existing plants, a 13% increase in unit sales due to acquisitions, and an estimated 42% increase in selling prices due to the Lumber Market. Shipments of HUD code manufactured homes were up 14% in April and May of 2010, compared to the same period of 2009.

Gross sales to the manufactured housing market increased 60% in the first six months of 2010 compared to 2009, primarily due to an estimated 22% increase in unit sales out of existing plants, a 7% increase in unit sales due to acquisitions, and an estimated 31% increase in selling prices due to the Lumber Market. Shipments of HUD code manufactured homes were up 5% year-to-date through May of 2010, compared to the same period of 2009.

Table of Contents**UNIVERSAL FOREST PRODUCTS, INC.**

Value-Added and Commodity-Based Sales:

The following table presents, for the periods indicated, our percentage of value-added and commodity-based sales to total sales.

	Three Months Ended		Six Months Ended	
	June 26, 2010	June 27, 2009	June 26, 2010	June 27, 2009
Value-Added	58.8%	61.2%	58.5%	61.0%
Commodity-Based	41.2%	38.8%	41.5%	39.0%

Value-added sales increased 18% in the second quarter of 2010 compared to 2009, primarily due to increased sales of construction and building materials, trusses, decking and railing, turn-key framing, and installed sales. Commodity-based sales increased 31% comparing the second quarter of 2010 with the same period of 2009, primarily due to increased sales of non-manufactured lumber due to higher average lumber prices during the period.

Value-added sales increased 12% in the first six months of 2010 compared to 2009, primarily due to increased sales of construction and building materials, engineered wood products, decking and railing and trusses. Commodity-based sales increased 24% comparing the first six months of 2010 with the same period of 2009, primarily due to increased sales of non-manufactured lumber due to higher average lumber prices during the period.

COST OF GOODS SOLD AND GROSS PROFIT

Our gross profit percentage decreased to 12.2% from 16.0% comparing the second quarter of 2010 with the same period of 2009. In addition, our gross profit dollars decreased by 6% comparing the second quarter of 2010 with the same period of 2009, which compares unfavorably with our 9% increase in unit sales. The Lumber Market was approximately 52% higher, on average, in the second quarter of 2010 compared to the same period of 2009, and was unusually volatile during the quarter. The unusual volatility had a significant adverse impact on our gross profits, particularly in the month of June. Specifically, lumber prices increased quickly to a peak at the end of April so quickly that it was not possible to pass along the increased costs to customers. This negatively affected profits on products sold at a fixed price during the quarter. Then, from late April through late June, lumber prices fell quickly, negatively affecting profits on products we sell at a price that is indexed to the Lumber Market at the time it is shipped to the customer (such as high-volume treated lumber). Consequently, our material costs as a percentage of sales increased by approximately 5.6 percentage points comparing the second quarter of 2010 with the same period of 2009. This cost increase was offset somewhat by lower labor and overhead costs as a percentage of sales due to the higher overall level of lumber and our selling prices and efficiency gains. Since the end of June, lumber prices have stabilized. See

Impact of the Lumber Market on Our Operating Results

Our gross profit percentage decreased to 12.6% from 14.8% comparing the first six months of 2010 with the same period of 2009. In addition, our gross profit dollars were flat comparing the first six months of 2010 with the same period of 2009, which compares unfavorably with our 6% increase in unit sales. Our decline in gross margin was primarily due to the factors mentioned in the paragraph above.

Table of Contents

UNIVERSAL FOREST PRODUCTS, INC.

SELLING, GENERAL AND ADMINISTRATIVE EXPENSES

Selling, general and administrative (SG&A) expenses decreased by approximately \$2.0 million, or 3.5%, in the second quarter of 2010 compared to the same period of 2009, while we reported a 9% increase in unit sales. New operations added \$1.3 million of expenses, operations we closed decreased expenses by \$2.3 million, and existing operations decreased expenses by \$1.0 million. The decrease in SG&A expenses at our existing operations was primarily due to decreases in bad debt expense and accrued bonus, offset somewhat by an increase in wages. Our SG&A expenses decreased as a percentage of sales primarily due to the factors above plus efficiencies and our continuing efforts to control costs. The higher level of the Lumber Market also contributed to the improvement in this ratio.

Selling, general and administrative (SG&A) expenses decreased by approximately \$2.6 million, or 2.5%, in the first six months of 2010 compared to the same period of 2009, while we reported a 6% increase in unit sales. New operations added \$1.7 million of expenses, operations we closed decreased expenses by \$5.5 million, and existing operations increased expenses by \$1.2 million. The increase in SG&A expenses at our existing operations was primarily due to increases in wages and travel expenses. These increases were partially offset by a decrease in bad debt expense. Our SG&A expenses decreased as a percentage of sales primarily due to the factors above plus efficiencies and our continuing efforts to control costs. The higher level of the Lumber Market also contributed to the improvement in this ratio.

NET LOSS (GAIN) ON DISPOSITION OF ASSETS AND OTHER IMPAIRMENT AND EXIT CHARGES

We incurred \$0.2 million of charges in the second quarter of 2010 and \$0.4 million in the second quarter of 2009 relating to asset impairments and other costs associated with idled facilities and down-sizing efforts. In 2009, these costs were offset by a \$1.1 million gain on the sale of certain real estate.

We incurred \$0.4 million of charges in the first six months of 2010 and \$1.6 million in the first six months of 2009 relating to asset impairments and other costs associated with idled facilities and down-sizing efforts. In 2009, these costs were offset by a \$3.5 million gain on the sale of certain real estate.

We regularly review the performance of each our operations and make decisions to permanently or temporarily close operations based on a variety of factors including:

- Current and projected earnings, cash flow and return on investment
- Current and projected market demand
- Market share
- Competitive factors
- Future growth opportunities
- Personnel and management

Table of Contents**UNIVERSAL FOREST PRODUCTS, INC.**

We currently have 12 operations which are experiencing operating losses and negative cash flow for the first six months of 2010. The net book value of the long-lived assets of these operations, which could be subject to an impairment charge in the future, was \$5.2 million at the end of June of 2010. In addition, these operations had future fixed operating lease payments totaling \$1.5 million at the end of June of 2010.

INSURANCE PROCEEDS

In May, 2008 our plant in Windsor, CO was hit by a tornado. In accordance with ASC 605, *Revenue Recognition*, we have written off the net book value of the destroyed inventory and property totaling \$0.7 million. The insured value of the property exceeded its net book value, which was recorded as a gain in 2008. In 2008, we collected \$0.8 million of the insurance receivable and in 2009 we collected \$1.0 million. As of June 27, 2009, there is no remaining insurance receivable.

INTEREST, NET

Net interest costs were lower in the second quarter and first six months of 2010 compared to the same periods of 2009 primarily due to lower debt balances throughout 2010.

INCOME TAXES

Effective tax rates differ from statutory federal income tax rates, primarily due to provisions for state and local income taxes and permanent tax differences. Our effective tax rate was 36.5% for the second quarter of 2010 and 36.3% in the same period of 2009. Our effective tax rate decreased to 35.3% in the first six months of 2010 from 35.5% in the same period of 2009.

OFF-BALANCE SHEET TRANSACTIONS

We have no significant off-balance sheet transactions other than operating leases.

LIQUIDITY AND CAPITAL RESOURCES

The table below presents, for the periods indicated, a summary of our cash flow statement (in thousands):

	Six Months Ended	
	June 26, 2010	June 27, 2009
Cash from operating activities	\$ (50,231)	\$ 62,680
Cash from investing activities	(17,879)	4,050
Cash from financing activities	7,137	(47,434)
Net change in cash and cash equivalents	(60,973)	19,296
Cash and cash equivalents, beginning of period	82,219	13,337
Cash and cash equivalents, end of period	\$ 21,246	\$ 32,633

UNIVERSAL FOREST PRODUCTS, INC.

In general, we financed our growth in the past through a combination of operating cash flows, our revolving credit facility, industrial development bonds (when circumstances permit), and issuance of long-term notes payable at times when interest rates are favorable. We have not issued equity to finance growth except in the case of a large acquisition. We manage our capital structure by attempting to maintain a targeted ratio of debt to equity and debt to earnings before interest, taxes, depreciation and amortization. We believe this is one of many important factors to maintaining a strong credit profile, which in turn helps ensure timely access to capital when needed. We are currently below our internal targets but plan to manage our capital structure conservatively in light of current economic conditions.

Seasonality has a significant impact on our working capital from March to August which historically resulted in negative or modest cash flows from operations in our first and second quarters. Conversely, we experience a substantial decrease in working capital from September to February which results in significant cash flow from operations in our third and fourth quarters. For comparative purposes, we have included the June 27, 2009 balances in the accompanying unaudited consolidated condensed balance sheets.

Due to the seasonality of our business and the effects of the Lumber Market, we believe our cash cycle (days of sales outstanding plus days supply of inventory less days payables outstanding) is a good indicator of our working capital management. Our cash cycle decreased to 43 days in the first six months of 2010 from 47 days in the first six months of 2009, due to a 2 day decrease in our receivables cycle combined with a 4 day decrease in our days supply of inventory, offset by a 2 day decrease in our payables cycle, due to several initiatives to improve our management of receivables and inventory.

Cash used in operating activities was approximately \$50 million in the first six months of 2010 due to an \$86 million increase in working capital since the end of 2009, offset by net earnings of \$15 million and \$21 million of non-cash expenses. Working capital increased primarily due to the seasonal increase in our business plus the impact of higher lumber prices on inventory and accounts receivable. Based on our historical seasonality impact, we currently anticipate achieving strong cash flows from operations for the year.

Capital expenditures were \$11.6 million in the first six months of 2010. We still plan to spend approximately \$32 million in 2010, which includes outstanding purchase commitments on existing capital projects totaling approximately \$2.5 million on June 26, 2010. We intend to fund capital expenditures and purchase commitments through our operating cash flows for the balance of the year.

Cash flows used in investing activities included \$5.8 million spent to acquire assets of certain operations that distribute a wide range of products to the manufactured housing industry. See Notes to Unaudited Consolidated Condensed Financial Statements, Note G Business Combinations .

Table of Contents

UNIVERSAL FOREST PRODUCTS, INC.

Cash flows from financing activities included \$3.9 million for dividends and \$3.6 million for repurchases of our common stock. Our Board of Directors approved a dividend of \$0.20 per share, which was paid in June of 2010. We have remaining authorization from our Board of Directors to repurchase an additional one million shares. Our practice has been to repurchase an appropriate number of shares each year to offset share issuances occurring under certain of our employee benefit plans.

On June 26, 2010, we had approximately \$15.0 million outstanding on our \$300 million revolving credit facility, which matures in February of 2012. The revolving credit facility also supports letters of credit totaling approximately \$32.3 million on June 26, 2010. Financial covenants on the unsecured revolving credit facility and unsecured notes include a minimum net worth requirement, minimum interest and fixed charge coverage tests, and a maximum leverage ratio. The agreements also restrict the amount of additional indebtedness we may incur and the amount of assets which may be sold. We were within all of our lending requirements on June 26, 2010.

ENVIRONMENTAL CONSIDERATIONS AND REGULATIONS

See Notes to Unaudited Consolidated Condensed Financial Statements, Note F, Commitments, Contingencies, and Guarantees.

CRITICAL ACCOUNTING POLICIES

In preparing our consolidated financial statements, we follow accounting principles generally accepted in the United States. These principles require us to make certain estimates and apply judgments that affect our financial position and results of operations. We continually review our accounting policies and financial information disclosures. There have been no material changes in our policies or estimates since December 26, 2009.

UNIVERSAL FOREST PRODUCTS, INC.

Item 3. Quantitative and Qualitative Disclosures about Market Risk.

We are exposed to market risks related to fluctuations in interest rates on our variable rate debt, which consists of a revolving credit facility and industrial development revenue bonds. We do not currently use interest rate swaps, futures contracts or options on futures, or other types of derivative financial instruments to mitigate this risk.

For fixed rate debt, changes in interest rates generally affect the fair market value, but not earnings or cash flows. Conversely, for variable rate debt, changes in interest rates generally do not influence fair market value, but do affect future earnings and cash flows. We do not have an obligation to prepay fixed rate debt prior to maturity, and as a result, interest rate risk and changes in fair market value should not have a significant impact on such debt until we would be required to refinance it.

Item 4. Controls and Procedures.

- (a) **Evaluation of Disclosure Controls and Procedures.** With the participation of management, our chief executive officer and chief financial officer, after evaluating the effectiveness of our disclosure controls and procedures (as defined in Exchange Act Rules 13a-15e and 15d-15e) as of the quarter ended June 26, 2010 (the Evaluation Date), have concluded that, as of such date, our disclosure controls and procedures were effective.
- (b) **Changes in Internal Controls.** During the quarter ended June 26, 2010, there were no changes in our internal control over financial reporting that materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

- (a) None.
- (b) None.
- (c) Issuer purchases of equity securities.

Fiscal Month	(a)	(b)	(c)	(d)
March 28, 2010 – May 1, 2010 ⁽¹⁾				1,113,129
May 2 – May 29, 2010	60,300	\$ 37.46		1,052,829
May 30 – June 26, 2010	20,000	\$ 35.46		1,032,829

- (a) Total number of shares purchased.
- (b) Average price paid per share.
- (c) Total number of shares purchased as part of publicly announced plans or programs.
- (d) Maximum number of shares that may yet be purchased under the plans or programs.
- (1) On November 14, 2001, the Board of Directors approved a share repurchase program (which succeeded a previous program) allowing us to repurchase up to

2.5 million
shares of our
common stock.
As of June 26,
2010,
cumulative total
authorized
shares available
for repurchase is
1.0 million
shares.

Item 5. Other Information.

In the second quarter of 2010, the Audit Committee did not approve any non-audit services to be provided by our independent auditors, Ernst & Young LLP, for 2010.
