EARNINGS RELEASE
TEEKAY LNG PARTNERS
REPORTS FIRST QUARTER RESULTS

Highlights

Generated distributable cash flow of \$39.1 million in the first quarter of 2011, an increase of 15 percent from the first quarter of 2010.

Declared first quarter 2011 cash distribution of \$0.63 per unit.

Agreed to acquire Teekay Corporation's 33 percent interest in four LNG carrier newbuildings scheduled to deliver in 2011 and 2012.

Partnership's total liquidity increased to approximately \$600 million as at May 1, 2011.

Hamilton, Bermuda, May 12, 2011 Teekay GP LLC, the general partner of Teekay LNG Partners L.P. (*Teekay LNG or the Partnership*) (NYSE: TGP) today reported its results for the quarter ended March 31, 2011. During the first quarter of 2011, the Partnership generated distributable cash flow⁽¹⁾ of \$39.1 million, compared to \$33.9 million in the same quarter of the previous year. The increase primarily reflects the incremental distributable cash flow resulting from a full quarter of revenue from the Partnership's acquisition of three vessels in March 2010, the Partnership's November 2010 acquisition of a 50 percent interest in two LNG carriers, and reduced off-hire days relating to scheduled drydockings.

On April 21, 2011, the Partnership declared a cash distribution of \$0.63 per unit for the quarter ended March 31, 2011. The cash distribution is payable on May 13, 2011 to all unitholders of record on May 6, 2011.

The Partnership's first quarter results reflect the stable cash flows generated by our fixed-rate contract portfolio of vessels and include a full quarter contribution from the Exmar vessel interests we acquired in November 2010, commented Peter Evensen, Chief Executive Officer of Teekay GP LLC. We look forward to further distributable cash flow growth as the Partnership takes delivery of new gas carriers supported by long-term fixed-rate contracts in the near future, including the 33 percent interest in four Angola LNG carrier newbuildings which will begin delivering in the second half of 2011.

Mr. Evensen continued, "After a period of slower growth in the LNG sector, activity is picking up with an increasing number of projects for both traditional LNG transportation and floating storage and regasification units, or FSRUs, coming up for tender. In addition, with its substantial level of available liquidity, the Partnership will continue to evaluate opportunities to acquire high quality third party assets servicing long-term contracts, which should further drive distributable cash flow growth."

(1) Distributable cash flow is a non-GAAP financial measure used by certain investors to measure the financial performance of the Partnership and other master limited partnerships. Please see *Appendix B* for a reconciliation of this non-GAAP measure to the most directly comparable GAAP financial measure.

Teekay LNG's Fleet

The following table summarizes the Partnership's fleet as of May 1, 2011:

	Delivered Vessels	Number of Vessels Committed Vessels	Total
LNG Carrier Fleet	17 ⁽¹⁾	4 ⁽²⁾	21
LPG/Multigas Carrier Fleet	2	3 ⁽³⁾	5
Conventional Tanker Fleet	11		11
Total	30	7	37

(1) Includes a 50 percent interest in a FSRU unit.

(2) Represents a 33 percent interest in four Angola LNG carriers under construction, as described below.

(3) Represents the three Skaugen LPG/Multigas carriers currently under construction, as described below.

Future Projects

Below is a summary of LNG and LPG/Multigas newbuildings that the Partnership has agreed to acquire:

Skaugen LPG/Multigas

The Partnership has agreed to acquire one LPG carrier from a subsidiary of IM Skaugen ASA (*Skaugen*) and two Multigas carriers from Teekay Corporation (*Teekay*). The three LPG/Multigas carriers are currently under construction and are expected to be delivered in 2011. Upon delivery, the vessels will commence service under 15-year fixed-rate charters to Skaugen.

Angola LNG

A consortium in which Teekay has a one-third interest, has agreed to charter four newbuilding LNG carriers for a period of 20 years to the Angola LNG Project, which is being developed by subsidiaries of Chevron, Sonangol, BP, Total and ENI. The vessels will be chartered at fixed rates, with inflation adjustments, following their deliveries. The vessels are currently under construction and are expected to deliver during 2011 and 2012. In March 2011, the Partnership agreed to purchase Teekay Corporation's 33 percent interest in these vessels and related charter contracts concurrent with their respective deliveries.

Financial Summary

The Partnership reported adjusted net income attributable to the partners⁽¹⁾ (as detailed in *Appendix A* to this release) of \$25.9 million for the quarter ended March 31, 2011, compared to \$21.4 million for the same period of the prior year. Adjusted net income attributable to the partners excludes a number of specific items which had the net effect of decreasing net income by \$0.9 million and increasing net income by \$7.1 million for the three months ended March 31, 2011 and 2010, respectively, as detailed in *Appendix A*. Including these items, the Partnership reported net income attributable to the partners, on a GAAP basis, of \$25.0 million and \$28.5 million for the three months ended March 31, 2011 and 2010, respectively.

For accounting purposes, the Partnership is required to recognize the changes in the fair value of its derivative instruments on the consolidated statements of income. This method of accounting does not affect the Partnership's cash flows or the calculation of distributable cash flow, but results in the recognition of unrealized gains or losses on the consolidated statements of income as detailed in footnote 2 of the Summary Consolidated Statements of Income.

The Partnership's financial statements for the prior periods include historical results of vessels acquired by the Partnership from Teekay, referred to herein as the *Dropdown Predecessor*, for the period when these vessels were owned and operated by Teekay.

Operating Results

The following table highlights certain financial information for Teekay LNG's segments: the Liquefied Gas Segment and the Conventional Tanker Segment (please refer to the Teekay LNG's Fleet section of this release above and *Appendix C* for further details).

	Three Months Ended March 31, 2011 (unaudited)			Three Months Ended March 31, 2010 (unaudited)		
	Liquefied Gas Segment	Conventional Tanker Segment	Total	Liquefied Gas Segment	Conventional Tanker Segment ⁽ⁱ⁾	Total
(in thousands of U.S. dollars)						
Net voyage revenues ⁽ⁱⁱ⁾	65,784	27,065	92,849	65,813	26,538	92,351
Vessel operating expenses	11,077	9,730	20,807	11,416	9,612	21,028
Depreciation and amortization	15,124	7,225	22,349	15,238	6,918	22,156
Cash flow from vessel operations ⁽ⁱⁱⁱ⁾	52,742	14,333	67,075	52,914	9,902	62,816

(i) Cash flow from vessel operations for the Conventional Tanker segment only reflects the cash flows generated by the *Alexander Spirit*, *Hamilton Spirit* and *Bermuda Spirit* subsequent to their acquisition by the Partnership on March 17, 2010. Results for the *Alexander Spirit*, *Hamilton Spirit* and *Bermuda Spirit* for the periods prior to their acquisition by the Partnership when they were owned and operated by Teekay are referred to as the *Dropdown Predecessor*.

(ii) Net voyage revenues represents voyage revenues less voyage expenses, which comprise all expenses relating to certain voyages, including bunker fuel expenses, port fees, canal tolls and brokerage commissions. Net voyage revenues is a non-GAAP financial measure used by certain investors to measure the financial performance of shipping companies. Please see the Partnership's web site at www.teekaylng.com for a reconciliation of this non-GAAP measure as used in this release to the most directly comparable GAAP financial measure.

(iii) Cash flow from vessel operations represents income from vessel operations before (a) depreciation and amortization expense, (b) *Dropdown Predecessor*'s income from vessel operations and (c) adjusting for direct financing leases to a cash basis. However, the Partnership's cash flow from vessel operations does not include the Partnership's equity accounted investee's cash flow from vessel operations. Cash flow from vessel operations is included because certain investors use this data to measure a company's financial performance. Cash flow from vessel operations is not required by accounting principles generally accepted in the United States and should not

be considered as an alternative to net income or any other indicator of the Partnership's performance required by accounting principles generally accepted in the United States.

Liquefied Gas Segment

Cash flow from vessel operations from the Partnership's Liquefied Gas segment decreased slightly to \$52.7 million in the first quarter of 2011 from \$52.9 million in the same quarter of the prior year. This decrease is primarily due to the sale of the *Dania Spirit* LPG carrier in November 2010, partially offset by fewer off-hire days in the first quarter of 2011 relating to scheduled drydockings. Cash flow from vessel operations, as reported in the above table, does not include cash flow of \$12.9 million for the three months ended March 31, 2011 from the Partnership's two equity-accounted joint ventures, RasGas 3 and Exmar.

Conventional Tanker Segment

Cash flow from vessel operations from the Partnership's Conventional Tanker segment increased to \$14.3 million in the first quarter of 2011 from \$9.9 million in the same quarter of the prior year. The increase is primarily due to a full quarter of operations from the two Suezmax tankers and one Handymax tanker that were acquired from Teekay late in the first quarter of 2010.

Liquidity

As of March 31, 2011, the Partnership had total liquidity of \$437.6 million, comprised of \$72.6 million in cash and cash equivalents and \$365.0 million in undrawn credit facilities. Total liquidity increased from \$437.6 million to approximately \$600 million as at May 1, 2011, primarily as a result of the Partnership's recently completed equity offering, which provided net proceeds to the Partnership of approximately \$161.6 million, including proceeds received upon the partial exercise of the underwriter's over-allotment option.

Availability of 2010 Annual Report

Teekay LNG Partners L.P. filed its 2010 Annual Report on Form 20-F with the U.S. Securities and Exchange Commission (*SEC*) on April 4, 2011, amended on April 29, 2011 to include XBRL. Copies are available on Teekay LNG's web site, under Investor Briefcase, at www.teekaylng.com. Unitholders may request a printed copy of this annual report, including the complete audited financial statements free of charge by contacting Teekay LNG's Investor Relations.

Conference Call

The Partnership plans to host a conference call on May 13, 2011 at 11:00 a.m. (ET) to discuss the results for the first quarter of 2011. All unitholders and interested parties are invited to listen to the live conference call by choosing from the following options:

By dialing (866) 399-6716 or (416) 640-5933, if outside North America, and quoting conference ID code 7351063.

By accessing the webcast, which will be available on Teekay LNG's Web site at www.teekaylng.com (the archive will remain on the web site for a period of 30 days).

A supporting First Quarter 2011 Earnings Presentation will also be available at www.teekaylng.com in advance of the conference call start time.

The conference call will be recorded and available until Friday, May 20, 2011. This recording can be accessed following the live call by dialing (888) 203-1112 or (647) 436-0148, if outside North America, and entering access code 7351063.

APPENDIX B RECONCILIATION OF NON-GAAP FINANCIAL MEASURE
(in thousands of U.S. dollars)

Description of Non-GAAP Financial Measure Distributable Cash Flow (DCF)

Distributable cash flow represents net income adjusted for depreciation and amortization expense, non-cash items, estimated maintenance capital expenditures, gains and losses on vessel sales, unrealized gains and losses from derivatives, income from variable interest entity, deferred income taxes, foreign exchange related items and net income attributable to the Dropdown Predecessor before depreciation. Maintenance capital expenditures represent those capital expenditures required to maintain over the long-term the operating capacity of, or the revenue generated by, the Partnership's capital assets. Distributable cash flow is a quantitative standard used in the publicly-traded partnership investment community to assist in evaluating a partnership's ability to make quarterly cash distributions. Distributable cash flow is not required by accounting principles generally accepted in the United States and should not be considered as an alternative to net income or any other indicator of the Partnership's performance required by accounting principles generally accepted in the United States. The table below reconciles distributable cash flow to net income.

	Three Months Ended March 31, 2011 (unaudited)
Net income	29,737
Add:	
Depreciation and amortization	22,349
Partnership's share of joint ventures' DCF before estimated maintenance capital expenditures	7,863

FORWARD LOOKING STATEMENTS

This release contains forward-looking statements (as defined in Section 21E of the Securities Exchange Act of 1934, as amended) which reflect management's current views with respect to certain future events and performance, including statements regarding: the Partnership's future growth opportunities; improvements in the LNG sector; the timing of LNG and LPG/Multigas newbuilding deliveries and incremental cash flows relating to long-term, fixed-rate contracts serviced by these newbuildings; the growth opportunities in floating LNG regasification market; the Partnership's financial position, including available liquidity; and the potential for the Partnership to increase distributable cash flow from future projects and acquisitions of additional vessels from third parties. The following factors are among those that could cause actual results to differ materially from the forward-looking statements, which involve risks and uncertainties, and that should be considered in evaluating any such statement: the unit price of equity offerings to finance acquisitions; changes in production of LNG or LPG, either generally or in particular regions; development of LNG and LPG projects; required approvals by the Conflicts Committee of the Board of Directors of the Partnership's general partner to acquire any projects offered to the Partnership by Teekay Corporation; less than anticipated revenues or higher than anticipated costs or capital requirements; changes in trading patterns significantly affecting overall vessel tonnage requirements; changes in applicable industry laws and regulations and the timing of implementation of new laws and regulations; the potential for early termination of long-term contracts and inability of the Partnership to renew or replace long-term contracts; LNG and LPG/Multigas project delays or shipyard production delays which would change the expected timing and cost of newbuild vessel deliveries; the Partnership's ability to raise financing to purchase additional vessels or to pursue LNG or LPG/Multigas projects; changes to the amount or proportion of revenues, expenses, or debt service costs denominated in foreign currencies; and other factors discussed in Teekay LNG Partners' filings from time to time with the SEC, including its Report on Form 20-F for the fiscal year ended December 31, 2010. The Partnership expressly disclaims any obligation to release publicly any updates or revisions to any forward-looking statements contained herein to reflect any change in the Partnership's expectations with respect thereto or any change in events, conditions or circumstances on which any such statement is based.
