Rating Distribution⁶ (% of total investments)

The rating distribution bar chart includes the ratings of securities held by special purpose vehicles in which the Fund holds a residual interest. See Note 1 to the Fund s financial statements. Absent such securities, the Fund s rating distribution as of 3/31/11 is as follows (in %):⁶

AAA	10.6	BBB	11.3
AA	54.2	BB	0.2
А	23.0	D	0.7

See Endnotes and Additional Disclosures on page 5.

Past performance is no guarantee of future results. Returns are historical and are calculated by determining the percentage change in net asset value or market price (as applicable) with all distributions reinvested. Fund performance at market price will differ from its results at NAV due to factors such as changing perceptions about the Fund, market conditions, fluctuations in supply and demand for Fund shares, or changes in Fund distributions. Investment return and principal value will fluctuate so that shares, when sold, may be worth more or less than their original cost. Performance is for the stated time period only; due to market volatility, current Fund performance may be lower or higher than the quoted return. For performance as of the most recent month end, please refer to www.eatonvance.com.

Eaton Vance Municipal Bond Funds

March 31, 2011 Endnotes and Additional Disclosures

- ^{1.} Six-month returns are cumulative. All other returns are presented on an average annual basis. Performance reflects the effects of leverage.
- ^{2.} Fund market yield is calculated by dividing the last regular dividend per common share in the period (annualized) by the market price at the end of the period.
- ^{3.} Taxable-equivalent figure assumes maximum combined federal and state income tax rates, except for Municipal Bond Fund, which assumes a maximum 35.00% federal income tax rate. Lower income tax rates would result in lower tax-equivalent figures. The maximum combined income tax rates for state funds were as follows as of 3/31/11:

California 41.86% New York 40.83%

- ^{4.} The Fund employs leverage through the use of residual interest bond (RIB) financing. Leverage provides an opportunity for increased income but, at the same time, creates special risks (including the likelihood of greater volatility of NAV and market price of common shares). See Floating Rate Notes Issued in Conjunction with Securities Held in Note 1 to the financial statements for more information on RIB investments. RIB leverage represents the amount of Floating Rate Notes outstanding as of 3/31/11 as a percentage of Fund net assets applicable to common shares plus Floating Rate Notes.
- ⁵. It is not possible to invest directly in an Index or a Lipper Classification. Total returns shown for an Index do not reflect expenses that would have been incurred if an investor individually purchased or sold the securities represented in an Index. The Barclays Capital Long (22+) Municipal Bond Index is an unmanaged index of municipal bonds traded in the U.S. with maturities of 22 years or more. The Barclays Capital Municipal Bond Index is an unmanaged index of municipal bonds traded in the U.S. with maturities of 22 years or more. The Barclays Capital Municipal Bond Index is an unmanaged index of municipal bonds traded in the U.S. The Lipper total return is the average total return, at NAV, of funds that are in the Fund s Lipper Classification. Lipper Classifications may include insured and uninsured funds, as well as leveraged and unleveraged funds. Index and Lipper returns are available as of month end only.
- ⁶. Rating Distribution is determined by dividing the total market value of Fund issues by its total investments. Ratings are based on Moody s, S&P or Fitch, as applicable. Credit ratings are based largely on the rating agency s investment analysis at the time of rating and the rating assigned to any particular security is not necessarily a reflection of the issuer s current financial condition. The rating assigned to a security by a rating agency does not necessarily reflect its assessment of the volatility of a security s market value or of the liquidity of an investment in the security. If securities are rated differently by the rating agencies, the higher rating is applied.

AMBAC	- AMBAC Financial Group, Inc.
BHAC	- Berkshire Hathaway Assurance Corp.
FGIC	- Financial Guaranty Insurance Company
NPFG	- National Public Finance Guaranty Corp.
PSF	- Permanent School Fund

XLCA - XL Capital Assurance, Inc.

At March 31, 2011, the concentration of the Fund s investments in the various states, determined as a percentage of total investments is as follows:

California	17.1%
Texas	12.5%
Others, representing less than 10% individually	70.4%

The Fund invests primarily in debt securities issued by municipalities. The ability of the issuers of the debt securities to meet their obligations may be affected by economic developments in a specific industry or municipality. In order to reduce the risk associated with such economic developments, at March 31, 2011, 76.6% of total investments are backed by bond insurance of various financial institutions and financial guaranty assurance agencies. The aggregate percentage insured by an individual financial institution ranged from 1.0% to 26.8% of total investments.

- ⁽¹⁾ Security represents the underlying municipal bond of an inverse floater (see Note 1H).
- ⁽²⁾ Security (or a portion thereof) has been pledged as collateral for open swap contracts. The aggregate value of such collateral is \$678,294.
- ⁽³⁾ Defaulted bond.
- ⁽⁴⁾ Security (or a portion thereof) has been pledged to cover margin requirements on open financial futures contracts.

See Notes to Financial Statements.

The Fund invests primarily in debt securities issued by California municipalities. The ability of the issuers of the debt securities to meet their obligations may be affected by economic developments in a specific industry or municipality. In order to reduce the risk associated with such economic developments, at March 31, 2011, 80.1% of total investments are backed by bond insurance of various financial institutions and financial guaranty assurance agencies. The aggregate percentage insured by an individual financial institution ranged from 2.1% to 36.0% of total investments.

- ⁽¹⁾ Security represents the underlying municipal bond of an inverse floater (see Note 1H).
- ⁽²⁾ Security (or a portion thereof) has been pledged to cover margin requirements on open financial futures contracts.

See Notes to Financial Statements.

The Fund invests primarily in debt securities issued by New York municipalities. The ability of the issuers of the debt securities to meet their obligations may be affected by economic developments in a specific industry or municipality. In order to reduce the risk associated with such economic developments, at March 31, 2011, 72.3% of total investments are backed by bond insurance of various financial institutions and financial guaranty assurance agencies. The aggregate percentage insured by an individual financial institution ranged from 1.0% to 29.7% of total investments.

- ⁽¹⁾ Security represents the underlying municipal bond of an inverse floater (see Note 1H).
- ⁽²⁾ When-issued security.
- ⁽³⁾ Security (or a portion thereof) has been segregated to cover payable for when-issued securities.
- ⁽⁴⁾ Security (or a portion thereof) has been pledged as collateral for open swap contracts. The aggregate value of such collateral is \$111,426.
- ⁽⁵⁾ Security (or a portion thereof) has been pledged to cover margin requirements on open financial futures contracts.

See Notes to Financial Statements.
