The Company owns 67.0% of OMHHF and the remaining 33.0% is owned by two key employees.

Credit Strengths

Strong Track Record of Paying Down Debt

We have consistently paid down our debt, reducing our long-term indebtedness related to a 2003 acquisition by \$202.5 million, from \$225.0 million in 2003 to \$22.5 million in 2010. We also significantly deleveraged through the credit crisis even as we were integrating a major acquisition, reducing our Debt to Last-Twelve-Months (LTM) Consolidated Adjusted EBITDA leverage ratio from 3.0x at the end of 2008 to 1.1x at the end of 2010. On an as adjusted basis to give effect to this offering, our LTM Consolidated Adjusted EBITDA leverage ratio would have been 1.8x at the end of 2010 (for the calculation of this ratio, the 2010 Consolidated Adjusted EBITDA represents historical Consolidated Adjusted EBITDA and has not been adjusted for the interest expense on long-term debt giving effect to this offering).

Robust Performance Across a Challenging Cycle

Despite the financial crisis of 2008 and its impact on the broader financial services sector, from the fiscal year 2005 to 2010, we grew revenue by 52.3% from \$679.7 million to \$1,035.0 million, we grew assets under management by 83% from \$10.3 billion to \$18.8 billion, and we grew book value per share from \$24.46 to \$37.02.

Primarily an Agency Business Model

Our business strategy is built on an agency model. We derive our revenues mainly by charging our clients commissions and fees on transactions we execute and assets we manage on their behalf. We take little principal risk, and when we do so, it is generally in order to facilitate our client facing business. In addition, we are not a bank holding company, therefore our operations will not be impacted by the limits on principal risk adopted in the recently enacted legislation aimed at financial institutions.

Strong Strategic Position

Our business model combines the full service capabilities of our larger competitors while maintaining the flexibility and independence of a boutique investment firm. We are one of the few full service firms that continues to consistently service middle market companies across the United States and internationally. We have a long-standing

Table of Contents

history in the private client business dating back to 1881 and have a focus on the attractive segment of clients with assets of \$3 million to \$15 million. We have a strong reputation in equity research and have an attractive niche position in middle-market banking and financial sponsor sectors. Oppenheimer is a leading market maker, making markets in over 550 stocks, with access to all international trading markets. Our full service boutique model positions us to compete for a broad range of business as the broader financial markets recover and retail and capital markets activity returns. Our independent and entrepreneurial culture is an advantage in recruiting financial advisors and other financial professionals. Our size allows us to adapt quickly in the changing market place and seek an attractive risk-adjusted return on capital, while being able to provide a full service offering. The loss of corporate independence by some of our competitors has improved our competitive position within middle market financial services and benefits our platforms for experienced financial advisors.

Diversified and Synergistic Business Model

We generate profits across three differentiated business segments. Our Private Client division earns revenues based on transaction volumes and assets under administration, our Asset Management division earns revenue based on assets under management and our Capital Markets division earns revenues based on transaction and trading volumes. The different drivers of revenues for the three divisions provides us with a diversified revenue stream. The Capital Markets division benefits from leads, distribution capabilities and brand recognition from the Private Client division, while providing additional opportunities for the Private Client division. The Asset Management division provides opportunities for us to monetize further fee streams from our Private Client division while providing more stable non-transactional revenues. Oppenheimer serves clients from 96 offices located in major cities and local communities in the United States, which limits our reliance on any one regional economy and provides clients with local high quality service with the benefits of a national full service business.

Proven Track Record of Profitable Growth with Attractive Future Prospects

We have a successful track-record of executing on both our organic and acquisition strategies. We have grown our revenues from \$283.3 million in 2002 to \$1,035.0 million in 2010, or 265.0%, organically and through acquisitions, including the 2003 acquisition of the U.S. Private Client and Asset Management Divisions of CIBC World Markets Corp. Our client assets under administration grew from \$17.8 billion in 2002 to \$73.2 billion in 2010, or 311.2%. Assuming the economy continues to recover, we are well positioned to benefit from the recovery of the broader financial services industry. We believe rebounding markets will likely increase trading activity by retail investors driving transactional revenues and increase asset values, which drive asset management fees. Increases in interest rates are expected to have a significant positive impact on the margin lending business and fees earned on cash products. We believe our Capital Markets division will also benefit from increasing activity in the financing and mergers and acquisitions markets. In addition, those financial services firms that survived the financial crisis will benefit from the greater stability and credibility provided by the recent regulatory reforms. We believe our strategic initiatives across our business segments, such as our application to become a New York Federal Reserve Primary Dealer and our investment in OMHMF, will provide new opportunities for growth. In addition we believe we have the business platform and meet the regulatory requirements to benefit from growth in international markets, particularly in Asia.

Table of Contents

Well Recognized Brand

We have an internationally recognized brand name. Our history dates back to 1881, successfully navigating two World Wars and numerous financial crises. We are in the top eight U.S. full service securities brokerage firms by the number of financial advisors and are able to leverage our name recognition across all our divisions to generate new client business. Our Private Client division supports our middle market banking efforts, while our well recognized equity research increases awareness across private client, capital markets and asset management clients.

Experienced Management Team

We have a strong and experienced senior management team with extensive securities industry experience and significant tenure of working together. Our top twelve senior managers have, on average, more than 13 years of experience at Oppenheimer and, on average, more than 24 years of overall industry experience.

Conservative Risk Position and Robust Risk Management Culture

We believe we maintain a conservative risk position with an average value at risk, or VaR, for the fiscal year 2010 of \$1.0 million and a year end VaR of \$1.4 million. Our assets consist primarily of cash and assets which can be readily converted into cash, to give us a strong liquidity position if it becomes necessary. We also have significant additional liquidity available through short-term funding sources such as bank loans, stock loans and repurchase agreements. We believe we have a robust risk management culture with a focus on managing market risk, credit risk, liquidity risk and operational risk. We have risk management policies and procedures overseen by our risk management committee, which is made up of many of our most senior officers. Oppenheimer seeks to manage its assets and the maturity profile of its obligations in order to be able to liquidate its assets prior to its obligations coming due, even in times of severe market dislocation. We seek to accomplish this by a strict balance sheet and regulatory capital management and staying focused on our core business. Oppenheimer had \$170.8 million in Regulatory Net Capital (pursuant to Rule 15c3-1 of the Exchange Act) and \$146.3 million of Regulatory Excess Net Capital as of December 31, 2010. Oppenheimer maintains Regulatory Net Capital in excess of \$150 million, the minimum amount required by the Federal Reserve Bank of New York for primary dealers.

Our Strategy

We have a number of strategic efforts in place to increase revenue and profitability in our Private Client, Asset Management and Capital Markets divisions. We continue to execute on our near-term strategies of new business and product development, streamlining our infrastructure, and investing in our technology. In the longer term, we plan to grow our business both organically and with opportunistic acquisitions within our areas of expertise, including branch acquisitions. We also see significant opportunities to expand our international operations in our Private Client and Capital Markets divisions.

Private Client. We intend to increase average production per financial advisor by leveraging the existing product platform through a greater percentage of our sales force, marketing and cross-selling our product offerings among our branch locations and enhancing our financial advisor technology. We will expand our sales force incrementally through efforts to recruit and retain top talent. We manage our recruitment costs and retention payments relative to competitors by taking advantage of our distinct culture and our favorable reputation with financial advisors frustrated with the large wire houses. We also intend to develop more products and services which target high net worth clients to attract new clients and leverage our existing relationships to increase our share of customer spending on financial services. We believe our earnings from this segment of our business will improve significantly in a higher interest rate environment.

Asset Management. Our clients have access to a team of specialists with expertise across many disciplines, from hedge funds to mutual funds, from domestic investments to offshore opportunities. We integrate traditional and non-traditional portfolios into a unified solution while offering ready access to the best managers in the investment management universe, both within and outside the firm. We intend to deepen and broaden our product offerings and penetration in asset management. One of our strategic advantages is our diligence process for identifying new asset managers and asset management strategies. Our diligence analysts are directly available for clients, which differentiates us from our competitors when working with

Table of Contents

high net worth individuals and family offices. We are also looking at additional opportunities to bring successful hedge fund and private equity investments to our clients. In addition, we are expanding our sales and marketing team in asset management in an effort to increase growth in client assets through new clients and increasing share of managed assets from existing clients.

Capital Markets. We intend to utilize our strong brand name to continue to develop our investment banking and research capabilities. Our institutional equities business is looking to grow through expansion of market share with existing clients by efficiently allocating resources across different products to focus on key targeted small to medium capitalization corporate clients. The increased penetration of institutional accounts will allow us to leverage our distribution capabilities. In investment banking, we intend to utilize our Private Client division for leads and continue to grow our middle-market banking and financial sponsor franchises, including our leveraged finance business. Longer term, we seek to increase our business footprint and reputation by hiring experienced bankers with diverse product and industry knowledge. In the taxable fixed income sector, we continue to expand our product line and selectively grow our recently established middle markets desk. We have also applied to be designated as a Primary Dealer with the U.S. Federal Reserve Bank of New York, which would give us access to bid directly in U.S. Treasury security auctions and provide new client service opportunities as more parties will be able to trade with us.

Furthermore, a broker-dealer that acquired any of its old notes directly from us:

may not rely on the applicable interpretations of the staff or the SEC's position contained in Exxon Capital Holdings Corp., SEC no-action letter (Apr. 13, 1988); Morgan Stanley & Co. Inc., SEC no-action letter (June 5, 1991); or Shearman & Sterling, SEC no-Action Letter (July 2, 1993); and

must also be named as a selling security holder in connection with the registration and prospectus delivery requirements of the Securities Act relating to any resale transaction.

Registration Rights Agreement

When the old notes were issued, we entered into a registration rights agreement with the initial purchasers of the old notes. Under the terms of the registration rights agreement, we agreed to use our commercially reasonable efforts to file with the SEC and cause to become effective, a registration statement relating to an offer to exchange the old notes for the new notes.

In the event that the exchange offer is not consummated within 360 days of the date of issuance of the old notes (i.e. by April 6, 2012), the interest rate borne by the old notes will be increased by 0.25% per annum for the first 90 days beginning after April 6, 2012, and 0.50% per annum thereafter.

Under some circumstances set forth in the registration rights agreement, holders of old notes, including holders who are not permitted to participate in the exchange offer or who may not freely sell new notes received in the exchange offer, may require us to file and cause to become effective, a shelf registration statement covering resales of the old notes by these holders.

A copy of the registration rights agreement is incorporated by reference as an exhibit to the registration statement of which this prospectus is a part. See Description of the New Notes Registration Rights and Additional Interest.

CONSEQUENCES OF NOT EXCHANGING OLD NOTES

If you do not exchange your old notes in the exchange offer, your old notes will continue to be subject to the restrictions on transfer described in the legend on the certificate for your old notes. In general, you may offer or sell your old notes only:

if they are registered under the Securities Act and applicable state securities laws;

if they are offered or sold under an exemption from registration under the Securities Act and applicable state securities laws; or

if they are offered or sold in a transaction not subject to the Securities Act and applicable state securities laws.

We do not currently intend to register the old notes under the Securities Act. Under some circumstances, however, holders of the old notes, including holders who are not permitted to participate in the exchange offer or who may not freely resell new notes received in the exchange offer, may require us to file, and to cause to become effective, a shelf registration statement covering resales of old notes by these holders. For more information regarding the consequences of not tendering your old notes and our obligation to file a shelf registration statement, see [The Exchange Offer](#) [Consequences of Exchanging or Failing to Exchange Old Notes](#).

Change in Control

Upon a change of control we may be required to make an offer to purchase the new notes. The purchase price will equal 101% of the principal amount of the new notes on the date of purchase, plus accrued and unpaid interest and additional interest, if any. We may not have sufficient funds available at the time of a change of control to make any required debt payment (including repurchases of the new notes).

Ranking

The new notes will be our general senior obligations and will rank effectively senior in right of payment to all unsecured and unsubordinated obligations of the Company or the relevant Subsidiary Guarantor, to the extent of the value of the collateral owned by the Company or such Subsidiary Guarantor (and, to the extent of any unsecured remainder after payment of the value of the collateral, rank equally in right of payment with such unsecured and unsubordinated indebtedness of the Company). The new notes will also rank senior in right of payment to any subordinated debt of the Company or such Subsidiary Guarantor. The new notes will be secured on a first-priority basis by the collateral, subject to certain exceptions and permitted liens and it is intended that pari passu lien indebtedness, if any, will be secured on an equal and ratable basis. The new notes will be effectively junior in right of payment to all existing and future indebtedness, claims of holders of preferred stock and other liabilities (including trade payables) of subsidiaries of the Company that are not guarantors, including all Regulated Subsidiaries (as defined below) and unrestricted subsidiaries.

As of March 31, 2011, on an as adjusted basis after giving effect to the sale of the new notes and the use of proceeds thereof, we would have had approximately \$200 million of senior debt, \$200 million of which was secured, and no subordinated debt

We currently derive the majority of our revenue from the operations of our Regulated Subsidiaries. As our obligations under the new notes are not guaranteed by our Regulated Subsidiaries, creditors of a Regulated Subsidiary, including trade creditors, customers, and preferred stockholders, if any, of such Regulated Subsidiary generally will have priority with respect to the assets and earnings of such Regulated Subsidiary over the claims of the holders. The new notes, therefore, will be effectively subordinated to the claims of creditors, including trade creditors, customers and preferred stockholders, if any, of our Regulated Subsidiaries. As of March 31, 2011, our Regulated Subsidiaries had \$2.6 billion outstanding in such liabilities.

Certain Covenants

The Company will agree to covenants that limit the ability of the Company and its restricted subsidiaries and, in certain limited cases, its Regulated Subsidiaries, among other things, to:

incur additional debt and issue preferred stock;

pay dividends, acquire shares of capital stock, make payments on subordinated debt or make investments;

place limitations on distributions from Regulated Subsidiaries or restricted subsidiaries;

issue guarantees;

sell or exchange assets;

enter into transactions with shareholders and affiliates;

create liens; and

effect mergers.

These covenants are subject to important exceptions and qualifications, which are described under the heading "Description of the new notes Covenants" in this prospectus. These exceptions and qualifications include, among other things, a variety of provisions that are intended to allow us to continue to conduct our brokerage operations in the ordinary course of business. In addition, if and for so long as the new notes have an investment grade debt rating from both Standard & Poor's, a division of The McGraw-Hill Companies, Inc. and Moody's Investors Service, Inc. and no default has occurred and is continuing under the indenture, we will not be subject to certain of the covenants listed above. See "Description of the new notes."

Pursuant to the indenture, the following covenants apply to us and our restricted subsidiaries, but generally do not apply, or apply only in part, to our Regulated Subsidiaries:

limitation on indebtedness and issuances of preferred stock, which restricts our ability to incur additional indebtedness or to issue preferred stock;

limitations on restricted payments, which generally restricts our ability to declare certain dividends or distributions or to make certain investments;

limitation on dividend and other payment restrictions affecting restricted subsidiaries or Regulated Subsidiaries, which generally prohibits restrictions on the ability of certain of our subsidiaries to pay dividends or make other transfers;

future Subsidiary Guarantors, which prohibits certain of our subsidiaries from guaranteeing our indebtedness or indebtedness of any restricted subsidiary unless the new notes are comparably guaranteed;

limitation on transactions with shareholders and affiliates, which generally requires transactions among our affiliated entities to be conducted on an arm's-length basis;

limitation on liens, which generally prohibits us and our restricted subsidiaries from granting liens unless the new notes are comparably secured; and

limitation on asset sales, which generally prohibits us and certain of our subsidiaries from selling assets or certain securities or property of significant subsidiaries.

Under certain circumstances, however, the covenants under Description of the new notes Covenants Limitation on indebtedness and issuances of preferred stock, Limitation on restricted payments, Limitation on dividend and other payment restrictions affecting restricted subsidiaries or regulated subsidiaries, Future

subsidiary guarantees, Limitation on transactions with shareholders and affiliates, and Limitation on asset sales may apply to our Regulated Subsidiaries, depending on the nature of the transaction in question, whether a Regulated Subsidiary is incurring any Indebtedness (as defined in the indenture) and a variety of other factors.

For purposes of the covenants, Regulated Subsidiaries refers to any direct or indirect subsidiary of the Company that is registered as (i) a broker dealer pursuant to Section 15 of the Exchange Act, (ii) a broker dealer or underwriter under any foreign securities law or (iii) a banking or insurance subsidiary regulated under state, federal or foreign laws. Restricted subsidiaries generally include any of our subsidiaries that are not Regulated Subsidiaries and that have not been designated by our board of directors as unrestricted.

As of March 31, 2011, our Regulated Subsidiaries represented 93% of our total assets. For the quarter ended March 31, 2011 and the year ended December 31, 2010, our Regulated Subsidiaries represented 90% and 90% of our total revenues, respectively, and 44% and 54% of our net income, respectively.

No Established Trading Market

The new notes generally will be freely transferable but will also be new securities for which there is no established market. Accordingly, a liquid market for the new notes may not develop or be maintained. We have not applied, and do not intend to apply, for the listing of the new notes on any exchange or automated dealer quotation system.

Risk Factors

Tendering your old notes in the exchange offer involves risks. You should carefully consider the information set forth in this prospectus and, in particular, should evaluate the specific factors set forth in the section entitled Risk Factors for an explanation of certain risks of investing in the new notes before tendering any old notes. For a description of risks related to our industry and business, you should also evaluate the specific risk factors set forth in the section entitled Risk Factors in our annual report on Form 10-K for the year ended December 31, 2010, which is incorporated herein by reference.

(1) Consolidated Adjusted EBITDA is a measure of operating performance that is not defined under GAAP. We define Consolidated Adjusted EBITDA as net profit (loss) attributable to Oppenheimer Holdings Inc. before interest expense, income taxes, depreciation expense and amortization expense, adjusted to exclude share-based compensation expense which is not settled in cash and other non-cash charges. Our definitions and calculations of Consolidated Adjusted EBITDA may differ from the Consolidated Adjusted EBITDA or analogous calculations of other companies in our industry, and may limit its usefulness as a comparative measure.

Consolidated Adjusted EBITDA has limitations as an analytical tool. Consolidated Adjusted EBITDA is not a measurement of net income (loss), and should not be considered as an alternative to net income (loss) as a measure of operating performance. Rather, Consolidated Adjusted EBITDA should be considered as supplementary information to our GAAP results, shown here in order to provide a more complete understanding of our operating performance.

We use Consolidated Adjusted EBITDA in a number of ways to assess our consolidated operating performance, and we believe this measure is helpful to management and investors in identifying trends in our operating results. We use Consolidated Adjusted EBITDA as a measure of our consolidated operating performance exclusive of income and expenses that relate to the financing, income taxes and capitalization of the business. We believe this metric measures our financial performance based on operational factors that management can impact in the short-term, namely the cost structure and expenses of the organization. In addition, Consolidated Adjusted EBITDA as used in this prospectus corresponds to the definition of Consolidated EBITDA that will be used in the indenture related to the notes.

(2) For the as adjusted calculation, the 2010 Consolidated Adjusted EBITDA represents historical Consolidated Adjusted EBITDA and has not been adjusted for the interest expense on long-term debt giving effect to this offering.

RISK FACTORS

Any investment in the notes involves a high degree of risk. You should consider carefully the following information about these risks, together with the other information contained or incorporated by reference in this prospectus, including risks contained in our most recent annual report on Form 10-K, any subsequent quarterly or annual reports on Form 10-Q or Form 10-K or any current reports on Form 8-K, before buying any of the notes. If any of the following risks actually occur, our business, financial condition, prospects, results of operations or cash flow could be materially and adversely affected. Additional risks or uncertainties not currently known to us, or that we currently deem immaterial, may also impair our business operations. We cannot assure you that any of the events discussed in the risk factors below will not occur. If any of such events does occur, you may lose all or part of your original investment in the notes.

Holders who Fail to Exchange their Old Notes will Continue to be Subject to Restrictions on Transfer.

If you do not exchange your old notes for new notes in the exchange offer, you will continue to be subject to the restrictions on transfer of your old notes described in the legend on the certificates for your old notes. The restrictions on transfer of your old notes arise because we issued the old notes under exemptions from, or in transactions not subject to, the registration requirements of the Securities Act and applicable state securities laws. In general, you may only offer or sell the old notes if they are registered under the Securities Act and applicable state securities laws, or offered and sold under an exemption from these requirements. We do not plan to register the old notes under the Securities Act. For further information regarding the consequences of tendering your old notes in the exchange offer, see the discussions below under the captions *The Exchange Offer*, *Consequences of Exchanging or Failing to Exchange Old Notes* and *Certain U.S. Federal Income Tax Considerations*.

You Must Comply with the Exchange Offer Procedures in Order to Receive New, Freely Tradable New Notes.

Delivery of new notes in exchange for old notes tendered and accepted for exchange pursuant to the exchange offer will be made only after timely receipt by the exchange agent of the following:

certificates for old notes or a book-entry confirmation of a book-entry transfer of old notes into the Exchange Agent's account at DTC, New York, New York as depository, including an Agent's Message (as defined herein) if the tendering holder does not deliver a letter of transmittal;

a completed and signed letter of transmittal (or facsimile thereof), with any required signature guarantees, or an Agent's Message in lieu of the letter of transmittal; and

any other documents required by the letter of transmittal.

Therefore, holders of old notes who would like to tender old notes in exchange for new notes should be sure to allow enough time for the old notes to be delivered on time. We are not required to notify you of defects or irregularities in tenders of old notes for exchange. Old notes that are not tendered or that are tendered but we do not accept for exchange will, following consummation of the exchange offer, continue to be subject to the existing transfer restrictions under the Securities Act and, upon consummation of the exchange offer, certain registration and other rights under the registration rights agreement will terminate. *See* *The Exchange Offer*, *Procedures for Tendering Old Notes* and *The Exchange Offer*, *Consequences of Exchanging or Failing to Exchange Old Notes*.

Some Holders who Exchange their Old Notes May be Deemed to be Underwriters and These Holders will be Required to Comply with the Registration and Prospectus Delivery Requirements in Connection with Any Resale Transaction.

If you exchange your old notes in the exchange offer for the purpose of participating in a distribution of the new notes, you may be deemed to have received restricted securities and, if so, will be required to comply with the registration and prospectus delivery requirements of the Securities Act in connection with any resale transaction.

Table of Contents

Your Ability to Transfer the Notes may be Limited by the Absence of an Active Trading Market, and There is no Assurance That any Active Trading Market Will Develop for the Notes.

The notes are new issues of securities for which there is no established public market. We do not intend to have the notes listed on a national securities exchange or included in any automated quotation system.

The initial purchasers advised us that Morgan Stanley & Co. Incorporated currently intends to make a market in the notes and Oppenheimer & Co. Inc. may make a market in the notes, each as permitted by applicable laws and regulations. However, the initial purchasers are not obligated to do so, and they may discontinue any market-making activities with respect to the notes at any time without notice. Oppenheimer & Co. Inc. agreed not to make a market in the notes so long as the notes constitute restricted securities under Rule 144 under the Securities Act. The liquidity of any market for the notes will depend upon the number of holders of the notes, our performance, the market for similar securities, the interest of securities dealers in making a market in the notes and other factors. If a market develops, the notes could trade at prices that may be lower than the initial offering price of the notes. If an active market does not develop or is not maintained, the price and liquidity of the notes may be adversely affected. Historically, the market for non-investment grade debt has been subject to disruptions that have caused substantial volatility in the prices of securities similar to the notes. The market, if any, for any of the notes may not be free from similar disruptions and any such disruptions may adversely affect the prices at which you may sell your notes. In addition, subsequent to their initial issuance, the notes may trade at a discount from their initial offering price, depending upon prevailing interest rates, the market for similar notes, our performance and other factors.

Certain of Our Subsidiaries, Which Generate Substantially all of Our Revenues and Own Substantially all of Our Assets, are not subject to Many of the Restrictive Covenants in the Indenture Governing the Notes.

Certain of our subsidiaries (which will be defined in the indenture as the Regulated Subsidiaries) including, among others, Oppenheimer & Co. Inc., and Freedom Investments Inc., are generally not subject to the restrictive covenants in the indenture that place limitations on our actions, and where they are subject to covenants there are numerous exceptions and limitations. As of March 31, 2011, our Regulated Subsidiaries represented 93% of our total assets. For the quarter ended March 31, 2011 and the year ended December 31, 2010, our Regulated Subsidiaries represented 90% and 90% of our total revenues, respectively, and 44% and 54% of our net income, respectively. The indenture does not restrict our Regulated Subsidiaries from incurring debt, which would be structurally senior to the notes. Our Regulated Subsidiaries are also not subject to restrictions relating to making investments and are generally not subject to the restrictions on the sale of assets. The incurrence of debt, the sale of assets or the making of investments, without, or with limited, indenture restrictions, by our Regulated Subsidiaries may impair our ability to make payments on principal and interest on the notes.

Our Regulated Subsidiaries are subject to regulation by U.S. Federal and state regulatory agencies and securities exchanges and by various non-U.S. governmental agencies or regulatory bodies and securities exchanges, each of which has been charged with the protection of the financial markets and seek to protect the interests of our broker-dealer clients. Such regulations may not serve, and you should not rely on them, to protect your interests as a holder of the notes. Depending on these circumstances, these regulations may prevent our Regulated Subsidiaries from paying dividends or other distributions to us without which we cannot make payments of interest or principal on the notes.

We Depend Almost Entirely on the Cash Flow From Our Regulated Subsidiaries to Meet Our Obligations, and Your Right to Receive Payment on the Notes Will be Structurally Subordinate to the Obligations of These Subsidiaries.

Our Regulated Subsidiaries are separate and distinct legal entities with no obligation to pay any amounts due pursuant to the notes or to provide us with funds for our payment obligations. Our cash flow and our ability to service our debt, including the notes, will depend in part on the earnings of our Regulated Subsidiaries and on the distribution of earnings, loans or other payments to us by these subsidiaries. Our Regulated Subsidiaries represented substantially all of our revenues and more than a majority of our net income in 2010. As of March 31, 2011, our Regulated Subsidiaries represented substantially all of our assets. In addition, the ability of our Regulated

Table of Contents

Subsidiaries to make any dividend, distribution, loan or other payment to us could be subject to statutory or contractual restrictions. Oppenheimer & Co. Inc. and Freedom Investments, Inc. both require permission from the Financial Industry Regulatory Authority prior to declaring dividends. Payments to us by these subsidiaries will also be contingent upon their earnings and their business considerations. Because we may depend in part on the cash flow of these subsidiaries to meet our obligations, these types of restrictions may impair our ability to make scheduled interest and principal payments on the notes.

If the Company is Unable to Repay its Outstanding Indebtedness When Due, its Operations May be Materially, Adversely Affected.

At March 31, 2011, the Company had liabilities of approximately \$2.6 billion, a significant portion of which is collateralized by highly liquid and marketable government securities as well as marketable securities owned by customers. The Company cannot assure that its operations will generate funds sufficient to repay its existing debt obligations as they come due. The Company's failure to repay its indebtedness and make interest payments as required by its debt obligations could have a material adverse effect on its results of operations and financial condition, including the acceleration of the payment of the debt.

We May not be Able to Generate Sufficient Cash to Service the Notes or Our Other Indebtedness, and May be Forced to Take Other Actions to Satisfy Our Obligations Under Our Indebtedness, Which May not be Successful.

Our ability to make scheduled payments on or to refinance our debt obligations depends on our financial condition and operating performance, which is subject to prevailing economic and competitive conditions and to certain financial, business and other factors beyond our control. We may not be able to maintain a level of cash flows from operating activities sufficient to permit us to pay the principal, premium, if any, and interest on the notes or our other indebtedness.

If our cash flows and capital resources are insufficient to fund our debt service obligations, we may be forced to reduce or delay investments and capital expenditures, or to sell assets, seek additional capital or restructure or refinance the notes or our other indebtedness. Our ability to restructure or refinance our debt will depend on the condition of the capital markets and our financial condition at such time. Any refinancing of our debt could be at higher interest rates and may require us to comply with more onerous covenants, which could further restrict our business operations. The terms of the indenture governing the notes and existing or future debt instruments may restrict us from adopting some of these alternatives. These alternative measures may not be successful and may not permit us to meet our scheduled debt service obligations.

Our Debt Agreements Will Contain Restrictions that Will Limit Our Flexibility in Operating Our Business.

The indenture governing the notes will contain various covenants that will limit the ability of the Company and its restricted subsidiaries and, in certain limited cases, its Regulated Subsidiaries, among other things, to:

incur additional indebtedness;

pay dividends on, repurchase or make distributions in respect of our capital stock or make other restricted payments;

make certain investments;

sell certain assets;

create liens;

consolidate, merge, sell or otherwise dispose of all or substantially all of our assets; and

enter into certain transactions with our affiliates.

As a result of the covenants and restrictions contained in the indenture, we are limited in how we conduct our business and we may be unable to raise additional debt or equity financing to compete effectively or to take

Table of Contents

advantage of new business opportunities. The terms of any future indebtedness we may incur could include more restrictive covenants and may further limit our ability to enter into certain types of transactions.

We cannot assure you that we will be able to remain in compliance with these covenants in the future and, if we fail to do so, that we will be able to obtain waivers from the appropriate parties and/or amend the covenants.

The Value of the Collateral Securing the Notes and the Note Guarantees May not be Sufficient to Satisfy Our Obligations Under the Notes and the Note Guarantees.

No appraisal of the value of the collateral has been made in connection with the offering of the notes, and the fair market value of the collateral is subject to fluctuations based on factors that include general economic conditions and similar factors. The book value of the collateral should not be relied on as a measure of realizable value for such assets. In addition, the indenture allows us to incur additional secured debt, including under certain circumstances secured debt that is intended to share in the collateral that will secure the notes and the note guarantees. The amount to be received upon a sale of the collateral would be dependent on numerous factors, including the actual fair market value of the collateral at such time, the timing and the manner of the sale and the availability of buyers. Portions of the collateral may become illiquid and may have no readily ascertainable market value. Likewise, we cannot assure holders of the notes that the collateral will be saleable or, if saleable, that there will not be substantial delays in its liquidation. In the event of a foreclosure, liquidation, bankruptcy or similar proceeding, the value of the collateral and the amount that may be received upon a sale of collateral will depend upon many factors including, among others, the condition of the collateral and our industry, the ability to sell the collateral in an orderly sale, market and economic conditions, the availability of buyers and other factors. In addition, courts could limit recoverability with respect to the collateral if they deem a portion of the interest claim usurious in violation of applicable public policy. Accordingly, in the event of a foreclosure, liquidation, bankruptcy or similar proceeding, the collateral may not be sold in a timely or orderly manner, and the proceeds from any sale or liquidation of the collateral may not be sufficient to satisfy our obligations under the notes, the note guarantees and any future debt that is secured by the collateral.

In addition, under the terms of the indenture governing the notes we also will be permitted in the future to incur additional indebtedness and other obligations that may share in the liens on the collateral securing the notes. Any additional obligations secured by a lien on the collateral (whether senior to or equal with the lien of the notes) will dilute the value of the collateral.

We cannot assure holders of the notes that the proceeds of any sale of the collateral following an acceleration of maturity with respect to the notes would be sufficient to satisfy, or would not be substantially less than, amounts due on the notes and the other debt secured thereby. If the proceeds of any sale of the collateral were not sufficient to repay all amounts due on the notes, holders of the notes (to the extent their notes were not repaid from the proceeds of the sale of the collateral) would have only an unsecured claim against the remaining assets of the Company and the Subsidiary Guarantors.

To the extent that liens, rights and easements granted to or obtained by third parties encumber assets located on property owned by us or constitute subordinate liens on the collateral, those third parties may have or may exercise rights and remedies with respect to the property subject to such encumbrances (including rights to require marshalling of assets) that could adversely affect the value of such collateral and the ability of the collateral agent to realize or foreclose on such collateral.

The Imposition of Certain Permitted Liens Could Adversely Affect the Value of the Collateral.

The collateral securing the notes will be subject to liens permitted under the terms of the indenture governing the notes, whether arising prior to or on or after the date the notes are issued. The existence of any permitted liens could

adversely affect the value of the collateral securing the notes as well as the ability of the collateral agent to realize or foreclose on such collateral. The collateral that will secure the notes may also secure future indebtedness and other obligations of the Company and the Subsidiary Guarantors to the extent permitted by the indenture and the security documents. Your rights to the collateral would be diluted by any increase in the indebtedness secured by this collateral.

Table of Contents***There are Certain Categories of Property that are Excluded From the Collateral.***

Certain categories of assets are excluded from the collateral securing the notes and the note guarantees. Excluded assets include certain items of property, including without limitation items as to which a security interest cannot be granted without violating contract rights or applicable law, certain equity interests of our first-tier foreign subsidiaries, capital stock of certain of our subsidiaries, certain promissory notes or other instruments payable by certain of our subsidiaries, foreign intellectual property and assets outside the United States to the extent a lien on such assets cannot be perfected by the filing of Uniform Commercial Code financing statements, certain applications for trademarks or service marks filed in the United States Patent and Trademark Office, deposit and securities accounts which consist of certain withheld income taxes, federal, state or local employment taxes, or amounts required to be paid over to an employee benefit plan pursuant to applicable law, all segregated deposit accounts constituting tax accounts, payroll accounts and trust accounts, cash and cash equivalents maintained in certain accounts of a Subsidiary Guarantor that is an investment advisor, deposit and securities accounts, to the extent the aggregate value of assets therein does not exceed a certain amount, motor vehicles and other similar assets in which a lien may be perfected only through compliance with a non-UCC certificate of title statute, letter of credit rights and commercial tort claims, equipment leased by us or our subsidiaries under a lease that does not permit the granting of a lien on such equipment, any leasehold improvements to the extent that the grant of security interest therein would violate the related lease, assets subject to a purchase money lien, capitalized lease obligation or similar arrangement, in each case to the extent the agreement governing such lease, obligation or arrangement prohibits such assets from being used as collateral, capital stock of or equity interest in any person other than wholly-owned subsidiaries to the extent not permitted by the terms of such person's organizational documents, any property and assets the pledge of which would require governmental consent, approval, license or authorization, Excluded Real Property (as defined in Description of the new notes Definitions), proceeds and any products in the aforementioned (to the extent such proceeds or products would constitute excluded assets described above), and certain other items agreed to by the parties and as more fully set forth in the security documents. See Description of the new notes included elsewhere in this prospectus. In addition, the assets of our broker-dealer and certain of our other subsidiaries will not be part of the collateral securing the notes and note guarantees. If an event of default occurs and the notes are accelerated, the notes and the note guarantees will rank equally with the holders of other unsubordinated and unsecured indebtedness of the relevant entity with respect to such excluded property.

To the extent that the claims of the holders of the notes and the holders of the other indebtedness and obligations secured by the collateral exceed the value of the assets securing the notes and such other indebtedness and obligations, those claims will rank equally with the claims of the holders of unsecured and unsubordinated creditors. As a result, if such proceeds were not sufficient to repay amounts outstanding under the notes, then holders of the notes (to the extent not repaid from the proceeds of the sale of the collateral) would only have an unsecured claim against our remaining assets.

The Notes will be Structurally Subordinated to Claims of Creditors of Non-Guarantor Subsidiaries.

The notes will be structurally subordinated to indebtedness and other liabilities of subsidiaries that are not guarantors under the notes including our Regulated Subsidiaries. Our non-guarantor subsidiaries had, before intercompany eliminations, \$2.8 billion of total liabilities, including trade payables and \$3.1 billion of total assets as of March 31, 2011, and had operating revenue, before intercompany eliminations, of \$254.0 million and \$1.0 billion for the quarter ended March 31, 2011 and the year ended December 31, 2010, respectively. Any right that we or the Subsidiary Guarantors have to receive any assets of any of the non-guarantor subsidiaries upon the liquidation or reorganization of those subsidiaries, and the consequent rights of holders of the notes to realize proceeds from the sale of any of those subsidiaries' assets, will be effectively subordinated to the claims of those subsidiaries' creditors, including trade creditors and holders of preferred equity interests of those subsidiaries. Accordingly, in the event of a bankruptcy, liquidation or reorganization of any future non-guarantor subsidiaries, such non-guarantor subsidiaries will pay the

holders of their debts, holders of their preferred equity interests and their trade creditors before they will be able to distribute any of their assets to us.

Because Each Subsidiary Guarantor's Liability Under its Note Guarantee May be Reduced to Zero, Avoided or Released Under Certain Circumstances, You May not Receive Any Payments From Some or all of the Subsidiary Guarantors.

Although you have the benefit of the note guarantees, a note guarantee is limited to the maximum amount that the applicable Subsidiary Guarantor is permitted to guarantee under applicable law. As a result, a Subsidiary Guarantor's liability under its note guarantee could be reduced to zero, depending upon the amount of other obligations of such Subsidiary Guarantor. Further, under the circumstances discussed more fully below, a court under federal and state fraudulent conveyance and transfer statutes could void the obligations under a note guarantee or further subordinate it to all other obligations of the Subsidiary Guarantor. *See* Federal and state fraudulent transfer laws may permit a court to void the notes and the note guarantees, subordinate claims in respect of the notes and any guarantees and require noteholders to return payments received and, if that occurs, you may not receive any payments on the notes included elsewhere in this prospectus. In addition, you will lose the benefit of a particular note guarantee if it is released under certain circumstances described under Description of the new notes Use and Release of Collateral .

There May not be Sufficient Collateral to Pay all or Any of the Notes, Especially if We Incur Additional Secured Indebtedness as Permitted Under the Notes, Which Will Dilute the Value of the Collateral Securing the Notes.

Under the terms of the indenture governing the notes we also will be permitted in the future to incur additional indebtedness and other obligations that may share in the liens on the collateral securing the notes. Any additional obligations secured by a lien on the collateral (whether senior to or equal with the lien of the notes) will dilute the value of the collateral.

The proceeds from the sale of all such collateral may not be sufficient to satisfy the amounts outstanding under the notes and all other indebtedness and obligations secured by such liens. If such proceeds were not sufficient to repay amounts outstanding under the notes, then holders of the notes (to the extent not repaid from the proceeds of the sale of the collateral) would only have an unsecured claim against our remaining assets.

You May Have Limited Rights to Enforce Remedies Under the Security Documents, and the Collateral may be Released Without Your Consent in Certain Circumstances.

If we issue additional pari passu lien indebtedness, subject to our compliance with the restrictive covenants in the indenture governing the notes at the time we issue such additional senior secured indebtedness, the collateral agent will enter into an intercreditor agreement with the collateral agent for the holders of such additional pari passu lien indebtedness. Under the terms of the intercreditor agreement, the collateral agent will pursue remedies and take other action related to the collateral, including the release thereof, pursuant to the direction of the authorized representative for the holders of the largest class of outstanding obligations secured by liens on the collateral, including the notes. There can be no assurance that the notes will always represent the largest class of obligations secured by liens on the collateral. Accordingly, note holders may not always have the right to control the remedies and the taking of other actions related to the collateral.

In addition, all collateral sold or otherwise disposed of in accordance with the terms of the documents governing the pari passu lien obligations will automatically be released from the lien securing the notes and the lien securing the other pari passu lien obligations. Accordingly, any such sale or other disposition in a transaction that does not violate the asset disposition covenant of the indenture governing the notes may result in a release of the collateral subject to such sale or disposition. *See* Description of the new notes Limitation on asset sales.

Under the intercreditor agreement, the collateral agent may not object following the filing of a bankruptcy petition to any debtor-in-possession financing or to the use of the collateral to secure that financing, subject to conditions and

limited exceptions, if at such time the notes are not the largest class of outstanding obligations secured by liens on the collateral. After such a filing, the value of the collateral could materially deteriorate, and the note holders would be unable to raise an objection.

Table of Contents

Rights of Holders of the Notes in the Collateral may be Adversely Affected by the Failure to Perfect Security Interests in Collateral.

Applicable law requires that a security interest in certain tangible and intangible assets can only be properly perfected and its priority retained through certain actions undertaken by the secured party. The liens on the collateral securing the notes and the note guarantees may not be perfected with respect to the claims of the notes and the note guarantees if the collateral agent is not able to take the actions necessary to perfect any of these liens on or prior to the date of the indenture.

The Company and the Subsidiary Guarantors have limited obligations to perfect the security interest for the benefit of the holders of the notes in specified collateral. There can be no assurance that the trustee or the collateral agent for the notes will monitor, or that we will inform such trustee or collateral agent of, the future acquisition of assets and rights that constitute collateral, and that the necessary action will be taken to properly perfect the security interest in such after-acquired collateral. Neither the trustee nor the collateral agent for the notes has an obligation to monitor the acquisition of additional assets or rights that constitute collateral or the perfection of any security interest. Such failure to monitor may result in the loss of the security interest in the collateral or the priority of the security interest in favor of the notes and the note guarantees against third parties.

Security Over Certain Collateral May not be in Place by the Closing Date of this Offering or May not be Perfected on the Closing Date of this Offering, Which Means that the Notes Will not be Secured to that Extent.

Certain recordations, notices, filings and other actions to create, perfect or protect the priority of the liens securing the notes and the note guarantees will be taken subsequent to the issuance of the notes. Any delay in such recordations, notices, filings and other actions increase the risk that the liens could be voided or subject to the liens of intervening creditors. To the extent any security interest in the collateral securing the notes cannot be perfected or a valid lien created with respect thereto on or prior to the closing date, we will be required to have all such security interests perfected and/or valid liens created, to the extent required by the indenture and the security documents, promptly following the closing date, but in any event no later than 60 days after such date and no later than 90 days after such date for deposit accounts. We cannot assure you that we will be able to perfect and/or create a valid lien with respect to any such security interests on or prior to that date, and our failure to do so may result in a default under the indenture. To the extent a security interest in any of the collateral is created or perfected following the issuance date of the notes, the security interest would remain at risk of being voided as a preferential transfer by a trustee in bankruptcy or being subject to the liens of intervening creditors.

We May not be Able to Repurchase the Notes Upon a Change of Control.

Upon the occurrence of specific kinds of change of control events, we will be required to offer to repurchase all outstanding notes at 101% of their principal amount plus accrued and unpaid interest. The source of funds for any such purchase of the notes will be our available cash or cash generated from our and our subsidiaries' operations or other sources, including borrowings, sales of assets or sales of equity. We may not be able to repurchase the notes upon a change of control because we may not have sufficient financial resources to purchase all of the notes that are tendered upon a change of control. Accordingly, we may not be able to satisfy our obligations to purchase the notes unless we are able to obtain financing. Our failure to repurchase the notes upon a change of control would cause a default under the indenture governing the notes.

In addition, the change of control provisions in the indenture may not protect you from certain important corporate events, such as a leveraged recapitalization (which would increase the level of our indebtedness), reorganization, restructuring, merger or other similar transaction, unless such transaction constitutes a Change of Control under the indenture. Such a transaction may not involve a change in voting power or beneficial ownership or, even if it does,

may not involve a change that constitutes a **Change of Control** as defined in the indenture that would trigger our obligation to repurchase the notes. Therefore, if an event occurs that does not constitute a **Change of Control** as defined in the indenture, we will not be required to make an offer to repurchase the notes and you may be required to continue to hold your notes despite the event. *See* **Description of the new notes** **Repurchase of the Notes upon a Change of Control** .

Table of Contents

In the Event of a Bankruptcy of the Company or any of the Subsidiary Guarantors, Holders of the Notes May be Deemed to Have an Unsecured Claim to the Extent that Obligations in Respect of the Notes Exceed the Fair Market Value of the Collateral Securing the Notes.

In any bankruptcy case under Title 11 of the United States Code, as amended, or the Bankruptcy Code, with respect to the Company or any of the Subsidiary Guarantors, it is possible that the bankruptcy trustee, the debtor-in-possession or competing creditors will assert that the value of the collateral with respect to the notes on the date of such valuation is less than the then-current principal amount of the notes and all other obligations with equal and ratable security interests in the collateral. Upon a finding by the bankruptcy court that the notes are under-collateralized, the claims in the bankruptcy case with respect to the notes would be bifurcated between a secured claim and an unsecured claim, and the unsecured claim would not be entitled to the benefits of security in the collateral. Other consequences of a finding of under-collateralization would be, among other things, a lack of entitlement on the part of the notes to receive post-petition interest and a lack of entitlement on the part of the unsecured portion of the notes to receive adequate protection under the Bankruptcy Code. In addition, if any payments of post-petition interest had been made prior to the time of such a finding of under-collateralization, those payments could be recharacterized by the bankruptcy court as a reduction of the principal amount of the secured claim with respect to the notes.

Bankruptcy Laws May Limit the Ability of Holders of the Notes to Realize Value From the Collateral.

The right of the collateral agent to repossess and dispose of the collateral upon the occurrence of an event of default under the indenture is likely to be significantly impaired by applicable bankruptcy law if a bankruptcy case were to be commenced by or against the Company or any of the Subsidiary Guarantors before the collateral agent repossessed and disposed of the collateral. For example, under the Bankruptcy Code, pursuant to the automatic stay imposed upon the bankruptcy filing, a secured creditor is prohibited from repossessing its collateral from a debtor in a bankruptcy case, or from disposing of collateral repossessed from such debtor, or taking other actions to levy against a debtor, without bankruptcy court approval after notice and a hearing. Moreover, the Bankruptcy Code permits the debtor to continue to retain and to use collateral even though the debtor is in default under the applicable debt instruments, provided that the secured creditor is given adequate protection. The meaning of the term adequate protection is undefined in the Bankruptcy Code and may vary according to circumstances (and is within the discretion of the bankruptcy court), but it is intended in general to protect the secured creditor's interest in the collateral from diminishing in value during the pending of the bankruptcy case and may include periodic payments or the granting of additional security, if and at such times as the court in its discretion determines, for any diminution in the value of the collateral as a result of the automatic stay or any use of the collateral by the debtor during the pendency of the bankruptcy case. A bankruptcy court could conclude that the secured creditor's interest in its collateral is adequately protected against any diminution in value during the bankruptcy case without the need of providing any additional adequate protection. Due to the imposition of the automatic stay, the lack of a precise definition of the term adequate protection and the broad discretionary powers of a bankruptcy court, it is impossible to predict (i) how long payments under the notes could be delayed, or, if made at all, following commencement of a bankruptcy case, (ii) whether or when the collateral agent could repossess or dispose of the collateral or (iii) whether or to what extent holders of the notes would be compensated for any delay in payment or loss of value of the collateral through the requirement of adequate protection. The note holders may receive in exchange for their claims a recovery that could be substantially less than the amount of their claims (potentially even nothing) and any such recovery could be in the form of cash, new debt instruments or some other security.

In addition to the limitations described above, the collateral agent's ability to exercise remedies with respect to the collateral on behalf of the note holders may also be challenged on the basis of the collateral agent's security interest not being perfected (or in the case of equity interests in foreign subsidiaries or their obligations, if any, included in the collateral, on grounds that such security interests are not created or perfected in accordance with applicable foreign law), the consent of third parties, contractual restrictions, priority issues, state law requirements and practical

problems associated with the realization of the collateral agent's security interest in the collateral securing the notes, including cure rights, foreclosing on the collateral within the time periods permitted by third parties or prescribed by laws, statutory rights of redemption and the effect of the order of foreclosure. For example, the collateral agent may need to obtain the consent of a third party to obtain or enforce a security interest in a

Table of Contents

contract. We cannot assure you that the collateral agent will be able to obtain any such consent, transfer or maintain in effect any such contracts. Accordingly, the collateral agent may not have the ability to foreclose upon those assets and the value of the collateral may significantly decrease.

Any Future Pledge of Collateral or Guarantee in Favor of the Holders of the Notes Might be Voidable in Bankruptcy.

Any future pledge of collateral or guarantee in favor of the holders of the notes might be voidable (that is, cancelled) in a bankruptcy case of the pledgor or Subsidiary Guarantor if certain events or circumstances exist or occur, including, under the Bankruptcy Code, if the pledgor or Subsidiary Guarantor is insolvent at the time of the pledge or guarantee, the pledge or guarantee enables the holders of the notes to receive more than they would if the pledge or guarantee had not been made and the debtor were liquidated under chapter 7 of the Bankruptcy Code, and a bankruptcy case in respect of the pledgor is commenced within 90 days following the pledge (or one year before commencement of a bankruptcy case if the creditor that benefited from the lien or guarantee is an insider under the Bankruptcy Code).

The Notes Could be Wholly or Partially Voided as a Preferential transfer.

If we become the subject of a bankruptcy proceeding within 90 days after the date of the indenture (or, with respect to any insiders specified in bankruptcy law who are holders of the notes, within one year after we issue the notes), and the court determines that we were insolvent at the time of the closing (under the preference laws, we would be presumed to have been insolvent on and during the 90 days immediately preceding the date of filing of any bankruptcy petition), the court could find that the incurrence of the obligations under the notes involved a preferential transfer. In addition, to the extent that certain of our collateral is not perfected until after closing, such 90-day preferential transfer period would begin on the date of perfection. If the court determined that the granting of the security interest was therefore a preferential transfer, which did not qualify for any defense under bankruptcy law, then holders of the notes would be unsecured creditors with claims that ranked pari passu with all other unsecured creditors of the applicable obligor, including trade creditors. In addition, under such circumstances, the value of any consideration holders received pursuant to the notes, including upon foreclosure of the collateral securing the notes and the note guarantees, could also be subject to recovery from such holders and possibly from subsequent assignees, or such holders might be returned to the same position they held as holders of the notes.

Federal and State Fraudulent Transfer Laws May Permit a Court to Void the Notes and the Note Guarantees, Subordinate Claims in Respect of the Notes and Any Guarantees and Require Noteholders to Return Payments Received and, if That Occurs, You May not Receive any Payments on the Notes.

Federal and state fraudulent transfer and conveyance statutes may apply to the issuance of the notes, the incurrence of any guarantees of the notes entered into upon issuance of the notes and subsidiary guarantees that may be entered into thereafter under the terms of the indenture governing the notes and the granting of liens to secure the notes and the guarantees. Under federal bankruptcy law and comparable provisions of state fraudulent transfer or conveyance laws, which may vary from state to state, the notes, any guarantee or any of the liens securing the notes and the guarantees could be voided as a fraudulent transfer or conveyance if (1) we or any of the guarantors, as applicable, issued the notes, incurred its guarantee or granted the liens with the intent of hindering, delaying or defrauding creditors or (2) we or any of the guarantors, as applicable, received less than reasonably equivalent value or fair consideration in return for issuing the notes, incurring its guarantee or granting the liens and, in the case of (2) only, one of the following is also true at the time thereof:

we or any of the guarantors, as applicable, were insolvent or rendered insolvent by reason of the issuance of the notes or the incurrence of the guarantees;

the issuance of the notes or the incurrence of the guarantees left us or any of the guarantors, as applicable, with an unreasonably small amount of capital to carry on the business; or

we or any of the guarantors intended to, or believed that we or such guarantor would, incur debts beyond our or such guarantor's ability to pay such debts as they mature.

Table of Contents

A court would likely find that we or a guarantor did not receive reasonably equivalent value or fair consideration for the notes or such guarantee if we or such guarantor did not substantially benefit directly or indirectly from the issuance of the notes or the applicable guarantee. As a general matter, value is given for a transfer or an obligation if, in exchange for the transfer or obligation, property is transferred or new or antecedent debt is secured or satisfied.

We cannot be certain as to the standards a court would use to determine whether or not we or the guarantors were solvent at the relevant time or, regardless of the standard that a court uses, that the issuance of the guarantees would not be further subordinated to our or any of our guarantors' other debt. Generally, however, an entity would be considered solvent if, at the time it incurred indebtedness:

the sum of its debts, including contingent liabilities, was greater than the fair saleable value of all its assets; or

the present fair saleable value of its assets was less than the amount that would be required to pay its probable liability on its existing debts, including contingent liabilities, as they become absolute and mature; or

it could not pay its debts as they become due.

If a court were to find that the issuance of the notes or the incurrence of the guarantee was a fraudulent transfer or conveyance, the court could void the payment obligations under the notes or such guarantee or subordinate the notes or such guarantee to presently existing and future indebtedness of ours or of the related guarantor, or require the holders of the notes to repay any amounts received with respect to such guarantee. In addition, the court may avoid and set aside the liens securing the collateral. In the event of a finding that a fraudulent transfer or conveyance occurred, you may not receive any repayment on the notes.

Although each guarantee entered into by a subsidiary will contain a provision intended to limit that guarantor's liability to the maximum amount that it could incur without causing the incurrence of obligations under its guarantee to be a fraudulent transfer, this provision may not be effective to protect those guarantees from being voided under fraudulent transfer law, or may reduce that guarantor's obligation to an amount that effectively makes its guarantee worthless.

A Lowering or Withdrawal of the Ratings Assigned to Our Debt Securities by Rating Agencies May Increase Our Future Borrowing Costs and Reduce Our Access to Capital.

Our debt currently has a non-investment grade rating, and there can be no assurance that any rating assigned by the rating agencies will remain for any given period of time or that a rating will not be lowered or withdrawn entirely by a rating agency if, in that rating agency's judgment, future circumstances relating to the basis of the rating, such as adverse changes, so warrant. A lowering or withdrawal of the ratings assigned to our debt securities by rating agencies may increase our future borrowing costs and reduce our access to capital, which could have a material adverse impact on our financial condition and results of operations.

The Market Price for the Notes May be Volatile.

Historically, the market for noninvestment grade debt has been subject to disruptions that have caused substantial fluctuations in the price of the securities. Even if a trading market for the notes develops, it may be subject to disruptions and price volatility. Any disruptions may have a negative effect on note holders, regardless of our prospects and financial performance.

An Increase in Market Interest Rates Could Result in a Decrease in the Value of the Notes.

In general, the market value of already outstanding debt instruments similar to the notes bearing interest at a fixed rate will decline if and as market interest rates for similar instruments of issuers generally rise. Consequently, if you purchase the notes and market interest rates increase, the market value of your notes may decline. We cannot predict the future level of market interest rates.

Table of Contents

Certain Covenants Contained in the Indenture Will not be Applicable During Any Period in Which the Notes are Rated Investment Grade.

The indenture governing the notes will provide that certain covenants will not apply to us during any period in which the notes are rated investment grade by either Standard & Poor's or Moody's and no default has otherwise occurred and is continuing under the indenture. The covenants that would be suspended include, among others, restrictions on our ability to pay dividends, incur indebtedness, sell certain assets, enter into transactions with affiliates and to enter into certain other transactions. Any actions that we take while these covenants are not in force will be permitted even if the notes are subsequently downgraded below investment grade and such covenants are subsequently reinstated. There can be no assurance that the notes will ever be rated investment grade, or that if they are rated investment grade, the notes will maintain such ratings. Holders of notes will have no recourse against us or any other parties in the event of a change in or suspension or withdrawal of such ratings. Any lowering, suspension or withdrawal of such ratings may have an adverse effect on the market price or marketability of the notes.

Table of Contents**RATIO OF EARNINGS TO FIXED CHARGES**

We present below our ratio of earnings to fixed charges, which is computed by dividing earnings, which is the sum of profit (loss) before income taxes and fixed charges, by fixed charges. Fixed charges represent interest expense, amortization of debt issuance costs, and an appropriate portion of rentals representative of the interest factor.

	Three Months Ended March 31, 2011	2010	Year Ended December 31,			
			2009	2008	2007	2006
			(Dollars in millions)			
Profit (Loss) Before Income Taxes	\$ 9,829	\$ 70,766	\$ 34,813	\$ (36,043)	\$ 127,394	\$ 80,450
Add Fixed Charges:						
Interest Expense(1)	7,774	25,914	21,050	38,998	56,643	62,867
Amortization of Debt Issuance Costs	92	643	1,164	1,227	1,218	352
Appropriate Portion of Rentals Representative of the Interest Factor(2)	3,971	16,793	16,853	15,687	11,036	11,090
Total Fixed Charges	11,837	43,450	39,067	55,912	68,897	74,309
Earnings	21,666	114,116	73,880	19,869	196,291	154,759
Ratio of Earnings to Fixed Charges(3)	1.8	2.6	1.9		2.8	2.1

(1) Includes interest expenses on short-term borrowings including bank call loans, securities lending, and repurchase agreements which generally have a corresponding asset that generates interest income that substantially offsets or exceeds the aforementioned interest expense.

(2) The percent of rent included in the computation is a reasonable approximation of the interest factor.

(3) Due to the Company's pre-tax loss in the year ended December 31, 2008 the ratio coverage was less than 1:1 in this period. The Company would have needed to generate additional earnings of \$36 million to achieve a coverage of 1:1.

Any old notes not accepted for exchange for any reason will be returned without expense to the tendering holder as promptly as practicable after the expiration or termination of the exchange offer.

Old notes tendered in the exchange offer must be in denominations of principal amount of \$2,000 and integral multiples of \$1,000.

We expressly reserve the right to amend or terminate the exchange offer, and not to accept for exchange any old notes, upon the occurrence of any of the conditions of the exchange offer specified under **Conditions to the exchange offer**. We will give oral or written notice of any extension, amendment, non-acceptance or termination to the holders of the old notes as promptly as practicable. Such notice, in the case of any extension, will be issued by means of a press release or other public announcement no later than 9:00 a.m., New York City time, on the next business day after the previously scheduled expiration date.

Procedures for Tendering Old Notes

The tender to us of old notes by you as set forth below and our acceptance of the old notes will constitute a binding agreement between us and you upon the terms and subject to the conditions set forth in this prospectus and in the accompanying letter of transmittal. Except as set forth below, to tender old notes for exchange pursuant to the exchange offer, you must transmit a properly completed and duly executed letter of transmittal, including all other documents required by such letter of transmittal or, in the case of a book-entry transfer, an agent's message in lieu of such letter of transmittal, to The Bank of New York Mellon Trust Company, N.A., as exchange agent, at the address set forth below under **Exchange Agent** on or prior to the expiration date. In addition, either:

certificates for such old notes must be received by the exchange agent along with the letter of transmittal; or

a timely confirmation of a book-entry transfer (a *book-entry confirmation*) of such old notes, if such procedure is available, into the exchange agent's account at DTC pursuant to the procedure for book-entry transfer must be received by the exchange agent, prior to the expiration date, with the letter of transmittal or an agent's message in lieu of such letter of transmittal.

The term *agent s message* means a message, transmitted by DTC to and received by the exchange agent and forming a part of a book-entry confirmation, which states that DTC has received an express acknowledgment from the tendering participant stating that such participant has received and agrees to be bound by the letter of transmittal and that we may enforce such letter of transmittal against such participant.

The method of delivery of old notes, letters of transmittal and all other required documents is at your election and risk. If such delivery is by mail, it is recommended that you use registered mail, properly insured, with return receipt requested. In all cases, you should allow sufficient time to assure timely delivery. No letter of transmittal or old notes should be sent to us.

Table of Contents

Signatures on a letter of transmittal or a notice of withdrawal, as the case may be, must be guaranteed unless the old notes surrendered for exchange are tendered:

by a holder of the old notes who has not completed the box entitled **Special Issuance Instructions** or **Special Delivery Instructions** on the letter of transmittal, or

for the account of an eligible institution (as defined below).

In the event that signatures on a letter of transmittal or a notice of withdrawal are required to be guaranteed, such guarantees must be by a firm which is a member of the Securities Transfer Agent Medallion Program, the Stock Exchanges Medallion Program or the New York Stock Exchange Medallion Program (each such entity being hereinafter referred to as an **eligible institution**). If old notes are registered in the name of a person other than the signer of the letter of transmittal, the old notes surrendered for exchange must be endorsed by, or be accompanied by a written instrument or instruments of transfer or exchange, in satisfactory form as we or the exchange agent determine in our sole discretion, duly executed by the registered holders with the signature thereon guaranteed by an eligible institution.

We or the exchange agent in our sole discretion will make a final and binding determination on all questions as to the validity, form, eligibility (including time of receipt) and acceptance of old notes tendered for exchange. We reserve the absolute right to reject any and all tenders of any particular old note not properly tendered or to not accept any particular old note which acceptance might, in our judgment or our counsel's, be unlawful. We also reserve the absolute right to waive any defects or irregularities or conditions of the exchange offer as to any particular old note either before or after the expiration date (including the right to waive the ineligibility of any holder who seeks to tender old notes in the exchange offer). Our or the exchange agent's interpretation of the term and conditions of the exchange offer as to any particular old note either before or after the expiration date (including the letter of transmittal and the instructions thereto) will be final and binding on all parties. Unless waived, any defects or irregularities in connection with tenders of old notes for exchange must be cured within a reasonable period of time, as we determine. We are not, nor is the exchange agent or any other person, under any duty to notify you of any defect or irregularity with respect to your tender of old notes for exchange, and no one will be liable for failing to provide such notification.

If the letter of transmittal is signed by a person or persons other than the registered holder or holders of old notes, such old notes must be endorsed or accompanied by powers of attorney signed exactly as the name(s) of the registered holder(s) that appear on the old notes and the signatures must be guaranteed by an eligible institution.

If the letter of transmittal or any old notes or powers of attorney are signed by trustees, executors, administrators, guardians, attorneys-in-fact, officers of corporations or others acting in a fiduciary or representative capacity, such persons should so indicate when signing. Unless waived by us or the exchange agent, proper evidence satisfactory to us of their authority to so act must be submitted with the letter of transmittal.

By tendering old notes, you represent to us that, among other things, the new notes acquired pursuant to the exchange offer are being obtained in the ordinary course of business of the person receiving such new notes, whether or not such person is the holder, that neither the holder nor such other person has any arrangement or understanding with any person, to participate in the distribution of the new notes, and that you are not holding old notes that have, or are reasonably likely to have, the status of an unsold allotment in the initial offering. If you are our affiliate, as defined under Rule 405 under the Securities Act, and engage in or intend to engage in or have an arrangement or understanding with any person to participate in a distribution of such new notes to be acquired pursuant to the exchange offer, you or any such other person:

cannot rely on the applicable interpretations of the staff of the SEC; and

must comply with the registration and prospectus delivery requirements of the Securities Act in connection with any resale transaction.

Each broker-dealer that receives new notes for its own account in exchange for old notes, where such old notes were acquired by such broker-dealer as a result of market-making activities or other trading activities, must acknowledge that it will deliver a prospectus in connection with any resale of such new notes. *See* Plan of

Table of Contents

Distribution. The letter of transmittal states that by so acknowledging and by delivering a prospectus, a broker-dealer will not be deemed to admit that it is an underwriter within the meaning of the Securities Act.

Furthermore, any broker-dealer that acquired any of its old notes directly from us:

may not rely on the applicable interpretation of the staff of the SEC contained in Exxon Capital Holdings Corp., SEC no-action letter (Apr. 13, 1988), Morgan, Stanley & Co. Inc., SEC no-action letter (June 5, 1991) and Shearman & Sterling, SEC no-action letter (July 2, 1993); and

must also be named as a selling security holder in connection with the registration and prospectus delivery requirements of the Securities Act relating to any resale transaction.

Acceptance of Old Notes for Exchange; Delivery of New Notes

Upon satisfaction or waiver of all of the conditions to the exchange offer, we will accept, promptly after the expiration date, all old notes properly tendered and will issue the new notes promptly after acceptance of the old notes. *See*

Conditions to the Exchange Offer. For purposes of the exchange offer, we will be deemed to have accepted properly tendered old notes for exchange if and when we give oral (confirmed in writing) or written notice to the exchange agent.

The holder of each old note accepted for exchange will receive a new note in the amount equal to the surrendered old note. Holders of new notes on the relevant record date for the first interest payment date following the consummation of the exchange offer will receive interest accruing from the most recent date to which interest has been paid on the old notes. Holders of new notes will not receive any payment in respect of accrued interest on old notes otherwise payable on any interest payment date, the record date for which occurs on or after the consummation of the exchange offer.

In all cases, issuance of new notes for old notes that are accepted for exchange will be made only after timely receipt by the exchange agent of:

a timely book-entry confirmation of such old notes into the exchange agent's account at DTC,

a properly completed and duly executed letter of transmittal or an agent's message in lieu thereof, and

all other required documents.

If any tendered old notes are not accepted for any reason set forth in the terms and conditions of the exchange offer or if old notes are submitted for a greater principal amount than the holder desires to exchange, such unaccepted or non-exchanged old notes will be returned without expense to the tendering holder (or, in the case of old notes tendered by book entry transfer into the exchange agent's account at DTC pursuant to the book-entry procedures described below, such non-exchanged old notes will be credited to an account maintained with DTC as promptly as practicable after the expiration or termination of the exchange offer.

Book-Entry Transfers

For purposes of the exchange offer, the exchange agent will request that an account be established with respect to the old notes at DTC within two business days after the date of this prospectus, unless the exchange agent has already established an account with DTC suitable for the exchange offer. Any financial institution that is a participant in DTC may make book-entry delivery of old notes by causing DTC to transfer such old notes into the exchange agent's

account at DTC in accordance with DTC's procedures for transfer. Although delivery of old notes may be effected through book-entry transfer at DTC, the letter of transmittal or facsimile thereof or an agent's message in lieu thereof, with any required signature guarantees and any other required documents, must, in any case, be transmitted to and received by the exchange agent at the address set forth under "Exchange Agent" on or prior to the expiration date.

Table of Contents

Withdrawal Rights

You may withdraw your tender of old notes at any time prior to the expiration date. To be effective, a written notice of withdrawal must be received by the exchange agent at one of the addresses set forth under Exchange Agent. This notice must specify:

the name of the person having tendered the old notes to be withdrawn,

the old notes to be withdrawn (including the principal amount of such old notes), and

where certificates for old notes have been transmitted, the name in which such old notes are registered, if different from that of the withdrawing holder.

If certificates for old notes have been delivered or otherwise identified to the exchange agent, then, prior to the release of such certificates, the withdrawing holder must also submit the serial numbers of the particular certificates to be withdrawn and a signed notice of withdrawal with signatures guaranteed by an eligible institution, unless such holder is an eligible institution. If old notes have been tendered pursuant to the procedure for book-entry transfer described above, any notice of withdrawal must specify the name and number of the account at DTC to be credited with the withdrawn old notes and otherwise comply with the procedures of DTC.

We or the exchange agent will make a final and binding determination on all questions as to the validity, form and eligibility (including time of receipt) of such notices. Any old notes so withdrawn will be deemed not to have been validly tendered for exchange for purposes of the exchange offer. Any old notes tendered for exchange but not exchanged for any reason will be returned to the holder without cost to such holder (or, in the case of old notes tendered by book-entry transfer into the exchange agent's account at DTC pursuant to the book-entry transfer procedures described above, such old notes will be credited to an account maintained with DTC for the old notes as soon as practicable after withdrawal, rejection of tender or termination of the exchange offer. Properly withdrawn old notes may be retendered by following one of the procedures described under Procedures for Tendering Old Notes above at any time on or prior to the expiration date.

Conditions to the Exchange Offer

Notwithstanding any other provision of the exchange offer, we are not required to accept for exchange, or to issue new notes in exchange for, any old notes and may terminate or amend the exchange offer, if any of the following events occur prior to acceptance of such old notes:

the exchange offer violates any applicable law or applicable interpretation of the staff of the SEC; or

there is threatened, instituted or pending any action or proceeding before, or any injunction, order or decree has been issued by, any court or governmental agency or other governmental regulatory or administrative agency or commission,

seeking to restrain or prohibit the making or consummation of the exchange offer or any other transaction contemplated by the exchange offer, or assessing or seeking any damages as a result thereof, or

resulting in a material delay in our ability to accept for exchange or exchange some or all of the old notes pursuant to the exchange offer,

or any statute, rule, regulation, order or injunction has been sought, proposed, introduced, enacted, promulgated or deemed applicable to the exchange offer or any of the transactions contemplated by the exchange offer by any government or governmental authority, domestic or foreign, or any action has been taken, proposed or threatened, by any government, governmental authority, agency or court, domestic or foreign, that in our sole judgment might, directly or indirectly, result in any of the consequences referred to in clauses (1) or (2) above or, in our reasonable judgment, might result in the holders of new notes having obligations with respect to resales and transfers of new notes which are greater than those described in the interpretation of the SEC referred to on the cover page of this prospectus, or would otherwise make it inadvisable to proceed with the exchange offer; or

Table of Contents

there has occurred:

any general suspension of or general limitation on prices for, or trading in, our securities on any national securities exchange or in the over-the-counter market,

any limitation by a governmental agency or authority which may adversely affect our ability to complete the transactions contemplated by the exchange offer,

a declaration of a banking moratorium or any suspension of payments in respect of banks in the United States or any limitation by any governmental agency or authority which adversely affects the extension of credit, or

a commencement of a war, armed hostilities or other similar international calamity directly or indirectly involving the United States, or, in the case of any of the foregoing existing at the time of the commencement of the exchange offer, a material acceleration or worsening thereof;

which in our reasonable judgment in any case, and regardless of the circumstances (including any action by us) giving rise to any such condition, makes it inadvisable to proceed with the exchange offer and/or with such acceptance for exchange or with such exchange.

The foregoing conditions are for our sole benefit and may be asserted by us regardless of the circumstances giving rise to any condition or may be waived by us in whole or in part at any time in our reasonable discretion. Our failure at any time to exercise any of the foregoing rights will not be deemed a waiver of any such right and each such right will be deemed an ongoing right which may be asserted at any time.

In addition, we will not accept for exchange any old notes tendered, and no new notes will be issued in exchange for any such old notes, if at such time any stop order is threatened or in effect with respect to the Registration Statement, of which this prospectus constitutes a part, or the qualification of the indenture under the Trust Indenture Act.

Fees and Expenses

The principal solicitation is being made by mail by The Bank of New York Mellon Trust Company, N.A., as exchange agent. We will pay the exchange agent customary fees for its services, reimburse the exchange agent for its reasonable out-of-pocket expenses incurred in connection with the provision of these services and pay other registration expenses, including fees and expenses of the trustee under the indenture relating to the new notes, filing fees, blue sky fees and printing and distribution expenses. We will not make any payment to brokers, dealers or others soliciting acceptances of the exchange offer.

Additional solicitation may be made by telephone, facsimile or in person by our and our affiliates' officers and regular employees and by persons so engaged by the exchange agent.

Accounting Treatment

We will record the new notes at the same carrying value as the old notes, as reflected in our accounting records on the date of the exchange. Accordingly, we will not recognize any gain or loss for accounting purposes. The expenses of the exchange offer will be amortized over the term of the new notes.

Transfer Taxes

Holders who tender their old notes for exchange will not be obligated to pay any related transfer taxes, except that holders who instruct us to register new notes in the name of, or request that old notes not tendered or not accepted in the exchange offer be returned to, a person other than the registered tendering holder will be responsible for the payment of any applicable transfer taxes.

Consequences of Exchanging or Failing to Exchange Old Notes

If you do not exchange your old notes for new notes in the exchange offer, your old notes will continue to be subject to the provisions of the indenture relating to the notes regarding transfer and exchange of the old notes and the restrictions on transfer of the old notes described in the legend on your certificates. These transfer restrictions are required because the old notes were issued under an exemption from, or in transactions not subject to, the registration requirements of the Securities Act and applicable state securities laws. In general, the old notes may not be offered or sold unless registered under the Securities Act, except under an exemption from, or in a transaction not subject to, the Securities Act and applicable state securities laws. We do not plan to register the old notes under the Securities Act. Based on interpretations by the staff of the SEC, as set forth in no-action letters issued to third parties, we believe that the new notes you receive in the exchange offer may be offered for resale, resold or otherwise transferred without compliance with the registration and prospectus delivery provisions of the Securities Act. However, you will not be able to freely transfer the new notes if:

you are our affiliate, as defined in Rule 405 under the Securities Act,

you are not acquiring the new notes in the exchange offer in the ordinary course of your business,

you have an arrangement or understanding with any person to participate in the distribution, as defined in the Securities Act, of the new notes you will receive in the exchange offer,

you are holding old notes that have, or are reasonably likely to have, the status of an unsold allotment in the initial offering, or

you are a participating broker-dealer.

We do not intend to request the SEC to consider, and the SEC has not considered, the exchange offer in the context of a similar no-action letter. As a result, we cannot guarantee that the staff of the SEC would make a similar determination with respect to the exchange offer as in the circumstances described in the no action letters discussed

Table of Contents

above. Each holder, other than a broker-dealer, must acknowledge that it is not engaged in, and does not intend to engage in, a distribution of new notes and has no arrangement or understanding to participate in a distribution of new notes. If you are our affiliate, are engaged in or intend to engage in a distribution of the new notes or have any arrangement or understanding with respect to the distribution of the new notes you will receive in the exchange offer, you may not rely on the applicable interpretations of the staff of the SEC and you must comply with the registration and prospectus delivery requirements of the Securities Act in connection with any resale transaction involving the new notes. If you are a participating broker-dealer, you must acknowledge that you will deliver a prospectus in connection with any resale of the new notes. In addition, to comply with state securities laws, you may not offer or sell the new notes in any state unless they have been registered or qualified for sale in that state or an exemption from registration or qualification is available and is complied with. The offer and sale of the new notes to qualified institutional buyers (as defined in Rule 144A of the Securities Act) is generally exempt from registration or qualification under state securities laws. We do not plan to register or qualify the sale of the new notes in any state where an exemption from registration or qualification is required and not available.

DESCRIPTION OF THE NEW NOTES

We will issue the new notes under the indenture, dated as of April 12, 2011 (the **Indenture**) among us, as issuer, the Subsidiary Guarantors party thereto and The Bank of New York Mellon Trust Company, N.A., as trustee (in such capacity, the **Trustee**), and as collateral agent (in such capacity, the **Collateral Agent**). This is the same Indenture under which the old notes were issued. The form and terms of the new notes are identical in all material respects to those of the old notes, except that the transfer restrictions and registration rights relating to the old notes do not apply to the new notes.

The following is a summary of certain of the material provisions of the Indenture, the Registration Rights Agreement and the Security Documents but does not restate such documents in their entirety. We urge you to read the Indenture, the Registration Rights Agreement and the Security Documents because they, and not this description, define your rights as holders of the notes (the **Holders**). We will provide you with copies of the Indenture and the Security Documents upon request. Copies of the Registration Rights Agreement referred to herein are available as described in Registration Rights; Additional Interest. The terms of the notes include those stated in the Indenture and the Security Documents and those made part of the Indenture by reference to the Trust Indenture Act of 1939, as amended (the **TIA**). For purposes of this Description of the new notes, the terms we, us , our or the Company means Oppen Holdings, Inc. and its successors under the Indenture, in each case excluding its subsidiaries.

Certain of our subsidiaries, which we refer to as our Regulated Subsidiaries, are not subject to all of the restrictive covenants in the Indenture which place limitations on our actions, and where they are subject to covenants, there are numerous exceptions and limitations. As of March 31, 2011, Regulated Subsidiaries represented 93% of our total assets. For the quarter ended March 31, 2011 and the year ended December 31, 2010, Regulated Subsidiaries represented 90% and 90% of our total revenues, respectively, and 44% and 54% of our net income, respectively.

General

The notes will be our senior secured obligations, initially limited to \$200,000,000 aggregate principal amount. The notes will mature on April 15, 2018. Subject to the covenants described below under Covenants and applicable law, the Company may issue additional notes (**Additional Notes**) under the Indenture. References to notes means the notes initially issued and any Additional Notes *provided* that the Company Incurred such Additional Notes in compliance with the covenant described under the caption Covenants Limitation on Indebtedness and Issuances of Preferred Stock below. The notes offered hereby, the old notes and any Additional Notes are treated as a single class for all purposes under the Indenture; *provided* that if the Additional Notes are not fungible with the notes and any exchange notes for U.S. federal income tax purposes, the Additional Notes will have a separate CUSIP number.

Interest on the notes will accrue, from the Closing Date, at the rate per annum shown on the cover page hereof and will be payable semiannually in cash on each April 15 and October 15, commencing October 15, 2011. We will make interest payments on the notes to the persons who are registered holders at the close of business on the April 1 and October 1 immediately preceding the applicable interest payment date. Interest on the notes will accrue from the most recent date on which interest on the notes was paid or, if no interest has been paid, from and including the date on which the notes were originally issued. Interest will be computed on the basis of a 360-day year of twelve 30-day months. We will be required to pay Additional Interest in those circumstances described in Registration Rights; Additional Interest.

Table of Contents**Optional Redemption**

We may redeem the notes at any time on or after April 15, 2014. The redemption price for the notes (expressed as a percentage of principal amount), will be as follows, plus accrued interest and Additional Interest (if any) to, but not including, the redemption date:

If Redeemed During the 12-Month Period Commencing April 15,	Redemption Price
2014	106.563%
2015	104.375%
2016	102.188%
2017 and thereafter	100.000%

In addition, prior to April 15, 2014, the Company may redeem the notes at its option, in whole at any time or in part from time to time, at a redemption price equal to 100% of the principal amount of the notes redeemed plus the Applicable Premium as of, and accrued and unpaid interest and Additional Interest (if any) to, but not including, the applicable redemption date.

In addition, at any time prior to April 15, 2014, we may redeem up to 35% of the principal amount of the notes with the Net Cash Proceeds of one or more sales of our Capital Stock (other than Disqualified Stock) at a redemption price of 108.75% of their principal amount, plus accrued interest and Additional Interest (if any) to, but not including, the redemption date; *provided* that at least 65% of the original aggregate principal amount of notes (calculated after giving effect to any issuance of Additional Notes) remains outstanding after each such redemption and notice of any such redemption is mailed within 90 days of each such sale of Capital Stock.

We will give not less than 30 days nor more than 90 days notice of any redemption. If less than all of the notes are to be redeemed, selection of the notes for redemption will be made by the Trustee:

in compliance with the requirements of the principal national securities exchange, if any, on which the notes are listed, or

if the notes are not listed on a national securities exchange, by lot or by such other method as the Trustee in its sole discretion shall deem to be fair and appropriate.

However, no note of \$2,000 in principal amount or less shall be redeemed in part. If any note is to be redeemed in part only, the notice of redemption relating to such note will state the portion of the principal amount to be redeemed. A new note in principal amount equal to the unredeemed portion will be issued upon cancellation of the original note.

Ranking

The payment of the principal of, premium, if any, and interest and Additional Interest on the notes and the payment of any Subsidiary Guarantee will:

rank effectively senior in right of payment to all unsecured and unsubordinated obligations of the Company or the relevant Subsidiary Guarantor, to the extent of the value of the Collateral owned by the Company or such Subsidiary Guarantor (and, to the extent of any unsecured remainder after payment of the value of the Collateral, rank equally in right of payment with such unsecured and unsubordinated Indebtedness of the Company);

be secured on a first-priority basis by the Collateral, subject to certain Permitted Liens and it is intended that Pari Passu Lien Indebtedness will be secured on an equal and ratable basis;

rank senior in right of payment to any subordinated debt of the Company or such Subsidiary Guarantor; and

rank effectively junior in right of payment to all existing and future indebtedness, claims of holders of Preferred Stock and other liabilities (including trade payables) of Subsidiaries of the Company that are not guarantors, including all Regulated Subsidiaries and Unrestricted Subsidiaries.

Table of Contents

As of March 31, 2011, on an as adjusted basis after giving effect to the sale of the old notes and the use of proceeds therefrom, we would have had approximately \$200 million of senior debt, \$200 million of which was secured, and no subordinated debt. Although the Indenture contains limitations on the amount of additional Indebtedness and secured Indebtedness that the Company and its Restricted Subsidiaries may incur, the amount of additional Indebtedness, including secured Indebtedness, could be substantial. In addition, the Company and its Restricted Subsidiaries may, subject to certain conditions, incur Indebtedness (including Additional Notes) in addition to the notes that is entitled to be secured by the Collateral on a ratable basis with the notes. See Limitation on Indebtedness and Issuances of Preferred Stock.

We currently derive the majority of our revenue from the operations of our Regulated Subsidiaries. As our obligations under the notes are not guaranteed by our Regulated Subsidiaries, creditors of a Regulated Subsidiary, including trade creditors, customers, and preferred stockholders, if any, of such Regulated Subsidiary generally will have priority with respect to the assets and earnings of such Regulated Subsidiary over the claims of the Holders.

The notes, therefore, will be effectively subordinated to the claims of creditors, including trade creditors, customers and preferred stockholders, if any, of our Regulated Subsidiaries. As of March 31, 2011, our Regulated Subsidiaries had \$2.6 billion outstanding in such liabilities.

The Indenture will not treat (1) unsecured Indebtedness as subordinated or junior to Secured Indebtedness merely because it is unsecured, (2) Indebtedness as subordinated or junior to any other Indebtedness merely because it has a junior priority with respect to the same collateral or (3) Indebtedness that is not guaranteed as subordinated or junior to Indebtedness that is guaranteed merely because of such guarantee.

Subsidiary Guarantees

The Subsidiary Guarantors will, jointly and severally, fully and unconditionally guarantee, on a senior secured basis, the Company's obligations under the notes and the Indenture (each such guarantee, a **Subsidiary Guarantee**). Each Subsidiary Guarantee will be secured on a first-priority basis, subject to Permitted Liens, together with all other Pari Passu Lien Indebtedness of the Subsidiary Guarantors, by the Collateral owned by such Subsidiary Guarantor to the extent set forth under Security. The obligations of each Subsidiary Guarantor under its Subsidiary Guarantee will include a limitation intended to prevent that Subsidiary Guarantee from constituting a fraudulent conveyance or fraudulent transfer under applicable law. It is uncertain, however, whether such provisions would be effective to prevent the Subsidiary Guarantees from constituting a fraudulent conveyance or fraudulent transfer under applicable law. See Risk factors Risk related to the Notes Under certain circumstances a court could cancel the notes or the related guarantees and the security interests that secure the notes and any Subsidiary Guarantees under fraudulent conveyance laws. Most of the Company's Subsidiaries will not Guarantee the notes including, without limitation, Regulated Subsidiaries. As of and for the quarter ended March 31, 2011, the Company's Subsidiaries that will not Guarantee the notes represented 97% of our total assets. For the quarter ended March 31, 2011 and for the year ended December 31, 2010, the Company's Subsidiaries that will not Guarantee the notes represented, before intercompany eliminations, 100% and 100% our revenue, respectively.

Each Subsidiary Guarantee by a Subsidiary Guarantor under the Indenture and the obligations of such Subsidiary Guarantor under the Security Agreement and other Security Documents to which it is a party, will be automatically and unconditionally released and discharged upon:

(i) any sale, exchange or transfer (by merger or otherwise) of the Capital Stock of such Subsidiary Guarantor, following which such Subsidiary Guarantor ceases to be a direct or indirect Subsidiary of the Company if such sale or disposition either does not constitute an Asset Sale or does constitute an Asset Sale effected in compliance with the

covenants set forth under Limitation on Asset Sales and Consolidation, Merger and Sale of Assets ;

(ii) if such Subsidiary Guarantor is dissolved or liquidated;

(iii) the designation of any Restricted Subsidiary that is a Subsidiary Guarantor as an Unrestricted Subsidiary in compliance with the applicable provisions of the Indenture; or

Table of Contents

(iv) the exercise by the Company of its legal defeasance option or covenant defeasance option as described under Defeasance or the discharge of the Company's obligations under the Indenture in accordance with the terms of the Indenture.

Security

The obligations of the Company with respect to the notes and the obligations of the Subsidiary Guarantors under the Subsidiary Guarantees will be secured by a first-priority security interest, subject to Permitted Liens, in substantially all of the Company's and the Subsidiary Guarantors' existing and future tangible and intangible assets, including (without limitation):

(a) 100% of the Capital Stock of or Equity Interests in direct Domestic Subsidiaries owned by the Company and the Subsidiary Guarantors and 65% of the voting stock and 100% of the non-voting stock of direct Subsidiaries that are not Domestic Subsidiaries owned by the Company and the Subsidiary Guarantors;

(b) accounts;

(c) equipment, goods, inventory and fixtures;

(d) documents, instruments and chattel paper;

(e) investment property;

(f) general intangibles (including intellectual property);

(g) deposit accounts;

(h) money;

(i) supporting obligations;

(j) books and records;

(k) present and future real estate (other than any leased real property and any owned real property having a purchase price of less than \$5.0 million (**Excluded Real Property**)); and

(l) proceeds of each of the foregoing (collectively, the **Collateral**).

Notwithstanding the foregoing, the Collateral will not include any of the following assets (collectively, the **Excluded Property**):

(1) any asset or property right of the Company or any Subsidiary Guarantor of any nature:

(a) if the grant of a security interest shall constitute or result in (i) the abandonment, invalidation or unenforceability of such asset or property right or the Company or any Subsidiary Guarantor loss of use of such asset or property right or (ii) a breach, termination or default under any lease, license, contract, property right, permit or agreement (other than to the extent that any such term would be rendered ineffective pursuant to Sections 9-406, 9-407, 9-408 or 9-409 of the Uniform Commercial Code (or any successor provision or provisions) of any relevant jurisdiction or any other applicable law (including the U.S. Bankruptcy Code) or principles of equity) to which the Company or such

Subsidiary Guarantor is party;

(b) to the extent that any applicable law or regulation prohibits the creation of a security interest thereon (other than to the extent that any such term would be rendered ineffective pursuant to Sections 9-406, 9-407, 9-408 or 9-409 of the UCC (or any successor provision or provisions) of any relevant jurisdiction or any other applicable law or principles of equity);

(2) Equity Interests of each class of voting equity interests issued by any first-tier Subsidiary that is not a Domestic Subsidiary in excess of 65% of such class of voting Equity Interests issued by such first-tier Subsidiary and all the Equity Interests in Oppenheimer Cooperative U.A., an entity formed under the laws of the Netherlands;

- (3) Capital Stock of (i) Oppenheimer Trust Company, a corporation formed under the laws of New Jersey and Oppenheimer Cooperative U.A., an entity formed under the laws of the Netherlands, (ii) any Foreign Subsidiary that is not a first-tier Foreign Subsidiary and (iii) in the case of Capital Stock of any Subsidiary, only to the extent that the value thereof, together with the value of all promissory notes or other instruments payable by such Subsidiary constituting Collateral, equals 20% or more of the notes plus the principal amount at maturity of any other collateral permitted to be taken into consideration in determining whether separate financial information with respect to the issuer thereof would be required to be filed pursuant to Rule 3-16 of Regulation S-X;
- (4) promissory notes or other instruments payable by any Subsidiary, to the extent that the value thereof, together with the value of all Capital Stock of such Subsidiary constituting Collateral, equals 20% or more of the notes plus the principal amount at maturity of any other collateral permitted to be taken into consideration in determining whether separate financial information with respect to the issuer thereof would be required to be filed pursuant to Rule 3-16 of Regulation S-X;
- (5) any foreign intellectual property and any assets located outside the United States to the extent a Lien on such assets cannot be perfected by the filing of Uniform Commercial Code financing statements;
- (6) any applications for trademarks or service marks filed in the United States Patent and Trademark Office (the **PTO**) pursuant to 15 U.S.C. § 1051 Section 1(b) unless and until evidence of use of the mark in interstate commerce is submitted to the PTO pursuant to 15 U.S.C. § 1051 Section 1(c) or Section 1(d);
- (7) (i) deposit and securities accounts the balance of which consists exclusively of (a) withheld income taxes and federal, state or local employment taxes in such amounts as are required to be paid to the IRS or state or local government agencies within the following two months with respect to employees of the Company or any of the Subsidiary Guarantors, and (b) amounts required to be paid over to an employee benefit plan pursuant to DOL Reg. Sec. 2510.3-102 on behalf of or for the benefit of employees of the Company or any Subsidiary Guarantor, and (ii) all segregated deposit accounts constituting (and the balance of which consists solely of funds set aside in connection with) tax accounts, payroll accounts and trust accounts;
- (8) cash and Cash Equivalents maintained in any account of any Subsidiary Guarantor that is an investment adviser registered under the Investment Advisers Act of 1940 so long as such account is maintained to satisfy qualified professional asset manager requirements under ERISA;
- (9) deposit and securities accounts to the extent the aggregate value of assets therein does not exceed \$2.0 million;
- (10) motor vehicles and other similar assets in which a Lien may be perfected only through compliance with a non-UCC certificate of title statute of any state of the United States of America or the District of Columbia, letter of credit rights and commercial tort claims;
- (11) equipment leased by the Company or any of its Subsidiaries under a lease that prohibits the granting of a Lien on such equipment;
- (12) any leasehold improvements to the extent that the grant of a security interest therein would violate the related lease;
- (13) assets subject to a purchase money lien, capitalized lease obligation or similar arrangement, in each case as permitted by the Indenture, to the extent that the contract or other agreement in which such Lien is granted (or the documentation providing for such capitalized lease obligation or similar arrangement) prohibits such assets from being Collateral and only for so long as such Lien remains outstanding;

(14) capital stock of or Equity Interests in any Person other than Wholly Owned Subsidiaries to the extent not permitted by the terms of such Person's organizational documents;

(15) any property and assets the pledge of which would require governmental consent, approval, license or authorization;

(16) Excluded Real Property; and

(17) proceeds and products of any and all of the foregoing excluded assets described in clauses (1) through (16) above only to the extent such proceeds and products would constitute property or assets of the type described in clauses (1) through (16) above.

Certain security interests in the Collateral will not be in place on the date of the issuance of the new notes or will not be perfected on the date of the issuance of the new notes. The Company and the Subsidiary Guarantors will use commercially reasonable efforts to perfect the security interests in the Collateral for the benefit of the holders of the notes that are created on the date of the issuance of the new notes, but to the extent any such security interest cannot be perfected by such date, the Company and the Subsidiary Guarantors will agree to do or cause to be done all acts and things that may be reasonably required to have all security interests in the Collateral duly created and enforceable and perfected, to the extent required by the Security Documents, promptly following the date of the issuance of the new notes, but in any event no later than 60 days thereafter (or 90 days thereafter in the case of perfecting security interests in deposit accounts).

It is intended that the obligations of the Company and the Subsidiary Guarantors under the Additional Notes and other Permitted Pari Passu Lien Obligations will be secured on an equal and ratable basis with the obligations of the Company with respect to the notes and the obligations of the Subsidiary Guarantors under the Subsidiary Guarantees by a first-priority security interest, subject to Permitted Liens, in the Collateral. The respective rights in respect of the Collateral of the Collateral Agent, the Trustee, the holders, any Pari Passu Debt Collateral Agent and the other Pari Passu Secured Parties will be subject to the terms of the Intercreditor Agreement.

The Equity Interests or intercompany note of a Restricted Subsidiary that are included in the Collateral will constitute Collateral only to the extent that such Equity Interests or intercompany note can secure the notes without Rule 3-16 of Regulation S-X under the Securities Act (or any other law, rule or regulation) requiring separate financial statements of such Restricted Subsidiary to be filed with the SEC. In the event that Rule 3-16 of Regulation S-X under the Securities Act requires or is amended, modified or interpreted by the SEC to require (or is replaced with another rule or regulation, or any other law, rule or regulation is adopted, that would require) the filing with the SEC of separate financial statements of any Restricted Subsidiary due to the fact that such Restricted Subsidiary's Equity Interests or intercompany note secures the notes, then the Equity Interests or intercompany note of such Restricted Subsidiary shall automatically be deemed not to be part of the Collateral. In such event, the Security Documents may be amended or modified, without the consent of any Holder of notes, to the extent necessary to release the Liens on the Equity Interests or intercompany note that is so deemed to no longer constitute part of the Collateral.

In the event that Rule 3-16 of Regulation S-X under the Securities Act is amended, modified or interpreted by the SEC to permit (or is replaced with another rule or regulation, or any other law, rule or regulation is adopted, which would permit) such Restricted Subsidiary's Equity Interests or intercompany note to secure the notes without the filing with the SEC of separate financial statements of such Restricted Subsidiary, then the Equity Interests or intercompany note of such Restricted Subsidiary shall automatically be deemed to be a part of the Collateral. In such event, the Security Documents may be amended or modified, without the consent of any Holder of notes, to the extent necessary to subject such Equity Interests or intercompany note to the Liens under the Security Documents.

In accordance with the limitations set forth in the immediately two preceding paragraphs as in effect on the date hereof, the Collateral will include Equity Interests or intercompany note of any Restricted Subsidiaries, only to the extent that the applicable value of such Equity Interests or intercompany note (on a Restricted Subsidiary-by-Restricted Subsidiary basis) is less than 20% of the aggregate principal amount of the notes outstanding. Accordingly, the portion of the Equity Interests or intercompany note of Restricted Subsidiaries constituting Collateral in the future may decrease or increase as described above.

Unless and until all of the Equity Interests of and intercompany notes issued by Oppenheimer & Co., Inc. are pledged as Collateral without regard to this limitation, Oppenheimer & Co., Inc. will remain a direct Wholly-Owned Subsidiary of Viner Finance Inc. and the Company shall not permit such Equity Interests or intercompany loans to be subject to other Liens.

The Collateral will be pledged pursuant to a security agreement (as amended, supplemented or otherwise modified from time to time, the **Security Agreement**) and other security documents, in each case by and among

Table of Contents

the Company, the Subsidiary Guarantors party thereto and the Collateral Agent. For the avoidance of doubt, no assets of any Subsidiary that is not a Subsidiary Guarantor (including any Capital Stock owned by any such Subsidiary) shall constitute Collateral.

No appraisals of any of the Collateral have been prepared by or on behalf of the Company in connection with the issuance and sale of the notes. The value of the Collateral is subject to fluctuations based on factors that include, among others, the condition of the particular assets and availability of competing assets, general economic conditions, and the ability to realize on the Collateral as part of a going concern and in an orderly fashion to available and willing buyers and not under distressed circumstances. By its nature, large portions of the Collateral may be illiquid and may have no readily ascertainable market value. Likewise, there can be no assurance that the Collateral will be saleable, or, if saleable, that there will not be substantial delays in its liquidation.

To the extent that third parties establish Liens on the Collateral, such third parties could have rights and remedies with respect to the assets subject to such Liens that, if exercised, could adversely affect the value of the Collateral or the ability of the Trustee or the Holders of the notes to realize or foreclose on the Collateral. The Company may also issue Additional Notes as described above or additional Pari Passu Lien Indebtedness, which would be secured by the Collateral, the effect of which will be to increase the amount of Indebtedness secured by the Collateral.

In addition, the fact that the Collateral may be shared with holders of Pari Passu Lien Indebtedness, that the Collateral excludes certain property, and that certain creditors secured by Permitted Liens may be entitled to a prior claim on certain Collateral, there is no assurance that, in a foreclosure or other exercise of remedies after an Event of Default will result in proceeds of Collateral that are sufficient to repay the notes, or that the amount of such proceeds so available would not be substantially less than amounts owing under the notes. Moreover, the ability of the holders to realize on the Collateral may be subject to certain bankruptcy law limitations in the event of a bankruptcy. If the proceeds of any of the Collateral were not sufficient to repay all amounts due on the notes, the Holders of the notes (to the extent not repaid from the proceeds of the sale of the Collateral) would have only an unsecured claim against the remaining assets of the Company and the Subsidiary Guarantors.

Intercreditor Agreement

If additional secured Indebtedness intended to constitute Pari Passu Lien Indebtedness is issued or incurred in the future, the Company, the Subsidiary Guarantors, the Collateral Agent, and the Authorized Representative for the lenders and other persons holding such additional secured debt (the **Pari Passu Debt Collateral Agent**) will enter into an Intercreditor Agreement (as the same may be amended, supplemented or otherwise modified from time to time, the **Intercreditor Agreement**), with respect to the Collateral, which Intercreditor Agreement may be amended, supplemented or modified from time to time without the consent of the Holders of the notes to add additional lenders or other persons holding Pari Passu Obligations permitted to be incurred under the indenture, the Intercreditor Agreement and any Pari Passu Agreements then in effect.

Collateral Agent

By accepting the notes, each Holder will be deemed to have irrevocably appointed The Bank of New York Mellon Trust Company, N.A., as the Collateral Agent, to act as its agent under the Intercreditor Agreement, the Security Agreement and the other Security Documents, and to have irrevocably authorized the Collateral Agent to perform the duties and exercise the rights powers and discretions that are specifically given to it under the indenture, the Intercreditor Agreement, the Security Agreement and the other Security Documents, together with any other incidental rights power and discretion. Under the terms of the indenture, the Collateral Agent may resign on 30 days prior written notice, and the Collateral Agent may also be removed for cause and replaced by a replacement collateral agent selected by the Trustee, in consultation with the Company.

The Collateral Agent will hold (directly or through co-trustees, co-agents, agents or sub agents), and will be entitled to enforce, all Liens on the Collateral created by the Security Documents in accordance with the following.

Table of Contents***Enforcement of Security Interests***

Under the Intercreditor Agreement, the Applicable Authorized Representative has the right, under certain circumstances, to direct the Collateral Agent and each Pari Passu Debt Collateral Agent to foreclose or take other actions with respect to the Collateral, and no other party to the Intercreditor Agreement will have the right to direct any action with respect to the Collateral. Except as described below, the Applicable Authorized Representative will be the Authorized Representative of the Series of Pari Passu Obligations that constitutes the largest Outstanding Amount of all then outstanding Pari Passu Obligations (the **Controlling Authorized Representative**). Upon the occurrence of the Non-Controlling Authorized Representative Enforcement Date (as defined below), the then Applicable Authorized Representative will be replaced as Applicable Authorized Representative by the Authorized Representative of the Series of Pari Passu Obligations that then constitutes the next largest Outstanding Amount of all then outstanding Pari Passu Obligations with respect to the Collateral (the **Major Non-Controlling Authorized Representative**).

The Non-Controlling Authorized Representative Enforcement Date, with respect to which a Non-Controlling Authorized Representative becomes the Applicable Authorized Representative is the date that is 90 days (throughout which 90-day period the applicable Non-Controlling Authorized Representative was the Major Non-Controlling Authorized Representative) after the occurrence of both (a) an event of default that has occurred and is continuing, as defined in the indenture or any other applicable Pari Passu Agreement for that Series of Pari Passu Obligations, and (b) the Collateral Agent's and each other Authorized Representative's receipt of written notice from that Authorized Representative certifying that (i) such Authorized Representative is the Major Non-Controlling Authorized Representative and that an event of default, as defined in the indenture or any other Pari Passu Agreement for that Series of Pari Passu Obligations, has occurred and is continuing and (ii) the Pari Passu Obligations of that Series are currently due and payable in full (whether as a result of acceleration thereof or otherwise) in accordance with the indenture or other applicable Pari Passu Agreement, as applicable, for that Series of Pari Passu Obligations; *provided* that the Non-Controlling Authorized Representative Enforcement Date will be stayed and shall not occur and shall be deemed not to have occurred with respect to any Collateral if (1) at any time the Applicable Authorized Representative has commenced and is diligently pursuing any enforcement action with respect to such Collateral or (2) at any time the Company or any Subsidiary Guarantor that has granted a security interest in such Collateral is then a debtor under or with respect to (or otherwise subject to) any insolvency or liquidation proceeding. If no such stay occurs, or is deemed to occur, then the Major Non-Controlling Authorized Representative will become the Applicable Authorized Representative from and after the occurrence of the Non-Controlling Authorized Representative Enforcement Date.

Restrictions on Enforcement of Priority Liens

Subject to the terms of the Intercreditor Agreement, the Applicable Authorized Representative will have the sole right to instruct the Collateral Agent and each Pari Passu Debt Collateral Agent to act or refrain from acting with respect to the Collateral, and (a) neither Collateral Agent nor any Pari Passu Debt Collateral Agent will follow any instructions (other than certain types of instructions to exercise rights other than enforcement rights) with respect to the Collateral from any representative of any Non-Controlling Secured Party or other Pari Passu Secured Party (other than the Applicable Authorized Representative), and (b) no Authorized Representative of any Non-Controlling Secured Party or other Pari Passu Secured Party (other than the Applicable Authorized Representative) will instruct the Collateral Agent or any Pari Passu Debt Collateral Agent to commence any judicial or non-judicial foreclosure proceedings with respect to, seek to have a trustee, receiver, liquidator or similar official appointed for or over, attempt any action to take possession of, exercise any right, remedy or power with respect to, or otherwise take any action to enforce its interests in or realize upon, or take any other action available to it in respect of, the Collateral.

No representative of any Non-Controlling Secured Party may contest, protest or object to any foreclosure proceeding or action brought by or at the direction of the Controlling Authorized Representative in connection with the

Intercreditor Agreement or the exercise of remedies against the Collateral in accordance with the terms of the Intercreditor Agreement. Each Authorized Representative will agree that it will not accept any Lien on any Collateral for the benefit of any series of Pari Passu Obligations (other than funds deposited for the discharge or defeasance of the indenture or any Pari Passu Agreement and other exceptions set forth in the Intercreditor

Table of Contents

Agreement) unless each other series of Pari Passu Obligations is also secured by a Lien on such Collateral. Each of the Pari Passu Secured Parties will also agree that it will not contest or support any other person in contesting, in any proceeding (including any insolvency or liquidation proceeding), the perfection, priority, validity or enforceability of a Lien held by or on behalf of any of the Pari Passu Secured Parties in all or any part of the Collateral, or the provisions of the Intercreditor Agreement.

None of the Pari Passu Secured Parties may institute any suit or assert in any suit, bankruptcy, insolvency or other proceeding any claim against the Collateral Agent or any other Pari Passu Secured Party seeking damages from or other relief by way of specific performance, instructions or otherwise with respect to any Collateral, except to the extent expressly permitted by the terms of the Intercreditor Agreement. In addition, none of the Pari Passu Secured Parties may seek to have any Collateral or any part thereof marshaled upon any foreclosure or other disposition of such Collateral. If any Pari Passu Secured Party obtains possession of any Collateral or realizes any proceeds or payment in respect thereof, at any time prior to the discharge of each of the Pari Passu Obligations, then it must hold such Collateral, proceeds or payment in trust for the other Pari Passu Secured Parties and promptly transfer such Collateral, proceeds or payment to the Applicable Authorized Representative to be distributed in accordance with the Intercreditor Agreement.

The Pari Passu Secured Parties acknowledge that the Pari Passu Obligations may, subject to the limitations set forth in the indenture, the Security Documents, the applicable Pari Passu Agreement or Pari Passu Security Documents, as the case may be, be increased, extended, renewed, replaced, restated, supplemented, restructured, repaid, refunded, refinanced or otherwise amended or modified from time to time, all without affecting the priorities set forth in the Intercreditor Agreement defining the relative rights of the Pari Passu Secured Parties; *provided* that the authorized representative of the holders of such Pari Passu Obligations, if not a party to the Intercreditor Agreement, shall have executed a Joinder Agreement to the Intercreditor Agreement on behalf of the holders of such Pari Passu Obligations.

Notwithstanding the foregoing, with respect to any Collateral for which a third party (other than a Pari Passu Secured Party) has a lien or security interest that is junior in priority to the security interest of any Series of Pari Passu Obligations but senior (as determined by appropriate legal proceedings in the case of any dispute) to the security interest of any other Series of Pari Passu Obligations (such third party, an **Intervening Creditor**), the value of any Collateral or proceeds which are allocated to such Intervening Creditor will be deducted on a ratable basis solely from the Collateral or proceeds to be distributed in respect of the Series of Pari Passu Obligations with respect to which such impairment exists. In addition, the Pari Passu Secured Parties of each Series bear the risk that a court may deem that the Pari Passu Obligations of such Series (and not of any other Series) (i) are unenforceable under applicable law, (ii) are equitably subordinated to any other obligations or (iii) do not have an enforceable security interest in any of the Collateral that secures any other Series of Pari Passu Obligations. In the event of any such impairment, the rights of the holders of Pari Passu Obligations of the impaired Series under the Intercreditor Agreement will be modified to the extent necessary so that the effects of the impairment are borne solely by such impaired holders and not the holders of any other Series of Pari Passu Obligations.

Amendment of Security Documents

The Applicable Authorized Representative may enter into any amendment to any Pari Passu Security Document, so long as the Applicable Authorized Representative receives a certificate of the Company stating that such amendment is permitted by the terms of the indenture and each Pari Passu Agreement then in effect. The Applicable Authorized Representative will give notice to each other Authorized Representative of any release of Collateral and of any amendment to any Pari Passu Security Document. The Applicable Authorized Representative may not enter into any amendment that releases all or substantially all of the Collateral from the Liens under any Pari Passu Security Document without the written consent of each Authorized Representative; *provided* that, to the extent the release of all or substantially all of the Collateral from the Liens under the applicable Pari Passu Security Documents relates

solely to one or more (but not all) Series of Pari Passu Obligations (and such release is permitted under, and in accordance with, the indenture, the Security Documents, the Pari Passu Agreement or Pari Passu Security Documents, as the case may be, applicable to such Series), such release shall not require the prior written consent of any Authorized Representative of any other Series of Pari Passu Obligations (it being understood that the

Table of Contents

Liens securing such other Series of Pari Passu Obligations shall not be affected by such release and shall remain in effect).

Use and Release of Collateral

Subject to the terms of the Security Documents, the Company and the Subsidiary Guarantors will have the right to remain in possession and retain exclusive control of the Collateral, subject to certain exceptions, to freely operate the Collateral and to collect, invest and dispose of any income thereon. The indenture will require the Company to comply with Section 313(b) of the Trust Indenture Act (the **TIA**) relating to reports, and Section 314(d) of the TIA, relating to the release of property and to the substitution therefor of any property to be pledged as Collateral for the notes. Any certificate or opinion required by Section 314(d) of the TIA may be made by an Officer of the Company except in cases where Section 314(d) requires that such certificate or opinion be made by an independent engineer, appraiser or other expert, who shall be reasonably satisfactory to the Trustee. Notwithstanding anything to the contrary herein, the Company and the Subsidiary Guarantors will not be required to comply with all or any portion of Section 314(d) of the TIA if they determine, in good faith based on advice of counsel (which may be internal counsel), that under the terms of that section and/or any interpretation or guidance as to the meaning thereof of the SEC and its staff, including no action letters or exemptive orders, all or any portion of Section 314(d) of the TIA is inapplicable to the released Collateral. Without limiting the generality of the foregoing, certain no-action letters issued by the SEC have permitted an indenture qualified under the TIA to contain provisions permitting the release of collateral from Liens under such indenture in the ordinary course of the issuer's business without requiring the issuer to provide certificates and other documents under Section 314(d) of the TIA.

Release of Collateral. The Indenture provides that the Liens on the Collateral securing the notes will automatically and without the need for any further action by any Person be released (and the Collateral Agent will execute and deliver such documents and instruments as the Company and the Subsidiary Guarantors may request to evidence such release without the consent of the Holders):

- (1) in whole or in part, as applicable, as to all or any portion of property subject to such Liens which has been taken by eminent domain, condemnation or other similar circumstances;
- (2) in whole upon:
 - (a) satisfaction and discharge of the Indenture as set forth below under **Satisfaction and Discharge**; or
 - (b) a Legal Defeasance or Covenant Defeasance of the Indenture as described below under **Defeasance**;
- (3) in part, as to any property that (a) is sold, transferred or otherwise disposed of by the Company or any Subsidiary Guarantor (other than to the Company or another Subsidiary Guarantor) in a transaction not prohibited by the Indenture at the time of such sale, transfer or disposition or (b) is owned or at any time acquired by a Subsidiary Guarantor that has been released from its Subsidiary Guarantee in accordance with the Indenture, concurrently with the release of such Subsidiary Guarantee (including in connection with the designation of a Subsidiary Guarantor as an Unrestricted Subsidiary); and
- (4) in part, in accordance with the applicable provisions of the Security Documents.

Certain Limitations on the Collateral. The right of the Collateral Agent to take possession and dispose of the Collateral following an Event of Default is likely to be significantly impaired by applicable bankruptcy law if a bankruptcy proceeding were to be commenced by or against the Company or the Subsidiary Guarantors prior to the Collateral Agent having taken possession and disposed of the Collateral. Under the U.S. Bankruptcy Code, a secured

creditor is prohibited from taking its security from a debtor in a bankruptcy case, or from disposing of security taken from such debtor, without bankruptcy court approval. Moreover, the U.S. Bankruptcy Code permits the debtor in certain circumstances to continue to retain and to use collateral owned as of the date of the bankruptcy filing (and the proceeds, products, offspring, rents or profits of such Collateral) even though the debtor is in default under the applicable debt instruments *provided* that the secured creditor is given adequate protection . The

Table of Contents

meaning of the term "adequate protection" may vary according to circumstances. In view of the lack of a precise definition of the term "adequate protection" and the broad discretionary powers of a bankruptcy court, it is impossible to predict how long payments under the notes could be delayed following commencement of a bankruptcy case, whether or when the Collateral Agent could repossess or dispose of the Collateral, or whether or to what extent Holders would be compensated for any delay in payment or loss of value of the Collateral through the requirement of "adequate protection".

Furthermore, in the event a U.S. bankruptcy court determines the value of the Collateral (after giving effect to any prior Liens) is not sufficient to repay all amounts due on the notes and any other Pari Passu Lien Indebtedness, the Holders of the notes and such other Pari Passu Lien Indebtedness would hold secured claims to the extent of the value of the Collateral, and would hold unsecured claims with respect to any shortfall. Applicable U.S. bankruptcy laws permit the payment and/or accrual of post-petition interest, costs and attorneys' fees during a debtor's bankruptcy case only to the extent the claims are oversecured or the debtor is solvent at the time of reorganization. In addition, if the Company or the Subsidiary Guarantors were to become the subject of a bankruptcy case, the bankruptcy court, among other things, may avoid certain prepetition transfers made by the entity that is the subject of the bankruptcy filing, including, without limitation, transfers held to be preferences or fraudulent conveyances.

Sinking Fund

There will be no sinking fund payments for the notes.

Governing Law

The Indenture, the notes, the Intercreditor Agreement and the Security Agreement will be governed by, and construed in accordance with, the laws of the State of New York.

Registration Rights; Additional Interest

We have filed the registration statement of which this prospectus forms a part and are conducting the exchange offer in accordance with our obligations under the Registration Rights Agreement between us and the initial purchasers of the old notes. Holders of the new notes will not be entitled to any registration rights with respect to the new notes.

Under some circumstances set forth in the registration rights agreement, holders of old notes, including holders who are not permitted to participate in the exchange offer or who may not freely sell new notes received in the exchange offer, may require us to file and cause to become effective, a shelf registration statement covering resales of the old notes by these holders.

In the event that the exchange offer is not consummated within 360 days of the date of issuance of the old notes (i.e. by April 6, 2012), the interest rate borne by the notes will be increased by 0.25% per annum for the first 90 days beginning after April 6, 2012, and 0.50% per annum thereafter.

Covenants

Overview

In the Indenture, the Company will agree to covenants that limit the ability of the Company and its Restricted Subsidiaries and, in certain cases, Regulated Subsidiaries, among other things, to:

incur additional debt and issue Preferred Stock;

pay dividends, acquire shares of capital stock, make payments on subordinated debt or make investments;

place limitations on distributions from Regulated Subsidiaries or Restricted Subsidiaries;

issue guarantees;

sell or exchange assets;

enter into transactions with shareholders and affiliates;

Table of Contents

create liens; and

effect mergers.

Pursuant to the Indenture, the covenants under Limitation on Indebtedness and Issuances of Preferred Stock, Limitation on Restricted Payments, Limitation on Dividend and Other Payment Restrictions Affecting Restricted Subsidiaries or Regulated Subsidiaries, Future Subsidiary Guarantees, Limitation on Transactions with Shareholders and Affiliates, Limitation on Liens and Limitation on Asset Sales, apply to the Company and the Restricted Subsidiaries, but generally do not apply, or apply only in part, to Regulated Subsidiaries.

If a Change of Control occurs, each Holder of notes will have the right to require the Company to repurchase all or a part of the Holder's notes at a price equal to 101% of their principal amount, plus any accrued interest and Additional Interest (if any) to, but not including, the date of repurchase.

Limitation on Indebtedness and Issuances of Preferred Stock

(a) The Company will not, and will not permit any of its Restricted Subsidiaries to, Incur any Indebtedness, including Disqualified Stock, and the Company will not permit any Restricted Subsidiary to issue Preferred Stock; *provided* that the Company may Incur Indebtedness, including Disqualified Stock, any Subsidiary Guarantor may Incur Indebtedness, including Disqualified Stock, or issue Preferred Stock if, after giving effect to the Incurrence of such Indebtedness and the receipt and application of the proceeds therefrom, the Consolidated Fixed Charge Coverage Ratio would be greater than 2.0:1.

Notwithstanding the foregoing, the Company and any Restricted Subsidiary (except as specified below) may Incur each and all of the following:

- (1) Indebtedness of the Company under any Credit Facility in an aggregate principal amount at any one time outstanding (with letters of credit, without duplication, being deemed to have a principal amount equal to the face amount and outstanding reimbursement amount thereunder) not to exceed \$30.0 million;
- (2) Indebtedness represented by the notes and the related Subsidiary Guarantees to be issued on the date of the indenture and the exchange notes and the related Subsidiary Guarantees to be issued pursuant to the registration rights agreement and exchange notes and related Subsidiary Guarantees issued in exchange for Additional Notes issued under the Indenture;
- (3) Indebtedness of Company and its Restricted Subsidiaries existing on the Closing Date;
- (4) purchase money Indebtedness (including Capitalized Lease Obligations) incurred after the Closing Date to acquire equipment or real property in the ordinary course of business; *provided* that (A) the aggregate amount of all such Indebtedness at any time outstanding does not exceed the greater of (i) \$20.0 million or (ii) 5% of Consolidated Net Worth and (B) such Indebtedness is issued within 365 days after the acquisition of the asset financed;
- (5) Indebtedness owed (A) to the Company or any Subsidiary Guarantor evidenced by an unsubordinated promissory note or (B) to any Restricted Subsidiary or Regulated Subsidiary; *provided* that (x) any event which results in any such Restricted Subsidiary or Regulated Subsidiary ceasing to be a Restricted Subsidiary or Regulated Subsidiary or any subsequent transfer of such Indebtedness (other than to the Company or another Restricted Subsidiary or Regulated Subsidiary) shall be deemed, in each case, to constitute an Incurrence of such Indebtedness not permitted by this clause (5) and (y) if the Company (or any Subsidiary that is a Subsidiary Guarantor at the time such

Indebtedness is Incurred) is the obligor on such Indebtedness, such Indebtedness must be expressly contractually subordinated in right of payment to the notes, in the case of the Company, or the Subsidiary Guarantee, in the case of a Subsidiary Guarantor;

(6) Indebtedness issued in exchange for, or the net proceeds of which are used to refinance or refund, then outstanding Indebtedness (other than Indebtedness outstanding under clause (1) or (5)) and any refinancings thereof in an amount up to the amount so refinanced or refunded (plus premiums (including tender premiums), accrued interest, Additional Interest, fees and expenses); *provided* that (a) Indebtedness the proceeds of which

(z) any Designated Non-cash Consideration received by the Company or any of the Restricted Subsidiaries in such Asset Sale having an aggregate fair market value, taken together with all other Designated Non-cash Consideration received pursuant to this clause (z) that is at that time outstanding, not to exceed the greater of 1.0% of Total Assets and \$25.0 million at the time of the receipt of such Designated Non-cash Consideration (with the fair market value of each item of Designated Non-cash Consideration being measured at the time received and without giving effect to subsequent changes in value),

shall be deemed to be Temporary Cash Investments for the purposes of this provision.

The Company will not, and will not permit any Restricted Subsidiary or Regulated Subsidiary to, consummate any Regulated Sale, unless (1) the consideration received by the Company, such Restricted Subsidiary or such Regulated Subsidiary is at least equal to the fair market value of the assets sold or disposed of, (2) at least 75% of the consideration received consists of (a) Cash or Temporary Cash Investments or (b) Replacement Assets; *provided* that the amount of:

(x) any liabilities (as shown on the Company's, such Restricted Subsidiary's or such Regulated Subsidiary's most recent balance sheet or in the notes thereto) of the Company, any Restricted Subsidiary

or any Regulated Subsidiary (other than liabilities that are by their terms subordinated to the notes or any Subsidiary Guarantee) (i) that are assumed by the transferee of any such assets and from which the Company, all of its Restricted Subsidiaries and all of its Regulated Subsidiaries have been validly released by all creditors in writing or (ii) in respect of which neither the Company nor any Restricted Subsidiary or Regulated Subsidiary following such Asset Sale has any obligation,

(y) any notes or other obligations or other securities or assets received by the Company, such Restricted Subsidiary or such Regulated Subsidiary from such transferee that are converted by the Company, such Restricted Subsidiary or Regulated Subsidiary into cash within 180 days of the receipt thereof (to the extent of the cash received), and

(z) any Designated Non-cash Consideration received by the Company, any of its Restricted Subsidiaries or any of its Regulated Subsidiaries in such Asset Sale having an aggregate fair market value, taken together with all other Designated Non-cash Consideration received pursuant to this clause (z) that is at that time outstanding, not to exceed the greater of 1.0% of Total Assets and \$25.0 million at the time of the receipt of such Designated Non-cash Consideration (with the fair market value of each item of Designated Non-cash Consideration being measured at the time received and without giving effect to subsequent changes in value),

shall be deemed to the Temporary Cash Investments for the purposes of this provision.

The Company shall or shall cause the relevant Restricted Subsidiary or Regulated Subsidiary to:

(1) within twelve months after receipt of such Net Cash Proceeds,

(A) apply an amount equal to such excess Net Cash Proceeds (i) to the extent such Net Cash Proceeds are from Asset Sales of Collateral, to permanently repay, repurchase (and retire) or redeem the notes or Pari Passu Lien Indebtedness and (ii) to the extent such Net Cash Proceeds are not from Asset Sales or Regulated Sales of Collateral, to permanently repay, repurchase (and retire) or redeem unsubordinated Indebtedness of the Company or any Restricted Subsidiary, or to redeem or repurchase Capital Stock of any Restricted Subsidiary or Regulated Subsidiary (in each case to the extent permitted by the Indenture), in each case owing to or owned by a Person other than the Company or any Affiliate of the Company; or

(B) invest an equal amount, or the amount not so applied pursuant to clause (A) (or enter into a definitive agreement committing to so invest within 12 months after the date of such agreement), in Replacement Assets; *provided* that, to the extent the assets subject to such Asset Sale were Collateral, such Replacement Assets shall also be Collateral; and

(2) apply, not later than the end of such 12-month period referred to in clause (1) above, such Net Cash Proceeds (to the extent not applied pursuant to clause (1) above) as provided in the following paragraphs of this Limitation on Asset Sales covenant.

The amount of such excess Net Cash Proceeds required to be applied (or to be committed to be applied) during such 12-month period as set forth in clause (1) of the preceding sentence and not applied as so required by the end of such period shall constitute **Excess Proceeds**.

If, as of the first day of any calendar month, the aggregate amount of Excess Proceeds not theretofore subject to an Offer to Purchase pursuant to this Limitation on Asset Sales covenant totals at least \$15.0 million, the Company must commence, not later than the fifteenth Business Day of such month, and consummate an Offer to Purchase from the Holders (and, if required by the terms of any Pari Passu Lien Indebtedness, from the holders of such Pari Passu Lien Indebtedness) on a pro rata basis an aggregate principal amount of notes (and Pari Passu Lien Indebtedness) equal to the Excess Proceeds on such date, at a purchase price equal to 100% of their principal amount, plus, in each case,

accrued interest (if any) and Additional Interest (if any) to, but not including, the Payment Date.

To the extent that the aggregate amount of notes and Pari Passu Lien Indebtedness so validly tendered and not properly withdrawn pursuant to an Offer to Purchase is less than the Excess Proceeds, the Company may use any remaining Excess Proceeds for any other purpose which is permitted by the Indenture.

Table of Contents

If the aggregate principal amount of notes surrendered by Holders thereof and other Pari Passu Lien Indebtedness surrendered by holders or lenders, collectively, exceeds the amount of Excess Proceeds, the Trustee shall select the notes and Pari Passu Lien Indebtedness to be purchased on a pro rata basis on the basis of the aggregate principal amount of tendered notes and Pari Passu Lien Indebtedness. Upon completion of such Offer to Purchase, the amount of Excess Proceeds shall be reset to zero.

Limitation on Lines of Business

The Company will not, and will not permit any Restricted Subsidiary or Regulated Subsidiary to, engage in any business other than a Related Business, except to an extent that so doing would not be material to the Company and its Restricted Subsidiaries, taken as a whole.

Repurchase of the Notes upon a Change of Control

The Company must commence, within 30 days of the occurrence of a Change of Control, and consummate an Offer to Purchase for all notes then outstanding, at a purchase price equal to 101% of their principal amount, plus accrued interest (if any) and Additional Interest (if any) to, but not including, the Payment Date.

There can be no assurance that the Company will have sufficient funds available at the time of any Change of Control to make any payment required by the foregoing covenant (as well as may be contained in other Indebtedness of the Company which might be outstanding at the time).

The above covenant requiring the Company to repurchase the notes will, unless consents are obtained, require the Company to repay all indebtedness then outstanding which by its terms would prohibit such note repurchase, either prior to or concurrently with such note repurchase.

The Change of Control purchase feature of the notes may in certain circumstances make more difficult or discourage a sale or takeover of us and, thus, the removal of incumbent management. The Change of Control purchase feature is a result of negotiations between the initial purchasers of the notes and us. After the Closing Date, we have no present intention to engage in a transaction involving a Change of Control, although it is possible that we could decide to do so in the future. Subject to the limitations discussed below, we could, in the future, enter into certain transactions, including acquisitions, refinancings or other recapitalizations, that would not constitute a Change of Control under the Indenture, but that could increase the amount of Indebtedness outstanding at such time or otherwise affect our capital structure or credit ratings. Restrictions on our ability to incur additional Indebtedness are contained in the covenants described under Covenants Limitation on Indebtedness and Issuances of Preferred Stock and Covenants Limitation on Liens. Such restrictions in the Indenture can be waived only with the consent of the Holders of a majority in principal amount of the notes then outstanding. Except for the limitations contained in such covenants, however, the Indenture will not contain any covenants or provisions that may afford Holders of the notes protection in a highly levered transaction.

The Company will not be required to make an Offer to Purchase upon the occurrence of a Change of Control, if (1) a third party makes an offer to purchase the notes in the manner, at the times and price and otherwise in compliance with the requirements of the Indenture applicable to an Offer to Purchase for a Change of Control and purchases all notes validly tendered and not withdrawn in such offer to purchase or (2) notice of redemption has been given pursuant to the indenture as described under the caption Optional Redemption, unless and until there is a default in payment of the applicable redemption price. Notwithstanding anything to the contrary herein, a Change of Control Offer may be made in advance of a Change of Control, conditional upon such Change of Control.

SEC Reports and Reports to Holders

The Company will deliver to the Trustee within 30 days after the filing of the same with the Securities and Exchange Commission, copies of the quarterly and annual reports and of the information, documents and other reports, if any, which the Company is required to file with the Securities and Exchange Commission pursuant to Section 13 or 15(d) of the Exchange Act. Notwithstanding that the Company may not be subject to the reporting requirements of Section 13 or 15(d) of the Exchange Act, the Company will file with the Securities and Exchange Commission, to the extent permitted, and provide the Trustee and Holders with such annual reports and such

Table of Contents

information, documents and other reports specified in Sections 13 and 15(d) of the Exchange Act, *provided* that the Company need not file such reports or other information if, and so long as, it would not be required to do so pursuant to Rule 12h-5 under the Exchange Act.

Notwithstanding the foregoing, the Company will be deemed to have furnished such reports referred to above to the Trustee and the Holders if the Company has filed such reports with the SEC via the EDGAR filing system and such reports are publicly available.

Notwithstanding anything herein to the contrary, the Company will not be deemed to have failed to comply with any of its agreements hereunder for purposes of clause (d) under Events of Default until 120 days after the date any report hereunder is required to be filed with the SEC (or otherwise made available to holders or the Trustee) pursuant to this covenant.

Effectiveness of Covenants

The covenants described under Limitation on Indebtedness and Issuances of Preferred Stock, Limitation on Restricted Payments, Limitation on Dividend and Other Payment Restrictions Affecting Restricted Subsidiaries or Regulated Subsidiaries, Future Subsidiary Guarantees, Limitation on Transactions with Shareholders and Affiliates, Limitation on Asset Sales, SEC reports, Limitation on Lines of Business, (the **Suspended Covenants**) will be suspended upon the Company attaining Investment Grade Status. The Suspended Covenants will not be reinstated regardless of whether the Company's credit rating is subsequently downgraded from Investment Grade Status.

If at any time the Company is downgraded from Investment Grade Status, then the Suspended Covenants will thereafter be reinstated as if such covenants had never been suspended (the **Reinstatement Date**) and be applicable pursuant to the terms of the Indenture (including in connection with performing any calculation or assessment to determine compliance with the terms of the Indenture), unless and until the Company subsequently attains Investment Grade Status and no Default or Event of Default is in existence (in which event the Suspended Covenants shall no longer be in effect for such time that the Company maintains Investment Grade Status); *provided, however*, that no Default, Event of Default or breach of any kind shall be deemed to exist or have occurred under the Indenture, the notes, the Subsidiary Guarantees or any of the Security Documents with respect to the Suspended Covenants based on, and none of the Company or any of its Subsidiaries shall bear any liability for, any actions taken or events occurring during the Suspension Period (as defined below), or any actions taken at any time pursuant to any contractual obligation arising prior to the Reinstatement Date, regardless of whether such actions or events would have been permitted if the applicable Suspended Covenants remained in effect during such period. The period of time between the date of suspension of the covenants and the Reinstatement Date is referred to as the **Suspension Period**.

On the Reinstatement Date, all Indebtedness Incurred during the Suspension Period will be deemed to have been outstanding on the Closing Date, so that it is classified as permitted under clause (3) of the second paragraph of part (a) of the Limitation on Indebtedness and Issuances of Preferred Stock covenant. Calculations made after the Reinstatement Date of the amount available to be made as Restricted Payments under the Limitation on Restricted Payments covenant will be made as though the Limitation on Restricted Payments covenant had been in effect since the Closing Date and throughout the Suspension Period. Accordingly, Restricted Payments made during the Suspension Period will reduce the amount available to be made as Restricted Payments under the Limitation on Restricted Payments covenant to the extent such Restricted Payments were not otherwise permitted to be made pursuant to clauses (1) through (14) of part (c) of the Limitation on Restricted Payments covenant; *provided* that the amount available to be made as Restricted Payments on the Reinstatement Date under the Limitation on Restricted Payments covenant shall not be reduced below zero solely as a result of such Restricted Payments made during a Suspension Period. The Company will provide the Trustee with written notice of the commencement of any Suspension Period or Reinstatement Date. Until the Trustee receives such notice, it shall be entitled to assume no such

Suspension Period or Reinstatement Date, as applicable, has occurred.

- (h) the Company or any Significant Subsidiary (A) commences a voluntary case under any applicable bankruptcy, insolvency or other similar law now or hereafter in effect, or consents to the entry of an order for relief in an involuntary case under any such law, (B) consents to the appointment of or taking possession by a receiver, liquidator, assignee, custodian, trustee, sequestrator or similar official of the Company or any Significant Subsidiary or for all or substantially all of the property and assets of the Company or any Significant Subsidiary or (C) effects any general

assignment for the benefit of creditors;

(i) failure by any Regulated Significant Subsidiary to meet the minimum capital requirements imposed by applicable regulatory authorities, and such condition continues for a period of 30 days after the Company or such Regulated Subsidiary first becomes aware of such failure;

- (j) the Company or any Subsidiary that holds Capital Stock of a Regulated Significant Subsidiary shall become ineligible to hold such Capital Stock by reason of a statutory disqualification or otherwise;
- (k) the Commission shall revoke the registration of any Regulated Significant Subsidiary as a broker-dealer under the Exchange Act or any such Regulated Subsidiary shall fail to maintain such registration;

- (m) the occurrence of any event of acceleration in a subordination agreement, as defined in Appendix D to Rule 15c3-1 of the Exchange Act, to which the Company or any Regulated Significant Subsidiary is a party;
- (n) any Subsidiary Guarantor repudiates its obligations under its Subsidiary Guarantee or, except as permitted by the Indenture, any Subsidiary Guarantee is determined to be unenforceable or invalid or shall for any reason cease to be in full force and effect; or
- (o) with respect to any Collateral having a fair market value in excess of \$10.0 million, individually or in the aggregate, the failure of the security interest with respect to such Collateral under the Security Documents, at any time, to be in full force and effect for any reason other than in accordance with the terms of the Security Documents and the terms of the Indenture and other than the satisfaction in full of all obligations under the Indenture and discharge of the Indenture if such failure continues for 30 days, except in each case for the failure or loss of perfection resulting from the failure of the Collateral Agent to maintain possession of certificates actually delivered to it representing securities pledged under the Security Documents.

Subject to the terms of the Security Documents, if an Event of Default (other than an Event of Default specified in clause (g) or (h) above that occurs with respect to the Company or any Subsidiary Guarantor) occurs and is continuing under the Indenture, the Trustee or the Holders of at least 25% in aggregate principal amount of the notes, then outstanding, by written notice to the Company (and to the Trustee if such notice is given by the Holders), may, and the Trustee at the request of such Holders shall, declare the principal of, premium, if any, and accrued interest and Additional Interest, if any, on the notes to be immediately due and payable. Upon a declaration of acceleration, such principal of, premium, if any, and accrued interest and Additional Interest, if any, shall be immediately due and payable. In the event of a declaration of acceleration because an Event of Default set forth in clause (e) above has occurred and is continuing, such declaration of acceleration shall be automatically rescinded and annulled if the event of default triggering such Event of Default pursuant to clause (e) shall be remedied or cured by the Company or the relevant Significant Subsidiary or waived by the holders of the relevant Indebtedness within 60 days after the declaration of acceleration with respect thereto. If an Event of Default specified in clause (g) or (h) above occurs with respect to the Company, the principal of, premium, if any, and accrued interest and Additional Interest, if any, on the notes then outstanding shall automatically become and be immediately due and payable without any declaration or other act on the part of the Trustee or any Holder. The Holders of at least a majority in principal amount of the outstanding notes by written notice to the Company and to the Trustee, may waive all past defaults and rescind and annul a declaration of acceleration and its consequences if (x) all existing Events of Default, other than the nonpayment of the principal of, premium, if any, and interest and Additional Interest (if any) on the notes that have become due solely by such declaration of acceleration, have been cured or waived, (y) the rescission would not conflict with any judgment or decree of a court of competent jurisdiction and (z) all outstanding fees and expenses of the Trustee incurred in connection with such default have been paid. For information as to the waiver of defaults, see Modification and Waiver.

Subject to the terms of the Security Documents, the Holders of at least a majority in aggregate principal amount of the outstanding notes may direct the time, method and place of conducting any proceeding for any remedy available to the

Trustee or exercising any trust or power conferred on the Trustee. However, the Trustee may refuse to follow any direction that conflicts with law or the Indenture, that may involve the Trustee in personal liability, or that the Trustee determines in good faith may be unduly prejudicial to the rights of Holders of notes not joining in the giving of such direction and may take any other action it deems proper that is not inconsistent with any

Table of Contents

such direction received from Holders of notes. A Holder may not pursue any remedy with respect to the Indenture or the notes unless:

- (1) the Holder gives the Trustee written notice of a continuing Event of Default;
- (2) the Holders of at least 25% in aggregate principal amount of outstanding notes make a written request to the Trustee to pursue the remedy;
- (3) such Holder or Holders offer the Trustee indemnity satisfactory to the Trustee against any costs, liability or expense;
- (4) the Trustee does not comply with the request within 60 days after receipt of the request and the offer of indemnity; and
- (5) during such 60-day period, the Holders of a majority in aggregate principal amount of the outstanding notes do not give the Trustee a direction that is inconsistent with the request.

However, such limitations do not apply to the right of any Holder of a note to receive payment of the principal of, premium, if any, or interest or Additional Interest (if any) on, such note or to bring suit for the enforcement of any such payment, on or after the due date expressed in the notes, which right shall not be impaired or affected without the consent of the Holder.

The trustee shall, within 90 days of the occurrence of a default, give to the Holders of the notes notice of all uncured defaults known to it, but the Trustee may withhold such notice if it, in good faith, determines that the withholding of such notice is in the best interest of such Holders, except in the case of a default in the payment of the principal of or interest or Additional Interest (if any) on any of the notes.

Officers of the Company must deliver to the Trustee, on or before a date not more than 120 days after the end of each fiscal year, a certificate indicating whether the signers thereof know of any default that occurred during the previous year. The Company will also be obligated to notify the Trustee of any default or defaults in the performance of any covenants or agreements under the Indenture.

Consolidation, Merger and Sale of Assets

The Company will not consolidate with, merge with or into, or sell, convey, transfer, lease or otherwise dispose of all or substantially all of its property and assets (as an entirety or substantially an entirety in one transaction or a series of related transactions) to, any Person or permit any Person to merge with or into it unless:

- (1) it shall be the continuing Person, or the Person (if other than it) formed by such consolidation or into which it is merged or that acquired or leased such property and assets of (the **Surviving Person**) shall be an entity organized and validly existing under the laws of the United States of America or any jurisdiction thereof and shall expressly assume, by a supplemental indenture, executed and delivered to the Trustee, all of the Company's obligations under the Indenture, the Security Documents and the notes and, to the extent required by and subject to the limitations set forth in the Security Documents, will cause such amendments, supplements or other instruments to be executed, filed and recorded in such jurisdictions as may be required by applicable law to preserve and protect the Lien on the Collateral owned by or transferred to the Surviving Person, together with such financing statements or comparable documents to the extent required by and subject to the limitations set forth in the Security Documents, as may be required to perfect any security interests in such Collateral which may be perfected by the filing of a financing statement or a similar document under the Uniform Commercial Code or other similar statute or regulation of the relevant states or

jurisdictions; *provided*, that if such continuing Person or Person shall not be a corporation, such entity shall organize or have a Wholly-Owned Subsidiary in the form of a corporation organized and validly existing under the laws of the United States or any jurisdiction thereof, and shall cause such corporation to expressly assume, as a party to the supplemental indenture referenced above, as a co-obligor, each of such continuing Person or Person's obligations under the Indenture, the Security Documents and the notes;

(2) immediately after giving effect to such transaction, no Default or Event of Default shall have occurred and be continuing;

Table of Contents

(3) immediately after giving effect to such transaction on a *pro forma* basis the Company or the Surviving Person, as the case may be, (1) could Incur at least \$1.00 of Indebtedness pursuant to the Consolidated Fixed Charge Coverage Ratio test set forth in the first paragraph of the Limitation on Indebtedness and Issuances of Preferred Stock covenant or (2) the Consolidated Fixed Charge Coverage Ratio would be greater than or equal to such ratio for the Company and the Restricted Subsidiaries immediately prior to such transaction;

(4) it delivers to the Trustee an Officers Certificate and an Opinion of Counsel, in each case stating that such consolidation, merger or transfer and such supplemental indenture complies with this provision and that all conditions precedent provided for herein relating to such transaction have been complied with; and

(5) each Subsidiary Guarantor, unless such Subsidiary Guarantor is the Person with which the Company has entered into a transaction under this Consolidation, Merger and Sale of Assets section, shall have by amendment to its Subsidiary Guarantee confirmed that its Subsidiary Guarantee shall apply to the obligations of the Company or the Surviving Person in accordance with the notes and the Indenture;

provided, however, that clause (3) above does not apply if, in the good faith determination of the Board of Directors of the Company, whose determination shall be evidenced by a Board Resolution, the principal purpose of such transaction is to change the state of organization or convert the form of organization of the Company to another form, and any such transaction shall not have as one of its purposes the evasion of the foregoing limitations.

Defeasance

Legal Defeasance and Covenant Defeasance

The obligations of the Company and the Subsidiary Guarantors under the Indenture and the Security Documents will terminate (other than certain obligations) and will be released upon payment in full of all of the notes issued under the Indenture. The Company may, at its option and at any time, elect to have all of its obligations discharged with respect to the notes issued under the Indenture and the Security Documents, cause the release of all Liens on the Collateral granted under the Security Documents, and have each Guarantor's obligation discharged with respect to its Guarantee (**Legal Defeasance**) and cure all then existing Events of Default except for:

(1) the rights of Holders of notes issued under the Indenture to receive payments in respect of the principal of, premium, if any, and interest on such notes when such payments are due solely out of the trust created pursuant to the Indenture;

(2) the Company's obligations with respect to notes issued under the Indenture concerning issuing temporary notes, registration of such notes, mutilated, destroyed, lost or stolen notes and the maintenance of an office or agency for payment and money for security payments held in trust;

(3) the rights, powers, trusts, duties and immunities of the Trustee, and the Company's obligations in connection therewith; and

(4) the Legal Defeasance provisions of the Indenture.

In addition, the Company may, at its option and at any time, elect to have the Liens on the Collateral granted under the Security Documents released and its obligations and those of each Subsidiary Guarantor released with respect to clauses (2) and (3) under Consolidation, Merger and Sale of Assets and all the covenants described herein under Covenants, (**Covenant Defeasance**) and thereafter any omission to comply with such obligations shall not constitute a Default or Event of Default with respect to the notes. In the event Covenant Defeasance occurs, certain events (not

including failure to pay or bankruptcy, receivership, rehabilitation and insolvency events pertaining to the Company) described under Events of Default and Remedies will no longer constitute an Event of Default with respect to the notes.

In order to exercise either Legal Defeasance or Covenant Defeasance with respect to the notes issued under the Indenture:

(1) the Company must irrevocably deposit with the Trustee, in trust, for the benefit of the Holders, cash in U.S. dollars, Government Securities, or a combination thereof, in such amounts as will be sufficient, in the

Table of Contents

opinion of a nationally recognized firm of independent public accountants without consideration of any reinvestment of interest, to pay the principal of, premium, if any, and interest due on the notes issued under the Indenture on the stated maturity date or on the redemption date, as the case may be, of such principal, premium, if any, or interest on the notes;

(2) in the case of Legal Defeasance, the Company shall have delivered to the Trustee an Opinion of Counsel confirming that, subject to customary assumptions and exclusions;

(a) the Company has received from, or there has been published by, the United States Internal Revenue Service a ruling; or

(b) since the issuance of the notes, there has been a change in the applicable U.S. federal income tax law;

in either case to the effect that, and based thereon such Opinion of Counsel shall confirm that, subject to customary assumptions and exclusions, the Holders will not recognize income, gain or loss for U.S. federal income tax purposes as a result of such Legal Defeasance and will be subject to U.S. federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such Legal Defeasance had not occurred;

(3) in the case of Covenant Defeasance, the Company shall have delivered to the Trustee an Opinion of Counsel confirming that, subject to customary assumptions and exclusions, the Holders will not recognize income, gain or loss for U.S. federal income tax purposes as a result of such Covenant Defeasance and will be subject to U.S. federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such Covenant Defeasance had not occurred;

(4) no Default or Event of Default (other than that resulting from borrowing funds to be applied to make such deposit or the granting of Liens in connection therewith) shall have occurred and be continuing on the date of such deposit;

(5) such Legal Defeasance or Covenant Defeasance shall not result in a breach or violation of, or constitute a default under any Credit Facility or any other material agreement or instrument (other than the Indenture) to which, the Company or any Subsidiary Guarantor is a party or by which the Company or any Subsidiary Guarantor is bound (other than that resulting from borrowing funds to be applied to make such deposit and the granting of Liens in connection therewith);

(6) the Company shall have delivered to the Trustee an Officers Certificate stating that the deposit was not made by the Company with the intent of defeating, hindering, delaying or defrauding any creditors of the Company or any Subsidiary Guarantor or others; and

(7) the Company shall have delivered to the Trustee an Officers Certificate and an Opinion of Counsel (which opinion of counsel may be subject to customary assumptions and exclusions) each stating that all conditions precedent provided for or relating to the Legal Defeasance or the Covenant Defeasance, as the case may be, have been complied with.

Satisfaction and Discharge

The Indenture will be automatically discharged and will cease to be of further effect as to all notes issued thereunder, when either

(a) all such notes theretofore authenticated and delivered, except lost stolen or destroyed notes which have been replaced or paid and notes for whose payment money has theretofore been deposited in trust, have been delivered to

the Trustee for cancellation; or

(b) (1) all such notes not theretofore delivered to such Trustee for cancellation have become due and payable by reason of the making of a notice of redemption or otherwise or will become due and payable within one year or are to be called for redemption within one year under arrangements satisfactory to the Trustee for the giving of notice of redemption by the Trustee in the name, and at the expense, of the Company and the Company or any Subsidiary Guarantor has irrevocably deposited or caused to be deposited with such Trustee as trust funds in trust solely for the benefit of the Holders, cash in U.S. dollars, Government Securities, or a

Table of Contents

combination thereof, in such amounts as will be sufficient without consideration of any reinvestment of interest to pay and discharge the entire indebtedness on such notes not theretofore delivered to the Trustee for cancellation for principal, premium, if any, and accrued interest to the date of maturity or redemption;

(2) no Default or Event of Default (other than that resulting from borrowing funds to be applied to make such deposit or the granting of Liens in connection therewith) with respect to the Indenture or the notes issued thereunder shall have occurred and be continuing on the date of such deposit or shall occur as a result of such deposit and such deposit will not result in a breach or violation of, or constitute a default under, any other instrument to which the Company or any Subsidiary Guarantor is a party or by which the Company or any Subsidiary Guarantor is bound (other than an instrument to be terminated contemporaneously with or prior to the borrowing of funds to be applied to make such deposit and the granting of Liens in connection therewith); and

(3) the Company has delivered irrevocable instructions to the Trustee under the Indenture to apply the deposited money toward the payment of such notes at maturity or the redemption date, as the case may be.

In addition, the Company must deliver an Officers Certificate and an Opinion of Counsel (which opinion of counsel may be subject to customary assumptions and exclusions) to the Trustee stating that all conditions precedent to satisfaction and discharge have been satisfied.

Upon discharge of the Indenture, the Security Documents will automatically terminate and cease to be of further effect and all Liens on the Collateral granted under the Security Documents will be released.

Modification and Waiver

The Indenture and the Security Documents may be amended or supplemented, without the consent of any Holder, to:

(1) cure any ambiguity, defect or inconsistency in the Indenture;

(2) comply with the provisions described under Consolidation, Merger and Sale of Assets or Future Subsidiary Guarantees ;

(3) comply with any requirements of the Securities and Exchange Commission in connection with the qualification of the Indenture under the TIA;

(4) evidence and provide for the acceptance of appointment by a successor trustee;

BOOK-ENTRY DELIVERY AND FORM

General

The notes are represented by one or more global notes in registered form without interest coupons attached (collectively, the Global Notes). Global Notes have been deposited with the Trustee as custodian for DTC in New York, New York, and registered in the name of DTC or its nominee, in each case for credit to an account of a direct or indirect participant in DTC as described below. Except as set forth below, Global Notes may be transferred only to another nominee of DTC or to a successor of DTC or its nominee, in whole and not in part. Except in the limited circumstances described below, beneficial interests in Global Notes may not be exchanged for notes in certificated form and owners of beneficial interests in Global Notes will not be entitled to receive physical delivery of notes in certificated form. See Exchange of Global Notes for Certificated Notes.

Depository Procedures

The following description of the operations and procedures of DTC, Euroclear and Clearstream is provided solely as a matter of convenience. These operations and procedures are solely within the control of the respective settlement systems and are subject to changes by them. The Company takes no responsibility for these operations and procedures and urges investors to contact the system or their participants directly to discuss these matters.

DTC has advised the Company that DTC is a limited-purpose trust company organized under the laws of the State of New York, a banking organization within the meaning of the New York Banking Law, a member of the Federal Reserve System, a clearing corporation within the meaning of the New York Uniform Commercial Code and a clearing agency registered pursuant to the provisions of Section 17A of the Exchange Act. DTC was created to hold securities for its participating organizations (collectively, the Participants) and to facilitate the clearance and settlement of transactions in those securities between Participants through electronic book-entry changes in accounts of its Participants. The Participants include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations. Access to DTC's system is also available to other entities such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a Participant, either directly or indirectly (collectively, the Indirect Participants). Persons who are not Participants may beneficially own securities held by or on behalf of DTC only through the Participants or the Indirect Participants. The ownership interests in, and transfers of ownership interests in, each security held by or on behalf of DTC are recorded on the records of the Participants and Indirect Participants.

DTC has also advised the Company that, pursuant to procedures established by it:

- (1) upon deposit of the Global Notes for a series of notes, DTC will credit the accounts of Participants with portions of the principal amount of the Global Notes for such series; and
- (2) ownership of these interests in Global Notes will be shown on, and the transfer of ownership of these interests will be effected only through, records maintained by DTC (with respect to the Participants) or by the Participants and the Indirect Participants (with respect to other owners of beneficial interests in Global Notes).

All interests in a Global Note may be subject to the procedures and requirements of DTC. Interests in a Global Note held through Euroclear or Clearstream may be subject to the procedures and requirements of those systems as well. The laws of some states require that certain persons take physical delivery in definitive form of securities that they own and the ability to transfer beneficial interests in a Global Note to Persons that are subject to those requirements

will be limited to that extent. Because DTC can act only on behalf of Participants, which in turn act on behalf of Indirect Participants, the ability of a person having beneficial interests in a Global Note to pledge those interests to Persons that do not participate in the DTC system, or otherwise take actions in respect of those interests, may be affected by the lack of a physical certificate evidencing those interests.

Except as described below, owners of an interest in Global Notes will not have notes registered in their names, will not receive physical delivery of definitive notes in registered certificated form (Certificated Notes) and will not be considered the registered owners or Holders thereof under the indentures governing the notes for any purpose.

Table of Contents

Payments in respect of the principal of and premium, interest and special interest, if any, on a Global Note registered in the name of DTC or its nominee will be payable to DTC in its capacity as the registered Holder under the applicable indenture. Under the terms of each indenture, the Company and the Trustee will treat the Persons in whose names notes, including Global Notes, are registered as the owners of such notes for the purpose of receiving payments and for all other purposes. Consequently, none of the Company, the Trustee or any agent of the Company or the Trustee has or will have any responsibility or liability for:

- (1) any aspect of DTC's records or any Participant's or Indirect Participant's records relating to or payments made on account of beneficial ownership interests in Global Notes or for maintaining, supervising or reviewing any of DTC's records or any Participant's or Indirect Participant's records relating to the beneficial ownership interests in Global Notes; or
- (2) any other matter relating to the actions and practices of DTC or any of its Participants or Indirect Participants.

DTC has advised the Company that its current practice, upon receipt of any payment in respect of securities such as the notes (including principal and interest), is to credit the accounts of the relevant Participants with the payment on the payment date unless DTC has reason to believe it will not receive payment on that payment date. Each relevant Participant is credited with an amount proportionate to its beneficial ownership of an interest in the principal amount of the relevant security as shown on the records of DTC. Payments by the Participants and the Indirect Participants to the beneficial owners of notes will be governed by standing instructions and customary practices and will be the responsibility of the Participants or the Indirect Participants and will not be the responsibility of DTC, the Trustee or the Company. Neither the Company nor the Trustee will be liable for any delay by DTC or any of its Participants in identifying the beneficial owners of any notes, and the Company and the Trustee may conclusively rely on and will be protected in relying on instructions from DTC or its nominee for all purposes.

Transfers between Participants in DTC will be effected in accordance with DTC's procedures, and will be settled in same-day funds and transfers between participants in Euroclear and Clearstream will be effected in accordance with their respective rules and operating procedures.

Cross-market transfers between the Participants, on the one hand, and Euroclear or Clearstream participants, on the other hand, will be effected through DTC in accordance with DTC's rules on behalf of Euroclear or Clearstream, as the case may be, by its respective depository; however, such cross-market transactions will require delivery of instructions to Euroclear or Clearstream, as the case may be, by the counterparty in such system in accordance with the rules and procedures and within the established deadlines (Brussels time) of such system. Euroclear or Clearstream, as the case may be, will, if the transaction meets its settlement requirements, deliver instructions to its respective depository to take action to effect final settlement on its behalf by delivering or receiving interests in the relevant Global Note from DTC, and making or receiving payment in accordance with normal procedures for same-day funds settlement applicable to DTC. Euroclear participants and Clearstream participants may not deliver instructions directly to the depositories for Euroclear or Clearstream.

DTC has advised the Company that it will take any action permitted to be taken by a Holder of a given series of notes only at the direction of one or more Participants to whose account DTC has credited the interests in the applicable series of Global Notes and only in respect of the portion of the aggregate principal amount of the applicable series of notes as to which that Participant or those Participants has or have given the relevant direction. However, if there is an Event of Default under such series of notes, DTC reserves the right to exchange the applicable Global Notes for legended notes in certificated form, and to distribute those notes to its Participants.

Although DTC, Euroclear and Clearstream have agreed to the foregoing procedures in order to facilitate transfers of interests in Global Notes among Participants, they are under no obligation to perform those procedures, and may

discontinue or change those procedures at any time. None of the Company, the Trustee or any of their respective agents will have any responsibility for the performance by DTC, Euroclear, Clearstream or their respective Participants or Indirect Participants of their respective obligations under the rules and procedures governing their operations.

Exchange of Global Notes for Certificated Notes

A Global Note is exchangeable for a Certificated Note of the same series if:

DTC (a) notifies the Company that it is unwilling or unable to continue as depository for the applicable Global Notes or (b) has ceased to be a clearing agency registered under the Exchange Act and, in each case, a successor depository is not appointed within 90 days of such notice or cessation; or

the Company, at its option, notifies the Trustee in writing that it elects to cause the issuance of Certificated Notes; or

there has occurred and is continuing an Event of Default with respect to the notes.

In addition, beneficial interests in a Global Note may be exchanged for Certificated Notes of the same series upon prior written notice given to the Trustee by or on behalf of DTC in accordance with the applicable Indenture. In all cases, Certificated Notes delivered in exchange for any Global Note or beneficial interests in a Global Note will be registered in the names, and issued in any approved denominations, requested by or on behalf of the depository (in accordance with its customary procedures).

Same Day Settlement and Payment

The Company will make payments in respect of the notes represented by the Global Notes (including principal, premium, if any, interest and Special Interest, if any) by wire transfer of immediately available funds to the accounts specified by DTC or its nominee. The Company will make all payments of principal, interest and premium, if any, and Special Interest, if any, with respect to Certificated Notes by wire transfer of immediately available funds to the accounts specified by the holders of the Certificated Notes or, if no such account is specified, by mailing a check to each such holder's registered address. The notes represented by the Global Notes are expected to be eligible to trade in DTC's Same-Day Funds Settlement System, and any permitted secondary market trading activity in such notes will, therefore, be required by DTC to be settled in immediately available funds. The Company expects that secondary trading in any Certificated Notes will also be settled in immediately available funds.

Because of time zone differences, the securities account of a Euroclear or Clearstream participant purchasing an interest in a Global Note from a Participant will be credited, and any such crediting will be reported to the relevant Euroclear or Clearstream participant, during the securities settlement processing day (which must be a business day for Euroclear and Clearstream) immediately following the settlement date of DTC. DTC has advised the Company that cash received in Euroclear or Clearstream as a result of sales of interests in a Global Note by or through a Euroclear or Clearstream participant to a Participant will be received with value on the settlement date of DTC but will be available in the relevant Euroclear or Clearstream cash account only as of the business day for Euroclear or Clearstream following DTC's settlement date.

CERTAIN U.S. FEDERAL INCOME TAX CONSIDERATIONS

The following is a summary of certain United States federal income tax consequences of the exchange of old notes for new notes pursuant to the exchange offer by a holder of old notes that purchased old notes for cash at original issuance at the price indicated on the cover of the original offering circular. This summary is based upon existing United States federal income tax law, which is subject to change or differing interpretations, possibly with retroactive effect. This summary does not discuss all aspects of United States federal income taxation that may be important to particular investors in light of their individual circumstances, such as investors subject to special tax rules (e.g., financial institutions, insurance companies, broker-dealers, traders that elect to mark-to-market and tax-exempt organizations), persons that held old notes or will hold new notes as a part of a straddle, hedge, conversion, constructive sale or other integrated transaction for United States federal income tax purposes, partnerships or U.S. Holders (as defined below) that have a functional currency other than the United States dollar, all of whom may be subject to tax rules that differ materially from those summarized below. In addition, this summary does not discuss any federal estate or gift, foreign, state or local tax considerations of the exchange offer. This summary is written for investors that held their old notes and will hold their new notes as capital assets under the Internal Revenue Code of 1986, as amended (the Code). Each prospective investor is urged to consult its tax advisor regarding the United States federal, state, local and foreign income and other tax consequences of the exchange offer.

For purposes of this summary, a U.S. Holder is a beneficial owner of an exchange note that is, for United States federal income tax purposes, (i) an individual who is a citizen or resident of the United States, (ii) a corporation or other entity treated as a corporation for United States federal income tax purposes, created in or organized under the law of the United States or any state or political subdivision thereof, (iii) an estate the income of which is includible in gross income for United States federal income tax purposes regardless of its source, or iv) a trust (A) the administration of which is subject to the primary supervision of a United States court and with respect to which one or more United States persons have the authority to control all substantial decisions of the trust, or (B) that has in effect a valid election under applicable United States Treasury regulations to be treated as a United States person. If a partnership (including any entity or arrangement treated as a partnership for United States federal income tax purposes) is a beneficial owner of new notes, the treatment of a partner in the partnership generally will depend upon the status of the partner and the activities of the partnership. A holder of new notes that is a partnership and partners in such a partnership are urged to consult their tax advisors about the United States federal income tax consequences of the exchange offer and of the holding and disposing of new notes.

Exchange Offer

The exchange of old notes for new notes in the exchange offer generally will not constitute a taxable exchange for holders because new notes generally will not be considered to differ materially in kind or extent from old notes. As a result, for U.S. federal income tax purposes (i) a holder generally will not recognize any income, gain or loss as a result of exchanging an old note for a new note; (ii) the holding period of a new note generally will include the holding period of an old note exchanged therefor; and (iii) the adjusted tax basis of a new note generally will be the same as the adjusted tax basis of an old note exchanged therefor immediately before such exchange.

CERTAIN ERISA CONSIDERATIONS

The following is a summary of certain considerations associated with the purchase and holding of the notes by (a) employee benefit plans that are subject to Title I of the Employee Retirement Income Security Act of 1974, as amended (ERISA), (b) plans, individual retirement accounts and other arrangements that are subject to Section 4975 of the Internal Revenue Code (the Code) or provisions under any federal, state, local, non-U.S. or other laws, rules or regulations that are similar to such provisions of ERISA or the Code (collectively, Similar Laws), and (c) entities whose underlying assets are considered to include plan assets by reason of a plan s investment in such entities (each of (a), (b) and (c), a Plan).

General Fiduciary Matters

ERISA and the Code impose certain duties on persons who are fiduciaries of a Plan subject to Title I of ERISA or Section 4975 of the Code (an ERISA Plan) and prohibit certain transactions involving the assets of an ERISA Plan and its fiduciaries or other interested parties. Under ERISA and the Code, any person who exercises any discretionary authority or control over the administration of such an ERISA Plan or the management or disposition of the assets of such an ERISA Plan, or who renders investment advice for a fee or other compensation to such an ERISA Plan, is generally considered to be a fiduciary of the ERISA Plan.

In considering an investment in the notes with any portion of the assets of a Plan, a fiduciary of the Plan should consider, among other matters, whether the investment is in accordance with the documents and instruments governing the Plan and the applicable provisions of ERISA, the Code or any applicable Similar Law relating to a fiduciary s duties to the Plan including, without limitation, the prudence, diversification, delegation of control and prohibited transaction provisions of ERISA, the Code and any other applicable Similar Laws.

Prohibited Transaction Issues

Section 406 of ERISA and Section 4975 of the Code prohibit ERISA Plans from engaging in specified transactions involving plan assets with persons or entities who are parties in interest, within the meaning of Section 406 of ERISA, or disqualified persons, within the meaning of Section 4975 of the Code, unless an exemption is available. A party in interest or disqualified person, including a fiduciary of an ERISA Plan, who engages in a non-exempt prohibited transaction may be subject to excise taxes and other penalties and liabilities under ERISA and the Code. Plans that are governmental plans (as defined in Section 3(32) of ERISA), certain church plans (as defined in Section 3(33) of ERISA or Section 4975(g)(3) of the Code) and non-U.S. plans (as described in Section 4(b)(4) of ERISA) are not subject to the requirements of ERISA or Section 4975 of the Code but may be subject to similar prohibitions under other applicable Similar Laws.

The acquisition and/or holding of the notes by an ERISA Plan with respect to which the Company, a guarantor or any of the initial purchasers of the outstanding notes, or certain of our or their affiliates, are considered a party in interest or a disqualified person may constitute or result in a direct or indirect prohibited transaction under Section 406 of ERISA and/or Section 4975 of the Code, unless the investment is acquired and is held in accordance with an applicable statutory, class or individual prohibited transaction exemption. In this regard, the U.S. Department of Labor has issued prohibited transaction class exemptions (PTCEs) that may apply to provide exemptive relief for direct or indirect prohibited transactions resulting from the acquisition and/or holding of the notes. These class exemptions include, without limitation, PTCE 84-14 for transactions determined by independent qualified professional asset managers, PTCE 90-1 for transactions involving insurance company pooled separate accounts, PTCE 91-38 for transactions involving bank collective investment funds, PTCE 95-60 for transactions involving life insurance

company general accounts and PTCE 96-23 for transactions determined by in-house asset managers. In addition, Section 408(b)(17) of ERISA and Section 4975(d)(20) of the Code provide an exemption from the prohibited transaction provisions of ERISA and Section 4975 of the Code for the purchase and sale of securities, provided that neither the issuer of the securities nor any of its affiliates (directly or indirectly) have or exercise any discretionary authority or control or render any investment advice with respect to the assets of any ERISA Plan involved in the transaction and provided further that the ERISA Plan receives no less, and pays no more, than adequate consideration in connection with the transaction. There can be no assurance that all of the conditions of any such exemptions will be satisfied.

Table of Contents

Because of the foregoing, the notes should not be purchased or held by any person investing plan assets of any Plan, unless such purchase and holding will not constitute a non-exempt prohibited transaction under ERISA or Section 4975 of the Code or a similar violation of any applicable Similar Laws.

Representation

Accordingly, by purchasing and holding notes, each purchaser and subsequent transferee will be deemed to have represented and warranted that either (i) it is not a Plan, and no portion of the assets used by such purchaser or transferee to acquire and hold the notes constitutes assets of any Plan or (ii) neither the purchase nor the holding of the notes by such purchaser or subsequent transferee will result in a non-exempt prohibited transaction under Section 406 of ERISA or Section 4975 of the Code or a similar violation under any applicable Similar Laws.

The foregoing discussion is general in nature and is not intended to be all inclusive. Due to the complexity of these rules and the penalties that may be imposed upon persons involved in non-exempt prohibited transactions, it is particularly important that fiduciaries, or other persons considering whether to purchase the notes on behalf of, or with the assets of, any Plan, consult with their counsel regarding the potential applicability of ERISA, Section 4975 of the Code and any Similar Laws to such transaction and whether an exemption would be applicable to such transaction. Investors in the notes have exclusive responsibility for ensuring that their purchase of the notes does not violate the fiduciary or prohibited transaction rules of ERISA or the Code or any similar provisions of Similar Laws. The sale of any notes by or to any Plan is in no respect a representation by us or any of our affiliates or representatives that such an investment meets all relevant legal requirements with respect to investments by such Plans generally or any particular Plan, or that such an investment is appropriate for such Plans generally or any particular Plan.

PLAN OF DISTRIBUTION

Each broker-dealer that holds old notes that were acquired for its own account as a result of market-making activities or other trading activities (other than old notes received directly from us), may exchange such old notes pursuant to the exchange offer. However, such broker-dealer may be deemed to be an underwriter within the meaning of the Securities Act and must, therefore, deliver a prospectus meeting the requirements of the Securities Act in connection with any resales of the new notes received by such broker-dealer in the exchange offer, which prospectus delivery requirement may be satisfied by the delivery by such broker-dealer of this prospectus.

Each broker dealer that receives new notes for its own account pursuant to the exchange offer must acknowledge that it will deliver a prospectus in connection with any resale of such new notes. This prospectus, as it may be amended or supplemented from time to time, may be used by a broker-dealer in connection with resales of new notes received in exchange for old notes where such old notes were acquired as a result of market-making activities or other trading activities. For a period ending on the earlier of (i) 90 days from the date on which the exchange offer is declared effective and (ii) the date on which a broker-dealer is no longer required to deliver a prospectus in connection with market-making or other trading activities, we will promptly send additional copies of this prospectus and any amendment or supplement to this prospectus to any broker-dealer that requests such documents in the letter of transmittal. We have agreed to pay all expenses incident to the exchange offer (including the expenses of one counsel for the holders of the old notes) other than commissions or concessions of any broker-dealers and will indemnify the holders of the old notes (including any broker-dealers) against certain liabilities, including liabilities under the Securities Act.

We will not receive any proceeds from any sale of new notes by broker-dealers. New notes received by broker-dealers for their own account pursuant to the exchange offer may be sold from time to time in one or more transactions in the over-the-counter market, in negotiated transactions, through the writing of options on the new notes or a combination of such methods of resale, at market prices prevailing at the time of resale, at prices related to such prevailing market prices or at negotiated prices. Any such resale may be made directly to purchasers or to or through brokers or dealers who may receive compensation in the form of commissions or concessions from any such broker-dealer or the purchasers of any such new notes. Any broker-dealer that resells new notes that were received by it for its own account pursuant to the exchange offer and any broker or dealer that participates in a distribution of such new notes may be deemed to be an underwriter within the meaning of the Securities Act and any profit on any such resale of new notes and any commission or concessions received by any such persons may be deemed to be underwriting compensation under the Securities Act. The letter of transmittal states that, by acknowledging that it will deliver and by delivering a prospectus, a broker-dealer will not be deemed to admit that it is an underwriter within the meaning of the Securities Act.

Furthermore, any broker-dealer that acquired any of the old notes directly from us:

may not rely on the applicable interpretation of the staff of the SEC's position contained in Exxon Capital Holdings Corp., SEC no-action letter (April 13, 1988), Morgan, Stanley & Co. Inc., SEC no-action letter (June 5, 1991) and Shearman & Sterling, SEC no-action letter (July 2, 1993); and

must also be named as a selling noteholder in connection with the registration and prospectus delivery requirements of the Securities Act relating to any resale transaction.
