NOBLE INTERNATIONAL, LTD.

NOTES TO CONSOLIDATED INTERIM FINANCIAL STATEMENTS

NOTE A--BASIS OF PRESENTATION

The accompanying unaudited consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, the financial statements do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments considered necessary for a fair presentation have been included and such adjustments are of a normal recurring nature.

The accompanying consolidated financial statements as of June 30, 2002 and for the year ended December 31, 2001, include Noble International, Ltd. and its wholly-owned subsidiaries, Noble Component Technologies ("NCT"); Monroe Engineering Products, Inc. ("Monroe"), Skandy Corp. ("Skandy"), Noble Metal Forming, Inc. ("NMF"), Noble Metal Processing, Inc. ("NMP"), Noble Land Holdings, Inc. ("Land Holdings"), Noble Metal Processing-Midwest, Inc. (formerly H&H Steel Processing, Inc.) ("NMPM"), Noble Manufacturing Group, Inc. ("NMG"), (formerly Noble Technologies, Inc.), Noble Metal Processing Canada, Inc. ("NMPC"), Noble Metal Processing - Kentucky, LLC ("NMPK"), Noble Logistic Services, Inc. ("NLS"), Noble Logistic Services, Inc. (formerly Assured Transportation & Delivery, Inc. and Central Transportation & Delivery, Inc., collectively "NLS-CA"), Noble Logistic Services, Inc. (formerly Dedicated Services, Inc.) ("NLS-TX"), Pro Motorcar Products, Inc. ("PMP"), Pro Motorcar Distribution, Inc. ("PMD") and Noble Construction Equipment, Inc. ("NCE") (formerly Construction Equipment Direct, Inc. ("CED")), (collectively, "Noble"

Edgar Filing: NOBLE INTERNATIONAL LTD - Form 10-Q/A

or the "Company") from the date of acquisition to the date of disposition, if applicable.

Results for interim periods should not be considered indicative of results for a full year. The December 31, 2001 consolidated balance sheet was derived from audited financial statements, but does not include all disclosures required by accounting principles generally accepted in the United States of America. For further information, refer to the consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2001.

In February 2002, the market price requirement of 107,452 shares of the Company's putable common stock that was issued in connection with the acquisition of Dedicated Services, Inc. in 2000 was met, resulting in the put option expiring. Therefore, the common stock was reclassified from long-term debt to stockholders' equity.

On April 1, 2002, the Company converted its \$7.6 million note receivable, including interest, from SET Enterprises, Inc. ("SET") into preferred stock of SET. The preferred stock is non-voting and is redeemable at the Company's option in 2007. The Company agreed to convert the subordinated promissory note to preferred stock in order to assist SET in obtaining capital without appreciably decreasing the Company's repayment rights or jeopardize SET's minority status. Management believes that continued support of SET furthers the joint strategic objectives of the two companies.

On April 22, 2002, the Company completed a sale and leaseback transaction of its Shelbyville, KY facility to the Company's Chief Executive Officer. The sale price was \$6.2 million which was equal to the book value of the property. The proceeds of the transaction were used to reduce the Company's debt under its current credit facility. The lease has a term of five years and provides for monthly rent of \$70,000. The sale price and rent amount were determined by the estimated fair value of the property and estimated prevailing lease rates for similar properties. Although the

7

Company did not obtain an independent valuation of the property or the terms of the transaction, it believes the terms of the sale and leaseback were at least as favorable to Noble as terms that could have been obtained from an unaffiliated third party.

On May 9, 2002 the Company's current credit facility was increased to \$60.0 million from \$52.5 million. The credit facility expires in September 2002. The Company has a binding commitment from its lender on a new \$60.0 million credit facility that will take effect in September 2002 and will expire in 2005. Therefore, the Company has reclassified its current credit facility from current liabilities to long-term liabilities.

On June 20, 2002 the Company filed a registration statement on Form S-2 concerning an offering of 3.5 million shares of its common stock. As of the date of this report, the registration statement has not been declared effective by the Securities and Exchange Commission.

Basic earnings per share are based upon the weighted average number of shares outstanding during each quarter. Diluted earnings per share assumes the exercise of common stock options and warrants when dilutive and the impact of restricted stock.

NOTE C--INDUSTRY SEGMENTS

The Company classifies its operations into three industry segments based on types of products and services: automotive (NMPK, NMPC, NMP, NMPM, NMF and Land Holdings), heavy equipment (NCE) and logistics (NLS-TX, NLS-CA, Monroe, PMP and PMD). The automotive group provides a variety of laser welding, metal blanking and die construction products and services utilizing proprietary laser weld and light die technology. The heavy equipment group designs and manufactures sub assemblies and final assemblies of heavy equipment used primarily in the construction industry. The logistics group provides same day package delivery services to a variety of customers and sells tooling components, paint and coatings related products to end users as well as distributors. The automotive group sells direct to automotive OEMs and Tier I suppliers. The heavy equipment group sells direct to OEMs and through an established network of dealers.

Transactions between the automotive, heavy equipment and logistics segments are not significant and have been eliminated in the statements. Interest expense is allocated to each segment based on the segment's actual borrowings from the corporate headquarters, together with a partial allocation of corporate general and administrative expenses. Revenues from external customers are identified geographically based on the customer's shipping destination.

NOTE D - RESTRUCTURING RESERVE

The restructuring reserve of \$3.9 million recorded in December 2000, which had a balance of \$1.5 million at December 31, 2001, was reduced by \$0.75 million during the first quarter for lease costs incurred on vacated property and losses incurred in connection with the sale of certain real estate. During the second quarter the reserve was reduced by \$0.2 million related to repair of vacated facilities. The balance in the restructuring reserve at June 30, 2002 was \$0.5 million and represents the expected costs associated with real estate that is being marketed for sale. Resolution of these items is expected by December 31, 2002.

12

NOTE E - ACCOUNTING PRONOUNCEMENTS

In June 2001, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards ("SFAS") No. 142, Goodwill and Other Intangible Assets. SFAS No. 142 is effective for fiscal years beginning after December 15, 2001 and applies to all goodwill and other intangible assets recognized in an entity's statement of financial position at that date, regardless of when those assets were initially recognized. The Company adopted this statement on January 1, 2002, and goodwill will no longer be amortized. As of June 30, 2002 the Company has goodwill of \$40.8 million.

A reconciliation of previously reported net income and earnings per share related to the amounts adjusted for the exclusion of goodwill amortization net of the related income tax effect follows:

For the six-month period ended June 30, 2002 no goodwill or other intangible assets were acquired, impaired or disposed.

Covenants not to compete are amortized over the life of the agreement, typically three to ten years. Amortization expense for the six months ended June 30, 2002 and 2001 were \$0.1 million and \$0.1 million, respectively. Annual pre-tax amortization of covenants not to compete are estimated as follows:

Fiscal Year	(in thousands)
2003	\$ 285
2004	267
2005	76
2006	65
2007	65
Thereafter	122

NOTE F - Adjustment of Diluted Earnings Per Share

Subsequent to the issuance of the Company's interim financial statements for the three and six month periods ended June 30, 2002, it was determined that diluted earnings per share had been calculated incorrectly. The effect of the correction was to reduce diluted earnings per share from \$0.28 to \$0.26 and \$0.51 to \$0.49 for the three and six month periods ended June 30, 2002.

ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

RESULTS OF OPERATIONS

Net Sales. Net sales for the six months ended June 30, 2002 reached \$115.7 million, an increase of \$55.6 million, or 92.5%, compared to the same period of 2001. For the second quarter ending June 30, 2002, net sales grew to

Edgar Filing: NOBLE INTERNATIONAL LTD - Form 10-Q/A

\$60.7 million, an increase of \$28.1 million, or 86.4%, compared to the second quarter of 2001. The increase in sales is attributable to increased revenue from all operating segments. The automotive segment increased sales 86.1% for the quarter and 100.5% for the six-month period. These increases were primarily the result of increased value-added sales resulting from the utilization of laser-welded components on more vehicle models and platforms. In addition, our automotive segment's revenue was positively impacted by increased steel sales. The logistics segment experienced increased sales of 10.1% for the quarter and 10.0% for the six-month period as this segment continues to execute its strategy. Net sales were also positively impacted in 2002 by the inclusion of net sales of the heavy equipment segment of \$12.6 million and \$24.2 million for the three and six month periods respectively. The heavy equipment segment was acquired in December 2001.

Cost of Sales. Cost of sales for the six-month period ended June 30, 2002 increased by \$50.6 million to \$95.7 million, an increase of 112.1% compared to the same period in 2001. For the second quarter ending June 30, 2002, cost of sales increased by \$25.4 million, or 103.1%, compared to the second quarter of 2001. These increases were primarily the result of increased net sales across all segments, increased steel purchases and the inclusion of the heavy equipment segment acquired in December 2001. Cost of sales as a percentage of sales increased from 75.1% for the six-month period June 30, 2001 to 82.7% for the same period in 2002. For the second quarter of 2001 and 2002, cost of sales as a percentage of sales was 75.6% and 82.4% respectively. The increase in the percentage of cost of sales to sales for the quarter and six months periods is due to the increased steel sales in the automotive segment as it transitions to a full service supplier from a toll processor, as well as the inclusion of the heavy equipment segment, which has higher cost of sales as a percentage of sales than our other operating segments. The logistics segment experienced costs of sales as a percentage of sales that were consistent with historical results.

Gross Margin. Gross margin increased \$5.0 million to \$20.0 million for the period ending June 30, 2002, or 33.6%, from \$15.0 million for the comparable period in 2001. For the second quarter, gross margin increased by \$2.7 million to \$10.7 million, or an increase of 34.4% compared to a gross margin of \$8.0 million for the same quarter in 2001. The increase was primarily the result of the inclusion of the heavy equipment segment as well as higher sales in the other operating segments. Gross margin as a percentage of sales decreased from 24.9% in the 2001 six-month period to 17.3% in the 2002 period. For the second quarter of 2002, gross margin as a percentage of sales decreased from 24.4% in 2001 to 17.6% in 2002. The decrease in gross margin as a percentage of sales was primarily the result of increased steel sales within the automotive segment and the inclusion of the heavy equipment segment, as noted above.

Selling, General and Administrative Expenses. Selling, general and administrative expenses increased by \$2.4 million, or 22.9%, to \$13.1 million for the six-month period ended June 30, 2002 as compared to \$10.6 million in the comparable period of 2001. For the second quarter of 2002, these expenses grew by \$1.6 million, or 31.3%, to \$6.9 million compared to the same period in 2001. This increase was primarily the result of the inclusion of the heavy equipment segment, acquired in December 2001, partially offset by expense reductions in the logistics segment. As a percentage of net sales, such expenses decreased to 11.3% for the six months ended June 30, 2002 from 17.7% for the six months ended June 30, 2001.

Operating Profit. As a result of the foregoing factors, operating profit increased \$2.6 million, or 59.8%, to \$6.9 million for the six-month period ended June 30, 2002 from \$4.3 million

Edgar Filing: NOBLE INTERNATIONAL LTD - Form 10-Q/A

for the same period in 2001. For the second quarter ended June 30, 2002, operating profit increased by \$1.1 million, or 40.5%, to \$3.8 million from \$2.7 million in the same quarter of 2001. As a percentage of net sales, operating profit decreased slightly to 6.0% for the six months ended June 30, 2002 from 7.2% for the six months ended June 30, 2001. For the three-month period ended June 30, 2002 operating profit as a percentage of net sales decreased from 8.3% to 6.2% compared to the same period in 2001.

Interest Income. Interest income decreased by \$0.8 million, or 62.9% to \$0.5 million for the six-month period ended June 30, 2002 from \$1.3 million for the same period in 2001. For the three-month period ended June 30, 2002, interest income decreased by \$0.5 million, or 69.8% to \$0.2 million from \$0.8 million for the same period in 2001. The decrease was the result of lower notes receivable balances related to the sale of a business in 2001.

Interest Expense. Interest expense decreased 42.0%, to \$1.5 million, for the six months ended June 30, 2002 from \$2.6 million for the comparable period of 2001. For the three-month period ended June 30, 2002 the reduction was 50.4% to \$0.7 million. The reduction was the result of lower interest rates and, to a lesser extent, lower borrowings.

Income Tax Expense. Income tax expense for the six-month period ended June 30, 2002 decreased 10.5%, or \$0.2 million, to \$2.1 million from \$2.4 million for the comparable period in 2001. The second quarter expense increased 74.2% or \$0.5 million to \$1.2 million from \$0.7 million for the second quarter of 2001. The six-month decrease is primarily the result of a one-time \$1.1 million tax expense in the 2001 period related to a difference between the tax and book bases for businesses sold. The increase in the second quarter of 2002 compared to the same quarter of 2001 was due primarily to higher earnings.

Net Earnings. As a result of the foregoing factors, net earnings for the six-month period ended June 30, 2002 increased to \$3.6 million from \$0.9 million for the comparable period of the prior year, an increase of 286.5%. For the second quarter, net income increased 74.9% to \$2.0 million from \$1.1 million in the second quarter of 2001.

LIQUIDITY AND CAPITAL RESOURCES

The Company's cash requirements have historically been satisfied through a combination of cash flows from operations, and equity and debt financing. The Company's working capital needs and capital equipment requirements have increased as a result of the growth of the Company and are expected to continue to increase as a result of anticipated growth. The anticipated increase in required working capital and capital equipment requirements are expected to be met from cash flow from operations, equipment financing, revolving credit borrowings and equity financing.

The Company generated cash from operations of \$1.6 million for the six months ended June 30, 2002 compared to \$1.4 million for the same period in 2001. Net cash provided by operations was primarily the result of net income, increased accounts payable, depreciation, amortization, and income taxes payable, which was partially offset by a decrease in accrued liabilities and increases in accounts receivable and prepaid expenses. Net cash used in investing activities of \$3.0 million for the six months ended June 30, 2002 was primarily due to purchases of property, plant and equipment, partially offset by the sale of real estate. Financing activities provided cash of \$1.0 million for the six months ended June 30, 2002 primarily from net borrowings on the Company's Credit Facility.

Edgar Filing: NOBLE INTERNATIONAL LTD - Form 10-Q/A

In February 2002, one of the Company's customers, National Steel, Inc. filed for Chapter 11 bankruptcy protection. The Company has a pre-petition account receivable in the amount of approximately \$1.2 million. The Company is currently evaluating possible options for collection but has created a reserve of \$0.2 million for the possible uncollectible amounts of this receivable.

15

This reserve was based on the Company's best estimate. The Company does not anticipate any loss of sales due to this event.

The amount of the Company's revolving credit facility with Comerica Bank (the "Credit Facility") was \$50 million at December 31, 2001, subsequently amended to \$60.0 million in May 2002. The Credit Facility expires on September 30, 2002. The Company has a commitment from its lender on a new \$60.0 million Credit Facility that will take effect in September 2002 and will expire in 2005. Therefore, the Company has reclassified its current Credit Facility from current liabilities to long-term liabilities. The Credit Facility is secured by the assets of Noble and its subsidiaries and provides for the issuance of up to \$5.0 million in standby or documentary letters of credit. The Credit Facility may be utilized for general corporate purposes, including working capital and acquisition financing, and provides the Company with borrowing options for multi-currency loans. Borrowing options include a euro-currency rate or a base rate. Advances under the Credit Facility during the six months ended June 30, 2002 bore interest at the rate of approximately 4.52% per annum. The Credit Facility is subject to customary financial and other covenants including, but not limited to, limitations on payment of dividends, limitations on consolidations, mergers, and sales of assets, and bank approval on acquisitions over \$25.0 million (\$15 million under the new facility). The Company is in compliance with the terms of the Credit Facility. The Company currently guarantees \$10.0 million of SET Enterprises, Inc.'s senior debt. As of the date of this report, the Company does not believe the lender will call the guarantee.

On April 22, 2002, the Company completed a sale and leaseback transaction of its Shelbyville, KY facility to the Company's Chief Executive Officer. The sale price was \$6.2 million which was equal to the book value of the property. The proceeds of the transaction were used to reduce the Company's debt under the Credit Facility. The lease has a term of five years and provides for monthly rent of \$70,000. The sale price and rent amount were determined by the estimated fair value of the property and estimated prevailing lease rates for similar properties. Although the Company did not obtain an independent valuation of the property or the terms of the transaction, management believes the terms of the sale and leaseback were at least as favorable to Noble as terms that could have been obtained from an unaffiliated third party.

The liquidity provided by the Company's Credit Facility and committed Credit Facility is expected to be sufficient to meet the Company's currently anticipated working capital and capital expenditure needs for at least twelve months. There can be no assurance, however, that such funds will not be expended prior thereto due to changes in economic conditions or other unforeseen circumstances, requiring the Company to obtain additional financing prior to the end of such twelve-month period. In addition, the Company regularly reviews, as part of its business strategy, future growth through opportunistic acquisitions which may involve the expenditure of significant funds. Depending upon the nature, size and timing of future acquisitions, if any, the Company may be required to obtain additional debt or equity financing in connection with such future acquisitions. There can be no assurance, however, that additional financing will be available to the Company, when and if needed, on acceptable terms or at all.

Edgar Filing: NOBLE INTERNATIONAL LTD - Form 10-Q/A

INFLATION

Inflation generally affects the Company by increasing the interest expense of floating rate indebtedness and by increasing the cost of labor, equipment and raw materials. The Company does not believe that inflation has had a material effect on its business over the past two years.

ITEM 3: QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company is exposed to the impact of foreign currency fluctuations. International revenues from the Company's foreign subsidiaries were approximately 13.4% of the total revenues

16

for the six months ended June 30, 2002 and 19.0% for the second quarter ended June 30, 2002. The Company's primary foreign currency exposures are the Canadian Dollar and the Mexican Peso. The Company manages its exposures to foreign currency assets and earnings primarily by funding certain foreign currency denominated assets with liabilities in the same currency and, as such, certain exposures are naturally offset.

A portion of the Company's assets are based in its foreign operations and are translated into U.S. Dollars at foreign currency exchange rates in effect as of the end of each period, with the effect of such translation reflected as a separate component of stockholders' equity. Accordingly, the Company's consolidated stockholders' equity will fluctuate depending on the weakening or strengthening of the U.S. Dollar against the respective foreign currency.

The Company's financial results are affected by changes in U.S. and foreign interest rates. The Company does not hold financial instruments that are subject to market risk (interest rate risk and foreign exchange risk).
