#### PART I

### Item 1. Business.

## The Company

Mercantile Bank Corporation is a registered bank holding company under the Bank Holding Company Act of 1956, as amended (the Bank Holding Company Act ). Unless the text clearly suggests otherwise, references to us, we, our, or the company include Mercantile Bank Corporation and its wholly-owned subsidiaries. As a bank holding company, we are subject to regulation by the Board of Governors of the Federal Reserve System (the Federal Reserve Board ). We were organized on July 15, 1997, under the laws of the State of Michigan, primarily for the purpose of holding all of the stock of Mercantile Bank of Michigan (our bank), and of such other subsidiaries as we may acquire or establish. Our bank commenced business on December 15, 1997.

Mercantile Bank Mortgage Company initiated business in October 2000 as a subsidiary of our bank, and was reorganized as Mercantile Bank Mortgage Company, LLC (our mortgage company), on January 1, 2004. Mercantile Insurance Center, Inc. (our insurance company), a subsidiary of our bank, commenced operations during 2002 to offer insurance products. Mercantile Bank Real Estate Co., L.L.C., (our real estate company), a subsidiary of our bank, was organized on July 21, 2003, principally to develop, construct and own our new facility in downtown Grand Rapids which serves as our bank s new main office and Mercantile Bank Corporation s headquarters. Mercantile Bank Capital Trust I (the Mercantile trust), a business trust subsidiary, was formed in September 2004 to issue trust preferred securities.

To date we have raised capital from our initial public offering of common stock in October 1997, a public offering of common stock in July 1998, three private placements of common stock during 2001, a public offering of common stock in August 2001 and a public offering of common stock in September 2003. In addition, we raised capital through a public offering of \$16.0 million of trust preferred securities in 1999, which was refinanced as part of a \$32.0 million private placement of trust preferred securities in 2004. Our expenses have generally been paid using the proceeds of the capital sales and dividends from our bank. Our principal source of future operating funds is expected to be dividends from our bank.

We filed an election to become a financial holding company, pursuant to the Bank Holding Company Act, as amended by Title I of the Gramm-Leach-Bliley Act and implementing Federal Reserve Board regulations, which election became effective March 23, 2000.

#### **Our Bank**

Our bank is a state banking company that operates under the laws of the State of Michigan, pursuant to a charter issued by the Michigan Office of Financial and Insurance Services. Our bank s deposits are insured to the maximum extent permitted by law by the Federal Deposit Insurance Corporation (FDIC). Our bank s primary service area is the Kent and Ottawa County areas of West Michigan, which includes the City of Grand Rapids, the second largest city in the State of Michigan. In addition, our bank opened new offices in the cities of East Lansing and Ann Arbor, Michigan, during 2005, and in Novi, Michigan, during 2007.

Our bank, through its nine offices, provides commercial and retail banking services primarily to small- to medium-sized businesses based in and around the Grand Rapids, Holland, Lansing, Ann Arbor and Oakland County areas. These offices consist of a main office located at 310 Leonard Street NW, Grand Rapids, Michigan, a combination branch and retail loan center located at 4613 Alpine Avenue NW, Comstock Park, Michigan, a combination branch and operations center located at 5610 Byron Center Avenue SW, Wyoming, Michigan, and branches located at 4860 Broadmoor Avenue SE, Kentwood, Michigan, 3156 Knapp Street NE, Grand Rapids, Michigan, 880 East 16<sup>th</sup> Street, Holland, Michigan, 3737 Coolidge Road, East Lansing, Michigan, 325 Eisenhower Parkway, Ann Arbor, Michigan, and 28350 Cabot Drive, Novi, Michigan.

Our bank makes secured and unsecured commercial, construction, mortgage and consumer loans, and accepts checking, savings and time deposits. Our bank owns seven automated teller machines ( ATM ), located at our branch locations in Grand Rapids, Holland and East Lansing, that participate in the MAC, NYCE and PLUS regional network systems, as well as other ATM networks throughout the country. Our bank also enables customers to conduct certain loan and deposit transactions by telephone and personal computer. Courier service is provided to certain commercial customers, and safe deposit facilities are available at our branch locations in Grand Rapids, Holland and East Lansing. Our bank does not have trust powers. In December 2001, our bank entered into a joint brokerage services and marketing agreement with Raymond James Financial Services, Inc. to make available to its customers financial planning, retail brokerage, equity research, insurance and annuities, retirement planning, trust services and estate planning.

#### **Our Mortgage Company**

Our mortgage company s predecessor, Mercantile Bank Mortgage Company, commenced operations on October 24, 2000, when our bank contributed most of its residential mortgage loan portfolio and participation interests in certain commercial mortgage loans to Mercantile Bank Mortgage Company. On the same date, our bank also transferred its residential mortgage origination function to Mercantile Bank Mortgage Company. On January 1, 2004, Mercantile Bank Mortgage Company, which is 99% owned by our bank and 1% owned by our insurance company. The reorganization had no impact on the company s financial position or results of operations. Mortgage loans originated and held by our mortgage company are serviced by our bank pursuant to a servicing agreement.

#### **Our Insurance Company**

Our insurance company acquired an existing shelf insurance agency effective April 15, 2002. An Agency and Institution Agreement was entered into among our insurance company, our bank and Hub International for the purpose of providing programs of mass marketed personal lines of insurance. Insurance product offerings include private passenger automobile, homeowners, personal inland marine, boat owners, recreational vehicle, dwelling fire, umbrella policies, small business and life insurance products, all of which are provided by and written through companies that have appointed Hub International as their agent.

## **Our Real Estate Company**

Our real estate company was organized on July 21, 2003, principally to develop, construct and own our facility in downtown Grand Rapids that serves as our bank s main office and Mercantile Bank Corporation s headquarters. This facility was placed into service during the second quarter of 2005. Our real estate company is 99% owned by our bank and 1% owned by our insurance company.

## The Mercantile Trust

In 2004, we formed the Mercantile trust, a Delaware business trust. Mercantile trust s business and affairs are conducted by its property trustee, a Delaware trust company, and three individual administrative trustees who are employees and officers of the company. Mercantile trust was established for the purpose of issuing and selling its Series A and Series B trust preferred securities and common securities, and used the proceeds from the sales of those securities to acquire Series A and Series B Floating Rate Notes issued by the company. Substantially all of the net proceeds received by the company from the Series A transaction were used to redeem the trust preferred securities that had been issued by MBWM Capital Trust I in September 1999. We established MBWM Capital Trust I in 1999 to issue the trust preferred securities that were redeemed. Substantially all of the net proceeds received by the company from the Series as capital. The Series A and Series B Floating Rate Notes are categorized on our consolidated financial statements as subordinated debentures. Additional information regarding Mercantile trust is incorporated by reference to Note 15 Subordinated Debentures and Note 16 Regulatory Matters of the Notes to Consolidated Financial Statements included in this Annual Report on pages F-58 through F-60.

#### **Effect of Government Monetary Policies**

Our earnings are affected by domestic economic conditions and the monetary and fiscal policies of the United States government, its agencies, and the Federal Reserve Board. The Federal Reserve Board s monetary policies have had, and will likely continue to have, an important impact on the operating results of commercial banks through its power to implement national monetary policy in order to, among other things, curb inflation, maintain employment, and mitigate economic recessions. The policies of the Federal Reserve Board have a major effect upon the levels of bank loans, investments and deposits through its open market operations in United States government securities, and through its regulation of, among other things, the discount rate on borrowings of member banks and the reserve requirements against member bank deposits. Our bank maintains reserves directly with the Federal Reserve Bank of Chicago to the extent required by law. It is not possible to predict the nature and impact of future changes in monetary and fiscal policies.

## **Regulation and Supervision**

As a bank holding company under the Bank Holding Company Act, we are required to file an annual report with the Federal Reserve Board and such additional information as the Federal Reserve Board may require. We are also subject to examination by the Federal Reserve Board.

The Bank Holding Company Act limits the activities of bank holding companies that have not qualified as financial holding companies to banking and the management of banking organizations, and to certain non-banking activities. These non-banking activities include those activities that the Federal Reserve Board found, by order or regulation as of the day prior to enactment of the Gramm-Leach-Bliley Act, to be so closely related to banking as to be a proper incident to banking. These non-banking activities include, among other things: operating a mortgage company, finance company, or factoring company; performing certain data processing operations; providing certain investment and financial advice; acting as an insurance agent for certain types of credit-related insurance; leasing property on a full-payout, nonoperating basis; and providing discount securities brokerage services for customers. With the exception of the activities of our mortgage company discussed above, neither we nor any of our subsidiaries engages in any of the non-banking activities listed above.

In March 2000, our election to become a financial holding company, as permitted by the Bank Holding Company Act, as amended by Title I of the Gramm-Leach-Bliley Act, was accepted by the Federal Reserve Board. In order to continue as a financial holding company, we and our bank must satisfy statutory requirements regarding capitalization, management, and compliance with the Community Reinvestment Act. As a financial holding company, we are permitted to engage in a broader range of activities than are permitted to bank holding companies.

Those expanded activities include any activity which the Federal Reserve Board (in certain instances in consultation with the Department of the Treasury) determines, by order or regulation, to be financial in nature or incidental to such financial activity, or to be complementary to a financial activity and not to pose a substantial risk to the safety or soundness of depository institutions or the financial system generally. Such expanded activities include, among others: insuring, guaranteeing, or indemnifying against loss, harm, damage, illness, disability or death, or issuing annuities, and acting as principal, agent, or broker for such purposes; providing financial, investment, or economic advisory services, including advising a mutual fund; and underwriting, dealing in, or making a market in securities. Other than the insurance agency activities of our insurance company, neither we nor our subsidiaries presently engage in any of the expanded activities.

Our bank is subject to restrictions imposed by federal law and regulation. Among other things, these restrictions apply to any extension of credit to us or to our other subsidiaries, to investments in stock or other securities that we issue, to the taking of such stock or securities as collateral for loans to any borrower, and to acquisitions of assets or services from, and sales of certain types of assets to, us or our other subsidiaries. Federal law restricts our ability to borrow from our bank by limiting the aggregate amount we may borrow and by requiring that all loans to us be secured in designated amounts by specified forms of collateral.

With respect to the acquisition of banking organizations, we are generally required to obtain the prior approval of the Federal Reserve Board before we can acquire all or substantially all of the assets of any bank, or acquire ownership or control of any voting shares of any bank or bank holding company, if, after the acquisition, we would own or control more than 5% of the voting shares of the bank or bank holding company. Acquisitions of banking organizations across state lines are subject to certain restrictions imposed by Federal and state laws and regulations. **Employees** 

As of December 31, 2007, we and our bank employed 273 full-time and 75 part-time persons. Management believes that relations with employees are good.

#### **Lending Policy**

As a routine part of our business, we make loans and leases to businesses and individuals located within our market areas. Our lending policy states that the function of the lending operation is twofold: to provide a means for the investment of funds at a profitable rate of return with an acceptable degree of risk, and to meet the credit needs of the creditworthy businesses and individuals who are our customers. We recognize that in the normal business of lending, some losses on loans and leases will be inevitable and should be considered a part of the normal cost of doing business.

Our lending policy anticipates that priorities in extending loans and leases will be modified from time to time as interest rates, market conditions and competitive factors change. The policy sets forth guidelines on a nondiscriminatory basis for lending in accordance with applicable laws and regulations. The policy describes various criteria for granting loans and leases, including the ability to pay; the character of the customer; evidence of financial responsibility; purpose of the loan or lease; knowledge of collateral and its value; terms of repayment; source of repayment; payment history; and economic conditions.

The lending policy further limits the amount of funds that may be loaned or leased against specified types of real estate collateral. For certain loans secured by real estate, the policy requires an appraisal of the property offered as collateral by a state certified independent appraiser. The policy also provides general guidelines for loan to value and lease to value limits for other types of collateral, such as accounts receivable and machinery and equipment. In addition, the policy provides general guidelines as to environmental analysis, loans to employees, executive officers and directors, problem loan and lease identification, maintenance of an allowance for loan and lease losses, loan and lease review and grading, mortgage and consumer lending, and other matters relating to our lending practices.

The Board of Directors has delegated significant lending authority to officers of our bank. The Board of Directors believes this empowerment, supported by our strong credit culture and the significant experience of our commercial lending staff, makes us responsive to our customers. The loan policy currently specifies lending authority for certain officers up to \$5.0 million, and \$10.0 million for our bank s Chairman of the Board and Chief Executive Officer; however, the \$10.0 million lending authority is generally used only in rare circumstances where timing is of the essence. Generally, loan requests exceeding \$2.5 million require approval by the Officers Loan Committee, and loan requests exceeding \$4.0 million, up to the legal lending limit of approximately \$33.6 million, require approval by the Board of Directors. In most circumstances, we apply an in-house lending limit that is significantly less than our bank s legal lending limit.

## Lending Activity

*Commercial Loans.* Our commercial lending group originates commercial loans and leases primarily in our market areas. Our commercial lenders have extensive commercial lending experience, with most having at least ten years experience. Loans and leases are originated for general business purposes, including working capital, accounts receivable financing, machinery and equipment acquisition, and commercial real estate financing, including new construction and land development.

Working capital loans are often structured as a line of credit and are reviewed periodically in connection with the borrower s year-end financial reporting. These loans are generally secured by substantially all of the assets of the borrower, and have an interest rate tied to the national prime rate. Loans and leases for machinery and equipment purposes typically have a maturity of three to five years and are fully amortizing, while commercial real estate loans are usually written with a five-year maturity and amortize over a 15 to 20 year period. Commercial loans and leases typically have an interest rate that is fixed to maturity or is tied to the national prime rate.

We evaluate many aspects of a commercial loan or lease transaction in order to minimize credit and interest rate risk. Underwriting includes an assessment of the management, products, markets, cash flow, capital, income and collateral. This analysis includes a review of the borrower s historical and projected financial results. Appraisals are generally required by certified independent appraisers where real estate is the primary collateral, and in some cases, where equipment is the primary collateral. In certain situations, for creditworthy customers, we may accept title reports instead of requiring lenders policies of title insurance.

Commercial real estate lending involves more risk than residential lending because loan balances are greater and repayment is dependent upon the borrower s business operations. We attempt to minimize the risks associated with these transactions by generally limiting our commercial real estate lending to owner-operated properties of well-known customers or new customers whose businesses have an established profitable history. In many cases, risk is further reduced by limiting the amount of credit to any one borrower to an amount considerably less than our legal lending limit and avoiding certain types of commercial real estate financings.

We have no material foreign loans, and no material loans to energy producing customers. We have only limited exposure to companies engaged in agricultural-related activities.

*Single-Family Residential Real Estate Loans.* Our mortgage company originates single-family residential real estate loans in our market area, usually according to secondary market underwriting standards. Loans not conforming to those standards are made in limited circumstances. Single-family residential real estate loans provide borrowers with a fixed or adjustable interest rate with terms up to 30 years.

Our bank has a home equity line of credit program. Home equity credit is generally secured by either a first or second mortgage on the borrower s primary residence. The program provides revolving credit at a rate tied to the national prime rate.

*Consumer Loans.* We originate consumer loans for a variety of personal financial needs, including new and used automobiles, boat loans, credit cards and overdraft protection for our checking account customers. Consumer loans generally have shorter terms and higher interest rates and usually involve more credit risk than single-family residential real estate loans because of the type and nature of the collateral.

We believe our consumer loans are underwritten carefully, with a strong emphasis on the amount of the down payment, credit quality, employment stability and monthly income of the borrower. These loans are generally repaid on a monthly repayment schedule with the source of repayment tied to the borrower s periodic income. In addition, consumer lending collections are dependent on the borrower s continuing financial stability, and are thus likely to be adversely affected by job loss, illness and personal bankruptcy. In many cases, repossessed collateral for a defaulted consumer loan will not provide an adequate source of repayment of the outstanding loan balance because of depreciation of the underlying collateral.

We believe that the generally higher yields earned on consumer loans compensate for the increased credit risk associated with such loans, and that consumer loans are important to our efforts to serve the credit needs of the communities and customers that we serve.

#### Loan and Lease Portfolio Quality

We utilize a comprehensive grading system for our commercial loans and leases as well as residential mortgage and consumer loans. All commercial loans and leases are graded on a ten grade rating system. The rating system utilizes standardized grade paradigms that analyze several critical factors such as cash flow, management and collateral coverage. All commercial loans and leases are graded at inception and reviewed at various intervals thereafter. Residential mortgage and consumer loans are graded on a random sampling basis after the loan has been made using a separate standardized grade paradigm that analyzes several critical factors such as debt-to-income and credit and employment histories.

Our independent loan and lease review program is primarily responsible for the administration of the grading system and ensuring adherence to established lending policies and procedures. The loan and lease review program is an integral part of maintaining our strong asset quality culture. The loan and lease review function works closely with senior management, although it functionally reports to the Board of Directors. All commercial loan and lease relationships equal to or exceeding \$1.8 million are formally reviewed every twelve months, with a random sampling performed on credits under \$1.8 million. Our watch list credits are reviewed monthly by our Watch List Committee, which is comprised of personnel from the administration, lending and loan and lease review functions.

Loans and leases are placed in a nonaccrual status when, in our opinion, uncertainty exists as to the ultimate collection of principal and interest. As of December 31, 2007, loans and leases placed in nonaccrual status totaled \$28.8 million, or 1.60% of total loans and leases. As of the same date, loans and leases past due 90 days or more and still accruing interest totaled \$1.0 million, or 0.05% of total loans and leases. As of December 31, 2007, there were no other significant loans and leases where known information about credit problems of borrowers warranted the placing of the loans or leases in a nonaccrual status.

Additional detail and information relative to the loan and lease portfolio is incorporated by reference to Management s Discussion and Analysis of Financial Condition and Results of Operation (Management s Discussion and Analysis) beginning on Page F-4 and Note 3 of the Consolidated Financial Statements on pages F-46 and F-47 included in this Annual Report.

## Allowance for Loan and Lease Losses

In each accounting period, we adjust the allowance for loan and lease losses ( allowance ) to the amount we believe is necessary to maintain the allowance at adequate levels. Through the loan and lease review and credit departments, we attempt to allocate specific portions of the allowance based on specifically identifiable problem loans and leases. The evaluation of the allowance is further based on, but not limited to, consideration of the internally prepared Reserve Analysis, composition of the loan and lease portfolio, third party analysis of the loan and lease administration processes and portfolio and general economic conditions. In addition, the historical strong commercial loan and lease growth and expansions into new markets are taken into account.

The Reserve Analysis, used since our inception and completed monthly, applies reserve allocation factors to outstanding loan and lease balances to calculate an overall allowance dollar amount. For commercial loans and leases, which continue to comprise a vast majority of our total loans and leases, reserve allocation factors are based upon the loan ratings as determined by our standardized grade paradigms. For retail loans, reserve allocation factors are based upon the type of credit. Adjustments for specific lending relationships, including impaired loans and leases, are made on a case-by-case basis. The reserve allocation factors are primarily based on the recent levels and historical trends of net loan charge-offs and non-performing assets, the comparison of the recent levels and historical trends of net loan charge-offs and non-performing assets in the states of Michigan, Illinois, Indiana or Ohio, the review and consideration of our loan and lease migration analysis and the experience of senior management making similar loans and leases for an extensive period of time. We regularly review the Reserve Analysis and make adjustments periodically based upon identifiable trends and experience.

We believe that the present allowance is adequate, based on the broad range of considerations listed above.

The primary risks associated with commercial loans and leases are the financial condition of the borrower, the sufficiency of collateral, and lack of timely payment. We have a policy of requesting and reviewing periodic financial statements from our commercial loan and lease customers, and periodically reviewing existence of collateral and its value. The primary risk element that we consider for consumer and residential real estate loans is lack of timely payment. We have a reporting system that monitors past due loans and have adopted policies to pursue our creditor s rights in order to preserve our bank s collateral position.

Additional detail regarding the allowance is incorporated by reference to Management s Discussion and Analysis beginning on Page F-4 and Note 3 of the Notes to Consolidated Financial Statements of the Company on pages F-46 and F-47 included in this Annual Report.

Although we believe the allowance is adequate to absorb probable incurred losses as they arise, there can be no assurance that we will not sustain losses in any given period which could be substantial in relation to, or greater than, the size of the allowance.

#### Investments

*Bank Holding Company Investments*. The principal investments of our bank holding company are the investments in the common stock of our bank and the common securities of Mercantile trust. Other funds of our bank holding company may be invested from time to time in various debt instruments.

As a bank holding company, we are also permitted to make portfolio investments in equity securities and to make equity investments in subsidiaries engaged in a variety of non-banking activities, which include real estate-related activities such as community development, real estate appraisals, arranging equity financing for commercial real estate, and owning and operating real estate used substantially by our bank or acquired for its future use. In addition, our bank holding company s qualification as a financial holding company enables us to make equity investments in companies engaged in a broader range of financial activities than we could do without that qualification. Such expanded activities include insuring, guaranteeing, or indemnifying against loss, harm, damage, illness, disability or death, or issuing annuities, and acting as principal, agent, or broker for such purposes; providing financial, investment, or economic advisory services, including advising a mutual fund; and underwriting, dealing in, or making a market in securities. Our bank holding company has no plans at this time to make directly any of these equity investments at the bank holding company level. Our Board of Directors may, however, alter the investment policy at any time without shareholder approval.

In addition, so long as our bank holding company is qualified as a financial holding company, it would be permitted, as part of the business of underwriting or merchant banking activity and under certain circumstances and procedures, to invest in shares or other ownership interests in, or assets of, companies engaged in non-financial activities. In order to make those investments, our bank holding company would be required (i) to become, or to have an affiliate that is, a registered securities broker or dealer or a registered municipal securities dealer, or (ii) to control both an insurance company predominantly engaged in underwriting life, accident and health, or property and casualty insurance (other than credit insurance) or issuing annuities, and a registered investment adviser that furnishes investment advice to an insurance company. We do not currently have any securities, insurance, or investment advisory affiliates of the required types, nor does our bank holding company have any current plans to make any of the equity investments described in this paragraph.

*Our Bank s Investments.* Our bank may invest its funds in a wide variety of debt instruments and may participate in the federal funds market with other depository institutions. Subject to certain exceptions, our bank is prohibited from investing in equity securities. Among the equity investments permitted for our bank under various conditions and subject in some instances to amount limitations, are shares of a subsidiary insurance agency, mortgage company, real estate company, or Michigan business and industrial development company, such as our insurance company, our mortgage company, or our real estate company. Under another such exception, in certain circumstances and with prior notice to or approval of the FDIC, our bank could invest up to 10% of its total assets in the equity securities of a subsidiary corporation engaged in the acquisition and development of real property for sale, or the improvement of real property by construction or rehabilitation of residential or commercial units for sale or lease. Our bank has no present plans to make such an investment. Real estate acquired by our bank in satisfaction of or foreclosure upon loans may be held by our bank for specified periods. Our bank is also permitted to invest in such real estate as is necessary for the convenient transaction of its business. Our bank is Board of Directors may alter the bank is investment policy without shareholder approval at any time.

Additional detail and information relative to the securities portfolio is incorporated by reference to Management s Discussion and Analysis beginning on Page F-4 and Note 2 of the Notes to Consolidated Financial Statements on pages F-43 through F-45 included in this Annual Report.

#### Competition

Our primary markets for loans and core deposits are the Grand Rapids, Holland, Lansing, Ann Arbor and Oakland County metropolitan areas. We face substantial competition in all phases of our operations from a variety of different competitors. We compete for deposits, loans and other financial services with numerous Michigan-based and out-of-state banks, savings banks, thrifts, credit unions and other financial institutions as well as from other entities that provide financial services. Some of the financial institutions and financial service organizations with which we compete are not subject to the same degree of regulation as we are. Many of our primary competitors have been in business for many years, have established customer bases, are larger, have substantially higher lending limits than we do, and offer larger branch networks and other services which we do not. Most of these same entities have greater capital resources than we do, which, among other things, may allow them to price their services at levels more favorable to the customer and to provide larger credit facilities than we do. Under the Gramm-Leach-Bliley Act, effective March 11, 2000, securities firms and insurance companies that elect to become financial holding companies may acquire banks and other financial institutions. The Gramm-Leach-Bliley Act affects the competitive environment in which we conduct our business. The financial services industry is also likely to become more competitive as further technological advances enable more companies to provide financial services.

#### **Selected Statistical Information**

Management s Discussion and Analysis beginning on Page F-4 in this Annual Report includes selected statistical information.

#### **Return on Equity and Assets**

Return on Equity and Asset information is included in Management s Discussion and Analysis beginning on Page F-4 in this Annual Report.

## **Available Information**

We maintain an internet website at <u>www.mercbank.com</u>. We make available on or through our website, free of charge, our annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934 as soon as reasonably practical after we electronically file such material with, or furnish it to, the Securities and Exchange Commission. We do not intend the address of our website to be an active link or to otherwise incorporate the contents of our website into this Annual Report.

#### Item 1A. Risk Factors.

The following risk factors could affect our business, financial condition or results of operations. These risk factors should be considered in connection with evaluating the forward-looking statements contained in this Annual Report because they could cause the actual results and conditions to differ materially from those projected in forward-looking statements. Before you buy our common stock, you should know that investing in our common stock involves risks, including the risks described below. The risks that are highlighted here are not the only ones we face. If the adverse matters referred to in any of the risks actually occur, our business, financial condition or operations could be adversely affected. In that case, the trading price of our common stock could decline, and you may lose all or part of your investment.

## Adverse changes in economic conditions or interest rates may negatively affect our earnings, capital and liquidity.

The results of operations for financial institutions, including our bank, may be materially and adversely affected by changes in prevailing local and national economic conditions, including declines in real estate market values and the related declines in value of our real estate collateral, rapid increases or decreases in interest rates and changes in the monetary and fiscal policies of the federal government. Our profitability is heavily influenced by the spread between the interest rates we earn on loans and investments and the interest rates we pay on deposits and other interest-bearing liabilities. Substantially all of our loans are to businesses and individuals in western, south central, or southeastern Michigan, and any decline in the economy of these areas could adversely affect us. Like most banking institutions, our net interest spread and margin will be affected by general economic conditions and other factors that influence market interest rates and our ability to respond to changes in these rates. At any given time, our assets and liabilities may be such that they will be affected differently by a given change in interest rates.

# Our credit losses could increase and our allowance for loan and lease losses may not be adequate to cover actual loan losses.

The risk of nonpayment of loans is inherent in all lending activities, and nonpayment, when it occurs, may have a materially adverse effect on our earnings and overall financial condition as well as the value of our common stock. Our focus on commercial lending may result in a larger concentration of loans to small businesses. As a result, we may assume different or greater lending risks than other banks. We make various assumptions and judgments about the collectibility of our loan portfolio and provide an allowance for losses based on several factors. If our assumptions are wrong, our allowance for loan and lease losses may not be sufficient to cover our losses, which would have an adverse effect on our operating results. The actual amounts of future provisions for loan and lease losses cannot be determined at this time and may exceed the amounts of past provisions. Additions to our allowance for loan and lease losses decrease our net income.

## We rely heavily on our management and other key personnel, and the loss of any of them may adversely affect our operations.

We are and will continue to be dependent upon the services of our management team, including Michael H. Price, Chairman of the Board, President and Chief Executive Officer, and our other senior managers. The loss of Mr. Price, or any of our other senior managers, could have an adverse effect on our growth and performance. We have entered into employment contracts with Mr. Price and two other executive officers. The contracts provide for a three year employment period that is extended for an additional year each year unless a notice is given indicating that the contract will not be extended.

In addition, we continue to depend on our city presidents and key commercial loan officers. Our city presidents and several of our commercial loan officers are responsible, or share responsibility, for generating and managing a significant portion of our commercial loan and lease portfolio. Our success can be attributed in large part to the relationships these officers as well as members of our management team have developed and are able to maintain with our customers as we continue to implement our community banking philosophy. The loss of any of these commercial loan officers could adversely affect our loan and lease portfolio and performance, and our ability to generate new loans and leases. Many of our key employees have signed agreements with us agreeing not to compete with us in one or more of our markets for specified time periods if they leave employment with us.

Some of the other financial institutions in our markets also require their key employees to sign agreements that preclude or limit their ability to leave their employment and compete with them or solicit their customers. These agreements make it more difficult for us to hire loan officers with experience in our markets who can immediately solicit their former or new customers on our behalf.

## Decline in the availability of out-of-area deposits could cause liquidity or interest rate margin concerns, or limit our growth.

We have utilized and expect to continue to utilize out-of-area or wholesale deposits to support our asset growth. These deposits are generally a lower cost source of funds when compared to the interest rates that we would have to offer in our local markets to generate a commensurate level of funds. In addition, the overhead costs associated with wholesale deposits are considerably less than the overhead costs we would incur to obtain and administer a similar level of local deposits. A decline in the availability of these wholesale deposits would require us to fund our growth with more costly funding sources, which could reduce our net interest margin, limit our growth, reduce our asset size, or increase our overhead costs. Wholesale deposits include deposits obtained through brokers. If a bank is not well capitalized, regulatory approval is required to accept brokered deposits.

## Future sales of our common stock or other securities may dilute the value of our common stock.

In many situations, our Board of Directors has the authority, without any vote of our shareholders, to issue shares of our authorized but unissued stock, including shares authorized and unissued under our Stock Incentive Plan of 2006. In the future, we may issue additional securities, through public or private offerings, in order to raise additional capital. Any such issuance would dilute the percentage of ownership interest of existing shareholders and may dilute the per share book value of the common stock. In addition, option holders under our stock-based incentive plans may exercise their options at a time when we would otherwise be able to obtain additional equity capital on more favorable terms.

#### Our growth and expansion may be limited by many factors.

Our primary growth strategy has been to grow internally by increasing our business in the western Michigan area, and more recently in the Lansing, Ann Arbor and Oakland County areas of Michigan. We are also considering other areas in which we may expand our business. This internal growth strategy depends in large part on generating an increasing level of loans and deposits at acceptable risk and interest rate levels without commensurate increases in non-interest expenses. There can be no assurance that we will be successful in continuing our growth strategy due to delays and other impediments resulting from regulatory oversight, limited availability of qualified personnel and favorable and cost effective branch sites, and management time, capital, and expenses required to develop new branch sites and markets. In addition, the success of our growth strategy will depend on maintaining sufficient regulatory capital levels and on adequate economic conditions in our market areas.

In addition, although we have no current plans to do so, we may acquire banks, related businesses or branches of other financial institutions that we believe provide a strategic fit with our business. To the extent that we grow through acquisitions, we cannot assure you that we will be able to adequately or profitably manage this growth. Acquiring other banks, businesses, or branches involves risks commonly associated with acquisitions, including exposure to unknown or contingent liabilities and asset quality issues, difficulty and expense of integrating the operations and personnel, potential disruption to our business including the diversion of management s time and attention, and the possible loss of key employees and customers.

# Our future success is dependent on our ability to compete effectively in the highly competitive banking industry.

We face substantial competition in all phases of our operations from a variety of different competitors. Our future growth and success will depend on our ability to compete effectively in this highly competitive environment. We compete for deposits, loans and other financial services with numerous Michigan-based and out-of-state banks, thrifts, credit unions and other financial institutions as well as other entities that provide financial services, including securities firms and mutual funds. Some of the financial institutions and financial service organizations with which we compete are not subject to the same degree of regulation as we are. Most of our competitors have been in business for many years, have established customer bases, are larger, have substantially higher lending limits than we do and offer branch networks and other services which we do not, including trust and international banking services. Most of these entities have greater capital and other resources than we do, which, among other things, may allow them to price their services at levels more favorable to the customer and to provide larger credit facilities than we do. This competition may limit our growth or earnings. Under the Gramm-Leach-Bliley Act of 1999, effective March 11, 2000, securities firms and insurance companies that elect to become financial holding companies may acquire banks and other financial institutions. The Gramm-Leach-Bliley Act affects the competitive environment in which we conduct business. The financial services industry is also likely to become more competitive as further technological advances enable more companies to provide financial services. These technological advances may diminish the importance of depository institutions and other financial intermediaries in the transfer of funds between parties. We are subject to significant government regulation, and any regulatory changes may adversely affect us.

The banking industry is heavily regulated under both federal and state law. These regulations are primarily intended to protect customers, not our creditors or shareholders. Existing state and federal banking laws subject us to substantial limitations with respect to the making of loans, the purchase of securities, the payment of dividends and many other aspects of our business. Some of these laws may benefit us, others may increase our costs of doing business, or otherwise adversely affect us and create competitive advantages for others. Regulations affecting banks and financial services companies undergo continuous change, and we cannot predict the ultimate effect of these changes, which could have a material adverse effect on our profitability or financial condition. Federal economic and monetary policy may also affect our ability to attract deposits, make loans and achieve satisfactory interest spreads. We continually encounter technological change, and we may have fewer resources than our competitors to continue to invest in technological improvements.

The banking industry is undergoing technological changes with frequent introductions of new technology-driven products and services. In addition to better serving customers, the effective use of technology increases efficiency and enables financial institutions to reduce costs. Our future success will depend, in part, on our ability to address the needs of our customers by using technology to provide products and services that will satisfy customer demands for convenience as well as create additional efficiencies in our operations. Many of our competitors have substantially greater resources to invest in technological improvements. There can be no assurance that we will be able to effectively implement new technology-driven products and services or be successful in marketing these products and services to our customers.

## Our Articles of Incorporation and By-laws and the laws of Michigan contain provisions that may discourage or prevent a takeover of our company and reduce any takeover premium.

Our Articles of Incorporation and By-laws, and the corporate laws of the State of Michigan, include provisions which are designed to provide our Board of Directors with time to consider whether a hostile takeover offer is in our and our shareholders best interest. These provisions, however, could discourage potential acquisition proposals and could delay or prevent a change in control. The provisions also could diminish the opportunities for a holder of our common stock to participate in tender offers, including tender offers at a price above the then-current market price for our common stock. These provisions could also prevent transactions in which our shareholders might otherwise receive a premium for their shares over then-current market prices, and may limit the ability of our shareholders to approve transactions that they may deem to be in their best interests.

The Michigan Business Corporation Act contains provisions intended to protect shareholders and prohibit or discourage various types of hostile takeover activities. In addition to these provisions and the provisions of our Articles of Incorporation and Bylaws, federal law requires the Federal Reserve Board s approval prior to acquiring

control of a bank holding company. All of these provisions may delay or prevent a change in control without action by our shareholders and could adversely affect the price of our common stock.

## There is a limited trading market for our common stock.

The price of our common stock has been, and will likely continue to be, subject to fluctuations based on, among other things, economic and market conditions for bank holding companies and the stock market in general, as well as changes in investor perceptions of our company. The issuance of new shares of our common stock also may affect the market for our common stock.

Our common stock is traded on the Nasdaq Global Select Market under the symbol MBWM . The development and maintenance of an active public trading market depends upon the existence of willing buyers and sellers, the presence of which is beyond our control. While we are a publicly-traded company, the volume of trading activity in our stock is still relatively limited. Even if a more active market develops, there can be no assurance that such a market will continue, or that our shareholders will be able to sell their shares at or above the offering price.

We have paid a 5% stock dividend on our common stock each year since 2001, and have paid a quarterly cash dividend each quarter beginning with the first quarter of 2003. While we expect to continue paying cash dividends, there is no assurance that we will continue to do so.

### Our business is subject to operational risks.

We, like most financial institutions, are exposed to many types of operational risks, including the risk of fraud by employees or outsiders, unauthorized transactions by employees or operational errors. Operational errors may include clerical or record keeping errors or those resulting from faulty or disabled computer or telecommunications systems. Given our volume of transactions, certain errors may be repeated or compounded before they are discovered and successfully corrected. Our necessary dependence upon automated systems to record and process our transaction volume may further increase the risk that technical system flaws or employee tampering or manipulation of those systems will result in losses that are difficult to detect.

We may also be subject to disruptions of our operating systems arising from events that are wholly or partially beyond our control, including, for example, computer viruses or electrical or telecommunications outages, which may give rise to losses in service to customers and to loss or liability to us. We are further exposed to the risk that our external vendors may be unable to fulfill their contractual obligations to us, or will be subject to the same risk of fraud or operational errors by their respective employees as are we, and to the risk that our or our vendors business continuity and data security systems prove not to be sufficiently adequate. We also face the risk that the design of our controls and procedures prove inadequate or are circumvented, causing delays in detection or errors in information. Although we maintain a system of controls designed to keep operational risk at appropriate levels, there can be no assurance that we will not suffer losses from operational risks in the future that may be material in amount. **Item 1B. Unresolved Staff Comments** 

We have received no written comments regarding our periodic or current reports from the staff of the Securities and Exchange Commission that were issued 180 days or more before the end of our 2007 fiscal year and that remain unresolved.

#### Item 2. Properties.

During 2005, our bank placed into service a new four-story facility located approximately two miles north from the center of downtown Grand Rapids. This facility serves as the Company s headquarters and our bank s main office, and houses the administration function, our bank s commercial lending and review function, our bank s loan operations function, a full service branch, portions of our bank s retail lending and business development function and our bank s retail brokerage operation. The facility consists of approximately 55,000 square feet of usable space and contains multiple drive-through lanes with ample parking. The land and building are owned by our real estate company. The address of this facility is 310 Leonard Street NW, Grand Rapids, Michigan.

Our bank designed and constructed a full service branch and retail loan facility which opened in July of 1999 in Alpine Township, a northwest suburb of Grand Rapids. The facility is one story and has approximately 8,000 square feet of usable space. The land and building are owned by our bank. The facility has multiple drive-through lanes and ample parking space. The address of this facility is 4613 Alpine Avenue NW, Comstock Park, Michigan.

During 2001, our bank designed and constructed two facilities on a 4-acre parcel of land located in the City of Wyoming, a southwest suburb of Grand Rapids. The land had been purchased by our bank in 2000. The larger of the two buildings is a full service branch and deposit operations facility which opened in September of 2001. The facility is two-stories and has approximately 25,000 square feet of usable space. The facility has multiple drive-through lanes and ample parking space. The address of this facility is 5610 Byron Center Avenue SW, Wyoming, Michigan. The other building is a single-story facility with approximately 11,000 square feet of usable space. Our bank s accounting, audit, loss prevention and wire transfer functions are housed in this building, which underwent a renovation in 2005 that almost doubled its size. The address of this facility is 5650 Byron Center Avenue SW, Wyoming, Michigan.

During 2002, our bank designed and constructed a full service branch which opened in December of 2002 in the City of Kentwood, a southeast suburb of Grand Rapids. The land had been purchased by our bank in 2001. The facility is one story and has approximately 10,000 square feet of usable space. The facility has multiple drive-through lanes and ample parking space. The address of this facility is 4860 Broadmoor Avenue SW, Kentwood, Michigan.

During 2003, our bank designed and constructed a full service branch in the northeast quadrant of the City of Grand Rapids. The land had been purchased by our bank in 2002. The facility is one story and has

approximately 3,500 square feet of usable space. The facility has multiple drive-through lanes and ample parking space. The address of this facility is 3156 Knapp Street NE, Grand Rapids, Michigan.

During 2003, our bank designed and started construction of a new two-story facility located in Holland, Michigan. This facility, which was completed during the fourth quarter of 2004, serves as a full service banking center for the Holland area, including commercial lending, retail lending and a full service branch. The facility, which is owned by our bank, consists of approximately 30,000 square feet of usable space and contains multiple drive-through lanes with ample parking. The address of this facility is 880 East 16<sup>th</sup> Street, Holland, Michigan.

During 2005, our bank opened a branch facility in the City of Ann Arbor, Michigan. The facility is one story and has approximately 10,000 square feet of usable space. The facility is operated under a lease agreement between our bank and a third party, and serves as a full service banking center for the Ann Arbor area, including commercial lending, retail lending and a full service branch. There is ample parking space, but no drive-through lanes. The address of this facility is 325 Eisenhower Parkway, Ann Arbor, Michigan.

During 2006, our bank purchased approximately 3 acres of vacant land and designed and initiated construction of a new three-story facility in East Lansing, Michigan. This facility was completed during the second quarter of 2007, and serves as a full service banking center for the greater Lansing area, including commercial lending, retail lending, and a full service branch. The facility consists of approximately 27,000 square feet of usable space and contains multiple drive-through lanes with ample parking. The address of this facility is 3737 Coolidge Road, East Lansing, Michigan.

During 2007, our bank opened a branch facility in the City of Novi, Michigan. The facility is one story and has approximately 8,600 square feet of usable space. The facility is operated under a lease agreement between our bank and a third party, and serves as a full service banking center for the Oakland County area, including commercial lending, retail lending and a full service branch. There is ample parking space, but no drive-through lanes. The address of this facility is 28350 Cabot Road, Novi, Michigan.

## Item 3. Legal Proceedings.

From time to time, we may be involved in various legal proceedings that are incidental to our business. In the opinion of management, we are not a party to any legal proceedings that are material to our financial condition, either individually or in the aggregate.

Item 4. Submission of Matters to a Vote of Security Holders. None

## PART II

# Item 5. Market for Registrant s Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities.

Our common stock is traded on the Nasdaq Global Select Market under the symbol MBWM . At February 11, 2008, there were 301 record holders of our common stock. In addition, we estimate that there were approximately 4,000 beneficial owners of our common stock who own their shares through brokers or banks.

The following table shows the high and low sales prices for our common stock as reported by the Nasdaq Global Select Market for the periods indicated and the quarterly cash dividends paid by us during those periods. The prices have been adjusted for the 5% stock dividends paid on May 4, 2007 and May 16, 2006.

	High	Low	Dividend
2007			
First Quarter	\$36.62	\$29.30	\$0.13
Second Quarter	31.43	26.59	0.14
Third Quarter	27.40	19.86	0.14
Fourth Quarter	22.70	14.49	0.14
2006			
First Quarter	\$36.38	\$34.01	\$0.11
Second Quarter	39.57	33.61	0.12
Third Quarter	39.10	35.16	0.12
Fourth Quarter	38.87	35.30	0.12

Holders of our common stock are entitled to receive dividends that the Board of Directors may declare from time to time. We may only pay dividends out of funds that are legally available for that purpose. We are a holding company and substantially all of our assets are held by our subsidiaries. Our ability to pay dividends to our shareholders depends primarily on our bank s ability to pay dividends to us. Dividend payments and extensions of credit to us from our bank are subject to legal and regulatory limitations, generally based on capital levels and current and retained earnings, imposed by law and regulatory agencies with authority over our bank. The ability of our bank to pay dividends is also subject to its profitability, financial condition, capital expenditures and other cash flow requirements. In addition, under the terms of our subordinated debentures, we would be precluded from paying dividends on our common stock if an event of default has occurred and is continuing under the subordinated debentures, or if we exercised our right to defer payments of interest on the subordinated debentures, until the deferral ended.

On January 8, 2008, we declared a \$0.15 per share cash dividend on our common stock, payable on March 10, 2008 to record holders as of February 8, 2008. We currently expect to continue to pay a quarterly cash dividend, although there can be no assurance that we will continue to do so.

Issuer Purchases of Equity Securities

We did not purchase any shares of our common stock during the fourth quarter of 2007. Shareholder Return Performance Graph

Set forth below is a line graph comparing the yearly percentage change in the cumulative total shareholder return on our common stock (based on the last reported sales price of the respective year) with the cumulative total return of the Nasdaq Composite Index and the SNL Nasdaq Bank Index from December 31, 2002 through December 31, 2007. The following is based on an investment of \$100 on December 31, 2002 in our common stock, the Nasdaq Composite Index and the SNL Nasdaq Bank Index, with dividends reinvested where applicable.

	Period Ending					
Index	12/31/02	12/31/03	12/31/04	12/31/05	12/31/06	12/31/07
Mercantile Bank						
Corporation	100.00	163.88	188.10	194.47	202.59	89.59
NASDAQ Composite	100.00	150.01	162.89	165.13	180.85	198.60
SNL Bank NASDAQ						
Index	100.00	129.08	147.94	143.43	161.02	126.42

## Item 6. Selected Financial Data.

The Selected Financial Data on page F-3 in this Annual Report is incorporated here by reference.

Item 7. Management s Discussion and Analysis of Financial Condition and Results of Operation.

Management s Discussion and Analysis on pages F-4 through F-23 in this Annual Report is incorporated here by reference.

## Item 7A. Quantitative and Qualitative Disclosures About Market Risk.

The information under the heading Market Risk Analysis on pages F-24 through F-26 in this Annual Report is incorporated here by reference.

#### Item 8. Financial Statements and Supplementary Data.

The Consolidated Financial Statements, Notes to Consolidated Financial Statements and the Reports of Independent Registered Public Accounting Firms on pages F-27 through F-29 in this Annual Report are incorporated here by reference.

## Item 9. Changes in and Disagreements With Accountants on Accounting and Financial Disclosure.

We previously reported a change in our registered public accounting firm from Crowe Chizek and Company LLC to BDO Seidman, LLP. On September 19, 2006, we filed a report on Form 8-K with the Securities and Exchange Commission reporting the change of accountants and making related disclosures.

#### Item 9A. Controls and Procedures.

As of December 31, 2007, an evaluation was performed under the supervision of and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures. Based on that evaluation, our management, including our Chief Executive Officer and Chief Financial Officer, concluded that our disclosure controls and procedures were effective as of December 31, 2007.

There have been no significant changes in our internal controls over financial reporting during the quarter ended December 31, 2007, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Exchange Act Rules 13a-15(f). There are inherent limitations in the effectiveness of any system of internal control. Accordingly, even an effective system of internal control can provide only reasonable assurance with respect to financial statement preparation.

Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we conducted an evaluation of the effectiveness of our internal control over financial reporting as of December 31, 2007. This evaluation was based on criteria for effective internal control over financial reporting described in *Internal Control Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on our evaluation under the framework in *Internal Control Integrated Framework*, our management concluded that our internal control over financial reporting was effective as of December 31, 2007.

Our independent registered public accounting firm has issued an audit report on our internal control over financial reporting which is included in this Annual Report.

#### Item 9B. Other Information.

None

#### PART III

### Item 10. Directors, Executive Officers and Corporate Governance.

The information presented under the captions Election of Directors, Executive Officers, Section 16(a) Beneficial Ownership Reporting Compliance and Corporate Governance Code of Ethics in the definitive Proxy Statement of Mercantile for our April 24, 2008 Annual Meeting of Shareholders (the Proxy Statement ), a copy of which will be filed with the Securities and Exchange Commission before the meeting date, is incorporated here by reference.

We have a separately-designated standing audit committee established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934. The members of the Audit Committee consist of Betty S. Burton, David M. Cassard, David M. Hecht, Calvin D. Murdock, Merle J. Prins and Timothy O. Schad. The Board of Directors has determined that Messrs. Cassard, Murdock and Schad, members of the Audit Committee, are qualified as audit committee financial experts, as that term is defined in the rules of the Securities and Exchange Commission. Messrs. Cassard, Murdock and Schad are independent, as independence for audit committee members is defined in the Nasdaq listing standards and the rules of the Securities and Exchange Commission.

#### Item 11. Executive Compensation.

The information presented under the captions Executive Compensation, Corporate Governance Compensation Committee Interlocks and Insider Participation and Compensation Committee Report in the Proxy Statement is incorporated here by reference.

## Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters.

The information presented under the caption Stock Ownership of Certain Beneficial Owners and Management in the Proxy Statement is incorporated here by reference.

Equity Compensation Plan Information

The following table summarizes information, as of December 31, 2007, relating to compensation plans under which equity securities are authorized for issuance.

	Number of securities to be issued upon exercise of outstanding options, warrants and	Weighted average exercise price of outstanding options, warrants and	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in
Plan Category	rights	rights	column (a))

Stock Option Plan, 2000 Employee Stock Option Plan, 2004 Employee Stock Option Plan, Independent Director Stock Option Plan and the Stock Incentive Plan of 2006.

(2) These securities are available under the Stock Incentive Plan of 2006. Incentive awards may include, but are not limited to, stock options, restricted stock, stock appreciation rights and stock awards.

## Item 13. Certain Relationships and Related Transactions, and Director Independence.

The information presented under the captions Transactions with Related Persons and Corporate Governance Director Independence in the Proxy Statement is incorporated here by reference.

## Item 14. Principal Accountant Fees and Services.

The information presented under the caption Principal Accountant Fees and Services in the Proxy Statement is incorporated here by reference.

## PART IV

## Item 15. Exhibits and Financial Statement Schedules

(a) (1) Financial Statements. The following financial statements and reports of independent registered public accounting firms of Mercantile Bank Corporation and its subsidiaries are filed as part of this report:
 Report of Independent Registered Public Accounting Firm dated February 25, 2008 BDO Seidman, LLP
 Report of Independent Registered Public Accounting Firm dated February 20, 2007 Crowe Chizek and Company LLC

Consolidated Balance Sheets - December 31, 2007 and 2006

Consolidated Statements of Income for each of the three years in the period ended December 31, 2007 Consolidated Statements of Changes in Shareholders Equity for each of the three years in the period ended December 31, 2007

Consolidated Statements of Cash Flows for each of the three years in the period ended December 31, 2007 Notes to Consolidated Financial Statements

The financial statements, the notes to financial statements, and the reports of independent registered public accounting firms listed above are incorporated
