FORWARD-LOOKING STATEMENTS

Certain statements contained herein are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Although Dynegy and Enron believe these statements are accurate, their businesses are dependent on various regulatory issues, general economic conditions and future trends. The completion of the transaction is conditioned upon the fulfillment of a number of conditions, and the success of the combination of the two companies will be dependent on a wide range of issues. These factors can cause actual results to differ materially from the forward-looking statements that have been made. In particular:

The benefits that are expected to result from the combination are predicated upon the belief that combining the complementary expertise and resources of Dynegy and Enron will result in increased opportunities and decreased expenses. Because of the complexity of the environments in which the two companies operate, there can be no certainty that these benefits will be achieved to the extent expected.

The estimate of the accretiveness of the transaction reflects the companies' current best estimates based upon available information and numerous assumptions and, accordingly, may or may not be achieved if business conditions change or the assumptions that have been made do not prove to be accurate.

Significant regulatory approvals are necessary to complete the transaction, including approvals under the HSR Act, the FERC, the SEC and certain state and foreign authorities. There can be no assurances that the exemption and approvals will be obtained on a timely basis and on acceptable terms. In addition, Dynegy and Enron operate in regulated environments. Any significant changes in these regulatory environments could negatively impact the transaction and the combined entity.
